No. 8

Freshman Nominees For Office to Speak On Monday in Mitchell

Four presidential candidates and fourteen candidates for other class offices have been nominated by the Freshman Class Elections will be from 8 a. m. to 4 p. m. on both Nov. 11 and 12 in Mitchell Hall.

The students nominated for president are Charles Long, Al "Whiz" Wisniewski, Douglas A. Watson, and Lee Stetson. They will speak at the Election Rally to be held in Mitchell Hall on Monday at 4 p. m., so that the Freshman voters may become better acquainted with them.

PRESIDENTIAL CANDIDATES

Al "Whiz" Wisniewski, from the school of arts and science, is a member of the freshman wrestling team. Al is from Wilmington, and commutes to and from the university.

On the 4-'63 ticket for president is Douglas A. Watson, who is the social co-chairman and public relations chairman of Sharp Hall. In the school of arts and science, Douglas participates in the Delaware Rifles.

Lee Stetson, from Springfield, is also of the school of arts and science, and is the social chairman of Harter Hall.

Treasurer of Sharp Hall, Charles Long is from Chester, Pa., Charles participates in inter-collegiate basketball and intramural football, and sells programs at the football games. He is a member of the Canterbury Club and is in the school of agriculture.

VICE-PRESIDENT

A member of the freshman swimming team is Dick Feeny. Dick, school of engineering, is from Newark.

Dick Barron, another vice-presidential candidate, is in the University Marching Band and Concert Band, and has worked on the Players for Delaware Committee. Dick is in the school of arts and science, and is from Middletown.

In the school of engineering, Ronald Rust is from Milford.

Ronald plays intramural football, and has participated in the Sharp Hall float committee.

TREASURERS

On the ticket for treasurer is Madeleine Baker, of the school of arts and science. Madeleine is from Newark and is a member of the Commuters Club and Women's Chorus.

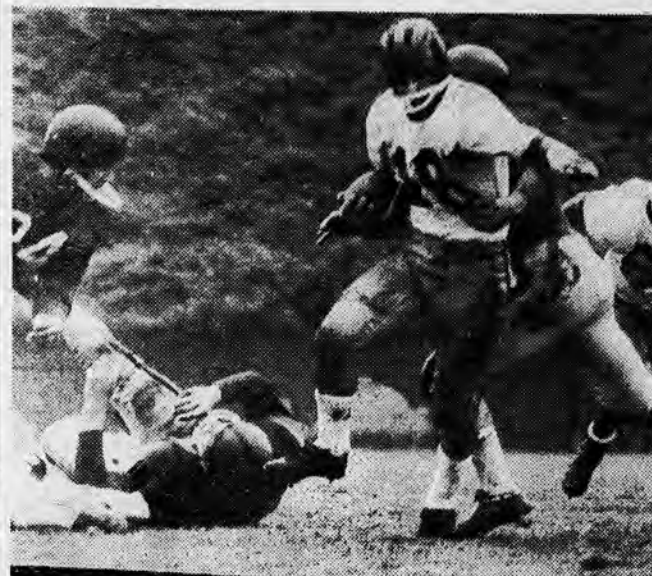

Howie Gilles, a vendor at football games, participates in swimming and inter-dormitory football. In high school, he was homeroom treasurer and sports editor. Howie is in the school of arts and science and is from Media, Pa.

A member of the Freshman Guide Service and the Westminster Foundation is Isabelle Cadwallader, another candidate for class treasurer. "Izzy," from Philadelphia, Pa., is in the school of arts and science.

Howard Hudson, arts and science, is a member of the Student Center Recreation Committee, the Delaware Rifles, and the

Hens Host Owls; Attempt To Clinch Championship

BLUES FOR RUTGERS . . . Gary Hebert, surrounded by prone and off-balance Rutgers players, gains five yards in Blue Hens' 34-14 victory over Scarlet.

Blues Lead US Small Colleges In National Poll

Hens Spill Knights For Sixth of Year

Attempting to wrap up the Middle Atlantic Conference championship, Delaware hosts Temple tomorrow, at Delaware Stadium.

The Hens can clinch MAC honors with a win over the cellar-dwellers from Philadelphia. Unsuccessful in 18 games which span three seasons, the Owls haven't topped Delaware since 1951.

Delaware holds the series edge, 7-2, outscoring Temple, 272 to 100. The widest margin of victory for the Hens is 71-7, occurring in 1957, while the Owls shut out the Big Blue in 1950, 39-0.

TOP IN NATION

Previously ranked second nationally in small colleges, the Hens gridders moved into the top slot this week. Mississippi Southern, former leader, dropped its last tilt to Memphis by the score of 21-6.

In quest of further national prominence, Delaware entered the major college ranks to spill favored Rutgers, 34-14, at New Brunswick.

MUDDY TURF

Delaware, in humbling the Scarlet Knights, posted its second straight triumph on a muddy gridiron. Unfavorable conditions do not seem to bother Coach Dave Nelson's hustling ball club, which now boasts an overall mark of 6-0.

Much credit for the fine performance turned in by the Hens is due to the almost flawless engineering of quarterback Gampy Pellegrini. Time and again Pellegrini chose the play that counted at that time. He earned a nomination for All-East back of the week.

Displaying unusual scoring power the Hens scored from all over the field, on runs of 22 and one yard, and passes from 55, and 32 yards out.

HEINECKEN ECAC

Mickey Heinecken earned a

Canadian Players to Produce 'The Cherry Orchard' Tonite

Kate Reid, the brilliant Canadian actress now starring in "The Cherry Orchard", will perform as Celia in "As You Like It" and Amelia in "Othello" at Stratford. The latter performance won praise from many critics as the best individual performance of the season.

Miss Reid, a native Canadian, started her career in amateur theater and won a number of awards including several best actress acknowledgements in the Dominion Drama Festival. She then became a professional actress and worked with a number of stock companies in Canada and the Crest Theater in Toronto. She also appeared in England to play the leading role in "The Rainmaker".

Prior to the season, Miss Reid has been unable to accept offers

from either Canada's Stratford Festival or Canadian Players. However, this season she performed as Celia in "As You Like It" and Amelia in "Othello" at Stratford. The latter performance won praise from many critics as the best individual performance of the season.

Kate Reid

Miss Reid has played many leading roles in Canadian television including a number of dramatic performances, which have brought her notices from all parts of the country.

Two plays from the great classical writers are chosen each year to be interpreted by the Canadian Players. "Othello," "Hamlet," "Macbeth," and "As You Like It" have been presented in the past. This year, Miss Reid will star as Katharina in Shakespeare's "Taming of the Shrew" and as Mme. Ranyevskaya in Chekhov's "Cherry Orchard".

This play, Anton Chekhov's last before his death, has many characters. It is said that Chekhov was a gay and cheerful man. He refers to the "Cherry Orchard" as a comedy, although by our standards, it is sad despite its few flashes of humor.

Tickets for this third performance of the Canadian Players are available at the University Bookstore in the Student Center. Student admission will be \$1.20. All other tickets are priced at \$2.40.

Dover Room of Center to Be Scene of Dance Tomorrow

The Annual Engineer's Ball, this year called the "Slipstick Hop", will take place in the Student Center's Dover Room tomorrow night from 8 p.m. to midnight.

Jack Garnett and his orchestra will provide the music for the third consecutive year. Mr. Garnett is from Claymont. He teaches music in Wilmington.

Jack Garnett

The theme, "Slapstick Hop," was selected from many that were submitted. The author of the theme, David Gray, was awarded a free ticket to the Engineer's Ball.

Tickets will cost \$2 per couple. Dance chairman Dave Pritchett, a junior Electrical Engineering student, said that favors for the young ladies have been contributed by Braunsteins. Dress for the dance is semi-formal.

Dave Pritchett would like to thank the following students who have worked hard with him to make the Engineer's Ball a success. Jack Sirman, John Sontowski, Donald Zipse, Wilson Carmean, Lyle Kelly, John Kalbert, and Frank James on the ticket committee.

Donald Zipse, H. Marvin, "Buddy" Jester, Francis Eastburn, Bill Clineff, Barbara Wilson, Vir.

(Continued on Page 12)

Student Directory Is Now Available

The Directory of Students and Student Organizations is now available at the University Bookstore located in the Student Center.

This booklet contains a listing of all students, both graduate and undergraduate, giving their home and campus addresses and their classification.

A listing is included of student organizations, officers, and faculty advisors. A telephone directory of all university departments is also included.

Directories may be purchased from the bookstore at \$5.00 per copy.

Blaze Lights up Spirited Hens At Pep Bonfire Before Game

A blaze in back of the Student Center tonight will help fire the fighting Blue Hens on their seventh victory.

The bon fire will be held at 7:30 p.m. and all students should come right to the bonfire since there will be no march thru the town.

Kappa Alpha, Sharp, Thompson and Kent won first places at the send-off before the Rutgers game. Theta Chi, Squire and Smyth took second places and New Castle won third place.

The cheerleaders will hold a dance tonight after the bonfire in the Dover Room. Music will be provided by the "round disks".

The admission will be 50 cents and the profits will be used by the girls to finance their trip to the Bowling Green.

