The College of Human Resources' programs combine professional preparation with a strong liberal arts curriculum. The diversified baccalaureate programs provide opportunities for careers in business; industry; public, private, and government agencies; and education.

In addition to the specialized college courses necessary for competence in one's selected professional major, the curricula includes courses in the humanities, the sciences, and the social sciences. Most academic programs also provide practicum/internship experiences that enhance employability; or for those planning to pursue a graduate program, research apprenticeship experience is available.

Each student's academic adviser, a faculty member with expertise in the student's field of interest, will assist in selecting courses and experiences that focus on the student's interest and professional goals. For example, careful selection of liberal arts requirements and elective courses allow students to pursue a minor or an area of interest outside of the college, a double degree, double major, or interdepartmental major.

Human Resources' students are encouraged to enrich their academic program by participating in the college's visiting student programs, study abroad experiences, seminars, and the college's numerous student organizations.

There are several special academic opportunities for exceptionally talented and highly motivated students. Students in each academic program are eligible to participate in the University's Honors Program, undergraduate research, and Degree with Distinction. Also, the college's Dean's Scholar Program provides qualified students with the opportunity to share the responsibility of developing an individualized program focusing on the student's academic interests.

Outstanding facilities offer students many unique opportunities. The College of Human Resources houses a computer-aided design laboratory, laboratory preschool, historic costume and textile collection space, textile testing laboratory, nutrition clinic and merchandising display areas. Other campus sites provide quantity foods laboratories, an adult day care center, computing laboratories and multi-media classrooms to support the college's programs.

The following courses from outside of the College of Human Resources have been approved to fulfill humanities, science and social science electives.

**HUMANITIES**

**SCIENCES**
- Physical and Biological. Anthropology (ANTH 102, 104, 202), Biological Sciences, Animal Science, Chemistry, Entomology, Food Science, Geology, Marine Studies, Plant Science, Physics and Astronomy, Psychology (PSYC 314), Science.

SOCIAL SCIENCE
Early American Culture, Anthropology (cultural/social, all except ANTH 102, 104, 202), Black American Studies, Business Administration (BUAD 309), Criminal Justice, Economics (including FREC 120), Geography (economic and social, including: GEOG 102, 120, 203, 210, 225, 226, 227, 236, 240, 310, 325, 328, 330, 340), History, Political Science, Psychology (except PSYC 314), Sociology, Women’s Studies (WOMS 201, 202, 204, 206, 207, 211, 212, 233, 240, 290, 291, 293, 297, 298, 299, 300, 305, 307, 323, 333, 335, 350, 363, 409, 413, 415, 430, 460, 473, 484, 498), Center for Science and Culture (CSCC 233, 242, 243, 271, 310, 311, 355, 382)

INDIVIDUAL AND FAMILY STUDIES
The Department of Individual and Family Studies offers three majors for students interested in understanding life-span development within the family. Students in the department have the opportunity to complete an Honors degree in each of the academic programs.

The Family and Community Services major is designed for students wishing to work within public and private agencies serving clients, infants through the aged, and their families. Combining course work and clinical experiences, the program of study prepares graduates for positions in direct client services and/or management and administration in a variety of institutional and community settings.

The major in Early Childhood Development and Education is designed for students who plan on working with young children in school, family, and institutional settings. Certification options allow students to pursue careers as teachers and early interventionists. Certification requirements for state approved early childhood programs can be met by completing the identified course work for each certification option. Students are strongly encouraged to work closely with academic advisers in designing their program. The program emphasizes developmentally appropriate, family-centered practices to meet the needs of all children, including those with disabilities.

The major in Human Development and Family Processes is designed for students whose career goals require subsequent graduate education in Human Development and Family Processes or related areas. Students are afforded the opportunity to engage in a significant research apprenticeship including an honors component for qualified students.

Selection and retention policies for the Early Childhood Development and Education and Family and Community Services majors have been established and must be followed. In addition, there are limitations on the number of students that can be enrolled in each major. Students are responsible for travel arrangements and costs for clinical/internship experiences.

