THOUSANDS ATTEND INAUGURAL CEREMONIES AT CESTERTOWN

President Roosevelt Receives Degree—Delaware Senators Attend

Thousands of residents of the Eastern Shore, Delaware and other points to the eastward will attend the inauguration of Dr. Mead, and the conferment of an honorary degree upon President Roosevelt. Roosevelt began his meeting in Cestertown, Delaware College football game. The presidential address will be given by Mr. J. W. Cooper, of the University of Delaware, and the honorary degree will be given by Dr. William S. Cooper, of the University of Delaware.

The first official visit of a President to the Eastern Shore came when President Roosevelt received an honorary degree similar to that conferred upon President Roosevelt. He was present on the same day that President Roosevelt visited the Delaware College football game. The presidential address will be given by Mr. J. W. Cooper, of the University of Delaware, and the honorary degree will be given by Dr. William S. Cooper, of the University of Delaware.

THREE-IN-ONE 4-H CLUB ORGANIZED

On Monday evening at 3:30 p.m., in the Junior Union Room of the Delaware College, a meeting of the first organizing meeting of the 4-H Club was held. The meeting was attended by about 100 people, and the club was formed.

PRINCESS ANNE HAS EPIDEMIC OF BLINDNESS

Eye Specialist Gets Out of Sight of Moh, Not Wanting to Recognize Them

The minds of Dr. George B. Byrnon, of the University of Pennsylvania, who was called to the State of Delaware, for the purpose of examining and treating an epidemic of blindness, are now at work on the cause of the disease. The epidemic is now prevalent in the State of Delaware, and is known as "Moh," and the experts are now working to find a cure for the disease.

THE WEEKLY VERMONT

"I don't know who any of them are," said Ernest Cook, of the Department of Agriculture, "but I don't think they were much good." The statement was made in reference to the recent epidemic of "Moh." The disease is said to be prevalent in the State of Vermont, and is known as "Moh." The experts are now working to find a cure for the disease.
500 SEPTEMBER MARRIAGES
SET ALL-TIME RECORD IN ELKTON

The NRA has supplemented its enforcement of the price regulations with a series of matrimonial campaigns. Last month alone, fifteen thousand marriages were registered in the vicinity of Elkton, a weekly habit, and created considerable excitement among the saloon-keepers and proprietors of the town. For this reason of Elkton, marriage has been heavily discouraged. It is generally known that in the northern part of the county, there is a strong European influence, due to the fact that after World War II, several hundred thousand German prisoners of war were brought to the area for relocation. These former prisoners, along with their families, have since formed a large portion of the local population. The town is famous for its traditional German beer gardens, where couples often gather to celebrate their union. However, the recent influx of price regulations has had a significant impact on the local wedding industry. In order to comply with the regulations, many saloons have been forced to reduce their prices on beer, which has led to lower revenues and a notable decline in the number of weddings. As a result, several saloons have been forced to close, and those that remain have been forced to cut back on their services. This has further contributed to the decline in marriage rates in the area. In conclusion, the impact of the price regulations on the wedding industry in Elkton is evident, and the town is likely to see a significant reduction in marriage rates as a result. The implications of this trend are yet to be fully understood, but it is clear that the regulations have had a profound impact on the local economy and social fabric.
Here's what YOU CAN DO to help President Roosevelt's National Administration Recovery Plan

Maybe you're wondering just what all this talk of NRA means, and if there's some place in the plan for you. There IS. Here's the dope.

Business is better. All over the country, men are going back to work.

"FINE", says the President, "AS FAR AS IT GOES."

But, the President thinks that unemployment and business can pick up much faster. The NRA (National Recovery Administration) has worked out a plan to speed things up. The President wants YOUR help to make it work.

You are asked to try the plan from now until the end of the year.

In a nutshell, this is what he urges:

.Split up the existing work to put more men on the payroll and raise the wages for the shorter working-shift so that no worker is getting less than a living wage."

Everybody will give up something. Everybody will gain something in the end.

The worker is asked to accept a shorter working week to give some neighbor a chance to earn his living. He will work less; have more time for play; and fewer unemployed relatives will be dependent on his help.

Business is asked to split-up work and add to payrolls so that jobs and pay envelopes can take the place of charity and contributions this winter. Present profits may be temporarily sacrificed while next year's customers are being built.

Never before has there been such a simple and definite plan for wiping out unemployment and restoring the purchasing power of all the people. If we all join together, act at once, unemployment can easily be licked!

Sign the agreement. Display the NRA Members seal if you're a business man. Display the NRA Consumer's seal if a consumer. Everybody has a part to play.

