## PLAYERS' REHEARSALS UNDERWAY

"Flight To The West" To Be Presented Here

Dr. C. R. Kase, director of dramatics at the University of Delaware, has announced that rehearsals have begun on Elmer Rice's "Flight To The West", next presentation of the E-52 Players, to be given on Friday evening, May 16, in Mitchell Hall.

Dr. Alvin Kronacher, formerly a prominent director in Germany who fled several years ago from that country, is directing the play, which is itself a story of European refugees fleeing by airplane from an oppressive government.

"Flight To The West" is appearing currently on the Broadway stage, and is being presented by the E-52 Players through a special arrangement with the author. Dr. Kronacher visited Elmer Rice in New York City last week to discuss the staging of "Flight To The West". Mr. Rice told Dr. Kronacher how he had consulted with officials of the Pan-American Airways concerning design of the set, which is the interior of a trans-oceanic air-liner.

Also two members of the cast, Miss Edith Coughlan, of Newark, and Miss Josephine Emerson attended a performance while in New York City last week.

Miss Phyllis Wood, of Women's College, is assistant to the director, Dr. Kronacher. It was Miss Wood who, with other members of a committee, selected the play for E-52 production: Miss Willard, Ned Cooch, Sol Markowitz, Frank Amann, Ralph Margolin, Edith Coughlan, Mina Press, Helen Adams, Jane Hastings, Margaret McDermott, and Anne O'Daniel.

IN VILLAGE, town, and big city—on farms and on the highways... wherever you look, you see Ford Trucks at work. There are more Ford Trucks at work on the nation's hauling jobs than trucks of any other make!

It's no wonder Ford Trucks are as popular on Main Street as on Broadway! And they'll add to their popularity once you try them on your job. See your Ford Dealer today.

## SHALL STRIKES IMPERIL NATION?

Borrowing from the thought of Lincoln, as expressed at Gettysburg more than three quarters of a century ago, it may now be said:

Eight score and five years ago our fathers brought forth on this continent a new nation, conceived in Liberty, and dedicated to the proposition that all men are created equal.

Then it was the crisis of a great civil war—now it is the crisis of totalitarian threat from without, and labor strife within our own borders, that is "testing whether that nation, or any nation so conceived and so dedicated, can long endure."

In these crucial days when the fate of our nation hangs in the balance, when millions of people in Europe have already been deprived of liberty of thought and action, and when the surviving remnants of democracy are fighting desperately for self preservation, a small minority in the United States is permitted to wreak havoc with the national program of industrial production of war materials, vital to defense and aid to Britain.

If Hitler were, at the moment, directing the affairs of the United States in his own interests, he could ask no greater show of sympathy and co-operation than is now being evidenced by the numerous strikes in essential defense industries, the violence associated with the Bethlehem Steel and the International Harvester strikes, the internal dissension in the ranks of organized labor and the revelations of racketeering methods used in collecting exorbitant initiation fees and dues in connection with construction work on government projects.

If Nazi, Fascist and Communist hirelings were seeking a way to weaken this nation in its determined course to safeguard itself from aggression and also to give all possible aid to Britain and the other embattled democracies, they could pursue no more effective course than to foment the disunity being evidenced by strikes in defense industries, or in the production of materials necessary to the steady maximum output of these industries.

But it is not Hitler, Mussolini or Stalin who is directing the course of this nation—nor are Nazi, Fascist or Communist agents or sympathizers assumed to have a voice of authority in either of the antagonistic labor organizations.

It is President Franklin D. Roosevelt who is the executive head of this nation and also commander in chief of its military forces.

A recent statement by President Roosevelt bears repeating, for the emphasis it merits:

The determination of America . . . must not be obstructed by unnecessary strikes of workers, by short-sighted management, or by deliberate sabotage. . . Let me make it clear that the nation is calling for the sacrifice of some privileges but not for the sacrifice of fundamental rights. That kind of sacrifice is for the common national protection and welfare; for our defense against the most ruthless brutality in history; for the ultimate victory of a way of life now so violently menaced."

