The college offers baccalaureate degrees in accounting, business administration, and economics. Within the business administration program, students may choose to major in finance, management, marketing, or operations management. Honors degrees are available in selected degree programs; and, through the Department of Foreign Languages and Literatures, a foreign language certificate (with an optional Honors component) may also be earned in conjunction with the baccalaureate degree. The College also administers comprehensive special support services for its minority students. The FORTUNE 2000 program provides students with academic and career-related assistance to encourage successful matriculation, graduation and career placement.

Minors are offered in business administration and economics. In addition, for students enrolled in majors within the College, minors are also available in international business and management information/decision support systems.

At the graduate level, the College offers degree programs leading to the Master of Science degree in Accounting, Master of Business Administration, Master of Arts and Master of Science degrees in Economics, and the Ph.D. in Economics.

Undergraduate students are admitted as new students into either the Accounting, Business Administration, or Economics degree programs. Students already admitted to the University of Delaware matriculated in other programs may apply to change their degree program to accounting, business administration, or economics after earning 30 credits at the University. Applications are reviewed each October 15 and March 15 by the departments within the College. The chief criteria used in selection is academic performance with the average grade point of those accepted over the past five years being around 2.8. Applications for admission to the minors are also reviewed and have similar criteria, although the MI/DSS minor applications are reviewed only once a year in March. Additional information and application forms are available in the four departments. (Note that students who are applying for re-admission to the University who were previously dropped for academic deficiency may be readmitted to their degree program in the College of Business and Economics assuming that they 1) had a minimum of 60 earned hours at the time they were dropped, 2) were enrolled as a Business and Economics student at the time of the termination, and 3) have a deficit of 6 or less.)

ACCOUNTING

The undergraduate accounting program is designed to prepare the student for an accounting career in industry, in government, or in public accounting. During the first two years, the accounting major follows a format of courses that enables the student to acquire a broad liberal arts background. The accounting program is designed to provide flexibility in the selection of humanities and social and natural science courses from broad groupings to augment the professional development of the student. The undergraduate accounting major includes work in accounting information systems, intermediate, cost, income tax, advanced accounting, and auditing.

The program provides preparation for the Uniform Certified Public Accountant Examination, the Certificate in Management Accounting and other professional certifications. Graduates who have completed the full curriculum meet the education requirements for admission to the New York State license examination for certified public accountancy.

The major in accounting leads to the degree of Bachelor of Science in Accounting. Each candidate for a Bachelor of Science degree
must: (1) earn a minimum of 128 credits, (2) achieve a minimum cumulative grade point average of C (2.0) on all work undertaken at the University of Delaware, (3) fulfill the course requirements of the degree program, and (4) achieve at least a C in specified business, finance, economics and accounting courses. In order to receive a B.S. in Accounting, a student transferring in credit must take at least five of the seven required technical junior- and senior-level accounting courses (ACCT 302, 315, 316, 327, 413, 415 and 417) at the University of Delaware.

Students majoring in accounting must take a broad range of nonbusiness courses (courses offered in colleges outside of the College of Business and Economics) including a specified number of courses in the humanities, science and/or mathematics, social sciences, and in other disciplines that develop specific skills. Fourteen credits of free electives are required to give each student the opportunity to choose courses most consistent with his or her interests and career goals.

**ELECTIVES**

**Electives**

Fourteen credits of elective subjects of which six credits may be taken outside the College of Arts and Science. Six credits from the College of Business and Economics may be elected in the elective category. Economics courses must be at the 200-level or higher and Business Administration, Finance, and Accounting courses must be at the 300-level or higher. A student who elects ROTC may apply twelve credits of ROTC to the elective category. No more than two credits can be from HPET 120.

**CREDITS TO TOTAL A MINIMUM OF .............................................. 128**

**BUSINESS ADMINISTRATION**

Professional education in business administration serves to develop the capabilities of students so that they may assume positions of leadership and responsibility at all levels of management in our society.

The undergraduate degree program in business administration reflects the growing demand for greater management capability in every field of endeavor: private industry, government, or nonprofit institutions. Since most of the skills and techniques of management originate in private industry, much of the curriculum focuses on the private business sector.

