

The Newark Post

VOLUME XIII

NEWARK POST, NEWARK, DELAWARE, AUGUST 23, 1922.

NUMBER 29

REPUBLICAN CONVENTION NAMES CANDIDATES

ALL BUSINESS CONDUCTED BY ACCLAMATION VOTE

PRESENT PLATFORM FOR CONSIDERATION OF THE DELAWARE VOTER

The Republican State Convention met at Dover and by acclamation named ticket and platform for the November contest. State Chairman Charles Warner opened the convention. Robert G. Houston was made temporary chairman and selected to deliver the keynote speech. He acted also as permanent chairman of the convention.

Nominations and reports of committees were all accepted without quibble or question.

PLATFORM

"We, the elected delegates of the Republican party of Delaware assembled in State convention at Dover, August 22, 1922, reaffirm our faith in the constitutional government of the United States, and pledge our steadfast allegiance to the principles of the Republican party.

National Administration

"The Republican party in its national platform called attention to the fact that there is no short way out of the financial and industrial difficulties with which the new administration was faced at the beginning of 1921. Confronted with the great national debt, and the colossal waste and extravagance inherited from the preceding Democratic administration. President Harding has shown constructive power in restoring the country to a peace basis. Enormous economies have been effected in every department of the government. Over two billions of dollars have been saved to the taxpayers.

"The budget system, insuring business efficiency in the expenditure of the people's money, has been put into operation with brilliant success.

"President Harding's action in calling the leading nations of the world in conference at Washington, revealed American policies in international affairs which have inspired the confidence of mankind in the integrity of the United States.

"The same wise leadership of the President is manifest in his human and practical endeavors to end domestic strife and solve grave industrial difficulties.

Tariff

"We believe that the protection of American industry, for its growth and for the furtherance of healthy foreign trade, demands regulation under expert scientific management, and favor expanding the powers of the Federal Tariff Commission, which is non-political, and is now charged with the study and investigation of the administration, operation, and effects of the customs laws, and their relation to federal revenues.

Assistant Football Coach Is Named

University Athletic Council Names W. B. Twing—Preliminary Training at Red Point

Coach William J. McAvoy, of the University of Delaware, is to have an assistant in the football work this year. This was decided at conference between the Athletic Council of the University and Coach McAvoy held last night.

The assistant coach will be W. B. Twing, a star on the Rutgers eleven in the years 1914 and 1915. While a student at Rutgers, Twing was a star on the football squad and since his graduation has acted as an assistant coach at that institution. Twing will be remembered locally through his connection with the Newark County League baseball team, for which organization he played first base in two games.

In securing Twing to help Coach Mac in his work with the football squad, the Athletic Council gave assurance to the new coach that it was going to do everything in its power to assist him in putting a first-class team on the field. The new member will assist in the line coaching, this being his specialty.

At the conference several former stars, who made a name for themselves on the gridiron while members of the Blue and Gold, offered their assistance to Coach McAvoy and their offers were accepted. Among those who offered to do their bit to see to it that Old Delaware was "there" in capital letters were "Bill" and "Dick" Cann, both former star ends at Delaware; Ernie Wilson, one of the best tackles ever turned out by the local institution; Bill Stewart and Alex Crothers, centers, who were real stars while wearing the Blue and Gold; Harry Loose, Sank McCaughn and Mike Fidance, all crack backfield men whose names will always be popular with athletic accomplishments of Delaware.

It can be seen from this list of volunteers that Coach McAvoy will be assisted by some of the finest football men that ever drew on a cleated shoe and it will be a big encouragement to the coach to see the old-timers come back and help him in his work. Some of those who have volunteered to do their bit learned a great deal of their football under Coach Mac when he was formerly connected with the local institution. The majority of those who volunteered were captains when playing at Delaware.

At the meeting last night, announcement was made that the preliminary training of the football

(Continued on Page Eight.)

Cleveland Ave. Will Not Be Paved

Contractor Unable to Fulfill Promise and Council Does Not Want Street Impassable

Cleveland avenue will probably not be paved this year. This was the announcement made by Mayor Frazer this afternoon.

This results from the fact that F. W. Lovett, who contracted for the paving of the street some weeks ago and promised to start the work in thirty days, cannot fulfill his part of the promise due to the fact that he is tied up on a job in New Jersey, which he had started previous to being awarded the local contract.

Mr. Lovett's time allowance to start the paving of Cleveland avenue expired some weeks ago and the members of Town Council did everything in their power to have him start the work, but the contractor claimed this an impossibility and it was decided by the Town Fathers to obtain another contractor for the job.

The only way the members of Council would consider, leaving the contract to another contractor was that he promise to have the work completed before the cold weather set in. This was to make sure that the work of digging up the street and making it impassable was not started and then the work stopped because of the cold weather.

Efforts to obtain a contractor who would agree to this were without avail and the members of Council have about given up the idea of carrying on the work this year.

This comes as a severe shock to the people along the avenue as they had made all preparations for having the work completed before the winter set in.

LADIES DO YOUR BIT Cake Committee of Firemen's Carnival Makes Appeal

The cake committee of the Firemen's Carnival makes an appeal to every woman of Newark to contribute a cake to the committee for sale at the carnival.

The following ladies are members of the committee and will be glad to receive any contributions and see that they are placed on sale: Mrs. F. Jester, Mrs. T. Sprogal, Mrs. Howard McCully, Mrs. Hughie Morris, Mrs. Norris Worrall, Mrs. C. Denny, Mrs. Henry Gregg, Mrs. Anna Steele, Mrs. Pryor, Mrs. Ray Jacobs, Mrs. Charles Colmery, Mrs. Daniel Stoll, Mrs. Clarence Grant, Mrs. M. Taylor and Mrs. T. Fawcett.

This is one of the committees that was announced in the previous list.

Newark Anglers' Association Held An Enthusiastic Meeting On Monday Night

Ott Widdoes is Made President of Booming Organization— 12-ft. Dam to be Built at a Cost of \$1702.92— Subscription List is Fast Filling

Committee Appointed to Obtain Charter for Body

Enthusiastic fishermen of this vicinity turned out in a body on Monday night at the first meeting of the Newark Anglers' Association, held in the firehouse.

This association is now making preparations for the rebuilding of the Dayett Dam and it was for the purpose of thoroughly organizing to do this work that the meeting was held on Monday night.

