The University of Delaware Undergraduate Catalog is made available to all undergraduate students regularly enrolled in degree and associate degree programs.

The University of Delaware reserves the right to make changes in the regulations, charges and curricula listed in this publication at any time without prior notice although efforts to publicize such changes will be made.

For prospective students and others interested, the Catalog is available for examination and study in high school guidance offices and libraries throughout Delaware, and in many high school guidance offices in other states. The University will be pleased to supply copies, without charge, to any high school guidance office upon request.

Don’t forget!
The complete 1994-95 Undergraduate Catalog, as well as many other University documents, is now available on U-Discover! Consult it for fast reference to courses, curriculum, and other need-to-know information!
UNIVERSITY OF DELAWARE
1994-95 UNDERGRADUATE CATALOG
A MESSAGE TO STUDENTS

The University of Delaware has made a commitment to help you, as students, achieve your individual educational goals. Commitment is a word we hear a lot these days, but you may not have thought about it in terms of your higher education. Your decision on what college or university to attend is one of the major ones of your life. Your commitment to learning will take shape through your enthusiasm, your energy and your desire to know.

As in all healthy relationships, the University of Delaware’s commitment to our students takes many forms. The University is dedicated to providing an open atmosphere of inquiry where individuals of all races, creeds and sexual orientations may conduct the quest for knowledge. Our distinguished faculty includes nationally respected scholars and scientists. Great efforts are made to ensure that our curricula include and put to use the latest in technological advances. Classroom and laboratory space has been refurbished and expanded. The University of Delaware Library features state-of-the-art technology, including an on-line catalog and circulation system and on-line access to hundreds of data bases.

Several steps have been taken to make the business of getting an education both more efficient and more pleasant. The Student Services Building provides “one-stop shopping” for many tasks. The facility, which has become a model for other institutions of higher learning, centralizes such operations as registration, fee payment, applying for financial aid, obtaining an ID card and purchasing a parking permit. Other innovations include a computerized student records system that allows students to review their schedules, transcripts and billing status from terminals throughout the campus, including residence hall rooms, and a new telephone system that makes it possible for them to complete course registration and check their grades at semester’s end using a touchtone phone. In addition, a networking project in the University’s residence halls has made it possible for students to have cable television in their rooms, as well as to connect personal computers to the campus network. All students also have voice mail service provided by the University.

Together, we share a commitment—to make the educational experience at the University of Delaware the best it can be. The University has a long and distinguished history, and we look to our students—and our soon-to-be alumni—to carry this tradition of excellence forward into the future.

Sincerely,

David P. Roselle
President

FALL SEMESTER 1994-95

Sunday, August 28
   Residence halls check-in for new students: 8:00 a.m. to 4:00 p.m.

Monday, August 29
   Fall New Student Orientation and Advisement begin.
   New Student Convocation.

Tuesday, August 30
   Residence halls check-in for returning students: 9:00 a.m. to 9:00 p.m.

Wednesday, August 31
   Fall New Student Orientation ends.
   Late Registration, and Change of Registration begin.
   Deadline for admission to doctoral candidacy for degrees to be conferred in December 1994.

Thursday, September 1
   Classes begin at 8:00 a.m.

Monday, September 5
   Labor Day Holiday, offices closed; classes suspended.
   Rosh Hashanah begins at sundown; continues next two days - See policy in Faculty Handbook on excused absence.

Thursday, September 15
   Last day to register or to add courses. After this date, tuition and a one-time $15 processing fee will be charged for change of registration; students withdrawing from courses will receive a grade of “W” on permanent record.
   Deadline for undergraduate students for completion of deferred examinations and incomplete work (grade I) from spring semester 1993-94 and 1994 Summer Sessions.

Deadline for filing application for graduate degrees to be conferred in December 1994.
   Yom Kippur begins at sundown; continues following day - See policy in Faculty Handbook on excused absence.

Wednesday, October 12
   Deadline for graduate students for completion of deferred examinations and incomplete work (grade I) from spring semester 1993-94 and 1994 Summer Sessions.
   Registration begins for Winter Session.

Thursday, October 13
   Last day to change registration or to withdraw from courses without academic penalty, except first semester freshman students. (see Oct. 27)

Friday, October 14
   Freshman midterm marking period ends.

Thursday, October 27
   Last day for first semester freshman students to change registration or to withdraw from courses without academic penalty.

Monday, November 7
   Deadline for receipt of doctoral dissertations and executive position papers for degrees to be conferred in December 1994.

Tuesday, November 8
   Election Day - classes suspended; University offices closed.

Monday, November 14
   Deadline for receipt of master’s theses for degrees to be conferred in December 1994.

Tuesday, November 15
   Undergraduate admission application deadline for freshmen and transfer students entering Spring Semester, 1995.

*The University reserves the right to change the University Calendar if it is deemed advisable. Advance notice of any change is given whenever possible.*
Thursday, November 17
Registration for Spring Semester begins.

Wednesday, November 23
Thanksgiving recess begins at 5:00 p.m. Classes starting at or after 5:00 p.m. will not meet.
Residence halls close at 7:00 p.m.

Thursday, November 24
Thanksgiving Day. University offices closed. No classes meet.

Friday, November 25
Holiday. University offices closed. No classes meet.

Sunday, November 27
Residence halls open at 2:00 p.m.

Monday, November 28
Classes resume following Thanksgiving recess.

Thursday, December 1
Deadline for graduate admission applications for Spring 1995.

Wednesday, December 7
Last day of classes.

Thursday, December 8
Reading day (no examinations scheduled).

Friday, December 9
Final examinations begin. Grades due in Registrar’s Office 72 hours after scheduled examination or last class meeting when no final examination is given.

Saturday, December 10
Reading day (no examinations scheduled).

Sunday, December 11
Reading day (no examinations scheduled).

Friday, December 16
Final examinations end. Residence halls close at 10:00 p.m.

Saturday, January 7
January Commencement.

Monday, November 21
Late registration and change of registration begin via UDPHONE.

Friday, December 2
Fee payment deadline for Winter Session.

Monday, January 2
Residence halls check-in: 2:00 p.m. to 9:00 p.m.

Tuesday, January 3
Classes begin at 8:00 a.m.

Friday, January 6
Last day to register or to add courses. After this date, tuition and a one-time $15 processing fee will be charged for change of registration; students withdrawing from courses will receive a grade of “W” on permanent record.

Monday, January 16
Deadline for graduate admission recommendations from departments for Spring Semester 1995.

Monday, January 16
Martin Luther King Day. University offices closed. No classes meet.

Wednesday, January 18
Last day to change registration or to withdraw from courses without academic penalty.

Friday, February 3
Last day of classes.

Saturday, February 4
Final examinations. Grades due in Registrar’s Office 72 hours after scheduled examination or last class meeting when no final examination is given.

deferred examinations and incomplete work (grade I)
from Fall Semester 1994-95 and 1995 Winter Session.

Wednesday, March 1
Undergraduate admission application deadline for freshmen
and transfer students entering Fall Semester 1995-96.

Friday, March 17
Last day to change registration or to withdraw from
classes without academic penalty, except for first semester freshmen students (See April 7).
Thursday, May 18
Reading Day; no examinations scheduled.

Friday, May 19
Final examinations begin.
Grades due in Registrar’s Office 72 hours after scheduled examination or last class meeting when no final examination is given.

Saturday, May 20
Reading Day; no examinations scheduled.

Sunday, May 21
Reading Day; no examinations scheduled.

Friday, May 26
Final examinations end.
Residence halls close at 10:00 p.m. for nongraduates.

Saturday, May 27
Commencement.
Residence halls close at 5:00 p.m. for graduates.

Monday, May 29
Memorial Day. University offices closed.
The 1994-95 academic year marks the University of Delaware's 251st year as an educational institution. A private university with public support, the University is a land-grant, sea-grant, and space-grant institution. Its main campus is located in Newark, Delaware, a suburban community of 30,000 situated midway between Philadelphia and Baltimore. Courses are also offered at the University's Wilmington campus and at other locations throughout the State, including Dover, Milford, Georgetown, and Lewes. The University has been fully accredited by the Middle States Association of Colleges and Secondary Schools since 1921. Professional accreditation is held in Accounting, Agricultural Engineering/Engineering Technology, Athletic Training, Business Administration, Chemistry, Clinical Psychology, Dietetics, Education, Engineering, Medical Technology, Music, Physical Therapy, and Nursing.

HISTORY

The history of the University began in 1743 when the colonial scholar and Presbyterian clergyman Dr. Francis Alison opened a school at his home in New London, Pennsylvania. By 1765, the school had been moved to Newark, where it received a charter as the Academy of Newark in 1769. The Academy was closed for several years during the Revolutionary War but reopened at the war's end. In 1833, the State of Delaware provided a charter for the construction of a college in conjunction with the Academy. New Ark College opened as a degree-granting institution in 1834, located in the building now called Old College. The institution was renamed Delaware College in 1843 and then closed in 1859 due to financial problems and the impending Civil War. It was reopened in 1870 with funds provided by the Morrill Land-Grant College Act of 1862. The Women's College was opened in 1914, and in 1921 the two coordinate colleges were given the title of University of Delaware. The Women's College was abolished in 1945 when coeducation, adopted as a temporary expedient during World War II, was made a permanent policy.

MISSION

The central mission of the University of Delaware is to cultivate both learning and the free exchange of ideas. To this end, the University provides excellent undergraduate and graduate courses of study in a variety of disciplines. Our graduates should know how to reason critically and independently yet collaborate productively. They should understand the cultural and physical world, communicate clearly in writing and speech, and develop into informed citizens and leaders. The University faculty has a strong tradition of distinguished scholarship, research and teaching, which is grounded in a commitment to increasing scientific, humanistic, artistic and social knowledge for the enrichment of the larger society. A State-assisted, privately governed institution, the University of Delaware was founded as a private academy in 1743, received its collegiate charter from the State in 1833 and was designated one of the Nation's historic land-grant colleges in 1867. The University works cooperatively with the area's unique cultural and technical institutions; it provides the finest library in the State and offers the region's people a rich array of public lectures, exhibitions, performances, service programs and athletic competitions. The University strives for an atmosphere in which all people feel welcome to learn, embracing creativity, critical thinking and free inquiry, and respecting the views and values of an increasingly diverse population.

Statement of Responsibility. The University of Delaware values both personal and academic freedom. All members of the campus community have the personal responsibility to promote an atmosphere of civility in which the free exchange of ideas and opinions can flourish. We do so by learning from individual and collective differences and respecting every human being.

Goals for Undergraduate Education. The University reaffirms its historic mission to provide the highest quality education for its undergraduate students. The faculty are responsible for helping students learn to reason critically and independently, gain knowledge of
the diverse culture and environment in which they live, and develop into well-informed citizens and leaders. To accomplish these goals, the University provides a learning setting enriched by undergraduate student research, experiential learning, and study-abroad programs. The University places high priority on the education of qualified Delaware residents and provides opportunity for a diverse group of citizens to participate in postsecondary education. Since the University is located in a state with a small population, providing programs of quality and variety requires a community of student-scholars that reaches beyond the boundaries of the state and that reflects the nation's racial and cultural diversity.

The Commission to Promote Racial and Cultural Diversity. The University is committed to creating an educational community that is intellectually, culturally, and socially diverse, enriched by the contributions and full participation of people from different backgrounds. Toward that end, the University seeks to increase the racial and cultural diversity of its student body, faculty, and staff, to create a climate that encourages all members of the University community to respect and appreciate individual and cultural differences, to promote equity for people of different backgrounds in all areas of University life, to develop organizational practices that involve the participation of diverse groups, and to enhance the curriculum by including the perspectives of different races, cultures, and genders. The Commission to Promote Racial and Cultural Diversity guides the University in carrying out these goals. Members of the Commission are appointed by the President.

The Commission on the Status of Women. The University is committed to achieving equity for women and to responding to their concerns in all University endeavors. The twenty-four-member Commission on the Status of Women, which reports to the President of the University, consists of faculty, professional and salaried staff, and students. The Commission identifies problem areas, makes recommendations for change, and works closely with the Office of Women's Affairs and other units. Recommendations have been implemented in the areas of safety; sexual assault; sexual harassment; sexism in the classroom; salary equity; child care; and recruitment, promotion, and retention of women. The Commission also initiates programs on the changes occurring in our society as a result of newly defined roles for men and women and assists in implementing these programs.

THE FACULTY

The University faculty is dedicated to academic excellence. Eighty percent of its more than 900 members hold the doctoral or terminal degree in their field. They hold office in national and international professional associations, serve on editorial boards of scholarly journals, and accept lectureship invitations at institutions both here and abroad. It is not unusual, in any given year, for members of the faculty to receive such honors as Guggenheim fellowships, Alexander von Humboldt-Stiftung awards, and Fulbright fellowships.

Quality teaching is the primary responsibility of the faculty. Many members of the faculty, including distinguished professors, teach freshman courses, insuring that students have early contact with eminent scholars. Improvement of the quality of teaching is a high priority at the University. The University's Center for Teaching Effectiveness annually awards grants to faculty members who present proposals for significant improvements in instruction. The Center provides faculty teaching workshops and consultation in order to develop the highest quality of teaching at the University.

Many faculty members obtain research grants from such external sponsors as government, industry, and private foundations, or from University-related sources. The University's Center for Advanced Study, established in 1979, affords senior professors the opportunity to work full time on research or improvement of instruction for a semester or an academic year.

THE STUDENT BODY

The student is at the heart of the University's academic programs. In fall 1993, 21,735 students were enrolled including 15,617 undergraduate students, 3,083 graduate students, and 3,035 students enrolled in credit courses through the Division of Continuing Education. Of the undergraduate total, 685 were enrolled in the University Parallel Program at Delaware Technical & Community College in Dover, Georgetown, and Wilmington. Currently, about 58% of each entering class of undergraduates is from out of state.

Entering 1993 freshmen typically ranked in the top quarter of their high school graduating classes. Their average SAT verbal and mathematics scores were well above the national average for college-bound students.

In fall 1993, the University offered 114 undergraduate majors with a wide variety of concentrations. The average class size for undergraduates was 32 students, and the student-to-faculty ratio was 17 to 1. The presence of able graduate students contributes greatly to the development of the undergraduate program by providing educational models for those students who aspire to pursue an advanced degree. Graduate programs of quality are indispensable to the development of excellence at every level of teaching and research.

UNDERGRADUATE RESEARCH

Research has long been an important University activity, but traditionally it has been limited to faculty members and graduate students. Since 1980, undergraduate students have had increasing opportunities to do research through apprenticeships with University faculty researchers in the Undergraduate Research Program, in independent study projects, and for the Honors Degree or Degree with Distinction thesis. Information on all aspects of undergraduate research may be obtained from the Undergraduate Research Office in the University Honors Program.

In addition to undergraduate internships offered by research institutes affiliated with the University, the Delaware Nature Society in Hockessin, Delaware, offers part-time, one-semester internships for advanced undergraduate students in all of the natural science fields, in science education, and in communications. Students have the opportunity to apply knowledge attained through course work to research or education projects, to environmental teaching, or to public relations assignments. Application is made through the student's major department.

ACADEMIC YEAR

The University follows a semester plan. The fall semester begins in early September and ends in mid-December. The spring semester begins in early February and ends in late May. In addition, a 5-week winter session is held in January, and summer sessions offering 5 and 7 1/2-week classes are held June through August. Winter and summer sessions allow students to pursue regular academic credit in day or evening classes. During the 5-week winter session, students may participate in off-campus field experiences, special projects for credit, and a number of non-credit activities.

The University offers classes from 7:00 a.m. to 10:00 p.m. No distinction is made between "day" and "night" students since regular courses are offered throughout this 15-hour period. During preregistration for courses, students may indicate their preferred times for specific sections, but in cases where the number of sections is limited, preferences may not be granted.
ALUMNI RELATIONS

The Office of Alumni and University Relations, under the supervision of the Vice President for Development and Alumni Relations and with direct responsibilities to the President, conducts programs and activities for diverse constituencies of the University community and its alumni. The office serves as a liaison between the University of Delaware and the Alumni Association Board of Directors, who represent the world-wide alumni body of more than 80,000 living alumni.

The Office coordinates such major events as Homecoming, Alumni Wall of Fame, Presidential Citation for Outstanding Achievement, Alumni Spring Reunion, Winter and Spring Commencements, Founders Day, University by the Sea Summer Arts Festival, University Performing Arts Series, New Student Convocation (with Admissions Office), Honors Day, Recent Graduates Day, Legacy Day (with Admissions Office), University building dedications and groundbreakings, University awards ceremonies (Medal of Merit and Medal of Distinction programs), and Honorary degree presentations, and it assists with arrangements for class reunions, special interest reunions, and alumni chapter events of the over twenty-five regional chapters throughout the country. It also conducts a travel program specifically targeted for alumni of the university.

In cooperation with Career Planning and Placement, the Office sponsors Alumni Career Employment Services (ACES), which offers a jobs hotline, counseling and other services to job-hunting alumni.

In addition to the University Alumni Association, there are satellite alumni associations in the Colleges of Agricultural Sciences, Business and Economics, Education, Engineering, Human Resources, Nursing, and Urban Affairs and Public Policy. The Black Alumni Organization offers programming especially oriented to Black alumni and assists in recruiting and counseling Black undergraduates.

Through the Volunteer Admissions Support Team (VAST), coordinated by the Office of Admissions, alumni throughout the country help recruit outstanding students.

The Undergraduate Student Alumni Association (SAA) initiated in 1983, serves currently enrolled students and provides them with the opportunity to interact with alumni.
Students apply to one of the eight undergraduate colleges and to one of four campuses (see Parallel Program in Special Programs section) and usually designate a major field of study. The College of Arts and Science permits students to enter with an undeclared major status. Admission requirements may vary among colleges or departments. Some fields may require evidence of special skills; for example, the Music Department may require prospective students to perform an audition and take a music test.

A ceiling on enrollment in some programs makes acceptance more competitive. In selecting prospective students, the Admissions Committee considers an applicant's total credentials: depth and rigor of the college preparatory program, grades earned in specific courses (particularly those related to an applicant's proposed field of study), overall grade index, class rank, and test scores. Evidence of special talents and abilities, recommendations from counselors and teachers, leadership qualities, and attainment of recognition in extracurricular and community activities can also contribute to a favorable decision. Admission will not be guaranteed, either to a college or a major, on the basis of specific class rank, test scores, or pattern of high school subjects.

The University is committed to the principle of equal opportunity in education and seeks a diverse student body. It recognizes that, under special circumstances, applicants who have the potential for success at the University may not meet all the requirements set forth in this document. Therefore, particular attention will be given to foreign students, handicapped students, and veterans and to students who have been out of school for several years or whose secondary education, family income level, or background have prevented them from meeting all the requirements for admission. Applicants denied admission may apply for reconsideration. Residents of Delaware whose academic credentials at first do not support admission to the University may qualify after satisfactorily completing courses through the Division of Continuing Education. Students should consult an admissions officer about this option.

It is understood that students may desire to change majors during their undergraduate experience. Because available spaces in each college are fully allocated at the beginning of each semester, new students (freshmen and transfers) must remain in the college to which they were admitted for at least one semester. As spaces become available, students may apply for transfer to a major within another college. The transfer must be approved by the chair of the receiving department and by the dean of the college that houses that department. Students who wish to change their major should contact the department in which they are interested to obtain information on its change-of-major procedures and requirements.

Final acceptance to some degree programs depends on a student's achievement in the freshman and sophomore years. These programs include education, medical technology, visual communication, communication, criminal justice, liberal studies, athletic training, the program leading to a Bachelor of Fine Arts, and the program in engineering in which students concurrently complete requirements for a bachelor's and master's degree.

The University is eager to assist the increasing number of mature adults who are applying to college to attain an undergraduate degree, to expand career opportunities, or simply to become part of an exciting intellectual environment. The needs of many of these adults are met through the Division of Continuing Education. Delaware residents 60 years of age or older who apply and are admitted to a graduate or undergraduate program may attend classes on a space available basis without payment of the application, course, registration, or other related fees. Persons enrolled in this program are required to pay the cost of books, supplies, laboratory, and shop fees.
ADMISSION GUIDELINES FOR FRESHMEN

1. Applicants to the University must be graduates of accredited secondary schools or have equivalent credentials.
2. Applicants should have graduated in the upper half of their high school classes, preferably in the uppermost percentiles.
3. Applicants are required to submit Scholastic Aptitude Test (SAT) scores. For placement and advisement purposes, applicants are encouraged to submit scores on either the CEEB Achievement Tests or Advanced Placement Tests in their areas of interest.
4. Applicants should have a firm grasp of the basic academic skills of reading, writing, mathematics, sciences, and foreign languages and a strong commitment to academic achievement and learning. While some cases alternate forms of evidence of ability and seriousness of academic purpose may be appropriate, the most easily interpreted evidence is a strong high school record with a wide range of courses that must include post-eighth grade course work as follows:
   a) four years of college preparatory English, including courses with extensive writing components
   b) two years of college preparatory mathematics (more than two years is recommended for study in nursing, biology, chemistry, and textile technology; for study in business and economics, engineering, mathematics, physics, computer science, nutritional sciences, and food science, four years including trigonometry, precalculus or calculus is strongly recommended)
   c) two years of science, including one year of a laboratory science (for study in the sciences or in related fields such as nursing, nutritional sciences, food science, or engineering, four years of science is strongly recommended and should include a physics course)
   d) three years of social sciences, which must include two years of history, one of which should be world history.
   e) two years of study in the same foreign language (four years of study in the same foreign language is strongly recommended)
   f) three years of academic electives in fields such as English, mathematics, foreign languages, history and social sciences, or science. Electives do not include, for example, sports activities or driver education. The University urges high school students to take as many mathematics and foreign language courses as possible, with special attention to the selection of those courses in the senior year.

