Vienna, September 9, 1935.

No. 543

Subject: Transmitting memorandum reporting conversations with responsible persons on certain aspects of the situation in Germany.

CONFIDENTIAL.

The Honorable

The Secretary of State,

Washington.

Sir:

I have the honor to transmit herewith two memoranda of conversations which I have had recently with two well known persons, one an American and the other a German, in which are given their views on certain aspects of the situation in Germany.

I have thought it advisable not to give the names of these persons, but I may say that the American is one who...
one who is nationally known at home as very responsible
and very well informed on developments in Germany over
a period of many years. The German is a well known
industrialist who is also widely known in industrial
and financial circles in the United States.

Respectfully yours,

GSM/Imp. George S. Messersmith.

File No. 800

Enclosures:
1 and 2, memoranda of
conversations regarding
Germany.