NOTE: Six cheerleaders need a ride to the Bowling Green game next Saturday. They are prepared to help finance the transportation. Contact Barbara Bilancioni, captain, 205 Thompson Hall.

Fraternity House Inspections Open Intense Safety Drive

BY KEN STONEMAN

Early in September, the presidents of the nine Delaware fraternities received letters asking them to open their houses for a health and safety inspection. This unique event was the kick-off of an intense safety drive conducted by the newly formed Central Safety Committee under the direction of Mr. H. Eugene Pierce, Superintendent of Buildings and Grounds.

Following the fraternity house inspections, the group returned to the campus and began similar inspections of the residence halls. Priority was given to the housing facilities, because of

the present overcrowded housing conditions, but this program will soon be extended to cover all academic and administrative buildings.

In most cases, the committee discovered that there was a decided lack of proper fire-fighting equipment as well as inadequate exits and inconveniently placed or hazardous fire escapes. Recommendations for correction of deficiencies have been made, and follow-up inspections will be made in the near future to insure that the hazards have been eliminated.

FUNDS AVAILABLE

A special budget item is to be

A research team of eight Delaware students under the supervision of Dr. Blaine G. Schmidt, associate professor of economics and business administration, has completed a preliminary survey of New Castle County areas likely to be affected by the proposed freeways, FAI one and two.

provided for correction of deficiencies noted by the committee, and immediate action will be taken. In the case of fraternities, Mr. Pierce has stated that he feels no follow-up action will be necessary, since he believes that

TEAM WORKS DURING SUMMER

During the summer, the survey team studied 166,165 real estate sales transactions in Brandywine, New Castle, Christiana, White Clay Creek, and Pencader Hundreds and also an eight-block strip of properties within the City of Wilmington.

Dr. Schmidt reported that most of the findings were "about what we expected," but observed that a higher than average sale

the safety of their members will be considered a "moral obligation."

Since most accidents occur in laboratories and classrooms, subcommittees will be formed to work out safety programs in each major building on campus. As an example of the type of work to be performed, a subcommittee on radiological safety has drawn up a standard operating procedure to govern the use of isotopes. In addition, the campus police have been instructed to be constantly on the alert for hazards such as fallen wires, broken paving, improper lighting, and all types of fire hazards.

CARELESSNESS

As might be expected, every student accident that has occurred in laboratories or classrooms since the committee was organized has admittedly been a result of not following safety instructions. Instructors and assistants have been asked to emphasize safety procedures in every possible way.

Present members of the safety committee are: Dr. Kenneth Steers of the physical education department, Dr. Gordon Keppel, University Physician, Mr. Thomas Brockenbrough, civil engineering, Dr. John McClendon, agricultural chemistry, Mr. Norman Seymour, campus police, Miss Clesta Dickson, women's residence director, and Mr. James Robinson, Men's residence director. In addition, a student is to be invited to participate beginning with the next meeting.

PLANS FOR FUTURE

Although the safety committee was only organized recently, Mr. Pierce has stated that he feels a great deal has been accomplished, although much more remains to be done. At this time, the committee is instituting plans for safety training, promotion of interest in safety, and expansion of present preventive and corrective actions.

Any suggestions for the safety program may be given to any member of the committee by dropping a note in the campus mail. Mr. Pierce wishes to urge everyone always to be safety conscious, remembering that "an ounce of prevention is worth a pound of cure."

of properties in recent years is taking place in rural areas "in anticipation of the building of the freeway."

For the purpose of the study, the researchers developed what they call an impact area. In the county this impact area is roughly a two mile wide strip of properties likely to be affected by the freeway. Within the impact area, two zones of influence were marked out. Impact Zone I is defined as being in direct contact with the freeway and it is anticipated this zone will experience some changes in land utilization and an increase in land values.

Zone II, somewhat removed from the freeway but still considered potentially under its influence, is expected to experience a lesser transition in land utilization and development. In the City of Wilmington, each zone consisted of two blocks on either side of the proposed freeway. In addition, both city and county impact areas were further sub-divided by neighborhood characterizations.

COMPARE PROPERTIES

To obtain comparability between rural and urbanized properties, the research team reduced all valuation data to a per square foot basis. The purpose of this initial phase of research is to provide the researchers with "a yardstick" against which to measure future changes in land use, and land valuation.

During the summer the survey team also interviewed businessmen along the DuPont Parkway between Farnhurst and the junction of Routes 13 and 40, to determine their attitudes toward the freeway and its possible impact on their businesses. Three classes of business establishments which obtain the bulk of their income from transient traffic were contacted, filling stations, motels and eating places.

SURVEY TEAM QUESTIONS

Questions asked by the survey team covered one past and present business activities, income trends, improvement of facilities, and plans for the different businesses after construction of the freeway. While most owners and managers anticipate a temporary decline in trade when the freeway first opens, they also believe that business will revive in time. Many stated that they will continue to improve their facilities in an effort to attract the public and meet competition.

Other studies on the effect of the freeway will be made during the next several years as additional data is collected and evaluated. The survey is being conducted by the University's Bureau of Economic and Business Research under the sponsorship of the Delaware State Highway Department in cooperation with the Bureau of Public Roads.

The Review Delaware

The Undergraduate Weekly of the University of Delaware

Top-rated

Singers and Gridders

The University of Delaware has many sources of pride. Academically, it is ranked among the finest universities of the United States. Its chemistry department is second to none. Its English department is outstanding.

On the extracurricular side, the university's choral groups, under the direction of Dr. Ivan Trusler, are as good as any collegiate groups in the nation; and the football team, under the tutelage of Dave Nelson, is rated first among the small college teams of the land.

On Wednesday evening, three university choral groups, under the direction of Dr. Trusler combined to give a concert in Mitchell Hall. The Concert Choir and Varsity Chorale displayed versatility in the well-planned program.

The choir began the concert with Franz Schubert's Mass in G. In the same heavy vein the Women's chorus, Madrigal Singers (directed by a junior, Anne Tatnall), and chorale succeeded the choir. The rendition of "The Creation" as given by the fifteen men of the chorale was especially pleasing to the ears. The music seemed to paint the picture of the creation described by the words.

The climax of the concert occurred with the chorale's hand-clapping performance of "Sit Down Servant". This light piece received the loudest ovation of the evening from the large audience. So well was the up-beat song received that the chorale sang "There Is Nothing Like a Dame," which was not listed on the program.

The Choir concluded the evening's program with a medley of popular songs from KISMET, among which was the beautiful, "And This Is My Beloved."

Our only objection to the program involved the closing number, "Polly-wolly Doodle," which although well done, seemed a little out of place. We felt that the program should have concluded with the KISMET medley. However, this is a minor objection. We congratulate Dr. Trusler and the many outstanding student voices under his direction for an outstanding concert.

Last Saturday the football team humbled a highly-rated Rutgers team, 34-14, and therefore jumped from second place to the top in the United Press International small college poll.

The running of the 'Three Rushniks', the blocking and tackling of the 219-pounds-per-man line, and the ball-handling and faking of quarterback Gampy Pellegrini were such that the spectator in the stands got the impression that the Blue Hens could handle Rutgers almost as they pleased.

At times the Scarlet were so baffled by the Hen attack that they turned their heads from side to side trying to locate the ball. When they weren't baffled they were overpowered.

Tomorrow's opponent, Temple, should fall to the Blue Hens, but Bowling Green, next week's foe, is ranked seven points better than Delaware in the comparative point ratings, and only a couple of notches behind the Hens in the UPI poll. The winner of the game will probably be crowned Small College Football Champion of 1959.

As the clown would say, "Get juiced, Blue Hens." But don't neglect Temple.

DSH

Gray, Bonney Head Campaign

Peter Gray and Yogi Bonney will head the Campus Chest campaign this year.

Sue Moore was elected secretary at the first meeting which

was held last week in the Student Center.

The committee has decided to write to a national survey on charities, in order to find out information concerning the charities which have been chosen for consideration.

The annual campus carnival has also been re-scheduled as a part of Spring Weekend.

Letter to the Editor

I am in full accord with the relaxation of the bermudas' regulation. Why must we put on a show of formality? Our character will not be affected by bermudas nor will the prestige of the university be harmed. I would like to be given a valid reason why bermudas are not allowed in Our Student Center other than the Scrounge on weekdays.

Gail Tigani

Editor's Comment: Have you seen the Student Government Standards Committee?

To the Editor

In response to Jo Ellen Lindles request for opinions on the wearing of bermudas I would like to add the following remarks.

As the rules stand now, the university coeds are not allowed to wear bermudas at any place in the Student Center except the Scrounge. But in order to get to the Scrounge it is necessary to walk through the halls and if one wants to be technical, walking to the Scrounge in bermudas is an infraction of the rules.

The Student Center is exactly what its name implies — a center for meetings of activities, meals and relaxation. Yet, only one area, The Scrounge, is set aside for the wearing of bermudas, while the lounges, record room, basement and upstairs are taboo. It seems as if bermudas were considered an extravagant form of dress, yet skirts can be far more flamboyant than sport clothes like bermudas and slacks.

While it would be desirable to be able to wear bermudas in the library uptown and to breakfast, my main interest is to be allowed to walk anywhere in the Student Center without being restricted to one small area.

