Set Up Business Guidance Bureau To Help Del. Students Secure Jobs

Lt. Col. Ashbridge Heads New Department Which Will Try To Establish Contacts With Industrial And Business Firms

EXPERIMENT UNTIL JUNE 1937

In accordance with the resolution passed by the Board of Trustees at their meeting of December 14, the Business Guidance Bureau is now functioning under the direction of Lt.-Colonel Donald Ashbridge, retired. Colonel Ashbridge was former head of the R. O. T. C. unit at Delaware College.

The Board of Trustees directed that "beginning January 1, 1936, a Business Guidance Bureau shall be put into effect which shall address itself to the task of putting members of the Senior classes and other graduates of the University in touch with possible forms of employment, by establishing contacts with industrial, business and professional concerns by which employment may be secured in Delaware and neighboring states with understanding that this is an experiment, and Board may or may not continue after June, 1937."

In an interview with a representative of THE REVIEW, Colonel Ashbridge emphasized the fact the function of the Bureau is to assist but not to guarantee gradu-

Heads Business Guidance

Lt. Col. Donald Ashbridge

Swinnen To Give Varied Program Thursday Night

Wagner, Bach, Massenet, Schubert, And Others In Second Evening Concert Of Year

Firmin Swinnen will give his second evening recital of the year on the University Hour Program in Mitchell Hall, Thursday evening, January 16. Mr. Swinnen's recitals have this year been among the most popular numbers on the University Hour programs, the last given in October being attended by more than 650.

As in the past, Mr. Swinnen has selected for his program some of the immortal favorites, Schubert's "Ave Maria," the brilliant "Fugue in G Major" of Bach, two of Wagners, the famous Prize Song from "Die Meistersinger" and the Bridal Chorus from "Lohengrin," and the colorful "Andante Cantabile" from Tschaikowski's Fifth Symphony.

The complete program follows:

Caprice Heroique ..... Bonnet
Elegie ..... Massenet
Ave Maria ..... Schubert
Sketch No. 4 ..... Schumann
Chorale—Prelude in G Minor ..... Bach
Fugue in G Major ..... Bach
Andante Cantabile ..... Tschaikowski
In Moonlight ..... Kinder
Walther's Prize Song ..... Wagner
Lohengrin ..... Wagner
The Swan ..... Saint-Saens
Aida Fantaisie ..... Verdi

The recital will begin promptly at 8 p. m. No admission will be charged.

Dr. Ryden Will Speak To Phila. Society

Dr. George H. Ryden, head of the department of History and Political Science, will speak at the annual dinner and meeting of the Netherland Society of Philadelphia at the Bellevue-Stratford Hotel on Thursday evening, January 23. The topic of his address will be "Some Dutch Explorers." This society consists of descendants of Hollanders arriving in this country before the Revolutionary War.

Finance Committee To Appoint Business Administrator

The Board of Trustees have placed the matter of the appointment of a business administrator to succeed Mr. A. G. Wilkinson in the hands of the Committee on Finance. This committee has received a number of applications for the position, but as yet so far as THE REVIEW has been able to ascertain, have reached no decision.

Choose 'Squaring Circle' For Annual Production

Footlights Club Selects Rollicking Comedy By Katayev; To Be Presented February 27

At a meeting held on January 13, the Footlights Club selected "Squaring the Circle," a rollicking comedy by Valentine Katayev, for its annual production to be presented on February 27. This same play closed a long, successful run in New York last week. Tryouts for its cast will be held next Monday from 3.30-5.30 p. m. T. Willey Keithley will direct the production.

The story of the play is an interesting and amusing one concerning young love among Communists. The comedy and action are such as should permit the Footlights to come well up to any past performance. Many of the parts, though difficult, will give campus talent an opportunity to show its ability.

Assisting Keithley as director will be the following staff heads: Gordon Chesser, set designer; Dan Medill, business manager; Alvin Handloff, publicity manager; Edward Davidson, property; Herbert Warburton, painting; John Alden, stage manager.

Professor Ralph W. Jones To Be Married Soon

Reports have been confirmed that Mr. Ralph W. Jones, Assistant Professor of Mathematics, is to be married to Miss Olive Murray, resident nurse at the Women's College. The wedding will take place at some time in the next two weeks.

Mr. Jones is not only one of the most liked professors on the campus, but is also coach of the Delaware College tennis team.

Oldest Delaware Grad Dies In Philadelphia Following Active Life

George Morgan, Class Of '75, Passes Away January 8; Prominent Journalist And Author Until Retirement

Oldest Living Delaware Graduates Are Women

The oldest living graduates of Delaware College are now Mrs. Delaware Clark of Wilmington, and Mrs. A. F. Williamson of Philadelphia, both of the class of '75. It is interesting to note that both of these are women, this college having been coeducational at the time.

Mr. A. V. Leslie George of New Castle, class of '76, is the oldest male graduate.

Mr. George Morgan, 82 years old, oldest alumnus of the University of Delaware, newspaperman for more than fifty years in Philadelphia, author of many biographical and historical works, died after a year's illness on the afternoon of Wednesday, January 8, at his home in Philadelphia.

Mr. Morgan was born October 10, 1854, at Concord, Delaware. He was the direct descendant of Francis Twiford, who came to Maryland from England in 1659, and a

College Rings To Be Under Student Council Control

Professor Blumberg And Mr. Bardo Selected For Student Relations Committee To Collect Student Criticism

NAME NEW HONOR SOCIETIES

For the purpose of providing students with an economy, the Student Council has assumed control of the distribution of college rings in the future.

The Council has adopted the military type ring which has been used here during the past few years as a standard one. It has been submitted to a number of jewelers for bids. The rings will be purchased from the lowest bidder.

It is the idea of the Council to eliminate the agent's profit, and thus save the students money on their rings.

At the same time, only those qualified to wear a Delaware ring will be permitted to purchase them and they will have greater significance.

The Council has also voted upon names for the new honor societies. It was decided to retain the names of Derelict and Blue Key for the senior and junior societies. Sparton was the name decided on for the sophomore society.

Choice for the members of these societies will be made in May on the basis of points accumulated under the point system.

The Council has selected Professor Leo Blumberg and Mr. Ed-

W. C. D. Chorus Presents Winter Concert Tonight

Women's College Students Also To Give Concert In Music Building Friday Afternoon

Conducted by Mrs. Hazel Gildersleeve, the Women's College Chorus presents its winter concert in Mitchell Hall tonight at 8 o'clock. Assisting the chorus will be Irene Nelson, contralto; Catherine Rittenhouse, soprano; Mr. Glenn Gildersleeve, baritone; and the Spencer Trio.

The complete program follows: "Carol of the Russian Children," arranged by Gaul; "A Babe is Born in Bethlehem," arranged by Manney; "Three Kings Have Journeyed," Cornelius-Damrosch; "Mother Goose Suite," Horton—by the chorus. "Without Thee," d'Hardelot; "Songs My Mother Taught Me," Dvorák; "Villanelle," Dell' Acqua, sung by Catherine Rittenhouse. "Snow," Elgar; "Mah Li'le Picaninny," Huerter; "Dawn," Curran-Deis; "Dance Song," arranged by Manney, Chorus; "Miniatures," Spencer Trio; "Peter Piper," Bridge; "American Lullaby," Rich; and "March of the Toys," Herbert, Chorus.

