Certificate Students

The certificate program is comprised of those students who wish to pursue their studies beyond the high school level, but who do not intend to complete a four-year degree program. Completion of two years of college work leading to a significant level of competence in a specialized field is necessary for a certificate. Those fields open at present are Agriculture, Biological Sciences, Chemistry, General Arts and Science, General Business, Secretarial Studies, and Technical Aid.

FRONT ROW: Phyllis Maske, Elizabeth Adams, Nancy Twitchell. SECOND ROW: Aileen Lynch.
