NEWARK, DELAWARE, APRIL 17, 1917

NUMBER 23

"DELAWARE" DEFEATS DREXEL IN OPENING GAME

In a loosely played game, Delaware defeated Drexel last Saturday by a score of 10-7. Due to lackinw practice and the chilly weather neither team was able to show up to the best advantage.

D. P. Horsey, as lead off man, started things going for Delaware when he slapped a home-run over Pennington's head. Horsey also got two other hits and reached first four out of five times at bat. "Bill" Stewart, who played right field last year, and who has been moved to first base, put up a nice article of ball.

The game in detail:

First Inning

Drexel—Slater was safe on Selby's error. Radcliffe reached first on an infielder's choice, Slater going to second. A lightning double play, Selby to D. Horsey to Stewart, resulted from Merser's tap. Slater went to third on the play. Wright struck out. No runs.

Delaware—Don Horsey caught a fast ball on the nose for a home run over Pennington's head. H. Horsey fanned. Madden popped to Radcliffe. Stewart out, Slater to Wright. One run.

Second Inning

Drexel—Pennington out, Selby to Stewart. Pancoast singled to right. Mahan reached first on an infield hit. Green fanned. Pancoast stole third and when Pierson threw wild to second to catch Mahan, Pancoast scored. Watkins out, Selby to Stewart. One run.

Delaware—Selby walked. Pierson sacrificed. Selby was out trying to make third on the play. Carter singled to center but was out trying to steal. No runs.

Third Inning

Drexel—Slater lined to McCardell. Radcliffe sent a Texas leaguer over second but was out trying to steal. Mercer doubled to center and stole third. Wright walked and Mercer scored on Clancy's wild pitch. Wright stole second and was out trying to steal third. One run.

Delaware—McCardell out, Radcliffe to Wright. Clancy out, Mercer to Wright. D. Horsey singled to center, stole second and third. H. Horsey went out on a foul fly. No runs.

Fourth Inning

Drexel—Pennington whiffed. Pancoast out, Selby to Stewart. Mahan walked, stole second and went to third when Clancy threw to second to catch him napping Green fanned. No runs.

Delaware—Madden fanned. Stewart walked, stole second, went to third on a wild pitch and scored on Selby's sacrifice fly. Pierson was out. Mercer to Wright. One run.

Fifth Inning

Drexel—Watkins grounded to Stewart. Slater safe on an infield hit. Radcliffe forced Slater at second. Mercer grounded to Clancy who retired him at first. No runs.

Delaware—Carter out, Watkins to Wright. McCardell and Clancy fanned. No runs.

Sixth Inning

Drexel—Wright fouled to Pierson. Pennington fanned. Pan-

(Continued on Page 4)

A Summer School That's Different

The Summer School which has undergone many important changes from last year will open June 25. Dr. Counts, Director of the Sessions, has worked out plans whereby the school will branch out into wider fields of usefulness.

The first noteworthy change is that of the two-session plan extending from June 25 to August 31. The first session consisting of six weeks will begin June 25 and close August 3. For those students desiring to continue the more advanced subjects, the second session will begin August 6 and continue until August 31.

College credits will be given for the completion of any advanced subject extending throughout the entire ten weeks. This is made possible by limiting the number of advanced subjects that any student may carry to three, and by reciting in each subject five times a week. This plan should appeal to the better prepared teachers of the state in their endeavor to secure a college education which at the same time does not interfere with their profession. To the college student, who for reasons of sickness or failure in any course an opportunity is offered to square himself for the next year.

A partial list of advanced courses to be given follows: English History, American National Government, Sociology, English Composition, The Drama, Methods of Teaching High School Subjects, Principles of Education, Child Study, Trigonometry, and Poultry Husbandry.

Tuition is free to residents of Delaware. Others will be charged the nominal fee of \$5.00.

The Bulletin for the Summer Session will be ready for distribution next week, when complete information regarding courses, etc., will be available.