Another musical event at Women's College will take place this Friday afternoon at 4.10 in the Music Building. It is a student recital given by Amelie Kozinski, Catherine Rittenhouse, Rose Chalodanco, Margaret McNulty, Ruth Mylrea, Marjorie Slider and Ruth Bell. Everyone is invited to attend.

Women's College To Give New B. A. Music Degree

Students May Specialize In Piano, Violin, Or Voice, Along With Courses In Theory

Beginning with the second semester of this year, students at Women's College may major in Music, receiving the B. A. degree in the School of Arts and Science at the end of four years.

Music students electing this may specialize in piano, violin, or voice, along with courses in harmony, ear training, sight singing, appreciation and history of music, chorus singing, and public school music. The faculty includes Miss Helen Russell, director of the Music Department, who teaches sight

Delaware N. Y. A. Workers Doing Creditable Work Despite Small Monthly Appropriation

Imagine a swarm of dead mosquitoes, their graves unmarked and their names unknown to posterity!

Imagine the library closed on Saturday afternoons and on some evenings!

Imagine No-Man's Land without its new trees and shrubs!

This "Hell on Earth" was the University of Delaware scarcely over a year ago. No longer, however, must the Engineering School, provided with the money for materials and equipment, neglect certain important research projects because of lack of funds for help. No longer must the Agricultural School flounder about uncertainly without the necessary data for its Mosquito Control Project because there was no money to pay the help needed for classifying and mounting the many various species of insects which they had collected.

No longer must the Engineering School do without certain sorely-needed equipment because of the pure lack of what it takes.

All is now Peace and Heaven and Prosperity.

Financial aid for 109,001 students in 1,602 colleges and universities has been provided by the National Youth Administration. (These figures are based on the report as of November 11, by Aubrey W. Williams, Executive Director of the NYA.) The program involves a total monthly allotment of $1,638,945.

Out of 148 applications received by the Student Self-Aid Committee, which handles the NYA here, 121 have been accepted and assigned to work. 119 applied from Delaware College and 94 were accepted. In the Women's College,

EDITORIALS

ATTENTION, SENIORS!

A Business Guidance Bureau has finally been established here, under the direction of Lieutenant-Colonel Ashbridge. We have long advocated such a department and feel that it is an essential function of this institution.

It shall be the purpose of this Bureau to secure contacts in the business, industrial, and professional fields in an effort to help Delaware graduates to obtain positions. The Bureau will operate for both the Men's College and Women's College. The full details of the plan are printed on another page of this paper.

There is little time left between now and June. Those of the Senior class who desire positions upon graduation in June must see Lieutenant-Colonel Ashbridge in his office on the third floor of Old College as soon as possible, so that he can begin to work on leads.

Although the Board of Trustees calls the plan an experiment until June of 1937, we feel certain that the Bureau under the capable direction of Lieutenant-Colonel Ashbridge will be successful and, therefore, permanent.

A BOUQUET TO THE STUDENT COUNCIL

This being the final issue of THE REVIEW for this term, we think it fitting to give some recognition to a group of men who devote time each week in the interests of the student body—the Student Council. This body holds regular meetings every Monday evening at which time student problems are discussed and acted upon.

The present Student Council merits special commendation for the excellent work which it has done. We can safely say that it is the most active Council we have had in recent years. Much of its action has been of a very fundamental and progressive nature.

Perhaps the most outstanding innovation of the term has been the Point System which definitely organizes and encourages extra-curricular activities, and provides a sound basic for the organization of the new honor societies which will be called Derelicts, Blue Keys, and Spartons for the senior, junior, and sophomore classes, respectively.

The new system of selecting the editor and business manager of the *Blue Hen* on a basis of merit is another improvement of essential importance.

The idea of distributing all college rings through the Student Council is one which should have received attention long ago, but which the present Council is adopting. The Council will sell all rings on a non-profit basis, eliminating the agent's commission, thus providing on economy to the student. At the same time there will be absolute insurance that none other than Delaware students of good standing will be able to purchase rings. Therefore, a Delaware ring will have greater significance than at the present time.

The Council is at the present time working on a plan to shift control of intra-mural athletics from the Athletic Council to the Department of Physical Education with an eye to developing an elaborate intra-mural sports program.

The securing of permission for the use of radios in Harter Hall is an achievement of the Student Council and has been greatly appreciated by many students.

"The Humanist" and the debating team have been revived under Student Council sponsorship and are prospering.

The provision for a faculty Student Relations Committee to collect student criticism and suggestion is evidence of recognition that the Student Council is in a position to aid in the progress and development of this college. We hope that the Student Council will continue in its interest and enthusiasm in vital problems which concern the welfare of the students and the University.

THE JUNIOR PROM

The Prom Committee had a good idea when it wanted to make the financing of the coming affair a class responsibility. We agree that it should not be entirely in the hands of a small group of students. However, the scheme they worked out of charging any loss to the contingency fee and carrying over any profit for the class's Senior Banquet just couldn't go through.

The fact that the Committee was willing to give the class the profits of the dance shows at least that their "hearts are in the right place." Their hope, we are certain, is to make a record-breaking Prom; a hope whose fulfillment needs the cooperation of the whole college.

Class of '37, we urge you especially to give your whole hearted support to the Prom Committee. Make a name for yourselves; go down in the annals of the University as one of the few classes to give a really successful Prom.

Johns Hopkins University recently accepted a gift of 300 books from the Italian government. An expected anti-Fascist demonstration by students failed to materialize.

Enrollment in Haverford's courses for the college janitors and kitchen men jumped this year from 11 to 25. Subjects include civics, French and algebra.

By Harry T. Stutman

There are a great many books on hand here, gentlemen, but we shall leave them all for a slight five-year jaunt of a thousand miles across the very northernmost part of Canada. Our companions will be three thousand reindeer and ten men. We are going to deliver these three thousand reindeer from Alaska, where there are plenty and the Eskimo is happy and prosperous, therefore, to the Eastern shore of Canada, where there are none, and the Eskimos are threatened with starvation. We prepare for a journey of twenty-four months. Now let's see what happens.

Ours is ". . . a unique task—a hazardous five-year undertaking, fraught with the dangers of semi-starvation, attacks from wolves, death from exposure, stampeding herds, snowslides, avalanches, crumbling ice shelves over steep crevasses, and blocked and lost pathways over unexplored country."

". . . The trek, estimated to occupy eighteen months, took more than five years. The herd and their doughty guardians were lost for months on end, out of all touch with the civilized world. The herders were believed to have perished from starvation and the herd to have been dispersed."

". . . Any task which required removing of mittens or the temporary exposure of flesh was contemplated with . . . horror . . . But the greater horror was due to the fact that even reindeer herders do not spend the winter constipated."

". . . A toothache was not such a problem, though, the answer being the pliers carried in the tool kit."

Oh, what a time we had, gentlemen, what a time! I could regale you for hours on end with such pleasant tales from *The Great Trek*, the story of the five-year drive of a reindeer herd through the icy wastes of Alaska and Northwestern Canada, by Max Miller, but the very first thing that hits your eye as you open the book is: *The entire contents of this book, text and photographs, are protected by copyright. None of the photographs is to be reproduced and none of the text is to be quoted except by reviewers (quotation by whom must be limited to 300 words) without written permission of the publishers.* "Reviewers . . . by whom": that's us. So you see, gentlemen. . . .