The following officers were elected: President, Ott Widdoes; vice-president, Pusey Morrison; secretary, W. H. Evans; treasurer, J. Earle Dougherty. The following directors were chosen: Pusey Morrison, W. H. Evans, Prof. Thoroughgood, L. Bowen, O. Widdoes, G. O. Lomax and J. P. Wright. With this body of officers it can be seen that the new organization means business and the ball has started rolling already to make the organization the strongest of its kind in the State.

Prof. Thoroughgood, who is in charge of the surveying work, told those present at the meeting of the plans that have already been made and spoke of the many natural advantages of the site that the association has leased from Joseph B. Eastburn, for the next twenty-five years. Besides the pond the association also has about an acre of ground and on this ground there will probably be built a club house and several bungalows by members of the organization.

The plans call for the erection of a twelve foot reinforced concrete breast dam at the cost of \$1702.92. This work would have cost a great deal more had not a great deal of the material that will be used in the construction been on the grounds at the

New Fire Alarm System Is Probable

Members of Aetna Hose, Hook and Ladder Co. May Install Air Whistle

For a long time it has been the hope of the people of this vicinity that a fire alarm would be installed at the Aetna Hose, Hook and Ladder Co., which could be rung from a central location by the mere calling of the telephone operator.

There is a strong possibility now that such an arrangement will be installed in the new firehouse being erected.

In the past it has been necessary to call the operator and have her in turn call some member of the fire company or to call the member direct yourself, but if the present plan works out, in the future a call to central will be all that is necessary and she can, from her place at the switchboard send in the alarm that will warn the entire town that there is a fire.

For some time the firemen have been discussing the purchase of an electrical siren to be used as a fire signal, but it seems that this form of warning signal has not come up to the standard needed here and the present plans that are being taken under advisement call for a compressed air whistle which could be blown from the telephone exchange. The whistle that has been under consideration would have a fifty pound tank attachment and a motor would be attached that would blow the whistle indefinitely should the air tank fail in its operation.

Such an arrangement as this would be a decided improvement on the new firehouse and will probably be installed if there are sufficient funds for its purchase after the building is completed.

COMING DANCE

Announcement was made today that Co. E will give a dance in the Armory on September 8th for the benefit of the company's fund.

PAINTED

The safety gates of the Pennsylvania Railroad have just been painted.

Qualifying Match At Country Club

Some Good Scores Made on Saturday—Match Play Starts This Week

The final match in the qualifying round of the tournaments being staged at the Newark Country Club was held at the local links on Saturday when some very good scores were turned in. The match was to have been staged on the previous Saturday but due to the bad weather at that time many of the players did not get to go the round and it was decided to hold it again on Saturday. Some of the players who made scores on the previous Saturday again turned in good scores on the past Saturday and in the following list are the names of all those who have taken part in this qualifying match.

All the players in these qualifying rounds turn in their gross scores, they are then grouped in classes of eight on the basis of these scores. The remainder of the matches will be played as match play with prizes awarded to the various eights.

The scores made in the qualifying rounds:

Benjamin Vinton	88
T. Armstrong	89
Charles Strahorn	96
N. Wright	99
J. Moore	99
R. Baldwin	100
T. Gardner	105
F. Pie	106
J. Steel	107
J. Finnan	109
W. Hazel	109
W. Decker	124
V. Crowell	140
C. Anderson	130
L. Bonham	117
A. Short	93
W. Diver	97
H. Voght	114
B. Wright	94
Effing	96
A. McCue	128
B. Austin	107
B. Crowe	109
W. Caffel	105

Out For Office

Robert J. Crow has announced his candidacy for the Democratic nomination for District Representative.

Old Time Anglers Tell "Big Tales"

From the Stories Related There Were "Some Wonderful Fish" at Dayett's Dam

If you missed the meeting of the Newark Anglers' Association in the firehouse on Monday night, you not only missed one of the greatest meetings the town has ever known, but you also missed hearing some of the greatest "fish stories" that were ever told. This "tale" is to relate to these, a story of the meeting appears in another column.

It is not likely that there is another town in the country that has more ardent fishermen than Newark houses and it has not been many years ago when these fishermen had a wonderful "fishing hole" at Dayett's dam. That dam broke a few years ago and therefore the fishing there came to an end, but some of the stories that are told of fish caught there will, like Tennyson's "Brook," "go on forever."

Before the meeting on Monday some of the old-timers, among them Postmaster Bowen, Ott Widdoes, Ben Butterworth, Ben Eubanks and William J. Lovett, got together and there were some "whoppers" told and some of the younger fishermen who happened to be in hearing distance stood with wide-open eyes to hear of the times that these men spent on the banks of the Dayett Dam pulling out fish evidently "as big as whales."

One man present said that he believed, if the meeting had not been called when it was, and these men separated, that fish as big as horses would have been the subject of discussion. Dean E. Laurence Smith is alleged, note the word alleged is used, to have told some "of the greatest stories" and they were some stories.

YACHT DAMAGED

Norris Wright's Craft Washed Ashore at Rehoboth Beach

The yacht Elfin II, belonging to Norris Wright, was damaged on last Saturday night when it was washed ashore at Rehoboth. There was a storm in the lower part of the State and the local yachtsman's craft broke from its moorings and was washed ashore.

No one was injured, but the accident caused Mr. Wright to call off the entertaining of several friends on the boat this week.

Hear Ye! Hear Ye! The Big Firemen's Carnival Opens This Saturday

Everything in Readiness for Biggest Event Yet Staged by Aetna Hose, Hook and Ladder "Boys"

Movies Will Feature—Silk Stocking Girls Back Again

Just two more days. Then the opening of the annual carnival of the Aetna Hose Hook and Ladder Co., on Academy street. It has already been announced that the affair this year will be bigger and better than ever and it will only be a short time now until this is proven to the people of Newark and vicinity and the committees in charge are preparing to handle the biggest crowds ever with the opening on Saturday night.

If there is any man in the town busier than E. C. Wilson at the present time he is certainly some busy gentleman. "Cliff" Wilson has for years past been the real worker in the Firemen's carnival and this year is no exception and right at the present time he eats, sleeps and thinks carnival from early morning until late at night and it is a difficult matter to get him to discuss anything else. Mr. Wilson stated today that the plans and preparations for the carnival are about completed and that the people in this section will have presented to them a carnival the like of which has never before been known in this vicinity.

In the past there has been a show and moving pictures but this year only the "movies" will be featured.

GIRLS RECOVER BODY

Local Campers Had Excitement While Away

There was quite some excitement caused in the camp of the Girls' Reserves, the Newark branch of the Y. W. C. A., at the site of Reybold's Wharf, Md.

