FOR IMMEDIATE RELEASE
PORTRAIT OF FORMER GOVERNOR CASTLE UNVEILED IN LEGISLATIVE HALL
The official portrait of former Delaware Governor Michael N. Castle was unveiled today in
Legislative Hall. The oil-based portrait will be on permanent display along side paintings of other former
Governors on the second floor of the statehouse.
"It is a very fitting tribute to Governor Castle that his portrait will be on display in a building
where he served the citizens of this state for 22 years as a state legislator, lieutenant governor and
governor", said House Speaker Terry R. Spence (R-Stratford).
The artist is Delaware native, Shawn Faust, owner of Faust Illustrations located in Bear, Delaware.
"This is definitely the most honorable, most important project I have ever worked on. I feel like I am a
part of history," Faust said. "I worked from slide-photographs of Governor Castle, which were taken last
December, and it took me about three and a half months to paint and perfect the portrait."
Faust, 26, graduated from the University of Delaware in 1990, with a Bachelor of Fine Arts. His
other works include: University of Delaware building portraits, capturing the University's architecture; he
was commissioned by MBNA America to paint eight separate portraits of classic cars for MBNA America
President and Chief Executive Office, Charles Cawley; and his painting of Delaware Horse Racing was
featured in the Fall 1990 issue of "American Artist Magazine".
Castle's portrait is a 26" x 32", oil-based painting. Castle, who served as Governor from 1985-
1992, is seated with his hands clasped, and the American and Delaware flags in the background. The
portrait is framed in gold-painted, ornamental wooden frame and mounted on a white linen mat by r.j.
Bloomingdale's located on Kirkwood Highway in New Castle County.
The portrait and frame cost $5,300, which were funds set aside in the transition budget for the
Office of the Governor.

The Majority Leader moved to recess for caucus at 2:39 p.m. 
The House reconvened at 4:40 p.m.

The Reading Clerk read the following communication into the record:

**June 10, 1993**

To The Members of the Delaware State House of Representatives
of the 137th General Assembly:

On June 9, 1993, I received House Bill 188, as amended by House Amendment No. 3, which permits sales of alcoholic beverages in liquor stores on Sunday.

After careful thought, I have concluded that I cannot sign this legislation into law. I am philosophically opposed to this legislation. I ran for Governor in large part so that I could implement policies that strengthen the basic building blocks of our nation and state -- our families. It is my belief that the goal of promoting strong families will not be advanced by eliminating the one day of the week during which alcoholic beverages cannot be purchased at liquor stores. Simply put, liquor is already easily available to our citizens and I see no reason to make it more available.
Moreover, the liquor industry is deeply divided about the merits of the bill. Many of the employees of the industry oppose it as extending their work week with very little compensating economic benefit. The revenue advantages of the legislation's adoption are also uncertain.

For all the foregoing reasons, I am returning H.B. 188 without my signature.

Sincerely,
Thomas R. Carper

Representative Plant was granted personal privilege of the floor for comments.
The Reading Clerk read the following communications into the record at the request of Representative Plant:

The Honorable Al O. Plant, Sr.
Dear Mr. Plant:

This refers to your April 29 letter to Secretary Pena regarding allegedly discriminatory hiring and promotion practices by the State of Delaware. Since the Federal Highway Administration (FHWA) provides Federal-aid highway funds to the State under the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA), the Departmental Office of Civil Rights has asked that we respond to your concerns.

Federal Highway Administration regulations, found in 23 Code of Federal Regulations, Part 230, Subpart C, require that each State highway agency (SHA) prepare and submit an updated equal employment opportunity (EEO) program annually. This program document must contain an affirmative action plan and internal employment data for the entire SHA work force. It is reviewed by the responsible FHWA regional office, and written comments or recommendations are provided to the SHA. Authority for FHWA monitoring of State employment practices is limited to internal employment by the State highway or transportation agency which receives Federal-aid funds under ISTEA, and does not extend to other State agencies.

In response to your inquiry, we have requested information from the Regional Civil Rights Director, Region 3, regarding the most recent review of Delaware's internal EEO program and accomplishments, findings or deficiencies noted in the review, and recommended remedial actions, if any. As soon as we have received the information, we will share it with you.

Please contact us if we can be of further assistance.

Sincerely yours,
Edward W. Morris, Jr.
Director, Office of Civil Rights
June 14, 1993

The Honorable William T. Quillen
Secretary of State
Carvel State Office Building
820 N. French Street
Wilmington, Delaware 19801

Dear Secretary Quillen:

Due to recent information that I have become aware of concerning the AIDS infection, and because of the possibility that there may have been several AIDS related deaths in the Delaware prison system, I am requesting that you instruct the State Human Relations Commission or its office director to conduct an investigation to try and determine the status of the AIDS problem in our Delaware prison system. I am also requesting that you report the findings to me, the General Assembly, and Governor Carper.

Thank you in advance for your consideration of this matter. If you have any questions, please contact me.

Sincerely,
Al O. Plant
State Representative
2nd District

AOP/rmh

The Reading Clerk read the following communication into the record at the request of Representative Plant:

SOCIAL CONCERNS MINISTRY

"What good is it, my brother, if a man claims to have faith but has no deeds? ... Suppose a brother or sister is without clothes and daily food. If one of you says to him, "Go, I wish you well; keep warm and well fed," but does nothing about his physical needs, what good is it? In the same way, faith by itself, if it is not accompanied by action, is dead...

Show me your faith without deeds, and I will show you my faith by what I do".

James 2: 14 - 18

As Christians we are required to reach out to humanity and offer our assistance. In this first general letter of the New Testament, we are taught that our faith is made complete by what we do.

The Social Concerns Ministry attempts to address some of the social needs of our community. After surveying the congregation, it was decided that our work for the balance of this year would be focused largely on our youth and education. Last month the Social Concerns Ministry and the Youth Ministry hosted a Youth Summit. This was the first in what is planned to be a series of rap sessions. These sessions are intended to give the youth of Cornerstone and the general community an opportunity to express their views and concerns.

The Social Concerns Ministry is open to all members of Cornerstone Fellowship Baptist and welcomes your suggestion.

HR 48 - Declaring July 15, 1993 Terry R. Spence Day Honoring the 35th Anniversary of His No Hitter.
WHEREAS, baseball is truly the national pastime played by our youth in parks, fields, and cow pastures; and
WHEREAS, 1958 was a special year; a much simpler time of pleasant optimism with President Eisenhower and Governor Boggs in command of our nation and our beloved Diamond State; and
WHEREAS, Elvis Presley was firmly enthroned as the "King of Rock and Roll"; and
WHEREAS, 1958 was a benchmark year for baseball as the feisty Brooklyn Dodgers and stately New York Giants left New York City for the riches of Los Angeles and San Francisco; and
WHEREAS, Ernie "Bingo" Banks won the Most Valuable Player Award for the last place Cubs, and there was another far away finish for our beloved Phillies and Orioles; and
WHEREAS, on July 15, 1958 a tall slender, dark haired, good looking 16-year-old right-handed pitcher named Terry Spence took the mound that day in historic New Castle for New Castle in the American Legion League; and
WHEREAS, this fire-balling side-arm pitcher so dominated his opponent, First State, that they got nary a hit in the ball game and were vanquished 2-0; and
WHEREAS, this resulted in exultation and jubilation in historic New Castle as coach Hoagland, the Spence family, and assorted friends and hangers-on celebrated this magic moment long into the night. WHEREAS, the Wilmington Morning News recounted the tale of this magnificently pitched no hitter the next day helping to establish the legend of Terry Spence and to begin his current reign as a beloved hero, a man's man, and a bonafide local legend in New Castle and the State of Delaware.
NOW, THEREFORE:
BE IT RESOLVED by the House of Representatives of the 137th General Assembly of the State of Delaware that July 15, 1993 be declared Terry Spence Day in honor of the 35th anniversary of this great athletic accomplishment and a copy of this Resolution be forwarded to Representative Spence.