EARLY DECISION ADMISSION

The University of Delaware's Early Decision Plan serves freshman applicants who have completed a careful college search and have concluded that Delaware is their first choice. The application deadline for Early Decision is November 15. Students will be notified of the decision by December 15. In addition to being reviewed by the Admissions Committee, the student's application will be reviewed by the Scholarship Committee to determine if the student qualifies for one of the Early Decision Academic Scholarships.

Early Decision is competitive and students who are admitted through this process are generally among the best students in the applicant pool. Early Decision applicants may be offered admission, denied admission, or returned to the regular applicant pool for further consideration. Early Decision Admission is a binding commitment. If the student is offered Early Admission the student agrees that he/she will withdraw all other college applications and submit the admission deposit and (if applicable) housing deposit to the University of Delaware by January 15. The Early Decision applicant is sent a form that allows the University to estimate the student's financial need. Should the student demonstrate financial need that the University is not able to meet through a combination of loans and/or grants and Federal Work Study, then the student will be released from the Early Decision Agreement.

HONORS PROGRAM ADMISSION

Students are admitted into the University Honors Program (see Special Programs section) by special application and may select any academic major on campus. Although there are no rigid test score or grade point cutoffs, certain levels of achievement are typical of students who gain admission. Most freshman honors students are in the top five percent of their high school graduating class, and nearly all are in the top ten percent. The Program enrolls approximately 300 freshmen each year. Last year, the middle 50% of the Honors freshman class had high school grade point averages that fell between a 3.55 and 3.99 (on a 4-point scale) and Scholastic Aptitude Test scores that fell between 1180-1310. The Honors Program also welcomes applications from sophomore and junior level transfer students. For more information about the Honors Program call (302) 831-1128.

ADMISSION FOR FOREIGN STUDENTS

Foreign students attending the University of Delaware represent 100 countries. Typically, there are approximately 350 international students enrolled in the undergraduate colleges and 700 in graduate studies. A Foreign Student and Scholar Adviser (see Student Support Programs) assists these students in adapting to their new environment and to the American educational system. English tutoring, orientation seminars, "homes away from home," educational field trips and participation in community activities are included in the program for foreign students.

In addition to meeting the other requirements for admission, the student for whom English is not a native language is required to demonstrate proficiency in the English language by submitting the results of the Test of English as a Foreign Language (TOEFL). Some students may be encouraged to enroll in the University of Delaware English Language Institute (see Student Support Programs), or in another language institute in the United States, prior to beginning studies at the University. The University also offers a special course, English for Foreign Students, for those who need further assistance. Under federal law, the University is permitted to enroll nonimmigrant foreign students.

TRANSFER APPLICANTS

Students with current or previous attendance at other colleges and universities who now seek admission to the University should present secondary school credentials similar to those outlined in the preceding sections. For Delaware residents, minimum requirements for admission as a transfer student include a C, or 2.0 grade-point average in all previous college work, while transfer applicants from out of state must have at least a 2.5 average to be considered. Some
majors are more competitive and require a higher grade-point average and specific course work for admission for both residents and non-residents. Competitive majors include engineering, business administration, accounting, economics, education, computer science, communication, and nursing. Students must be in good standing and eligible to return to the institution from which transfer is sought. The transfer applicant's total academic credentials are considered: previously achieved grade index, type of institution attended, and performance in specific courses relating to the proposed field of study.

The University accepts credits only from those institutions that are fully accredited by the appropriate regional accrediting association. These credits must be at the baccalaureate level, applicable to a degree program offered by this university as approved by the appropriate dean, and passed with a grade of C or better. Acceptance may vary from one program to another. Transfer students must complete the last 30 credits at the University of Delaware to receive a degree. A transfer applicant must arrange for the Registrar of the former college to forward to the Admissions Office a complete official transcript. Work taken elsewhere is not included in the overall scholastic index used to determine eligibility for graduation; candidates for the baccalaureate degree must achieve at least a 2.0 (C) index for work taken at this university.

APPLICATION DEADLINES

For September admission, all application materials should be sent to the Admissions Office by March 1; to be assured full consideration for academic scholarships and first choice of major, all materials must be received by January 1. For February admission, application materials should be sent to the Admissions Office by November 15.

PERSONAL AND FAMILY MEDICAL HISTORY FORM

All entering students must complete and return the Personal and Family Medical History Form. This form requires students to inform the University that they are properly immunized against measles, mumps, and rubella.

ADVANCED PLACEMENT PROGRAM

The University is committed to the proposition that competencies attained through courses taken in secondary school, through independent study, and through courses taken while at the University should be recognized. Students may be granted credit through the Advanced Placement Program for scores of 3, 4, or 5. Information can be obtained from the Admissions Office. Advanced placement is given in other curricular areas. Students should have their test results sent to the Admissions Office.

ADMISSION AND READMISSION TO A SPECIFIC SEMESTER OR TERM

Because it is necessary for the University to control undergraduate enrollments, admission or readmission is granted for a specific semester or term. Students who fail to matriculate in the semester or term specified in the letter of acceptance will have their admission or readmission canceled. Students who seek to defer admission should submit a letter to the Admissions Office. In such cases the credentials will be reevaluated and the request may be granted, depending on the availability of space.

READMISSION THROUGH ACADEMIC RENEWAL

Undergraduate students who return to the University after a separation of at least five calendar years, and who earn at least a C in each course taken for 12 semester hours after returning, may be given the option of requesting a quality point status equivalent to that of a transfer student admitted to the University.

The following regulations will govern this option:

1) Consultation with the dean of the college in which the student plans to major is required, and course selection must be approved in writing before the student registers.
2) The option may be exercised after completion of 12 credit hours following return to the University. The student must initiate the procedure; it will not be automatic.
3) All courses and grades will remain on the student's transcript. Courses set aside under the academic renewal policy will be identified.
4) Courses in which grades of C- or better were earned prior to return may be counted toward the degree, but will not be included in the student's index.
5) The option will be extended only once during the student's enrollment at the University.

RESIDENCE REQUIREMENT

To earn a baccalaureate degree from the University of Delaware, a student must complete the first 90 credits or the last 30 credits at the University of Delaware.

ASSOCIATE DEGREE PROGRAMS

The University of Delaware offers the Associate in Arts (A.A.) and the Associate in Science (A.S.) degrees. These degrees are awarded to students who satisfactorily complete the curricular requirements for the first half of certain baccalaureate degrees. A minimum of 60 credits is required for the Associate in Arts degree and a minimum of 60 to 62 credits is required for the Associate in Science. These degrees are awarded in recognition of the completion of academic work normally offered by the community or junior college and are not terminal in nature. For part-time students, an associate degree can be a valuable intermediate goal bridging the interval between matriculation and baccalaureate degree completion. It is possible to complete an associate degree entirely with evening courses and part-time enrollment.

Admission Requirements. Admission requirements for the Associate in Science and the Associate in Arts are the same as those for the corresponding baccalaureate degree. The student should demonstrate scholastic aptitude, motivation for academic attainment, and evidence of adequate preparation for the curriculum to which admission is sought. These requirements may be met by satisfactory completion of appropriate credit courses taken as a Continuing Education student.

Transfer of appropriate credits from another institution may be granted, but to be eligible for an associate degree the student must take more than half the credits for the degree at the University of Delaware. Students who have been taking courses in the Division of Continuing Education, and who have not been formally admitted, should file an application for admission at the earliest possible date. In any event, the application must be filed early enough that 12 credits of the total will remain to be completed after formal admission as a candidate for an associate degree.

Eligibility. To be eligible for the degree, the student must have completed the elementary level course in a foreign language for the Asso-
Associate in Arts. For the Associate in Science, the student must have completed the elementary level course if there is a language requirement for the corresponding Bachelor of Science degree. A minimum grade point index of 2.0 is required for an associate degree. One semester prior to expected degree completion, the student must complete a degree checkout with the office of the dean of the student’s college. Except for students in the Parallel Program, the student must be enrolled in the college that is to award the degree.

General Information. For further information on the associate degrees, admission requirements, catalogs or needed forms, call the Office of Admissions (831-8123), the Division of Continuing Education ACCESS Centers (831-2741), the College of Agricultural Sciences (831-2508), or the College of Arts and Science Advisement Center (831-1281). Educational counseling and academic advisement are available at the ACCESS Centers at locations in Wilmington, Newark, Dover, and Georgetown.

Associate Degrees from the College of Arts and Science.
See College of Arts and Science section of this catalog. Academic advisement is available in the College of Arts and Science Advisement Center, 102 Elliot Hall.

Associate in Science from the College of Agricultural Sciences
See College of Agricultural Sciences section of this catalog. Academic advisement is available in 114 Townsend Hall.

INTERINSTITUTIONAL DEGREE PROGRAMS
The University of Delaware, in cooperation with Delaware Technical & Community College, offers baccalaureate degrees to students who have completed associate degrees in specific technologies. These degrees are awarded in the areas of Criminal Justice, General Agriculture, and Engineering Technology. Students living in Kent and Sussex Counties will be able to complete degree requirements with courses offered at University Parallel Program locations in those areas. Part-time students in these degree programs may be able to meet their course requirements through courses offered during the late afternoon and evening. For detailed information on degree requirements in these areas, see the Criminal Justice, General Agriculture, or Engineering Technology section of this catalog.

Admission. To be eligible for admission to an interinstitutional baccalaureate program, a student must have earned an associate degree or the equivalent in an appropriate technology from Delaware Technical & Community College or another accredited college or university. Most of the credits earned in the associate degree program will be accepted for transfer to the University of Delaware provided they have been passed with a grade of C- or better. A student must complete the balance of the bachelor’s degree requirements with courses offered by the University of Delaware.

For further information on interinstitutional degrees, contact the ACCESS Center of the Division of Continuing Education at (302) 831-2741.

- Rebates on Room Charges
- Other Fees
- Payment of University Charges
- Penalties for Nonpayment
- Residence Halls
- Financial Aid
- Tuition Credit
- Information for Veterans and Their Dependents

Student tuition and fees for the academic year are established by the Board of Trustees under the authority of the University Charter and apply equally to all students. This income comprises approximately 36 percent of the general revenues of the University. Other major sources of University funds are state appropriations, donations of alumni and friends, endowment income, and federal appropriations. The academic year consists of fall and spring semesters. Fees and expenses for the summer and winter sessions and for the graduate and Continuing Education programs are published in separate bulletins.

Students are responsible for knowing about and complying with University policies and for paying the established fees that are updated regularly in catalogs and fee payment materials. Application for admission constitutes acceptance of these terms, and each subsequent registration constitutes reacceptance.

The University reserves the right to revise its policies, fees, and other charges whenever it is deemed advisable; the new policies and rates apply to all students. Advance notice of any change is normally given.

TUITION AND ROOM AND BOARD

The following fees were approved for the 1993-94 academic year and are subject to change for the 1994-95 academic year.

<table>

<td>$2,015.00</td>
<td>$4,030.00</td>
</tr>
<tr>
<td>TOTAL</td>
<td>$3,790.00</td>
<td>$7,580.00</td>
</tr>
</tbody>
</table>

The above tuition covers registration for 12 to 17 credits per semester. The room and board fees include the most usual combination of a double room in a traditional residence hall and meals seven days per week. All full-time undergraduate students pay the full-time tuition charge that includes regular course, laboratory, library, athletic, and recreation facility fees.

Tuition for Additional Credit Hours. An additional charge at the per credit hour rate for undergraduate courses applies to each credit in excess of 17 for which an undergraduate student is registered.

General Expenses. Students must be prepared to meet the following additional estimated expenses that are not included in the semester bills: books and supplies, $530 per year; miscellaneous expenses and transportation, $1,300 per year.

QUALIFICATION AS A DELAWARE STUDENT

Student status for admission and fee purposes is determined solely by the University and may or may not coincide with domiciliary status for other purposes. Lower fees are offered to Delaware students in recognition of the substantial appropriations made by the State of Delaware for the operation of the University and the construction of its physical facilities. The regulations governing student classification are intended to differentiate between Delaware students and non-Delaware students in an equitable way, and to obviate, insofar as is practical, entitlement to preferential classification in more than one state at the same time.

The status of a dependent student is determined by the permanent domicile of the parent or legal guardian. The status of an independent student is determined by the student's own permanent domicile. In general, to qualify as a Delaware student the person on whom this classification is dependent must have established a bona fide permanent domicile in Delaware and must have maintained a continuous residence therein for a period of twelve full months.
immediately prior to the first day of classes in the semester or session for which Delaware student status is claimed. Without supporting evidence to the contrary, it is presumed that independent students do not fulfill the domiciliary and durational requirements while their principal occupation is that of student.

Students will be classified for fee purposes at the time of their application for admission. Those seeking a subsequent change of this classification must make application. Application forms are available in the Student Services Building. Changes may not be made retroactive beyond the academic period in which the request is made. Appeals regarding classification should be addressed to the University Registrar. A copy of the regulations governing classification of students for fee purposes may be obtained from the Registrar’s Office or Student Services Building.

Delaware student classification will be terminated one year after a move from the State of Delaware.

All of the ramifications of Delaware student status cannot be included in the catalog. Questions concerning residence status of applicants for admission, especially those complicated by unusual situations (such as military service, divorce, custody, or guardianship arrangements), should be clarified with the Admissions Office prior to application.

Failure to give complete and correct information to the University regarding residence constitutes grounds for dismissal.

### RESIDENCE HALL FEES

**Room Applications.** Upon admission to the University, a new student is automatically sent a residence hall application. Students currently in attendance receive applications and instructions from the Office of Housing and Residence Life.

For the full semester, sufficient space is set aside to accommodate all new freshmen and transfer students who desire to live on campus during their first year and whose housing applications are on file by May 1. Freshmen and transfer assignments are made based on the order the paid applications are received. Assignments are announced in August.

Current upperclass students who apply for housing by the announced deadline will receive an assignment. The order in which the assignments are made is determined through a computerized system which considers the number of semesters a student has resided on campus.

To apply for a residence hall space, a new student submits the completed room application, along with a $100 deposit, to the University Cashier’s Office. Current upperclass students submit the application and a $200 deposit. The deposit is credited toward the first semester residence hall charges.

Of the $100, $50 is not refundable except under unusual circumstances determined by the Assistant Director for Occupancy Management. New students who cancel their housing applications for the fall semester in writing on or before June 15 will receive a partial deposit refund of $50. If a student cancels after June 15 or fails to occupy the space assigned, the entire $100 deposit is forfeited. For new spring semester applicants, $50 of the $100 is refunded only if written notice of cancellation is received by the Office of Housing and Residence Life by December 1. The cancellation policy for current upperclass students is explained in the application instructions.

The Academic-Year Student Housing Agreement for a residence hall space is made for the entire academic year. Cancellation after the Agreement is in effect is permitted only under specific and/or exceptional circumstances approved by the Office of Housing and Residence Life. Requests for release from the residence hall agreement must be made in writing to the Assistant Director for Occupancy Management. Partial rebates are provided if the student is released from the Agreement. Full details of the Agreement are published in the Official Student Handbook.

While an effort is made to assign each student the type of space requested, assurance cannot be given that the student will be assigned to the type of space or area for which he or she has applied. A student is required to pay the full residence hall charge for the space that is assigned.

Students who sign an Academic-Year Student Housing Agreement are financially responsible for the cost of the room through the end of the academic year from the date of sign-in/occupancy. Students who sign this Agreement at the beginning of the fall semester will pay the total amount listed below under “Academic Year.” The fall charge for these students will be equal to the amount listed below under “Per Semester.” Students who sign-in/occupy any time after the beginning of the fall semester pay a prorated portion of the “Per Semester” charge determined by the date of the signing of the agreement. Complete details of the Academic-Year Student Housing Agreement and all residence hall policies are available in the 1994-95 Official Student Handbook.

At any time the occupancy of a room or apartments falls below 100 percent and the Office of Housing and Residence Life does not have or anticipate having an application from an eligible student to fill the space, the remaining student(s) assigned to that space may be offered the options to:

1. **elect to pay for the vacant space** for the remainder of the semester, thereby insuring that no new student will be assigned to that space. When this situation occurs during the fall semester, the Office of Housing and Residence Life reserves the right to assign the space for the remainder of the year beginning with Winter Session.
2. **elect not to pay for the vacant space** and continue to live in that room for no additional charge. However, the Office of Housing and Residence Life reserves the right to assign the space for the remainder of the year beginning with Winter Session.

NOTE: If demand permits, the Office of Housing and Residence Life may offer the remaining student(s) assigned to that space the same two options for Winter Session and/or spring semester.

Room rent does not include insurance for the personal belongings of students. This would be an unnecessary additional charge in the many cases that are protected under a family homeowner’s poli-
The University assumes no responsibility for loss of or damage to personal property. Occupants of residence halls are advised to obtain their own insurance on their personal property, if this is desired.

**MEAL PLANS AND FEES**

Fifteen dining options are available for students living on campus, in addition to multiple commuter and Christiana plans. All students residing on campus with the exception of those in Christiana Towers are required to purchase a meal plan. If no choice is selected by the student, 12 meals + 16,000 points will automatically be assigned and billed.

Points are units of purchasing power (1,000 points have a purchase value of $10). They may be used in dining halls to purchase a meal for a guest, in campus convenience markets, and in the many snack and restaurant locations across campus. Additional points may be added to any plan at any time by visiting the Student Services Building on Lovett Avenue. Unused points from fall semester may be carried into the winter session or spring semester ONLY if a dining plan is purchased for that session/semester. Unused points at the end of the spring semester are nonrefundable.

Dining plans are valid for one semester only. The choice of a meal plan may be changed once between the start of the semester until the published drop/add deadline for classes. Before coming to campus, students may submit a change on the "Choose or Change" form enclosed in the estimated semester bill received in July and returned in August. A registered dietitian on staff can arrange special meals and is available for free personal counseling.

There are four all-you-care-to-eat dining halls across campus: Russell is located on East Campus, Rodney on West Campus, Kent on Central and the Upper Deck Dining Room at Pancader on Laird/North Campus.

The UD#1 CARD (Student ID) is the "ticket" into dining halls, campus convenience markets and many snack and restaurant locations across campus. Upon entering a dining hall, the checker will slide the ID through the microcomputer which automatically deducts that meal from the student's weekly allowance. ID cards are not transferable. They can only be used by the person to whom the card was issued and must be presented for any dining services transaction. Lost ID's should be reported immediately to the ID CARD office in the Student Services Building on Lovett Avenue, or, call UD#1 CARD (831-2273) to suspend privileges.

- b. All points ($150 minimum buy-in) $150

**REBATES ON ROOM CHARGES**

The Agreement for a residence hall space is made for the entire academic year. Cancellation after the agreement is in effect is permitted only under specific and/or exceptional circumstances approved by the Office of Housing and Residence Life. Failure to pay residence hall charges in and of itself does not constitute cancellation of this Agreement. Unpaid bills are included in the student's University account.

A two-week (10 working days) "grace-period," (a time in which a new student may be released from his/her agreement and receive a partial financial rebate) beginning with sign-in/occupancy of the room is provided only for new single undergraduate students. New students are defined as those who have never previously been enrolled at the University of Delaware, Newark campus. Grace periods are provided at the beginning of the fall and spring terms only.

Requests for release from the Academic-Year Student Housing Agreement must be in writing to the Assistant Director for Occupancy Management. Partial rebates are provided if the student is released from the agreement.

Room rebates will be calculated based on the actual number of days that the student occupies a room plus an additional two weeks.

**OTHER FEES**

**Determining Date for Tuition Charges.** Tuition charges will be determined based on registrations made before the end of the late registration free drop/add period (first two weeks of the regular semesters). Full charges are made for course addition and/or withdrawal thereafter.

