Dear Danny:

I have your note of May 28 with regard to Mr. Rubio. I wrote you a letter under date of June 8 telling you that I had seen Mr. Rubio here and enjoyed very much talking with him and appreciated the information which he had given me. I am hoping to have him for lunch at the house with Marion and myself before he leaves for Buenos Aires.

He mentioned that he was going to Buenos Aires and had been in touch with our visa people here in the Embassy, and that they had informed him that as he had a return permit to enter the United States there would seem to be no difficulty about his going to the Argentine from here provided he returned to the United States via Mexico.

Mr. Rubio did not ask me anything about priorities for air travel to South America, and as you very understandably assume in your letter, I could not have done anything about this in view of the fact that air travel from here south is so extraordinarily difficult and we can only grant priorities for travel on official business.

I note with interest that you hope to be able to leave for Lisbon in the near future on business of the company. I realize how much you want to make this trip and I know how useful it would be and how satisfying it would be to you in many ways, but I trust that you are not going to go, for there are always risks in such travel these days. I hope you will leave the work, however important it may be, to your associates, for there are some of us who do not like to think of you making these long trips by air.

I am delighted to know from your letter that news of Jimmy continues to be good, and I realize how satisfying this is to you all.

Again I want to say how happy Marion and I would be if you both would come down here and make us a visit.

You
You would really be doing a good service because if you were here I would at least have to take some time off from my duties here and would get some relaxation which I need. I have neuritis or rheumatism in my left shoulder and am thinking of going to San José de Purrua, some three hours from Mexico City, for the weekend, to see whether the baths there are really any good. I understand that they are extraordinarily effective and if they are I intend to return to spend a week there. It is a charming spot in the mountains with a really first-class hotel.

I am very much occupied these days with meetings of the Mexican-United States Economic Committee, which will be meeting here until June 19.

This is just a hurried word. With love and good wishes to all the family, in which Marion joins,

Faithfully yours,

Mr. D. N. Heineman,