And President Roosevelt also said: "Wise labor leaders and wise business managers will realize how necessary it is to their own existence to make common sacrifices for this great common cause."

Germany has no labor unions. Russia has no labor unions. Italy has no labor unions. The privilege of groups to organize and bargain collectively, and the "right" to strike, are accorded only to people who are adjudged capable of self government and who evidence willingness to proceed, in orderly manner, to exercise their privileges and rights under the law.

The time is again at hand for every American, in whatever capacity he may serve, to at least temporarily put bickering, greed and self interest in the background and to once more become "dedicated to the great task that lies before us . . . and to highly resolve that this nation, under God, shall have a new birth of freedom . . . that government of the people, by the people, for the people, shall not perish from the earth."

## HOLIDAYS ON MONDAY

There is a movement on foot to bring about the celebration of all holidays on Monday, so as to provide more three-day vacation periods, such as are now enjoyed in connection with Labor Day, which always falls on a Monday.

Several of our holidays are now observed on Monday when the calendar date falls on Sunday, and there seems no good reason why the others might not be similarly celebrated on the Monday nearest to their calendar date.

After all, such an arrangement would do little violation to sentiment, as no holiday or anniversary is ever observed exactly on time, owing to the imperfection of the calendar year. The true or astronomical year is 365 days, 5 hours, 48 minutes, 45.5 seconds, being the period of one revolution of the earth around the sun. The ordinary year of 365 days and the Leap Year of 366 days are both incorrect.

It would not detract from the significance of a holiday to observe it on a day other than a usual date, while it would a practical convenience to celebrate all holidays on Monday. The significance of Easter, for example, is not altered by the fact that it may occur as early as March 22 or as late as April 25.

The change to Monday holidays is advocated by the travel bureau of the Department of the Interior and several commercial organizations. Anyway, the idea seems worth considering.

UNFORTUNATELY, OUR FIELD IS limited by Ogdetown on the east, the water tower on the west, the creek at our north, and the P. R. R. bridge on the south—and the extent of this catastrophe is even more emphasized when this season of the year rolls around.

Ordinarily, the present state of lethargy wouldn't have developed until sometime in May—but this early-April heat has got us feeling like that nag that shuffled away with our last two-spot at Delaware Park last year.

We're not the only sluggish citizen who's feeling the ravages of this premature temperature boom, however, and judging from what we've seen, others are unanimous in their decision that spring is here.

Optimistic Mike Milnick, local shoe merchant, has had his white footwear on display since December 26—or did he forget to take them out last season?

It took Bob Connell exactly 46 minutes to crop our wool the other day—and the conversation that usually flows freely around Len Possett's barber shop was slowed down to a walk.

Robins and other members of the summer bird family have taken up permanent residence—guys and gals are startin' to meander—and the coke business is on the way up.

Spring has come!

Unfortunately, we don't know the meaning of such lengthy words as "unpretentiously" or "witenagemot" or we could use them in a sentence and simplify this problem of filling space. However, words such as "figuerativeness," "horripilation," "hypophosphoric," and "hypercatalectic" are always good and, you'll have to admit, serve the purpose.

At the editor's suggestion, and by special permission of the copyright owner, we present a picture of his mind on a hot day:

When words form sluggishly into phrases; when phrases balk at becoming sentences, and sentences drag slowly into paragraphs, we're forced to resort to a few simple tricks of the trade—tricks with which you have completely familiarized yourself in the five years we have been banging at this column.

Indenting both sides of the column is always a sure-fire space filler—the more space you want to fill, the more you indent and the more silly prattle you ramble off.

SETTING COPY IN CAPITAL LETTERS IS ANOTHER WAY OF MAKING SOMETHING FROM NOTHING—ESPECIALLY IF YOU KNOW THE MEANING OF WORDS SUCH AS "CACHINATION" AND CAN USE IT IN A SENTENCE.

If you're still stuck, you can try just indenting one side of the column, then the other.