**Rebates for Tuition Charges.** Full rebates of tuition charges will be made for courses dropped by the end of the late registration free drop/add period (first two weeks of regular semesters). NO REBATES OF TUITION will be made for courses dropped thereafter.

**Fee for Changes in Registration.** Changes in registration may be made without fee and with a full rebate of tuition prior to the start of classes and during the late registration period (first two weeks of classes in each semester). After the first two weeks of classes, a charge of $15 will be assessed once per semester, when a student initiates a request to change from one class or course section to another, drops or adds a course, changes to or from the pass/fail option, or changes to or from auditor status. In addition to this fee, all students will be charged tuition for any course dropped after the late registration period.

**Part-time Students.** Undergraduate Delaware residents who enroll for less than twelve credits pay a fee of $148* per credit hour. Undergraduate nonresidents who enroll for less than twelve credits pay $402* per credit hour. Courses being taken as auditor are included in the credit hour total.

**Comprehensive Student Fee.** A mandatory fee of $38* is assessed all full-time undergraduate students each semester.

**Student Center Fee.** A mandatory fee of $50* charged to all full-time matriculated students each semester to cover renovations to the student center.

**New Student Orientation Fee.** Newly matriculated undergraduate students (including transfers) are required to pay a $35* fee to cover the costs of the New Student Program and New Student Orientation. Participation in the orientation program is not a consideration in the assessment of this fee.

*Fee approved for the 1993-94 academic year. Subject to change for the 1994-95 academic year.
Special Recording Fee. A recording fee is assessed to reimburse the University for processing and recording the following kinds of transactions:

- Advanced placement credit ($15)*
- Transferring credit earned at other institutions following admission ($20)*

Health Service Fee. A mandatory fee of $111* is assessed to all full-time matriculated students each semester, entitling them to use the Health Service during the semester. Part-time students may use the Health Service by electing to pay the semester health fee by the end of the late registration period and contacting the Student Health Center, or by opting to use the Health Service on a fee-for-service basis during the semester.

Student Medical Insurance. An optional accident and sickness insurance plan administered by Blue Cross Blue Shield of Delaware is available to all admitted students. This insurance does not cover medical services offered in the Student Health Service. Students whose parents live outside the continental United States are required to have either insurance offered by the University or equivalent insurance coverage. Details of the coverage are mailed directly to the student by the insurance company in July or can be obtained from the Student Health Center.

Credit by Examination Fee. Credit may be awarded when a student demonstrates proficiency in a subject-matter field by passing an examination arranged with the department. A fee of $30* per credit hour is charged in advance to cover the cost of the administration of the examination and the recording of the grade.

Independent Study Fee. Students enrolled in a regular academic program who gain credit by working on an independent research or reading project will pay the appropriate tuition charge as previously outlined.

Student Teaching Fee. Students enrolled for Practice Teaching (EDDV 400 or IFST 459) will pay $75* per semester in addition to the regular tuition charge.

Transcript Fee. Prepayment of $4* is required for each official transcript issued. A transcript is not released until outstanding financial obligations to the University are met. One week is normally required to process a transcript request. To protect the confidential nature of student records, requests for transcripts must be made in writing by the student.

General Fee for Changes and Replacements. A nominal charge, not exceeding $20*, is assessed for such transactions as changes in residence hall rooms (after the first two weeks of each semester) and replacement of lost identification cards (at any time).

All payments made by check or money order should be drawn to the order of the “University of Delaware.” Receipts are not issued for payments made by check or money order unless specifically requested.

The net total, or the first installment (if the installment option is selected), of University fees and charges, together with the completed Fee Payment Form, is due by the date specified in the instructions in the fee payment packet. A dishonored check that has not been cleared by the payment deadline does not constitute payment. A person whose check to the University is dishonored upon being presented for payment will be assessed a $25* service charge and may be required to make future payments by cash, money order, or certified check. Matriculated students whose credit remains in good standing with the University may pay semester bills in accordance with the installment plan table. A service fee of $40* is charged if the installment plan is selected. Although monthly statements are sent to those who are indebted to the University, these installment payments are due by the dates specified whether or not a statement is received. The dates below are approximate. The percentages refer to the net amount of the bill remaining after any credit for scholarships, deposits, etc.

*The Installment Payment Plan is only one of the payment options offered through The Delaware Plan, a comprehensive financing program for University of Delaware matriculated students. A Guaranteed Prepaid Tuition Plan allows families to pay cash or borrow up to the full amount necessary to prepay up to four years of full-time tuition at the current full-time tuition rate. Lines of Credit allow families to borrow funds at a very reasonable rate to pay for University billed expenses as the funds are needed. The Delaware Plan is a partnership between the University and CoreStates First Pennsylvania Bank. For further information on The Delaware Plan, contact the Accounts Receivable Office, (302) 831-2126.

Students are billed individually for any loss, breakage, or damage of University property and for such incidental charges as library and parking fines. These bills are due upon receipt. Failure to pay them may result in the penalties for nonpayment shown below.

**PAYMENT OF UNIVERSITY CHARGES**

Total University fees and expenses are due on dates established for each semester. Generally, tuition, room, and board are due about a month before the start of each semester. A University tuition and fees payment packet listing estimated semester expenses and a Fee Payment Form are mailed to each student at least six weeks in advance of the start of each semester. It is the responsibility of the student to obtain the fee packet and the Fee Payment Form from the Accounts Receivable Office if not received in the mail, to calculate the bill, and to return the Fee Payment Form to the Cashier Office with any required payment. A Fee Payment Form must be completed and submitted by all students even if financial aid or other credits may cover the total semester charges. Verification of credit on account must be provided, except for admission and room deposits paid.

*Fee approved for the 1993-94 academic year. Subject to change for the 1994-95 academic year.

**PENALTIES FOR NONPAYMENT**

- Advance registration may be cancelled for any student for whom the fee payment form and any required payment have not been received by the specified date each semester.
- If any fees, fines or miscellaneous payments are not received when due, the student is subject to being dropped from the University. Subsequent registration would then be refused and transcripts, diplomas, and other information concerning attendance at the University would be withheld. Reinstatement requires payment of the amount due and compliance with the usual readmission procedures.
- Collection agency fees, attorney fees, court costs, and other costs and charges necessary for the collection of any amount not paid when due are the obligations of the student concerned.
- Students who fail to make payments when due may be denied the privilege of using the installment payment plan in future semesters.

Late Payment Fee. Any admitted student who fails to submit the fee payment form and any required payment to the Cashier by the
date specified will be charged a $35* late payment fee. New students who are admitted too late to pay by the established fee payment date, as identified by the Admissions Office, will not be assessed the late payment fee if they make payment by the new fee payment date assigned them.

Any student who does not submit a fee payment form and any required payment before the first day of classes will be charged a $50* late payment fee. A student who elects the installment payment plan and then does not pay the second, third, and final installments when due or fails to pay the required percentage of his or her bill will be assessed a $25* installment penalty for each such installment.

**RESIDENCE HALLS**

**Philosophy.** The residence program is a vital part of the educational mission of the University. The environment is designed to assist students in meeting the developmental challenges faced during the college years, including creating adult-to-adult relationships with parents, gaining a sense of confidence, becoming autonomous, selecting a career, and clarifying values. Professional staff oversee each residence complex. The hall director, assisted by upperclass resident assistants, aids students in developing social, recreational, and cultural programming. Students are expected to be constructive contributors to a positive residence hall community. This responsibility includes both respecting the rights of others and asserting one's own rights. Residence Life staff members play a crucial role in assisting students to develop a positive living environment. Staff members not only help with personal and academic matters, but also work with students so that they share responsibility for upholding policies designed to protect the rights of all individuals.

**Policy.** Single freshmen students are required to live in University housing, or at home with a parent or guardian. Requests for exception to this policy, along with an explanation of the student's exceptional situation, must be submitted in writing to the Assistant Director for Occupancy Management at the Office of Housing and Residence Life, 5 Courtney Street, Newark, DE 19716.

**Facilities.** Traditional residence halls contain double rooms, some single rooms, and some larger rooms, with common bathroom facilities. The Pencader Complex features single and double rooms, each with an outside entrance and direct access to bathroom facilities that serve six or twelve students. The Ray Street halls offer suite-style housing with two double rooms sharing an adjoining bath. The Ray Street complex accommodates students in nineteen Special Interest Housing communities as well as some students not affiliated with these programs.

Apartment complexes feature furnished one- and two-bedroom units with bath, kitchenette, and living and dining facilities. The Christina apartment complex consists of twin air-conditioned high rise towers and a Commons building which contains a convenience market and computer site. The College Towne apartment complex offers four air-conditioned three-story buildings which house graduate and some upperclass undergraduate students. The Conover apartment complex, two two-story buildings, houses single graduate students and offers unfurnished accommodations for married students and families.

Cable TV, computer network, and local telephone service are provided in all rooms and apartments. Students provide their own telephone instruments and make arrangements for long distance service with the University Student Telephone Service or use telephone credit cards. Common areas for lounging, recreation, laundry, etc. are available in each complex. Custodial service is provided only for the common areas. The cost of utilities is included in the room charge.

Rooms are furnished with beds, dressers, closets or wardrobes, drapes or shades, study desks and chairs, lamps, and wastebaskets. Students must bring their own linens, pillows, blankets, and bedspreads. Students are held responsible for conduct that occurs in their rooms. Damage done to a room or its furnishings is charged to its occupants. Damage or theft in public areas is charged to all residents of the building if the responsible person(s) cannot be identified. The University may require a room to be vacated at any time for cause. If a student is required to vacate a room or vacates voluntarily, the rebate will be determined in accordance with the rebate schedule. University personnel are authorized to enter and inspect students' rooms for health, fire, safety and maintenance purposes.

All traditional, Pencader, and Ray Street halls except Pencader K, L, and M are closed during regular vacation periods and may not be entered. Students are not normally required to remove belongings from their rooms during vacation periods. However, students who will be doing room changes at the beginning of spring semester and who will not be attending Winter Session must take their belongings home after fall semester. Christina apartments remain open during vacations but close at the end of the spring semester. Students are required to vacate and remove all personal belongings from their rooms within twenty-four hours after completion of their last final examination.

More complete information on residence hall accommodations, policies, and regulations may be found in the Official Student Handbook, available at New Student Orientation, the Office of Housing and Residence Life, and the Office of the Dean of Students.

**Single Student Housing.** Only single undergraduate students who are registered at the University for not less than twelve academic credits per semester may reside in traditional, Pencader, Christina, or Ray Street halls.

Single freshman students are required to live in the University residence halls, in their own homes, or with close relatives unless unusual circumstances, as determined by the Office of Housing and Residence Life, dictate otherwise. Requests for exceptions should be addressed to the Assistant Director for Occupancy Management, Office of Housing and Residence Life. Appeals may be made to the University Faculty Senate Committee on Student Life. Upperclass students may live in the University residence halls, their own homes, fraternity/sorority houses, or in the local community in facilities of their own choosing. Listings of some current off-campus housing options are available at the Office of Housing and Residence Life, 5 Courtney Street.

**Family Student Housing.** The Conover Apartments are available to full-time graduate or undergraduate students, who want to live with a spouse, children or other individuals who constitute their family. Legal documentation is required. Residents sign a 12-month Student Housing Agreement. When the apartments are not in high demand they are sometimes made available to other members of the University community. Applications may be obtained from the Office of Housing and Residence Life at 5 Courtney Street. Married students are not permitted to live in other University residence halls.

**Graduate Student Housing.** Single graduate students are offered housing in the Lovett House, the College Towne apartments, and the Conover apartments. Residents sign a 12-month Student Housing Agreement. Applications are available at the Office of Housing and Residence Life, 5 Courtney Street.

**FINANCIAL AID**

The University of Delaware scholarship and financial assistance programs focus on the student. This is because it is the University's intent to remove financial barriers to higher education for University applicants. **FINANCIAL INFORMATION**
students and to attract students with exceptional academic promise. However, since resources are limited, University financial aid should be viewed only as supplementary to the efforts of the family. Financial assistance programs are a bridge between the family’s ability to pay for higher education and the cost of higher education. In most cases, the University awards aid on the basis of need: aid consists of grants and/or loans and/or employment opportunities. The University also offers a number of scholarships based on academic proficiency alone. The Scholarship Committee considers all students of exceptional promise for these scholarships.

How to Apply for Financial Aid. Entering Freshmen—Application for financial aid should be made early in January preceding the fall semester the student will enter the University. All personal and family financial information provided to the Financial Aid Office is maintained in strictest confidence. Eligibility for financial aid is not considered in reaching the Admission decision. Students applying for financial aid must complete the following procedure:

- Parents and students must complete a Free Application for Federal Student Aid (FAFSA) and send it directly to the address on the envelope included with the form. (Forms may be obtained from high school guidance counselors.) Indicate that a copy of the analysis is to be sent to the University of Delaware. For the purpose of verification, applicants may be required to submit Federal Income Tax Forms for both themselves and their parents to the University’s Financial Aid Office. A statement of Selective Service Registration Compliance may also be required.

Renewal and Other Candidates—All students must reapply for financial assistance each year. Awards may be offered for subsequent years, dependent upon available resources, the need of the applicant and the student’s continued enrollment with at least half-time status in a degree program. Continuing Education students are not eligible for financial assistance. The procedure listed above must be completed by all upperclass applicants. Application forms are available in the Student Services Building.

Deadline. Note that the priority deadline for receipt of financial assistance applications from all students is May 1 prior to the year for which aid is requested. It is suggested that the FAFSA be submitted prior to March 15 to meet the above deadline. Applicants who apply after May 1 cannot be guaranteed consideration for aid and may be assisted only to the extent that funds are available.

Notification of Aid. A final Notification of Aid that details the sources and amounts of aid awarded is sent to the student prior to the due date of the first payment for educational charges of that same school year. Upon receipt of the Notification of Aid, the student must sign and return the appropriate copy. Failure to return the signed copy to the Financial Aid Office will result in the forfeiture of financial assistance.

Student Withdrawals. If your enrollment terminates through official withdrawal and you are a recipient of Federal and/or State financial aid funds, your financial aid award must be reviewed. Federal financial aid funds include Federal College Work Study Program, Federal Perkins Loan, Nursing Student Loan, Federal Supplementary Educational Opportunity Grant, Federal Pell Grant, Federal Stafford Loan, Unsubsidized Federal Stafford Loan and the Federal Parent Loan Programs. State financial aid funds are General Fund Scholarship and Delaware Right to Education.

Your financial aid eligibility is based upon your cost of education (e.g., tuition, mandatory fees, room, board, books, and miscellaneous expenses). This cost of education represents actual costs incurred for the entire semester and is contingent upon your completion of that semester. When you officially withdraw, your cost of education must be analyzed to determine if a Student Refund is due.

Student Refund refers to the reduced cost of attendance that results from your withdrawal from the institution prior to the completion of a given academic term.

Federal regulations require that the institution restore monies to the federal financial aid programs after the “Student Refund” is calculated. The amount of funds to be returned is determined by specific formulas. This computation may result in a reduction in your financial aid.

The federal pro-rata refund policy became effective July 23, 1992. Final federal regulations were released in the spring of 1993. For further information and refund policy statements, contact the Office of Scholarships and Financial Aid at (302) 831-8761.

Financial Aid Procedures for Failure to Withdraw Officially. If your enrollment terminates before the end of a semester and you fail to adhere to the official withdrawal policy of the University, then you are ineligible for any federal and/or state financial aid program funds previously awarded to you for that term. Therefore, in accordance with federal regulations all financial monies received for that semester will be considered an overpayment. These funds must be returned to the federal and/or state program accounts. You will be billed for semester charges.

For further details, contact the Office of Scholarships and Financial Aid.

Financial Aid for Students with Previous Baccalaureate Degree. A student who completes his or her first baccalaureate degree is not eligible to receive either a Federal Pell Grant or a Federal Supplemental Educational Opportunity Grant. It is a student’s responsibility to indicate receipt of a first baccalaureate degree when completing the Free Application for Federal Student Aid (FAFSA).

Satisfactory Academic Progress. For financial aid purposes, the Federal Government Title IV assistance programs (Federal Pell Grants, Federal Perkins Loans, Federal Supplementary Educational Opportunity Grants, Federal College Work-Study Programs, Federal Stafford Loans and Federal Plus Loans) require students to maintain progress toward a degree. This satisfactory academic progress is considered for full-time matriculated students to be:

a. completion of a degree within five years of matriculation (six years for the combined Engineering/Arts and Science degree program).

b. successful completion of at least 24 credit hours each academic year.

In cases where financial aid is available to part-time matriculated students, the minimum academic eligibility requirements are prorated over an amount of time equivalent to the rate at which students register for credit. For example, a student registering for 50 percent of a full-time minimum load would have twice as long to complete the eligibility requirements.

Students who fail to make satisfactory academic progress will be ineligible for financial assistance.

Student Consumer Rights and Responsibilities. A student who receives financial aid from the University has the following rights:

- To know the costs of attendance to the institution; to know all available sources of Financial Aid; to speak with the Financial Aid Officer who has determined the student’s need; to be informed of all aspects of the Financial Aid package awarded, including dispersal of aid; to know the academic expectations of the institution; and to know the institution’s refund policy.

A student also has the following responsibilities:

- To apply for aid by the established University deadline; to report any outside awards to the University Financial Aid Office; to remain in good academic standing and make appropriate academic progress; to comply with loan repayment schedules established; and to report any changes in family or
Financial Aid recipients are also responsible to report to the Dean of Students, the Student Loan Office, and the Financial Aid Office when they withdraw from school.

Additional financial aid consumer information is available from the Student Services Building, or telephone: (302) 831-8761. The Accounts Receivable Office, the Admissions Office, and several University publications also have pertinent information about financial aid at the University of Delaware.

TUITION CREDIT

Sibling/Parent. Every full-time, matriculated undergraduate student at the University of Delaware is entitled to a Sibling/Parent Tuition Credit of $100 if he or she has one or more siblings or parents who is also a full-time matriculated undergraduate student at the University for the same academic year.

To receive this tuition credit, the eligible students must submit a Sibling/Parent Tuition Credit form to the Cashiers Office by the fee payment deadline for spring semester. These forms are available in December in the Cashiers, Records, and Accounts Receivable Offices. For determination of eligibility, see the Sibling/Parent Tuition Credit Policy distributed with the form or contact the Accounts Receivable Office.

Senior Citizens. Every matriculated student at the University who is 60 years of age or older and a citizen of the State of Delaware may take credit courses on a space available basis without paying tuition. For further information, contact the Admissions Office at (302) 831-8123.

INFORMATION FOR VETERANS AND THEIR DEPENDENTS

The University of Delaware is approved for veteran attendance under Chapters 30, 31, 32, 34, 35, and 106 of Title 38, Code of Federal Regulations. Veterans interested in obtaining benefits under these regulations should contact the University Veterans Affairs Clerk in the Student Services Building at (302) 831-8987.
Responsibility for knowing and following the academic rules and regulations, including requirements for graduation, rests with the student. It is the students' responsibility to check all advisement materials available in the department. Faculty advisers assist students in planning their academic programs but are not expected to relieve the students of their responsibility. Rules and regulations related to student conduct may be found in the Student Guide to Policies and the Residence Life Handbook published by the Division of Student Life.

All colleges establish specific academic requirements that must be met before a degree is granted. The regulations concern such things as curricula and courses, majors and minors, and campus residence. Advisers, program directors, and deans will provide specific information concerning these requirements, but the student alone is responsible for fulfilling them. It is important for students to acquaint themselves with all regulations and remain currently informed throughout their college careers.

Students who have a clear idea of their educational objectives are encouraged to make an early declaration of their choice of major. Where it is permitted by their college, students may initially indicate their status as undeclared, but by the end of the fifth semester of full-time study (or the completion of 75 credit hours), all students are required to be accepted by a department, declare a major, and receive appropriate faculty advisement from their major department.

The University of Delaware selects students for admission and extends to them the privilege of attendance. Every student upon enrolling accepts the obligation to comply with University rules and regulations and to endeavor to meet the academic standards of the University. A student may be dropped, suspended, or expelled for academic or disciplinary reasons if officers of the University or committees of the faculty responsible for academic status and discipline determine that the student is not profiting by attendance or that such action is in the best interest of the University of Delaware.

**FACULTY ADVISERS**

Faculty or other specially trained personnel act as advisers for undergraduate students. Freshmen are assigned an adviser by the college to which they have been admitted. If students later change their college or field of concentration, they are assigned to a different adviser familiar with courses and requirements in the new field of concentration. (Students should read Change of Major, Curriculum, or College in this section.)

Freshmen are required to consult their advisers for assistance in proper planning and registration for academic work. Students are urged to keep their advisers informed of their academic progress through periodic conferences.

