The Inter-fraternity Council was organized in 1926 with the expressed purposes of promoting the interests of the University and of the several fraternities represented on its campus; of insuring amiable cooperation between the various fraternities; and of maintaining efficient relations with the college authorities.

The principal activities of the Council are the regulation of the "Rushing Season" held each fall for the pledging of Freshmen; and the sponsoring of Inter-fraternity Basketball, Swimming, Baseball, Relays, and, in conjunction with the Footlights Club, the annual Inter-fraternity Plays Contest.
THE Kappa Alpha (Southern) Fraternity was founded at Washington and Lee University, in Virginia, December 21, 1865. It was established with the idea of creating an organization to keep alive the spirit of Southern chivalry and hospitality of pre-Civil War days. The fraternity was inspired and sanctioned by Robert E. Lee, then President of the University. Kappa Alpha is semi-military in character, and has confined itself to the South, in location, but not in personnel. There is no connection whatever between Northern and Southern Kappa Alphas, except in name.

April 29, 1904, marked the appearance of the first fraternity at the University of Delaware, Beta Epsilon Chapter of the Kappa Alpha Order, situated in the building which is now known as Purnell Hall. In 1909, however, due to its rapid growth, the fraternity was forced to move to a large home on "the Hill," which it occupies at the present time.

Kappa Alpha has 68 chapters, which are divided by location into 8 provinces, one of which comprises Maryland, Delaware, West Virginia, and Washington, D.C. Although no active chapters, with the exception of four colleges in California, are situated outside the boundaries of the true South, alumni chapters have been chartered in every principal city of the country.

THE National Fraternity of Sigma Phi Epsilon was established at Richmond College in November, 1901. At present there are 67 active chapters with a total membership of 13,531.

On the 29th of April, 1907, Delta Chi, a local fraternity at the University of Delaware, was granted a charter and became the Mu Sigma Chapter of Sigma Phi Epsilon. In time, Mu Sigma became Delaware Alpha, as the chapters were renamed according to states. After maintaining a house on "Quality Hill" for several years, the local group erected the first fraternity house on the campus proper—the same beautifully designed home which it occupies at the present time.

Sigma Phi Epsilon has ever been an outstanding factor in activities pertaining to college life at the University; and has consistently supplied its share of leaders in sports, scholarship, and social life.

Distinguished among the alumni of Delaware Alpha are: Harold E. Tiffany, official chemist of the United States Department of Internal Revenue; Dr. W. O. Sypherd, head of the department of English at the University of Delaware; Walter D. Smith, president of the City Council of Wilmington; Alban P. Shaw, County Engineer, New Castle County; William M. Francis, prominent contractor; and Dr. J. P. Winthrop, practicing dentist and a leader in dental research.

IN 1866, at the Virginia Military Institute, a group of men banded together under the name of Legion of Honor in protest to the unopposed and autocratic power wielded by another previously formed group. The Legion of Honor was so successful that in 1869 the members formed a permanent organization and adopted the name Sigma Nu Fraternity. This first organization at V. M. I. became known as Alpha Chapter.

At the University of Delaware in 1907 was formed a local fraternity known as Phi Sigma. It was founded with the especial purpose of eventually becoming a member of the Sigma Nu Fraternity. In 1910 Phi Sigma succeeded in its purpose when its petition was approved by the governing body of Sigma Nu, and it became Delta Kappa Chapter of the Sigma Nu Fraternity.

Since the time of its organization, Delta Kappa has always been outstanding in the activities of the University of Delaware. Many of the existing clubs and honorary societies were sponsored by members of Sigma Nu. Among them are the Derelicts Society, founded in 1918 by Garret R. Cantwell; and the Blue Key Society, founded by Milton Draper.

THETA CHI

The Theta Chi Fraternity was founded at Norwich University on April 10, 1856. The fraternity refused to recognize petitioning bodies for many years, and it was not until forty-six years later that expansion was finally begun with the addition of a chapter at Massachusetts Institute of Technology. Since that time forty-eight chapters have been added, making a total of fifty chapters to date. All chapters have developed from established local organizations and gained admittance by virtue of voluntary petitions.

The chapter of Theta Chi Fraternity at Delaware grew out of a local fraternity called Omega Alpha which was founded in 1911, and formally became a member of Theta Chi on June 5, 1923.

Theta Chi Fraternity at Delaware has always stood high scholastically both in its own fraternity and in competition with the others on the Delaware campus. It has always been noted for its cooperation with the college and for its participation in extra-curricular activities, such as athletics and dramatics.

ALTHOUGH the national fraternity of Phi Kappa Tau has only been in existence since 1906, it already has forty-three chapters, with the distinct honor of having no inactive chapters.

Our present chapter of Phi Kappa Tau Fraternity was organized in 1920 as a local fraternity, which was given the name of Gamma Delta Rho. After making progress for four years, the local chapter in 1924 petitioned Phi Kappa Tau Fraternity for membership and secured it, becoming the Alpha Gamma Chapter.

During the life of the chapter on this campus, we have had three successive residences. From 1920 to 1924 the group resided in a small house on South College Avenue near the Pennsylvania Railroad. In 1924 the chapter moved into the frame house on Delaware Avenue adjoining Wolf Hall, and in 1929 the final move was made to our present palatial stone house on Park Avenue, which residence will be somewhat permanent.

In the past, the main issue around the house has been scholarship, but with the beginning of this year the house average took a decided drop; nevertheless, we expect to come back to our former position. The chapter has won the Inter-fraternity Basketball trophy three times, and last year it won the Inter-fraternity Play Contest.

In the fall of 1923 a group of twelve men gathered in a little room in Harter Hall and organized a local fraternity. At that time there was a ruling, limiting the number of fraternities on this campus to five. Thus it was necessary to petition the Board of Trustees, and through the help of Dr. Blumberg the group was admitted to the fraternal ring at the University. Mr. Wilkinson kindly permitted this nucleus to meet in a room in Old College, the present Student Council room. Within a short time the group was inducted as the Delta Chapter of the Sigma Tau Phi Fraternity, and moved into its house on Delaware Avenue, near Academy Street. In 1925 Delta rose to prominence in the national organization by acting as host to the annual convention, which was held in Newark. The membership of the chapter was increasing to such an extent that new quarters were necessary and in 1928 it moved into its present house at Main and Chapel Streets. During the Christmas holiday of 1930 the Supreme Council of Sigma Tau Phi again showed its preference for Delta Chapter by holding the annual convention at the University of Delaware once more.

Since its very beginning Sigma Tau Phi has taken a keen interest in campus affairs. It has produced a large number of scholars, athletes, and leaders. In the future, as in the past, Delta Chapter will lend similar men and the same keen interest to the furtherance of the development of the University of Delaware.
