

ALFRED LERNER COLLEGE OF BUSINESS AND ECONOMICS

UNDERGRADUATE PROGRAMS

- Dean's Scholar Program
- Business Fundamentals Certificate Program
- Accounting and Management Information Systems

The mission of the Alfred Lerner College of Business and Economics is to foster scholarship and to offer distinctive, innovative educational opportunities related to the successful management and leadership of organizations operating in an environment of scarce resources, rapid change, global competition, and advances in technology.

The Lerner College offers baccalaureate degrees in Accounting, Economics, Finance, International Business Studies, Management, Management Information Systems, Marketing, and Operations Management. Honors degrees are available in many degree programs.

Minors are offered in Business Administration, Economics, International Business, and Management Information Systems. Enrollment in minors is limited and certain qualifications must be met. The Certificate in Business Fundamentals is also offered to non-business majors.

Undergraduate students are admitted as new students into the Accounting, Economics, Finance, International Business Studies, Management, Management Information Systems, Marketing, or Operations Management degree programs, or into Undeclared Business. The undeclared students must select a major in the Lerner College by October 1 of their sophomore year. Students already admitted to the University of Delaware who are matriculated in other programs may apply to change their degree program to Accounting, Economics, Finance, International Business Studies, Management, Management Information Systems, Marketing, or Operations Management after successfully completing the required microeconomics course, macroeconomics course, and calculus course, and earning a minimum of 28 credits at the University of Delaware. Students should consult with the appropriate department as to application deadlines within the Lerner College. Review for admission consideration will first be performed for students who have completed all their coursework (including the microeconomics, macroeconomics, and calculus courses) at the University of Delaware. The major criterion used for admission selection is academic performance. The average grade point of those accepted over the past five years is 2.8. Applications for admission to the minors are also reviewed and have similar criteria. Additional information and application forms are available in the four departments; application forms are also available on-line.

Note that Lerner College students who were previously dismissed for academic deficiency and are now applying for readmission to the University may be eligible for readmission into their degree program in the Alfred Lerner College of Business and

- Business Administration
- Economics
- Finance

Economics if they: (1) had met with the Lerner College's assistant dean during advance registration of each semester and term in which they were dismissed, and obtained the dean's prior approval to take courses in the University of Delaware Division of Professional and Continuing Studies to qualify for readmission into the Lerner College, (2) had a minimum of 60 earned credit hours at the time they were dismissed, (3) were enrolled as a Lerner College student at the time of their dismissal, and (4) have reduced their quality-point deficit to less than 7 after taking courses in the University of Delaware Division of Professional and Continuing Studies. Only courses that were approved by the Lerner College's assistant dean prior to enrolling in the courses will count towards the reduction of deficits.

Also note that Lerner College students who have earned 59 credit hours or less at the time they were dismissed will not automatically be considered, nor are they guaranteed readmission into the Alfred Lerner College of Business and Economics. The major criterion for readmission selection is academic performance. Upon dismissal from the Lerner College, the student must meet with the Lerner College's assistant dean to discuss and determine a University major that he or she is best academically qualified to pursue prior to enrolling in courses during the dismissal period. If a major in business continues to be the most appropriate major for the student to pursue, in order to qualify for readmission, the student must: (1) have obtained the assistant dean's approval, prior to the beginning of each semester or term, to take courses in the University of Delaware Division of Professional and Continuing Studies, and (2) have reduced his or her quality-point deficit to at least 0.

All dismissed Lerner College students who seek readmission into the Alfred Lerner College of Business and Economics, regardless of their total number of credit hours must, with prior approval of the assistant dean, take courses in the University of Delaware Division of Professional and Continuing Studies to reduce their quality-point deficit. Students will only be permitted to take a maximum total of 7 credit hours each semester or term in the Division of Professional and Continuing Studies during their dismissal period. If a major outside of the Alfred Lerner College of Business and Economics is determined to be more appropriate for the student to pursue, the student must meet with the dean of the college in which the major is offered and comply with that college's readmission policy.

DEAN'S SCHOLAR PROGRAM

The Dean's Scholar Program exists to serve the needs of students whose clearly defined educational goals cannot be effectively achieved by pursuing the standard curricula for all existing majors, minors, and interdepartmental majors sponsored by the University. Driven by an overarching passion or curiosity that transcends typical disciplinary bounds and curricula, a Dean's Scholar's intellectual interests may lead to broad interdisciplinary explorations of an issue or to more intense, in-depth studies in a single field at a level akin to graduate work. In consultation with faculty advisors and the assistant dean of their college, Dean's Scholars design an imaginative and rigorous individual plan of study to meet the total credit hours required for graduation. Contact the associate dean in the Alfred Lerner College of Business and Economics or go to www.udel.edu/deansscholar/ for more information and the application.