If need be, set a standard of how many inches above the knee the bermudas must be as they do at the University of Miami.

It is realized by the students that standards must be kept up but wearing bermudas in our own Student Center doesn't appear to me as being a devastating lowering of the rules.

Betsy Pilat

Ed. Note: A fine idea, Betsy. We suggest you supply rulers for male students.

To the Editor:

Delaware is known throughout the East as an excellent academic college. Our school is filled with potential. As far as facilities are concerned, students from other campuses readily admit that our dormitories, student center, and academic buildings are as nice and, in some cases, better than their own.

Campus population is comparatively small but notably increasing every year. It seems as if only one phase of life on campus has reached a standstill. This is the social life.

The consensus of opinion from students themselves and the faculty composed of faculty, parents, and benefactors is that the main purpose of college, is education. However, conceding that this does not mean that there are no aspects of education other than diligent study.

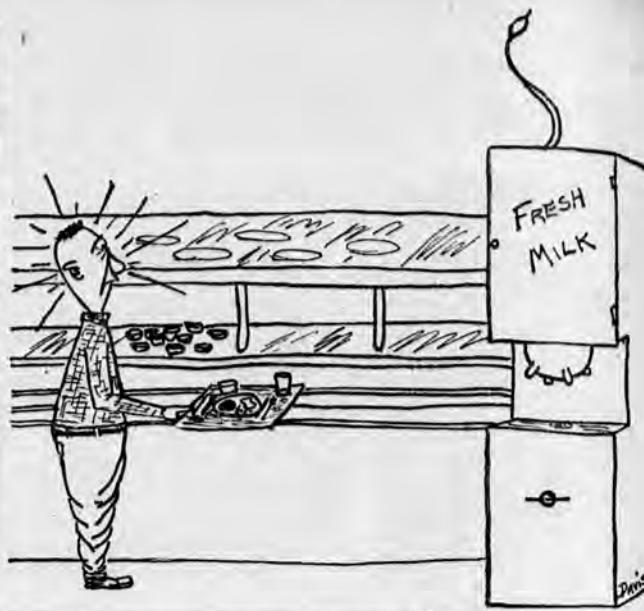

Reputedly, what we are experiencing right now should be one of the most enjoyable and informative periods of our lives. Obviously, we're not irresponsible adolescents or we wouldn't be here. Education isn't a synonym for constant study. Education means knowledge but it includes diversity.

SOCIETY AN INSTITUTION
Let's face the music. Society's an old institution and it's here to stay. Why don't people get enthused about coming social events? Perhaps because they seem to follow a standard pattern.

What is this all leading up to? Just this — perhaps the girls on campus don't realize it, but they have an opportunity to inject spirit into the lagging social vein. How? Why not look into the possibilities of sororities?

If the girls would view the topic with open minds, perhaps definite steps could be made to find out exactly what sororities are and how they affect every aspect.

(Continued on Page 12)

Offstage Notebook

By GEORGE SPELVIN

Bette Davis and Gary Merrill, as their advance publicity states, have probably come up with the year's most important dramatic event with "The World of Carl Sandburg." Along with Clark Allen, singer, and Norman Corwin, director, they have created a beautiful evening of entertainment out of a cross-section of Carl Sandburg's poetry.

Using a minimum of stage properties they covered life from birth to death, from laughter to sadness, and even a bit of the mystical and supernatural. Applause stopped the show many times during the course of the evening. Some of the memorable readings done by Miss Davis were "Martha Wilming's Love Speech", "Monkey of Stars", and "A Hundred Years Ago." Mr. Merrill although somewhat overshadowed by Miss Davis, but not because of lack of talent, delivered moving readings of "A Father Sees a Son Nearing Manhood," "AEE", and "Lincoln: The Prairie Years."

Bette Davis had marvellous control over that strong voice of her's and although she seemed to strain every once in a while, gave shaded intonations to lines that clearly brought out the meaning of almost every word she read. She used small props in extremely good taste such as the white gloves used to simulate cat paws in the poem "Fog" and the white ostrich feather boa to show cheap luxury of a prostitute in "Martha Wilming's Love Speech."

Gary Merrill, looking as though Sandburg might have looked when he was younger, seemed to be a part of every word he uttered. Clark Allen, the third member of the team, sang songs from Carl Sandburg's Songbag with just as much feeling and gusto as Miss Davis and Mr. Merrill delivered their readings.

When asked why he did this, he replied: "A friend of mine, who incidentally is a judge, is a bug on the Dell. He is so grateful to me for contributing that he frequently appoints me Master to hear divorce cases. As I get \$50 for each I hear, the contribution amounts to a few hours work and everything above that is gravy."

"Also, I get two choice seats at every concert and a reserved parking space. And if there is an occasional concert that I do not care to hear, I can give the tickets and the parking space to a client and create some good will."

I understand my uncle is now writing a book to be entitled, "Philanthropy for Fun and Profit."

* * *

Not all theories on racial superiority argue against amalgamation. A case in point is the cosmic race theory, which is popular in some parts of Latin America, especially Cuba and Brazil.

Proponents of this theory maintain that miscegenation encourages natural selection, along Darwinian lines, and that the New World can produce a new race which has only the more desirable characteristics of its white, Negro and Indian ancestors. This cosmic race would be, therefore, biologically superior to the three races from which it originated.

As one might suspect, the theory was put forth as an intellectual justification for already existing attitudes and practices. Scientifically, it is probably as groundless as any other theory on the evolution of a super-race. Yet, there is one important difference: there is much more joy to be found in Rio or LaHabana than in Johannesburg or Tallahassee.

David M. Gray

'Neath the Arches

By MICHELE

Did you get a letter yesterday — a white standard business three by six with your name typed on, from your bank, and (oh my!) brown one with no stamp from Office of the Dean of Students, a pink perfumed one with the stamp on upside down, or a good long letter from home? Did you ever realize that in the basement of the Memorial library, someone for the past ten years has watched some letters, notices, packages, conditions and grades go to every student registered at the University — Mr. Springer. Now he's located in the bookstore, and doesn't see nearly every student's eye peering through his mailbox everyday, followed by a hand reaching in and disturbing the dust, or picking up a daily letter; he doesn't see an impatient student waiting for a package of food, or clean shirts. Stop down sometime soon and meet him — he knows you already by your name and may know your address, especially if you don't tell your mail (or male) "fans" where you live. In this case, your dorm and room must be looked up and marked each time. Try and pass a few minutes downstairs; and perhaps thank our mailman and his helpers for that good letter you did get.

Two senior women have taken a big step towards their future plans in the past week. Two sincere wishes for happiness go to Nancy Scafe, who became engaged to Jack Covert, and Doris Hurst, who married George Messick. Congratulations to George Lord and Joyce Fleetwood, who have announced their engagement.

A thought. Why is it that with less than half the usual crowd for a game, at Rutgers, twice the spirit and twice the noise came forth, but on Friday last, at the send-off, when the players like to know there's so spirit, hardly two hundred people showed up? (Incidentally, forty-five of them were players.)

Do hope I'll see you tonight at Mitchell Hall, tomorrow at another good Blue Hen showing, at the Engineer's Ball, or surely, soon, neath the arches.

KA To Hold House Party

Tonight, Kappa Alpha will hold a costume party with the theme of "Dogpatch." The Brothers and their dates, dressed up as friends of Lil Abner, will take over the Kastle.

And in the best traditions of Dogpatch, the girls will do all the work. In this turn-about party, the preparations will be arranged by the girls.

Music will be provided by the Bob Wagner Combo, a group which is new to the Delaware campus. The party will be from 8 to 11:30 p.m.

Kent Sponsors Cultural Hour Of Travelogue

The Sunday evening Fellowship Hour as announced by Anne Fallott, Cultural Chairman of Kent Hall, will be presented by Vivian Parker, Carol Martin and Suzanne Kleinfelder, Sunday evening at 8 P. M.

Carol and Suzanne visited Vivian during the summer vacation in her home at Rio de Janeiro, Brazil, South America. They will show slides of their trip and all three girls will tell something of their experiences in Brazil.

Mr. and Mrs. Joseph Y. Jeanes, Jr., from Wilmington, sponsors for Kent Hall, have also been invited to give echoes of their recent trip through the southwestern part of the United States.

Dr. and Mrs. Gordon Keppel have also been invited to share this Fellowship Hour with the students at Kent Hall.

Anna May Talawoaski
 Publicity Chairman
 Kent Hall

Theta Chi Has House Party

Theta Chi brothers will entertain their dates tomorrow evening in the big white house on West Park Place.

Music will be supplied by the Corvettes, a combo from Wilmington. Entertainment will be supplied by the brothers; dress will be casual.

Chaperones include Sgt. and Mrs. Lawrence and Mr. and Mrs. Max Beinner.

Attending the party will be the brothers of Alpha Xi chapter, their dates, friends, and invited guests.

Hefti and Dance Band Provide Music for IF Council Dance

Neal Hefti and his band will be providing the music for the Interfraternity Council Ball, to be held Nov. 21 from 8 p. m. to 12 p. m., for fraternity men and their dates in the Dover Room of the Student Center.

Dave Hilt, social chairman, has said, "This year, we contacted Neal Hefti, one of the top big-name dance bands in collegiate circles. We expect the ball to be the feature attraction of this year's campus social season."

