Dear Jimmy -

Answered
6 August 1856.

I haven't written for I've been under the weather. I had a cold - then grippe, and then complicated with Colitis. We have following Dr Jordan's treatment here at home which means a good deal in bed with hot water bottle, etc. I've been out of the house very little for a week but this morning feel a good deal better.

Buck tells me you & Jane are going to Sharon for some weeks & hope you have a nice change. I hope your father can be up and about some now and that things look brighter.

Tell him we think of him so much. Warm love in love & good wishes to you & Jane & all the family -

Truly yours
Fanny
