On the 31st, we returned to Caracas and were examined by the same doctor who examined our teeth. The doctor recommended that we return to Caracas on the 3rd.
Monday and again in the afternoon. There
was a lot of pain and inflammation and after
noon yesterday the pain subsided - and
this morning the swelling has gone down. She
is taking the digital again this morning and
is using the digital again this afternoon, and I am using the both
till the period.

This is the week of the "16th Kitchen," which
is a big holiday and most of the doctors
are out of town - just like Tuesday in
France, this when practically every doctor is
out till the 16th for a month to celebrate the
festival.

This is the week of the Sanophores - having
me a lot to handle - that is discomfort.

Dr. Hales is back in Houston and the
Dr. Kuyper is Dr. Barden and it was very
smooth & I met the patients and I found that
had an operation. It is slow in disappearing
and if it does not get better by the end of
April, Houston & I will go to Houston to see if Dr. Hult can't give me treatment,
so I want to avoid an operation. I
have had enough of operations.

The Huppens had a dinner for the
people and Jean Bassin last evening last
month & I could not go as we had felt
better. Christine Huppens heard for
New York tomorrow and on the 22 for
Belgium to be with the family. Goodbye
cannot go with them as there is too much
for him to do here now.

Jean Buchanan is here for a visit
in business of his company - he came 85.
Today, I spoke to him this evening to
he is coming out to the house at
6. I don't yet know just what
reason for Bethlehem steel bring him
here as Bethlehem shall get his yest of its interest here some years ago. Which be
glad to see him if he wishes he can spend
the week end with me in Curves.

This week is a dead week. It is the
for business as they always make a fuss
for the 16 September holidays.

Mother is coming today with
his writing case! I don't fear him.

The Nossers so much as I do our
own house people at home who are
taken too readily and mother
is a most of showmanship and
delaying.

I will be writing to day or
soon as I have to go into Messrs
to the nearest near. Messrs
I will try to get it back for you. I will try to bring you some news from there later. Sam has been in the work. Sam has his cell in New York. I can send him to call you. He will call you. Love to you all.

Yours truly,