This excitement was caused when three of the girls found the body of a colored man which had been washed up on the shore near the camp several days ago.

It cannot be definitely learned, but at first it was understood that the body was that of a deckhand from a government boat and that there is a reward of \$100 offered for its recovery.

Since this has been proven not to be the case, it has been thought that the body is that of a deckhand from a steamer of the Ericson Line.

Memorial Library Plans Discussed

Special Meeting of Board of Trustees
Sept. 14th—Alumni Meets
on 22nd

At a meeting of the members of the Board of Trustees and the General Alumni Association held in Wilmington last week, plans for the handsome new library building, a memorial to Delaware's heroes in the World War to be added to the University buildings here, were discussed.

The meeting last week was in the form of an informal conference at which the proposal to erect the building was considered in a general way. The plan is to erect an imposing structure that will be a credit to the institution and fittingly house the thousands of books now in the University library and extensive additions that are under consideration.

Plans for financing the erection of the structure were considered but no definite steps taken. It is likely that the plan that will be evolved will provide for a general campaign to be conducted by the alumni. The library proposal will be further considered at a special meeting of the Board of Trustees, September 14th, and at a meeting of the General Alumni Association, to be held in Newark, September 22nd.

H. W. Lyndall, president of the Alumni Association, presided at the meeting. The trustees were represented by H. P. Scott, Everett C. Johnson and Dr. Walter Hullihen, president of the University.

The alumni members present were: A. F. E. Horn, president of the Washington, D. C., Chapter; Carl Harrington, president of the Philadelphia Chapter; V. H. Jones and J. W. Jones, Philadelphia; Dean E. L. Smith, Prof. George E. Dutton and Major C. A. Short, Newark; H. G. Lawson, County Engineer Charles E. Grubb, J. Rankin Davis, L. B. Hickman, Harris Samonisky and J. C. Craig, Wilmington; M. Hayes Wilson and Thomas Gooden, Dover.

RECORD OUTPUT OF "GAS"

More Than Twelve Million Barrels of Motor Fuel Produced in May

The greatest production of gasoline in the history of the oil industry occurred in May of this year, according to data compiled by the American Petroleum Institute and submitted to the Senate Committee on Manufactures which is investigating the industry.

The output was 12,229,975 barrels of 42 gallons each. The highest previous production was in September, 1920, when 10,896,693 barrels were produced.

In spite of the unprecedented production, however, the amount of gasoline available in refinery storage on May 1st of this year was only 82 gallons for each of the 10,500,000 automobiles registered on January 1st, as against an average of 87 gallons for each of the automobiles registered for the years 1918 to 1921.

Although the demand for gasoline varies more than 100 per cent between seasons of maximum and minimum consumption, it is necessary for the oil refineries to operate on practically a uniform basis throughout the year. Otherwise it would be impossible for the industry to accumulate sufficient stock to meet the peak demand.

UNIVERSITY OF DELAWARE APPOINTS INSTRUCTOR

The University of Delaware announces the appointment of Isadore Levine to fill the vacancy caused by Assistant Professor Kirkbride's absence abroad. It will be recalled that Professor Kirkbride was granted leave of absence for one year in order to go abroad to make detailed arrangements which will enable the University to adopt the Foreign Study Plan as soon as possible.

Mr. Levine is a graduate of both the high school and the University of Warsaw, Russia. He holds the degrees of Bachelor of Arts and Master of Arts from the University of Pittsburgh, and has completed all the requirements for the degree of Doctor of Philosophy at the University of Pennsylvania, with the exception of the fact that he has not entirely completed the writing of his doctor's thesis. Mr. Levine is recommended most highly as an exceedingly promising scholar. He has unusual ability as a linguist and is said to speak fifteen languages. Mr. Levine is a talented violinist. He will teach French, Spanish, and possibly Italian during the coming year.

"Do Your Shopping Early"

The holly bushes in front of Wolf Hall bring to mind that Christmas is not many months off now. The bushes are clustered with green berries.

Sect'y Wallace Invited To Fair

Head of Agriculture Section of President's Cabinet to Greet Delaware Farmers

One of the principal guests which the Delaware State Fair management expects to entertain at the Fair which opens at Elsmere on Labor Day, is Secretary of Agriculture Wallace. Because of his desire to advance agriculture throughout the country, Mr. Wallace is anxious to meet the farmers of Delaware and realizes that the Fair offers the best opportunity.

County agents from Sussex, Kent and New Castle Counties will have wonderful exhibits at the Fair. Each agent will show how science has aided the farmers in selecting seed, in proper fertilization and in cultivation of crops and harvesting methods. The accomplishments achieved by Delaware farmers in fighting crop pests that have in the past worked thousands of dollars worth of damage will feature the exhibits.

The farm exhibits from each county will be the largest assembled for any Fair ever held in Delaware. The bumper crops of produce and fruit have afforded an excellent selection for unusually big fruit and produce.

J. Wirt Willis, in charge of horse racing for the Fair, announces the biggest four days' meet ever witnessed in the State. Some of the fastest trotters and pacers that have ever been seen in Delaware are entered and the judges and officials of the meet, which have been carefully selected, will see to it that so far as racing conditions go, the best horse will win.

The automobile races on Friday, the closing day, will furnish the thrills for those who like a display of nerve and daring on the part of motorists.

RICHARDS REUNION

Local Members of Family Attend Annual Event

The fourteenth annual reunion of the Richards family was held at Shellpot Park on Thursday, August 17th. Relatives and friends from many points in Delaware, Pennsylvania, New Jersey and Maryland spent the day in a social way and enjoyed the bountiful dinner spread on long tables under the trees in the park. The young folks tried the airplanes, Jack Rabbit, and other amusements, which made the day slip all too soon. The circle of brothers has been broken once more by the death of Joseph S. Richards, of Kennett Square, Pa., leaving now five brothers and one sister, all past 61 years of age. Other deaths this year were John Bender, Middletown, Delaware; Walter W. Walls, Wilmington, Delaware.

The oldest member present was Joshua C. Davis, in his 92nd year, of Trenton, N. J. The oldest of the immediate family, William A. Richards, in his 82nd year, of Newark, Delaware. The youngest was Allan D. Richards, aged 11 months, of Singersville, Md.

GRADUATES GET APPOINTMENTS

Twenty-four Members of Last Year's Class Have Positions

Members of last year's senior class at the Women's College of Delaware have received appointments as follows:

Helen Groves, teaching, Harrington. Mildred M. Haley, teaching, Wilmington.

Marian Hatfield, teaching, Newark. Maud L. Lodge, teaching, Dover. Eleanor H. Marshall, teaching, Milford.