We haven't said much about Max Miller. That just goes to show you what a good writer he really is. All his previous books, *I Cover the Water Front, He Went Away for a While, The Man on the Barge*, and others, have been personal, intensely so. But this book is different. When we read it, who cares for Max Miller? He's an all right guy and all that, but . . . And that's just it. He does a perfect job of reporting, and who could ask for more? We have only one reservation to make in recommending *The Great Trek*. We read it during the holidays. We froze to death, and haven't thawed out yet. Forewarned is forewarned. Do not open until the Fourth of July.

Tryouts For Play

Tryouts for the Footlights Club play, "Squaring the Circle," will be held in Mitchell Hall next Monday afternoon, January 20, between 2.30 and 5.30 o'clock.

By Carl Bleiberg

Carl Bleiberg

At first the Junior Class decided to split the loss of the Prom, if any, among the members of the class. Now the Prom Committee has made up its mind that the affair is not such a bad risk after all, and will underwrite all losses and divide all profits among themselves. . . . *Squaring the Circle*, Russian comedy-hit now on Broadway, will be the next campus dramatic production . . . Bill Keithley will direct . . . For the E 52 Players Mr. Kase is looking for a suitable script of *Peer Gynt* to fit the stage limitations of Mitchell Hall. . . .

After last week's REVIEW some innocents thought it would continue as one of William Randolph Hearst's "yellow journals." . . . An enterprising newsboy sells his papers with this spiel: "Read all about the war on Ethiopia, the President's speech and a bg, juicy murder." . . . A new business administrator will be selected shortly after registration for the second semester. . . . Can't recall the studes ever being so national-minded as this week when the AAA decision split them into bitter Democratic and Republican camps.

Seventy-seven students receive monthly N. Y. A. checks . . . twenty-five from the W. C. D. . . . and to offset a Tory sneer only 10% are eligible to vote. . . .

Mark Twain invested hundreds of thousands of dollars into worthless inventions, but refused Alexander Graham Bell's request to buy $500 worth of stock to finance the telephone . . . the original $500 stock is valued at $750,000 today! . . . But that's no reason to buy a sweepstakes ticket.

Question: Must You Have A Major?

Answer:

To settle once and for all the uncertainty and confusion as to majors and minors for Arts and Science students, we give herewith the real stuff straight from the Dean's office:

The only students who are required to select a major and a minor are students in the general curriculum. Those enrolled in this curriculum must elect 24 credit hours in their major course starting with the Sophomore year and also 12 hours in their minor course starting with the Junior year.

Of the other Arts and Science curricula, Physical Education and Secondary Education have special subject requirements which are explained in the catalogue. Students in other curricula fulfill requirements for graduation by taking the subjects enumerated in the catalogue for their curricula.

The point to be cleared up though, is that only students in the general curriculum need a major and minor for graduation.

Glee Club Resumes Semi-Weekly Practices

Under Mr. T. D. Mylrea, the Glee Club has resumed practicing every Tuesday and Friday at 1 P. M., and is preparing for future engagements. Mr. Mylrea has been trying to arrange to have a mixed chorus program some time in the future with the Women's College Chorus.

Cagemen Hit Winning Stride In Third Effort Of Season

Delaware Five Defeats Haverford, Loses To Rutgers And Swarthmore

Newly Assembled Quintet Finds Way In Third Game By Crushing Main Line Team; Play P. M. C. In Newark, Saturday

Starting off with defeats from Rutgers and Swarthmore, the Blue Hen five managed to defeat Haverford in its third game, making their record so far one game won, two games lost.

Rutgers Wins 69-36

At the first game with Rutgers on the New Brunswick floor, the inexperienced team suffered defeat to the tune of 69-36. It was apparent in this game that Delaware was weak particularly in passing.

The lineup:

RUTGERS

	Goals: Field	Foul	Points
Lepine, forward	4	2	10
Strapp, forward	0	0	0
Moggio, forward	0	0	0
Blumberg, forward	6	0	12

Black, center	2	0	4
Daly, guard	0	1	1
E. Wilson, guard, forward	0	0	0
S. Wilson, guard	3	0	6
Kerns, guard	0	0	0
DuVall, guard	1	0	2
Totals	17	2	36

Swarthmore Wins Close One Win Over Haverford

A field goal by Kalkstein, Swarthmore forward, in the last two minutes of the game resulted in the second setback of the season for the Blue Hen quintet. The game was a hard fought, nip and tuck affair throughout with both teams alternately taking the lead. With two minutes to play of the first half, Daly dropped a field goal followed by a foul by Lindsay which gave the Hens a 17-16 lead at half time.

At the start of the second half, Perkins dropped in a foul shot for Swarthmore to knot the count once more. A field and a foul goal by Wharton and a shot from the court by Pennock gave Delaware the lead once more but two successive field and two foul shots by Perkins, reversed the lead and Swarthmore went to the front with the score 22-22. Carey scored a foul goal to tie the score again. Field goals by Wray and Kalkstein were followed quickly by double deckers by Pennock and Lindsay, once more tieing the score at 27-27 with four minutes to play. Several Blue Hen shots rolled around the hoop but failed to score and Kalkstein sank the winning score with 2 minutes to play to defeat the Blue Hens by a score of 29-27.

The failure of Delaware to convert their foul shots and ragged passing at times resulted in the defeat. Both teams scored 10 times from the field. Lou Carey led the Delaware scorers with 7 points while Wray with 7 was high scorer for Swarthmore.

In the preliminary game the Delaware J. V.'s took the Swarthmore J. V.'s into camp by a score of 35-26.

The lineup:

DELAWARE JAY VEES

	Goals: Field	Foul	Points
Klacjewski, forward	2	3	7

S. Wilson, guard	1	2	4
E. Wilson, guard	0	0	0
Lindsay, forward	1	3	5
Totals	10	7	27

After suffering defeat at the hands of both Rutgers and Swarthmore, the Delaware quint finally came through with a decisive win, beating Haverford College on the home floor to the tune of 37 to 19.

The Blue Hens still showed room for improvement in their passing, but otherwise they showed considerable improvement. From the time "Teedie" Wilson sank two field goals during the opening minutes of play, it was apparent that the Blue Hens would come out on top.

Scoring honors were shared by Lew Carey and Ferris Wharton, each of whom got 10 points. "Teedie" Wilson was a good second with 6 points.

Taylor, of the visitors, grabbed scoring honors for the losers by getting 8 of his team's 19 points.

J. V.'s Win Prelim

Preceding the Haverford game, the J. V.'s gave a good showing in defeating Archmere Academy. The score of this game was J. V.'s 34, Archmere 32.

The scores:

Gertrude Steinism

He was one of whom one might like the better the more one saw him less.

With The Blue And Gold

By Joe Perkins

Joe Perkins

Coach Bardo's natators have an excellent chance to go undefeated throught the season. Having started auspiciously by limiting George Washington to seven points in a meet during which one new record was established and another equaled, the Hen swimmers are easily the best tank team Delaware has had in several years. Only two obstacles exist that might prevent a completely victorious season. One is Pittsburgh. The other is mid-year examinations.

