Dear Dannie:

The address which you prepared for the Sofina meeting on April 26 on Catoblepas financing, is really excellent. I have given the several French copies to some important Mexican friends here who have found it very interesting. I could easily use about 30 copies of the Spanish text if there is one. I gave my Mexican friends here the several French copies that I had, because they are able to read French. I know that there is an English text and I have one copy of it, and of course more of our Mexican friends here can read it in English than in French. But I am wondering if you did not have a Spanish translation, and if you do, I would appreciate your sending me this, even if it is not printed, as it will save me the trouble to translate it here. From the reaction of several of my Mexican friends here I know it will be of sufficient interest to a larger number, but I will have to give it to them in Spanish if possible. If you could send me these by airmail rather than by ordinary mail, I would appreciate it.

With all good wishes,

Cordially and faithfully yours,

George S. Messersmith.