Grace T. Marvil, Social Service, Wilmington.

A. Margaret Moffett, teaching, Smyrna.

A. Louise Philips, secretary, Mr. John Cranston.

Marian Rodney, teaching, Port Norris, N. J.

Mabel K. Tebo, teaching, West Chester, Pa.

Gladys I. Wilcox, teaching, Newark.

Elsie L. Wooleyhan, teaching, New Castle.

The following members of the Teacher Training Class who completed that course in June have accepted positions to teach:

Mary E. Barwick, Dover; Mabel Nora Bromley, Felton; Roberta Gertrude Burton, Claymont; Anna Louise Elliott, Wyoming; Thelma Elizabeth Hines, Newark; Mildred Elizabeth Jester, Delaware City; Dorris Elizabeth Le Cates, Delmar; Anna Clayton Marvil, Delaware City; Lillian Pearl Price, Wyoming; Pauline Pryor, Oak Hill; Reba Bates Russell, Dover; Anna Skrivan, Hartly.

TOWN DIRECTORY

The Post Again Publishes Information for the Public

This paper has been requested many times to run the Town Directory again. To meet these requests the directory is published again this week for the first time in several months and will appear weekly.

The directory is to give an outline of all things of public interest in the town. It includes in its make-up the meeting night of the various lodges of the town, the railroad and bus line schedules, church services and like items.

If there is any organization which has weekly, semi-weekly or monthly meetings, who wish to have their schedules placed in the Directory, a postcard or phone call to the Newark Post will bring the wanted results.

Rock Church Congregation Anxious
to Obtain Pastor—Many Visi-
tors Over Week-end

Rev. Alfred Stockbridge, a candidate, filled the pulpit at Rock Church Sunday, August 13th, and delivered a most excellent sermon. He was entertained at the home of Miss Lillian and Nellie Mackey. Rev. Stockbridge again filled the pulpit Sunday, August 20th, and was entertained by Mrs. C. C. Brokaw. The congregation was very much pleased with his sermon.

The church has been without a pastor for a long time, and the congregation is getting real anxious to have a pastor of its own again.

The Sunday School of Rock Church will hold its picnic at Charlestown, Thursday, August 24th. If stormy it will be held the following day.

Services at Rock Church Sunday, August 27th: Sunday School, 2 o'clock; preaching at 3 p. m.

Mr. and Mrs. Wilbur Walker and son, of Churchville, Md., have been visiting Mrs. Walker's sister, Mrs. Charles Warrington.

Mrs. Jennie Kleitz, of Newark, has been the guest of Mr. and Mrs. Chas. Payne.

Mrs. George Racine, of Yorklyn, has been spending some time with her daughter, Mrs. Joseph Miller.

Mrs. Mary Pennock has been the guest of her son Lealie Pennock.

Mrs. Wilkin Elliott, and sons, of Germantown, Pa., have been spending some time with Mrs. Elliott's parents, Mr. and Mrs. James Mackenzie.

Mr. and Mrs. Harvey Anderson and son, of Blake, spent Sunday with Mr. and Mrs. Wm. Hill.

Harvey Gregg, of Newark, spent Sunday with Mr. and Mrs. James Spence.

Mr. and Mrs. Stanley Kite are receiving congratulations on the birth of a baby boy.

Mrs. Cornelia Mackey has been the guest at the home of Frank Husten and daughters.

Mrs. Mary Bye has been visiting her daughter, Mrs. Charles Warrington.

Miss Mildred Cleaves has been the guest of her sister, Mrs. Charles Payne.

Mrs. Clara Carter, of Philadelphia, has been spending a few days with Mrs. Joseph Thompson.

Mrs. Charles Stewart has returned home after a visit with friends in Chester.

Mr. and Mrs. Wert Bouchell, of Elkton, were Sunday guests of Mrs. Joseph Thompson.

APPLETON

A number of members of Appleton Grange attended Farmers' Day at Calvert on August 19.

Mr. and Mrs. Murray and Leonard Shakespeare, of Manayunk, Pa., are the guests of Mr. and Mrs. Hosea R. Smith.

Mrs. Edward Murphy, of Chester, Pa., is visiting her father, Mr. Joseph Crockett.

Mr. and Mrs. Lewis N. Scott, of Chester, Pa., and Mrs. Ella V. Scott, of Wilmington, were Sunday guests of Mrs. Selena Peterson.

Mrs. Seruch T. Kimble and family, and Frank Zebley are visiting in Rancocas, N. J.

Mr. and Mrs. Calvin Miles and Mr. and Mrs. James Miles have returned from a ten days' auto trip to Maryland, Pennsylvania, Virginia and West Virginia points.

WEATHER FORECAST

The United States Weather Bureau gives out the following forecast for the period ending August 26th: Generally fair and normal temperature first part of week; latter part unsettled with local showers and moderate temperature.

AUGUST 23, 1922

REPUBLICAN CONVENTION NAMES CANDIDATES

(Continued from page 1)

Capital and Labor

"We pledge support to the principle that labor must have a fair living wage, with safe and healthful conditions of service; that capital, representing the savings and investments of the great body of thrift-practicing citizens, must have a reasonable and safe return upon its use; and that differences arising between capital and labor be equitably compromised on this basis, as a matter of public responsibility on both sides.

"We believe that the full power of the State should be exercised to protect the lives and improve the conditions of its wage earners, particularly to insure prompt and fair compensation in case of injury, and to adequately regulate the employment in industry of its women and children.

Law Enforcement

"We firmly pledge the Republican party to a policy of law enforcement and the fair and impartial legal redress of all injury and injustices under the laws.

"We favor the enactment by Congress of laws designed to stamp out lynching in every part of the nation.

"We urge that the people exercise their right of educational and legislative effort toward popularly desired changes or modification of the laws, but refrain from any and all violation of the laws while they are in force; and we believe that no group or secret organization should claim or be permitted to exercise the prerogatives of the legislative, judicial or executive departments of government.

Woman

"We believe that the earnest and thorough party work undertaken by the Republican women of Delaware during these first two years of their entrance into the political problems of the State is entitled to the highest commendation. They have ably demonstrated their rights to full representation in the affairs and duties of citizenship, and in the organization and work of the Republican party.

"We, as delegates, are glad to vote the Republican women into the legal organization of the party, on equal terms.

Representatives in Congress and State Officers

"We commend and approve the efforts of our Senators and Representatives at Washington, and we recognize with appreciation the service of the Governor of the State and other State officers in the administration of their several departments.

