Anything appearing in this column is purely the opinion of the writer and does not express the views or policy of the paper. Any exceptions should be taken up with the writer.

This column is dedicated to the WAC's this week. Why? Well, a letter was received on Monday from one of Newark's own WAC's and along with her thanks for the Newark Post which she states she receives each and every Saturday morning she states the column by Sureshot is excellent. Sureshot wishes to express his sincere thanks for THEM KIND WORDS. This member of the Women's Army Corps especially commends the column for boosting supervised recreation for the young folks of the town. Corporal Grace Kelley, Newark salutes you and wishes you all the luck in the world.

William H. (Bill) Lloyd, who was one of the recent inductees and is now stationed at Bainbridge writes and asks how he may be placed on our mailing list. I suppose Bill wants to find out what the Beagle Club is doing and whose hound is the best at the trials. Well, those Connell Champions did not do so good at the Memorial Stake last Sunday, and Bill, those Buckingham dogs were not so hot either. Francis Cochran and Jack Edmondson each came in for some of the folding stuff and one of those fancy ribbons. Boy-oh-boy, those ribbons last Sunday were some stuff. The two large trophies for the first two places are not in Newark. One went to Wilmington and the other went to Salisbury, Md.

The annual spring Derby trials that will be held at the club this Saturday and Sunday by the Eastern Federation of Beagle Clubs should prove to be a dilly. There are some mighty fine hounds eligible to run at this two-day trial and lovers of fine dogs should see some rare sport if they care to attend this trial. We are told that everyone is welcome to join the gallery and watch the sport.

For the benefit of those fellows who are "over there" or serving their country in the various camps and training stations scattered throughout the country, George Schaen was seen in Newark this week. George is as slim and bowlegged as ever and that Navy uniform makes the bowlegged part more noticeable. But don't get me wrong, George is still a good looking chap and he is proudly sporting those ribbons and ornaments on his chest. George don't talk much but he has been on the job in this scrap and we are told that he has done a good job.

The little Admiral, Joseph Moore is still sending me copies of that very nice paper that the boys put out. Joe, that paper is fine and the editors deserve a lot of credit for it. I would say that in many ways it is as good as the Newark Post.

The Newark Chapter, Future Farmers of America seem to be doing a good job with their repair shop program. On Monday, John E. Lawrence, director of Vocational Agriculture at the school invited the writer of this column to visit the newly re-conditioned shop set up for the repair of farm machinery and those fellows under Mr. Lawrence's supervision have a fine setup in the Main Street School. I have been wondering where John got all his ambition and this week found the answer. It is a secret but the society editor of this paper has the story in her column so the answer is that John has gone and gotten himself engaged. Yes indeed, this is no baloney. The girl—well, she is just a LITTLE bit of All-right. Two fine people will be joined together in the Bonds of Holy Matrimony at a date to be announced later.

The Newark Boy Scouts are doing a good job of collecting scrap BUT the collection of scrap paper is getting to the point where there is a need for some more help. Any volunteers for this work could contact Dr. Lanier, Center St.

Newark is honored by having some of our neighbors from across the Rio Grande working in this vicinity. These folks have volunteered their services in an effort to help out in this country's labor shortage. It is up to the folks in this country to make their stay among us a pleasant one. From all reports, they are not undesirable citizens, rather they are said to be from the better element and any right-thinking American will treat them the same as we would want to be treated should we be fortunate enough to visit their country. They should be given the privilege of visiting our movies. If we were in Mexico we might want to visit their movies.

Now we know why C. B. Dean, operator of the Midget Market on Academy Street has been playing marbles. There is to be a marble tournament. Shucks, some of us are either too young or too old.

Irvin Fisher, operator of the Newark Newsstand is taking Herman Handloff's place at the Chestnut Hill Observation Post and yesterday Irving had as his partner Mike Plinick. Sureshot does not know what they did out at the post but you can just bet they did not miss any planes.

6,000 LACK NEW TAGS

Car Inspection Now Necessary

Nearly 6,000 of the 36,000 motorists in the state with tags which expired at midnight Friday have failed to renew their licenses, officials of the State Motor Vehicle Department said this week.

Of this number nearly 4,000 are in New Castle County.