Highlighting the formal dance, will be the crowning of the Queen of the IFC Ball. She will be chosen from nine candidates nominated by the fraternities on campus by a panel of judges consisting of members of the administration.

NEAL HEFTI

Chem. Engineers Stage Open House

Among the plans of the American Institute of Chemical Engineers are the engineers' open house, which will be held on Dec. 12, and the presentation of various speakers throughout the year.

These speakers are presented with the idea of acquainting the freshman and sophomore chemical engineering students

with their major, and giving the engineering majors an idea of the senior and junior chemical engineering majors an idea of the variety of jobs in their field.

Officers of this organization are Cliff Kirk, president, James W. White, vice president, Jerry Edison, secretary, and George Wisniewski, treasurer.

Other officials of the club are Francis Eastburn, senior representative to the Engineering Council, and Charles Wolf, junior representative to the council.

Professor Alger to Visit University on Wednesday

Professor Philip Langdon Alger, who holds a joint professorship in the electrical engineering departments of Rensselaer Polytechnic Institute and Syracuse University, will be a visiting scholar at the university Wednesday, Nov. 11.

Summer Tours For Travelers

Summer tours are offered for American students coming to Europe.

"Studiosus" or Student Travel Service is offering its services to the university. However, a representative on this campus has not yet been named.

Students interested in the position would be required to sign a contract and payment would be on a commission basis. His duties would entail advertising our tours and contacting interested parties, such as students and professors. The company will supply him with advertising material and all pertinent information regarding the tours.

Mr. Edmund Moser, publicity director, has requested that interested students send their name, permanent address, age, school and major to Student Travel Service, Chase Manhattan Bank, New York City, New York.

Society's Topic Is Chekhov Play

The Athenaeum Society will hold its fourth meeting of the semester on Nov. 11, at 7:30 p. m. The group will meet at the home of Mr. Stephen Rubin, 24 W. Delaware Ave.

The topic will be Chekhov's *THE CHERRY ORCHARD*, which is currently being performed on campus by the Canadian Players.

This play will be presented in Mitchell Hall tonight at 8:15 p. m.

Economy Student/Teacher summer tours, American conducted, from \$495.

■ *Russia by Motorcoach*. 17-days from Warsaw or Helsinki. Visit rural towns plus major cities.

■ *Diamond Grand Tour*. Russia, Poland, Czechoslovakia, Scandinavia, Western Europe highlights.

■ *Collegiate Circle*. Black Sea Cruise, Russia, Poland, Czechoslovakia, Scandinavia, Benelux, W. Europe.

■ *Eastern Europe Adventure*. First time available. Bulgaria, Roumania, Russia, Poland, Czechoslovakia, Western Europe scenic route.

■ See your Travel Agent or write

Maupintour
400 Madison Ave., New York 17, N. Y.

During his visit, Mr. Alger will discuss the topic, "Modern Philosophy of Energy Conversion Instruction in an Electrical Engineering Curriculum," with senior and graduate students. He will also present a talk on "Modern Educational Methods in Western Europe" at a general meeting with interested students and faculty members.

Significant among his contributions is his development of methods of predicting electric motor performance which led directly to the broad use of electric drives for battleships, to smaller and less costly general purpose motors, to broader application of induction motors made possible by lower starting currents and to larger unit rated turbine generators through use of improved double windings.

As a leader in civic affairs he has championed the causes of better government and good schools. Through his personal leadership as Chairman of the Charter League of Schenectady, he established the City Manager form of government for his home community.

Bands to Overrun Field Tomorrow

The Temple game will be the scene of High School Band Day at the university.

Pre-game entertainment will consist of high school bands from Lewes, Milton, Georgetown, Millsboro, Middletown, Greenwood, and Felton, and the Temple University band.

During half-time, the university band, under the direction of J. Robert King will do a routine centered about interests of a High-Fi Fan.

The theme will be the evolution of a phonograph. From old time selections, the band will play "Mocking Bird." Three speeds on juke box records will be represented by "El Capitan," 78 speed; "How High the Moon," 45 speed; and "Marche Slav," 33-1/3 speed. High fidelity will be interpreted by means of high sounds, low sounds, and volume.

The Temple band will also play during half time.

Photography Club Meets in Center

The Photography Club will hold a meeting Nov. 9 at 5 p. m. in the Student Center.

Students interested in any phase of photography are encouraged to attend.

Photography Club headquarters are located on the second floor of the Student Center.

Routzon Receives Award In Fisher Car Competition

David C. Routzon, senior, has been awarded the senior division first place state award for Delaware in the 1959 Fisher Body Craftsman's Guild model car competition.

The arts and science student received \$150 and a trophy presented yesterday in behalf of the Guild by Dean Bruce Dearing. It was the second time that

Routzon had placed in the national design competition.

The Fisher Body program is designed to interest boys in creative designing and craftsmanship and to offer them opportunities for their practice.

Enrollments are now being received for the 1960 competition with awards amounting to \$117,000 offered to the winners.

Lloyd Speaks To DSNEA

Dr. Lloyd of the State Department of Education will be the guest speaker for the DSNEA meeting on Nov. 12 at 7 p. m. in the Morgan and Vallandigham Rooms of the Student Center.

Dr. Lloyd will be speaking on certification in Delaware.

At this meeting, there will also be an election of the freshman officer who is to act as historian for the organization. Girls nominated for this position include: Dotty Bryant, Lynn Dougherty, and Eleanor McCormack.

DSNEA is sponsoring programs throughout the state in the high schools as part of American Education Week which is being celebrated throughout the nation.

Luyten Makes 'Stellar' Talk

Dr. William J. Luyten, Sigma Xi National Lecturer, will lecture on "Stellar Populations, Dying Stars, and Stellar Evolutions" at Brown Laboratory, Tuesday, Nov. 17, at 8 p. m.

A noted astronomer, Dr. Luyten is Chairman of the Department of Astronomy and Director of Observatory at the University of Minnesota, Minneapolis, Minnesota.

Sigma Xi, sponsor of the lecture, is a national honorary scientific society. The society was initiated on campus last year.

The University of Delaware has issued an official invitation to members of the Delaware Astronomical Society and Mount Cuba Observatory. The lecture is open to the public.

New products create
more good jobs at Du Pont

HOW LONG WILL IT STAY BRIGHT AND SHINY?

That depends, for the most part, on its finish. The most dazzling cars on the road today wear gleaming coats of Du Pont "Lucite" acrylic lacquer. For "Lucite" stays bright and beautiful three times longer than the best conventional finishes.

Like hundreds of other products developed through Du Pont research, "Lucite" has created all kinds of new jobs. Jobs in the laboratory. Jobs in production. And jobs in sales and marketing. Good jobs that have contributed substantially to the growth of Du Pont and the prosperity of our country.

It's an old story. But it's truer today than ever. For the very nature of our business makes research pay off, giving us the courage to "obsolete" products when better ones are found. This is probably why our sales have increased more than tenfold during the last twenty-five years. And for every dollar we have spent on research during these years, we have been able to invest three in new production facilities.

What does all this have to do with you?

For qualified bachelors, masters, doctors, career opportunities are greater today at Du Pont than ever before. There is an interesting Du Pont future for metallurgists, physicists, mathematicians, electrical and mechanical engineers, and other technical specialists, as well as for chemists and chemical engineers.

You probably won't discover a "Lucite," nylon or neoprene, or develop a revolutionary new process, your first year. Nobody expects you to. But you will be given responsibility from the very start, along with training that is personalized to fit your interests and special abilities. Our advancement policies are based on the conviction that you should work at or near the top of your ability. For as you grow, so do we.

If you would like to know more about career opportunities at Du Pont, ask your placement officer for literature. Or write E. I. du Pont de Nemours & Co. (Inc.), 2420 Nemours Building, Wilmington 98, Delaware.

*"Lucite" is Du Pont's registered trademark for its acrylic lacquer.

BETTER THINGS FOR BETTER LIVING... THROUGH CHEMISTRY

Eugene Gilbert Attributes Teens' Failure to Parents

The vast gulf between today's teen-agers and their baffled parents is due to the parents' failure to realize how insecure a world they have produced for their children to live in.

So says Eugene Gilbert, who as a market specialist, has been studying teen-agers' tastes and thoughts for fifteen years. His interest has been in the vast majority of "normal" teen-agers, not the minute percentage who are delinquents.

Writing in the November issue of *Harpers' Magazine*, Gilbert says teen-agers have hastened the growing-up process by early marriages and a greater sophistication because of the threat of the hydrogen bomb.

They are more interested in security than adventuresome careers; they want steady jobs with dependable pension plans, Gilbert says.

The Armed Forces, he points out, have traditionally attracted the restless youngster who wanted to "join the Navy and see the world." He is a vanishing species. So the Army adopted a new slogan: "Retire at thirty-seven." It was highly effective.

Gilbert says that today's teen-agers are adapting "in their own way, to a situation very different from what any prior generation of adolescents has experienced.