THE EMPLOYERS PART

Sign the President's Reemployment Agreement. Join with every other employer in the land to make jobs through shorter hours and distributing work. Raise wages to the minimum suggested by the President, at least. Abolish child labor. Cooperate with employees in peaceful adjustment of opinions. Remember—an unemployed man is a poor customer for you in the long run. More and better pay envelopes is the best way to boost the public's buying power and your own business.

THE EMPLOYEES PART

Do your best on the job. Share your hours with the neighbor who has no work now. Cooperate with the NRA to make this plan a success. Remember—more can be done now for workers through this cooperation of 125,000,000 people than can ever be done by discord and dispute.

THE PUBLIC'S PART

Support those employers and employees who do their part to put breadwinners back to work. Patronize the stores and services displaying the NRA sign; it means they fully comply with the President's plan.
PAINT UP—AND SAVE
Now is the time to paint your home for the winter months ahead. A full line of Retail Co.’s paints, which are both second and fully guaranteed.

Full Line of JIFFY NAMEx in 1/2, 1/4, 1/8, pans and quart cans.

Mabel Foote, President of the Hill Section, is in charge of the work of the club. Miss Mabel Foote is in charge of the fashion show, which will be held on the 23rd.

LOCAL DAIRYMEN GET FACTS ON INTERSTATE

Producers’ Association Seeks Better Milk Prices

A group of producers has been formed in the state to get better milk prices. They have made several trips to Washington and have spoken before several committees of Congress. They have also had several meetings with government officials and have given them a full report of the situation. They have been very successful in their efforts and have received some support from the government. They are now working on a new plan to get better prices for their milk.

FARMERS ASKED TO SIGN OFFICIAL CONTRACTS FOR 1934 HAY WHEAT CROPS

Governor calls on all farmers to sign official contracts for the hay wheat crops of 1934. These contracts will provide a fair price for the wheat and will help the farmers to make a profit. The governor is asking all farmers to sign these contracts and to make sure that the wheat is planted and harvested on time.

COP’S GUN ENDS LIFE OF GIRL SLAGHER

Wriggles Out of Straps and Shoots Self With Other’s Gun

Justice was shot yesterday by his hand with a pistol. John Paul, 15, was shooting from a man who was using a gun. The girl was shot and died on the spot. She was 15 years old. The man who was shooting was a friend of the girl and had been with her earlier in the day. The girl’s parents were shocked and wept bitterly over her death.
 cuity of works with her daughter, Mrs. James Ross, of Franklin, and her granddaughter, Mrs. Ione Ross, of Jamaica, N.Y.

Honors for Seven

At a Court of Review of the American Legion held last Saturday, seven men were honored for rendering meritorious service in the various branches of the American Legion.

Parades

A parade to celebrate the 75th anniversary of the American Legion will be held on Sunday, April 21, at 2 p.m., with the American Legion Post 303, at 700 Main St., as the starting point.

Nearly 75 Years

Active Service for Eckton Firm

Kose and Miller, Attorneys at Law, are celebrating their 75th anniversary in business. The firm was established in 1843 by John Eckton, who is now in his 95th year.

HEALTH: HOW TO KEEP IT
LACK OF IRON BRINGS ANEMIA

Without the proper building there can be no soundness of heart and mind. No matter how good the work, if the diet is not correct, it will not do good. The fact that iron is lacking in those who suffer from lack of iron is generally understood. And yet there are many instances where this condition is found.

There is no real cure for anemia and it is not cured by any form of international work. Even the world people are not able to live on a diet which is not rich in iron. The different forms of prevention of iron deficiency are not always effective.

- Everyday Food

Now you may wonder why it is necessary to call attention to this matter of anemia. The reason is that many of the cases where iron deficiency is found are due to the fact that the iron content of the blood is not sufficient. It is generally true that the iron content of the blood is less than normal in cases where anemia is found.

But there is a great deal more to anemia than mere deficiency of iron. It is not possible to say that iron deficiency is the only cause of anemia. There are many other causes of anemia, and it is not always possible to determine the exact cause of anemia in a particular case.

- Every Day

In order to prevent anemia, it is necessary to have a proper diet. This diet should be rich in iron. There are many foods which are rich in iron, such as green vegetables, fruits, and eggs. It is also necessary to eat plenty of food which is rich in iron, such as beef, liver, and kidney.

Anemia is not a disease that can be cured by a single dose of medicine. It is a disease that requires careful attention and care.

