Dear Friend:

I have just received the copy of the Annual Report of the Sofina and I was able over the weekend to read with much interest the pamphlet on exchange restrictions as well as the most interesting dissertation on "The Economic Consequences of Taxation". May I congratulate you on this really most useful contribution. I shall not fail to bring the two documents to the attention of the Secretary who, as you know, always reads your Annual Report with interest and appreciation.

I hear from Mr. Auchincloss that James has arrived and we look forward to seeing him here in the near future. This is just a hurried word to tell you with how much interest I read the report.

Cordially and faithfully yours,

Mr. Dannie Heineman,  
Care of Sofina,  
38 rue de Naples,  
Brussels, Belgium.