The faculty of the Departments of Business Administration and Finance develop each student through a variety of teaching techniques: lectures, case studies, role playing, seminars, and directed study. No single teaching technique is emphasized to the exclusion of others. To enhance the instructional process, the departmental faculty is actively involved with business and governmental leaders through research, seminars, and consulting activities.

Students pursuing a program of study leading to the degree of Bachelor of Science in Business Administration will select one of four majors: management, marketing, finance, or operations management. The major in finance is administered by the Department of Finance within the College of Business and Economics. Students may also pursue a minor in international business and/or apply to the minors in management information/decision support systems, eco-
nomics or a variety of other fields. A minor in business administration is also available to students majoring in other fields.

Each candidate for a degree must: (1) earn a minimum of 128 credits, (2) achieve a minimum cumulative grade point average of C (2.0) on all work undertaken at the University of Delaware, (3) fulfill the course requirements of the degree program, and (4) achieve at least a C in specified business, finance, accounting and economics courses. Students seeking a Bachelor’s Degree in Business Administration may take only one of the four required upper-level courses in their major at another institution.

Students also take a broad range of nonbusiness courses (courses offered in colleges outside of the College of Business and Economics) including a specified number of courses in the humanities, sciences, social and behavioral sciences, and in disciplines that develop specific skills in mathematics, statistics, and written and oral communication. Additional electives are also required to give each student the opportunity to choose courses that most consistently with his or her interests.

It is recommended that students take BUAD 301, 306, 309, FINC 311 and ACCT 261 during the first semester of the junior year. A major is selected after taking these introductory courses.

All 400-level courses are restricted to Business Administration and Accounting degree candidates and to students whose programs require the course. Preference is given to majors.

REQUIREMENTS FOR THE MINOR IN BUSINESS ADMINISTRATION
The minor in business administration provides students in degree programs other than in business with an opportunity to acquaint themselves with the basic concepts of business administration. Completion of the requirements for the minor provides a basic understanding of the language and major functional areas of business. The minor is awarded only to students who have applied and been admitted to the program. Applications are reviewed each October 15 and March 15. This program is not available to students whose major program requires all of the following courses. Students seeking a minor in Business Administration may only take one of the required Business or Finance courses at another institution.

Required courses for the minor are:
- Accounting I, ACCT 207** 3
- Accounting II, ACCT 208*** 3

***A grade of C or better is required in these courses
**Students must take a total of six credits in any combination of the courses marked with a dagger as professional electives (except ACCT 350 and ACCT 351)
†A grade of C or better is required in all but one of these courses
*Only one of the following courses will count towards graduation: ACCT 261, ACCT 302 or BUEC 325

- Introduction to Macroeconomics: National Economy, ECON 152*** 3
- Introduction to Statistics I, STAT 201 3
- Introduction to Statistics II, STAT 202 3
- Calculus I, MATH 221 3

CREDITS TO TOTAL A MINIMUM OF 42

REQUIREMENTS FOR THE MINOR IN INTERNATIONAL BUSINESS
The minor in international business is designed to give increased understanding of the important international dimension of business to students with a major in business administration or accounting. The 18 credits required for the minor may also be used to meet other distribution requirements. Students meeting the following requirements will be awarded the minor. To qualify, a change of classification form must be filed in the office of the Dean of the College of Business and Economics upon enrollment in the last required course; this application must be filed no later than the end of the sixth week of student’s final term. Students seeking the minor will not be given preference in registration for these courses. Students seeking a minor in International Business may only take one of the required Business or Finance courses at another institution.

Required courses for the minor are:
1. Nine credits with one course from three of the following four sets of courses:
   A. BUAD 392 International Business Management
   B. FINC 392 Seminar in International Administrative Management
   C. BUAD 393 Seminar in International Marketing Management
   D. BUAD 341 Environment of Multinational Corporations

2. Nine credits taken outside the departments of Business Administration and Finance from a list, maintained by the departments, of supporting courses, with no more than one course taken in a single department. Included will be all foreign language courses at the 200-level or higher and courses that emphasize current international issues or provide background for understanding other countries or cultures.