July 8, 1993

To The Members of the Delaware State House of Representatives:

I received House Bill Number 185 on June 30, 1993 and am returning it to you today without my signature.

The reprehensible crime that inspired this legislation is one that disgusts me. However, H.B. 185 is broadly drafted and makes it a Class F felony to, among other things, recklessly injure any animal
belonging to another person without legal privilege or consent of the owner. This penalty exceeds that for a reckless or intentional assault causing physical injury to a human being, which is presently a Class A misdemeanor. Moreover, H.B. 185 may well sweep within its broad scope cases that are tremendously dissimilar in seriousness from the crime to which the Bill responds. Thus, I cannot sign H.B. 185.

However, because I share the concerns of those who supported the Bill regarding the need to deter and punish crimes against animals, my Administration will work with the General Assembly to develop legislation that will make it a felony to intentionally cause severe physical injury to an animal.

Sincerely,
Thomas R. Carper
Governor

July 9, 1993

To The Members of The Delaware State House of Representatives
of the 137th General Assembly:
On June 30, 1993, I received House Bill Number 220, which adds "a representative of employees eligible for (state health insurance) coverage appointed by the Governor" to the State's Health Benefits Committee. I am returning the Bill without my signature for the following reason.

I believe the laudable goal of increasing employee input in the decision making process regarding the health benefit plans for state workers can be better served by creating a broadly representative Fringe Benefits Advisory Council similar to the Pension Advisory Council than by adding a single employee representative to the Health Benefits Committee. Therefore, I intend to work with the sponsor of H.B. 220 to create such a Council this summer and to evaluate carefully how its role may be coordinated with that of the Pension Advisory Council. A Fringe Benefits Advisory Council will enable representatives of the many relevant constituencies whose voices should be heard on these issues to provide meaningful advice regarding the fringe benefits available to state employees. The single representative contemplated by H.B. 220 cannot adequately represent all these relevant constituencies.

Sincerely,
Thomas R. Carper
Governor

Ms. JoAnn M. Hedrick
Chief Clerk
Delaware House of Representatives
Legislative Hall
Dover, DE 19903
Dear Ms. Hedrick:
Thank you for your letter informing me of the Delaware House's action on House Resolution 30, which urges the Senate to pass S.J. Res. 79, commemorating June 19th as "National Baseball Day." I appreciate having a Delaware perspective on this matter.

Commemorative legislation needs 50 bipartisan cosponsors before it may be considered before the Senate Judiciary Committee, which I chair. In addition, commemoratives may also pass in the Senate without the required cosponsors by unanimous consent. Unfortunately, just before June 19th, S.J. Res. 79 only had 23 cosponsors, and it is unclear whether Senator Lautenberg tried to pass it by unanimous consent.

If this matter comes before the Senate again next year, I will be sure to keep the Delaware House's support for "National Baseball Day" in mind.

Thank you again for writing. I hope you will feel free to share this letter with the sponsors of this resolution.

Sincerely,
Joseph R. Biden, Jr.
United States Senator

July 14, 1993

To the Members of the Delaware House of Representatives of the 137th General Assembly:

On July 6, 1993, I received House Bill No. 254, as amended by House Amendment No. 2 and House Amendment No. 3, entitled:

"AN ACT TO AMEND CHAPTER 23, TITLE 7 OF THE DELAWARE CODE RELATING TO THE COMMERCIAL CRAB POT LICENSE."

House Bill No. 254, as introduced, was designed to clarify the terms of 7 Del. C. §2303 which pertains to commercial crab pot licenses. Among other things, the bill in its original form would clearly establish that the holder of a commercial crab pot license is permitted to designate no more than two people (who must be Delaware residents) "to place, use, set or tend" the licensee's crab pots from the vessel owned by the licensee whether or not the licensee was present. House Bill No. 254 was supported in its original form by the Shellfish Advisory Council.

House Amendment No. 3 to House Bill No. 254, however, in addition to reducing the number of designees from two to one, would permit the use of a designee only when the licensee is not employed elsewhere unless the nature of the employment is self-employment. To permit the use of a designee only if the licensee is not employed elsewhere unless such other employment elsewhere is self-employment greatly muddies the waters of commercial crabbing. There appears to be no state interest fostered by permitting a licensee to use a designee if the licensee is self-employed elsewhere but not permitting the use of a designee if the licensee is employed elsewhere but not self-employed.

For these reasons, I am returning House Bill No. 254, as amended by House Amendment No. 2 and House Amendment No. 3, without my signature.

Sincerely,
Thomas R. Carper
Governor

July 19, 1993

To the Members of The Delaware State House of Representatives of the 137th General Assembly:

On July 7, 1993, I received House Bill No. 256, which appropriates monies for and grants a special pension to Louise P. Smarrelli.

The Bill grants Ms. Smarrelli credit for prior service that did not, at the time she rendered and then left that service in 1969, entitle her to state pension benefits. Although the particular circumstance that apparently caused Ms. Smarrelli not to accrue the requisite number of years of service to become eligible for a state pension is one with which I sympathize, there are doubtless countless other former employees whose years of service fell short of entitling them to a pension and who could also present as compelling a case to exempt them from the usual requirements of the state's pension system. I believe it is imprudent -- as does the Board of Pension Trustees -- to make case-by-case exceptions by legislation to the eligibility requirements of our pension system except in the most extraordinary of circumstances.

For the foregoing reason, I am returning H.B. 256 without my signature.

Sincerely,
Thomas R. Carper
Governor

July 19, 1993

To The Members of The Delaware State House of Representatives of the 137th General Assembly:

On July 7, 1993, I received House Bill No. 153, as amended by House Amendment No. 1 and House Amendment No. 3, entitled:
The purpose of House Bill No. 153 is to significantly broaden the scope of the practice of optometry. The bill includes within its purview not only the authority to prescribe and use certain categories of therapeutic drugs, but also permits "the utilization of any method or means which the optometrist is educationally qualified to provide and approved by the Delaware State Board of Examiners in Optometry", but does not include surgery or drugs which are prescription-controlled. Authorization to practice in the expanded field of optometry is to be conditioned upon passing an examination designed to test appropriate knowledge of the field as determined by the State Board. Certification to use therapeutic drugs is conditioned upon passing a national examination in the treatment and management of ocular disease.

The scope of practice permitted under House Bill No. 153 is designed to reflect a metamorphosis in the field of optometry which has been occurring over the last fifteen or so years. No longer are optometrists trained to simply prescribe eyeglasses or contact lenses. They are viewed by many as primary and secondary eye health care providers. Ophthalmologists, on the other hand, have historically treated diseases of the eye and have been educated and trained to perform eye surgery. If optometrists can be viewed as providing primary and secondary care, ophthalmologists may be considered as providing secondary and tertiary care. The skills available from each discipline overlap to some degree.

Proponents of House Bill No. 153 argue that permitting optometrists to practice to the level of their education and training will ensure to the greatest benefit of the public because optometric care is more widely available and more cost effective. Opponents of the bill argue that while optometric care may be more available, some, if not all, optometrists are neither trained or educated to diagnose or treat many diseases and conditions of the eye or the body as a whole. Furthermore, they argue, the use of therapeutic drugs requires greater knowledge, training and skill than most optometric curricula offered in the past; it is the appropriate understanding and training to effectively use prescription medication which is the benchmark of the practice of medicine.