**REGISTRATION**

All matriculated students register in advance for spring and fall semesters.

a. Registration periods are scheduled for returning full- and part-time undergraduate students in late April for fall semester and in late November for spring semester.
b. Newly admitted undergraduate students register during New Student Orientation, which includes academic advisement. (See also New Student Orientation in the Student Life and Activities section.)

c. Readmitted students are notified of registration procedures that apply.

Advance registration periods also precede the summer and winter sessions.

It is the student's responsibility to seek advisement prior to each registration.

Students who have registered in advance but are dropped from the University will have their registration canceled and fees refunded.

Students will not receive credit for courses in which they are not properly registered.

STUDENT CLASSIFICATION

A student's classification (college and class year) is assigned at the time of admission. Normally, students with 27 or fewer credits earned toward the degree will be classified as freshmen; those with 28 to 61 credits will be classified as sophomores; those with 62 to 94 credits will be classified as juniors; and those with 95 or more credits will be classified as seniors. Students who register for less than 12 credits in the fall or spring semester are considered part-time students.

COURSE LOAD

**Full-time Undergraduates.** A normal schedule consists of four or five major courses subject to the following credit limitations:

- For freshmen, a normal load may not exceed 17 credits excluding basic military science and courses in physical education.
- A reduced schedule of four major courses plus physical education and military science may be suggested for some freshmen by faculty advisers. (See also International Programs and Special Sessions in the Other Divisions section.)
- For upperclass students not on probation, a normal load should not exceed 18 credits, unless prescribed by the curriculum.

Students on academic probation may not register for more than four major courses, excluding basic military science and physical education.

Registration as Auditor or Pass/Fail is counted the same as registration for credit for the purpose of determining course load. (See also Progress Toward Degree in this section.)

**Part-time Undergraduates.** A student registered for fewer than twelve credits during a regular semester is a part-time student. Part-time students admitted to the University's undergraduate division are degree candidates. All other students attending on a part-time basis are continuing education students (CEND), i.e., not pursuing a formal degree. (See also International Programs and Special Sessions in the Other Divisions section.)

Registration on a Pass/Fail or Auditor basis is counted the same as registration for credit for the purpose of determining course load.

**Overload.** Faculty advisers may approve a course and credit load greater than those defined above provided the student has a cumulative index of 2.5 and an index of 3.0 for the preceding semester. In no instance will a student be permitted to register for more than 22 credits including registration as Auditor or Pass/Fail. (See also International Programs and Special Sessions in the Other Divisions section.)

TRANSFER OF CREDIT

Insofar as possible prior course work will be accepted toward the degree. Course work that has been taken more than seven calendar years earlier will be reviewed for applicability. An individual department may require repetition of "outdated" prerequisite courses.

Students already enrolled at the University of Delaware who wish to receive credit for work to be taken at another institution must complete a Transfer Credit—Post Admission form. Permission must be obtained for the particular course or courses for which credit is desired. It is recommended that the adviser or dean be consulted prior to taking such work, although the written approval and transfer transaction may be processed after completion of the course. Specific instructions for obtaining such approval may be obtained from the Service Desk, Student Services Building. The credits and quality points for work taken elsewhere will not be included in the calculation of the student's University of Delaware cumulative index.

Students from Delaware State College and Delaware Technical & Community College who wish to transfer to the University of Delaware should consult the Admissions Office and their own department chairs and college deans for transfer of credit information.

PASS/FAIL GRADE OPTION

Matriculated students may elect to take one course on a pass/fail basis each semester; however, some colleges do not permit pass/fail courses to be used to complete degree requirements. A pass/fail course can only be used as a free elective for the student. Students are encouraged to consult with, and obtain the approval of, their advisers in the selection of courses to be taken under this option. In addition, a course taken on a pass/fail basis cannot be used to fulfill the University multicultural requirement.

The total number of credits taken on a pass/fail basis may not exceed 24 in the baccalaureate degree program, excluding courses that are graded pass/fail only. If students take a "free elective" on a pass/fail basis but later change their college or major to a program in which that particular course is a requirement, the passing grade shall stand and, upon petition to their dean, they may receive credit for the course and be considered to have fulfilled the course requirement.

The instructor will give a regular grade for the student who has elected the pass/fail option. These grades will be maintained permanently and are available to deans, advisers, and committees for review. If the student has a grade of A, B, C, or D (plus or minus), a grade of P will be reported on the report of grades and on the transcript. If a grade of F is obtained, the grade of F will be recorded on the permanent record. A passing grade will not be counted in the cumulative index. A failing grade under the pass/fail option will be counted in the cumulative index.

EXEMPTION, WAIVER, OR SUBSTITUTION; DUPLICATE CREDITS

Specific degree requirements may be modified with permission and approval from the department chair and/or dean of the college in the following ways:

**Exemption.** A student may be excused from a course requirement, receiving no credit for the course and no reduction in the total number of credits required for the degree.

**Waiver.** A student may be excused from a course requirement, thereby reducing the total number of credits required for the degree by the amount of credit for the course requirement being waived.

**Substitution.** A student can substitute one course for another with no reduction in the total number of credits required for the degree.

**Duplicate Credits.** Credits may be counted only once toward a degree. Courses repeated to improve a passing grade may not be counted a second time toward the minimum total credit hours.
required. Certain courses offered in a sequence will not be counted toward a degree if taken in reverse order of difficulty, e.g., a French 105 course would not be considered if taken after a French 107; similarly, a Math 115 course would not be acceptable if taken after a Math 221 course.

Certain other courses have sufficient overlap of content, although taught at different degrees of difficulty, that credit would not be offered for both courses regardless of the order taken. For instance, credit will be offered only once for the following pairs of courses: MATH 221 and MATH 241, MATH 222 and MATH 242.

**CREDIT BY EXAMINATION**

The University provides to all matriculated and Continuing Education students the opportunity to obtain college credit by examination for demonstrated competence attained through professional experience or some similar learning experience, but not by previous enrollment in a University of Delaware course. General inquiries concerning credit by examination should be directed to the department offering the course for which the student seeks credit. Credit by examination is not allowed in experimental courses or independent study courses. A credit-by-examination form, available at the Service Desk, Student Services Building, must be completed. (See also Advanced Placement and Standing in the Undergraduate Admissions section.)

**CHANGES IN REGISTRATION**

Changes in registration after students have advance registered can be done by telephone using UDPHONE, the interactive voice response system. The dates and times for UDPHONE drop/add are announced in the registration book for that semester or session. This service becomes available a few weeks prior to the start of classes. Students are encouraged to take advantage of UDPHONE drop/add prior to the start of classes since doing so enables them to be settled in their courses when classes begin.

During the first ten days of classes in fall and spring semesters, and four days of classes in winter session, a student may continue to add or drop a course, or change to or from pass/fail or audit using UDPHONE. Some courses may require students to obtain instructors' or departments' approval to add. Students should consult with their advisers prior to making a change to or from pass/fail in a course. Freshmen should consult with their advisers prior to making any change in their registration. UDPHONE is not available for summer sessions.

To add a course after the first ten class days in fall and spring semesters, and after the first four class days in winter and summer sessions, requires instructors' approval and the approval of the dean of student's college. Other changes in registration may continue to be made until the end of the sixth week of the semester (eighth week for first semester freshmen); however, a student withdrawing from a course will receive a grade of “W”. There is a one time $15 fee charged for these changes in registration.

No tuition rebates are made for any changes in course registration after the conclusion of the first ten days of classes in the fall and spring semesters and proportionate time in other sessions. Any changes in registration after the six-week deadline (eight weeks for first semester freshmen) must be approved by the dean. Only in extenuating circumstances will approval be granted. Students will be permitted to withdraw from courses after the deadline at the discretion of the dean when (a) the student voluntarily withdraws or is withdrawn from all courses for which registered (official withdrawal from the University); (b) it is necessary for medical reasons, substantiated by the University physician or University psychiatrist, to reduce a student’s course load; or (c) it is necessary to reduce a student’s course load because of unusual and extenuating personal problems. Any requests for changes in academic records must be referred to the Committee on Undergraduate Records and Certification through the office of the student’s dean.

**ATTENDANCE REGULATIONS**

Students are expected to attend all their scheduled classes and laboratories and not to be absent without adequate reason.

Deficiency in any required work resulting from absence from class must be made up to the satisfaction of the instructor.

A student who is absent from a course without adequate reason may be assigned a failing grade. Students who are registered as Auditors are subject to the same attendance regulations as those registered for credit. Those Auditors who are reported for their excessive absence from class will receive a grade of LW in the course.

By action of the University Faculty, the responsibility for defining attendance expectations is left to the individual faculty member, subject to the guidelines given below. Thus it is of great importance that early in each course each student understand what attendance expectations are.

It is the policy of the University of Delaware not to cancel classes on religious holidays. However, students and faculty are encouraged to exercise their own judgment pertaining to their attendance on these days. In addition, faculty are encouraged not to schedule examinations or require the submission of special assignments on the following days: the evenings before as well as the first two days of Rosh Hashanah and Yom Kippur in the fall term, Good Friday and the evening before and the first two days of Passover in the spring semester.

a. Absence on religious holidays listed in University calendars is recognized as an excused absence. Nevertheless, students are urged to remind the instructor of their intention to be absent on a particular upcoming holiday.

b. Absences on religious holidays not listed in University calendars, as well as absences due to athletic participation or other extracurricular activities in which students are official representatives of the University, shall be recognized as excused absences when the student informs the instructor in writing during the first two weeks of the semester of these planned absences for the semester. Absences due to similar events that could not have been anticipated earlier in the semester will be recognized as excused absences upon advanced notification of the instructor by an appropriate faculty adviser or athletic coach.

c. Absences due to illness requiring medical attention and serious illness or death within a student's family shall also be recognized as excused absences. The student shall see that the instructor is notified as soon as possible. The instructor may require the student to present evidence, such as a note from a doctor, to substantiate his or her excuse.

d. Students are not to be penalized if absent from an examination, lecture, laboratory, or other activity because of an excused absence. However, students are fully responsible for all material presented during their absence, and faculty are encouraged to provide opportunities when feasible, for students to make up examinations and other work missed because of an excused absence.

Authority for excusing all class absences rests with the instructor.

**SEAT CLAIM POLICY**

Sometimes classes are over-subscribed, and thus it is not always possible to accommodate all requests for assigned seats in these classes. To address this problem, the University has established a seat...
claim policy. Seat assignment in classes is currently determined by priorities based on earned credit hours, major, course status, and intended audience. In order to ensure that students not be allowed to hold claims to assigned class seats that they do not occupy within a reasonable time, thus denying other qualified students an opportunity to claim these seats, the following policy applies to all classes.

Unless excused by the faculty member, students holding a confirmed assigned seat in a class will have relinquished their seat if they have not personally appeared in class to claim the seat by the third meeting for a class scheduled to meet three times a week, by the second meeting for a class scheduled twice a week, by the third meeting of a class scheduled to meet five times a week, or by the second meeting for a class scheduled once a week. If the student does not claim the seat within the time limit specified above, and does not drop the course, the instructor has the option of assigning the student a grade of "Z" at the end of the term.

ACADEMIC HONESTY

Academic honesty and integrity lie at the heart of any educational enterprise. Students are expected to be honest and forthright in their academic endeavors. To falsify the results of one's research, to steal the words or ideas of another (plagiarism), to cheat on an examination or to allow another to commit an act of academic dishonesty corrupts the essential process by which knowledge is advanced. (Students are urged to consult individual faculty members when in doubt regarding plagiarism.)

Instructors will gladly explain procedures for taking tests, writing papers and completing other course requirements so that students may understand fully their instructor's expectations. It is the official policy of the University of Delaware that all acts or attempted acts of alleged academic dishonesty be reported to the Dean of Students Office. At the faculty member's discretion and with the concurrence of the student or students involved, some cases, though reported to the Dean of Students Office, may be resolved within the confines of the course. All others will be adjudicated within the undergraduate Student Judicial System. (See the Student Handbook for complete information.)

PROFICIENCY IN WRITTEN COMMUNICATION

The University requires students to demonstrate competency in composition skills. A student whose written skills are unsatisfactory may be given a Communication Condition by an instructor in any course. The Communication Condition is removed by successfully completing a noncredit individualized corrective program at the University Writing Center. A student who has been issued a Communication Condition cannot graduate until it is removed.

MINORS

Designed for students interested in a particular field, either to complement a major or to foster personal growth, minors provide programs of study less intensive and comprehensive than a major but with greater coherence than a group of courses selected at random. The general guidelines stipulate a minimum of 15 credits of course work and other requirements, including advisement procedures for all departments offering minors. Students must obtain permission from the department chair or designate before declaring a minor.

DOUBLE DEGREES

In some cases, a student is permitted to work concurrently for and to receive two baccalaureate degrees. The following regulations apply to a student seeking to receive two baccalaureate degrees at the same time:

- A student must fulfill all requirements for both degrees. A student may be awarded two degrees at the same time only if the degrees are different (e.g., Bachelor of Science and Bachelor of Arts). If a student is pursuing two fields of study for which the same degree is awarded, only one degree will be granted but with a major in two fields of study (e.g., Bachelor of Arts with majors in English and History).
- To be eligible for a second degree, the student must earn at least thirty credits in addition to those required for the first degree. When the two degrees are being earned concurrently and are to be awarded at the same time, the "first degree" is considered to be the degree that requires the smaller number of total credits.
- A student may be awarded two baccalaureate degrees that are the same (e.g., Bachelor of Science) provided (a) the work is taken in two fields of study, (b) the work is not done concurrently and the student has been awarded the first degree before pursuing the second degree, and (c) a minimum of at least 30 credits is completed to fulfill the requirements of the second degree.

CHANGE OF MAJOR, CURRICULUM, OR COLLEGE

The student's choice of studies, once made and recorded, can be changed only by following the formal procedure for changes. Admission to certain academic units is restricted, and students should consult with the department chair and dean of the unit to which they are seeking admission. The student should secure the necessary Change of College/Major form from the Service Desk, Student Services Building, and complete it as directed through the college dean's office or department offices.

GRADING SYSTEM

The University uses a system of letter grades with plus and minus designators.

NOTE: In courses requiring a minimum letter grade, for example a C or better, the minus grade, for example C-, fulfills the requirement, unless 2.0 minimum is specified. (Similarly, when a B or better is required, a B- fulfills the requirement.) However, the quality points per credit for a C- are fewer than for a C (see chart below), and the University requires that undergraduate students achieve an overall cumulative grade point index of at least 2.0 for graduation.

The following final grades are used.

A Excellent ..................................4.00 quality points per credit
A- ...........................................3.67 quality points per credit
B+ ...........................................3.33 quality points per credit
B Good .......................................3.00 quality points per credit
B- ...........................................2.67 quality points per credit
C+ ...........................................2.33 quality points per credit
C Fair .........................................2.00 quality points per credit
C- ...........................................1.67 quality points per credit
D+ ...........................................1.33 quality points per credit
D Poor .........................................1.00 quality points per credit
D- ...........................................0.67 quality points per credit
F Failure .......................................0.00 quality points per credit
X Failure, Academic Dishonesty ............0 quality points per credit
Z—Failure, Unofficial Withdrawal

L—Listener—Registration without credit or grade. Class attendance is required, but class participation is not. 

LW—Listener Withdrawn—A listener who does not attend sufficient class meetings to be eligible, in the judgment of the instructor, for the grade of L will receive the grade LW.

NR—No grade required.

P—Passing—For specifically authorized courses. P grades are not calculated in indexes. (For further explanation, see Pass/Fail grade option section.)

W—Official Withdrawal—Passing at time of withdrawal. 

WF—Official Withdrawal—Failing at time of withdrawal. 

The following temporary grades are used: 

I—Incomplete—For uncompleted assignments, absences from final or other examinations, or any other course work not completed by the end of the semester.

S—Satisfactory progress—For thesis, research, dissertation, independent study, special problems, distant learning and other courses which span two semesters or in which assignments extend beyond the grading deadline in a given semester.

U—Unsatisfactory progress—For thesis, research, dissertation, independent study, special problems, distant learning and other courses which span two semesters or in which assignments extend beyond the grading deadline in a given semester.

Temporary grades of S and U are recorded for work in progress pending completion of the project(s). Final grades are reported only at the end of the semester in which the work was completed.

N—No grade reported by instructor.

All students, whether or not they intend to return to the University, may remove temporary grades from their records by adhering to the following regulations:

• A grade of I (Incomplete) must be removed not later than the end of the first two weeks of the semester immediately following. Incomplete work for the fall semester and winter session must be completed within the first two weeks of the spring semester; incomplete work in the spring semester and summer sessions must be completed within the first two weeks of the following fall semester. Under extenuating circumstances, such as prolonged illness, the faculty member, with the additional approval of the dean, may approve extensions of these limits.

• At the time of grading, each instructor who gives an F grade will be required to report to the department chair, the instructor’s dean, the student’s dean, and the Registrar’s Office (1) the nature of the incomplete (absent from final examination, absent from hourly examination, project or paper not turned in, etc.), (2) the reason for the incomplete (illness, accident or injury, serious illness or death in immediate family, etc.), and (3) the grade to be awarded to the student in the course if the work is not completed. If, after the time limit stated above, the incomplete work has not been made up, the instructor may give the student a final grade of F or may have the option of giving the student a passing grade based on the work that was completed for the course. Control and approval of all incomplete grades, including those given for absence from the final examination, will rest with the dean of each college.

• Temporary grades of S and U may stand until the completion of the thesis or research, at which time final grades of A, B, C, D (plus or minus), or F will be recorded. These grades replace all S or U grades in preceding periods of enrollment. Students may not graduate if their records contain any temporary grades.

REPORTS OF GRADES 

At the end of each semester and term, a report of grades is sent to each student. This report shows the college of the University in which the student is registered, the class year, grades and credit hours in all subjects, semester and cumulative scholastic indexes, and academic actions.

Freshmen are issued midsemester grade reports at the end of the seventh week of each semester. These reports indicate grades achieved during the first half of the semester. These grade reports are intended for use in academic advisement only and do not become a part of the student’s permanent academic record.

GRADE-POINT INDEX 

The cumulative index is computed by dividing the total number of quality points by the total number of quality hours. The quality points for each course are obtained by multiplying the quality point value for each grade by the credits for that course (e.g., a grade of A in a three-credit course = 4 quality points x 3 credits = 12 quality points ÷ 3 quality hours = 4.0). A minimum average of 2.0, or a scholastic index of 2.0, in all work taken at the University of Delaware is required for the baccalaureate degree. Both term and cumulative indexes are calculated and reported to students after each grading period.

DEAN’S LIST 

Outstanding academic performance is recognized at the end of the Fall and Spring semesters, when the Dean’s List is compiled. Full-time (12 credits/semester) students who have earned a minimum 3.3 GPA for a given semester are honored with Dean’s List recognition for that semester. (For students entering prior to the class of 1998, the minimum requirement is a 3.25 semester GPA.)

Students assigned temporary grades are not eligible for inclusion in the Dean’s List, unless the grade is in thesis, special problems, or similar courses in which the work is normally continued into the following semester.

SCHOLASTIC STANDING 

A student is expected to maintain an overall average of C (2.0 index), and full-time students are expected to complete for credit an average of 12 credits per semester. A student may be placed on probation or dismissed for academic deficiency when the index for any semester is less than 1.25 or the quality-point deficit is more than 12.99 points.

Committee on Undergraduate Records and Certification (CURC): This committee is responsible for implementing University policy regarding scholastic standing. The committee reviews the records of matriculated students at the conclusion of each fall and spring semester. This committee also reviews petitions submitted by students (prior to graduation) regarding scholastic standing. Students must submit petitions through their Dean’s Office.

Quality-Point Deficit: A student with a cumulative index below 2.0 may determine the quality-point deficit by subtracting the cumu-
Reasons Other Than Academic Deficiency: A student with a quality-point deficit of more than 12.99 points will be dropped for academic deficiency pending review by the Committee on Undergraduate Records and Certification. A student who has been dropped for academic reasons may, with prior approval of the dean of the college, take courses in the Division of Continuing Education to reduce the quality-point deficit to 6 or less; however, students dropped at the conclusion of the fall semester will not normally be eligible for readmission to the following spring semester, except with permission of the college dean. (See Procedure for Readmission.)

Reinstatement on Special Probation: Upon the recommendation of the dean of the college in which a student is enrolled, the Committee on Undergraduate Records and Certification may place on Special Probation a student whose quality-point deficit is more than 12.99 points. Special Probation will be granted only when there appear to have been extenuating circumstances and there is evidence to suggest that, if given an additional opportunity, the student will be able to meet academic standards.

Students on Special Probation are permitted to continue enrollment with a quality-point deficit of more than 12.99 quality points; however, students who do not decrease their quality-point deficit will be dismissed. Students on Special Probation who increase their quality-point deficit will be dismissed for academic deficiency.