Delaware Sends Scholar To Hopkins

Raymond W. Cameron, son of Mrs. W. A. Cameron, of North East, Md., has been awarded this week a scholarship in chemistry at Johns Hopkins University for the next collegiate year. Mr. Cameron will graduate from Delaware College in June, from the Arts and Science course with the degree of Bachelor of Science. He is the first Delaware man to win a scholarship at Hopkins.

Mr. Tarr Resigns

It is with keen regret that the students and faculty learned last week of the resignation of Mr. Tarr, who has accepted a position as research chemist with the duPonts. Mr. Tarr's resignation takes effect at once and he left yesterday to take up his new duties.

Altho Mr. Tarr has been at "Delaware" but two years he has gained the respect and admiration of all the students and faculty with whom he has been associated, and his departure is a disappointment to everyone.

We earnestly hope that his success in this new position will equal that which he has attained here.

Track Prospects Bright This Year

Track prospects at Delaware look particularly bright this spring. Bratton was the only man lost from last year's squad and some of the new men show excellent promise.

The four veterans of last year's relay team—Marshall, Crockett, Steele and Craig—are in college and all appear faster than ever before. Among the new men Graves, Williams, Silver and Bugless stand foremost. Hearne is out and if he shows his old form should make a strong bid for the team. Fitzpatrick, the sub on last year's team, is again trying to win a place.

Indications point toward a championship team. The competition is particularly keen and this will serve to keep the men in the best condition at all times. Maryland State has won our class for three consecutive years. Second was the best we have gotten at the relays for thirteen years. That was last year. With four veterans from last year in addition to the new material, "Delaware" should have the best chance she has ever had to breast the tape a winner in the coming Penn Relays. The hurdles will be taken care of by Marston, Crockett, Williams, Marshall, and Mackie. How and which race they will run remains to be seen. Crockett can be counted on to run both races and can be relied upon for many points in these events. Marston will more than likely run in the low hurdles while Marshall will probably be Crockett's mate on the high sticks.

Coach Keyes will have most difficulty in developing men for the distance runs and the weight events. If reliable men are found to fill up these places, "Delaware" should produce a winning track team this season. Keyes is anxious to see a large number of men turn out for the team in order that he may have the best material to select from. Weight men and distance runners are especially wanted and it is sincerely hoped that any student who has had experience in these events will report to the squad.

Dean Hayward Speaks In Chapel

On Tuesday morning Dean Hayward reported to the student body upon the conference of deans of the agricultural departments of the land grant colleges. This conference was called at St. Louis recently by the secretary of agriculture, for the purpose of discussing the food situation in America. The most significant fact brought out at the conference was that: America can be of greatest aid to the allies by supplying to them a greater amount of food stuffs. The shortage of farm labor all over the United States is acute. In case a large army was to be raised, the seriousness of this shortage would be greatly increased. Therefore the conference recommended that agricultural service and military training be intermingled, and that service on the farm be regarded just as much a patriotic duty as enlistment in the army.

Election Of Managers And Assistants

The chapel period last Wednesday, was given over into the hands of the student body for the election of managers and assistant managers of the various athletic teams. For the basketball team "Ernie" Wilson was chosen manager; "Hen" Marston, assistant manager. "Bus" Bowen was unanimously elected manager of football with J. Truss as assistant. A. L. Lauritsen was elected to manage the baseball team of this year. "Chet" Smith was selected assistant manager.

"Delaware" Graduate Marries Newark Girl

The marriage of Miss Mildred Stoek McNeal to Carl Richard Lind, a member of the 1912 class at Delaware, took place in the Newark M. E. Church on April 7.

Mr. Lind is now employed in the engineering department of the duPont Powder Company at Carney's Point. Mr. and Mrs. Lind will be at home after May first, at Salem, New Jersey.

"Don" Horsey Re-elected Captain

At a recent meeting of the varsity basketball men, "Don" Horsey was re-elected Captain of the team for next year.

The team will lose but one man from last year's varsity and the prospects for a successful season appear very bright.

"Aggies" Hold Enthusiastic Meeting

On Thursday evening (April 12, the "Ag" Club held the best meeting since the beginning of the college year.