* * * *

A large portion of the team's strength lies with its sextette of sophomore stars, and several of them seem to be heading for ineligibility through scholastic difficulties. The University of Pittsburgh mermen, by whom Delaware has been licked for three successive years, are adjudged one of the finest tank outfits in the East. Those are the obstacles, and because of them we will withhold our conclusive prediction until the second semester arrives.

* * * *

Marty Howard, doing his first routine on the Blue and Gold varsity, began his big time career by equalling Bill Lawrence's 50 yard freestyle record, and came within one-tenth of a second of hitting Bull Carey's 100 yard mark. His classmate, Charles Kenworthy, also a debutant in varsity competition, started his year right by not only winning the 200 yard breaststroke event over Jack Hartmann, but also by establishing a new Delaware record in that event. And Soph Swartz won his first diving effort, Soph Snyder beat Du Ross in the 440, and Carpenter and Drozdov also hoisted the athletic reputation of the Sophomore Class, who captured five out of eight firsts in the Washington opener.

* * * *

Several of Coach Captain Cunningham's nimrods have come to us to plead for appropriation for rifle team expenses. While we were highly flattered by their appealing to us, we can't do much about it ourselves. But we can ask the rifle team a few questions. Have you guys on the rifle squad approached members of the Athletic Council and tried a little high-pressure personal persuasion? Have you gotten your coach to exert the influence that he gains from the mere fact that he is your coach? Have you held a war council and accumulated arguments that might, if presented to the Athletic Council by one of its regular members, obtain for you everything you want? All you have to do, in brief, is prove that the rifle team is as popular and as important as the fencing team, which we feel any fair observer can be led to believe. And the Athletic Council is a fair bunch of men. We can't do anything about it, but you guys on the rifle team can do plenty, if you show a little ambition.

* * * *

After dropping tilts to Rutgers and Swarthmore, the Hen cagebirds flew all over Haverford's defenses last night to get their first win of the season. The floor work of the Main Line boys was a bit fancier than that of the Delawareans, but our lads were out to win, and won by sheer energy and fight. In proof of that statement, we refer you to the contrast in foul shots allowed each team. In the first half the visitors were given eleven free throws, while they gave Delaware only four tries. Haverford sank five out of their eleven chances, the Hens scored on three out of their four. But don't get the impression that it was a dirty game. It wasn't. Dirty playing consists of deliberate fouling, and the calls against Delaware resulted almost entirely from the misdirection of fast, hard, and sportsmanlike effort against the gridironic signal-calling strategy of the Red quintette.

* * * *

Tomorrow will be the opening day for the Interfraternity Basketball Tournament play, with Sigma Nu and Theta Chi drawing the curtain. We should like to see the boys in Harter Hall get up a team and shove themselves into that affair on a challenge basis, just to give it a more democratic aspect. And the Non-frat commuting element could give a lot more zest to the competition. We have no recognized intermural athletic program to plead for, but we don't see any reason why the swarm of guys neither on the varsity squad nor in fraternities shouldn't have an outlet for their athletic ambitions. Here's your chance, you non-frat men. Are you going to take it?

Soph. A. & S. Students Defeat Engineers

The Sophomore Arts and Science and Agricultural students defeated the Sophomore Engineering students to the tune of 35 to 13, in a basketball game on Monday. The A. & S. and Aggies had a well-balanced team, the points being evenly distributed among them. The game was arranged by Herb Flickinger, who captained the A. & S. and Aggies team, and Joe Lofink, who led the Engineers. Tom Patterson refereed the game.

A. & S. AND AGGIES

	Goals: Field	Foul	Points
West, F.	4	0	8
Wells, F.	4	0	8
Long, C.	3	1	7
Rutledge, G.	3	0	6
Flickinger, G.	4	0	8
Total	17	1	35

ENGINEERS

Rifle Team Meets Eight Opponents

Postal Matches Listed For Nimrods; Records Set Last Season Approved

This week, with a squad cut to twenty men, the Blue Hen Rifle Team began its schedule of postal matches with various universities and colleges of the country. Eight opponents have been scheduled to date, including the following: University of Wyoming, University of Georgia, New York University, Gettysburg College, University of Pittsburgh, University of Michigan, Natrona High School of Wyoming, and Carnegie Tech.

Due to lack of interest and the insufficient support of the Athletic Council, the University of Delaware will not be represented by a rifle team in shoulder-to-shoulder matches this year.

The records established by members of last year's team will stand as the school records in rifle shooting. This year's squad members will endeavor to break the following recognized records:

Prone—Hoadley	97
Sitting—Page	93
Kneeling—Hoadley	85
Standing—Geist	71

To date, the following compose the team: Arnold, Benson, Bulger, Bumsted, Combs, Cooch, Davidson, Derickson, Geist, Haight, Hoadley, Hoffecker, Jackson, Leach, Lott, Page, Sloan, Snyder, Yerger, and Zabenko.

Seven Meets Listed For Fencing Outfit

Opener With Drew University Scheduled For February 5th; Intra-Team Tilts Continue

The official fencing schedule for 1936 has just been announced by Manager Vapaa. It follows:

Wed., Feb. 5—Drew University—Home
Sat., Feb. 15—Johns Hopkins—Home
Sat., Feb. 22—Reading Fencers Club—Home
Fri., Feb. 28—St. John's College—Home
Sat., Mar. 14—Temple University—Home
Tues., Mar. 24—Wm. & Mary College—Home
Fri., Mar. 27—Stevens Institute—Away

This schedule will probably be the most strenuous for the Blue Hen in many seasons, because the team will be largely made up of new men.

In order to qualify as a member of the team, each candidate will be expected to fence as many of the intra-squad bouts as possible. Practice will be continued during and after the mid-year examinations, in preparation for the opener with Drew on February 5.

The results of the foil bouts which have been run off recently in intra-team contests are as follows:

Davis, 5; Owings, 4.
Kozinski, 5; C. Smith, 2.
Davis, 5; Ferguson, 0.
Owings, 5; Lynam, 3.

Poolroom Announces Exhibitions By Stars

Jimmy Caras First To Appear At Martin's Parlor For Demonstration Next Wednesday Evening

Beginning January 22, 1936, and following successively every two weeks, Jimmy Martin, local Billiard Room proprietor, is presenting in connection with "The Better Billiards Program of America," the leading billiard and pocket billiard stars of the nation. There is no admission charge.

Jimmy Caras, world's pocket billiard champion, leads a list of seven nationally known stars in an exhibition of match play and execution of trick shots—Caras also gives an accompanying lecture on the fundamentals of pocket billiards. He will appear on Wednesday, January 22, 7.30 p. m.

The trick-shot feature offered by Caras will be the "break-shot." Getting position for this shot and proper execution of it, is the hardest task in pocket billiards. Another interesting trick-shot executed by Caras is the "Machine Gun" shot: sixteen balls are frozen to one rail and are then shot in rapid succession into the opposite side pocket. The sound of the balls striking the back of the pocket closely resembles the noise made by a machine gun.

Strict? And How!

The U. of Texas ousted a student for the rest of the term because he was intoxicated. Another student was put on probation and lost credit in the course when he was found guilty of cheating in an exam.

Things I Knew You Didn't

By D. K.

That Major Anderson was seen riding a bicycle in front of Wolf Hall after a recent drill. He's probably going into the 6-day bike races, since he was beating the back wheel with his cane. (Nice form, Major.)

That before 1915 the football field was 110 yds. long.

That Dr. Oberlin thinks that all humans are insane, some being less affected than others.