DEGREE: BACHELOR OF SCIENCE IN HUMAN RESOURCES
MAJOR: FAMILY AND COMMUNITY SERVICES

CURRICULUM

UNIVERSITY REQUIREMENTS

ENGL 110 Critical Reading and Writing**

Three credits in an approved course or courses stressing multicultural, ethnic, and/or gender-related content #

DEGREE: BACHELOR OF SCIENCE IN HUMAN RESOURCES

MAJOR: FAMILY AND COMMUNITY SERVICES

CURRICULUM

UNIVERSITY REQUIREMENTS

ENGL 110 Critical Reading and Writing**

Three credits in an approved course or courses stressing multicultural, ethnic, and/or gender-related content #

* Superior figures indicate year or years in which the course is normally taken, i.e., 1 freshman year, 2 sophomore year, etc.

** Minimum grade of C required.

# This requirement may be fulfilled through a course or courses taken to complete other degree requirements; it cannot be fulfilled by a course taken pass/fail. See page 21

† One developmental elective may be used as a restricted elective if appropriate for “area of emphasis.” Resulting extra credits (1) may be used for free electives.

MAJOR REQUIREMENTS

External to the College

Humanities

English course

Communication course

Humanities electives

See page 167

Science electives

One science elective must be a laboratory science and at least six credits must be in Physical or Biological Sciences. See pages 167-168

Social Sciences

PSYC 201 General Psychology

Social Science electives

See page 168

Professional

EDDV 372 Counseling Theories Workshop

EDDV 374 Experimental Education

Within the College

NTDT Course (Nutrition or Health is recommended)

TDCE Course (Financial or Consumer Issues is recommended)

Within the Department

IFST 101 Introduction to Community and Family Services

IFST 201 Life Span Development

IFST 202 Foundations of Family Studies

IFST 230 Emerging Life Styles

IFST 235 Survey in Child and Family Services

IFST 346 Delivery of Human Services

IFST 347 Human Services Delivery Systems

IFST 422 Family Relationships

Developmental electives chosen from:

IFST 221 Child Development

IFST 236 Infants and Toddlers: Development and Programs

IFST 329 Adolescent Development

IFST 339 Adult Development and Aging

IFST 403 Concepts in Gerontology

IFST 465 Seminar

IFST 449 Internship in Community Services

Electives

Restricted electives determined in consultation with adviser

Stages in Life Domains

upon completion of IFST 235. Twelve credits restricted electives must be completed prior to senior internship

Electives

May include Military Science, Music, or Physical Education. Only two credits of activity-type Physical Education and four credits of Music organization and four credits of 100- and 200-level courses in Military Science/Air Force may be counted toward the degree.

CREDITS TO TOTAL A MINIMUM OF 129

HONORS BACHELOR OF SCIENCE: FAMILY AND COMMUNITY SERVICES

The recipient must complete:

1. All requirements for the Bachelor of Science degree in Family and Community Services.

2. All of the University’s generic requirements for the Honors Bachelor of Science degree. (see page 24)

3. These additional requirements:

a. Senior Seminar (IFST 465) must be taken as an Honors section.

b. Achieve a 3.4 GPA in major.

168
DEGREE: BACHELOR OF SCIENCE IN HUMAN RESOURCES
MAJOR: EARLY CHILDHOOD DEVELOPMENT AND EDUCATION

HONORS BACHELOR OF SCIENCE:

HUMAN DEVELOPMENT AND FAMILY PROCESSES

The recipient must complete:
1. All requirements for the Bachelor of Science degree in Early Childhood Development and Education.
2. All of the University’s generic requirements for the Honors Bachelor’s Degree. (See page 24 of this catalog.)
3. These additional requirements:
   a. Senior Seminar (IFST 465) must be taken as an Honors section.
   b. Achieve a 3.4 GPA in major.

* Superior figures indicate year or years in which the course is normally taken, i.e., freshman year, sophomore year, etc.
** Minimum grade of C required.
# This requirement may be fulfilled through a course or courses taken to complete other degree requirements; it cannot be fulfilled by a course taken pass/fail. See page 21.
This major requires the completion of a second writing course selected from the College of Arts and Science "Courses Approved for Second Writing Requirement List." (see page 168)
NUTRITION AND DIETETICS

Dietetics is a health care profession. Integrating basic courses such as chemistry, biology, social science, and business with food science and nutrition, dietetics prepares individuals to be responsible for the nutritional well-being of others. Positions in administrative dietetics, nutrition education, wellness, clinical nutrition, and community nutrition are available in hospitals, schools, and other institutions and in community and government programs. Opportunities exist for positions with target groups of all age ranges and with a variety of cultural, ethnic, and economic backgrounds.

