I had a good week and
with Marcon at Kellerly &
took a night train to Wash-

for the hearings before the
"Committee on Unamerican
activities" of the House for
which whom Helen and I
have been called for
Wednesday Sept. 24.
I hear about the dog
reading the note Grid, mons again, and to
I will have to read going also the records together.
No later the hearing day is needed Wednesday morn-

if they are ended
Wednesday evening, Thursday and Friday
in the office it ran
unk. If they are not
needed until Thursday,
I would have no
purpose by being in New
York just for the day.
In any event I will
be at the F
cin New-
York on Monday next it
by that time as may
have some of the
material from Mexico
City for the exhibition.
To the Export Import Bank,
I shall keep in touch with
the office in the meantime.

While I am here this week I shall try some
further background for
the credit with Croatt
and Armor.

I talked with Donald
Down Carr on the telephone
yesterday and was glad to