Professor Nichols opened the meeting with a description of the big Agricultural War-measure Program which is now being considered by the Faculty.

Professor Counts was the speaker of the evening. He complimented the club on its large attendance and said that he would omit the patriotic and speak on education at it is practiced by our schools. "It has been the opinion of educators in the past," he said, "to attribute the prevalence of crime and dissipation to an 'educational leakage.' Therefore our educational system of the past must be improved upon. Today complete and thorough education is being effected by introducing into the school curriculum, subjects that meet present needs. These subjects are five—health, vocational training, training for citizenship, training for parenthood, and training for the use of leisure time."

Professor Grantham made a few remarks following Dr. Count's speech, in which he urged the men in the Agricultural course at "Delaware" to try to get as broad and liberal an education as possible. He warned the club members not to become so technical that they would necessarily be narrow minded.

A committee was appointed to confer with the Faculty on the war plans, and a resolution was passed that the club hold weekly meetings in the future, instead of bi-weekly.

Senior Receives Scholarship

John A. Hopkins, of the senior class, has been awarded a scholarship in Economics at Harvard University. Hopkins is the first graduate from the agricultural department to pursue a graduate course in Economics. He won the exceptional honor of a scholarship at Harvard largely on the strength of a valuable original investigation into "Size of Dairies in Relation to Economics in Milk Production" which he is completing as a graduating thesis at Delaware. The data have been collected in personal visits to numerous dairies in Delaware and in Chester County, Pennsylvania. They will make it possible to show the limits of size and capital investment within which dairies pay in these regions, under similar market and labor conditions, and should be of great practical value to the dairy-men of Delaware. Hopkins will take up residence at Cambridge next fall, and will do his major work under Professor Carver, the well-known specialist in Rural Economics and writer of text-books.

STUDENT COUNCIL HOLDS SECOND DANCE

About Fifty Couples Enjoy Pleasant Affair

On Friday evening, March 30th, the Student Council of Delaware College gave its second informal dance of the collegiate year. The affair was a great success in every respect.

This is the first dance held in the Gymnasium since the Thanksgiving Dance in 1915, all since then having been held in the Armory. Those who were present seemed to enjoy the dance all the more because of its being held on the campus. About fifty couples were present, and in addition to the students, a number of local and out-of-town guests. Jacob's orchestra rendered exceptionally fine music. The following acted as patronesses: Mrs. S. C. Mitchell, Mrs. E. L. Smith, Mrs. H. Hayward, Mrs. A. R. Cullimore, and Dean Robinson of the Women's College.

Both of the dances given by the Student Council have been well attended and have contributed much toward the social interest about the college. The Council is anticipating giving another dance sometime before the end of the present term.

APRIL 17, 1917

This issue of the "Review" marks the initial effort of the new staff to maintain the high standard which has been set for our college paper the past two years. To the retiring board, we wish to extend the congratulations of the student body in appreciation of their untiring efforts and excellent results. It is the aim of the new staff to continue the success and advancement of our college weekly. We realize that in order to accomplish our purpose, a great amount of conscientious work must be forthcoming. It is with this thought that we begin our task—but one which we sincerely hope will prove a pleasure.

With the rapid advancement of the college it is no more than all should expect that all things connected with "Delaware" should also make steady strides of improvement. In this movement toward a "Greater, Bigger Delaware College," the "Review" hopes to play its full part. To publish a paper which is the equal of past "Reviews" we feel will not be our "full share." The advance of our paper must keep equal pace with all other improvements. The responsibility for the promotion of the "Review" does not rest entirely upon the "Staff." Undoubtedly the "Staff" has its full share, but the great responsibility rests upon the "Student Body." Without the help and co-operation of the students, the "Review" could not prosper. With the help of "some" of the students in recent years, the paper has been successful,—but this success has not been what it might have been had "all" students contributed "their part." In the coming year we earnestly hope that every student will realize the responsibility which is placed upon him to make the "Review" his college paper, a greater success than it has yet attained.

What Time Shall Drill Be?