BUSINESS FUNDAMENTALS CERTIFICATE PROGRAM

The Certificate in Business Fundamentals is designed to provide non-business majors with an understanding of core business principles and to expose these students to key business tools. The Certificate may be attractive to students in a variety of majors outside of the Alfred Lerner College of Business and Economics to augment their major field of study and provide alternative career options.

The following required courses work together to provide these students with a fundamental understanding of the language and fundamental principles of business. All courses require a minimum grade of C-.

		edits
ECON 100	Economic Issues and Policies	 3
	Introduction to Business	
ACCT 200	Survey of Accounting	 4
FINC 200	Fundamentals of Finance	 3

Both FINC 200 and BUAD 100 are restricted to students who have been admitted into the Certificate program, and to those students who need to take these classes to fulfill a requirement for their major. It is recommended that students follow the course sequence listed above. All courses are designed exclusively for non-business majors; these courses will NOT count towards required coursework for any student who eventually transfers into a business major in the Alfred Lerner College of Business and Economics. Economics majors should check with their advisor to determine how these courses fit into their curriculum.

Full-time matriculated students may apply to the Certificate program during the semester in which they will complete at least 60 credits and achieve junior status, and when the Certificate coursework can be completed prior to graduation. Admission will be limited to top students as measured by GPA. Students must meet with their advisor prior to applying for the Certificate in Business Fundamentals to determine how these credits will be allocated toward their degree program.

After completing the four required courses, the student must submit an on-line "Request for Certification" at least 30 days prior to graduation. The "Request for Certification" may be submitted during the semester in which the student completes the final course(s). All applications, requests, and allowable course substitutions are only available on-line at:

www.lerner.udel.edu/Advisement/BusinessCert/certintro.html.

ACCOUNTING AND MANAGEMENT INFORMATION SYSTEMS

Telephone: (302) 831-2961

http://www.lerner.udel.edu/accounting

Faculty Listing: http://www.lerner.udel.edu/accounting/faculty.html

The mission of the Department of Accounting and Management Information Systems (MIS) is to offer distinctive and innovative educational opportunities related to the professions of Accounting and MIS, promote scholarship in Accounting and MIS, and to advance successful leadership in a rapidly changing technological environment. The Department offers majors in Accounting and MIS, as well as a minor in MIS, to undergraduate students.

The Bachelor of Science for Accounting majors is designed to prepare students for an accounting career in industry, in government, or in public accounting. An Honors Degree option is available. During the first two years, the accounting major follows a format of courses that enables the student to acquire a broad liberal arts background. The accounting program is designed to provide flexibility in the selection of humanities and social and natural science courses from broad groupings to augment the professional development of the student. The undergraduate accounting major includes work in accounting information systems, intermediate, cost, income tax, advanced accounting, and auditing.

The program provides preparation for the Uniform Certified Public Accountant Examination, the Certificate in Management Accounting, and other professional certifications.

Candidates for a Bachelor of Science degree must: (1) earn a minimum of 120 credits, (2) achieve a minimum cumulative GPA of C (2.0) on all work undertaken at the University of Delaware, (3) fulfill the course requirements of the degree program, and (4) achieve at least a C- in specified business, finance, economics, and accounting courses. Of the required upper division ACCT courses (ACCT 302, 315, 316, 327, 413, 415, 417, and 425), no more than two may be transferred from another institution.

The Management Information Systems major is designed to prepare students for careers that leverage information technology in a business environment, enabling graduates to use information systems to manage the organization. An Honors Degree option is available. During the first two years, the MIS major follows a format of courses that enables the student to acquire a broad liberal arts background. The MIS program is designed to provide flexibility in the selection of humanities and social and natural science courses from broad groupings to augment the professional development of the student. The undergraduate MIS major includes work in programming languages, databases, system analysis and design, business problem solving, and project management. MIS majors are also required to select a professional concentration in one discipline of business (Accounting, Economics, Finance, Management, Marketing or Operation Management) to promote a thorough understanding of the issues, needs, and practices of that area of business.

Students in the Lerner College of Business and Economics may also take courses leading to the minor in Management Information Systems.

In addition to the required courses, sufficient credits must be taken to meet the minimum credits required for the degree. Elective courses should be taken outside of the Lerner College of Business & Economics. For Economics or International Business Minors only six (6) credits can be applied to the elective category. No more than two credits can come from HESC 120.

CREDITS TO TOTAL A MINIMUM OF............ 120

MINOR IN MANAGEMENT INFORMATION SYSTEMS (MIS)

The MIS Minor is designed to provide students with an opportunity to acquaint themselves with the three interrelated areas of Management Information Systems: Business Foundations, Information Technology, and Project Management/Hands on Experience, and to explore the rapidly expanding field of computer-based management information systems. Applications to be admitted into the MIS Minor are submitted on-line through SIS. The minor requires the following eight courses, with a grade of C or better in 21 of the 24 credits and an overall average of C or better for all eight courses in the minor. More information and applications are available at www.lerner.udel.edu/accounting/mis/misminor.html.

BUSINESS ADMINISTRATION

Telephone: (302) 831-2554 http://www.lerner.udel.edu/business/

Faculty Listing: http://www.lerner.udel.edu/business/BUADf&s.html

Professional education in business administration serves to develop the capabilities of students so that they may assume positions of leadership and responsibility at all levels of management in our society.

Students pursuing a program of study leading to the degree of Bachelor of Science within the Department of Business Administration must select one of four majors: international business studies, management, marketing, or operations management. Honors Degree options are available in all the majors. Students may apply to the minors in management information systems, economics, or a variety of other fields. A minor in international business is available for students majoring in marketing, management, operations management, MIS, accounting, or finance. A minor in business administration is also available to students majoring in other fields.

Each candidate for a degree must: (1) earn a minimum of 121 credits, 126 credits for international business majors, (2) achieve a minimum cumulative GPA of C (2.0) on all work undertaken at the University of Delaware, (3) fulfill the course requirements of the degree program, and (4) achieve at least a C- in specified business, finance, accounting, math and economics courses. Students seeking a

Bachelor of Science Degree in any major within the Department of Business Administration may take only one of the four required upper-level Courses in their major at another institution unless advance permission is granted for credit earned in residential studyabroad courses.

All 300- and 400-level courses are restricted to Business Administration Department students and to those students whose programs require the course.

DEGREE: BACHELOR OF SCIENCE MAJOR: INTERNATIONAL BUSINESS STUDIES

International Business Studies focuses on in-depth study of a region of the world with heavy emphasis on advanced language skills and international studies to accompany a strong curriculum of business and international business courses.

HONORS BACHELOR OF SCIENCE: MANAGEMENT, MARKETING, OR OPERATIONS MANAGEMENT

The recipient must complete:

1. All requirements for the Bachelor of Science (any major).

 All of the University's generic requirements for the Honors Baccalaureate degree (see p. 48 of this catalog).

The Honors credits in the major must include at least six credits of BUAD and/or FINC courses. They may include required courses from other departments in the Alfred Lerner College of Business and Economics.

MINOR IN BUSINESS ADMINISTRATION

The minor in business administration provides students in degree programs other than in business with an opportunity to acquaint themselves with the basic concepts of business administration. Completion of the requirements for the minor provides a basic understanding of the language and major functional areas of business. The minor is awarded only to students who have applied and been admitted to the program. Applications are reviewed each October 15 and March 15. This program is not available to students whose major program requires all of the following courses. Students seeking a minor in Business Administration may only take one of the required Business or Finance courses at another institution.

Required courses for the minor are:

MINOR IN INTERNATIONAL BUSINESS

The minor in international business is designed to give increased understanding of the important international dimension of business to students with a major in business administration, finance, or accounting. The 18 credits required for the minor may also be used to meet other distribution requirements. Students interested in the Minor in International Business must apply to the Department of Business Administration prior to the second semester of their junior year. Also, students with a minor in business administration qualify to apply for the minor.

Nine credits must be passed with a minimum grade of C- from the following courses:

ACCT 383	Introduction to International Accounting
ACCT 395	Seminar International Accounting
BUAD 341	Environment of Multinational Corporations
BUAD 382	International Business Management
BUAD 383	Seminar on International Business
BUAD 391	Seminar on International Management
BUAD 393	Seminar on International Marketing Management
BUAD 394	Seminar on International Operations Management
BUAD 425	Current Issues in Global Management
BUAD 475	International Marketing
ECON 340	International Economic Relations
FINC 392	Seminar on International Financial Management
FINC 415	Finance Seminar: International Finance

BUAD 341, BUAD 383, BUAD 391, FINC 392, BUAD 393 and BUAD 394 are taught abroad during the Winter Session.