State Financing

"We especially commend the adoption of the State budget system which enables our citizens to more clearly understand the purposes for which the public moneys are to be expended; and we approve the modern and efficient system of auditing that has been installed to properly supervise such expenditures.

Taxation

"We pledge the repeal of the three dollar filing fee; and in view of the dissatisfaction and misunderstanding which is constantly arising in regard to special or general taxes, we advocate the creation of an official body, or the changing of a present official body, with the following duties:

"Investigating approved methods of taxation and sources of revenue in relation to the amount of money needed from year to year for the maintenance and development of the State's legitimate departments.

"Working out a plan for an equitable distribution of taxation upon individuals and classes of taxpayers.

"Devising means of keeping the public fully and clearly informed on all tax and revenue questions, and the tax procedure within the State.

Education

"We believe that the people of Delaware demand the economical but real development of the public school system, giving all children equal and modern educational opportunities. We pledge our sincere endeavors to continue the development of this policy.

Americanization

"We urge the continuance of State aid to Americanization schools, and promise to support legitimate undertakings for the educational betterment of our foreign-born citizens.

Highway Department

"We heartily commend the State Highway Department for the excellent progress it has made and is making in the development of the State highway system in Delaware; for the sighted and able management of its engineering and business affairs; and for its maintenance of the improved highways and effective guidance in improving the state-wide standards in the construction of economical road systems.

Agriculture

"We congratulate the State Board of Agriculture upon the establishment of a Bureau of Markets, and favor such legislation as will insure to our agricultural population a further development of their interests.

Forest Conservation

"We advocate such action of the State as will protect the owners of timberland from unnecessary losses by fire; as will conserve unripe timber, and encourage the conservation of unused land into timberland that will add to the wealth of the State.

Child Welfare

"The responsibility which the State of Delaware has assumed for the health and well-being of the child, and the proper care and instruction of the mothers is in accord with the sentiment of this country, and of all the most highly civilized countries of the world. In consideration of the practical results of the Delaware work, as shown in the greatly reduced death rate, and the general improvement of health conditions in many sections of the State, we endorse the continued activity and support of state agencies for the health and protection of mothers and children.

Women at the Workhouse

"The accommodation now provided for women inmates sent to the New Castle County Workhouse from all counties of the State, are so unsuitable and unsanitary that they seriously affect the physical and moral condition of these inmates. We strongly advocate that action be taken at the next session of the Legislature to provide suitable and sanitary quarters.

Care of Feeble-Minded

"We appreciate the desperate financial condition of the Institution for Feeble-Minded Children in Sussex county, and recommend that the next Legislature investigate the condition, with a view of providing such facilities as many be necessary to meet the needs of this important institution.

Parole System

"We favor the enactment of legislation for the establishment of a practical system of parole which will contribute to improvement of the citizenship of state and county prisoners, and aid the economical administration of our penal institutions.

Delaware Seaports

"We consider it a cause for state-wide congratulation that early in 1923, new seaport piers will be opened on the Delaware River front adjacent to the city of Wilmington, to provide water transportation facilities with all coastwise points in the United States as well as with the seaports of the world. The development of these seaport terminals will be a great practical service to the manufacturing and agricultural interest of the State. We urge upon our representatives at Washington and the National Government the utmost speed in enlarging and deepening the channels adjacent to these marine terminals at the mouth of the Christina River, so that the State may receive and ship cargoes, not alone in moderate-sized freight carriers, but in the largest vessels engaged in coastwise and world traffic.

Business Management of Party Finances

"We favor the further development of the best business practices in handling the party finances and urge upon the various committees of the Republican party within our State that a careful budgeting of all expenditures for proper work during the campaign—for advertising, circularizing, meetings, speeches, actual services in registration and election day work and other legitimate expense—be adopted, together with suitable auditing of such expenditures, so that all subscribers to the party funds may have full confidence in the care and honesty of such disbursements.

Would Let Absent Register

"It is the sense of this Convention that our registration laws should be amended, so as to permit the registration of citizens absent from the State without appearing in person; and that the Convention recommends that our next Legislature make such changes in our laws.

THE TICKET

Senator—T. Coleman duPont, of Wilmington.

Congressman—Dr. Caleb R. Layton, of Georgetown.

Insurance Commissioner—Dr. C. M. Hollis, of Seaford.

State Treasurer—Thomas S. Fouracre, of Middletown.

State Auditor—Morris Harrington, of Felton.

The address of W. A. Simonton, placed the name of T. Coleman duPont in nomination for United States Senator, for the short and long terms.

Speech for Senator

"Ladies and Gentlemen," he said, "we are here for the purpose of nominating a United States Senator, for the short and long term, from the State of Delaware.

"It is an honor to have the privilege of addressing this, the first Republican State Convention where the fair sex are seated as delegates alongside those of the men with equal authority.

"This has been further demonstrated by the action of this convention, in endorsing a fifty-fifty State Committee.

"I propose to nominate a man of world-wide experience in business matters as well as political. A man who has been named as a Presidential candidate in two national conventions, but owing to territorial division and our State being a small State, we have not up to date, elected a President from this State.

"This reminds me of an incident happening in the middle West. A prominent business man was named receiver of a short railroad, and assuming the responsibility, took upon himself to ask the President of the great Pennsylvania system for an annual pass over his lines. The President of the Pennsylvania Railroad never heard of this railroad which the gentleman represented and calling his assistants to him asked them for information concerning this man but could not discover the railroad which this receiver represented. The President wrote back to the receiver, saying, he was unable to find the railroad which he represented and could not give him a pass. The receiver in response to this letter, wrote back and stated, that while his railroad was only 15 or 16 miles long, it was just as wide as the Pennsylvania, and he thought he was entitled to the request asked.

Proud of State's Business Men

"It is so with this little State of Delaware. It produces business men that are just as high in status, just as broad-shouldered and of a mental capacity equal to any of the larger States in the Union.

"As a business man, he has no equal in the length and breadth of the land. He has been a coal operator, miner, (if you please), successful in conducting a large chain of hotels, and a farmer.

"You cannot measure his capacity by the clock, I would suggest a calendar instead, as he labors from before sunup until after sundown. You have only to gaze upon the map of Delaware, not the railroad map, but the Boulevard map, showing what this man has accomplished within his own State.

"This man will be elected Senator from the State of Delaware as sure as God made little peaches in California and large ones in Delaware.

"I nominate for the short and long term, the first man from the First City from the First State in the Union, Coleman duPont, of Delaware."