Is there not, for example, a certain crude logic in hastening the growing up process in the

shadow of the atom and hydrogen bomb? What meaning have 'patriotism,' 'peace,' and the other slogans of a bygone idealism when the dilemma that faces us is not a matter of winning a war but a survival? To lose one's identity within the pattern of one's contemporaries, to seek the haven of a steady job rather than personal achievement, prize material possessions above abstract principles—these may be the best available safety rafts in an insecure world.

"The wiser of our politicians are learning gradually that one cannot appeal to young voters with the old stock-in-trade of the past twenty years. Many of them have scarcely heard of the New Deal. They are not veterans of any war and don't hope to be. New issues must be defined though just what they are no one has yet figured out.

"Possibly it is time that parents, too, started shifting their sights. Instead of bemoaning the queer ways of their young, it might be more useful to take a hard look at the society in which they are growing up. After all, we made it for them."

Military Society Takes Nine Men

Tony Suravitch, president of Delaware's chapter of the Scabbard and Blade National Military Honor Society, presided over the initiation of nine men into Delaware's chapter.

Initiated as an associate member of the chapter was Captain Reed G. Jensen. In addition to serving as an assistant Professor of Military Science and Tactics, Capt. Jensen will serve as advisor for the chapter. Captain Jensen is a graduate of West Point and is an infantry officer.

The eight cadets initiated were Gerald Harrison, Executive Officer, 1st Battle Group, Robert Tinsman, Executive Officer, 2nd Battle Group, John Bowman, S-3, 1st Battle Group, Steve Welch, S-3, 2nd Battle Group, Donald Taber, Commanding Officer, B Company, 1st Battle Group, Rick Mainwaring, Commanding Officer, D Company, 1st Battle Group, Larry Cordrey, Commanding Officer, D Company, 2nd Battle Group, and Lloyd Bushay, Commander of the Band.

Sophomore Class Intends To Send Student to Russia

The World Service Program sponsored by the Sophomore Class has announced the plans for sending a university student to Russia.

At the recent Sophomore Steering Committee meeting, Roy Adams, president of the sophomore class, discussed the advantages of dealing through public organizations, the guest support of the trip. Through the public organizations the guest student would be permitted to have front seats at a Russian opera, to attend the ballet, to meet officers of the State Department, to see the police organization in action, to visit Russian agricultural displays, and to enter buildings not usually opened to tourists.

The student will also visit Prague, Czechoslovakia, Hungary, Poland, Genoa, Italy, and parts of East Germany.

The final decisions as to the sponsors for the Russian expedition have not been made, but as soon as the committee has made the decision, applications will be available to all interest-

ed sophomores.

Also at the Steering Committee meeting, High School Day was discussed. A meeting of potential guides was held last Monday evening, and Dec. 12 was announced as High School Day.

The decisions for the Sophomore Class award was deferred until the next Steering Committee meeting. Any sophomore having a 2.5 overall and exhibiting class spirit and exceptional personal achievement is qualified for the award. Nominations may be given to Roy Adams including an essay written by the nominator as to why the nominee should receive the award.

Seek Kidnappers

The freshmen who kidnapped Roy Adams, president of the sophomore class, on Sept. 24, 1952 are asked to contact Bob Peck, Blue Hen photographer, in 307 Colburn Hall.

Bob would like to restage the event and take pictures of the event for the Blue Hen.

Hen Yearlings Lose to Bisons

While the Delaware Blue Hens were defeating Rutgers in New Brunswick on Saturday, the freshman chicks were being beaten by the Baby Bisons of Bucknell. The Delaware freshmen lost the tussle by a score of 20-0.

Even though some feel the Hen Frosh played a better game than their opponents they were unable to score. With the passing of Fred Rullo the Chicks chalked up a total of 91 yards in the air, and completed 11 of 24. In contrast, the Bucknell eleven only had 70 yards in the air, completing four out of thirteen heaves.

The Chicks also surpassed Bucknell on ground gains. They ran for a total of 171 yards to the Bisons' 158 yards. Two of Bucknell's touchdowns were achieved by runs. One was a 48 yard jaunt and the other was a 40 yard punt return. The other tally was scored on a plunge after the opponents had set themselves in position with two passes of 10 and 40 yards each.

The Blue Frosh made four sustained drives but were still unable to score a single tally. Delaware's Frosh record is now 1-2.

Dr. Wright Is Guest Speaker

Dr. Verna Wright, an exchange research student of rheumatic diseases at Johns Hopkins University, will be the guest speaker at the Inter-varsity Christian Fellowship meeting on Nov. 19.

The English scholar will deliver the speech entitled "Christianity is Christ." A discussion will follow Dr. Wright's speech.

Their last meeting concluded a series of meetings to study Philipians. Mr. George Ensworth, regional secretary of the Intersity Christian Fellowship for the middle Atlantic states, and Miss Jo Ann Johnson, a member of the area staff from Wilmington, led the study.

Meetings are held each Thursday evening in the Agnew Room of the Student Center at 7 p. m. Everyone is welcome.

Never too strong.

Never too weak.

Always just right!

LEON DOMBROWSKI, Coach Dave Nelson, John Mordas, Jim Garvin, and Ray Klapinski pose for a nostalgic picture at the end of last week's romp. The four seniors played a major role in the sound thumping. These four are expected to start against a harmless Temple eleven.

Hens Host Owls

(Continued from Page 1)

berth on the Eastern Collegiate Athletic Conference All-East team of the week for his defensive work. Heinecken scored the first Delaware touchdown on a pass interception from the Scarlet 32. Fullback Tony Suravitch rushed the passer to set up the play. Pellegrini completed a conversion pass to Heinecken and the Hens left after only five minutes.

Scoring in all but the third period, Delaware outclassed Rutgers in every offensive department. Never considered a passing threat, the Hens completed five of ten aeriels for 164 yards, with every back taking to the air. On the ground they picked up 205 yards.

LIGHTNING BOLT

Rutgers, seemingly stunned by Delaware's lightning strike, could not move until late in the opening period. Their renowned passing attack carried them to paydirt early in the second period on a pass by tailback Bill Speranza. The conversion failed.

Two more Scarlet drives were halted before the half as the Blue defense contained the Rutgers offensive machine. After the Raritan River boys scored, Delaware came right back on a 55 yard toss from halfback Jack Turner to Suravitch.

RUSHNIKS RUSH

Delaware's "rushniks" John Bowman, Suravitch and Turner moved the pigskin 52 yards to the Rutgers' 22. Bowman charged up the middle for six points.

Capitalizing on Scarlet errors, the Hens averted several attempts by the hosts for the score. Besides two intercepted passes, the Blues picked up a pair of enemy fumbles. Jim Garvin, guard, scooped up a Rutgers misplay to stop an offensive action on the Delaware twelve.

The Hens criss-crossed, reversed and faked upfield to the Scarlet one foot line where Pellegrini tallied. A Bowman to Suravitch pass made it 88-6.

AERIAL SCORE

Delaware wound up its scoring midway through the final period on a Pellegrini aerial to end Dick Broadbent covering 35 yards.

Rutgers intercepted a pass in the flat to score on a play covering 70 yards just before the end of the game. The conversion pass was good.

Bowman led the Hen rushers with 663 yards. Turner gained only 36, still needing 28 yards to break the Delaware three-season individual rushing record which stands at 628. Nevertheless, he picked up 78 more yards through the air.

Explanation

In last week's Review Carl-Olaf Homen wrote an opinionated cross country feature story. He had nothing to do with the writing of the headline which contained his name. The byline is always used when opinion is expressed.

SPORTS

Bowman Leads Squad In Rushing and Scoring After Rutgers Contest

Delaware's three star backs, Jack Turner, John Bowman and Tony Suravitch, again led the Blue Hens to victory last Saturday in a 34-14 upset of Rutgers. The trio teamed up for 144 yards of Delaware rushing total of 205.

Six game statistics show Bowman has regained the individual rushing lead on the strength of his 63-yard performance against Rutgers. His total is now 488 yards. The York, Pa., halfback also took the lead from Turner in scoring with a 38-point total.

Turner, who is bidding for a new all-time individual career rushing record, is second in rushing with 465 yards and first in total offense with 589. He passed for 78 yards against the

Scarlet. Turner is second in scoring with 36 points. He needs 119 more yards rushing to break Mariano Staloni's mark of 1719. Suravitch is third in total offense and scoring. He has piled up 318 yards—all on the ground—and scored 30 points.

Gampy Pellegrini, the Blue Hens' starting quarterback, maintains his passing supremacy. He has completed 11 of 19 passes for 156 yards, two touchdowns and two bonus conversions.

Team-wise, the unbeaten Hens, who rank first among eastern small-colleges, have rushed for 1662 yards, passed for 535 yards and scored 194 points. The big, hard Blue Hen line has held the opposition to 708 yards on the grounds, 485 through the air and 59 points.

LEVY LEVELS On Sports

By Ernie Levy
Sports Editor

A pox on that Saturday afternoon weather! Again our prediction went awry as an awesome Hen eleven jousted the neigthing Knights 34-14 instead of 20-17. Statistically, the more often one predicts, the more likely perfection will occur.

In quest of something reesmbeling perfection, we predict a conservative 54-12 whitewash over Temple tomorrow. If the Admiral makes frequent use of the starters, we hesitate further prognostication.