That 19 million dollars are spent each week by American parents on their children's education.

That Mr. Holbrook had to shave his head when he went to Germany to study, so that everyone who met him would think him to be a native and speak to him in German instead of in English as they always do to Americans.

That James Buchanan, one-time President of the United States, was suspended from school and was one of those students who participated in a "walk-out" in 1825 at Dickinson College at which time students and faculty had a bitter feud.

That Yale students earned $432,132 last year.

That twelve American and five Canadian colleges have organized an Intercollegiate Ski Union to further competition in ski jumping and racing.

That Mr. Ellis is so polite that when he accidently stumbled into an atlas of the earth at W. C. D. he said "excuse me" to the good old Mother Earth.

That 57 cents was the down payment for the original land upon which Temple University was built.

That physicists at Columbia University measured the neutron as 0.0000000000001 of an inch.

That Roscoe Pound, Dean of Harvard Law School and one of the giants of American jurisprudence, was once blacklisted by the Daughters of the American Revolution.

That the longest field goal on record was kicked 65 yards by J. T. Haxall of Princeton in 1882.

Summary of Delaware's Victory Over George Washington's Mermen

440 Freestyle: 1st, Snyder, Del.; 2nd, Du Ross, Del.; 3rd, George Washington. Time, 5:02.8.

100 Freestyle: 1st, Howard, Del.; 2nd, J. Carey, Del.; 3rd, George Washington. Time, 56.8.

400 Yd. Relay: Won by Delaware. (Du Ross, Stanton, Drozdov, and Cross). Time, 4:12.

220 Freestyle: 1st, J. Carey, Del.; 2nd, Snyder, Del.; 3rd, George Washington. Time, 2:36.

50 Freestyle: 1st, Howard, Del.; 2nd, Drozdov, Del.; 3rd, George Washington. Time, 24.7.

150 Yd. Backstroke: 1st, Cross, Del.; 2nd, Carpenter, Del.; 3rd, George Washington. Time, 1:56.

300 Yd. Breast-stroke: 1st, Kenworthy, Del.; 2nd, Hartmann, Del.; 3rd, George Washington. Time, 2:53.2, new record.

Diving: 1st, Swartz, Del., 89 pts.; 2nd, McCullough, Del.; 3rd, George Washington.

Publish Mark Twain's "War Lord's Prayer"

(A.C.P.)—Thirty years ago Mark Twain, beloved giant of American letters, wrote the "War Lord's Prayer," with instructions that it be published only after his death.

"I have told the whole truth in that prayer," he said, "and only dead men can tell the truth in this world. It can be published after I am dead."

Here's his prayer:

"O, Lord, our God, help us to tear their soldiers to bloody shreds with our shells; help us to cover their smiling fields with the pale forms of their patriotic dead; help us to drown the thunder of the guns with the groans of the wounded, writhing in pain; help us to lay waste their humble homes with a hurricane of fire; help us to wring the hearts of their unoffending widows with unavailing grief; help us to turn them out roofless with their little children to wander unfriended through wastes of their desolated land in rags and hunger and thirst, sport of the sun flames of summer and the icy winds of winter, broken in spirit, worn with travail, imploring Thee for the refuge of the grave and denied it—for our sakes, who adore Thee, Lord, blast their hopes, blight their lives, protract their bitter pilgrimage, make heavy their steps, water their way with their tears, stain the white snow with the blood of their wounded feet! We ask of One who is the spirit of love and who is the ever-faithful refuge and friend of all that are sore beset, and seek His aid with humble and contrite hearts. Grant our prayer, O Lord, and Thine shall be the praise and honor and glory, now and ever. Amen."

A Tough Prof

Prof. R. H. Sherill of North Carolina U. took on five New York thugs recently when one of them took thirty cents from him. Although three radio patrol cars finished the thugs after Professor Sherill had knocked out one of them, he is credited with a moral victory.

Sophs Forgot

The Frosh-Soph Flour Fight at Drexel was recently postponed indefinitely because the Freshmen were the only ones who showed up.

Delaware N. Y. A. Workers Doing Creditable Work

(Continued from Page 1)

27 out of the 29 applicants are working.

From the magnificent sum mentioned alone, the University of Delaware receives $1335 per month. During the last pay period, which lasted from about October 1 until October 19, there were but 77 receiving aid; therefore, this first payroll amounted merely to $582.74. Professor H. K. Preston, the chairman of the committee, runs these figures off as easily as rolling off a logarithm. Next month, however, the payroll will probably run over its quota of $1335, but since the first payroll-period did not run a full month, they will be allowed to draw on the resulting surplus.

There is a definite reason why deep frowns adorn the respective faces of Professor G. A. Koerber, Dr. Wharton, Professor Rees, Professor Wilkinson, and Professor Preston. These gentlemen, who form the Student Self-Aid Committee, are faced with the puzzling task of paying between $15 to $20 a month to each of 121 student-workers, when the total monthly quota provides a maximum of $15 a month for 89 students!

Although the NYA can't assign all kinds of work, it has made provisions for almost any talent or inclination the student may have. He may apply for Laboratory or Clerical Work, Filing, Instructing in Sports and Games at the Adult Education Bureau, Typing, Research Projects, or Construction Work.

The Vocational Education Department employs quite a number. Since NYA now supplies funds for help the research projects and construction are now going on. In the case of the planting project below the library, the Alumni purchased the trees, the NYA workers are digging and planting them, and everyone waxes exceedingly merry. The library, hitherto crippled by a vacuum in the pocketbook, is now slinging books and references about with either hand, all the while shouting with glee. The mosquitoes are being classified and mounted. The Engineering Department is building the equipment which it was unable to purchase. The students are making drawings and patterns for castings.

Some of those who applied, did so with the idea of getting a little extra pocket-money. In many cases the parents, of course, refused to give their necessary assent, but in a few instances, even they connived. Connived is the word, because the application definitely states in the form of an affidavit that the student cannot continue in college without this aid. As far as the committee knows, there are none on the payroll who do not definitely need it. They are on the lookout for chiselers, though, because there are still a few unemployed who really do need it.

One bright lad offered his services as a janitor. Professor Preston replied that this would be lovely, the only hitch being that if the brighty were taken on, two more would have to be employed also, and then a regular janitor would have to be fired. This was quite all right with the aforementioned brighty! He is still waiting for an answer.

Meanwhile, No Man's Land blossoms forth with shrubs and trees and flowers and bees.

The library runs at full tilt all hours of the day and night.

The mosquitoes, peace be on their devilish heads, lie in state, their tombs marked and their souls at ease.

And all is now Peace and Heaven and Prosperity.

Best Dressed Woman

Mrs. Byron Foy of N. Y. C. has been adjudged the best-dressed woman in the U. S. But Sally Rand still holds the booby prize.—Miami Hurricane.

By Audrey Davis

Another Junor Prom is over, and it was a most successful one, too. And now we have only memories to think about until exams from their very nearness demand our reluctant attention. Just a week from Thursday, on January 23rd, to be exact, that imposing (well, at least frightening) procession of Mid-Years begins. For a week then quiet hours will be *really* quiet. But it's only one week—and then three days of vacation. *That* will be a time of merrymaking—maybe!