While I am more than satisfied that many optometrists may indeed be sufficiently educated and trained to appropriately perform under the expanded definition of the practice of optometry, I am not satisfied that the qualifications necessary to practice in an expanded field are required under existing law or are adequately addressed by House Bill No. 153. Although the field of optometry has grown considerably in recent years, current law does not reflect educational requirements commensurate with the level of practice to which the field has grown. Not only should State law require schooling sufficient to adequately prepare practitioners for greater levels of expertise, but qualifications should include schooling from accredited institutions.

In addition to revisiting qualifying standards, consideration should be given to whether the existing regulatory process is sufficient to address the needs of both practitioners and patients under an expanded field of optometry. The General Assembly has seen fit to provide a comprehensive Medical Practices Act to oversee the practice of medicine. To the extent that House Bill No. 153 is designed to permit optometrists to enter the field of medicine, in some respects greater oversight may be beneficial to both members of the profession and their patients.

An expanded field of optometry appears to be a mechanism which will benefit the public to a great degree. Nevertheless, because the field has grown with no corresponding growth in the qualifications required to practice or in the regulatory process designed to safeguard the public interest, acceptance of House Bill No. 153 seems premature. It is my hope that the issue will be revisited during the second session of the 137th General Assembly. I stand willing to commit my Administration to facilitate the introduction of legislation designed to ensure that only qualified, appropriately educated and trained practitioners are licensed within a regulatory scheme designed to meet the changing needs of the profession. Absent such protections, I must regretfully return House Bill No. 153 without my signature.

Sincerely,
Thomas R. Carper
Governor

Members and Staff of the Delaware House of Representatives

Dear Friends:

The expressions of kindness bestowed upon me and our family by members of the House and staff during the past two weeks have provided us much comfort.

Laura spent a very enjoyable day with you during the spring, and I am so pleased that she had that experience.

Please know that I will never forget all of the personal communications, flowers and tributes sent to us in Laura's memory. Your caring continues to sustain me and my family.

With Sincere Appreciation,

Beverly Moyer Sisson

Representative D. Ennis was granted the privilege of the floor for comments.

Mr. Speaker, Thank you very much. To our Lieutenant Governor, to the President pro Tem of the Senate, Richard Cordrey, to our Speaker, Terry Spence and Members of the 137th General Assembly, the Members of our Judiciary, statewide elected officials, members of my cabinet and to fellow Delawareans.

[The Governor's speech continues.]
mutually respectful relationships with each of you over the past year. That hasn't always been an easy process for some of us but it was a prerequisite if we were to govern well and I thank you for bearing with me through that process.

But through the ups and downs there have been a number of constants. First among them has been the hard work and dedication of thousands of Delawareans who come to work everyday to serve their state and its people. Over the past year, I have met thousands of you personally as I visited government workplaces from DelDOT's Gravel Hill Yard in Sussex County to the Plummer House pre-release center in North Wilmington. I understand from Anne Canby that we may have some of the DELDOT employees here today who have been working to maintain our roads and highways during some very, very difficult conditions. I'm going to ask them to stand up and take for all State employees a well-deserved bow. Gentlemen, it's said that we all have 15 minutes of fame in our life - you've just used up 15 seconds.

I want to thank as well the members of this legislature for making possible a number of major accomplishments during the past year.

As I look forward to 1994 and the legislative session that's before us, I do so with renewed hope for our future. We are weathering some stormy economic times, but I am struck by a rekindled sense of optimism. I stand before you, confident that state and local government, working in partnership with business, labor and every segment of our community, can harness the talent, the resources and the resolve to make Delaware an even better place to live, and work, and raise a family. It is vitally important that we do so. In fact, our very future depends upon it.

As a state, we continue to cope with increasing needs that outpace our revenue growth.

I am proud that, in my first year as governor, we have continued the commitment to strong financial management that is the hallmark of Delaware state government. For the first time in three years, a governor is submitting to the General Assembly a budget that meets the constitutionally-prescribed 98 percent spending level. The Rainy Day Fund remains fully funded and will continue to grow. I look forward to working on the budget with Senator Cook, Representative Davis and other Joint Finance Committee Members in the coming months. In fact that process began this morning over breakfast at Woodburn.

Some of the recent revenue gain has been a result of Attorney General Oberly's victory last year in the abandoned property case of Delaware v. New York. Our settlement last week with New York was an important step in preserving that victory. But before we can be assured of retaining all of the revenue we receive, we must prevail in difficult negotiations with other states in this case and help our congressional delegation fend off harmful legislation in Washington.

As a safeguard, I am prepared to ask the General Assembly to defer spending on many one-time projects funded with Delaware v. NY money until the threat from Congress subsides.

More than 85 percent of the growth in this year's budget is required to simply maintain current service levels, to cover federal entitlement increases, and to pay for a modest salary increase of two percent for state employees. In short, revenue growth has allowed us to maintain current service levels without major cuts.

I promised you last year that this Administration would endeavor to make use of every tax dollar that we spend, and to leverage those dollars with resources outside of government whenever possible. I won't ask you to read my lips folks, but I will ask you to note that the 1995 budget I submit to you today calls for no new taxes.

Using the revenues that are available to us, the budget I propose addresses some of the most important issues that we face as a state. Let's talk about some of those now.

Today in Delaware, there are nearly 500 children in foster care, more than 4,000 adults in prison, and another 16,000 adults on probation and parole.

Last year alone, there were 1,400 babies born to teenagers in Delaware, 80 percent of them single mothers;

Over 3,000 Delaware kids tested in our schools last year fell "considerably below the standard" in all three academic areas reading, writing and mathematics;

That is why strengthening Delaware families is a priority of this Administration.

While Delaware ranks near the top of the nation in scientists, engineers and patents per capita in 1992, we ranked dead last for new small business start-ups;

Manufacturing employment has dropped by nearly 10 percent in the past few years, and the General Motors plant closing may cost our state over 6,000 more jobs;

Personal income in Delaware grew by only one percent from 1992 to 1993.

And that is why building a strong and prosperous economy is a priority of this Administration. State government alone asks business to navigate a complicated maze of 230 different business permits;

The ratio of Health and Social Services clients to caseworkers is 300 to 1;

There are no less than 70 toll-free 1-800 numbers scattered throughout state agencies.
And that is why making government more effective is a priority of this Administration.

Three priorities -- strengthening families; building a strong economy; making government more effective. Together they are the focus of our work and will be the barometer of our success.

GOVERNMENT EFFECTIVENESS

Just as the private sector has re-engineered to meet the competitive demands of a global market, state government must learn how to better manage our limited resources. Revenue growth in the 1990's will not continue to match demand for quality government service. We must do more with the resources we have, or face the inevitable choice of cutting services or raising taxes.

I am particularly grateful to Ruth Ann Minner, the members and the staff of the Commission On Government Reorganization and Effectiveness, and to the hundreds of state employees who assisted their work. Thank you.

I have accepted the lion's share of Minner Commission recommendations. If adopted, they will enable our government to run more efficiently and to save taxpayer dollars. Changes are already underway at DelDOT, DNREC, the Department of Agriculture, and elsewhere. Other changes are included in this budget or require legislation to accomplish. I believe that most can be acted on this year, and I ask you to do so.

A number of Minner Commission recommendations deserve special mention, but I want to highlight one that is known as the creation of a new Department of Information and Administrative Services. This restructured Department will become the leader in information technology for all of state government.

Along with this change, I am recommending a $13.7 million investment in new technology projects. Using the best minds available, we can begin to move state government information capabilities into the 21st Century.

Our goal is to coordinate all state services to Delaware families so we can serve our customers better and at a lower cost.

Here are some examples of what we can do:

Major upgrades in our State's human resource, purchasing, payroll and financial management systems can allow state employees to make more cost-effective decisions and save millions of taxpayer dollars.