We will long remember the Rutgers game for Gampy Pellegrini's almost flawless signal calling. The correct play was executed in nearly every situation. By far, the outstanding feature was Gampy's fearless aerial endeavors.

Our favorite play of the soggy afternoon came with Pellegrini deceptively rolling to the left (first time we've seen that) and discharging a perfect pass to end Dick Broadbent, who was the short receiver, also cutting to the left. Broadbent rambled down the left sideline like the proverbial bat out of . . . a cave to score standing up.

Another "fan raiser" came early in the first quarter. Rutgers had possession. A pass was sensed as Tony Suravitch red-dogged the passer. The latter made a last-ditch heave with a stubborn Suravitch glued to his leg. The pass was speared by Mickey Heinecken, who outraced a defender to pay dirt.

A befuddled Rutgers squad watched Delaware's galloping 'rushniks' turn into leaping 'passniks'. Jack Turner completed a touchdown pass to Suravitch and another to John Bowman for a considerable gain. Bowman also tossed to Suravitch for the conversion after the first TD.

We liked the variation of the Winged-T used early in the first period and the double reverse with lateral effected by Pellegrini to help set up the first score in the second half.

Delaware defense worked well on the drenched field. Pape Lukk made a good toe-hold tackle on a dangerous end run. Broadbent followed suit by rushing the passer to force the Scarlet into punt formation.

Gary Hebert, once knocked down, arose just in time to break up a possible scoring play. Turner followed with a near-interception and then countered with an aerial pilfer to start another drive.

With spirit flowing through many Delaware veins, the goal posts thudded to the earth with a triumphant crash amid a few Rutgers die hards. Several fists, a bucket, then a suitcase, and a policeman were thrown, but fun was had by most in the downpour.

Despite brilliant first string action, there was little to choose between the starters and second string. No one noticed decreased efficiency when Dick Hammer relieved or when Beinner, Hebert, or Len Nelson entered the fray. We feel that the line, along with the backs played the superlative game of the year. The front men opened gaping holes almost at will.

Rumor has it that some U. of D. women are attempting to make football co-educational next year. Last Thursday a spirited campaign resembling the rough and tumble sport was staged on the girls' hockey field.

A talented Sue "the toe" Smith quarterbacked the Smyth Stackers to a 13-2 victory over the Thompson Biltwells.

After a few preliminary plays, Elaine Fairman took a hand off from Smith and went all the way. The same girl, Elaine, went through a gaping hole in the line to convert the extra point. Here Thompson Hall's defense clammed up for the remainder of the first half.

Mid-game entertainment featured an animated tussle between Ellie Agnew and a canine admirer, who was making a play for her . . . shoes.

The Biltwells started the second half off with a bang. Barbara Richardson, star end, switched to the backfield as she took off from a spread formation to throw a pass which was delicately bobbled by Sylvia Green in the end zone. At this point the Thompson attack spluttered.

The climax came when Sue Smith handed off to Fairman, who outstripped the defenders in her race to the goal stripe. This score set the Stackers supporters to counting points in a frenzied yell.

Thompson attempted a come-from-behind surge. With Shirley Glick operating at the tailback slot, the girl QB completed a heave to the right end, Richardson. Again the attack failed. Later Glick completed another pass, this time to halfback Bunny Harris. The Thompson girls labored to the 10-yard line where the assault ended.

Again Shirley passed to Harris, who plunged to the 23. Then Glick's pass to Richardson fell just short of a tally for the Biltwells.

When Smyth regained the ball, Smith was nailed in the end zone by a diving Barbara Bilancioni, who got two points for her efforts.

The game ended with a booming Sue Smith punt, which was well handled by Barb Richardson. The latter made a dazzling run back, but the score remained Smyth 13, Thompson 2.

It was generally felt that natural padding prevented any serious injury. A few girls were mildly shaken by the experience, however.

Triple-threat Sue Smith was the outstanding griddier of the day. She ran, kicked, and passed with professional accuracy. We saw the modest quarterback picking up tips from Gampy Pellegrini at the Rutgers romp in preparation for this Sunday afternoon's return engagement on the hockey field. The girls are well advised to keep on their toes as the game will be scouted!

Owls Oppose Hen Gridders Before Final Home Crowd

Temple University's Owls will provide the opposition for the Delaware football team in the Hens' home finale on Saturday. Kick-off time at Delaware Stadium is 1:30.

The Owls, under Coach Pete Stevens, will be the fourth Middle Atlantic Conference university division opponent for the Hens, current leader for the Lambert Cup, symbolic of football supremacy among the East's small-college teams. Delaware meets Bucknell in the conference and season finale on Nov. 21 at Lewisburg, Pa.

Coach Dave Nelson's Blue Hens

whipped Temple, 35-14, last fall at Temple Stadium. Delaware boasts five straight victories over the Owls since becoming an Eastern power under Nelson.

TOOK FIRST TWO

Temple and Delaware have been football opponents since 1913. The Hens took the first two meetings before the Owls grabbed decisions in 1950 and 1951. There was a lapse in the series until 1954 and the teams have clashed annually since with Delaware building up a 7-2 lead in the negotiations under Nelson's direction.

The Owls surprised by holding

Delaware scoreless in the first quarter of their 1958 engagement but the Hens pushed over three touchdowns before the halftime intermission and coasted home. Since defeating the Hens, 13-7, in 1951, the closest Temple came to victory was in 1956 when the Owls dropped a 14-7 decision at Newark.

PASSING SPARKS

Sparking Delaware's success this fall has been the passing of quarterback Gampy Pellegrini and the running of halfbacks John Bowman and Jack Turner. Bowman and Turner both scored touchdowns against Temple last season while Pellegrini directed the attack perfectly.

Turner is attempting to crack Delaware's all-time individual career rushing record held by Mariano (Nine) Stalloni, 1,719 yards, set over a four-year period from 1946 through 1949. The Philadelphia halfback in less than three seasons already holds the Hens' single-season individual record of 874 yards, gained last year, and currently is the squad's leading ground gainer.

9

HALFBACK JACK TURNER, nominated as Football Player of the Week for his Marshall performance, begins a long ramble after an unidentified teammate executes a block that renders a defending stalwart, Spunkner Twilk, useless.

DIARY OF A COED

MONDAY: Prof. Pomfritt sprang quiz in English lit this morning. If Shakespeare didn't write *Canterbury Tales* I'm a dead duck. . . . Lunch at the house—turkey hash. Question: how can we have turkey hash when we never had turkey? . . . Smoked a Marlboro after lunch. I dig those better makin's the most! . . . Played bridge with sorors in afternoon. When game was over, my partner stabbed me several times with hatpin. Must learn weak club bid. . . . Dinner at house—lamb hash. Question: how can we have lamb hash when we never had lamb? . . . Smoked a Marlboro after dinner. What filter! What flavor! What pack or box! . . . Chapter meeting at night. Motion made to abolish capital punishment for pledges. Motion defeated. . . . Smoked more Marlboros. *Quelle joie!* . . . And so to bed.

TUESDAY: Faculty tea at the house. Spilled pot of oolong on Dean of Women. She very surly. Offered her a Marlboro. Still surly. Offered skin graft. No help. . . . Dinner at Kozy Kampus Kafe—24 hamburgers. But no dessert. Have to watch waistline. . . . And so to bed.

WEDNESDAY: Got our marks in English lit quiz. Lucky for me Shakespeare wrote *Canterbury Tales*! . . . Afternoon date with Ralph Feldspar. Purely platonic. Ralph wanted to consult me about love trouble he's having with his girl Nymphet Calloway. I assured him things would get better. Ralph said he certainly hopes so because last four times he called on Nymphet, she dumped vacuum cleaner bag on him. . . . Smoked several Marlboros. Wonderful cigarette. No confusion about which end to light. Saves loads of time. . . . Dinner at house—bread. That's all; just bread. . . . And so to bed.

THURSDAY: Three packages from home—laundry, cookies, records. So hungry I ate all three. . . . Quiz in American history. If Millard Fillmore didn't invent cotton gin, I'm in big trouble. . . . Dinner at house. Big excitement—Nymphet Calloway announced her engagement to Ralph Feldspar. While sorors flocked around to congratulate Nymphet, I ate everybody's side meat. . . . Then smoked Marlboro. Oh, what a piece of work is Marlboro! . . . And so to bed.

FRIDAY: Got our marks in American history quiz. Was shattered to learn that Millard Fillmore did not invent cotton gin. He wrote *Canterbury Tales*. . . . How very odd! . . . Lunch at the house—bread hash. . . . Marlboro after lunch. Great smoke. Must send valentine to manufacturers. . . . Spent entire afternoon getting dressed for date tonight with Norman Twonkey. Norman is tall, dark, loaded—a perfect doll! Only thing wrong is he never tells a girl where he's going to take her. So I put on a bathing suit, on top of that an evening gown, and on top of that a snowsuit. Thus I was ready for a splash party, a dance, or a toboggan slide. . . . So what do you think happened? He entered me in a steeplechase, that's what! . . . Would have taken first prize easily if I hadn't pulled up lame in the last furlong. . . . And so to bed.