Freshmen students in academic difficulty (with more than a 12.99 quality-point deficit) at the end of the first semester may be held on special probation through the spring semester. Their registration for the winter session and the spring semester must be supervised by the department or college adviser.

Procedure for Readmission of Undergraduate Students Dismissed for Academic Deficiency: An undergraduate student may be dismissed for academic deficiency when the index for any semester is less than 1.25 or the quality-point deficit is more than 12.99 points. The student may become eligible for readmission on reduction of the quality-point deficit to 6 points or less. Students qualifying for readmission will not be guaranteed admission to the program in which they had previously matriculated. The student also may take courses at another college or university, again upon prior approval of the dean of the college to which readmission is sought. Since grades are not transferred to the University, work taken at another college or university will not count toward the cumulative index or toward the reduction of the quality-point deficit, however, if the grades earned in such work are such that they were to be applied to the University of Delaware index the quality-point deficit would be reduced to 6 points or less, the student may be considered for readmission on Special Probation.

A student who receives permission for readmission and who is dismissed a second time for unsatisfactory scholarship will not be readmitted to the University as a matriculated student seeking degree credit except under conditions specified by the college and the Division of Continuing Education.

Procedure for Readmission of Undergraduate Students for Reasons Other Than Academic Deficiency: An undergraduate student must file a formal application for readmission if the student: (a) was a full-time student who did not notify the Dean of Students or dean of the college in writing of his or her intent not to enroll; (b) was separated for disciplinary reasons; (c) had a break in enrollment of 15 months; or (d) has completed a degree program and desires to enroll in a new degree program.

All students readmitted to the University will be subject to the current requirements of the program and college in which they enroll. Exceptions to this policy may be made by the dean of the college.

Insofar as possible, prior course work will be accepted toward the degree. Course work that has been taken more than seven calendar years earlier will be reviewed for applicability. An individual department may require repetition of "outdated" prerequisite courses.

A student seeking readmission may obtain an application for readmission from the Admissions Office. A fee of $25 is charged for the processing of the application. The application for readmission must be submitted not later than July 15 for the fall semester and not later than January 4 for the spring semester.

Inquiries regarding the procedures for readmission may be directed to the Admissions Office.

LEAVE OF ABSENCE

Undergraduate students who wish to engage in activities related to their educational objectives that require them to discontinue registration at the University for a period not to exceed one year are eligible upon approval of the dean of their college for a Leave of Absence. Students should consult with their deans regarding appropriate procedures to be followed in order to be granted a Leave of Absence.

MEDICAL LEAVE OF ABSENCE POLICY

A matriculated undergraduate student who needs to discontinue his or her studies for medical reasons (e.g., surgery, pregnancy, illness, rehabilitation, and other health-related circumstances) can request a medical leave of absence. A medical leave of absence can be granted for a maximum of two semesters. When the student applies for the leave, verification for the medical leave of absence must be presented to the dean of the college in which the student is enrolled. If the leave is granted, the student may continue in the same program in which he or she had been enrolled prior to the leave. The student is not severing his or her connection with the University and is eligible to continue his or her studies without applying for readmission. If the student is unable to return at the conclusion of the leave, his or her dean should be consulted.

The granting of this medical leave in no way negates the student’s financial responsibility to the University. If the student is a financial aid recipient, he or she should contact the Financial Aid Office. If the student is insured under the University’s Health Insurance plan, the insurance will be in effect only during the year (September 1 through August 31) in which the student was enrolled; coverage will not extend beyond that period.

WITHDRAWAL FROM THE UNIVERSITY

Students may interrupt their studies for two consecutive semesters (not counting summer and/or winter session, up to 15 months) and remain on record as active. This grace period begins at the end of the last semester during which the student was enrolled. Students who enroll during the grace period need not apply for readmission to the University in order to register for classes.

Undergraduate students who interrupt their attendance should notify the Dean of Students office in writing or by personal visit. Undergraduate students who decide to withdraw after the academic penalty deadline (the sixth week of a semester for upperclass students
or the eighth week for first semester freshmen) and who are failing in certain courses at the time of withdrawal will receive a failing grade in these courses if the dean of the college indicates that the withdrawal is with penalty.

A member of the Dean of Students professional staff will be available to discuss any concerns students might have involving the official withdrawal procedure. Any questions can be directed to the Dean of Student’s Office, 218 Hullihen Hall, (302) 831-8939 or to the dean of the student’s college.

REQUIREMENTS FOR GRADUATION

Baccalaureate Degree. Each student must satisfy the following general requirements for graduation in addition to the academic requirements of the particular college and curriculum chosen:

- The attainment of a scholastic average of C (a cumulative index of 2.0) in all work taken at the University.
- The satisfaction of the residence requirement by completing either the first 90 credits or the last 30 credits, full- or part-time, at the University of Delaware.
- One semester of Freshman English (ENGL 110), completed with a minimum grade of C-.
- Three credits in an approved course or courses stressing multicultural, ethnic, and/or gender related content. The purpose of the multicultural requirement is to provide students with some awareness of and sensitivity to cultural pluralism—an increasing necessity for educated persons in a diverse world. This requirement may be fulfilled through a course or courses taken to complete other course requirements, but cannot be fulfilled with any course taken on a pass/fail basis.

The following rules for honors apply:

**Summa Cum Laude.** The top 1 percent of the students of each undergraduate college’s graduating class will receive the degree Summa Cum Laude providing that each student obtains a minimum overall index of 3.75 at the end of his or her course of study.

**Magna Cum Laude.** The next 4 percent of the students of each undergraduate college’s graduating class will receive the degree Magna Cum Laude providing that each student obtains a minimum overall index of 3.5 at the end of his or her course of study.

**Cum Laude.** The next highest 8 percent of the students of each undergraduate college’s graduating class will receive the degree Cum Laude providing that each student obtains a minimum overall index of 3.25 at the end of his or her course of study.

**Degree with Distinction in a Major Field.** Students may also earn a Degree with Distinction in their major field upon completion of special and independent research during the senior year. Application to enroll in this program must be made before the end of the junior year. The applicant is expected to have attained a general scholastic index of not less than 3.0 and an index of not less than 3.5 in the major at the end of the junior year.

1. Computation of Grade-Point Average (GPA) for academic major:
   - a. Students with a single major: GPA will be computed on courses of program requirements that satisfy the major.
   - b. Students with a double major: GPA will be computed on the major in which the thesis is to be written. Students with a double major have the option of integrating their two majors into a single thesis. The GPA in each major must be 3.5. The thesis committee must include representatives from both of the majors.
   - c. Students seeking the degree of Bachelor of Arts in Liberal Studies: GPA will be computed using the upper-division level courses (prefix of 300 or 400) that are specified in the student’s contract on file in the Dean’s Office, College of Arts and Science.

2. Students enrolled for Senior Thesis leading to the Degree with Distinction and also enrolled for Honors Senior Thesis leading to the Honors Degree must complete two distinct theses, each of which must stand on its own merit. The theses may be related but must not in any essential way duplicate one another. Evidence that two distinct theses have been prepared to satisfy the requirements of each degree program must be provided by the student.

3. The thesis for the Degree with Distinction must include a title page that provides for the following required signatures:
   - a. Student’s departmental thesis adviser;
   - b. Faculty member from the student’s thesis committee;
   - c. Committee member, Faculty Senate Committee on Student and Faculty Honors;
   - d. Chair, Faculty Senate Committee on Student and Faculty Honors.

**Top Index Graduating Senior.** Each year, an award is made to the graduating senior who has achieved the highest index earned in full-time study toward the degree. To be eligible for the award, the graduating senior must have earned at least 75 percent of the total credits required for the degree at the University and must have averaged a minimum of 15 credits per semester.

**Panel of Distinguished Seniors.** An award is granted to one graduating senior from each undergraduate college who has achieved a cumulative index of at least 3.5 and who has averaged a minimum of 15 credits per semester. Outstanding personal qualities shall influence the choice of the student. To be eligible for consideration, the graduating senior must have earned at least 75 percent of the total credits required for the degree at the University of Delaware.

**Commencement and Degree Conferral.** Degrees are conferred at the two commencement ceremonies following the spring and fall semesters. Participation by candidates for degrees in the commencement exercises is optional. All degree candidates will receive instructions concerning commencement from the University Marshal in their final semester. The University also confers degrees following the second summer session.
STUDENT SUPPORT PROGRAMS

• Academic Services Center
• ACCESS Centers
• English Language Institute
• Foreign Student and Scholar Services
• Math Center
• Writing Center
• Center for Counseling and Student Development

ACADEMIC SERVICES CENTER (ASC)

The Academic Services Center, formerly the Academic Advancement and the Academic Studies Assistance Program offices, offers activities that provide undergraduate students with extensive academic assistance through individual tutoring, group study sessions, mentoring, academic success and study skills workshops, personal and social advising and referral assistance, throughout the year. These programs and activities are designed to help students maximize their academic performance while pursuing their degree programs.

Tutorial Services: Individual and group tutoring are available in a wide range of subject areas. All tutors have faculty recommendations and are screened by the Academic Services Center. In addition to the services mentioned above, the Academic Services Center (ASC) publishes a directory of tutors for students who wish to select and pay for their own tutors. This Tutorfind directory is available in the Academic Services Center and is updated regularly. Tutorfind lists also are made available to departments and the local community agencies each semester.

Learning Disabilities Services: Students who wish to use these services should bring in a copy of their documentation to the Academic Services Center (ASC). For those students who have not been tested, yet believe that they are eligible to use LD services, please make an appointment for a consultation. At this time, staff will assist in identifying University students who may be at academic risk as a result of learning disabilities, including students who have suffered head injuries. One of the Academic Services staff will review testing for individuals who are seeking special help for learning disabilities. Services include diagnostic tutoring, educational consultation, test accommodations, and individual and group tutoring.

The ASC also offers a number of special programs for undergraduates. It offers an academically intensive five-week, residential Summer Enrichment Program to a limited number of incoming freshmen, accepted to the University of Delaware, who would benefit from these academic support activities prior to their first semester. This Summer Enrichment Program enables selected freshmen to become acclimated to the campus during the summer immediately preceding their first semester at the University, to take course work in mathematics and English, and to participate in a variety of academic support and enrichment activities. Incoming freshmen, accepted to the University of Delaware through the Parallel Program, may also attend this session through the Summer Qualifier Program to earn a place on the Newark campus. Students demonstrate their readiness to begin their freshman year on the main campus by successfully completing the five-week residential Summer Enrichment Program.

The John Henry Taylor Scholars Program is designed specifically for African American and Hispanic students pursuing degrees in the fields of mathematics and science. John Henry Taylor Scholars are given the opportunity to participate in individual and group tutorials, mentoring, study skills, undergraduate research and enrichment activities. The program is designed to assist academically able students, and provides opportunities for leadership. John Henry Taylor Scholars are invited to begin their studies in the Summer Enrichment Program.

The Student Support Services Program is funded by the U.S. Department of Education. This particular program is designed to provide academic assistance to selected students (financially disadvantaged, disabled, and/or first-generation college students) who have demonstrated the potential to succeed in post-secondary education.

The Academic Advancement Scholars Program provides mentoring and/or academic assistance to selected African American scholarship recipients. Program counselors work with scholars to provide advisement, career exploration and individual assistance, to ensure their ongoing academic success.

For more information, please contact the Academic Services Center location for College Programs, 231 South College Ave., Newark, DE 19716, (302) 831-2805.
ACCESS CENTERS

The Adult Centers for Continuing Education Student Services (ACCESS) provide career counseling, educational planning and academic advisement, and administrative assistance to current and potential continuing education students. Offices are located in Newark at Clayton Hall, in Wilmington at the Wilscate Center, in Dover at the Air Force Base and at the University of Delaware classrooms on the Terry Campus of Delaware Technical & Community College, and in Georgetown at the Higher Education Building on the Southern Campus of Delaware Technical & Community College. Daytime and evening appointments are available during the week and may be arranged by calling (302) 831-2741.

Professional counselors provide career counseling services to assist clients in identifying and clarifying goals. Career interest assessments include printed and computer-assisted tools, and a reference library contains career information. Catalogs and curriculum guides, as well as materials to improve learning skills, provide information for educational planning. Administrative help is available for those planning to register for credit and noncredit courses.

ENGLISH LANGUAGE INSTITUTE

The English Language Institute is a University support service for foreign students who need to improve their language skills for graduate or undergraduate study. The Institute offers six levels of intensive language instruction, which address listening, speaking, reading and writing skills. For graduate and undergraduate students, the Institute offers two English for Academic Purposes courses. One focuses on developing the oral/aural skills necessary for such academic activities as notetaking, oral presentations, and seminar discussions, and the other emphasizes composition skills necessary for research and college writing and reading skills for improving speed and comprehension. Students in the Institute receive tutoring as well as listening and reading laboratory instruction, and access to the computer-assisted learning system and special English lessons. Additional programs offered by the Institute include a testing preparation course to develop skills strategies for taking the language proficiency sections of such tests as the TOEFL; and a business English course, which focuses on English usage in international business. Private tutoring in language skills is also available. The Institute is located at 189 West Main Street, Newark, DE. For further information, call (302) 831-2674.

FOREIGN STUDENT AND SCHOLAR SERVICES

Foreign Student and Scholar Services offers a support system for undergraduate students, graduate students and English Language Institute students, as well as for their immediate families. Services offered include immigration regulations, academic and personal counseling, tax laws, and cultural adaptation. Information on travel abroad, employment abroad, travel advisories, International Student Identity Cards and Youth Hostel memberships are also available.

Foreign Student and Scholar Services is located at 4 Kent Way. For further information, please call (302) 831-2115. The University is permitted under federal law to enroll non-immigrant foreign students.

MATHEMATICAL SCIENCES

TEACHING AND LEARNING CENTER

The Math Center provides instructional support for the lower level mathematics courses at the University, including tutorial assistance in Math 02, Math 010, all one hundred level math courses, Math 221 and Math 241. It is staffed by qualified graduate and undergraduate students and instructional professionals. Resources include sample exams, answer texts and a variety of math textbooks focusing on algebra and precalculus. Twenty computer stations are available on which various mathematics programs such as function plotters may be used.

The Center also develops programs in collaboration with the Department of Mathematical Sciences to enhance the development of both pre-service and in-service mathematics teachers.

The Center's classroom is located in 006A Pearson Hall. For further information, call (302) 831-2140.

UNIVERSITY WRITING CENTER

The primary purpose of the University Writing Center is to provide University students with individualized instruction in writing. Students at any level and from any discipline may attend the Center free of charge. Writing Center instructors work one-on-one both with weak writers who need an intensive program in order to succeed in University course work and with accomplished writers who wish to improve a particular aspect of their writing. Students may attend on a one-time basis or may set up a regular course of instruction with an instructor. They may come to the Center at any stage of the writing process: deciding on a topic, organizing information, revising a draft, documenting sources, or self-editing for grammar, logic, word use, and punctuation. The emphasis of writing conferences is on teaching students to revise and edit their own work.

The Writing Center also offers workshops upon request on such topics as writing research papers, preparing for essay exams, writing about literature, and using correct grammar and punctuation. International students may attend the Center for help with communication skills.

The Writing Center staff are experienced full- and part-time faculty and teaching assistants from the English Department. The Center, located in 015 Memorial Hall, is open from 9:00 a.m. to 12 noon and 1:00 p.m. to 5:00 p.m. Monday through Friday, and from 6:00 to 9:00 Monday through Thursday evenings. Although appointments are not required, students are encouraged to reserve a time by calling the Center at (302) 831-1168.

CENTER FOR COUNSELING AND STUDENT DEVELOPMENT

The services of the Center for Counseling and Student Development include individual counseling, group counseling, growth groups, career development programs, a career library, paraprofessional training, special interest workshops, and consultations with University groups and individuals. These services are available to all matriculated students who pay the Student Health fee. The Center is staffed by counselors who are trained to assist college students achieve their full academic potential, make realistic career and education plans, and work toward resolution of personal concerns. At the Center, students may discuss freely, in a confidential and professional setting, any concerns they may be experiencing. The Center also serves as a referral agency by helping students who need specialized assistance to locate appropriate campus and off-campus resources. To make an appointment with a counselor, call (302) 831-2141 or come to Room 261 Perkins Student Center.

CAREER SERVICES OFFICE

The Career Services Office offers experiential, career planning, and job placement programs. These programs provide matriculated students with a variety of opportunities to learn about and prepare for eventual careers. Experiential and career planning programs are available to students at all academic levels, while job placement ser-
services are directed to students in the final year of their degree program. Assistance is also available to alumni.

Experiential Programs include the Field Experience Program (credit and noncredit), internships, cooperative education, and alternative educational opportunities. Students in the Field Experience Program work part time as volunteers in one of over 300 different community organizations and agencies primarily in the New Castle County area. Other full-time, part-time, and summer experiences lasting a semester, a summer, or a full year are also available throughout the county. Students may participate in these programs while making normal progress toward a degree or during a leave of absence from the University. Positions are available in a wide variety of academic disciplines.

Career planning programs are available to assist students in preparing for their initial career employment. Counseling interviews with professional staff members are available to students to discuss career-related concerns.

In addition, a special workshop series has been developed on such topics as resume writing, interview preparation, and job search strategies. These and other special programs are offered to students and alumni throughout the year. Special meetings are scheduled with students by academic majors to deal with topics that may concern them. An office newsletter is circulated regularly throughout the year to share information about these special programs and other topics of career interest.

The Career Resource Center, a comprehensive library of career-related information, contains materials for students to use on an informal basis. Resources include books; employer directories; occupational literature by major; full-time, part-time, and summer vacancy listings; and experiential program information. Over fifty video tapes are available to preview simulated interviews, company background information, and career workshops.

Placement Services including a Campus Interview Program, Credential Service, Jobs Hotline, Employer Resource Library, and Resume Referral Service are available to students during the final year of their academic program. The Campus Interview Program includes over 200 representatives from business, industrial, governmental, and service organizations that visit the campus each year. The Credential Service provides a centralized repository for resumes and reference materials for students and alumni. Information about a wide variety of organizations and employment opportunities in these organizations is also available for student use.

The Career Services Office is located in Raub Hall. For further information on the Experiential Program or Credential Service, call (302) 831-1232, for general information, call (302) 831-8479, and for information on the Campus Interview Program, call (302) 831-2391.

OFFICE OF AFFIRMATIVE ACTION
AND MULTICULTURAL PROGRAMS

Under the leadership of the Assistant Vice President for Affirmative Action and Multicultural Programs, the office seeks to foster a greater awareness and understanding of issues that will promote an improved environment for students, faculty and staff. As part of its charge, the office provides services to the entire university community. In addition, it supports the functions of the Affirmative Action Office, the Campus Diversity Unit, the Crisis Intervention Team and the task force and caucuses of the Commission to Promote Racial and Cultural Diversity. Matters related to discrimination based upon race, ethnicity, gender, class, sexual orientation, disability, religion and acts of intolerance are the concern of this office. The office draws upon the talent and experience of faculty and staff in its efforts to address diversity issues. One of the major responsibilities of the office is to present diversity education workshops to the campus community. The office locations are 124 and 305-307 Hulthien Hall. For further information, please contact 831-8735.

COLLEGE LEVEL SUPPORT PROGRAMS

Support programs have been established within several of the colleges to assist students majoring in disciplines where native-born African Americans, Hispanic Americans and Native Americans are typically underrepresented.

A.S.P.I.R.E. (Academic Support Programs Inspiring Renaissance Educators), housed within the College of Education, encourages minority students to pursue a career in teaching elementary or special education. The program provides students with intense academic support through biweekly meetings with their academic adviser. Additionally, academic tutors, study skills classes and study groups are available to ensure students' success. Monthly meetings with other minority students in the College enable students to discuss areas of professional development and mutual interest in a collegial atmosphere. For further information, call (302) 831-2326 or 2317.

Fortune 2000 is a comprehensive support program for minority students in the College of Business & Economics. The three major components of the program include the Fortune 2000 Pre-College Business Program, the Fortune 2000 Summer Academic Bridge Program and the Fortune 2000 Comprehensive College Support Program. Services include special academic advisement, tutoring and academic monitoring, interaction with faculty and industrial representatives, summer employment and cooperative education opportunities, student organizational participation, business career counseling and mentoring, leadership training, assistance with career/graduate school selection and recognition ceremonies. For further information, call (302) 831-4369.