A comprehensive client information center at the Department of Health and Social Services can help families find the services they need throughout our state.

A single 1-800 information number can enable Delawareans to get the right person to answer their questions with one phone call.

An upgraded tax collection system can allow us to collect revenues owed to the state, including court fines, unemployment insurance, and unpaid student loans.

Government that is streamlined and cost-effective. Government that gives state employees the right tools to do their job. State employees who provide service in a friendly and efficient way. That is what we must deliver to the people of our state if we are to meet their needs. Our motto should not be "That's good enough for government work" our motto should not be "If it ain't broke, don't fix it." Our motto should be "If it isn't perfect, make it better."

As I travelled throughout Delaware this past year, I've heard those needs expressed in simple, straightforward language. We want a growing economy that is creating new jobs that pay a decent wage. We want quality schools that offer our children the best education possible. We want safe neighborhoods, that are free from the scourge of crime and drugs. And we want health care that is accessible and affordable to all who need it. These are not challenges that state government can meet alone, but those of us in this room -- working with others who share our vision -- can forge the way. And I believe that we will.

STRENGTHENING FAMILIES

Last year, in one of my first acts as governor, I established a Family Services Cabinet Council devoted to strengthening Delaware families. The idea behind a cabinet council is a simple one: bring together cabinet secretaries whose services overlap and get them to celebrate and to cooperate and create a unified state response. It's been tried before, but often failed over turf battles and dwindling interest. What makes this cabinet council different is our unity of purpose. The fact that the governor personally chairs each of the meetings may be helpful too...then again it may not be.

Our goals are clear: To see healthy babies born to parents who have learned basic parenting skills. To provide Delaware families with access to affordable health care. To better ensure that our children enter school ready to learn. To create schools that are safe for learning, and that are individually accountable for helping more kids meet rigorous standards for reading, writing, science and mathematics. To help provide housing and job opportunities that promote self-sufficiency, so government support is temporary. And finally, in all the things we do, to focus on prevention, so that rather than spending all of our time and tax dollars treating the symptoms of our problems, we attack the root causes of those problems.

PARENTING SKILLS
Many problems facing Delaware families -- from crime and drug abuse to frustration with our education system -- are rooted in a lack of parental involvement. Quite candidly, too many parents in this state aren't taking responsibility for their children. You know it and I know it. And while there are many reasons, too often it begins when a child is born to parents who lack the basic parenting skills they need. No one is born knowing how to raise a child. Not you, not Martha, certainly not me, not anyone.

One of the first things our cabinet council set out to do was to develop a plan that ensures universal access to parent education. What we found was that over 40 agencies and organizations in Delaware already provide some kind of parenting services. What has been missing until now was a catalyst to bring them all together and to create a continuum of service appropriate to the needs of every new parent in our state.

Last year, you adopted Representative Lonnie George's bill to expand statewide Parents as Teachers, an intensive three-year parenting program. By the end of this year, the Cabinet Council, working with service providers and our state's colleges and universities, will finalize a plan to provide access to different levels of parenting education for every new parent in our state.

Even sooner, my recommended budget contains funds to print this "Growing Together" portfolio. It's a simple calendar that provides good parenting tips and outlines healthy development for children up to the age of five. What should we be looking for when our child is two months old, six months old, two years old, three years old? What should we be doing as parents. Every parent will receive one of these before they leave the hospital with their newborn. I believe these parenting efforts will pay dividends for generations to come, for generations to come. In this Administration, and in Delaware let the message go forth -- kids do count.

TEEN PREGNANCY

Still more must be done to reverse the epidemic of children having children. The statistics are sobering: a million babies born to teen-agers in 1992 alone -- babies that taxpayers often pay to raise. Today, over half of welfare families in the United States are teenagers with kids. Last year in Delaware, we spent nearly $70 million in AFDC, Medicaid and Food Stamps for families started by adolescents. Beyond the monetary cost, there is an even greater cost to the teen and to the child. Teen pregnancy is a statewide problem, and even more serious in rural Sussex County than in urban Wilmington.

Sex and kids isn't something that we feel comfortable talking about even among ourselves -- much less in a State of the State message. But kids are having sex -- too young in life and often with little forethought and even less protection. The result is they are getting pregnant -- or worse. We need to take bold action to get this crisis under control.

The 33-member Teen Pregnancy Task Force of the Cabinet Council reported to me last week, and I thank them for their fine work. Today, I am announcing a statewide campaign to implement their recommendations, beginning with creation of an Alliance for Adolescent Pregnancy Prevention. Comprised of parents, of clergy, health care providers, community organizations, and others, the Alliance will act as a clearinghouse for adolescent pregnancy prevention efforts.

Those prevention efforts must begin early in life before teens become sexually active. I support appropriate health and family education beginning not in middle schools, that's too late. As the Department of Public Instruction reviews curricula for New Directions, I will ask them to pay particular attention to the quality and caliber of family life education courses that are offered in our schools.

We will also stress peer leadership with a program modeled after one in Atlanta called "Postponing Sexual Involvement." The program uses trained high school students to teach younger kids how to avoid the peer pressure of becoming sexually active and informs them of the consequences.

Our health care and welfare systems can be used to work on preventing multiple births to teen parents who are not financially or emotionally prepared to provide for their children. We will seek to make continued welfare eligibility dependent upon remaining in school, as well as completing parenting and family planning classes. And using the services of non-government employees and providers, we will expand access to voluntary family planning services for teen parents.

I believe we can make a real difference in turning the tide on teen pregnancy. But as Marion Wright Edelman, the former executive director of the Children's Defense Fund has said, the best contraceptive is a real future.

WELFARE REFORM

Our success in reforming the state's welfare system will focus on creating that future through self-sufficiency -- preparing people to hold a job and to live independently. The welfare system works as a temporary safety net for most of the families that it serves. But for one of three families, the system our system, perpetuates dependency, diminishes self-esteem, and erodes family responsibility.

The strategy I will unveil next month will reward work and limit time on welfare, beginning with those enrolled in our nationally-recognized First Step employment and training program. That strategy will better ensure that absent parents provide adequate financial support for children and offer health care
to families that work. And it will ask parents to enter into a social contract of responsibility to care for their children.

Our reform plan will require a federal waiver to be fully implemented. But there are steps that we can take this year to get started.

My proposed budget presented to you today will allow us to pilot an innovative two-generation program for teen parents and their children. Our goal is to see if providing intensive, family-centered services to this high-risk group can result in parents leading more responsible, independent lives and breaking the cycle of dependency.

State Housing Authority tenants will get help breaking that cycle of dependency with job training, with education, and other services through a new self-sufficiency program that is part of our welfare reform plan.

Finally, I will ask the General Assembly to support legislation and budget initiatives to create a more aggressive program to establish the paternity of welfare children and to increase child support collections. We must not let men and boys walk away from the babies they make, leaving responsibility to the mothers and to the taxpayers of this state.

HEALTHCARE

One service that families need as they move off of welfare rolls and onto payrolls is health care. In fact, without universal access to health care, our efforts to overhaul the welfare system will never be truly successful.

Despite our best efforts, there are still an estimated 95,000 Delawareans who lack health care coverage today. Many of them are families where one, or both, parents are working. Encouraged by the Health Care Commission, Delaware has made significant strides, expanding Medicaid services for children at the poverty level, preventing infant mortality, and improving small employer insurance opportunities. The state's partnership with the Nemours Foundation also continues to grow and serves more children living in poverty.

To add to these ongoing efforts, I recommend funding four new school-based wellness centers, bringing the total in our state to ten. These centers are a vital link to the health care delivery system for adolescents, giving them access to health services in their own environment. My goal remains to locate a wellness center in every high school in Delaware.