Mrs. Ashbrook's Address

Mrs. Julia H. Ashbrook, in seconding Senator duPont's nomination for the women said:

"On behalf of the Republican women of the State, through firsthand knowledge of the attitude of them, individually, and by endorsement of the organized committees of Republican women, I wish to name Coleman duPont as their choice for United States Senator.

"Women, from the experience with public service, both in and out of politics, are united upon the one fundamental qualification of any candidate for office: that qualification is ability specially directed toward the duties which he will have to perform. No one, I think, will gainsay that in the matter of sheer ability, the man whom I have mentioned stands foremost among all possible candidates from this State, whom, at a time when grave industrial and other domestic problems are to be solved, we might propose to represent us in national council.

"This recognition of the ability of Coleman duPont is undisputed both locally and nationally. Senator duPont has many other qualifications that fit him to represent the State of Delaware at Washington, but it is particularly because he has in supreme measure that one qualification, for which the women of Delaware and the whole country stand first, that the Republican women of the State are pleased to enter their first convention, with the name of Coleman duPont at the head of the ticket.

Praises Mrs. duPont

"I know that it is most unusual to mention a man's wife in seconding his nomination as a candidate for election to the United States Senate, but the woman who inspires this mention is delightfully unusual herself. She is known nationally as well as locally with the greatest and most genuine admiration for her work and her personality. The women of Delaware feel peculiarly close to Mrs. Coleman duPont because of association with her in practically every worthy cause which appeals to the best that is in women and womanhood, and her being at Washington will give to us an additional representative in whom we have this special confidence.

"Therefore, on behalf of the Republican women of the State, as appealing not only to them and women in general, but to the independent thinking voters, I wish to second the nomination of Coleman duPont as nominee from Delaware for the United States Senate for both the short and the long term."

Goslee Nominates Layton

Dr. Caleb R. Layton for representative in the Sixty-eighth Congress from Delaware, was placed in nomination by J. Edward Goslee, of Sussex county. His nomination was seconded by Senator L. Heister Ball for New Castle county and by Captain Harry Lyons, of Lewes, for Sussex county.

The name of Thomas S. Fouracre was placed in nomination for State Treasurer by Senator A. P. Corbit, of Odessa, New Castle county.

For Auditor of Accounts Joseph Morris Harrington was nominated by George C. Hering, of Felton, Kent county.

Dr. Charles M. Hollis, for Insurance Commissioner, was nominated by Clifford Burton, of Seaford, Sussex county.

THE STATE COMMITTEE

The personnel of the new Republican State Central Committee which will probably meet within a week or ten days for organization, is as follows:

Wilmington district—Thomas W. Miller, William H. Heald, Charles H. Grantland, Julia H. Ashbrook, Mrs. Charles T. O. Schofield, Mrs. Jennie Deakayne. Dr. Conwell Banton will represent the colored voters in this district.

Rural New Castle county district—Henry M. Canby, James G. Shaw, Thomas S. Fouracre, Mrs. W. K. duPont, Mrs. John F. Z. Clayton, Mrs. Ethel Brown. No committeeman was chosen to represent the colored voters in this district, and, according to the rules, one cannot be chosen until the next State Convention.

Kent county district—Governor William D. Denney, Dover; James L. Davis, Milford; John L. Bradley, Smyrna; Mrs. Frank Hall Davis, Dover; Mrs. Lillian Dobson, Clayton; Miss Emma Davis, Harrington; colored member, Alfred Baikes, of Dover.

Sussex county district—Oliver A. Newton, Harry V. Lyons, Elijah C. Lynch; Mrs. S. H. Messick, Bridgeville; Mrs. J. T. Atkins, Milton; Mrs. Florence K. Evans, Selbyville, colored member, James C. Robertson.

The emphatic refusal of Thomas W. Miller, Alien Property Custodian, to be considered as a candidate for the chairmanship of the State Committee, leaves the question of a successor to Chairman Warner very much in doubt.

Membership on the State Committee, formerly composed entirely of men, under the new rules, is increased from 20 to 32 by the addition of 12 women; three from each of the convention districts.

The State Committee will have three vice-chairmen, one of whom shall be a woman, and the chairmen of the State Committee will appoint, instead of the committee electing, its secretary and assistant secretary, one of which positions shall be filled by a woman.

Personals

Miss Amelia Wagner, of Philadelphia, is visiting her sister, Mrs. William J. Lovett.

Prof. A. C. Smoot, connected with the drug store of his uncle, W. E. Brown, left Sunday for an automobile trip through the New England States.

Dr. and Mrs. W. E. Brown are spending a few days in Southern Maryland.

Miss Agnes Forrester, Miss Ethel Greenfield and Fred, Florence and Dorothy Shank, of Philadelphia, are spending this week in Newark.

Miss Marjorie Johnson is visiting Miss Anna May Starling, in Dover.

Dean Robinson has returned from a vacation spent in Vermont and Massachusetts.

Miss Georgia Downing, of Wilmington, spent Sunday with her sister, Mrs. W. H. Evans.

Dr. and Mrs. Lee Warren, of Berlin, Md., and Mr. and Mrs. William Holloway, of Newark, Md., were the weekend guests of Mr. and Mrs. Charles Jarmen.

Mrs. Helen Wilson, of Wilmington, spent Sunday with Mrs. John T. Wilson, near Newark.

Col. and Mrs. J. C. Wickes and Mr. and Mrs. Roop, of Dover, were Sunday visitors in Newark.

Miss Margaret and Master Selby Jarmen are visiting relatives in Berlin, Md.

Mrs. E. K. Butler and Miss Florence Butler are visiting in Baltimore.

Mr. and Mrs. John Evans are spending a few weeks in the Pocono Mountains.

Miss Sara Steel returned Monday after spending two weeks with friends at Oak Grove.

Mrs. Katherine L. Davis is returning home after an extended trip with her daughter, Mrs. Robert Weimer. Prof. Weimer has accepted a position in eastern Ohio, just outside of Wooster, where he will be engaged in vocational work.

Elaine Bennett, of Newark, who has been visiting her sisters, Charlotte and Evelyn, of Wilmington and Philadelphia, will return to her home on Chouteau street, Thursday. Miss Bennett will be accompanied by her aunt, Mrs. Tostall.

John S. Shaw and family spent the week-end in Dover, N. J.

Donald Lundey and Mr. Webb, of Washington, D. C., have been visitors with H. E. Vinsinger and wife.

Mr. and Mrs. Edgar Hitchens, near Newark, are receiving congratulations on the birth of a son.