NUCLEUS (Network of Undergraduate Collaborative Learning Experience for Underrepresented Scholars) is a program in the College of Arts & Science in the Department of Chemistry & Biochemistry. Funded by the Howard Hughes Medical Institute (HHMI Undergraduate Biological Sciences Education Program) its goal is to recruit, retain and graduate academically talented minority students majoring in chemistry, biochemistry and biological sciences (including physical therapy, medical technology and pre-medicine concentrations). A modified version of the highly successful R.I.S.E. Program in the College of Engineering, NUCLEUS assists minority students in attaining their bachelor's degrees and in entering graduate and medical school programs. Concentrating on the fundamental components of counseling, mentoring and tutoring throughout the undergraduate career, this program provides comprehensive academic enhancement services. Incoming students participate in a summer residential institute the summer prior to the freshman year. A mandatory freshman seminar course orients freshmen in their first semester with university resources and discusses research. Consistent academic monitoring, community outreach and undergraduate research opportunities create the environment that encourages positive integration and academic achievement. For further information, call (302) 831-4030.

RISE (Resources to Insure Successful Engineers), housed within the College of Engineering, carries the mission to recruit and assist academically prepared African American, Hispanic American and Native American students in attaining an engineering degree. A key component to the RISE Program is the RISE Summer Academy which immediately precedes the freshman year and provides a transitional period for incoming freshmen through a strictly regimented schedule and mandatory study halls and tutoring. Throughout their college experience, RISE students receive tutorial assistance as needed, as well as guidance in time management, academic monitoring, career and professional development workshops, interaction with faculty, student organizational participation and academic achievement recognition. A new component of the RISE Program is the Undergraduate Research Initiative, designed to provide a research experience for qualified RISE students, primarily during the winter and spring semesters of the sophomore year. For further information, call (302) 831-6315.
OFFICE OF WOMEN'S AFFAIRS

The Office of Women's Affairs works with the University community to increase awareness and understanding of women's issues including gender bias in the classroom, date rape and sexual assault, and women's health and career concerns. This is accomplished through programs and supportive services that encourage women to develop their intellectual talent, achieve academically, identify long-term goals, and participate equally and fully in society. Support and confidential advice for women with problems and possible grievances, including sexual harassment, are available.
SPECIAL PROGRAMS

- Honors Program
- Parallel Program
- Study Abroad Programs
- Academy of Lifelong Learning
- Pre-college Programs
- College Enrollment for Advanced Pre-college Students
- Forum to Advance Minorities in Engineering
- Governor’s School for Excellence
- Summer College

UNIVERSITY HONORS PROGRAM (UHP)

The University Honors Program serves the many exceptionally talented students who enroll at the University of Delaware. The Program features small classes, close contact with faculty members, and individually tailored academic advising. Academic options include Honors courses at all levels, undergraduate research, private music study, Honors Certificates, four-year Honors degrees in many majors, and the Degree with Distinction in all majors (see "Degree Options" below). Out-of-classroom activities involve Honors residence halls, the Honors Center, and extensive extracurricular programming. Some students enter Honors as incoming freshmen (a special application is required); others begin later in their undergraduate careers.

Honors Program students may be pursuing a degree in any of the University’s eight undergraduate colleges and more than 130 majors. A cohesive freshman year provides the educational foundation from which a student can proceed to advanced study in any field. It is also a community experience that promotes faculty-student interaction and shared interests among participants. Full-time Honors freshmen enroll in at least fifteen credits of Honors courses during the freshman year, including a course in the Honors Forum series and at least one Honors Colloquium. A close relationship with a faculty adviser is established in the freshman year in Honors and continued in subsequent years.

Any University student who has attained a cumulative grade point average of 3.00 or higher (even after only one semester) is eligible to take Honors courses and to work toward the various forms of Honors recognition. A transfer student with high grades earned at another college or university is eligible upon arrival.

Honors Courses. Many sections of Honors courses are offered each semester, in a wide array of disciplines. These range from one-credit short courses to tutorials, interdisciplinary colloquia, undergraduate research, and independent study. Honors courses feature talented students and faculty, enriched or intensified subject matter, and an active involvement by the students in their learning. Most occur in small classes.

Honors Colloquia. Each of these interdisciplinary courses is served by a Writing Fellow—a specially-trained peer tutor who helps students to refine the form, but not the content, of their papers, prior to grading by the instructor. Recent colloquia topics have included "Music in American Culture," "The Bill of Rights," "Global Resources and the Environment," and "Racism, Sexism, and Speciesism."

Honors Forum. One of these courses is taken in the freshman year. The options typically include the Performing Arts Forum, "Introducing International Film," "Issues in Afro-American Culture," "Women in Western Thought," "The Male Experience," and "The Stories Project."

Honors Tutorials. With a maximum of four students and one faculty member, a tutorial meets weekly for careful study of classic literary and philosophic texts.

Honors Seminars. These interdisciplinary seminars serve as the capstone of the students' Honors course work.

Private Music Instruction. After passing an audition, Honors freshmen may continue their study of music through private instruction for credit; Music Merit Awards offered by the Music Department allow continuing study for the most qualified upperclass students.

Study Abroad. Honors courses may be arranged as part of the University's numerous and varied Semester Abroad and Winter Session Abroad programs. Students may also do research abroad through the cross-cultural InterFuture program and through the Science and Engineering exchange with Imperial College, London. Foreign Study Scholarships, open to all students, are available to defray travel expenses for all programs sponsored by the University. For scholarship information, contact the Office of International Programs and Special Sessions.

Honors Certificates. The First Year Honors Certificate recognizes those who complete the first year of University work with a cumulative index of 3.00 or higher, at least 15 Honors credits (including Colloquium and Forum courses), and live in Honors hous-
ing. The Advanced Honors Certificate recognizes those who earn at least 24 Honors credits beginning with the sophomore year, have a cumulative index of 3.00 or higher, and participate in an intensive Honors advising process. There are also Honors Foreign Language Certificates available to students in certain majors. Receipt of an Honors Certificate is recorded on the student's permanent transcript.

Undergraduate Research Program. University faculty members volunteer to accept well-motivated undergraduates as their assistants or as junior members of their research teams. These student assistants work with professional researchers, observing how they formulate significant questions, evolve investigative procedures, gather and examine evidence, make mistakes, follow hunches, detect loopholes, and evaluate and report results. Most earn academic credit for their research assistance. Students who hold college work-study grants may earn their grant money doing research. In some cases, a salary/stipend is arranged. Undergraduate researchers even include freshmen. Some are looking for the field or specialty within a field on which to focus their courses and careers; others are already making their own original contributions to their chosen fields.

The Undergraduate Research Program fosters undergraduates' interest in research by being a general information source and by helping individual students to think about whether a research experience would be desirable for them; acts as a matchmaker, arranging for students to serve as apprentices or assistants to faculty researchers in their areas of interest; provides assistance in Honors Degree and Degree With Distinction programs that require a senior thesis; and administers two forms of funding—Undergraduate Research Grants to defray the research expenses of students and their faculty sponsors, and Scholarships to enable selected students to work on research full time during the summer.

Degree Options. The Honors Degree and the Degree with Distinction offer exceptionally talented and dedicated students the opportunity to pursue their academic interests in greater depth and breadth than is required for the regular bachelor's degree. Achievement of either of these degrees is recorded on the official transcript and diploma. A student completing the Honors Baccalaureate Degree receives an "Honors Bachelor of Arts," "Honors Bachelor of Music" or "Honors Bachelor of Science" degree. A student completing the Degree with Distinction receives a bachelor's degree in the appropriate college and major with the notation that it was earned "with Distinction."

A candidate for an Honors Baccalaureate Degree or Degree with Distinction must satisfy the general University requirements and the degree requirements specified by his or her college and department. A student who does both must complete two distinct theses, each of which must stand on its own merit. The theses may be related but confirming this must be provided by the student.

Honors Degrees. Honors Degrees are currently available in many majors in the Colleges of Agricultural Sciences, Arts and Science, Business and Economics, Education, and Human Resources. Additional Honors Degree opportunities are being created each year.

A candidate for an Honors Baccalaureate Degree must satisfy the following:

I. The requirements for the baccalaureate degree in the major (including all University and college requirements), as well as any other specific requirements the major department may set for the Honors Degree.

II. The generic requirements for the Honors Degree:

A. A University of Delaware cumulative grade-point index of at least 3.40 at the time of graduation.

B. At least 60 of the total credits applicable to graduation taken at the 300 level or higher.

C. At least 30 credits earned in Honors courses. Of these Honors credits:

1. At least 12 must be in the major department or in courses of collateral disciplines specifically required for the major.

2. Three must be in the Honors Tutorial course.

3. Three must be in the Honors Seminar course (or in another seminar course specifically approved for this purpose by the Honors Program).

4. At least 6 must be in areas outside those defined by the preceding items (1-3).

5. At least 12 must be at the 300 level or higher.

D. In addition to these 30 Honors credits, 6 credits of Honors thesis or project (UNIV 401/402) and the successful oral presentation of an acceptable thesis or project to a committee of faculty approved by the major department and the Honors Program. Although the candidate enrolls in UNIV 401/402 in the senior year, research and planning for the thesis or project should be well underway in the junior year.

III. Submission of the Honors Degree Application Form, which can be done during the sophomore year and must be done no later than the end of the junior year, at the University Honors Program office.

Degrees with Distinction. The Degree with Distinction supplements regular departmental degree requirements by giving the student significant research experience while still an undergraduate. Candidates for the Degree with Distinction must meet the following conditions:

A. The candidate's cumulative grade index must be at least 3.00 at the time of graduation, and his or her index in the major must be at least 3.50.

B. The candidate must complete six credits of thesis or project (UNIV 401 and UNIV 402) and give an oral presentation and defense of the thesis or project to a committee of faculty from the major department and the University Committee on Student and Faculty Honors.

The Degree with Distinction entails no change in the regular requirements of a student's program other than research, writing, and defense of a senior thesis.

Residence Life and the Honors Center. Full-time freshmen in Honors live in the Dickinson residence complex, together with a number of non-Honors freshmen. Trained Residence Assistants help students with personal or academic questions and organize student activities held within the residence halls. The UHP freshman community is neither exclusive nor limiting. Honors freshmen participate fully in University-wide activities.

Upperclass students in Honors reside wherever they choose. Some become Dickinson Fellows—former freshmen in Honors who live in Dickinson Hall, assist incoming freshmen, and organize student activities and programs. Others move to upperclass honors floors or to other special interest housing in desirable campus locations.

The Honors Center is the focal point of many UHP-sponsored extracurricular activities, including films, lectures, exhibits, and receptions, bringing students and faculty together to establish the Honors community. The Center is also a quiet, informal place with study rooms, comfortable sofas and chairs, reference books, and computers.

Special Events and Programs. Honors Degree and Degree with Distinction students from all majors present their research at the annual Undergraduate Research Symposium each spring. Science and Engineering Scholars present an annual poster session.

The Honors program also sponsors a variety of other special events and programs, such as a photo and literary contest, and museum and theatre trips.
SPECIAL PROGRAMS

UNIVERSITY PARALLEL PROGRAM

First-year students interested in pursuing quality higher education associated with the University of Delaware, who prefer to live at home or for other reasons choose not to begin their studies on the main campus, should consider the Del Tech/University of Delaware Parallel Program.

The Parallel Program is intended primarily for Delaware residents. It operates as a University of Delaware branch campus system, with classes conducted at three Delaware Technical and Community College locations—Wilmington, Dover, and Georgetown.

Parallel students earn credits toward a UD degree. Parallel faculty are University of Delaware faculty who enjoy a reputation as excellent classroom teachers and academic advisers.

Parallel classes tend to be smaller. Students desiring relatively more individual faculty attention will find it in Parallel, which provides an environment allowing students in need of academic reinforcement to obtain it. Courses designed to bridge the gap between a student’s prior educational experience and University-level courses are offered regularly. This is especially helpful to college-age students, whom the Admissions Office may deem underprepared for success as entering freshmen on the main campus, and to adults returning to higher education after being away for some time.

The majority of Parallel courses are arts and science courses, although there is growing interest in professional areas. Accordingly, courses in business, education, and some other areas have been added. Baccalaureate degree completion is possible at Georgetown in criminal justice, engineering technology, general agriculture, and in liberal studies. Bachelor’s degrees may be earned in Dover in criminal justice and engineering technology.

Parallel students enjoy “dual citizenship”—that is, they participate in social, recreational, and cultural activities sponsored by the University of Delaware and, in addition, enjoy privileges afforded Delaware Tech students. Parallel students pay tuition at a rate that is lower than University of Delaware main campus tuition. Parallel students interested in intercollegiate athletics may participate in DTCC programs while enrolled in the Parallel Program and in University programs when they move to the main campus.

Persons desiring admission to the Parallel Program make application through the University of Delaware Office of Admissions. On acceptance to the Program, they agree to complete their first year of study at one of the Parallel Program locations before moving to the Newark campus. Students also may enroll in individual Parallel courses as Continuing Education students. Prospective Parallel students are invited to visit one or more of the campus locations to talk with faculty and staff.

STUDY ABROAD PROGRAMS

The University of Delaware offers a variety of opportunities for students of every college and major to reap the benefits of studying abroad. These special programs foster social maturity and appreciation for the similarities and differences among people of various backgrounds. Many also offer opportunities to improve second language skills.

Overseas Studies in the Office of International Programs and Special Sessions administers numerous semester programs, including Semester in Madrid, London, Vienna, Costa Rica, Paris, and Scotland. Each is directed by a University faculty member. The faculty director teaches classes in his or her academic discipline, and faculty in the host country offer additional courses. Courses are taught in English, except foreign language courses, and bear regular University of Delaware course credit. Honors options are available. Some courses satisfy college group requirements; in addition, certain courses are available which have been designated to satisfy group requirements only when taken abroad.

In the five-week Winter Session, numerous study abroad programs are sponsored by various academic departments and coordinated by Overseas Studies. These programs are directed by University faculty who teach regular credit courses in their discipline. Winter Session Study Abroad can be an exceptional first experience of study in another country and a valuable one for students who choose not to devote an entire semester to overseas study.

Three foreign-language-based programs are available in the fall semester for students who are already proficient in French, German, or Spanish. These are sponsored by the Department of Foreign Languages and Literatures in Caen (France), Bayreuth (Germany), and Granada (Spain). A semester-long program in Siena, Italy is being planned.

All students participating in study abroad programs enroll for a full-time academic schedule and pay regular University of Delaware tuition. A program fee covers airfare, housing for the duration of the program and, in some programs, planned group excursions and some cultural activities. Some meals may be included depending on the program. Foreign Study Scholarships are available to continuing University of Delaware undergraduates on a competitive basis. Students interested in Study Abroad should contact Overseas Studies in the International Programs Center, 4 Kent Way at (302) 831-2852. Advanced planning is important.

The University also is affiliated with institutions abroad which provide additional foreign study options for students and/or research or teaching opportunities for faculty. Among these are Denmark International Semester, Interfuture, and programs in Kassel, Germany; Wolverhampton, England (art majors only); National Cheng Kung University, Taiwan; Hankuk University of Foreign Studies, Korea; Women’s University and College of Shoin, Japan; Université de Lyon II, France; and others.

ACADEMY OF LIFELONG LEARNING

The Academy of Lifelong Learning, sponsored by the Division of Continuing Education, provides more than 100 college-level, non-credit courses each semester, as well as seminars, travel, cultural and social events, and other learning and enrichment activities for retired individuals 55 or over. Academy activities are planned and taught by Academy members. The northern Academy is located in Arsbith Hall on the Wilmington campus, the southern Academy in the Virden Center on the Sharp Campus in Lewes, DE.

PRE-COLLEGE PROGRAMS

The College Enrollment Program for Advanced Pre-college Students enables academically advanced and highly motivated students who have the approval of their guidance counselors to pursue college-level course work on a part-time basis before graduating from high school. During fall and spring semesters, students may enroll in early morning, late afternoon, or evening classes at the University. Students also may choose to take summer classes. Concurrent enrollment permits students to supplement high school work with more advanced material, pursue interests, or build on special talents. The credits earned become part of the student’s record at the University of Delaware and may be applied toward a University degree. For more information, call the ACCESS Center at (302) 831-2741.

The Forum to Advance Minorities in Engineering/UNITe/MERIT/University of Delaware (FAME/UNITe/MERIT/UD) is a pre-college program designed to increase the effective participation of underrepresented minority (African American, Hispanic, Native American) high school students (post 10th & 11th graders) in the applied sciences and engineering professions. The College of Engineering, with support from FAME, Inc. and other organizations,
SPECIAL PROGRAMS

offers a five-week academic enrichment program in the summer for talented minority high school students who demonstrate abilities for success in applied science and mathematics areas. The curriculum includes, but is not limited to, course work in mathematics, science, English, computers, and engineering design.

Fortune 2000 Pre-College Business Program, administered by the College of Business & Economics, is designed to provide business academic enrichment and career development for African American, Hispanic American, and Native American students in grades 9 through 12. Students with demonstrated abilities for success in business-related coursework are selected from schools in New Castle, Kent and Sussex counties and meet every other Saturday during the academic school year, as well as for five weeks during the summer months. The program offers academic enrichment in mathematics, science, English, computing and economics courses. Students are also exposed to the college and corporate environments as they participate in professional and academic development workshops.

The Governor's School for Excellence is a one-week summer program that brings together academically and artistically talented Delaware high school students who have completed the sophomore year. Students live in residence halls on the Newark campus for the week and attend either the academic program, consisting of discussions, lectures, debates, and films revolving around a specific theme, or the visual and performing arts program, which provides tutorial instruction with a noted artist and culminates in a performance or public display of work. Further information is available through Delaware's secondary schools or by calling the Division of Continuing Education at (302) 831-8836.

UD Summer College offers motivated high school students who have completed their junior year the opportunity to expand their educational experience through college-level study at the University. During the five-week program, students live in supervised dormitories, take freshman-level courses taught by University faculty, and participate in a variety of social and cultural extracurricular activities including out-of-town trips. Students select two classes from a curriculum of nine traditional and innovative courses. On successful completion of the courses, they earn regular University of Delaware credit, which many colleges and universities accept as transfer credit. The deadline for applications to the program is April 15. For more information, call the Summer College Office at (302) 831-6560 (mornings).

The Upward Bound Program at the University of Delaware, housed within the Academic Services Center, is funded by the U.S. Department of Education and is a year-round program for high school students who reside in New Castle County, Delaware. The program provides participants with a variety of academic enrichment and academic support services. Selected students must demonstrate the potential for education beyond high school. Through participation in the University of Delaware Upward Bound Program, students will learn the necessary academic skills needed to enroll in a college or university. Upward Bound is a comprehensive program divided into two phases: academic year and summer residential. This program is free of cost to participants selected for the program.

The Upward Bound Math/Science Regional Center for Science and Mathematics at the University of Delaware, housed within the Academic Services Center, is designed to serve 40 eligible high school students who are U.S. citizens or permanent residents. Eligible students who have completed the 9th grade, from Delaware, Maryland, and Pennsylvania are invited to participate in this exciting residential summer program funded by the U.S. Department of Education. Participants live on the University of Delaware campus for six weeks, taking courses and studying various topics in science, mathematics and technical writing. They also are involved in hands-on activities, working closely with faculty, staff and students. This program is free of cost to participants selected for the program.

For more information, please contact the Academic Services Center location for Pre-College Programs, 314 Willard Hall, Newark, DE 19716, (302) 831-6373 or 831-4102.
Each of the ten colleges of the University offers programs leading to graduate degrees. These include the degrees of Master of Arts, Master of Science, Master of Education, Master of Business Administration, Master of Chemical Engineering, Master of Civil Engineering, Master of Electrical Engineering, Master of Mechanical Engineering, Master of Applied Sciences, Master of Materials Science and Engineering, Master of Music, Master of Public Administration, Master of Instruction, Master of Fine Arts, Master of Marine Policy, Master of Physical Therapy, Doctor of Philosophy, and Doctor of Education.

Graduate work leading to the master's degree is offered in 68 different programs in the University's academic departments. Various concentrations are available within many of the graduate degree programs. Interdepartmental majors in operations research, biomedical engineering, public horticulture administration, conservation of historic and artistic objects, early American culture, and neuroscience are also offered. Programs leading to the degree of Doctor of Philosophy are available in 37 areas of study and the degree of Doctor of Education is offered in educational leadership.

Graduate assistantships and fellowships support 80 percent of the full-time graduate students at the University. Graduate students holding assistantships participate in sponsored research projects and in teaching at the undergraduate level.

The University conducts a wide variety of research, both basic and applied. Close cooperation with research centers and institutes on campus, with various industries and major national laboratories, and with neighboring museums permits access to many kinds of facilities for advanced study and research. About two-thirds of the funding for sponsored research and public service programs comes from federal grants, contracts, and appropriations. The balance comes from state and industrial contracts, foundation grants, University funds, and other sources. The Delaware Research Partnership uses state funds to attract matching grants from industry in support of University research that has the potential to enhance economic development in the state. The University of Delaware Research Foundation (UDRF), a nonprofit foundation chartered in 1955 to support research at the University, awards grants in science and engineering to young faculty and to established researchers investigating new and promising ideas.

