Dear [Name] = Messrs.

This is Saturday, Dec. 1st, and as we cross the equator to-morrow, the trip has been pleasant and useful and uneventful so far. They are both well. Next Tuesday we reach Trinidad where we stayed a day in port and should arrive in New York on Monday, March 19, about 8 a.m. I hope you have been able to secure room for us at the Carlyle. The weather has been fine - but that should and I am entering this

I have been working today on the drafting of my report and the papers received from going to Mexico City at Rio and sending them with my further suggestions to Groton in Toronto so as not to lose too much time on that while I am in New York (annual report) listener, the Ambassador in Rio called on us at the ship

Please for me about this
feats with Peron and the
economic Council. But there
was nothing as Miller had
no time or means to get
anything to me in his

not to wait until I get to
Washington for the lack of
Miller and Peron and
the economic Council work.

Most important for many ways—

to Proven to take on Wallery,
the charge, after Miller left

with Wallery to receive him,
but naturally was out at the

during Miller's visit, only from
Miller himself when met
to Washington.

Of course, I am writing much longer than anyone expects. This is the first time I have had the luxury of a pen and paper to express my feelings about the Peace. Peace is not something that just happens. It is the result of hard work and dedication to a common goal. I know it can be difficult to imagine, but the Peace is not just about ceasing hostilities. It is about rebuilding the lives of those who have been affected by war. The Peace is about ensuring that future generations do not have to suffer the same fate.

Yours truly,