All persons with tags which expired last Friday night who apply for renewal now must have their automobile inspected at one of the inspection lanes at Eighth Street and Bancroft Parkway, Wilmington; Dover or Georgetown.

Application for renewal of operators' licenses are now being received. Present operators' licenses expire May 31. About 6,000 of the 105,000 licensed operators of the state have received their new licenses. Application may be made by mail.

O.P.A. Ends Inspection Of Passenger Car Tires

The Office of Price Administration is abandoning its passenger car tire inspection program, a spokesman said this week.

Effective April 20, only motorists wishing to obtain replacement tires will be required to submit inspection certificates.

All other inspections are being eliminated, it was explained, because the average driver now is taking good care of his tires in an effort to make them last as long as possible.

"The inspection program has served its purpose and can now be dropped," the spokesman said.

Requirements of the program have called for tire inspection every six months for motorists with A gasoline cards every four months for B car motorists and every three months for C card holders.

WHY telephones are hard to get

The telephone business is deep in the war and getting deeper all the time.

The farther American forces advance, the more switchboards, wire and telephones they need. And folks at home seem to want more, too.

Since the National Defense program started in 1940, we have supplied the needs of Army, Navy, war producers and most others. In all, the Bell System has increased the number of telephones in service by over 4½ million.

The equipment to do this came from reserves that are about used up. Production for normal civilian needs has all but stopped. That's why we can't fill orders as fast as we'd like.

But we're doing all we can to serve as many as possible as soon as possible by—

Reconditioning and using every facility that will give good service.

Recovering facilities quickly when service is discontinued.

Converting one-party lines to serve two or more families wherever possible and necessary.

Operating central offices at maximum capacity.

Taking extra-good care of equipment that can't be replaced.

Nobody likes to stand in line. But it's different when the line forms behind our fighting men.

MEXICAN LABORERS HOUSED AT NEWARK

117 Mexicans Arrived Here This Week For Track Work

A group of 117 Mexicans are now housed in pre-fabricated cabins south of Newark and East of the South Chapel Crossing of the Pennsylvania Railroad and are a part of 499 Mexican workers who started work yesterday on the Maryland Division of the railroad.

The group at Newark are a part of the many citizens of Mexico who volunteered to come to the United States after their government broadcast appeals on behalf of the railroad company.

Thousands of men volunteered at a huge stadium in Mexico City, and the workers sent here were selected from this group after careful examination.

Some of the men who came to do maintenance work on the railroad tracks are farmers, weavers, silversmiths, and potters.

An official of the company said the men will be paid 63 cents an hour on a 48-hour-a-week basis. He added that they have come with the approval of the railroad brotherhood and are not required to join.

Since most of the men do not speak English, each group of 20 has elected an English-speaking leader to represent them.

One of these leaders, Vincente Diaz Alcalá—an engraver and designer of clothing by trade—formerly worked with the Santa Fe Railroad. He explained the position of the men under him:

"They are all happy and satisfied and are happy to be of some use to our neighbor, the United States."

He also said the money they will earn is badly needed back home, since most of them have large families.

He admitted, however, that one of the chief concerns of the men is their food:

"We want at least one Mexican in the kitchen to prepare the food we like. American food—it is very good except a little bit dry. Mexican food is very soupy—and excellent."

The men at Newark are living eight to a house with double deck bunks which a few hours after their arrival were gay with native serapes and hand-made decoration.

Tin Can and Papers To Be Collected

The collection of flattened tin cans will be continued in view of the urgent need for this material. Town trucks will collect cans on the first Monday of each month. This change in date will not affect trash collection. Collections in sections of Newark not visited by the town trucks will take place the same day.

The next collection of scrap paper will take place on Sunday afternoon, April 16 at that time the entire town will be canvassed due to the fact that bad weather curtailed the collection of scrap last Sunday.

Newport, April 6th — D. J. Richey, Principal of the Krebs School, is making a plea to parents of the community to cooperate with the school in its efforts to secure additional dishes for use in the cafeteria, and has sent notes home with the children asking for donations of small dessert dishes, bowls, and small and large plates. It is necessary to replenish the stock of dishes due to the fact that children sometimes break their dishes, and funds are not provided by the State for this purpose.