Mr. and Mrs. Herbert H. Hitchens, of Bethlehem, Pa., and son, William, are spending a few days with Mr. and Mrs. William E. Holton.

Mrs. Chas. J. Burnley has returned home after spending a week at Charlestown, Md.

Edward Herbener, of Washington, D. C., is spending some time in Newark and vicinity.

Mr. and Mrs. Orville Little, Mr. and Mrs. J. Harvey Dickey, Mr. and Mrs. John Strickland, Mr. and Mrs. Fred Strickland and Mrs. Anna Slack motored to Washington, D. C., on Friday night. They visited Alexandria and Mt. Vernon, Va., and Arlington Cemetery. They returned on Sunday.

Mr. and Mrs. Robert Major and son Robert, Mr. and Mrs. John Slack and son John, of Newark, and Mr. and Mrs. Victor Handy, of Baltimore, have motored to Quantico, Va., where they will spend two weeks. Jennie and Marie Slack who have been spending some time there will return with their parents.

Handy M. Long spent the past week-end at his home in Lewes, returning here yesterday.

BABY DAUGHTER

Mr. and Mrs. Harlan Tweed are receiving congratulations on the birth of a daughter. The stork made its visit last Friday.

FORMER LOCAL

COUPLE MARRIED

Miss Katherine Churchman and George Longland, both former residents of Newark, but now of Richardson Park, were married in Wilmington on Saturday night.

After an extended trip to Atlantic City and New York, the couple will make their home at Richardson Park.

CANNING EXHIBIT

Several Hundred Persons Attended Affair Last Week

Several hundred persons attended the public exhibition held at the plant of United Canneries Corporation last week.

Those who visited the plant saw how corn and tomatoes are canned and the exhibit proved very interesting.

REGULAR SERVICES

Rev. Frank Herson, of the Methodist Episcopal Church, announces that the regular services will be held on Sunday.

SOY BEAN MAJOR CROP

The soy bean is rapidly taking a place as a major crop in the farming section of the corn belt, replacing oats to a considerable extent and taking part of the corn acreage, says the Department of Agriculture. Although primarily used for forage, pasture and ensilage, the growing of seed during the last few years has become a very profitable industry. The production of seed has now increased to the point where the supply greatly exceeds the demand for planting.

CANAL WORK PROGRESSING

The work of constructing the Chesapeake and Delaware Canal will be completed in three or four years it was said recently at the office of chief engineer of the army, at Washington, D. C., who is charged with the work. The appropriation of \$2,500,000 for the work in converting the canal into a modern sea level waterway will be carried on as rapidly as possible. The plans call for deepening the canal from 9 to 12 feet at mean low tide, the elimination of the three locks which is impeding transportation. This will make the Chesapeake and Delaware Canal the same depth as the New York Barge Canal, which carries vessels as large as 2000 tons.

"AMERICAN GIRLS TOO PLUMP"

King of Spain Thinks They Should Not Expose Arms Too Much

Here is what the King of Spain thinks of the arms of American women:

"Few women have arms pretty enough to afford the now bare-to-the-shoulder fashion. The arms of the American women are too stout and those of the British too skinny. The Spanish arms are too short. France supplies the best small women and Italy the best Juno types."

This is the statement reported to have been made by King Alfonso after the race meeting yesterday. Several thousand pair of bare arms featured the races, creating the unprecedented impression of a crowd of fashionable women clad only in extravagant bathing suits. The King added:

"A woman may wear décolleté or a gown which leaves her back bare, or appear in the shortest of skirts, but she never gives the same idea of scanty attire as in the case of arms bared above the shoulder."

"Sculptors declare it is practically impossible to find arms gracefully attached to the shoulder, the junction of the limb to the body being generally too low or too high or too fat. Therefore it must be concluded modern women have great pluck to exhibit their bare arms at a race meeting where the absence of shaded artificial light makes their usual faults more glaring."

IRIS HAS ENEMY WHICH REQUIRES STRONG CHECK

We are told that every three years we must dig up our iris and replant fewer roots in the same space, or that the roots should go in a new location.

This advice is more than timely this year, when plant pests seem to be rampant throughout the land. Particularly this year will be found blank spaces in the iris bed, where the leaves have rotted down and little new ones are struggling to maintain what is left of the old root, for the old root, when dug, is a mere shell or a partially eaten-out semblance of its otherwise robustness and rotundity. It has fallen a victim to the most destructive of all underground or root feeders, a cream-colored or pink-brown headed white worm about one and three-quarters inches long and five-sixteenths of an inch in diameter.

In a space five feet wide by eight

and a half feet long the writer dug up what was left of the iris of years' standing, only to find about one-tenth of the roots with feeding tendons left, and gathered a crop of over 200 of these ravenous feeding worms and a bushel of useless root shells. In an effort to save some wonderfully colored stock, every root that sustained a leaflet was cut away from the parent shell and replanted in another location and the mass of shells, worms and dead leaves were treated to gasoline and fired. Just how to combat such a plant enemy is hard to conceive, since their origin and life history is unknown to the writer and, therefore, poisons are hard to administer.

RESOLUTION OF RESPECT

Whereas Ivy Castle No. 23, Knights of Golden Eagle of Delaware, having heard of the sad death of our friend and brother, George J. Ash, and while accepting the will of Almighty God, who does all things well, deem it their privilege to express to the public their appreciation of his life and service to our beloved order.

To an honest and upright life there was added an honest and hard working interest in the welfare of our beloved order. Meeting the approval of all members.

Therefore be it Resolved, That in order to give publicity to the appreciation of his life and service, this memorial be published in the Newark Post, entered upon the minutes of our Castle and a copy shall be forwarded to the widow of our departed brother, and be it further

Resolved, That as a further token of our respect, our charter be draped for a period of thirty days.

ROBERT J. CROW,
JAMES T. ANDERSON,
RALPH D. EDMANSON,

Books For New Citizens And Women Voters

Wilmington Library Prepares Inter- esting List of Books for Its Patrons

The reference department of the Wilmington Institute Free Library has spent considerable time preparing a list of books for new citizens and women voters which will without a doubt be of special interest to our readers. The list follows:

"Books on Mechanism of Government, City, County, State and National—Including Taxation."