The Dietetics major leads to the attainment of certification as Registered Dietitian by the American Dietetic Association (ADA) and has approval status by the ADA Division of Education Accreditation/Approval. Students in this major complete the professional practice requirement after the Bachelor of Science degree by completing an ADA dietetic internship or alternative. See the Graduate Catalog for information on the Dietetic Internship Program.

A second major in the Department is Applied Nutrition. The first two years of coursework is nearly identical for the Applied Nutrition and the Dietetics major. The students are admitted to the Dietetics major after successful completion of three semesters of coursework in the Applied Nutrition major. A 2.5 cumulative grade point average is included in the criteria for admission.

The Applied Nutrition major is designed for the student who can creatively combine the study of nutrition with other academic areas. The curriculum is flexible so that a focus such as Gerontology, Communication, Food service Management, or Fitness may be incorporated. The Applied Nutrition major also serves as the entry major for students who later apply to Dietetics in their sophomore year. Students who plan on becoming a Registered Dietitian and on conducting counseling and the related activities of a dietitian/nutrition counselor should complete the Dietetics major.

The Nutritional Sciences major meets the needs of students who want to focus strongly on the science aspects of human nutrition. As a premedical program, it prepares students for careers in dentistry, veterinary and human medicine, laboratory research in nutrition, or positions with companies or agencies requiring the extensive use of a strong science and human nutrition background. It provides students with a strong foundation for graduate work in human nutrition and related fields (e.g., physical therapy) and as such may be considered primarily as a preprofessional degree. Students planning on career-related employment upon graduation are encouraged to plan their electives in a concentrated area of interest such as journalism, dietetics, food science, child development, chemistry, biological sciences, or other related fields.

Opportunities exist for students to participate in the American Dietetic Association and the Society of Nutrition Education.

Selection and retention policies for all majors in this department have been established.

HONORS DEGREES IN THE DEPARTMENT OF NUTRITION AND DIETETICS

Students can earn an Honors Bachelor of Science Degree in Applied Nutrition, Dietetics, or Nutritional Sciences by completing the following requirements:

1. All requirements for the Bachelor of Science Degree in the respective major.
2. All the University's generic requirements for the Honors Baccalaureate Degree (See page 24 of this catalog).

MINOR IN NUTRITION

Requirements for a minor in nutrition require NTDT 200, NTDT 401 plus 6 credits in Nutrition and Dietetics at the 300-level or higher. A 2.0 grade point average is required for admission; a minimum grade of C- is required in all courses in the minor. Note that CHEM 214 and CHEM 216 are necessary prerequisites for NTDT 400 and NTDT 401.

**Textiles, Design and Consumer Economics**

The Department of Textiles, Design and Consumer Economics addresses the design, development, analysis, delivery and use of products and services. It offers three majors that collectively enhance the aesthetic, physical, psychosocial and economic well-being of individuals and families. The Apparel Design major studies the conceptualization and production of products for apparel-related industries that meet various needs of consumers. Students in Consumer Economics study the interaction between individuals/families and the marketplace, emphasizing the effects of resources and public policy on consumer welfare. The Textiles and Clothing: Merchandising major addresses the planning, production, promotion and distribution of products in fashion industries to meet consumer demand.

Internal transfer applications are evaluated on a rolling basis. Students are advised to contact the Department office regarding selection policies.

**Degree: Bachelor of Science in Human Resources**

**Major: Apparel Design (APD) or Textiles and Clothing: Merchandising (TC)**

Both the APD and TC curricula consist of a core supplemented by courses specific to each major, facilitating a double major or transfer from either major to the other.