Forum Meets

Wednesday, January 8, Forum was held at 4.10 in the Hilarium. Mr. Tyler was the speaker. As he is leaving soon to take a government post, it was his farewell speech. For the past two years he has served as the faculty adviser for Forum. Dr. Squire will be the new adviser.

Glee Club

On Monday night, January 13, the Glee Club met in the Music Building at 4.10.

At 7 o'clock in the Hilarium Miss de Armand gave an English reading.

Today the Women's College Chorus gave a concert at Mitchell Hall. Mrs. Gildersleeve, the director, was assisted by Miss Irene Nelson and Mr. Gildersleeve.

Assembly Thursday Morning

Thursday Assembly will be held in the Chapel at 11.35 a. m.

There will be a Junior Class meeting immediately following Assembly.

Math Club

The Math Club will meet in Sussex Common Room at 4.10 on Friday. Tea will be served.

Prof. Cross Addresses A.S.C.E. Tuesday Evening

Local Society Host To Five Neighboring Colleges For Talk By Illinois Engineer

On Tuesday evening, January 14, Professor Hardy Cross, of the University of Illinois addressed the Student Chapter of the Society of Civil Engineers in Room 308, Evans Hall. Preceding the lecture, a large reenforced concrete floor slab, 30 inches wide by 14 feet long, was tested in the Materials Testing Laboratory. Following the breaking of the beam, Professor Cross gave his talk.

Dr. Cross, besides being a member of the faculty of the University of Illinois, is well known for his contributions to the study of indeterminate structures.

The A. S. C. E. was host to students from Swarthmore, P. M. C., Villanova, Drexel, and the University of Pennsylvania, who visited Delaware for the express purpose of hearing this lecture.

Student Council Can't Meet Request for Dance

The Student Council has received many requests from students to hold a dance on Saturday, February 8. However, because the Women's College is holding its Blue and Gold Dance on that date, it will be impossible to hold a Men's College dance then.

Set Up Business Guidance Bureau To Help Del. Students Secure Jobs

(Continued from Page 1)

ates to obtain employment. He also asked for early cooperation of all Seniors intending to utilize the services of the Bureau to make its service successful. His statement below sets forth the full objectives and purposes of the Business Guidance Bureau:

"As indicated in the Resolution of the Board of Trustees passed at its meeting of December 14th, the mission of the new Business Guidance Bureau is to put the members of the Senior classes of Delaware College and the Women's College in touch with possible forms of employment by establishing contacts with industrial, business and professional concerns and schools in which employment may be secured in the State of Delaware or neighboring states.

"In both Senior classes there will be a number of students who either through their parents or other connections will have positions into which they can step after graduation. The Business Guidance Bureau is not concerned, therefore, with these students, but rather with those who have no contacts or idea as to where they may turn to secure a position.

Object of Bureau

"The objective of the Bureau then is: first, to communicate with various commercial, industrial and professional concerns to ascertain if they will have any vacancies for newly graduated college students during or shortly after next June; second, upon ascertaining what possible positions will be available, to bring them to the attention of the members of the Senior classes of the two colleges with the idea of ascertaining which students will be interested in obtaining the employment offered; third, to compile from the files of the Student Record Bureau a record of each student as to scholarship, extra curricular activities, opinion of the student's professors and instructors to his attitude, character, force, judgment, initiative, ability to get along with others, etc.; put this into proper form and, after having had the student write a letter of application for the position desired, present this record to the prospective employer; and fifth, arrange for a meeting between the employer or his representative and those students who have applied for the position either at the University or at the office of the concern in question.

"I feel one of the important things for the student to realize is that no Business Guidance Bureau can force an employer to give anyone a position if the employer does not want to do so, no matter how good the student's record may be. The Business Guidance Bureau will make every possible effort to ascertain where vacancies exist and to give students, who so desire, an opportunity to apply for the position concerned, either through the medium of an interview or correspondence with the organization in which the vacancy exists. After that the matter will lie between the student and the employer.

Asks For Cooperation

"The office of the Business Guidance Bureau has been established in the first room to the left at the top of the left main stairway in Old College for Delaware College. It will also maintain an office in the Women's College at a place to be announced on Miss Long's bulletin board in Science Hall.

"I hope that all students who will want assistance in obtaining a position after they graduate next June will see me as soon as possible to make known their desire with regard to future employment. This will permit me to determine the type of business concerns with which to make early contact. The time between now and next June is short and, if anything is to be accomplished to help the present Senior classes, work must start at once."

At the demand of the students we recently restored the CHATTER column to this paper. However, the fraternities are not cooperating in furnishing us with material. Unless the various houses submit their columns to us weekly, we shall have to discontinue CHATTER.

New Foreign Study Booklet In Preparation

President Walter Hullihen and Professor Brinton, of the French Department, are collecting material for a new booklet to supplement the Delaware Junior Year Abroad Bulletin.

This booklet will be illustrated and will contain more additional information than the regular bulletin. It will contain articles by Professor Hazarde, famous instructor of French Literature at the Sorbonne; by Dr. Horatio Smith, head of the French Department at Brown University; by members of last year's and this year's Foreign Study group; by a member of the group of five or six years ago; and by the president of the Alumni Association of the Foreign Study Students.

English Musician Addresses W.C.D. on Piano Technique

Last Saturday evening, the Women's College Music Department presented Mr. George Woodhouse, of England, in an illustrated lecture on the Piano. Mr. Woodhouse, who is a prominent London piano teacher, based his lecture on his latest publication, "The New Way To Piano Technique," and illustrated parts of his talk on the piano.

The meeting which was held in the Hilarium, was attended by about 75 persons who enjoyed the lecture very much.

With Other Colleges

By D. K.

The Dream Man

Women at Wellesley College describe their ideal man as honorable, tolerant, generous, gracious and helpless at times. Almost an entire saint, but not quite.

What An Exam

Students at Haverford are given a test of 2725 questions. Time required to answer all of them is 12 hours.

What a Nose

According to the Fenn College *Cauldron*, the average nose is capable of detecting 6000 odors.

Brains Aren't Everything

At Westminster this year, the Interfraternity cup for highest scholastic honors went to a frat which had to "go out of business" because of financial difficulties.

Home Sweet Home

Home is the place where part of the family waits until the others are through with the car.—The Navy Paper.

Mr. A. Vogsey Discusses 'Rate Setting' For A.S.M.E.

Describes System Used At Philadelphia Westinghouse Plant To Encourage Workers' Speed

At the meeting of the Student Chapter of the A. S. M. E. held Monday, January 13, Mr. Alfred Vogsey, who is in charge of rate setting at the South Philadelphia Westinghouse Works, spoke to the assemblage on his work.

Rate setting, he explained, is a scientific study of plant operation with the purpose of determining fair compensation for workers so that the company can get the work done in the most effective manner for the least expense. Each operation in every job is broken down into its simple operations. The time for each operation is then calculated.

From these calculations, a rate man can figure the standard time for doing a job by merely looking at the blueprint. This is corrected to the various other factors involved such as the personnel factor and a fair rate of pay can be readily determined.

If the worker completes the job in exactly the time set, he gets the basic rate plus 11% bonus. If he takes overtime, he gets the basic rate only. If he does the job in less time than is stipulated, he receives a bonus for every unit of time under the standard rate. Thus, the faster he works the more he makes.

Freedom At Last

Yale undergraduates can now own and/or operate cars—providing they get written consent from the family and the dean.

number of other colonial families, one of whom was John Morgan, founder of the University of Pennsylvania Medical School, and later surgeon-general of the Revolutionary Army.