In Washington, the debate over national health care reform has begun and states must be ready for federal reform. Across America, states are awakening to the devastating effect of a health care crisis which cannot meet the health care needs of its citizens without breaking the bank. Here in Delaware, we will not wait for Washington. We must prepare to act now.

Last week, the Health Care Commission submitted an interim report for comprehensive reform. They are with us today and I would like to thank Sally Gore and each of the members for their leadership and for their hard work and I think Sally's sitting up there and some of the members. Thank you very much.

The principles outlined by the President's reform plan, the Commission's report and my own priorities are quite similar. Let me just share them with you now.

1. To provide universal access to health care for all Delawareans;
2. To provide coverage that is basic and affordable;
3. To ensure care that is of equal quality for all;
4. To allow consumer choice; and
5. To control costs and reduce paperwork.

The plan I envision will build upon the existing market-based system, with an emphasis on competition. I do not believe we need to reinvent the health care system, but some changes must be made.

One of the most important aspects of the overall reform plan is that health care must be affordable. Dr. Bruce Karrh and his Cost Containment Committee have made a series of recommendations that emphasize managed care and streamlined administration. Those recommendations deserve our support. They certainly have mine.

I support the Commission's recommendation to create a voluntary health alliance where small business can band together to use their purchasing power to negotiate reasonable rates. To give the alliance more clout in the marketplace, we should explore including in it state employees.

As we move forward to expand health care coverage, we must take care not to put Delaware businesses at a competitive disadvantage by mandating that they pay for health insurance for their employees when no neighboring states have similar requirements. I will, however, ask all businesses to make health insurance available for purchase by employees. Providing universal access is an important first step, an important first step toward universal coverage.

There is one more very important step that we can take now -- and that is a managed care program for Medicaid. Medicaid is one of the fastest growing parts of our state budget. By implementing managed care, we can build a health care delivery system that emphasizes primary and preventive care,
that cuts costs, that extends coverage to previously uninsured individuals. This spring, we will apply to the federal government for a waiver to allow us to launch this program in 1995.

We have a long road ahead of us, but the Commission, working closely with this legislature, is determined to craft the best plan for Delaware. And I might add not, not just this legislature but the provider networks and the many people throughout Delaware who share our concern. I expect a health care legislative package to be delivered to the General Assembly in this session.

Let me turn to SAFE COMMUNITIES

While health care weighs heavily on the minds of many Delaware families, perhaps no issue is of greater concern today than the need for safe communities. It wasn't long ago that our neighborhoods were places where kids could play safely; where we could leave our houses unlocked and run down to the store; where we could sit outside in the evening and talk to a neighbor. Today, despite the hard work of our state, county and local police, the fear of crime in neighborhoods from Delmar to Delcastle is growing.

We need to take immediate steps to increase our commitment to improve safety for all Delawareans. To put more cops on the street, to provide for an annual state police recruit class to balance attrition, add eight new state troopers, and take full advantage, full advantage of Senator Joe Biden's federal crime bill. These steps will allow us to enhance our police presence, especially in Kent and Sussex County neighborhoods.

We can help our police in another important way by curbing the widespread availability of handguns. With the passage of the Brady Bill in Washington, there is now a very real threat that Delaware may become a mecca for the gun trade that is raging along the east coast. If we do nothing, we will be the only state in the nation that permits purchases of an unlimited number of handguns with no waiting period. We are putting gun runners on notice -- stay out of Delaware!

The Criminal Justice Council has developed comprehensive legislation to deal with gun control in a way that attacks the problems without unduly interfering with an individual's right to bear arms.

Yesterday, I was joined by Senator Patti Blevins and by Representative Steve Amick to announce my endorsement of their proposed legislation. When the General Assembly returns in March, I will work with you to pass legislation that will allow only one handgun purchase every 30 days -- an approach to limiting handgun purchases already in effect in Virginia. I support legislation to allow law enforcement agencies to exchange information on the purchase of handguns for up to 60 days and to require that all handgun purchases be made through licensed dealers.

I will also urge the passage of legislation developed by Attorney General Oberly to require stiffer penalties for crimes committed with a firearm.

But better police coverage and tougher gun laws aren't enough.

When we look at the average criminal in Delaware prisons, we find a history of a broken family, little education, drug and alcohol abuse, low-self esteem, no job, and no hope.

Prisons should punish people who break the law and they do. But prisons can be more than a warehouse for criminals until they're released to commit another crime. Our prisons are becoming places where the efforts of employees are being reinforced by the efforts of hundreds of volunteers from throughout our state. They support an array of criminal ministries and mentoring programs. Last year alone, they contributed to a three-fold increase in the number of prison inmates earning their high school degree. They participated in drug and alcohol treatment programs like Key and Crest to cut the rate of recidivism from 80 percent to almost 10 percent. They are helping to breathe new life into prison industries, where inmates can acquire skills and make a real contribution to society by working.

But, we can't stop there. And I am asking the General Assembly to spend $3.7 million in the next fiscal year to build Delaware's first boot camp and to bring to our state a more cost-effective way to punish criminals primarily first time offenders while we rehabilitate them so they won't return to prison.

The boot camp I propose will be a place where prisoners do a day's work, get an education, and learn the skills that they need to get a job and live independently when they are released. Just as important, the alcohol and drug treatment we will provide can help break the destructive habits that put them in jail to begin with.

This boot camp, coupled with 35 new probation and parole officers I propose to hire, will help us exert better control over the growing number of people in our corrections system.

Together, I believe this crime and corrections package will answer the call to make our streets safer and our neighborhoods more secure.

Our commitment to safe communities will also extend to our children.

In the FY95 capital budget I send to you today, I recommend spending nearly $8 million to build a state-of-the-art youth rehabilitation center at Ferris -- a facility that will take dangerous youths off our streets and give them the help they need BEFORE they are addicted to a life of crime.

We are all increasingly disturbed by growing violence and disruption in Delaware schools. The need to improve school discipline has become a top concern of many parents.

DESEGREGATION
Both the desegregation consent order and the budget I have proposed provide for alternative schools for children with severe discipline problems, enhanced in-school suspension programs for students too disruptive to be in regular classrooms, and parental involvement programs designed to head off discipline problems before they begin. These programs will both improve the quality of education and prevent future crime.

Other funding in the consent order is provided for long-overdue efforts to "grow our own" teachers by encouraging young people to consider careers in education, and developing an alternative teacher certification program that will give talented, non-education majors an opportunity to teach in our State.

We must seize this opportunity to implement these important programs and to end the court supervision of our schools at the same time.

But that is not all we must do.

The desegregation court order is just that -- a consent order designed to resolve a difficult and divisive court case.

The consent order is not our blueprint for educational reform.

We have that in New Directions and I'd like to talk about it for a moment.

NEW DIRECTIONS

New Directions is about setting world-class standards that measure what children should know, and holding schools accountable for meeting them. It's about teaching kids how to write a good letter to their legislator, understand instructions to assemble a bicycle, or calculate the interest on a loan. It's about helping teachers teach better.

We have made substantial progress in setting the standards for our kids. Now the real challenge is for New Directions to deliver on its promise of "excellence and equity for all students."

To help New Directions succeed, members of the Business Public Education Council have presented me with the findings of their GAP analysis -- a report containing 17 different recommendations for closing the gaps between an ideal educational system and the one we have here in Delaware today. We are already working on most of those recommendations, and we stand ready to do more.

The GAP analysis agreed with many of us that the time has come to rethink the entire structure for education in our state.