**Notes:**

- \*Superior figures indicate year or years in which the course is normally taken, i. e., 1 freshman year, 2 sophomore year, etc.
- †Minimum grade of C required.
- †This requirement may be fulfilled through a course or courses taken to complete other degree requirements; it cannot be fulfilled by a course taken pass/fail. See page 21
- ‡ECON 151 Introduction to Microeconomics has MATH 114 or MATH 115 as a corequisite.
- Each foreign language will be placed in a 105 language course and then take 105-106. Students with two or three years of a particular language will be placed in a 106 language course and will then take 106-107. Students with more than three years will be placed in a 107 language course and, upon completing 107, will be advised, but not required, to take a 200-level language course. Students with four or more high school years of a foreign language may attempt to fulfill the requirement by taking an exemption examination and will then be advised, but not required, to take a 200-level language course.
- §HPO students testing out of TDCE 211 will have additional free elective credits. In the TC major, students will be required to complete TDCE 211 or higher level TDCE 216.

HOTEL, RESTAURANT AND
INSTITUTIONAL MANAGEMENT

The Hotel, Restaurant and Institutional Management Program cur-
riculum is based in liberal arts, business and specialized courses in
technical applications for the hotel and restaurant industries. Students
are provided a foundation in the technical academic areas to com-
plement the state-of-the-art business and hospitality courses. The cur-
riculum is structured to provide both a practical and a theoretical
education. An integral part of the curriculum is the hospitality related
work experience. A documented and paid student work requirement
of 800 hours is required prior to the Level I and II internships
(practicums) during the senior year. These combined work expe-
riences assist in the preparation of students for the increasingly com-
plex and challenging hospitality industry.

DEGREE: BACHELOR OF SCIENCE IN HUMAN RESOURCES
MAJOR: HOTEL, RESTAURANT AND

ELECTIVES

Electives ....................................................... 19\(^3, 4\)

May include Military Science, Music, or Physical Education. (Only two
credits of activity-type Physical Education and four credits of Music or-
organization credits and four credits 100- and 200-level courses in Military
Science/Air Force may be counted toward the degree) Students
are encouraged to develop fluency in a second language.

CREDITS TO TOTAL A MINIMUM OF .................. 129

A minimum grade of C. must be achieved in HRIM, NTDT and POSC

* Superior figures indicate year or years in which the course is normally taken, i.e., 1 freshman year, 2 sophomore year, etc
** Minimum grade of C. required.
# This requirement may be fulfilled through a course or courses taken to complete other degree requirements; it cannot be fulfilled by a course taken pass/fail. See page 21.
INTERDISCIPLINARY STUDIES IN HUMAN RESOURCES

This major combines science, humanities, and social science requirements with a breadth of courses in the College. In addition to the core requirements in the College of Human Resources, the student also selects twenty-one additional credit hours from the three departments. The courses that the student does select should reflect his or her personal and career objectives.

The student also has an opportunity to individualize the academic program through eighteen credit hours required in an area of interest outside the College. These courses should support a specialized program within the college and enhance the student's personal and career goals. If approved by the appropriate department, these courses may also fulfill the requirements for a minor.

Because of the opportunity to individualize the academic program, the Interdisciplinary Studies major is appropriate for students:

- whose career or personal goals can best be achieved by combining University-wide liberal arts courses, our College's area of specialization, and an area of interest/minor outside the College; or
- seeking Home Economics teacher certification.

Students desiring certification for teaching home economics grades 5-12 in Delaware schools can major in Interdisciplinary Studies in Human Resources or another home economics related program in the College of Human Resources. As part of their academic program they will complete necessary content and professional course requirements. (Note: Professional courses are not offered each semester. Students must work with their academic adviser to determine availability.) These requirements which are necessary for the Standard Certificate include:

- A minimum of 24 semester hours including human development/learning, methods of teaching home economics (including clinical experience), identifying exceptionalities, effective teaching strategies, multicultural education and student teaching evenly divided between middle and high school levels; and
- A minimum of 36 semester hours with at least one course from each of the following areas:
  - Housing/home furnishings/home equipment
  - Consumer/family economics
  - Home management
  - Child development
  - Family relations/parenthood education
  - Foods/nutrition
  - Textiles/clothing
  - Computer literacy

In addition, if a student has already received a bachelor's degree from an accredited college (which includes a general studies component) they can fulfill the requirements above and apply for certification.

For additional details, see Teacher Education Programs in the College of Education section of this catalog.