Mr. Morgan was graduated from Delaware College in 1875. In 1917 that institution conferred upon him the degree of Doctor of Laws.

He married, in 1897, Mary F. R. Churchman, who survives him. There are also living two daughters, Mrs. Anne M. Roberts and Miss Mary Churchman Morgan, and a son, Ralph Morgan, vice-president of the Cheltenham Township Committee and for twenty-nine years chairman of the Basketball Committee of the University of Pennsylvania.

Mr. Morgan's newspaper career covered service on the old *Philadelphia Times*, *Press*, and the *Record* under William M. Singerly and John Wanamaker ownership. The first to conceive a woman's page in an American daily newspaper, he had a great influence on broadening the scope of American journalism. He was Sunday Editor of the *Record* until he retired in 1928.

As an author and biographer, Mr. Morgan, considered one of the leading authorities on the Civil War as well as Early American History, produced the following: *John Littlejohn of J*, 1895, *The Issue*, 1904 (both historical novels); *The True Life of Patrick Henry*, 1907; *The True Lafayette*, 1919; *The Life of James Monroe*, 1920; *The City of Firsts—a History of Philadelphia*, 1921. He has also contributed several articles to *Delaware Notes*. All of these books may be had at the Memorial Library.

Mr. Morgan was a genealogical student and spent considerable time in research in this field, having completed a study of the Churchman family, to be published posthumously along with his unfinished *History of the Battle of Gettysburg*, on which he had been working for the past two years, at the suggestion of his life-long friend, Isaac P. Pennypacker, who died last summer.

Mr. Morgan was a member of the Colonial Society, the Philadelphia Historical Society, the Genealogical Society, the Sons of Delaware and the University of Delaware Alumni Association.

He was interred from his home on Friday afternoon, January 10.

Mr. W. W. Ellsworth Speaks At Mark Twain Centenary

Lantern Slides Are Used To Illustrate Lecture; 'Tall Stories' Twain's Greatest Success

Using more than one hundred lantern slides, Mr. William Webster Ellsworth gave a talk on Mark Twain in the Mark Twain Centenary Program which was held in Mitchell Hall on Thursday, January 10. Mr. Ellsworth is former president of the Century Publishing Co. and was a great friend of Mark Twain.

Mr. Ellsworth compared the life of Twain to that of Lincoln, telling of the humble beginning of each and of how each rose to fame and a high place in the hearts of the people. He told of Twain's early experiences, his leaving school at an early age, he struggles for a living, and his eventual rise to success. Mark Twain's most famous efforts were, he said, in telling "tall stories."

AMUSEMENTS

Wilmington:

Loew's—Held over for second week is "Ah Wilderness" with Wallace Beery and star cast plus "Audioscopiks," Third Dimensional Movies in Sound.

Rialto—Week beginning January 15, "The Bishop Misbehaves." Edmund Gwenn, Maureen O'Sullivan, and Norman Foster.

Newark:

State—Friday, January 17, James Cagney in "Frisco Kid."

Saturday, January 18, "Frisco Kid" and "Son of the Border." Monday and Tuesday, January 20 and 21, "Tale of Two Cities," Ronald Colman.

January 22 and 23, "So Red the Rose," Walter Connolly.

Dr. Crooks Presides Over Social Work Executives

Dr. Ezra B. Crooks presided over the monthly dinner of the Council of Social Work Executives held Monday evening in the Y. M. C. A., Wilmington. The Council of Social Work Executives is composed of about twenty executives of institutions such as the Children's Bureau of Delaware, the Welfare Home and the Stockley Colony. Dr. Crooks presided by virtue of being chairman of the Council.

Advises Against Practical College Economics Course

(Continued from Page 1)

riculum have made to the State Board of Education for more practical courses, stated that in his opinion it were better for the students to devote themselves almost entirely to the theoretical side of economics and also to cultural subjects while in college as they would have plenty of opportunities to secure the practical training in business and economics after their graduation.

Beginning his speech, Mr. Baxter then spoke of the two phases of the investment business—the investment banking and the brokerage companies, emphasizing the latter. It is the work of the brokerage houses to give service to investors and speculators throughout the country, he stated.

Mr. Baxter then continued by explaining with the aid of the various documentary forms, the steps which occur upon the buying of securities. The customer places an order with the broker's order customer man who sends it to the order department. The order department next buys the required stocks, etc., from the New York Stock exchange. The order then goes through the various routine departments — confirmation, margin, bookkeeping, etc.

The members of the Athenæan Society were rather incredulous at Mr. Baxter's statement that brokerage firms make only about $15 on a $14,000 transaction. He then explained that they made some profit on the interest rate they charge the customer.

Mr. Baxter concluded his address with the observation that the investment business is becoming more and more a profession in need of good analytical statisticians and men with foresight and imagination. He stated that it was a promising field for trained college men to enter.

College Rings To Be Under Student Council Control

(Continued from Page 1)

ward Bardo as members of the new faculty Student Relations Committee set up by the Board of Trustees. The Student Council is entitled to select two members of a committee of five who will in the future collect student criticisms and suggestions, and will present them to the faculty.

Women's College To Give New B. A. Music Degree

(Continued from Page 1)

singing, ear training, appreciation and history of music, and public school music; Mrs. Hazel Gildersleeve, vocal work and chorus; Miss Ella Pyle, piano, harmony, keyboard harmony, and composition; Mr. Harry E. Stausbach, violin.

All of the courses will be given in the Music Building, which has been equipped with a piano in each room. A large room for student recitals has been equipped with two pianos, one being a new Steinway grand.

Although most of the courses mentioned have been given previously, it is only with the beginning of the next term that students will receive the B. A. degree for Music.

Dr. Gould Speaks On "Social Security"

Dr. J. S. Gould, Professor of Economics, spoke to the Newark Lions Club last night on the subject of "Social Security."

After briefly tracing the history of the subject, he discussed the Social Securities Act of 1935.