LOCAL GOVERNMENT

(A) General

- Beard, C. A.—American Government and Politics. 1910.
Bryce, James, Viscount.—The American Commonwealth. v. 2.
Fairlie, J. A.—Local Government in Counties, Townships and Villages in the U. S. 1906.
Fiske, J.—Civil Government in the United States. 1892, new ed. 1904.
Hart, A. B.—Actual Government. 4th ed. 1918.
"Comprehensive Treatise on Local State and Federal Government."
James, J. A. & Sanford, A. H.—Government in State and Nation. 1901.
Messersmith, G. A.—Government of Delaware. 1908.
Schwinn, E. and Stevenson, E. W.—Civil Government. 1901.
Wilson, Woodrow.—The State; ed. rev. to Dec. 1918, by Edward Elliott. 1918.

(a) County

- Bemis, E. W.—Local Government in the South and Southwest. (Johns Hopkins University Studies in Historical and Political Science. v. 11, Nos. 11-12.)
Childs, R. S.—County Manager Plan. (In Conference for Better County Government. Proceedings. 1914.)
Childs, R. S.—County Manager Plan. (American City. 1914, v. 11: 457-61.)
County Government.—(In Annals Amer. Acad. My. 1913, v. 47.)
Fairlie, John A.—Local Government in Counties, Towns and Villages. 1906.
Gilbertson, H. S.—The County, the "Dark Continent" of American Politics. 1917.
Maxey, C. C.—County Administration... Based on Survey in State of Delaware. 1919.
National Short Ballot Organization.—Documents on County Government.
Schwinn, E. and Stevenson, E. W.—Civil Government. 1901.

(c) City

- Beard, Charles A.—American City Government. 1912.
For Students and Citizens, Rather than Experts.
Deming, H. E.—Government of American Cities. 1909.
Fairlie, John A.—Essays in Municipal Administration. 1908.
Fairlie, J. A.—Municipal Administration. 1901.
Gilbert, A. M.—American Cities. 1918.
Goodnow, Frank J.—City Government in the United States. 1904.
James, H. G.—Applied City Government. 1914.
Munro, W. B.—Government of American Cities. 1912.
Zueblin, Chas.—American Municipal Progress. 1916.
Newer Ideas of City Government
Bruere, Henry.—New City Government. 1912. "Based on survey of ten commission governed cities."
Beard, C. A.—Loose Leaf Digest of Short Ballot Charters.
Toulmin, H. A.—City Manager. 1905.
Woodruff, Clinton Rogers.—City Government by Commission. 1911.

STATE GOVERNMENT

- Beard, C. A.—American Government and Politics. 1910.
Blue, L.—Recent Tendencies in State Administration. (In Annals of the American Acad. 1901, v. 18, p. 434-445.)

ADVICE TO PEDESTRIANS CONCERNING NIGHT TRAVEL

The State Highway Department has issued the following bulletin relative to pedestrians in public places:

"Pedestrians along country roads and those who walk in the streets at night in preference to using the sidewalks can contribute materially toward the reduction of automobile accidents by walking on the left side of the road, facing oncoming traffic."

"Courtesy on the part of the automobile driver demands the use of dimmed lights at night and this factor, while it contributes to the safety of passing motorists, makes it exceedingly difficult for the automobile driver to see a pedestrian walking along the edge of the road in the same direction the car is traveling. This difficulty is increased if the pedestrian happens to be wearing dark clothing. The result is that the driver is practically on top of the pedestrian before the latter becomes visible."

"Walking on the left hand side of the road is just as good for the pedestrian and enables him to see the approaching automobile in time to step aside if the motorist does not see him in time to swerve."

"The pedestrian should remember that the rules of the road require the autoist to keep to the right and should contribute to the factor of safety by keeping to that side of the road which best enables him to escape the oncoming car and especially the occasional speed fiend or 'flivverboob' who cares nothing for consequences and speeds regardless of the rights of others, for it has been truly said that whether you were in the right or not does not matter after you are in the hands of the undertaker."

SUSSEX CROPS TO BE STATE FAIR EXHIBIT

How Sussex county farmers are developing into the leading sweet potato growers in this country both as to quality and quantity will be one of the interesting exhibits at the Delaware State Fair which opens at Elsmere on Labor Day. Sussex county has one of the most diversified agricultural crops of any county in the State and for that reason, County Agent Vaughn proposes through the county exhibit

who plays the taxes in the end." Wells, D. A.—Theory and Practice of Taxation. 1900.
The books which are marked with a star (*) are the most popular.

to show how the farmers have solved their problems.

As a result of the work of agricultural leaders of the University of Delaware, county farmers now find that sweet potato seed treatment, and soil fertilization are just as important as seeing that their horses and stock are fed regularly.

One of the problem that has confronted the Sussex farmer is that of securing good pasture for live stock. This has been particularly difficult because of the light sandy soil. Experiments made in planting Japanese clover are proving satisfactory. It is a new clover and County Agent Vaughn will display how it is being grown.

Soy beans, as a money crop, will be shown through actual exhibits. From practically nothing a few years ago, the crop of soy beans in Sussex has increased to several hundred acres. Mr. Vaughn has shown the farmers the methods of inoculating the beans. Last year Sussex county farmers shipped out several thousand bushels of seed at double the price per bushel received for wheat.

County Agent Vaughn will be in the Sussex booth during Fair week to explain the work that is being done among the farmers, to answer questions and discuss any agricultural problems with all who seek information.

The Paint That Failed

Sir Lancelot, in days of old,
Wore armor made of steel,
And everywhere this knight did go,
Right noble did he feel.
He was invited into court
To dine with Lady Hausers.
He spilled some water on his suit,
And rusted his best trousers.—Fun.

ASSISTANT FOOTBALL COACH NAMED

(Continued from Page One.)

squad would take place at Red Point, Md., along the North East River. The squad of gridiron warriors will go to this place on September 8th and will stay there ten days before returning to Frazer Field on September 18th. Training will continue here until September 30th, when the first game of the year will be played with the St. Joseph's College eleven of Philadelphia.

Quarters for twenty-five men have been engaged at Red Point. Coach McAvoy is especially pleased with the action of the Athletic Council in obtaining an assistant and in securing a site for preliminary training.

Fordson

THE UNIVERSAL TRACTOR

Buy Your Fordson NOW

At this amazingly low price you can't afford to wait another day for your Fordson Tractor.

There is no tractor made that can approach the money value of the Fordson. Nor is there a Tractor made that can do more work for you.

Remember, the very day your Fordson arrives, it is ready for any one of the 101 jobs it can do—either as a tractor or a stationary power plant.

The Fordson has proved to the 170,000 owners that it has not only cut the cost of field work 30% to 50% but that it has made substantial savings on every job to which it is put.

Fordson figures are interesting—money-savers, labor-saving, drudgery-saving facts you ought to know. Come in, phone or write today.