Students seeking a minor in International Business may take only one of the required Alfred Lerner College of Business and Economics courses at another institution unless advance permission is granted for credit earned in residential study-abroad courses.

Students must also take nine credits from an approved list of supporting courses in many departments. Included are all foreign language courses at the intermediate or higher level and courses that emphasize current international issues or provide background for understanding other countries or cultures. No more than one course can be taken in a single department. This list is compiled and updated by the undergraduate advisor in Business Administration. Pass/fail courses will not be counted toward the minor.

ECONOMICS

Telephone: (302) 831-2563

http://www.lerner.udel.edu/economics

Faculty Listing:

http://www.lerner.udel.edu/economics/facultyandstaff.html

Both a Bachelor of Arts and Bachelor of Science degree are available to undergraduate students enrolled in the Alfred Lerner College of Business and Economics. The group and language (Bachelor of Arts) or quantitative proficiency (Bachelor of Science) requirements for students enrolled in the Alfred Lerner College of Business and Economics are described below. Honors degree options are available for both the B.S. and the B.A. Optional concentrations in Applied Economics and in Economic Theory and Econometrics are offered for interested students. In addition, students may pursue a double degree in Business Administration and Economics, or may declare an interdepartmental major in Economics. These options are described below.

A minor program in economics is also available.

A Bachelor of Arts in Economics or in Economics Education and a Bachelor of Science in Mathematics and Economics are available to students enrolled in the College of Arts and Sciences. These majors have the same group and language requirements as other Bachelor of Arts programs offered in the College of Arts and Sciences.

Economics, a social science, analyzes the market and nonmarket production and allocation of goods and services. The problems associated with society's effort to prosper in a world possessing finite resources are emphasized.

Students majoring in Economics are advised by the faculty of the Department of Economics.

APPLICATION FOR MAJOR

Any University student who is not an economics major but wishes to become one must apply for admission into the major. Applications can be submitted online through the student's UDSIS account. The principal criteria for acceptance are academic achievement, particularly in economics courses, and potential for academic success in economics. Students seeking admission to an economics degree program must complete at least 28 credit hours, including ECON 151 and 152, prior to submitting an application. In addition, students applying for the B.S. degree must complete either MATH 221 or 241 with a grade of C- or better.

DEGREE: BACHELOR OF SCIENCE
MAJOR: ECONOMICS

CURRICULUM

Three credits in an approved course or courses stressing multi-cultural, ethnic, and/or gender-related course content (see p. 64-66)
MAJOR REQUIREMENTS Second Writing Requirement: (minimum grade C-)
One of the following: (minimum grade C-)
MATH 241 Analytic Geometry and Calculus A
Quantitative Proficiency Requirement: (minimum grade C-)

CREDITS TO TOTAL A MINIMUM OF................................ 120

DEGREE: BACHELOR OF ARTS OR BACHELOR OF SCIENCE

MAJOR: ECONOMICS

CONCENTRATION: APPLIED ECONOMICS

The requirements for the major in Economics must be met. The following requirements must be met **in place of** the requirement for five economics courses, with at least two at the 400-level, and the quantitative proficiency requirements for the regular B.A. or B.S. degree:

ECON 422/423 Econometric Methods and Models I and II 6

or ECON 822/823	Econometric Theory/Seminar in Econometrics	
Two Economics courses at the 300- or 400-level		5
One Economics course at the 400-level (but not ECON 403, ECON 405, ECON 408, or ECON 411)		3

- 160)
 Six credits in MATH at or above the 200-level (except MATH except 201,
- Six credits in MAIH at or above the 200-level (except MAIH except 201, 202, 205, 250, 251, 252, and 253).
- Any one of the following: ACCT 208, BUAD 306, BUAD 346, BUAD 446, BUEC 430, BUEC 431, ECON 415, ECON 422, ECON 423, ECON 426, MATH 300, CISC courses at or above the 300-level.

DEGREE: BACHELOR OF ARTS OR
BACHELOR OF SCIENCE
MAJOR: ECONOMICS
CONCENTRATION: ECONOMIC THEORY AND
ECONOMETRICS

The requirements for the major in Economics must be met. The following requirements must be met **in place of** the requirement for five economics courses, with at least two at the 400-level, and the quantitative proficiency requirements for the regular B.A. or B.S. degree:

ECON 422/423 Econometric Methods and Models I and II 6

Two additional 400-level courses in economic theory, chosen from ECON 406, ECON 426, ECON 430, ECON 441, ECON 443, ECON 461, ECON 463, or graduate level courses in economic theory by approval. A mathematics course at the 300-level or above may be substituted for one of the 400-level courses in

graduate level courses in economic theory by approval. A mathematics course at the 300-level or above may be substituted for one of the 400-level courses in economic theory.