Mr. Richey, Principal of the Krebs School, has announced that the school will be closed for Easter Vacation on Good Friday and Easter Monday, April 7th and 10th.

Mrs. Phyllis Heck, Supervisor, was a visitor at the Krebs School Friday, observing methods of instruction.

Miss Charlotte Mahan who has recently returned to her home from the Delaware Hospital after an operation, is convalescing at her home, Mrs. E. Spencer Cochran of near Newark, Del., mother of Mrs. Leslie Mahan, is a patient in the Delaware Hospital, suffering from a fractured hip. She has also contracted pneumonia, but her condition is reported improved.

FUTURE FARMERS TO REPAIR MACHINERY

Annual Banquet Is Planned For Wednesday April 19

The Newark Chapter, Future Farmers of America held their regular monthly meeting last Thursday night in the Chapter rooms in the Main Street School building.

The principal discussion at the meeting concerned the plans for the annual F.F.A. banquet which will be held on Wednesday evening, April 19.

It was reported that the F.F.A. Co-operative Seed Service had been a success and at the present time more than \$600 worth of seeds have been sold through the service. Indications point to an even larger sale for next year.

John E. Lawrence, instructor of vocational agriculture at the school and faculty advisor for the local F.F.A. chapter reported on the chicken hatchery which the chapter operates and stated that the hatchery program was proving very satisfactory.

Earnest Whiteman was a guest at the meeting.

For the past week F.F.A. members and Ag students have been pruning trees throughout the surrounding country.

It was reported that the farm machinery repair shop had been completed and everything was in readiness for the repair of any farm equipment. Many members of the chapter have already brought in farm machinery from their own farms for repair. Large overhead doors have been installed at the rear of the building and farm machinery can now be unloaded direct from trucks onto the floor of the shop.

Farmers needing farm-machinery repaired are urged to contact members of the F.F.A. chapter or Mr. Lawrence the instructor.

The chapter voted \$10 as prize money for the local public speaking contest which takes place each year. The first place winner will receive \$5; second place \$3 and third place winner will receive \$2. The winner of the local contest will compete in the state and regional contests.

BAHAMIAN FARM LABOR AVAILABLE

Certificates Of Need Must Be Filed 30 Days In Advance

Definite allotments of foreign farm laborers for use in Delaware this year have already been made by the War Food Administration, but until farmers submit specific requests for this help the workers cannot be released to the State.

"Delaware farmers have already been asked to notify county agricultural agents of their labor needs as a guide for local recruitment," says George M. Worrlow, acting associate director of the Delaware Agricultural Extension Service, who is responsible for the general administration of the emergency farm labor program in the State. "In the case of foreign labor, no further action can be taken until these requests or contracts are completed."

These certificates of need must be submitted at least thirty days in advance of the desired date of delivery of the workers.

Allotments to states are based on needs for meeting production goals and the total number of laborers which the Office of Labor hopes to recruit. Delaware's share is as follows:

April 1-15 100 July 16-31 750
April 16-30 100 Aug. 1-15 800
May 1-15 100 Aug. 16-31 900
May 16-31 100 Sept. 1-15 800
June 1-15 100 Sept. 16-30 500
June 16-30 300 Oct. 1-15 300
July 1-15 250 Oct. 16-31 200

If recruitment falls short of the 87,000 goal to meet estimated national needs, these state allotments will have to be reduced.

The workers allotted to Delaware will be Bahamians. Last year about 300 of the Bahamians were used, chiefly in Sussex County, with satisfactory results. Farmers acquired the workers from the camps last year on a "first come, first serve" basis, using them in whatever size groups they wished—more than 28.4 per cent were used in groups of less than 10; 55.7 per cent in groups of less than 5.

Camps will be located at Woodside and Coolspring, as they were last year, and possibly a new camp in the vicinity of Milford. Farmers can either transport laborers from the camps or furnish private housing, deducting "keep" from the workers' pay.

Requests at this time will, of course, be tentative. Changes may be necessary later as the crop season advances. But right now farmers need to notify county agents as accurately as possible how much labor they will need, for what jobs it is to be used, and at what times it will be needed.
