ATTACK AGAINST THE JEWISH LIARS - GERMANY'S PATIENCE IS AT AN END.

With a mendacity which is without precedent and with the most detestable means in practically all foreign countries, a campaign of atrocity propaganda has been inaugurated against Germany with the intention of disparaging the German people and making it contemptible in the eyes of the other nations. Lies regarding the alleged sanguinary persecutions of Jews were spread and fairy-tales of torture, rape and senseless atrocities were published in the newspapers. Systematically a campaign was launched with the aim of disturbing and preventing the constructive work of the new German Government. All Germany unitedly and resolutely has defended itself against these criminal attacks. But the indulgence of the German people is now exhausted. The German people will now switch from an attitude of defense, and are going to attack. They will hew off the heads swollen with poison of the Pan-Jewish hydra of lies.

The German people with remarkable forbearance and exemplary discipline has spared the Jews in the course of the national revolution. Have these people forgotten what they have done to us for fourteen years? The Jewish newspaper writers have ridiculed us, defamed us and have vulgarly slandered us. They have emptied vessels of venom and filth on us and have not shirked from insulting our treacherously murdered comrades on their bier. Day in and day out their journals have devoted space to an unmeasured baiting of awakening Germany. They manufactured lies which could not be surpassed in malice and baseness. Adolf Hitler, the Chancellor of Germany's renewal, was abused by the newspaper Jews and his name was sullied as before that the name of no other leader of the people has been.

Is all that supposed to be forgotten now?

No, ladies and gentlemen! We have also not forgotten what those Jew-infected state authorities did to us who persecuted us, terrorized us, muzzled us, dragged us before the courts and locked us up in dungeons. We have not forgotten how the Jew Weiss held office in the Berlin Police-Presidium, the dirty fellow who protected gambling clubs which he frequented, but who at
the same time with blind hate and in wild fury had the soldiers of the national revolution persecuted. Nothing was done under this Jew to crush the Bolshevist-Marxist terror of murderers, but everything was undertaken to tear shirts and trousers from the bodies of National Socialists.

We have not forgotten that!

Who has our dead comrades on their conscience? Who is responsible for all these assasinations of innocent political fighters? The Jews! In their newspapers they supported the Marxist murderers, protected the criminals and instigated them to commit further deeds of blood. They avoided in so far as they held positions of power and authority everything that could have served to wipe out the red murder pest. It was Jews who supplied the organizations of Marxist traitors and murderers with money, and it was Jews who sat in the head offices of these organizations.

No—all that shall remain unforgotten!

Jewish writers, Jewish "pedagogues", Jewish "artists" and Jewish Government officials took care that the cultural decomposition and poisoning of the German people steadily made way. The Jews consciously and systematically destroyed the moral and ethical fundamentals on which alone a unity of national feeling can be established. They ridiculed the martial spirit, sneered at religion, propagated cowardice, preached class hatred and agitated for civil war.

Germany owes all her suffering and all the distress of the years after the war to the Jews!

Now that after an untiring and defiant fight the national revolution has at last gained a victory and has brought about a change, the German people showed a remarkable self-restraint and discipline. Not even a single hair of one of the culprits was touched.

As thanks for this, the Jewdom of the world organized the most criminal propaganda of lies and atrocities which the world has ever seen. By this act the patience and forbearance of the German people have been overrated. We are not used to take a defensive attitude when we are attacked, but we shall attack on our own part.

The just German cause will victoriously overcome Jewish hatred, Jewish vilnness and Jewish lies.
If the attempt is made to boycott German goods abroad, the German people will be in a position to see to it that no Jew will find any occupation, that no one will buy anymore from Jews, that the Jewish department stores will be avoided and the Jewish newspapers not anymore read.