Requests for copies of the Graduate Catalog and general inquiries about graduate study should be addressed to the Graduate Studies Office (phone: (302) 831-2129). The Graduate Catalog is also available on U-Discover, the University of Delaware's on-line information service. Inquiries concerning a specific area of study should be addressed to the chair of the department or area concerned.
of human interaction with the sea, from conflict-resolution studies of multiple-use situations in estuaries, to studies of natural science principles at work in the marine environment, to engineering changes that benefit society and the environment.

The College is a professional graduate school committed to the development of skilled academic and professional leaders. The positions held by graduates in the academic community, in government, and in industry attest to the quality of education offered by the College. For further information, call the Office of the Dean at (302) 645-4212.

**College of Urban Affairs and Public Policy.** The College of Urban Affairs and Public Policy offers both the Master of Arts in Urban Affairs and the Doctor of Philosophy in Urban Affairs and Public Policy. The College also offers a Master of Public Administration degree.

The graduate program is multidisciplinary and seeks to prepare students for a broad range of career opportunities in the public, private, and nonprofit sectors. The M.A. and the Ph.D. programs stress the skills necessary for application of social science perspectives to public policy problems. Graduate students have the opportunity to develop areas of specialization in energy and environmental policy, historic preservation, and community analysis and development. The M.P.A. program stresses knowledge and skills essential to the competent public manager. Graduate students have the opportunity to develop areas of specialization such as state and local management, international development policy and administration, environmental and energy management, fiscal and resource management and human resources management. Doctoral students must demonstrate their capacity for independent research through the development and defense of a dissertation. M.P.A. students normally complete an internship; an analytical paper or thesis is required. M.A. students normally complete an analytical paper focusing on planning or policy analysis. Students in all three programs have the opportunity for involvement in numerous research and public service projects conducted by the faculty and professional staff of the College.

Undergraduates interested in preparing for graduate education leading to careers in urban affairs and public policy and public administration are advised to major in one of the social science disciplines. Upper-level undergraduate students, with the permission of the instructor, may enroll in introductory courses offered by the College. The faculty of the College are available to advise undergraduates concerning preparation for graduate study.

In addition to its graduate program, the College has an active program of research and public service. Areas of research that have received attention in the past several years include planning and governance, technology and society, social policy analysis and evaluation, community development, energy and environmental policy, historic preservation, governmental and nonprofit organization, urban service delivery and housing policy. Through the Center for Energy and Environmental Policy the College has developed formal relationships in these and other fields with universities in Britain, Korea, Nigeria, China, Finland, India and Costa Rica.

The College contains several formal units which conduct research and public service. The Center for Applied Demography and Survey Research is a fully staffed, professional survey research unit. The Delaware Public Administration Institute provides public agencies with technical assistance in financial, legislative, and personnel administration, in labor relations and in-service management training. The Center for Energy and Environmental Policy supports the analysis of energy and environmental policies at the local, state, national and international levels. The Center for Historic Architecture and Engineering focuses University-wide resources on the documentation, interpretation and preservation of the built environment. The Center for Community Development offers research and other technical skills to community groups and agencies in the Wilmington region. The Urban Affairs Association, the international professional association for urban researchers, is housed in the College. For further information, call the Office of the Dean at (302) 631-2394.

**RESEARCH CENTERS**

The University has a number of specialized research units that provide students the opportunity to conduct research in conjunction with faculty, professional staff, and industrial personnel. Brief descriptions of a sampling of the University's research centers are given below.

**Center for Applied Science and Engineering in Rehabilitation.** Founded in 1988, and located at the Alfred I. duPont Institute, a nationally recognized pediatric hospital in Wilmington, Delaware, the Center conducts research in augmentative and alternative communication and rehabilitation robotics. This University Center and the Department of Applied Science and Engineering at the Alfred I. duPont Institute are administered by their respective institutions, but share a common staff and excellent research laboratories. A vast array of clinical services enhances the research environment for the more than 60 faculty members, medical personnel, research staff, graduate and undergraduate students, research fellows and administrative staff involved in the program. Graduate and undergraduate students from the University Departments of Computer and Information Science, Electrical Engineering, Mechanical Engineering, Linguistics, Physical Education and Psychology participate in interdisciplinary research. Current projects are in the areas of natural language processing, speech synthesis, speech processing, sign language, systems development and evaluation, rehabilitation robotics, telemanipulation, virtual reality, upper extremity biomechanics and vestibular stimulation. For further information, call 651-6830.

**Center for Composite Materials.** Established in 1974 within the College of Engineering, the Center for Composite Materials (CCM) is internationally recognized as a top academic research center in composite materials. Sponsors include an industrial consortium, the Army Research Office, and other government agencies. The Center currently involves approximately 30 undergraduates who work with graduate students and faculty in research teams. The interdisciplinary center calls on the resources of the Departments of Chemical, Mechanical, Electrical, and Civil Engineering, the Department of Physics and Astronomy, the College of Business and Economics, and the Materials Science Program.

Composite materials combine reinforcing materials with polymer, metal, or ceramic matrices to provide superior performance beyond that attainable with the individual constituents. Traditionally used by the automotive, aerospace and consumer products industries, composites are now being used for civil engineering and marine applications as well.

Since 1980, CCM has offered an undergraduate research program that recruits students both directly by the Center and through the Honors Science and Engineering Scholars Program. A variety of mechanisms, including scholarships, fellowships, employment opportunities, and academic credit, are used to sponsor students' participation in research programs under the advisement of Center faculty and professional staff. The Center provides industrial sponsors with student resumes and encourages its undergraduates to gain relevant industrial experience during the summer between their junior and senior years. Senior Research Fellowships, offered by the Center on a competitive basis, require six credits of senior research, a research report, and an oral defense to a committee of faculty members. CCM students are also eligible to be selected for various awards, which are given annually to undergraduates for the quality of their research projects.

**Center for Catalytic Science and Technology.** Since 1978, the Center for Catalytic Science and Technology has provided a compre-
hensive program of education and fundamental research in catalysis and chemical reaction engineering. Catalysis research is essential to the creation of new technology to meet the challenges of energy supply, economical manufacturing of high quality chemical and polymeric materials, and environmental protection. Center personnel number about 100 individuals including faculty from the Departments of Chemical Engineering and Chemistry and Biochemistry, adjunct faculty from industry, visiting scientists, professional staff, postdoctoral fellows, and graduate and undergraduate students. The Center has the best-equipped catalysis laboratory in the U.S. It is supported by industrial sponsors and the federal and state government.

**Center for Molecular and Engineering Thermodynamics.** Established in the spring of 1992 as a research unit within the Department of Chemical Engineering, the Center for Molecular and Engineering Thermodynamics (CMET) serves as a focal point and stimulus for collaborative research, advancing experimental and theoretical research, encouraging the development of new educational materials, textbooks, monographs and both regular and short courses in all areas of thermodynamics, and maintaining state-of-the-art thermodynamics laboratories. Thermodynamics, which lies at the core of traditional chemical engineering practice, is also related to the purification of pharmaceuticals, bacteria and other biologic materials, to a wide range of environmental problems and to new separations technologies. Research at the Center is conducted by the faculty, their undergraduate and graduate students, postdoctoral fellows, visiting scientists and research professionals. Students are deeply involved in the Center research, which is being carried out with the support of industrial and governmental grants and contracts. For more information, call 831-4500.

**Delaware Geological Survey.** The Delaware Geological Survey (DGS) was established by an Act of the General Assembly in 1951 and is organized as a unit of the University. This arrangement reflects both the research orientation of the Survey and its dedication to the application of geologic information throughout the state. The Survey is charged with the systematic investigation of the geology, mineral, and water resources of Delaware and with the advisement of state and local agencies, municipalities, industries, and individuals concerning these matters. In fulfillment of this charge, it conducts a program of geologic research, exploration, and service. The Survey’s staff, under the direction of the State Geologist, is appointed by the University.

Survey programs are coordinated with related state and federal agencies. The Delaware Geological Survey serves as the state’s cooperator with such federal units as the U.S. Geological Survey, U.S. Bureau of Mines, U.S. Minerals Management Service, and the Delaware River Master. Liaison and counsel are provided to other appropriate governmental and technical units through various appointments held by the State Geologist and other members of the scientific staff. Students may benefit from association with Survey geologists and their research projects. In addition, some of the geologists participate in teaching programs.

The research results of the Delaware Geological Survey are published as Bulletins, Reports of Investigations, Geologic and Hydrologic Maps, Atlas and Miscellaneous Map Series, Special Publications, Open File Reports, and journal articles. Well records, Sample Library, and other data collections are additional resources available to the scientific community and the general public at the Delaware Geological Survey Building. For further information, contact the Survey or the DGS Earth Science Information Center at (302) 831-2833.

**Institute of Energy Conversion.** The Institute of Energy Conversion (IEC), established in 1973, is a laboratory devoted to research and development of thin-film photovoltaic cells. Fundamental material and device research is carried out in parallel with process engineering studies and analysis of thin film deposition processes.

The Institute has a staff of some 25 professional and support personnel. This number is augmented each year by programs providing partial support for faculty, visiting scientists, and graduate and undergraduate students. Professionals from the Institute lecture in undergraduate courses as well as help supervise graduate and undergraduate students in research.

**Bartol Research Institute.** The Bartol Research Institute, a non-profit research organization, moved to the University of Delaware in 1977 and established a joint graduate program with the Department of Physics. The Institute conducts research and provides instruction in graduate courses on cosmic rays, the interplanetary medium, planetary magnetic fields, high energy particle physics, astrophysics, cosmology, condensed matter physics, solar and stellar physics, and nuclear physics. There are currently (1994) 16 faculty and 17 Ph.D. research associates and post doctoral fellows at BRI. The Institute receives support from the endowment established by Mr. Henry Bartol, from the University of Delaware, and from grants and contracts from the U.S. Department of Energy, the National Science Foundation, the National Aeronautics and Space Administration, and the Jet Propulsion Laboratory. The BRI is the lead institute in the Delaware Space Grant College Program of the NASA. Dr. Norman Ness, President of the Institute and a member of the National Academy of Sciences, is the principal investigator on the NASA SGC. He is also the principal investigator of a magnetic field experiment on the twin Voyager spacecraft, which successfully completed its twelve-year tour of the four largest planets in our solar system, Jupiter, Saturn, Uranus and Neptune, and is now outbound from the solar system toward interstellar space. Bartol operates experimental facilities in Antarctica at McMurdo and the South Pole in cosmic rays, helioscience, air showers investigating very high energy elementary particle interactions, and infra-red astronomy. Also, balloon borne high altitude studies of primary cosmic radiation are conducted from northern Canada. The research budget in 1993 was over $3.5 million.

**Other Research Centers** that are housed in colleges and departments throughout the University include:

- Bureau of Economic Research
- Center for Applied Coastal Research
- Center for Applied Demography and Survey Research
- Center for Archaeological Research
- Center for Climatic Research
- Center for Colloidal Studies
- Center for Community Development
- Center for Drug and Alcohol Studies
- Center for Energy and Environmental Policy
- Center for Historic Architecture and Engineering
- Center of Information Systems, Management, Education Research
- Center for the Mathematics of Waves
- Center for Remote Sensing
- Center for Science and Culture
- Center for the Study of Marine Policy
- Delaware Education Research and Development Center
- Delaware Public Administration Institute
- Delaware Transportation Center
- Disaster Research Center
- Financial Institutions Research and Education Center (FIRE)
- Oceanographic Data Management Center
- Orthopedic and Biomechanical Engineering Center (OBEC)
- Technical Center: Textiles, Apparel, Merchandising
- Water Resources Center

CONTINUING EDUCATION

The mission of the Division of Continuing Education is to extend the University's academic resources to citizens throughout the State of Delaware. This is accomplished through credit courses, certificate programs, nondegree short courses, public lectures, art exhibits and other cultural events, summer institutes, travel programs, and conferences. Programs are taught or conducted by University faculty members and by outstanding professional persons in the community. Continuing Education students include business executives, educators, health care professionals, engineers, artists, lawyers, homemakers, managers, farmers, military and public agency personnel, bankers, retired professionals, employed persons who are earning degrees through part-time study, as well as those without specific professional or degree objectives who are seeking intellectual stimulation through organized or informal study.

In addition, the Division of Continuing Education provides program development and conference management support to area businesses, government agencies, and professional associations to help meet their educational and training needs. Modern conference facilities for these activities are available for public use. They include John M. Clayton Hall on the Newark campus, the Goodstay/Wilccastle Centers and Arsht Hall on the Wilmington campus, and the Virden Residential Conference Center in Lewes.

ACCESS Center. The Adult Center for Continuing Education Student Services (ACCESS) provides career counseling, educational planning and academic advisement, and administrative assistance to current and potential continuing education students (see Student Support Programs section). For further information, call (302) 831-2741.

INTERNATIONAL PROGRAMS AND SPECIAL SESSIONS

Throughout the year, the Office of International Programs and Special Sessions offers academic opportunities for students of every college and major. There are fall, winter, and spring study abroad programs (see Special Programs section). This office also coordinates the Winter and Summer Sessions on campus. Winter Session is a five-week term between the fall and spring semesters. Winter courses meet January 3 through February 4, 1995. Roughtly half of all undergraduates attend Winter Session every year. The Summer Sessions begin during the first week of June. There are two consecutive five-week sessions and some classes that meet for 7 1/2-weeks.

In each of these special sessions, students may take up to seven credits to accelerate progress toward a degree, to focus on a single subject, or to synchronize their course schedule with the sequence of fall and spring course offerings. Courses are often available that are in high demand during the regular semesters. Approximately 300 students each year find that Winter Session is an especially good format for a study abroad experience.

The Library, Student Center, Housing and Dining Services, Carpenter Sports Building and other support services are active during the special sessions. There are also full programs of cultural activities including films, concerts, bus excursions, and lectures during summer and winter sessions.

Booklets containing detailed information and course listings will be available prior to the registration period for each session. Winter Session booklets will be published in September, and registration begins October 12. Summer Session booklets will be available in April with registration beginning in May. For further information, call (302) 831-2852.

LIBRARY

University Libraries contain over 2,100,000 volumes of books and journals, over 390,000 government publications, over 2,400,000 items in microtext, over 120,000 maps and subscribe to more than 20,000 periodicals.

Collections are broadly based and comprehensive and include serving as a depository library for U.S. government publications and a patent depository library for U.S. patents. Special Collections hold
rare books and manuscripts, including holdings in the fields of Irish and twentieth-century American literature which include collections of William Butler Yeats, Ernest Hemingway, Alice Dunbar-Nelson, Tennessee Williams and Paul Bowles, and archives in the fields of literature, history, including the history of chemistry and technology and the history of Delaware, and the applied arts. Over 210,000 reference questions are answered annually.

The Morris Library, the main library and where the bulk of the collection is housed, seats over 3,000. There are four branch libraries: the Agriculture, the Physics, and the Chemistry libraries on the Newark campus and the Marine Studies Library in Lewes.

DELCAT is the University of Delaware Library on-line catalog which contains information for over 1,000,000 items. DELCAT may be accessed via the campus network, the Internet, and by telephone and computer modem from anywhere in the world. Throughout the State of Delaware, access to DELCAT is available by local, toll-free telephone numbers. The University of Delaware Library provides on-line electronic access to all forms of computerized information: journal article references and abstracts, government information and maps, and worldwide Internet access through dedicated U-Discover workstations. For example, DELPLUS provides access to four databases containing hundreds of thousands of references and summaries of the contents of journals at no charge to the user. OCLC FirstSearch provides access to a broadly based journal reference database with document ordering capability. An additional 190 compact disk titles are available in the Morris Library for searching.

The Library maintains a library Gopher under “Library Information” on the main University of Delaware U-Discover menu. Select “Library Information” from the U-Discover menu to search DELCAT, OCLC WorldCat, DELPLUS and other journal databases, other libraries’ on-line systems, electronic journals, on-line interlibrary loan, and access to many reference and subject resources available on the Internet from outside the University. Librarians can also search hundreds of other commercial database information services for users for which a fee may be charged.

The University of Delaware Library is a member of the Association of Research Libraries, the Center for Research Libraries and PALINET through which it is connected on-line to OCLC, the On-line Computer Library Center. For library hours, call 302-831-BOOK.

**USER SERVICES**

User Services, a component of Computing and Network Services (CNS), provides consulting training and documentation for students, faculty and staff using computing hardware and software for research and instruction. The centrally supported computing systems and services include microcomputer and workstation laboratories for instruction and general purpose use, UNIX workstation and time-sharing facilities that offer electronic communications and a wide range of instructional and research applications.

Time-sharing facilities operate 24 hours a day, seven days a week. They are accessible from many campus locations, including residence halls, via the University’s high-speed data network and may also be accessed from off campus through lower speed telephone and data services. Remote facilities such as libraries and the National Science Foundation Supercomputer Centers are reached via the University’s connection to the Internet.

The University’s computer systems provide a full range of scientific and business programming languages, and extensive software libraries offer a large selection of applications in communications, data bases, spreadsheets, graphics, mathematics, numerical analysis, statistics, modeling, text processing and computer-based instruction.

Students with a valid University I.D. may use any public microcomputer on campus; students whose course work requires the use of central computing systems are assigned special access accounts by instructors. In addition, all students are eligible for a free “electronic mailbox” for sending and receiving electronic mail. Each semester, students receive a computing site map showing the location, hours of operation and equipment available in each microcomputer and terminal site. If students have their own terminal or microcomputer and appropriate communications hardware and software, they can reach the University’s central computing systems, the Library systems, DELCAT and DELCAT Plus, and the Internet.

The focal point of CNS’s consulting services is the Consulting Center in 002 Smith Hall. The Center assists students with the operation of University-supported hardware and software. Support for discipline-specific software is also offered at departmental computing sites. The Microcomputing Resource Center (MRC), in 040 Smith Hall, demonstrates hardware and software and provides consultation on the purchase of personal computer equipment available for sale at discounted prices through the University’s Computer Warehouse.

Each semester, User Services offers free classes for students on the use of the mainframe systems and on word processing with microcomputers. Students may attend, without charge, any of the classes on microcomputer, workstation and mainframe applications. The schedule of classes is included in UpDate, the University newspaper. Computer manuals, introductory handbooks, self-paced tutorials, on-line information, videotapes and audiotapes are also available to assist students in learning how to use computers effectively. For further information, call (302) 831-6000 or visit the Consulting Center in 002 Smith Hall. (See table of “Computing Sites at a Glance” on the next page)

**UNIVERSITY MEDIA SERVICES**

The University Media Services (UMS) provides television studio/classrooms that transmit courses to off-campus students, studios used to teach courses in television production, and facilities to create videotapes and videodisc. UMS supports faculty in the production of media materials and the use of related hardware and services for classroom presentation and special events.

- The Perkins Student Center
- Religious Opportunities
- Cultural Events
- Visiting Scholars and Lecturers
- National Student Exchange
- Student Performance Opportunities
- Faculty Performing Groups
- University Gallery
- Student Publications and Communications

STUDENT LIFE

The Division of Student Life emphasizes the total development of students and works to challenge them so that they may grow, learn, and become responsible for their own actions. By extending the educational process beyond the classroom, the Division provides opportunities for learning through involvement in cultural and social activities, student organizations, lecture series, and community service.

The Division is committed to protecting the rights and dignity of each student. The staff realizes that students come to campus from a variety of backgrounds and with different experiences in self-government and self-direction. When problems arise, students are encouraged to seek the assistance of professional staff members available in the services offered by the Division.

DELAWARE UNDERGRADUATE STUDENT CONGRESS

The Delaware Undergraduate Student Congress (DUSC) is the official name of the University's student governing body of which all undergraduate degree candidates are considered members. This organization assumes the responsibility of self-government, as delegated by the University faculty and administration. Its overall charge is to identify the needs of students and bring them to the attention of the administration, faculty, and City of Newark government officials. DUSC serves to interpret University policy to the student body. It also oversees the approximately 180 registered student organizations.

DUSC consists of six executive officers elected through a campus-wide vote. Eighteen congressional representatives are selected to represent the interests of students from each college. Various student constituencies across campus are also represented by seven cabinet positions. Other cabinet positions provide leadership for a variety of administrative and academic responsibilities. In addition, DUSC appoints student representatives to University faculty, student, and Board of Trustees committees. For further information, call (302) 831-2648.

THE PERKINS STUDENT CENTER

The John A. Perkins Student Center provides facilities and services for students, faculty, staff, alumni, and the community. The Center's services include meeting rooms for campus groups, a number of student lounges, the Bacchus Theatre, the University Bookstore, an information center, a bank and a faculty dining room. In addition, the Center has a recreation area with billiards, television and an exhibition area. There is a student dining area in the Center as well as a snack bar.

Many University extracurricular programs are organized through the Student Center. The Center staff and the Student Center Program Advisory Board (SCPAB) offer film series, "popular" and classical concerts, theatre productions, art exhibitions, and bus tours to nearby cultural and athletic events.