Yes, the college life is a busy one and you may be having trouble choosing the cigarette that's right for you. Here's a handy guide: For filter plus flavor—Marlboro. For flavor without filter—Philip Morris. For filter plus flavor plus coolness—Alpine. . . . All made by the sponsors of this column.

4-H Club Sets Year's Slate

The university's 4-H club discussed its forthcoming year's program at its recent November meeting.

The club is a service organization for 4-H clubs in Delaware. It is composed of college students who have belonged to a 4-H club at home. Delaware, Maryland and New Jersey are some of the representative states.

At the meeting, plans were discussed for a publication to be sent to all 4-H'ers in the state to tell them about the university's 4-H club and the university in general. Also discussed were projects to teach recreation, particularly square dancing, to the local 4-H clubs, and to sponsor a statewide square dance during national 4-H club week in March.

Katie Collins, president, said, "The next meeting will be held on Dec. 7, and we'd like to invite all those who have been 4-H'ers to our meeting in Agricultural Hall."

Aquatic Club Picks Theme

Women's Aquatic Club has chosen a theme centered around the seasons of the year for its annual spring show.

The purpose of this swimming group is to provide a program for those interested in water ballet and synchronized swimming and to promote athletic ability on campus.

At their meetings held every Monday night in the Women's Gymnasium, girls perfect skills they have learned and practice new ones. Frequently, swimming champions come and demonstrate water stunts for the girls.

Last month, Nancy Robertson and Jean Fracassi, sophomores, Sue Kleinfelder and Carolyn Joyce, juniors, and Mrs. Rothacher, faculty sponsor, attended the Association of Synchronized Swimming for College Women held at the University of Massachusetts, Amherst, Massachusetts. There the girls took part in a program emphasizing theme production and show techniques.

Tryouts Begin

Freshman wrestling tryouts will begin on Monday, Nov. 9, at 7:30 in the wrestling room located in the new addition to the Carpenter Field House.

How to rate great on campus or date!

NORFOLK FIELD COAT

Here's a favorite right out of the "Roaring Twenties" with front and back vertical straps and removable belt. Traditional styling features a comfortable ¾ length; common sense dictates a warm quilt lining. Bal collar, bone buttons, roomy flap pockets. In soft Corduroy, about \$25. In robust Wool Tweed, about \$30. Lively new shades. At your favorite campus shop.

Smyth and Thompson Clash In Girls' First Grid Classic

BY JO ELLEN LINDH

It looks as if the spirit and enthusiasm engendered by our fabulous Blue Hens has caused a minor revolution "on campus." The women have taken to football!

Last Thursday, the Smyth six met with the Thompson six in a hilariously serious game of touch football. There were a few casualties such as broken fingernails and "charley horses", but nothing serious. The male spectators seemed to enjoy it immensely — especially when Smyth scored its first touchdown while Thompson's defense was in a huddle!

But the game wasn't completely comic. Even the males gasped with admiration at some of

the kicks and passing by Sue Smith, the girl with the golden toe. Elaine Fairman for Smyth and Shirley Glick, Barb Bilancioni, and Sylvia Green for Thompson all showed surprising skill and finesse with a feminine touch. Pass plays, fakes, and a tricky criss-cross with Eleanor Agnew carrying the ball were all well executed.

At some points during the frolic, there was mass confusion, what with the offensive team's rushing on the field at the wrong time, and frantic females crying . . . "But what can I DO when I get out there?" or "Quick, give me a cigarette" as they stumbled off the field breathless. (However, smoking

on the bench did sort of lend a casual atmosphere to the whole thing!)

Thanks partly to the contribution of plays by Grampy Pellegrini, Smyth emerged the victor by a 13-2 edge. The girls decided on a rematch for Sunday, Nov. 8, at 3:30 on the hockey field; the author feels that this will be a match well worth viewing. Who knows but someday the Delaware Chicks might be the No. 1 small college girl's touch football team in the nation! As a matter of fact, we just might have a good chance since we may be the ONLY such team . . . oh, well, another first for the First State!

Blue Hen of Last Week

By BARRY SCHLECKER

Brilliantly piloting the Delaware high-flying Blue Hens in their most outstanding victory over the highly rated Scarlet Knights was Gaspare Pellegrini.

Pellegrini called the plays superbly; his adept ball handling and fakery constantly mystified the opposing Rutgers linemen. All this despite the fact that he handled a wet ball throughout the entire game.

Gampy's call of the right play at the right time which was shown in his unorthodox gambling of going for the first down while deep in the enemy territory, triggered the Hen onslaught.

AIRPLANES

When Gampy turned to the air-planes, his pinpoint aerials found openings in the porous Rutgers defensive backfield.

The 5' 10" senior from Springfield, Pa., is a graduate of St. Thomas More High School. He was selected on the first team — Philadelphia All-Catholic Football team.

"POULTRY LEGS"

In his freshman year at Delaware, "Old Poultry Legs" (quoting Al Cartwright), threw 11 TD passes in five frosh games as he led that team through an undefeated season.

The 21 year old field general gained his varsity letter as a junior when he started the first two games of the season, but he was injured in the third game and then remained with the second team for the rest of the season.

TOP-FLIGHT

As a senior, Pellegrini has developed into a top flight wing-T quarterback. When we asked the affable athlete about his overall game plans, he stated, "I call all the plays and never have been told not to throw the ball." He goes on to say that with three outstanding backs like Bowman, Turner, and Suravitch, and a hard charging line such as ours, a ball control type game with a few passes is in order to keep the defense guessing.

He credits backfield coach Tubby Raymond as the man instrumental in Gamp's maturity as a crafty signal caller.

A member of Theta Chi Fraternity and Newman Club, Gamp has one other campus activity which is mentioned in his statement, "I never miss the nine to ten hour in the scrounge."

Alpha Zeta Rushes

A rushing function preceded Alpha Zeta's first November meeting. During the meeting, plans for window displays concerning the promotion of agriculture were discussed.

Alpha Zeta will soon begin their annual fall high school visitations. This is one of A Z's service projects to acquaint high school students with the university and its agricultural school.

Sigma Nu Commands Lead in Race for Intramural Trophy

With five weeks of competition in the record books, defending champion Sigma Nu has taken a commanding lead in the race for the coveted intramural trophy. The Snakes, while compiling a total of 162 points, have jumped into a 48 point lead over KA. (See standings below).

Injectons Given

Smallpox vaccinations and tetanus injections will be given at the Student Health Center next week.

All students who have not received these shots before coming to school are urged to take advantage of this opportunity.

Shots will be given daily from 7:30 to 11:15 a. m. and from 2 to 6 p. m.

engineers

and what they do at Pratt & Whitney Aircraft...

The field has never been broader
The challenge has never been greater

Engineers at Pratt & Whitney Aircraft today are concerned with the development of all forms of flight propulsion systems—air breathing, rocket, nuclear and other advanced types for propulsion in space. Many of these systems are so entirely new in concept that their design and development, and allied research programs, require technical personnel not previously associated with the development of aircraft engines. Where the company was once primarily interested in graduates with degrees in mechanical and aeronautical engineering, it now also requires men with degrees in electrical, chemical, and nuclear engineering, and in physics, chemistry, and metallurgy.

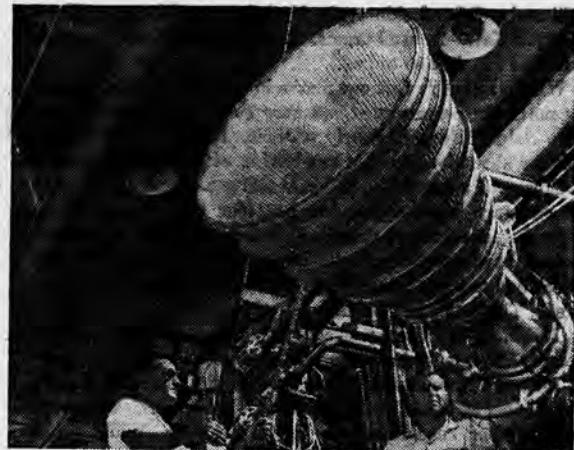

Included in a wide range of engineering activities open to technically trained graduates at all levels are these four basic fields:

ANALYTICAL ENGINEERING Men engaged in this activity are concerned with fundamental investigations in the fields of science or engineering related to the conception of new products. They carry out detailed analyses of advanced flight and space systems and interpret results in terms of practical design applications. They provide basic information which is essential in determining the types of systems that have development potential.

DESIGN ENGINEERING The prime requisite here is an active interest in the application of aerodynamics, thermodynamics, stress analysis, and principles of machine design to the creation of new flight propulsion systems. Men engaged in this activity at P&WA establish the specific performance and structural requirements of the new product and design it as a complete working mechanism.

EXPERIMENTAL ENGINEERING Here men supervise and coordinate fabrication, assembly and laboratory testing of experimental apparatus, system components, and development engines. They devise test rigs and laboratory setups, specify instrumentation and direct execution of the actual test programs. Responsibility in this phase of the development program also includes analysis of test data, reporting of results and recommendations for future effort.

MATERIALS ENGINEERING Men active in this field at P&WA investigate metals, alloys and other materials under various environmental conditions to determine their usefulness as applied to advanced flight propulsion systems. They devise material testing methods and design special test equipment. They are also responsible for the determination of new fabrication techniques and causes of failures or manufacturing difficulties.