Just as not all children are the same -- nor are all communities alike. There is no cookie-cutter approach to educational excellence. Allowing school communities -- teachers, parents, and principals -- to determine the best approach to educating children in their schools is critical to educational improvement. Cutting regulatory red tape will enable local educators to teach children in a way they believe is most effective.

At the same time, setting performance standards gives parents and state education authorities the ability to measure the success of educational programs in each and every school. By holding schools accountable for their results, we can strike a better balance between local flexibility and state control.

Our goal should be to empower parents. By holding the schools the focal point for decisions about budgets, staff and instructional practices, we will maximize parental involvement in how their kids are educated. By giving parents good information about school performance, they can answer the question "How successful is my child's school?"

DPI's role must also change -- from one of regulatory oversight to one of expert consultant -- helping local schools to innovate and to improve.

With all this in mind, I will convene by Executive Order a commission to prepare legislative restructuring the relationship between the State Board/Department of Public Instruction and local educational authorities. The commission will include parents, teachers, administrators, board members, legislators and the business community.

Now reworking the entire structure of education in Delaware is admittedly no small task. But I believe the commission's work can be completed next year.

In the meantime, we will press forward to implement other recommendations of the GAP analysis.

A few weeks ago, Representative Peg Bradley and State Board of Education member Nancy Doorey came by to see me about an issue close to their hearts and I think to many of our hearts -- that's Head Start.

Head Start is a proven commodity with a 25-year old record of achievement in helping children in poverty get ready for success in our schools. For every dollar we invest in quality preschool, we save several times that in welfare benefits, in reduced criminal costs, and in increased earnings and tax revenues.

Kids who attend Head Start have better attendance records in school, make significant gains in test scores, and are healthier. And, Head Start is designed to fully involve parents at the very beginning of their children's education.

It is no wonder that support for early childhood education comes not just from educators, but from doctors, business people and law enforcement people as well. Yet, despite its success, we still serve only half of the eligible three- and four-year-olds in Head Start. That should change.
Today, I propose that over the next three years, every eligible four-year-old in Delaware will be enrolled in Head Start. I will ask the Joint Finance Committee to use a small portion of cost recovery funds in FY 95 to begin to pay for that expansion. Over three years, the total cost to our state will be an additional $2.5 million in operating expenses and slightly over $1 million in one-time spending for additional space and equipment. I believe it is one of the best investments in education we will make as a state during my Administration.

STRENGTHENING OUR ECONOMY

Making sure our kids get a world-class education is our best insurance for a strong economy that creates quality jobs. The past several years have presented formidable challenges for Delaware's economy. It's been a rollercoaster ride, starting with the announcement of the GM plant closing even before I took office. But I think things are looking up.

I met with most of the state's major employers last year to hear directly from them on how government can do its job better. What I have outlined is a four-pronged approach to strengthening Delaware's economy -- 1) create a top-quality workforce; 2) "grow our own" businesses; 3) develop a modern and efficient infrastructure; and 4) make government accessible and responsive to business.

I've already talked about New Directions and its importance to a highly educated, highly productive workforce.

We developed our "Grow Our Own" strategy because 90 percent of new jobs in Delaware come from the expansion of existing business and the start-up of new businesses. I think we have good news on that front.

In 1993, we created Small Business Development Centers in Kent and Sussex County that are helping entrepreneurs succeed today.

We joined with local banks to create the Delaware Access Program -- using a $1 million state investment allocated by you to leverage up to $20 million of local bank lending for business start-ups and expansions today.

We partnered with manufacturers to create the Delaware Alliance to stimulate more widespread use of modern manufacturing technology. Not at some date in the future but today.

This year, we propose to take our "grow our own" a step further -- by doubling the Development Office's Strategic Fund to $5.0 million. This increase, recommended by the GM Task Force, will provide Delaware with flexibility to take advantage of opportunities to attract new businesses to our state.

We will also kick off the Delaware Seed Fund -- using up to $1 million of state funds to leverage $5 million of private investment in emerging technologies that create jobs.

We can't expect business to continue to locate and to grow in Delaware without investing in modern, efficient infrastructure. Last year, we passed Senator Thurman Adams' telecommunication reform act that ensures Delaware businesses of access to state-of-the-art telecommunications service. And it also brings the promise of a one-quarter of a billion dollar investment in our telecommunications infrastructure.

This year, I will ask the General Assembly to turn its attention to the quality of our water and wastewater infrastructure. By one estimate, $700 million will be needed over the next 20 years to fund repairs, renovations, and expansions of our water and wastewater facilities. I support Representative John Schroeder's bill to create a Water Facilities Advisory Council as recommended by our State Chamber of Commerce. This Council will provide a comprehensive, statewide water plan, and develop policies to allocate costs on a fair basis. Developing this strategy for water and wastewater is an essential part of improving statewide planning.

Our efforts to ensure that State government is responsive and accessible to Delaware business are also moving at full speed. Last year's economic summit identified complicated permit processing as a major barrier to economic growth in our State. This year the Permitting Policy Task Force will report back on how we can improve it.

I believe a new day has dawned at DNREC and so have many of its critics. Working with this Task Force, DNREC is launching a major joint public and private sector review of 42 major permitting programs. They will identify obsolete permitting programs, find ways to improve others, and explore uses of technology to reduce paperwork and speed the process. The Department is also providing extensive customer service training to its staff and surveying customers to find out "how are we doing?" And I think they're doing much better.

21st CENTURY FUND

We will have one more opportunity in 1994 to strengthen Delaware's economy and improve our quality of life. As you know, last week we announced a $200 million settlement, payable over five years, of the DE v. NY case.

With these funds, we have a chance to make a real difference -- to invest in our future and meet the economic challenges of the next century.
Today, I propose creation of a 21st Century Fund using the settlement money from DE v. NY. These funds would be used to challenge Delaware communities and leverage private resources to make long-term investments in infrastructure and workforce development.

With this Fund, we can meet the challenges of putting our water supply and wastewater infrastructure on a sound environmental and financial footing.

We should commit the same energy and resources that were devoted to our open space program and develop our park system into one of the finest in the nation.

We should preserve high quality farmland, not only because it supports this state's largest industry, but also because it saves open space, while retaining land for productive use.

We should make infrastructure investments in low- and moderate-income housing -- targeting residents who have demonstrated a commitment to revitalizing their communities and empowering themselves.

We should challenge schools and businesses to make long-term financial commitments to school-to-work programs that help students make the transition from an "academic environment to the hands-on world of work.

And we should challenge our schools to use technology to expand the information, training, and education options available to our residents.

This should be our vision. We can not lose sight of our goal and that is to invest in the future and make our state a better place to live.

Well, I began my remarks this afternoon, perhaps it seems like yesterday afternoon, but I began my remarks by describing the education of a new governor in the past year of transition, and some of the many lessons that I learned, that my administration has learned.

By far the most important lesson for me has been the importance of working in a spirit of bipartisan cooperation with you, the members of this General Assembly. Last year, that cooperation allowed us to make improvements in the Kids Department, to address the financial problems of the Transportation Trust Fund, and to meet the federal requirements of the Clean Air Act.

Today, I have described for you a blueprint for a Delaware Agenda. It is an ambitious agenda that carries with it the optimism that we, as a state, can meet the sobering challenges that confront us today.

It is not an agenda that's carved in stone, but one to be crafted with the ideas and energies of everyone in this room, and beyond this room.

That work must begin now.

Delaware has no equal among states in our ability to move confidently into the future.

And so today we must again answer the call. To take our state, this state, to new heights. To show this nation why Delaware is -- and will remain -- the First State.

That is the challenge I bring to you today. That is the challenge I leave with you today. Join me in building a Delaware Agenda that each of us can embrace and call our own.

Thank you very much.