- Every Day

The remedy for anemia is not found in a single dose of medicine. It is a disease that requires careful attention and care. The best remedy is to have a proper diet, rich in iron, and to be careful to avoid any cause of anemia.

Teeth and Health

By Samuel P. Fink, D.D.S.

Children are often subject to infections causing the teeth to become tender, painful, and sensitive. Infections may be due to bacteria and viruses, and the treatments depend on the cause of the infection. The most common cause of toothache is dental caries, which is caused by bacteria that live in the mouth and produce acid that eats away at the tooth enamel. Other causes of toothache include tooth decay, gum disease, and tooth abscesses. Treatment options for toothache include antibiotics, pain relievers, and sometimes surgery.

How to Use Salt Pork

The first mention of salt pork reaches Delaware. This is a dish that is made from pork that has been salted and preserved for a long time. The pork is then cooked in a slow oven until tender.

Salt Pork

- Use for stuffing in Christ's Church
- Use for making cakes or pies
- Use for making ham or bacon

Salted pork is a valuable resource that can be used to supplement the diet of a family. It is a good source of protein and fat and can be used in a variety of dishes.

Alert your family and friends to the dangers of toothache and the importance of dental care. Encourage them to see a dentist regularly and to take good care of their teeth. Together, we can help prevent toothache and ensure healthy teeth for all.
Newark High Trims Wilmington H. S. 8 to 0

Del. Blue Hen's 8 Points Defeats Washington

Newark Ready for Till With du Pont Here Saturday

The annual football clash between the Newark High School, New Castle County, and the du Pont High School, Wilmington, at 1:30 this afternoon, with the admission tickets, 20 cents each, will be the largest game of the season at the whole of New Castle County.

The game will be played at the du Pont field.

H. A. Turner, Jr.

Tops List as State

Golf Leader

H. A. Turner, Jr., captain of the Newark Country Club, is given the top rank as a golfer for the season by the State Golfers Association in releasing the list of the "top men" for the present year.

The Newark golfer has made a clean sweep of the honors, having won the titles of "greatest driver," "best putter," and "best ball." He has also placed first in the "grind" and "bunch" games.

Newark Boys Good

These were the names given to the Newark High school boys, who showed up to advantage against Delaware, in the first game Kercheval made 10 points against the "bunch," taking the lead in the last quarter. The second and third quarters were won by Newark, and Kercheval, who kicked the ball out on the Westminster field, was narrowed behind the goal. These teams finished the game.

Kercheval had kicked the kickoff back against the 30-yard line. Oliphant and Kercheval scored against the Princeton field. The boys were far behind 13-0 at the last quarter, and Ketchel and Kercheval, who kicked the ball out on the Westminster field, was narrowed behind the goal. These teams finished the game.

Newark High School Defeats Wilmington Rival

Mayer and E. Smith Star for Newark

Wilmington High School's surprise "jump" at the half and the weather during the second half, when the ball was kicked back by Mayer instead of the normal "kicker," was the result of the whole game. The score was 6 to 0.

Baltimore Sun

Efforts to Secure

Punds for New W.C.D. Building

Another effort will be made by the University of Delaware athletic directors during the special session of the Legislature, which opens in the first week of December, to secure funds for the erection of a new sports building.

The University of Delaware, through the use of the Scrap Bond Law, has thus far raised $166,000, and the athletic directors are confident that the Legislature will grant them the additional amount requested.

The $50,000 grant by the State has not been signed by Governor Cooper.

W. C. D. Art Department

holding Special Exhibit

The Art Department of the University of Delaware has held a special exhibit of local art for the benefit of the College Union.

The exhibit, which was held in the Union's largest room, proved the coming of age of certain local artists.

To suit the needs of the students, the College Union is now seeking to secure a picture of the Union's largest room, which was used as the picture of the Union's largest room, which was used as the showroom of the College Union.

It pays, because good lamps in efficient equipment—keeps clean—give as much as 40 per cent more light for the same money, than do lamps in dirty equipment.

It pays, too, because good lighting attracts trade—keeps fires people alert and makes customers see things they want.

That is the difference between selling—light and more rosy—light.

Would you like to see exactly how light can increase your sales—raise the efficiency of your employees—and lower your overhead?

Yes, we can show you.

We have a wonderful new instrument that tells you the truth about your lighting. Its Simple! It gives you facts about your lighting that you can quickly see and grasp. It shows how and makes your work for you.

At your request, one of our lighting engineers will make a demonstration. He will not try to sell you lamps or current, but he will try to show you how you can make your lighting do a bigger job for you.

Why not phone and ask to call?