But best of all, is the old stand-by—the lead or slug—which creates nothing but blank spaces between your lines—there's no better way—any printer will attest to that, and we'll have to admit it makes a more digestible piece of reading than some of the incoherent paragraphs we have to bang out.

Yours for longer and cooler spring-times.

## BLUE AND GOLD THINCLADS DRILLING FOR OPENER WITH URSINUS NEXT WEEK

Scheduled To Invade Collegeville  
On Thursday; 40 Candidates Now  
Working Out Under Coach Ed  
Bardo; 5 Dual Meets Scheduled

Scheduled to make their 1941 debut at Collegeville, Pa., next Thursday, a squad of 40 University of Delaware track candidates is being sent through its paces daily on Frazer Field.

A small group of lettermen who will form the nucleus of this year's contingent is headed by Capt. Bill Gerow, crack quarter and half-miler. Others in this group are: Carty Douglass and Ames Betts, joint-holders of the school high-jumping mark and both capable hurdlers; Guy Wharton, javelin and discus; and Marty Vaughn, fast-stepping sprinter.

Other members of the squad are:

Distance men—Poe Tyndall, Norman Lord, Norman Maxwell, Del Stearns, Joe Kielbasa, Geen Fernandez, Joe Houlihan, Dick Aydelotte, and Howie Smith.

Dash men—Harry Rambo, Art Millman, Dick Joyeuse, Buck Weaver, and Harry Smith. Hurdlers—Jack Phillips, Al Hollingsworth, Harry Adams, Dick Wells, Will Scott, Clint Schoolmaster, Tom McCarthy, and Al Reutter.

Weights—Lee Baer, Marvin Zeitz, Jim Mullin, Milne Schmid, Art Krause, Charley Walton, Charley Mundy, Leon Heck, Bob Furman, and John Annand.

Five dual meets, two of which will be staged on Frazer Field, are on the Hens' card this year. Following the battle with the Bears next Thursday, the Blue and Gold will be represented at the Penn Relays on April 25 and 26. Dickinson College is slated to entertain the local on April 30, while Johns Hopkins will invade Newark on May 6. On May 9 and 10, the Middle Atlantic States championships will be staged at Muhlenberg College, Allentown, Pa., after which the Hens will play host to Washington College on May 13.

Coach Ed Bardo is expected to send a delegation to the Mason-Dixon Conference meet at Baltimore, Md., on May 17, and the Hens will wind up the season in Philadelphia on May 24 when the tangle with Drexel Tech.

Another spring sport will make its debut next Thursday when the Blue and Gold tennis team entertains Villanova College on the local courts. Practice under Coach Ralph W. Jones was started Tuesday.

Included in the list of lettermen are Capt. Al Mock, Tommy Jordan, Bob Walls, Truxton Boyce, and Bill Habicht. Other promising candidates are Dick Reed, Bud Haines, Don Long, Dick McHugh, and Bob Smith.

When asked by a montreal judge how long she had been married and why she was seeking a divorce, Mrs. Pierre Riendeau, 79, replied: "Sixty years, and enough's enough."

## HENS DROP FOURTH

The University of Delaware baseball team dropped its fourth decision of the season yesterday afternoon when Dickinson College turned in a 10-inning, 5-4 conquest at Carlisle, Pa.

Outs, 14-8, the Hens made a battle of it and stayed in front until the last half of the eighth when the Red Devils drove across three tallies to knot the count at 4-4.

Jack Daly, who worked on the mound for the Hens, held the Pennsylvanians to three hits in the first seven innings when the fireworks broke loose.

Freddy Mitchell and Conrad Sadowski each collected two hits for the Hens, while Sadowski and Bill Tibbitt also connected for three-base blows.

## Mitchell Elected Captain At Delaware

Freddy Mitchell, who has performed for three years at a guard position, has been elected captain of the University of Delaware basketball team, it was announced yesterday.

A junior, Mitchell returned to school this year following a year's absence due to a mysterious eye ailment. He is currently performing at shortstop for the Blue and Gold diamondmen.