ECONOMICS
Economics, a social science, analyzes the market and non-market production and allocation of goods and services. The problems associated with society’s effort to prosper in a world possessing finite resources provide the focus.

The policy problems encountered in this study are varied, fascinating and important for social welfare. The issues include: (1) the conflicts between efficiency in production and equity in the distribution of income; (2) the causes of, and solutions to, unemployment and inflation; (3) the prospects for growth and development in the world’s poorer nations; (4) the contrasts between managed and market economies; (5) efficient and fair solutions for pollution problems; (6) the implications of...

CREDITS TO TOTAL A MINIMUM OF 124

Certain corresponding courses offered at different levels of difficulty will not both be counted toward a degree. These corresponding courses include ECON 311 and ECON 411, ECON 332 and ECON 433, ECON 340 and ECON 443, ECON 344 and ECON 444, ECON 460 and ECON 461 or ECON 463, and ECON 381 and ECON 483.

Departmental requirements and course descriptions are subject to continual revision. Up-to-date statements of requirements, course descriptions, and departmental policies are available in the department office.

THE MINOR IN ECONOMICS

The minor in economics provides students in other degree programs an opportunity to study the basic concepts and methodology in economics and to gain formal recognition for their efforts.

Required courses in minor:
Six courses (18 credits) with a grade of C- or better, including ECON 151, 152, and either the micro track including ECON 300 (or 301 or 251) and three additional courses at or above the 300-level; or the macro track including ECON 302, ECON 303, and two additional courses at or above the 300-level.

Application for minor:
Same as application for major. (see page 172)

DOUBLE MAJOR IN BUSINESS ADMINISTRATION AND ECONOMICS

Overall requirements:
For graduation, 131 credits are required rather than 128 (business majors) or 124 (economics majors).

Application and advisement:
Students must apply to both degree programs for this option. The student's double major program will be developed in consultation with an adviser.

INTERDEPARTMENTAL MAJOR IN ECONOMICS

The interdepartmental major consists of 51 credit hours selected from related fields with a minimum of 21 credit hours selected from each major field. In general, the Economics Department requires that the 21 hours of economics include ECON 151, 152, 302, 300 or 301, and 303. Before considering an interdepartmental major program, the student should strongly consider the option of a major in one field and a minor in the other.

International Relations is an established interdepartmental major in the College of Arts and Science. Interdepartmental majors have also been established for Economics and either French or Spanish, Economics and Political Science, and Economics and Mathematics.

Students wishing to explore the possibility of developing an interdepartmental major with other departments should arrange conferences with their faculty advisers and the appropriate department chairs to plan their programs. Approval of the program is also required by the dean of the college or colleges in which the student is registered.

See also the section on Interdepartmental Major (page 75) in the College of Arts and Science section of this catalog for the requirements for an interdepartmental major combining economics with any field in the College of Arts and Science. The application process for an interdepartmental major in economics is the same as the application for a major in economics.

REQUIREMENTS FOR THE MINOR IN MANAGEMENT INFORMATION/DECISION SUPPORT SYSTEMS

This minor was created to provide students within the College of Business and Economics with the opportunity to acquaint themselves with the rapidly expanding field of computer-based management information systems. Applications to be admitted to the Management Information/Decision Support Systems minor are reviewed each March 15. Admission is limited to College of Business and Economics students. The minor requires the following five 3-credit courses, with a grade of C or better in 12 of the 15 credits and an overall C average for all five courses in the minor.

Credits
Modern Business Computing, BUEC 325 ..... 3
Systems Analysis and Implementation, BUEC 330 ..... 3
Information Planning and Data Management, BUEC 430 ..... 3
Decision Support Systems, BUEC 431 ..... 3
Systems Development, BUEC 432 ..... 3

Note that selected course substitutions are made for the MI/DSS minor. Students completing the minor need not take ACCT 261 (if BSBA candidates) or ACCT 302 (if BSAC candidates).

**Minimum grade of C required
†A course may be applied toward both the major requirements and a breadth requirement (unless otherwise indicated), but credits are counted only once toward the total credits for graduation.