Twelve credits of course work in the quantitative area,

- Six credits in MATH at or above the 200-level (except MATH except 201, 202, 205, 250, 251, 252, and 253).
- Any one of the following: ACCT 208, BUAD 306, BUAD 346, BUAD 446, BUEC 430, BUEC 431, ECON 415, ECON 422, ECON 423, ECON 426, STAT courses at or above the 300-level, CISC courses at or above the 300-level.

HONORS BACHELOR OF ARTS OR HONORS BACHELOR OF SCIENCE: **ECONOMICS**

The recipient must complete:

- 1. All requirements for the Bachelor of Arts or Bachelor of Science in Economics in the Alfred Lerner College of Business and Economics.
- All of the University's generic requirements for the Honors Baccalaureate degree (see p. 48 of this catalog).

The courses in Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory must be taken in Honors sections.

Courses in Economics at the 600-level or higher may be considered as Honors courses

MINOR IN ECONOMICS

The minor in Economics provides students in other degree programs an opportunity to study the basic concepts and methodology in economics and to gain formal recognition for their efforts.

REQUIRED COURSES IN MINOR:

Six courses (18 credits) with a grade of C- or better, including ECON 151, 152; one of the following four courses: ECON 251, 300, 301, or 303; and three additional courses at or above the 300-level. NOTE: credit can only be received for one of ECON 251, 300 or 301.

APPLICATION FOR MINOR:

Same as application for major. (see page 172)

DOUBLE DEGREE IN A FIELD OF BUSINESS AND **ECONOMICS**

Students may work simultaneously toward a Bachelor of Science in a field of business and a Bachelor of Arts or a Bachelor of Science in Economics.

OVERALL REQUIREMENTS:

For graduation, a minimum of 150 credits is required rather than 121 (business majors) or 120 (economics majors).

APPLICATION AND ADVISEMENT:

Students must apply to both degree programs for this option. The student's double major program will be developed in consultation with an advisor.

INTERDEPARTMENTAL MAJOR IN ECONOMICS

The interdepartmental major consists of 51 credit hours selected from related fields with a minimum of 21 credit hours selected from each major field. In general, the Economics Department requires that the 21 hours of economics include ECON 151, 152, 302, 300, or 301, and 303. Before considering an interdepartmental major program, the student should strongly consider the option of a major in one field and a minor in the other.

International Relations is an established interdepartmental major with Economics. Interdepartmental majors have also been established for Economics and either French or Spanish, Economics and Political Science, and Economics and **Mathematics**

Students wishing to explore the possibility of developing an interdepartmental major with other departments should arrange conferences with their faculty advisors and the appropriate department chairs to plan their programs. Approval of the program is also required by the dean of the college or colleges in which the student is registered.

See also the section on Interdepartmental Major (page 86) in the College of Arts and Sciences section of this catalog for the requirements for an interdepartmental major combining economics with any field in the College of Arts and Sciences. The application process for an interdepartmental major in economics is the same as the application for a major in economics

FINANCE

Telephone: (302) 831-1015 http://www.lerner.udel.edu/finance

Faculty listing:

http://www.lerner.udel.edu/finance/financefaculty.html

Professional education in finance serves to develop the capabilities of students so that they may assume positions of leadership and responsibility at all levels of financial management in our society. The undergraduate degree program in Finance reflects the growing demand for greater financial management capability in banking and in the financial services related industries. An Honors Degree option is available. Students majoring in Finance may also pursue a minor in international business and/or apply to the minors in management information systems or economics as well as minors offered outside of the Lerner College.

To earn the major in Finance, one must: (1) earn a minimum of 121 credits, (2) achieve a minimum cumulative GPA of C (2.0) on all work undertaken at the University of Delaware, (3) fulfill the course requirements of the major, and (4) achieve at least a C- in specified business, finance, accounting, and economics courses. Only one of the six required upper-level courses in Finance may be taken at another institution, unless advance permission is granted.

Students also take a broad range of courses throughout the University that are outside the Alfred Lerner College of Business and Economics. These include a specified number of courses in the humanities, sciences, social and behavioral sciences, and in disciplines that develop specific skills in mathematics, statistics, and written and oral communication. Additional electives are also required to give each student the opportunity to choose courses most consistent with his or her interests.
