Dear Fannie,

I have not written you, I believe, for several weeks. The last time occurred for several weeks. The last time occurred

with the weddings of some and daughters of

old friends and the weddings and parties

were beautiful but for me boring. We had

one more week in New York and were back to

the same old schedule and then I hope we will be there that

week.

For this year,

those above at Cuernavaca this will

be part two on old friend from Abbey,

even better glad for I am going there

a course of treatment to get and gradual

larger which the doctors may after the

take leading from the treatments to the

hospitals. About the nurses and for I get for

up with being told that this colitis t

vomimens could be controlled by the

mentally... and that nothing has to

done for the colitis. I am very uncomfortable
and in order to recover. They made a

very thorough test and after a week

came to the conclusion that the cause could

not be caused by two bugs who live

in the tube from the bladder to

the Bladder. The treatment is pretty tough.

for the antibiotics do not agree with me.

and cause me much discomfort, but they
tell me that is the only way to get

rid of them. This is the fourth day of

the treatment and the antibiotics

cause some backache and abdomen

cramps. Some headaches and feverish.

But, it is clear already that the

plaints are much more in better. I can't

understand why they did not find these

bugs at the hospital clinics. In any event

I do not doubt that they have found

the principal cause of my troubles, and

I hope in a few more weeks to really
felt myself again.

Yesterday Yvonne's sister and her husband, and friends, from a small community near California, had lunch with us. Yvonne's sister and her husband and these friends and neighbors were in town for a short visit. He hopes to see them again next week in Mexico City.

Our latest friends, including the Mexicanos, are behaving very badly and unilaterally at Brownsville, and I hope Carillo Torres will not destroy his reputation as a man of honor. Clearly under the instructions of the President they have tried to break every treaty and disinterest all around us.

At least in the immediate unit and
the selection. God grant that he will
for it means so much. To me, I think
the Soviet memoirs in East Germany have
helped him. How he stood the illness
at his age is beyond me.

I hope that you keep well and
that Helen, and Edna, and Yvonne, and
well. All going I heard from written
from some time ago but that I will
write soon.

Some people are coming to
lunch, so I have to put an end
to this round. Marie goes in
love to you all —

Yours,