## JERSEY REGISTRATION

A. E. Tomhave, acting head of the University of Delaware animal and poultry industry department, advises Jersey cattle breeders to make sure that herd sires now being used in service are properly qualified to sire bull calves eligible for registry. Professor Tomhave adds that breeders will do well to see that bred dams have either Dairy Herd Improvement Association or American Jersey Cattle Club production records that are high enough to permit their sons to be registered under the selective registration plan that becomes effective on January 1, 1941.

Animals should be selected with a thought as to the eligibility of their bull calves for the official national Jersey herd register. Professor Tomhave says he will be glad to help any Delaware Jersey breeder who may want assistance when applying the selective registration plan to his herd.

## Outstanding Hen Diamond Performers

Hugh Bogovich

Highlighting the University of Delaware's annual southern baseball trip from which the Hens returned with a record of three wins and the same number of losses, was the work of Hugh Bogovich, southpaw hurler, and Tom Skripps, catcher and first baseman.

The moundsman, handicapped by illness last season, turned in two victories on the tour and promises to develop into the most dependable curve artist on the squad. Skripps, who worked behind the plate and turned in some heavy hitting, has been shifted to the initial sack due to the injury of Greg Hillman.

## AAA FIGHT FAILS TO INTERRUPT RACE CARD

Fine Declared  
Unjust By Ralph  
Hankinson; Even  
Now "Open"

Reading's big car auto race, before staged under the sanction of the American Automobile Association test board, will be presented as "to the world" events, Sunday, April 20, as a result of an altercation which sprang up last week between Ralph Hankinson, the promoter, and the board officials of the AAA.

The rift between Hankinson and AAA developed when Hankinson refused to pay a fine imposed upon him which he terms as unjust and without basic foundation. Meanwhile, Ted Len, secretary of the AAA test board, announced in Washington Saturday that the Reading sanction had been refused after Reading had refused to cancel sanctions for a track which were requested Sunday.

In diverting from his usual card of staging only Three-A sanctioned races, Hankinson places just restriction on next Sunday's page. Entries will definitely close when reach the 100 mark.

Hankinson has conferred with officials of various sanctioning bodies who offer the well-known promoter the facilities at their disposal. Hankinson, in turn, has ordered the erecting of 5,000 additional bleachers and predicts "the greatest field, the greatest crowd and the largest purse" offered at Reading.

## STUDENTS ACTIVE

Pupils of grades one, two, three and four accompanied by Nellie Appleby and Jeannette Rodenhiser, teachers, took a trip to Wilmington last week to the Huber Baking Company. This trip climaxed a project which these grades have been working on for some time.

The seventh grade has just completed a panel in art depicting the village of Christiansa as it appeared a number of years ago, when the Christiansa Creek was used by large boats carrying cargoes of coal, feed, oysters, etc. At this time there was a wharf where these products were unloaded, in this village. Many older residents in the community were very helpful in imparting information concerning the early days of this area. This panel will be placed in the auditorium on the wall.

Mrs. Margaret Ford, director of the club and teacher of grades five and six and Allen L. Jones, principal of the school, will accompany the pupils on this trip.

Another Mighty Power...  
**FARMERS' PURCHASES**

Each year you buy a tire or two, a few gallons of oil, a little paint, perhaps some fence.

These purchases of yours, together with those of other farmers, run into millions of gallons of oil and paint, hundreds of carloads of steel, wire, fence and roofing, thousands of dollars worth of poultry and barn equipment—a total purchasing power as great as any industry.

The power is there—but you could not use it until it was correlated; you had to choose a workable method, form an organization, select men to run it, and build up enough capital.

Now, through the Southern States Cooperative, which you have built, you have buyers working for you on a tremendous volume of purchasing. They buy on specifications acquired

From experiment stations  
From industry  
From farmers

—they find out what kind of goods will best fit farm needs. And they have volume enough to insist that the goods be made the way you want them.
