Dear Femia -

There isn't any news but I want to send you just a line. We are still having lots of rain here in Covington, and my little peanuts. The town in Texas are full of Indians. We look only about 70 million, troops are gone and the Troopers have taken the Troopers old house.

After all the trouble in getting their dog to

South America - the dog after they were in their new house, the dog was shut up in the house and peeing a men in the garden,

dumped then a big picture window, shuttered it, and cut himself so badly that he died to death. It will cost the Troopers a lot

of money - for they needed their lawyer's

for damages - so the dog is insane and would have bitten some people. They also

wished that have bitten it like they did
here.

The three are advisory committee meeting this afternoon. So far as I know, there is no change in the government attitude toward the company and it is dangerous for the company and Mexico.

Last week was a busy week for me, as I had to do a good deal to help my friend Bob Hill.

I had a letter from Sam Jordan and she says her hard work for operation went off quite well. I had written her about this off quite well. I had written to her about this.

They develop after the kind of operation I had. It is bothering me much less than I'd predicted, but still causes me discomfort, and somewhat restricts me in
things I would like to do.
The reports which the Senate Committee
on Foreign Relations has asked some research
groups to make on the impact of Korea, etc.,
in development and foreign policy are beginning
to appear, and the one just published prepared
by the Stanford Research people is very good.
If you want these or the others, you can
get them by writing to the Senate Committee
on Foreign Relations in Washington. They
have explained so far and are very good.
There will be over 17 re reports in all.

Therein as well. I follow the usual
routine and enjoy the work and in
between, but I can't play these more
than 8 days at a time instead getting
bored.
Hope you are all well and that the weather is good now. I wish I could be pleasant in June, but I am not. You will not be coming on soon! Many more of them.

Thank you in lots. Love to you all —