During the past few years there has been much discussion as to what time drill should take place at the college. At the present time the Faculty is formulating the schedule for next year and the schedule committee has kindly asked the "Student" opinion of this

question. As this is an issue which concerns all "Delaware" men the students are urged to consider the matter carefully in order that they may come to some conclusion by Thursday, when an endeavor will be made to determine the most popular hour. Think this over!

Regulations For Management Of Review Passed Upon

The following rules and regulations for the management of the "Review" have been drawn up and passed upon and will take effect at once.

Editorial Staff

The editorial staff of the Review shall be comprised of ten (10) members, including an Editor-in-Chief, two (2) Assistant Editors, and seven (7) members on the General Staff.

Business Management

The business department of the Review shall be comprised of five (5) men, including a Business Manager, two (2) Assistant Business Managers, and two (2) Circulation Managers.

VOTING

Literary Staff

In order to be eligible to cast a ballot for succeeding officers, Assistant Editors shall be required to contribute twenty (20) columns of reading matter during the year. All members of the General Staff shall be required to contribute ten (10) columns of reading matter during the year. The Editor-in-Chief shall decide who is eligible to vote.

Business Staff

The Business Manager shall decide what men in his department shall have right to vote. His judgment will be based upon work done by the members of his staff.

Removal From Office

Both the Editor-in-Chief and the Business Manager shall have the authority to remove any man from the staff, at any time, if in their opinion, the work of any member has not been satisfactory.

Heretofore there have been no rules relative to the personnel of the "Review Staff" and as a result the selection of the Board has sometimes met with disapproval. It is hoped that the new regulations will meet this situation satisfactorily and serve as an aid in the appointment of future "Staffs."

Mr. Josephs Lectures Before Arts And Science Club

On Tuesday evening, March 27, Mr. Walter Josephs, an alumnus of "Delaware," gave an interesting talk on Art to the members of the Arts and Science Club.

Mr. Josephs opened his remarks by emphasizing the fact that beauty and ability to paint are not essential qualities of the artist. In order to be a good artist he said, one must be able to express emotions in his paintings. As the speaker expressed it, "Accuracy and ability to paint are merely the hammer and saw of the artist."

During his address, Mr. Josephs briefly traced the history of art from the paintings of savages upon their weapons up to the modern works, showing the contrast between the modern and older methods.

Mr. Josephs ended his lecture with an exhibition of lantern slides representing the works of the greatest painters of the world. The collection included Italian, French, Spanish, English, and American works of art.

Why Not Play "Penn"?

With many of the colleges and universities cancelling their athletic events for this year, it appears that in a short time all colleges will be forced to give up ath-

letics because of their inability to fill their schedules. If this is the case, it seems as though the logical thing for those colleges that wish to continue sports to do is to arrange games with each other.

Now that Haverford has cancelled all athletics, would it not be a good move for "Delaware" to fill the dates left open by arranging games with the University of Pennsylvania? "Penn" has not discontinued athletics, but she has had several colleges to cancel games with her because of the present war situation. Since this is so, there is no reason why "Delaware" can not arrange at least two games with "Penn."

Haverford Discontinues Sports

Scheduled athletic events have been called off at Haverford College. As a result of this action two games on Delaware's baseball schedule will not be played this year. The quaker institution is the only one on the "Blue and Gold" schedule which has decided to abandon sports for the remainder of the collegiate year.

New Regulations Drawn Up For Honor System

A committee, composed of four members of the Student Council and two members of the Faculty, have recently drawn up a new set of rules governing the Honor System at "Delaware." These new regulations will be submitted to the students for their approval and will later be voted on by the Student body. If passed by the students these rules will take effect at once and will govern the final examinations in June.

In the recent examinations there was a great deal of misunderstanding on the part of many students, and it is hoped that when the new regulations appear the students will acquaint themselves thoroughly with them. The new rules will appear in the next issue of the "Review." There will be a thorough discussion by them before they are voted upon for adoption.

Campus Nik Naks

The college is too much with us: early and late, Grinding and cramming we store up our powers.

