Dear Mr. Harmon, 

We arrived home about 8 o'clock. I have met my two swells in Washington. I can work, I can read some more, getting some real rest. There is much that I want to write to you about but I am feeling really lazy. I am feeling that I must be forced to do anything.

I have just a letter from Conrad.
Just who is in charge at Berkeley, receiving my personal note from the Council General at Zurich, telling me why he can't give a visa to Cato. This means that Dr. Cato has evidently been refused a visa twice, so it would be useless for him to apply elsewhere in Switzerland.

If Dr. Cato wants to go to the U.S. I see no reason why
under our present arrangements here, he

charge at Berlin feels the same way. The

procedure would be for Dr. Caste to proceed
to Berlin, establish residence there in a

hotel or pension, and then apply for a

visa at the Consulate General in Berlin,

desiring to see Mrs. Krist who is familiar...
with all the details. Staying
in Oslo until April or until

for a visa. If he can get a
month's leave from the sanatorium
at Asosa it might be ample
time for him to get the visa.
It might not be necessary for
him to give up his position
until he actually has a visa.

We seem more than a hard task.

little a man, but a remarkable attitude as Haskell at
Zurich has done in his Gee.

Have you in coming to this

returning to Berlin about
June 30. I do hope you are being prudent. One's real responsibility lies in considering one's strengths. We are not much use to anybody, dead or disabled, and the world needs some men like you these days. What time we are in. He loved the wind, and we
