Monday July 18th

Dear Jimmy:

I have had marvelous visits in Mexico City, but today the weather seems to be worsening. It is cold and rainy in Cuernavaca, and the weather in this area is usually cloudy. We haven't been able to enjoy the sunshine for a half hour. Hardly any sunshine today in Cuernavaca.

There isn't a good deal of time remaining at the office, as we are nevertheless at the office as usual. There is all sorts of trouble about the coming and going of tariffs. I still don't know what is coming out of it. Mr. Jones has been playing cards for several weeks. I have heard that I understand is coming back now. The weather is still the same.
Reduction in Mexico pleasant
but the Government is not
facing up to problems and on
there are people at home and I
think for optimism about many things.

The telephone service continues to
be poor. I've been wanting to call
invarious cities. I left and left
in the phone was the last word left
in thought if I called to him. Know it
thought if I called to him
which I called I am
this is just a note to tell you
We are thinking of you all.

Look to you all—

Thankfully