Exhaustive testing of full-scale rocket engine thrust chambers is carried on at the Florida Research and Development Center.

Frequent informal discussions among analytical engineers assure continuous exchange of ideas on related research projects.

Booters' Surge is Too Late in Bucknell Tilt; Bisons Win, 4-1

Bucknell's soccer team scored four goals to Delaware's one in the game day, on Friday, Oct. 30, at Lewisburg, Pa.

According to Coach Alden "Whitey" Burnham, the Blue Hens playing "left much to be desired; they played too well, too late." It was a rough contest as only one referee showed up at the game. Coach Burnham was proud, however, of Delaware's good conduct; to him this is more desirable than a "tainted win." The team's captain, Pat Dyer, played a good steady game for Delaware in the fullback position.

On Wednesday, Oct. 28, at Frazer Field, Lehigh downed Delaware 4-0. Lehigh, the northern division champions, boast the return of nine lettermen to the field this year.

Blue Hen goalie Jay Gorry handled the ball safely for a remarkable total of 35 times during the contest. Burnham was pleased with the overall playing of his team, which is this year composed of nine sophomores and two returning lettermen.

No predictions from Coach Burnham; only hope for the Johns Hopkins game on Nov. 4, in Baltimore. He does anticipate a maximum team effort on Wednesday. Johns Hopkins boasts a fine team with strength similar to that of Lehigh and Bucknell. King Boynton is expected back in action for this game; he has been out with a sprained ankle since the Lehigh game.

The next home contest will be on Nov. 9 at 3:00 on Frazer Field; the Hens are scheduled to battle Muhlenberg.

Sports Calendar

Week of November 2, 1959

FOOTBALL

Delaware vs. Temple, Saturday, November 7, Delaware Stadium, 1:30 p. m.

SOCCER

Delaware vs. Johns Hopkins, Tuesday, November 3, Baltimore, 3 p. m.

Delaware vs. Muhlenberg, Monday, November 9, Frazer Field, 3 p. m.

CROSS-COUNTRY

Delaware vs. Albright, Friday, November 6, Reading, Pa., 3 p. m.

FROSH FOOTBALL

Delaware vs. Rutgers, Friday, November 6, Frazer Field, 3 p. m.

Dates Announced

Dates for Women's Playbill have been set as Nov. 23 and 24 at 8 p. m.

Women's Playbill came into existence to further tradition on South Campus. It consisted originally of a separate play and musical number. Five years ago, musical plays were added to the selections, and for four years there have been original musicals.

The winning dormitory, for one year, has the privilege of keeping a gold loving cup engraved with its name and the year.

Homen Shatters Road Mark As Harriers Beat Hopkins

The fabulous Delaware cross country racers gave another stellar performance on Oct. 30. The enemy team ran, hitting their heels hard on the hardtop of the winding road, with a grim determination to win. They did not stand a chance as our brave boys, tendons tensed on Mercury's rollerskates, broke away to a final

score of 40-20 over Johns Hopkins.

Another record was shattered by the Finnish flash, Carl-Olaf Homen, as he ran the 4.3 miles in 21 minutes and 38.5 seconds. Following not far behind were Stack, 23:01; Lutz, 23:48.2; King, 24:42.7; Green, 24:58.8.

In their first meet of the season, the freshman fleetfeet were drowned in defeat by the medic-

inal John Hopkins team, 30-25.

Our boys tried though, straining every muscle of their bodies and utilizing every ounce of strength to give the best (and only) performance of their career, as the torturous three mile course was run in 17 minutes and 18 seconds by Ridgeway; 17:19 by Quinn; 17:20 by Derby; 17:57.5 by King; and 18:13 by McMahon.

Man's Nature Is Discussed

"The nature of man as created by God, composite body, soul, and emotions" was the topic of the Newman Club meeting last Tuesday, Nov. 3 in the Morgan-Vallandigham Room of the Student Center.

Father Hammer, Catholic chaplain of the campus, expatiated on the subject which was left open to discussion and explanation.

Undergoing a change of organization this year, the program of the Newman Club alternates the weekly meetings between discussions of dogma and of theology. It is hoped that this division will stir the interests of those who have had less training in dogma and also afford those with a firmer foundation in catechism and basic tenets to explore deeper and understand more fully their faith.

Serving on the executive committee this year are Pete Sheldon, president; Noreen Murphy, vice-president; Mary Ellen Foster, recording secretary; Kay D'Amico, corresponding secretary; and Marianne Quinn, refreshment committee chairman.

The third Sunday of every month has been set aside as Communion Sunday for the club with its members receiving Communion in a body at the 9 o'clock mass at St. John's Roman Catholic Church, Main St., Newark.

Author Talks With Parents

Dr. Nancy Larrick, author of books on children's reading, will be the featured speaker at the 10th annual Reading Conference for Parents, tomorrow at the university.

A former classroom teacher, college instructor and workshop director, Dr. Larrick is the author of the recent book, "A Parent's Guide to Children's Reading." She also has written "See for Yourself," "Rockets into Space," "Color ABC" and a public affairs pamphlet, "Your Child and His Reading."

A graduate of Goucher College, Dr. Larrick holds her M. A. degree from Columbia University and an Ed. D. degree from N. Y. U. She has served as editor of "Young America Readers," and "The Reading Teacher," and was education director for Random House children's books from 1952-1958.

The conference will convene at 9:30 a. m. in Wolf Hall auditorium with Dr. Larrick as the principal speaker. Panels devoted to elementary, junior high and senior high levels with parents, teachers and university personnel participating will follow.

Miss Larrick also will speak at the luncheon session on the topic, "Growing Up with Books."

Colliers Shows Language Study

Language study at the university is pictured in the latest edition of Collier's Encyclopedia Year Book in a section entitled "Academic Standards."

The photo shows Dr. Frederic C. St. Aubyn, assistant professor of modern languages and literatures, observing students in the university's language laboratory. Delaware's language laboratory facilities, provided largely through annual alumni development fund gifts, are among the most modern in the country.

The section devoted to education consists of articles by five prominent Americans: Vice-Admiral Hyman G. Rickover, developer of the atomic submarine; Dr. James B. Conant, former president of Harvard University; Nicholas DeWitt, associate, Russian Research Center, Harvard University; Dr. Grayson Kirk, president, Columbia University; and Dr. Percy Bridgman, Nobel Prize winner in physics.

Students Hold Vote For Honor System

A second mass meeting of all Home Economics students is being called by Dean Ayers on Thursday, Nov. 12, at 6:30 p. m.

The students will break down into class meetings which will provide a final discussion of the Academic Honor System. Voting will follow the discussion.

It is important that all students attend, for 95% of the enrollment of the School of Home Economics must vote in the affirmative for the passage of the Honor System.

(Continued from Page 1) ginia Novak on the publicity committee. Jim Park and Bill Clineff on the Decoration Committee.

Chaperones for the Engineer's Ball include Dean and Mrs. Edward Comings of the School of Engineering and Dr. and Mrs. Bruce C. Lutz of the Electrical Engineering department. The entire faculty of the School of Engineering have been invited to the dance.

Letters to Editor:

(Continued from Page 4)

of their lives while they attend college.

Whether you're for or against the formation of sororities, get behind your opinion and fight for it all the way.

Weaker sex that we are, anything the guys can do, we could try to do better. If the men on campus have the opportunity to affiliate with the fraternity they choose; why not the same opportunity for the women? So far, there has been no record of an institution of higher learning closing because of the presence of Greek letter societies on campus.

Even as remote as the possibility may seem, sororities are something to think about.

Chi Omega, anybody? They seem to have the knack for producing Miss America's!

Lee Buckley

Editor's Comment: sororities have been considered and investigated for this campus during the past two years. Perhaps Miss Buckley should investigate what has been done in the past and do something about it.

Do You Think for Yourself?

(TEST YOUR WITS ON THESE QUESTIONS*)

The statement "Experience is the best teacher" is (A) the faculty's confession of failure; (B) a dogmatic way of saying you can learn by doing; (C) an excuse for trying anything once.

A ☐ B ☐ C ☐

If someone called you a beatnik, would you (A) insult him right back? (B) ask him if he knows what a beatnik really is? (C) thank him for the compliment?

A ☐ B ☐ C ☐

If you saw a dinosaur roaming around the campus, would you say, (A) "Big, ain't he?" or (B) "Where's the movie playing?" or (C) "This place is sure out of date!"

A ☐ B ☐ C ☐

Do you base your choice of a cigarette mostly on (A) what your friends say they like? (B) what your own judgment tells you is best? (C) what the makers say about their product?

A ☐ B ☐ C ☐

It's a wise smoker who depends on his own judgment, not opinions of others, in his choice of cigarettes. That is why men and women who think for themselves usually smoke Viceroy. They know only

Viceroy has a thinking man's filter — the best filter of its kind ever developed . . . the filter that changed America's smoking habits. And only Viceroy has a smoking man's taste.

*If you checked (B) on three out of four of these questions, you're a high-test character — you think for yourself!

**The Man Who Thinks for Himself Knows —
ONLY VICEROY HAS A THINKING MAN'S FILTER...A SMOKING MAN'S TASTE!**
