In the following pages will be found the business cards of those persons and companies who through their interest in Delaware College have made possible the publication of The Blue Hen.

We have continued the reading matter through these pages in order that due attention may be given the advertisements.
DELAWARE COLLEGE

DELAWARE COLLEGE is the logical choice of every high school graduate in the state who desires a thorough collegiate training at a rapidly growing, progressive institution. The College offers splendid opportunities to earnest students who come to it after completing a four year course at a high school or preparatory school. Tuition is free to all Delaware students. A few compelling reasons why Delaware boys should come to Delaware's college are the following:

(1) **Teaching Staff:** Thirty-one teachers, representing nineteen universities and technical schools of this country and Europe.

(2) **High Standing of Alumni:** Many of the most prominent men of our state and nation are numbered among its alumni; for instance, the Chancellor of Delaware, the Judge of the Circuit Court of the Eastern District, the Superintendent of Construction of the Du Pont plant at City Point, Va., and superintendents of bridge companies, consulting engineers, leading physicians, and business men all over the country.

(3) **Athletic Equipment:** Joe Frazer Athletic Field, recently completed at a cost of approximately $30,000, well-equipped gymnasium, swimming pool, and competent physical director who is a member of the college faculty.

(4) **Military Training:** Military training under the direction of a regular army officer assigned to the college by the United States government.

(5) Laboratories and workshops, new buildings, experimental farm.

(6) Three courses leading to degrees: Arts and Science, Agriculture, Engineering.