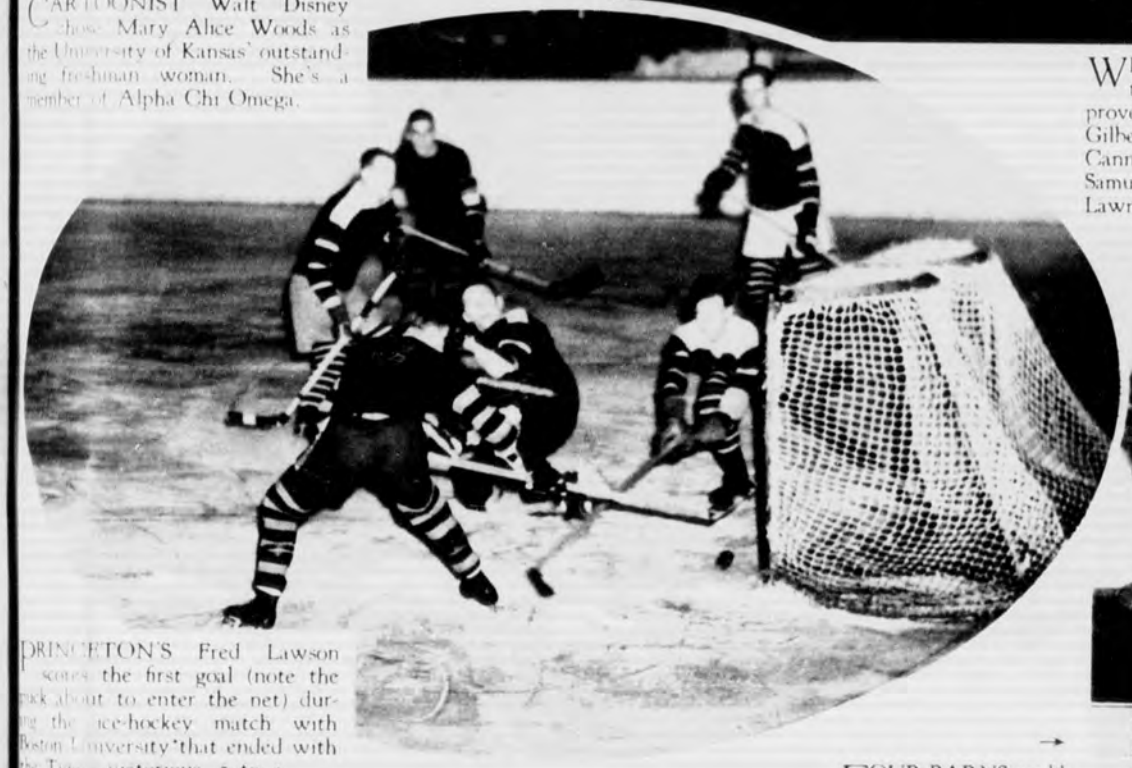
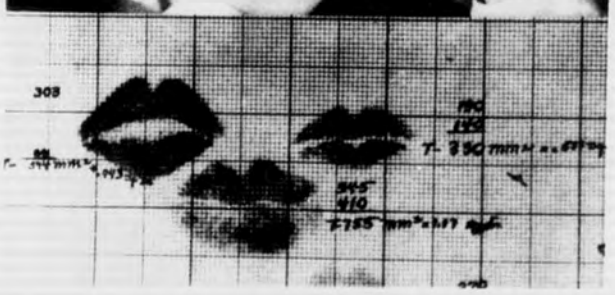
Volume IV · NATIONAL COLLEGE NEWS IN PICTURE AND PARAGRAPH · Issue 15

CARTOONIST Walt Disney chose Mary Alice Woods as the University of Kansas' outstanding freshman woman. She's a member of Alpha Chi Omega.

WHEN these students enrolled at the University of Chicago the registrar thought they were joking, but their credentials proved that they were (*Left to Right*) Woodrow Wilson, John Gilbert, Carter Harrison, James Braddock, "Uncle Joe" Cannon, Jane Addams, Walter Johnson, Walter Eckersall, Samuel Adams, and (*seated*) Irving Berlin and Gertrude Lawrence.



PRINCETON'S Fred Lawson scores the first goal (note the puck about to enter the net) during the ice-hockey match with Boston University that ended with the Tigers victorious, 5 to 4.



FOUR BARNS could be covered with the lipstick used by University of Wisconsin women yearly, an enterprising *Daily Cardinal* writer figured out with the aid of Dorothy Lee and a lot of graph paper.

BURGLAR-WARE — T. S. McCaleb, Harvard radio technician, has developed a high frequency radio alarm that warns of the entrance of burglars, and is more sensitive and more efficient than any previously devised.

HOLLYWOOD'S LAUGH KING, Eddie Cantor, judged Whittier (Calif.) College's "perfect smile" contest and was so impressed with these six finalists that he declared a six-way tie and they all shared the honors.

THE Spotlighter

Cuteness Does Pay

LIKE John Gilbert, Charles Farrell, when the talkies came, failed to reveal a voice that matched the fierce vigor he displayed in winning silent heroines. When he made *Seventh Heaven* with Janet Gaynor, he became the darling of a million ladies. They wanted cuteness in love, they found it for a long time in Charlie Farrell and Janet Gaynor. Then Charlie did a talking picture version of *Liliom*, in a role that called for the bluff and tender in a man. His voice was too thin and without nuance.

For all his voice, Charles Farrell was no gigolo turned actor. Born in Onset Bay, Mass., thirty-three years ago, a table waiter at Boston University in the early twenties, he was a track man and boxer good enough to win letters. Today he is having indifferent success on the comeback trail. He plays polo, is part owner of a tennis club, and cruises in his own yacht, evidence that though voice does not match muscle, a million ladies once paid great material reward for illusion.

Heidt of Musicians

FOR a long time Horace Heidt's orchestra stood internationally for college and California. A Beta at the University of California, Horace played guard on the football team until a back injury forced him out of the sport. He organized a band among his classmates, was graduated in 1925, and has been a hit band leader since. Art Thorsen, bass player and vocalist in the band, was a U. of C. Kappa Delta Rho and glee club man '26, Jerry Browne, trumpeteer and singer, a U. of C. Phi Sigma Kappa '27, Warren Lewis, U. of C. '27. All three have remained with the Brigadiers through their smart career. Now Horace Heidt and the Brigadiers are heard over CBS every Thursday night for a half hour, and they still have plenty of dapper college spirit.

JOSE LUIS ANDERSON, of Ecuador, has been promised a consulate by the president of his native land after he completes his studies at Texas Christian University.

FROM CAMPUS TO AIR WAVES - - Selected from among scores of Smith College students, Jane Morrison was Singer Conrad Thibault's choice as the most talented singer in the Northampton, Mass., women's school.

BETTY WRENSHALL is the first woman to be elected to the chairmanship of the University of South Carolina social cabinet.

READ OUR INVITATION TO YOU

Camels have given more pleasure to more people than any other cigarette. And so we now issue this new "try ten" invitation in order that others can find out for themselves the difference Camel's costlier tobaccos make in smoking pleasure.

Why offer can be made. We know smokers like Camels, once they try the costlier tobaccos in Camels.

Literally millions of people have changed to Camels and found new enjoyment . . . new benefits. We want you to share their enthusiasm. Turn to Camels. Be one of the vast number who share in the enjoyment and appreciation of those finer, more expensive tobaccos.

COSTLIER TOBACCOS! Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

DESPITE THE FACT that she is no relation to New York's famous gossip-mongerer, Margaret Winchell writes the gossip column for *The Kent Stater*, Kent State University undergraduate newspaper.

MARION BARTLETT this year succeeds her sister as the Honorary Battalion Major of the University of Vermont R. O. T. C. corps.

To Make Us Sleep Better

WHY DO WE sleep well some nights and roll and toss other nights? Answers to this perplexing problem are being sought by Colgate University's famed sleep psychologist, Dr. Donald A. Laird, who has been working for years in his Rivercrest laboratory developing new experiments and unusual devices to test the sleeping habits of his human guinea pigs for data for his new book, *More Zest for Life* (Whittlesey House). Mechanical and electrical gadgets in Dr. Laird's laboratory record movements while sleeping, reactions to such stimuli as flashing lights, amount of food in the stomach, and noises.

Somnokinetograph records of a pillow fight are examined by Dr. Laird.

A microsomnokinetograph writes the record of the breathing of the subject. The recording disc is shown in inset.

Effects of hunger pangs [illegible] from changes in air pressure swallowed by the subject.

Metabolism tests of [illegible] determines how fast [illegible] are during sleep.