The offices of several student organizations are located in the Student Center including the Delaware Undergraduate Student Congress (DUSC), the Student Center Program Advisory Board (SCPAB), the Lesbian Gay Bisexual Student Union, WVUD radio, and the student newspaper and yearbook. The Student Activities Office is also housed in the Student Center.

RELIGIOUS OPPORTUNITIES

Recognition is given to the importance of ethical and moral influences in the development of the individual. Students are encouraged to attend the churches of their choice and to contact their own denominational organizations on the campus. Most denominations
are represented in Newark or in nearby Wilmington. In addition, there are a variety of registered student religious organizations on campus, including Baptist Campus Ministry, Campus Advance for Christ, Campus Crusade for Christ, Chabad House, Delaware Student Fellowship, Episcopal Campus Ministry, Friendship Church Campus Ministry, Hillel, Intervarsity Christian Fellowship, Latter Day Saints Student Association, Lutheran Student Association, New Song Students, Thomas More Oratory, Warriors for Christ and Wesley Foundation. For further information, contact (302) 831-2428.

CULTURAL EVENTS

The Departments of Art, Music, and Theatre, along with the Perkins Student Center, the Office of International Programs and Special Sessions, and the Student Center Program Advisory Board offer a variety of concerts, films, theatre productions, and art exhibitions at the University. In addition, International Programs and Special Sessions, the Perkins Student Center, and the Faculty Senate Committee on Cultural Activities and Public Events bring to the campus many outstanding music, dance, opera, and theatre programs. Bus tours are offered to the Philadelphia Orchestra series at the Academy of Music in Philadelphia, to the Metropolitan Opera in New York, and to selected museum exhibits and theatre productions.

VISITING SCHOLARS AND LECTURERS

The intellectual life of the University community is enriched by the many outstanding visiting scholars and lecturers who are invited to the campus. A well-established Visiting Scholars Program sponsors many of these scholars, who speak to classes and often present an evening lecture to which all interested members of the community are invited. Students are given several opportunities to talk with these visitors at luncheons, dinners, or in informal conferences.

The Visiting Minority Scholars Program, sponsored by the Office of Affirmative Action/Multicultural Programs, offers lectures and colloquia by Black, Native American, and Spanish-surname scholars. The Winterthur Program in Early American Culture brings distinguished visiting scholars to the University to spend several days. This program involves graduate courses at the University and laboratory work at the nearby Winterthur Museum. The Lank Exchange Program encourages the exchange of cultural and scientific knowledge between the University of Delaware and the University of Montreal. Scholars from each university visit the other campus for several days.

During the academic year, many lecture series are offered by academic units throughout the campus, and a number of special university-wide lecture series on topics of national or international interest are sponsored by cooperating units.

NATIONAL STUDENT EXCHANGE

University of Delaware students can spend up to a year at one of 113 institutions located throughout the U.S. that exchange students through the National Student Exchange. Full-time students with a 2.5 or better grade point average and in good standing with the University are eligible to apply. Financial aid is frequently available. Expenses are similar to those at the University of Delaware, and with prior approval, credits transfer back to the University. For further information, call (302) 831-6331.

STUDENT PERFORMANCE OPPORTUNITIES

The Department of Music offers a variety of opportunities to perform in musical ensembles. The Choral Union, Chorale, Collegium Musicum, Opera Workshop, University Singers, Marching Band, Wind Ensemble, Symphonic Band, Jazz Ensemble, Chamber Orchestra, Gamelan, and a variety of chamber ensembles are important contributors to the musical life of the campus. Membership in these organizations is open to all members of the University community.

For further information, call the Department of Music at (302) 831-2577.

FACULTY PERFORMING GROUPS

The Del'Arte Wind Quintet, formed in 1981, performs recitals throughout the Mid-Atlantic region. The Del'Arte has a wide and varied repertoire and is able to offer programs suitable for a variety of settings. For their "Music in the Schools" program, the group offers lecture-demonstrations and master classes and can furnish lesson plans and supplementary materials on request.

The Delaware Brass Quintet, organized in 1981, performs a variety of programs including formal concerts, workshops/clinics, and lecture-demonstrations for student and adult audiences. Each member brings extensive performing experience in solo and ensemble repertoire to the group. Available for performances are works from the Renaissance through the avant-garde. Concerts have been presented in Delaware and neighboring states.

The Faculty Jazz Ensemble, in existence since 1978, performs at campus and regional events as a trio or with as many as six or seven players. The group has appeared in the "Wonderful Music in Lewes" series and has entertained in Dover, Delaware as the opening act for Ben Vereen. The group is also available for clinics and performances in area high schools.

The Mendelssohn String Quartet, established in 1979, has been String Quartet in Residence in the University of Delaware's Department of Music since 1989. The group has earned a reputation as one of the most imaginative and exciting quartets of this generation. The quartet has appeared in major U.S. and European cities and on college and university campuses throughout the country, and it has collaborated with such noted artists as pianists Menahem Pressler, Rudolf Firkusny, and Ursula Oppens; sopranos Lucy Shelton and Evelyn Lear; violist Robert Mann; and clarinetist Charles Neidich.

The Taggart-Grycky Flute and Guitar Duo, formed in 1982, performs throughout the United States, and in 1987 made a successful concert tour of Belgium. The Duo's digital recording of nineteenth- and twentieth-century music for flute and guitar has won praise from Hi-Fidelity and Fanfare magazines. Combining solid musicianship with a charming style, the Duo treats its audiences to a delightful discussion and interpretation of music from the baroque through the contemporary era.

For scheduling information, call the Program Coordinator at (302) 831-8245.

UNIVERSITY GALLERY

The University Gallery has been in operation since 1978. Located on the second floor of historic Old College, the Gallery, administered through the College of Arts and Science, cooperates with the Departments of Art, Art History, Anthropology, and History, and with the Museum Studies Program to bring exhibitions of regional and national significance to the attention of the campus audience and the surrounding communities. The Gallery also functions as a teaching laboratory, providing opportunities for students to learn the current standards and practices of the museum field.

The University Gallery houses a collection of art objects and cultural artifacts spanning the ancient period through the present, providing an invaluable resource to students, faculty, visiting schol-
ars, and the general public. To receive information on the University Gallery events and programs, please write: The University Gallery, 114 Old College, University of Delaware, Newark, DE 19716.

STUDENT PUBLICATIONS AND COMMUNICATIONS
The student publications of the University are the Review, the student newspaper, and the Blue Hen, the yearbook. The “Voice of the University of Delaware”—WVUD, 91.3 FM radio—is professionally managed and operated by University students.

HONOR SOCIETIES
Phi Beta Kappa. Established in 1776, Phi Beta Kappa is the oldest honorary society on the American campus. A local chapter, Alpha of Delaware, was approved by the United Chapters of Phi Beta Kappa in September 1955 and was installed in April 1956. Generally, seniors majoring in the liberal arts and demonstrating superior scholarship are eligible for election.

Phi Kappa Phi. Seniors ranking high in scholarship in any academic field are elected each year to this society. Two members of the faculty are also elected each year.

Mortar Board and Omicron Delta Kappa are societies that recognize scholarship, leadership, and service.

Societies that recognize attainment in special academic fields are: Alpha Kappa Delta (sociology), Alpha Mu Alpha (marketing), Alpha Zeta (agriculture), Beta Alpha Psi (accounting), Beta Beta Beta (biology), Beta Gamma Sigma (business administration), Chi Epsilon (civil engineering), Delta Phi Alpha (German), Dobro Slovo (Slavic), Eta Kappa Nu (electrical engineering), FMA Honor Society (finance and banking), Gamma Kappa Alpha (Italian), Golden Key (no single field), Kappa Delta Pi (education), Kappa Omicron Nu (human resources), Mu Iota Sigma (management information systems), Omicron Delta Epsilon (economics), Order of Omega (Greek honorary), Phi Alpha Theta (history), Phi Delta Kappa (education), Phi Sigma Tau (philosophy), Pi Delta Phi (French), Pi Mu Epsilon (mathematics), Pi Sigma Alpha (political science), Pi Tau Sigma (mechanical engineering), Psi Chi (psychology), Sigma Delta Phi (Spanish), Sigma Iota Rho (international relations), Sigma Tau Delta (English), Sigma Theta Tau (nursing), Sigma Xi (science), and Tau Beta Pi (engineering).

REGISTERED STUDENT ORGANIZATIONS
A wide variety of registered student organizations that provide leadership experiences and interest opportunities are available at the University. Students can choose from numerous areas ranging from departmental clubs, professional societies, and cultural associations to programs and activities serving their recreational, social, and educational interests.

FRATERNITIES AND SORORITIES
The Greek Life program at the University has offered students an opportunity to belong to chapters of national fraternities and sororities since 1904. Alpha Epsilon Phi, Alpha Kappa Alpha, Alpha Xi Delta, Alpha Nu Epsilon Phi, Alpha Xi Delta, Chi Omega, Delta Sigma Theta, Kappa Delta, Phi Sigma Sigma, Sigma Gamma Rho, Sigma Kappa, and Zeta Phi Beta have sorority chapters here. The Dean of Students Office advises all chapters and colonies as well as their respective coordinating councils—the Interfraternity Council and the Panhellenic Council.

INTERCOLLEGIATE ATHLETICS PROGRAM
There are 22 intercollegiate varsity sports, 11 for men and 11 for women, including nationally-recognized programs in football, baseball, golf, men’s and women’s lacrosse and women’s field hockey. Both men’s and women’s programs, except football and women’s lacrosse, compete for overall athletic excellence within the North Atlantic Conference each year.

Delaware competes for athletic championships in NCAA Division I except for the football program, which competes in Division I-AA through the Yankee Conference and women’s lacrosse, which is a member of the Colonial Athletic Association. Delaware also competes for championships as a member of the ECAC and IC4A. In recent years, 19 University athletes have been named Academic All-Americans and six have been awarded the prestigious NCAA Post-Graduate Scholarship.

The University’s athletic facilities are among the finest in the East with the 23,000-seat Delaware Stadium; the Bob Carpenter Center, which is a 5,000-seat multi-purpose building that houses the Blue Hen basketball programs, football locker rooms, and athletic administration offices; the Delaware Field House, which includes one of the region’s finest indoor track facilities; the Delaware Diamond; softball field; an all-weather outdoor track; and numerous other game and practice fields.

RECREATION AND INTRAMURAL PROGRAMS
The Recreation and Intramural Program at the University attempts to contribute to the individual’s overall educational experience by developing individual strength, endurance, and readiness through activities that are enjoyable, serve to relieve tensions, and encourage companionship. The programs provide trained and responsible leadership, opportunities to experience the desirable physical, mental and emotional outcomes of participating in activities and help individuals build a worthwhile recreational attitude that will serve them throughout their life. The Recreation and Intramural Program includes the following programs.

Open Recreation. The Carpenter Sports Building is open for recreational use on Monday through Friday from 12 noon to 1:00 p.m. and 4:00 p.m. to 10:00 p.m. and on Saturday and Sunday from 12:00 noon to 8:00 p.m., except when special events are scheduled. Facilities available include a swimming pool, racquetball courts, squash courts, basketball courts, volleyball courts, weight rooms, Student Fitness Center, Outdoor Recreation Resource Center, indoor climbing wall, and fields. For hours of specific facilities, call (302) 831-2264. A current University of Delaware ID card is required to gain entrance to the building.

Intramural Programs. The University provides an extensive intramural athletic program for men and women. The Intramural Council, made up of representatives from campus organizations participating in the program and the Associate or Assistant Director, meet once a week to organize schedules and set up ground rules for the various sports. Usually, more than half the students compete in some phase of the intramural program. There are leagues, tournaments, and contests established for the men’s, women’s, and coed
divisions in the following sports: badminton, basketball, billiards, field hockey, golf, indoor soccer, innertube water polo, lacrosse, racquetball, soccer, softball, street hockey, table tennis, 5K series, tennis, flag football, ultimate frisbee, volleyball, and wallball.

Recreational Activity Programs. These instructional activities include ballroom dance, self-defense, juggling and other programs of interest to students.

Fitness Centers. The Fitness Center consists of five facilities around campus: the Cardiovascular Room in Carpenter Sports Building which contains aerobic equipment; the Strength and Conditioning Room which contains aerobic Universal weight machines, platform joggers, stationary bikes and selected free weights; the Harrington Fitness Center on east campus with state-of-the-art cardiovascular equipment, single station resistance equipment and a specialized aerobic room; the Pancader Fitness Center located on north campus with cardiovascular equipment and single station resistance equipment; and the Employee Fitness Center located in Carpenter Sports Building. The Fitness Center Programs offer classes in aerobics, step aerobics weight training, yoga aqua class, deep water workout, meditation, walking, personal safety and self-defense.

Outdoor Recreation Resource Center (ORRC). The Outdoor Recreation Resource Center consists of the Equipment Rental Center, which provides a variety of outdoor equipment for rent to students and staff; the Indoor Climbing Wall with supervised instruction and practice to develop and improve one’s skills; and outdoor instructional programs in rockclimbing, canoeing, bicycling, camping, etc. offered during the semester. All these programs are scheduled to provide students with a safe learning experience with quality equipment. Additionally, a comprehensive Adventure Challenge Experience program is conducted by the department as a teaching and outdoor learning tool utilizing on-campus high and low ropes course facilities. The ORRC is designed to help people meet and share outdoor experiences with one another. It can assist both beginners and experienced recreators to further develop their outdoor skills. The program also aims to foster awareness and appreciation of the natural environment. The ORRC includes program opportunities, instruction, equipment rental, and printed information.

STUDENT HEALTH SERVICE (SHS)
The Student Health Service, located in Laurel Hall on the south end of the main campus mall, provides out-patient and in-patient medical services for all undergraduate and graduate students. The SHS is staffed by physicians, psychiatrists, nurses and technical staff — all well trained, fully licensed professionals. The physician staff are Board certified or Board eligible in the following specialties: family medicine, pediatrics, gynecology and psychiatry.

Out-patient services are primarily provided on an appointment basis, and include x-ray and laboratory services, surgical treatment for minor lacerations, EKG testing, non-operative orthopedic services, ambulance/medical transport services and consultation and referral for complex medical cases. SHS physicians and nurses are available to see patients from 8:00 a.m. to 4:30 p.m., Monday through Friday. On-call physician and mental health professional coverage is maintained for inpatient emergencies and telephone consultation.

Nurses are available to see patients on a 24-hour, seven-day-a-week basis when the residence halls are open. Out-patient services also include an immunization clinic for allergy injections and other inoculations, an outpatient gynecologic service, a psychiatric service which offers short-term psychotherapy within a session limit time frame with staff available after hours for mental health emergencies, a substance abuse counseling service and a sports medicine clinic (located at The Bob Carpenter Center). There is also a limited dispensary of pharmaceutical medications available for purchase for common prescriptions written at the SHS. The medication costs are below retail prices (exclusive of prescription plans, etc.) The SHS also provides equipment (sharps containers for lancets, needles, etc.) and information on the availability of other services on campus for the handling of infectious medical waste (i.e., materials contaminated with blood or other potentially infectious materials). Through its optional Self Care Cold Clinic and Self Care Wound Clinic, the SHS supports students with educational materials and some complimentary over-the-counter medications promoting self-directed care for minor health problems.

The SHS sponsors a comprehensive health education program called Wellspring, designed to help members of the University community evaluate, maintain and promote their own health. Wellspring-sponsored programs and services include individual and group education on alcohol/drugs, stress management, fitness/nutrition, sexuality concerns (including HIV/AIDS information, confidential testing and a pre- and post-test counseling service for HIV), and eating disorders concerns. The SHS also sponsors a sexual offense support (SOS) group to help survivors of sexual offense and to provide educational programs that focus on acquaintance/date rape awareness and prevention.

All full-time students are eligible for these services and are charged the semester and winter session health fee. This fee covers all costs except x-ray, prescription drugs, special serum injections, off-campus medical referrals and laboratory testing sent to private labs. The semester and winter session health fee also supports the mental health services offered through the Center for Counseling and Student Development. Part-time admitted students can receive the services of the SHS by paying either the semester/winter session health fee or separate charges for each service. The University also sponsors an optional accident and sickness insurance program available to all admitted full- and part-time students. For further information, call the Student Health Service at (302) 831-2226.

SERVICES FOR STUDENTS WITH DISABILITIES
Because the University is committed to helping each student develop to the full measure of his or her ability, the Office of the Americans with Disabilities Act Program Coordinator provides services for students with permanent disabilities (other than learning disabilities). These include special orientation tours of the campus, short-term loan of cassette tape recorders, keys to campus elevators, assistive listening devices, and liaison with faculty, professional staff and state agencies. In addition, this office provides assistance in obtaining priority status for scheduling, in using specialized equipment and auxiliary aids, in locating tutors, readers, classroom notetakers, examination assistants and interpreters, in finding available accessible housing in residence hall and apartment settings, and in arranging transportation on campus and on the shuttle bus route. For further information, call the Office of the ADA Program Coordinator at (302) 831-2835 (voice) or (302) 831-4552 (TDD).

NEW STUDENT ORIENTATION
At the University of Delaware, New Student Orientation takes place in two phases. Phase One assists students in accomplishing the academic tasks that must be completed to ensure a smooth start to the first semester, while Phase Two enhances students’ actual transition to Delaware.

Phase One. During the month of July (for Fall) and January (for Spring) all new students are strongly urged to spend one full day on campus to participate in Phase One. A student’s Phase One schedule typically includes placement testing, a meeting with an academic
adviser, registration for first semester classes, and opportunities to meet new and current students. At the end of the Phase One day, students receive their fall class schedule and their official University of Delaware I.D. card.

Parents are also encouraged to attend Phase One for a special “Parent’s Orientation.”

**Phase Two.** Phase Two is held for several days prior to the beginning of class for fall and spring semesters. Helping new students feel welcome to Delaware; meeting faculty, staff and other students; exploring academic and co-curricular opportunities; and gaining understanding of a student’s relationship to the University community are accomplished during Phase Two. Programs include informal meetings with professors, group discussions, social activities, and special workshops.

Information concerning both Phases of Orientation is mailed to all new students.

**DEPARTMENT OF PUBLIC SAFETY**

The administrative office responsible for police and security services on the campuses of the University of Delaware is the Department of Public Safety. Public Safety staff provide 24-hour-a-day response to reports of on-campus emergencies and criminal actions. Reports of emergencies or requests for assistance may be communicated directly over more than 200 “dial-free” campus emergency telephones, or by calling the University Police emergency number: (302) 831-2222.

The Police Division of the Department of Public Safety is staffed by 45 men and women who have met the police training certification requirements of the State of Delaware and who exercise full law enforcement authority on the campus and contiguous streets. Public Safety’s Security Division employs 16 full-time officers and approximately 35 part-time Student Security Aides. These staff receive departmental training and assist the University Police by performing non-law enforcement duties.

The most recent annual report of campus crime statistics is included in *The Official Student Handbook*. A copy is available, upon request, from the Department of Public Safety, University of Delaware, Newark, DE 19716.

**MOTOR VEHICLE REGISTRATION AND USE**

University personnel (students, faculty, staff, and visitors) are extended the privilege of operating and parking motor vehicles on campus only in accordance with the conditions stated in the publication Motor Vehicle Regulations. Copies of these regulations are available from the Traffic Office of the Department of Public Safety. All vehicles parked on campus (other than in the visitors’ lots or at activated meters) must be registered with the Traffic Office and display a current parking permit. This requirement is in force at all times throughout the year.

Generally, undergraduate students are eligible for parking privileges only if they commute daily from their homes to the University. Car pools are encouraged and car pool permits are available at special rates. Students who reside on campus are not permitted to register or operate motor vehicles (other than motorcycles or mopeds) on campus, other than for weekend use. Exceptions will be granted for resident students with verified physical handicaps, or medical, academic, or other special needs. Assignment of parking lot privileges will be made at the time of vehicle registration, consistent with the regulations currently in effect.

The University reserves the right to remove and store any vehicle parked on its property that lacks registration or is otherwise in violation of the motor vehicle regulations at the expense of the owner. University parking privileges are subject to revocation for repeated violations of the motor vehicle regulations.

**IDENTIFICATION CARDS**

The ID card is the student’s official University identification. It is issued to each full- and part-time undergraduate student upon matriculation and must be in the student’s possession at all times. With an active registration each term, privileges such as using the library and computing sites will be accessible with this card. Other privileges such as Dining Services, require payment of a fee to have access with the ID card. The ID card is not transferable. It is the property of the University and must be surrendered upon request. It becomes void upon withdrawal and must be returned to the ID Systems Office. Loss of an ID card should be reported promptly to the ID Systems Office so that a new card can be prepared. A charge is made for a replacement ID card.