Little we see in life that is ours; We have given our minds away, a sordid boon

No relief now nor signs of any soon; The winds that will be howling at all hours,

Will not find us sleeping in our wretched towers; For this, for everything we are out of tune

It moves us not.—Good night! I'd rather be A German fighting for a creed out-worn;

So might I, sitting in this pleasant room Have glimpses that would make me less forlorn,

Have sight of Jimmy James manned with his broom, Or hear old "Hazo" blow his wrinkled horn.

Everyone began to shout and laughie, Why?—On the floor appeared Tiffie-Taffie;

Put when he pranced 'round like a calfie, The rooters all went diffie daffie.

He did not play, he did not shoot, But all the time dressed so cute, "The Beautiful Unknown" warmed the bench

You couldn't have moved him with a wrench, But Tiff you're alright with all your kicks,

You look better in a suit than '96. 1917—"Do you go in for athletics with all your debating, Weston?"

Weston—"Oh, yes; besides being a good football player, baseball and track are in my line and I kind of just dote on tennis."

1918—"Deliver us." Dr. Harter—"Mr. O'Rourke, what is a watt?"

Mr. O'Rourke, '19—"A watt, Dr. is an inquisitive pronoun."

1st. Cast a hasty glance at your program for the next day.
2d. Fill your pipe.
3d. Hunt your text books.
4th. Light your pipe.
5th. Pick out the smallest book

first and rapidly turn the pages to your assignment. Read a page.

6th. Stretching and yawning are best here.

7th. Refill your pipe.

8th. Pick up another book while glancing at your watch.

9th. Light your pipe.

10th. Think of going to bed, but resolve to rise early to finish your work.

11th. Discuss points of interest with anyone near.

12th. Refill and light your pipe.

13th. Read your "Snappy Stories."

14th. Hit the hay.

We hear the course in Et is to be supplied with billiard tables to show the Freshmen how to use English.

We have heard that the college rah-rah boy is passing, but that is strange, he used to be flunking.

Work On "Blue Hen" Is Progressing

The material for the college annual of this year is practically complete and ready for the press. Morris Mitchell, editor-in-chief, has devoted much of his time to the publication, while N. W. Taylor, business manager, has placed it on a firm financial basis. The book will have many features which have not appeared in former "Blue Hens." It is expected that copies will be on sale sometime during the month of May. A very large number of the books have already been ordered; so that there is little fear of any copies being left over.

The printing of the annual is in the hands of Mr. Everett Johnson of Kells, the office of the Newark Post. Mr. Johnson was the editor-in-chief of the first "Blue Hen" of the college and has taken a great interest in this issue. With Mr. Johnson's help and with the many new features this book promises to be the best that has been put out by the students.

The Class of 1919 has already started work on the annual for next year. Jay Truss has been elected editor-in-chief; J. Jordon McMillan, assistant.

Paper Diplomas In Future

No longer will the sheepskin be the emblem of a completed college education. It was announced at Lafayette College that parchment was no longer in the market and that the college diploma in the future must be inscribed upon white paper.

In anticipation of the graduation of a large senior class at the Easton institution, an effort was made some time ago to secure the supply of sheepskins for the class of 1917. For more than eighty years Lafayette has annually sought a supply of parchment and had no difficulty in securing it.

Shrubs Planted On College Grounds

Under the supervision of Professor Pailthrop, instructor in Horticulture, a large number of shrubs have been set out for the beautifying of the grounds of Science Hall at the Women's College of Delaware. These were given to the college by Miss Cavdell, of the Department of Home Economics, Mrs. Benjamin Nields, of Wilmington, and some others. The Japanese Barberry, picturesque throughout the year, Spirea, with its sprays of foamy white, and the yellow Forsythia are the shrubs chosen.

The Star Of Hope

Oh, say, what star is that I dimly see,
That shines afar with faint tho

cheerful gleam?
Just now it seems to say—or do I dream?—
"To greater things the way I'll show to thee.