The Speaker thanked the Governor for his address and asked the previously named escort committee to reassemble and escort the Governor back to his Executive Office.

The Majority Leader moved that the Chief Clerk of the House and the Secretary of the Senate compare their respective Journals to see if they agree.

The Chief Clerk of the House informed the Joint Session that she and the Secretary of the Senate had compared their Journals and found that they agreed.

The Majority leader moved that the Joint Session adjourn at 3:10 p.m. and the two Houses separate to reconvene in their respective chambers. There was no objection and the Speaker declared the Joint Session adjourned.

The House reconvened at 4:30 p.m.

Representative Bunting introduced HB 383, jointly sponsored by Senator Cordrey.

HB 383 - An Act to Amend Chapter 217, Volume 24, Laws of Delaware, as Amended, Entitled "An Act to Incorporate the Town of Millville", as Amended, to Extend the Corporate Limits of the Town of Millville and to Provide a Procedure for Future Annexation. (2/3 bill)

Mr. Speaker assigned HB 383 to the House Administration Committee.

Representative Jonkiert requested that he be marked present.

HB 384 - An Act to Amend Title 11, Delaware Code Relating to the Creation of the HIV Assault Act.

Mr. Speaker assigned HB 384 to the Judiciary Committee.

Representative Carey introduced HB 385, jointly sponsored by Representatives Quillen, Spence, Petrilli, Amick, Taylor, Lee, Buckworth, D. Ennis, Ewing, Davis & Smith.
HB 385 - An Act to Amend Chapter 11, Title 30 of the Delaware code Relating to Personal Income Tax.

Mr. Speaker assigned HB 385 to the Revenue & Finance Committee.

Representative George introduced HB 375, jointly sponsored by Representative Gilligan & Senators Martin & Cordrey.

HB 375 - A Bond and Capital Improvements Act of the State of Delaware and Certain of Its Authorities for the Fiscal Year Ending June 30, 1995; Deauthorizing State Guaranteed Bond Authorizations and Deauthorizing, Reauthorizing and Authorizing the Issuance of General Obligation Bonds of the State; Authorizing the Issuance of Revenue Bonds of the Delaware Transportation Authority; Appropriating Funds From the Transportation Trust Fund, Deauthorizing and Reauthorizing of Certain Funds of the Transportation Trust Fund; Appropriating Special Funds of the Delaware Transportation Authority; Reverting and Reprogramming Certain Funds of the State; Creating Certain Funds of the State; Appropriating General Funds and Special Funds of the State; Specifying Certain Procedures, Conditions and Limitations for the Expenditure of Such Funds; and Amending Certain Pertinent Statutory Provisions. (3/4 bill)

Mr. Speaker assigned HB 375 to the Transportation & Infrastructure Committee.

Representative VanSant introduced HB 386, jointly sponsored by Representatives Houghton, B. Ennis, West, Brady, Oberle & Lee & Senator Vaughn.

HB 386 - An Act to Amend Title 11, Delaware Code Relating to Crimes and Criminal Procedure.

Mr. Speaker assigned HB 386 to the Public Safety Committee.

Representative DiPinto moved to suspend the rules which interfere with introduction of and action on HJR 10. The motion was seconded by Representative Quillen and adopted by voice vote.

HJR 10 - Resolution to Withdraw From the Ozone Transport Commission. The roll call on HJR 10 was taken and revealed:

YES: 39

ABSENT: Representatives Caulk, West - 2.

Therefore, having received a constitutional majority, HJR 10 was sent to the Senate for concurrence.

HB 337 - An Act to Amend Chapter 21, Title 21 of the Delaware Code Relating to the Issuance of Special Registration Plates. (3/5 bill)

The roll call on HB 337 w/HA 2 & SA 1 & 2 was taken and revealed:

YES: 39

ABSENT: Representatives Caulk, West - 2.

Therefore, having received a constitutional majority of at least three-fifths Members of the House, HB 337 w/HA 2 & SA 1 & 2 was sent to the Governor.

HB 387 - An Act to Amend Titles 10 and 22, Delaware Code, Authorizing the Formation of Municipal Business Improvement Districts. (2/3 bill)

March 14, 1994
The Honorable Richard W. Riley
Secretary of Education
Room 4181
400 Maryland Avenue, SW
Washington, D.C. 20202
Dear Secretary Riley:

I write to you in my capacity as a member of the House of Representatives in the General Assembly of the State of Delaware. I have been a State Representative since 1975. Most recently, I was appointed to the Desegregation Committee of the House of Representatives. I am the Committee's only African American member. For years, the Committee has concerned itself with the four school districts in northern New Castle County, Delaware, that have been under a Federal Court Order to desegregate since 1978.

Currently, an organization called the Coalition to Save Our Children represents the interests of the plaintiff class (Black Children in the City of Wilmington, Delaware) in this litigation. I have attached for your information two reports submitted to officials in the State of Delaware from the Coalition. The reports, entitled, the Problems of School Desegregation, dated September 5, 1991, and the Problems of School Desegregation Continued, dated July 16, 1993, show clearly the results of discriminatory practices and the racial disparities brought about as a result of which the Federal District Court has called the substantive problems (suspensions, performance scores, special education placements, college matriculated rules, attendance, staff racial composition and dropouts). There was also a recent article in US News and World Report showing the State of Delaware to be number one in the nation placing children in restrictive environments.

It is for these reasons that I seek your assistance and intervention in addressing these discriminatory practices that continue to devastate the Black community. For example:

1. In 1978 when the schools initially desegregated, there was a 205% increase in the out of school suspension of Black children. There has been no significant decline in the rate since that time.

2. In 1978, over 20% of our teachers were African American. Today African American teachers are only 12 to 15 percent of the total teachers.

3. From 1978 through 1987, the placement rate for Black children in Special Education increased approximately 70%. Again, there has been no decline.

4. Local school officials have chosen to expel children as young as eleven years old from school without any education services. The overwhelming majority of these children are Black.

5. Delaware has the highest cut off score in the nation for the pre-professional skills test (a test which has been shown to adversely impact Black professionals) which serves as a mechanism to keep
Blacks locked out of the school system.

6. Kindergarten children and 1st graders (again predominantly Black if not 100% Black in many instances) are suspended from school.

Most recently, the Coalition and local school authorities and the Governor entered into a proposed Consent Decree to begin to address these problems. Regrettably, a new federal judge has seen fit to sabotage this agreement. In turn, this has enabled many of my colleagues in the General Assembly to establish a position wherein nothing will be done to address these problems. It is for these reasons that I respectfully request an immediate investigation of all School Districts in the State of Delaware that receive federal funds. The Coalition has provided documentation regarding the problems in New Castle County where data is generated by order of the Federal Court. However, in my view, practices throughout the State are racially suspect. For example, alternative programs in other Districts (outside the desegregation area) are predominately Black.

It is my firm belief that discriminatory practices exist throughout the education system which warrant your immediate investigation and intervention. Upon any finding of discriminatory practices, I believe that all federal funds should be withheld until such time as school authorities and State officials take action to eliminate all discrimination and racial disparities within our public schools.

Sincerely,

Al O. Plant, Sr.
State Representative
2nd District

March 15, 1994

MR. SPEAKER. MEMBERS OF THE HOUSE OF REPRESENTATIVES. THE DESEGREGATION COMMITTEE OF THE HOUSE OF REPRESENTATIVES HAS CERTAINLY GARNERED SOME HEADLINES SINCE WE BROKE FOR BUDGET HEARINGS IN JANUARY. THE COMMITTEE HAS BEEN SO VISIBLE THAT MANY PEOPLE BELIEVE THAT IT SERVES AS THE UNIFIED VOICE OF THE GENERAL ASSEMBLY. THE TRUTH IS, THERE IS AT LEAST ONE DISSENTING VOICE WITHIN THE COMMITTEE AND MANY DISSENTING VOICES IN THIS AUGUST BODY. I AM CONCERNED AND WANT TO MAKE IT PERFECTLY CLEAR THAT THE DESEGREGATION COMMITTEE OF THE HOUSE OF REPRESENTATIVES DOES NOT SPEAK FOR ME.

FURTHER, I WOULD LIKE TO KNOW AS I AM SURE DO MANY OF MY COLLEAGUES, EXACTLY WHAT ITEMIZED EXPENSE WERE INCURRED THROUGH THE ACTIVITIES OF THE DESEGREGATION COMMITTEE. WHAT IS THE SOURCE OF THE FUNDS AND HOW WAS IT SPENT?

I BELIEVE IT IS FAIR TO REQUEST A FINANCIAL REPORT FROM THE COMMITTEE AND I NOW DO SO.

THANK YOU MR. SPEAKER.

Representatives DiLiberto, Houghton, Bradley, D. Ennis, Clark, Wagner & West requested that they be marked present.

LEGISLATIVE ADVISORY #37
The Governor signed the following legislation on the date indicated: 2/09/94 - HJR 10, SB 29.

February 9, 1994
To The Members of The House of Representatives of the 137th General Assembly:
On January 28, 1994, I received House Joint Resolution 10, entitled "RESOLUTION TO WITHDRAW FROM THE OZONE TRANSPORT COMMISSION."
I am returning H.J.R. 10 to the House without my signature, H.J.R. 10 calls for the "official withdrawal" of the State of Delaware from the Northeast Ozone Transport Commission ("OTC").
The OTC is a regional organization created by Congress as part of the Clean Air Act Amendments of 1990. The OTC is an advisory panel. Its decisions are not binding on states and must be approved by the Environmental Protection Agency ("EPA") before they take effect. Nevertheless, OTC decisions, such as its endorsement of California car standards, can and will have a significant impact on Delaware.
The Act specifies twelve states and the District of Columbia to be members of the OTC. It does not allow states to decide whether to be members. Membership is set by law. Therefore, Delaware does not have the opportunity to "officially withdraw" from the OTC, as required by the Resolution. As the enclosed Attorney General's Opinion indicates. Delaware may only leave the OTC if it can establish to the satisfaction of EPA "that the control of emissions (in Delaware) will not significantly contribute to the attainment of the standard in any area in the region."
Still, an option left to Delaware is to refuse to participate in OTC deliberations. We must answer the questions: Are Delaware's interests better served by having no voice on a commission that will make decisions that, if approved by the EPA, are binding on us?
I believe that individual states, not the OTC, should decide how to meet their individual Clean Air Act requirements. Accordingly, Delaware opposed the recent OTC resolution endorsing the imposition of California car standards on the entire region.
Despite this, I have concluded that to disenfranchise Delaware unnecessarily to "send a message" to the OTC and federal government, while tempting, does not serve Delaware's long-term interests. I continue to share the concerns of many members of the General Assembly as to how Delaware can best implement the Clean Air Act in ways that are most cost-effective and the least intrusive to our citizens. Together with the help of the General Assembly, we should continue to seek out opportunities to work with other states and press the EPA for its full cooperation in identifying innovative approaches to achieving Clean Air Act standards in a reasonable time frame.
As for the OTC, I have instructed the Secretary of the Department of Natural Resources and Environmental Control to continue to press the Commission to allow Delaware to have maximum flexibility in determining how best to meet the requirements of the Clean Air Act, without unwarranted federal or regional interference.

Sincerely,
Thomas R. Carper
4 February 1994
On Wednesday, February 2, 1994, Jeff Bullock, Director of Policy and Planning, verbally asked the extent of Delaware's discretion as a member of the Ozone Transport Commission. Specifically, he asked whether Delaware can withdraw from that commission as contemplated by House Joint Resolution 10 (attached).

The Clean Air Act (the "Act") was enacted by Congress under the Commerce Clause of the Constitution. Section 184 of the Act creates an Ozone Transport Region that includes Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and the consolidated Metropolitan Statistical Area that includes Washington, D.C. The ozone transport regions are designed to allow better control of ozone sources that contribute to ozone nonattainment problems in other states. The law requires each State in an ozone transport region to submit its own ozone plan to the Environmental Protection Agency ("EPA"), requiring, among other things, enhanced vehicle inspection and maintenance programs and implementation of reasonably available control technology with respect to all sources of volatile organic compounds.

Section 184 further provides that the provisions of section 176A (a) (1) and (2) shall apply with respect to the transport region established under Section 184. Section 176A established the frame work by which the EPA Administrator may, on his own motion or by petition from the Governor of any state, or upon the recommendation of a transport commission established under Section 176A, "remove any state or portion of a state from the region whenever the Administrator has reason to believe that the control of emissions in that state or portion of the State pursuant to this section will not significantly contribute to the attainment of the standard in any area in the region." 42 U.S.C. §7506a. (a) (2) (Section 176A (a) (2) of the Act.) The Administrator is further obliged to approve or disapprove any such petition or recommendation within eighteen (18) months of its receipt and to establish appropriate proceedings for public participation regarding such petitions, including at a minimum, notice and comment.

In sum, Delaware may be removed from the Ozone Transport Region by the EPA Administrator only if the Administrator determines that the control of emissions in Delaware will not significantly contribute to the attainment of the ozone standard in any area of the region. Presumably, the supporting scientific evidence necessary for the Administrator's finding would have to be supplied by the Department of Natural Resources and Environmental Control.

Very truly yours,
Michael F. Foster
State Solicitor

The Reading Clerk read the following communication into the record at the request of Representative Plant:

Mrs. Herman Holloway, Sr. and Family
Wilmington, Delaware 19802

Dear Ethel and Family:

It is with great sadness and a heavy heart that I regret to inform you that I cannot attend the services for your beloved husband and father. A long-standing commitment in Detroit prevents me from personally paying my respects, however, I would like to share with you my feelings about the Honorable Herman Holloway Senior.

We have been blessed, truly, by Herman's presence here on earth. He has touched the lives of countless people and helped multitudes with his kindness and perseverance. As an African-American legislator, Herman has been my mentor, my guide, and my friend for many years. We have had our differences, but we always held a joint sense of community and public service. Herman was the living embodiment of a public servant and a role model for many African-American leaders coming up through the ranks today. More than anything, Herman Senior, by his very presence, commanded respect. His Rock of Gibraltar perseverance and his unending patience showed the world, and his colleagues that he was a man to be reckoned with, and that he would not falter until justice was met to all. At a time when most African-Americans were scorned by racist men of power, Herman carved a niche for himself so as to better serve his people. No cause was a lost cause...the struggle was often constant.

But like King David, Herman slew Goliath, and as it is written in 2 Samuel 22,

"When one rules justly over men, ruling in the fear of God, he dawns on them like the morning light, like the sun shining forth upon a cloudless morning, like rain that makes grass to sprout from the earth" and this is the way that Herman lived; he was truly a leader of strength.

I am honored to have known this great man. I have learned much from him, and I will always be grateful for having worked with him in the struggle for African-Americans and people of all color. His death has created a void that will not be filled, but the memory of him will live on in the hearts of all, and the example of his life will be an inspiration to everyone.

I am sure that today there will be hundreds of stories about the life of Herman Holloway Senior, and I wish I could be there to contribute my own memories. I hope this letter conveys my sincere condolences to you on your loss (and our loss) of the great Herman Holloway Senior, loving husband father, leader of all men. The Lord has led him in paths of righteousness and we are all thankful for having known him. May he rest in peace.
