Dear Dannie,

Just a word to tell you that the Maryssael's are back and we were happy to have such good news of you all, and to know that Hettie has got on so well.

We are still having some coolish days here but on the whole good weather. Marion is well. I'm still bothered with my troubles, but aside from losing too much weight which I cant afford, the treatments I am having seem to be helping. The Malta fever business is slow and I can assure not a happy one.

Marion joins in all love to you all, and the family, and specially to Hettie. I hope to write more at length very soon.

Always faithfully,

S: George