If thou wilt climb on high where all is free,
Where beauty, faith and love are all they seem,
Where lights of truth and knowledge, radiant beam.

All these I'll give to him who follows me.
"I am the star of hope" it softly says,
"Of youth, take care no nearer, lesser light
May blind your eyes and shut from view my rays."—
Lead on, O star of hope, I'll ne'er lose sight
Of thee in these sweet, glorious youthful days
Till I with thee have safely scaled the height.

Engineering Society

On Tuesday, April 3, Mr. Joseph B. Weaver, Vice-President and General Manager of the Harlan and Hollingsworth Corporation, spoke to the Engineer's Society. Mr. Weaver expressed his approval of the stand President Wilson and Congress have taken toward Germany. He said, too, that this war will open a wide field for all branches of engineering in the building of submarines and aeroplanes, and in the manufacture of munitions. In his remarks, Mr. Weaver gave the engineers, and especially the Seniors, some valuable advice to aid them in their entrance into the business world.

Mr. Ernest Wilson of the '18 class, also gave a short talk to the Society, in which he explained the manufacture and composition of cement.

"DELAWARE" DEFEATS DREXEL IN OPENING GAME

(Continued from Page 1)

coast also went back via the strike-out route. No runs.

Delaware—D. Horsey walked and went to second on H. Horsey's sacrifice. D. Horsey scored on Watkin's wild pitch. Madden was safe on Mercer's error. Madden stole second and went to third on Stewart's sacrifice fly to right. Selby popped to Radcliffe. One run.

Seventh Inning

Drexel—Mahan was safe on Selby's boot. Mahan purloined second and went to third on Green's sacrifice. Watkins was out, Selby to Stewart, Mahan remaining at third. Slater grounded to Selby who threw him out at first. No runs.

Delaware—Pierson hit to Mercer who threw wild, permitting the Delaware catcher to go to second. Carter safe on an infield hit. McCardell was hit by a pitched ball, filling the bases. Pierson scored on Clancy's fielder's choice. On Mahan's error, Carter and McCardell scored. D. Horsey reached first on a fielder's choice. Clancy scored and D. Horsey took third on H. Horsey's sacrifice fly. D. Horsey scored on Watkin's wild pitch. Madden walked and stole second. Stewart was safe on Mercer's error. Madden scored on Mahan's passed ball, Stewart advancing to third. Stewart scored on Selby's sacrifice fly. Pierson out, Mercer to Wright. Seven runs.

Eight Inning

Drexel—Radcliffe was safe on Ferguson's error. Mercer was safe on Pierson's error and both base runners advanced on Clancy's wild pitch. Wright was safe on Stewart's error. Radcliffe and Mercer scored on the play. Wright stole second and scored on Pennington's hit. Pancoast singled to right. Mahan out, Clancy to Stewart. Pennington scored on Green's hit. Pennington out stealing second. Watkins drew three strikes. Four runs.

Delaware—O'Daniel flied out to Wright. Ferguson singled to left. Clancy sacrificed. D. Horsey flied out to left. No runs.

Ninth Inning

Drexel—Slater walked. Radcliffe went out Ferguson to Stewart. Mercer was safe on Selby's error. Slater scored on the play. Wright went out Selby to Stewart. Pennington out. Pierson to Stewart. One run.

The score:

Your Glasses Were Fitted When?

If your eyes have not been examined within the past two years they should be looked after now; particularly if you have suffered from a severe illness.

Improper lenses can prove harmful not only to your eyes but to your health as well.

In all Delaware there is no better optical service than ours.

Let us test your eyes and prove it to you.

DIRECTORY OF ADVERTISERS

We believe in reciprocity. "If you deal with us, we will deal with you" is a fair and square business proposition.

The Review is dependent upon its advertisers. Without their help in the form of advertisements it could not be published. Therefore it is only right and proper that the students and entire constituency of the College should patronize those concerns which patronize the Review. Your trade and business dealings should preferably go to them.

Below is a classified list of those advertisements which appear in "Our" paper and "Your" paper. Look it over and then follow that doctrine of Reciprocity.
