Dear Jerry -

I wrote at length to have further some
discussion on your case from me.
I have been trying in writing as you may know,
the friends are getting called in a house
they built and I have been without a
secretary since we returned June 28.

that really gave me hell - and I
finally went to another doctor and
who says that I have several types
of cases in the duct from the kidneys
to the bladder which are usually
the main cause of my troubles, in -

If he has found what the real trouble is—then things should be better. We enjoyed having Bear's friends & her husband and their friends for lunch at the Vernon's— and with 20 or 200 been more of them. I understand from Bear you said some were away during August.

Last night he had a dinner for the new Ambassador Bob, him & his wife. They are both very pleasant people and I hope he will do a good job here. It is not going to be an easy job. RexCartm was in his 1971 message to the Congress and relations with the U.S. were very bitter, but since I have been in Mexico I have not seen the Mexican president more confidably. It is lack of good words that counts.

The performance of Mexico and the other Latin American countries (under Peruvian leadership) at Buenos Aires was really terrible— and all at a time when they really needed our help. They have destroyed a lot of confidence that had been slowly and painstakingly built up.

This is just a hurried note as we go to Casparian Community Church next week end. I hope this finds you & family well.
