REGULAR MEETING OF THE UNIVERSITY
FACULTY SENATE

February 8, 2010 – 104 Gore Hall

January 28, 2010

TO: Senators and Executives

FROM: Charles E. Mason, Vice President
University Faculty Senate

SUBJECT: Regular Faculty Senate Meeting February 8, 2010

In accordance with Section IV, paragraph 6 of the Constitution, the regular meeting of the University Faculty Senate will be held on Monday, February 8, 2010 at 4:00 p.m. in 104 Gore Hall.

I certify that hard copies of the approval page for each undergraduate and graduate studies academic item on the agenda are filed in the Faculty Senate Office with the appropriate signatures of approval up through the Chair of the Faculty Senate Coordinating Committee on Education. The Agenda will be as follows:

AGENDA

I. Adoption of the Agenda
   • A motion was made and seconded to approve
II. Approval of the Minutes: December 7, 2010

- A motion was made and seconded to approve

III. Remarks: Provost Tom Apple

- Provost Apple spoke to concerns about phasing out programs/majors because of RBB. He stated RBB was not the driver but rather it is the focus on academic excellence and the need to prioritize which will guide these discussions. Programs can lose money if they are excellent but we don’t want to support a mediocre program that is losing money. Our concern is not dollars but rather the students’ experience and academic excellence.

- College reviews have been put on the back burner as we work through the details for this process.

- Question from the floor regarding how and who will determine what is quality? The provost discussed the complexity of the issue. He discussed some of the metrics about research which comes from the AAU and other organizations as well as how to assess teaching quality.

- The provost discussed the need for the senators to communicate what happened at the senate meeting in their department meetings.

- A question was raised about APR for colleges and what we should expect this to look like. The provost hopes that we can get the procedures determined by the spring. Ultimately these procedures will need to come to the Faculty Senate.

- A question about reorganization and program review came from the floor. The provost views these as different processes and the reorganizations are decided by those internal to UD and then once the new unit is up and running then we do the external review via the APR process. Havidan discussed that a draft of the process has been forwarded to the Council of Deans for their comment. But,
importantly, the faculty senate will be involved in these reviews as well. Cihan requested that this draft be forwarded to the Faculty senate executive committee. Havidan indicated that once the Council of Deans had reviewed the draft he would forward it to Executive Committee.

- The provost said that at their last meeting with the state legislature the state now sees us a research university and a driver of job creation.
- The provost discussed the importance of the faculty and the faculty senate in the shared governance model providing input to the Trustees who ultimately must approved all decisions.

IV. **Announcements:** Senate President Cihan Cobanoglu

Three announcements were made regarding:
