Water Measure
Adopted

Street property owners, led by Carroll Stevenson, petitioned the Council of Newark at its meeting Monday night to order that street, but Council refused to grant the request.

Stevenson stated that the people of Newark would gladly pay for the improvement of their streets, but the Council's refusal to do so was a disgrace. He stated that the Council's refusal to do so was a disgrace.

New Chemistry Building To Be Dedicated Soon

TO MAKE ADDRESS

Three Honorary
Degrees To Be
Conferred

Dr. C. M. A. Stine

Plans are being completed for the dedication of the new \$400,000 Chemical Laboratory at the University of Delaware on Saturday, October 16. In connection with the affair a two-day program has been arranged which will bring to the university internationally known men in the fields of engineering and chemistry.

C. M. A. Stine to Preside
On Friday, at two o'clock, a conference on chemistry and chemical engineering, in Mitchell Hall, will be presided over by Dr. Charles M. A. Stine, of the E. I. du Pont de Nemours Company. An address, "The Ultra-centrifuge and Its Field of Research," will be given by the Swedish, professor of Chemistry at the University of Uppsala, Sweden, E. O. Kraemer, colloid group leader, Du Pont Experimental Station, and Hugh S. Taylor, professor of chemistry at Princeton University, will lead the discussion.

A general discussion will follow on an address by Frank C. Whitmore, dean of the school of chemistry and physics, Pennsylvania State College, an "Organic Chemistry as Affecting Various Aspects of Our Civilization."

Following a dinner at the Hotel Du Pont, Wilmington, for the official delegates, an address by Harrison E. Howe, editor of "Industrial and Engineering Chemistry," on "Chemistry and the Nation's Business" will climax the Friday program.

At 9:30 on Saturday, the formal dedication of the new structure will take place. The academic procession will form in front of Wolf Hall and march to the new building, where the ceremonies will be conducted outside, if weather conditions permit. In case of rain or extreme coldness, the exercises will be held in Mitchell Hall.

To Confer Degrees
Following the ceremonies of dedication, honorary degrees will be conferred upon Professor Svedberg, Professor Whitmore and Professor Warren K. Lewis, professor of chemical engineering at the Massachusetts Institute of Technology.

Dr. Albert S. Eastman, head of the chemistry department at the University of Delaware, will preside over the second conference which is scheduled for 10:30 o'clock. Professor Lewis will open the program with an address on "Planning for the Future in Chemical Engineering." A discussion by Albert E. Marshall, consulting chemical engineer and Arthur M. Greene, Jr., dean of the school of engineering at Princeton University, will follow.

James E. Norris, professor of organic chemistry at the Massachusetts Institute of Technology, will then speak on "Chemistry as a Profession," while James G. Vall, vice-president of the Philadelphia Quartz Company, will conclude the session with a discussion. A luncheon for the delegates will be held in Old College at 1:30 o'clock.

Contributions were voted to the state treasury to assist in buying a Naval Academy flag for the United States Naval Academy, Annapolis, which will be presented on Navy Day this year.

Other Fund Aided
Another contribution was voted for draperies for the Delaware room which has been set aside in Memorial Constitution Hall, Washington, while funds were also given for the Magna Tablet and to the furnishing of Surrender room, Yorktown, Virginia.

Appreciation of the chapter was expressed to Mrs. A. B. Eastman for her work in arranging radio program over WDEL last winter. Miss Anna Frazer, who managed the card party for the scholarship fund last May and a rummage sale during the summer, was also thanked for her efforts.

Contributed by an anonymous member, Cooch's Bridge Chapter donated an encyclopedia to Christians school.

Favorable reports were received on the Girl Scouts' drive for funds at a meeting of the troop committee, called by Mrs. Frank K. Simons, local chairman, yesterday.

EDUCATION BY P.T.A. TO START

State A. E. Group
Will Have Class
On Problems

The Parent-Teachers Association of the Newark Public Schools is again sponsoring evening courses in various subjects to be given by the state Adult Education department. Notices were recently sent out through the school, giving a list of available courses and asking the choice of the parents. The returns from these notices have been tabulated and on the basis of the demand for each, the requests have been made to the Adult Education department.

There were 37 enrolled through the school for a course in art and home decoration, 24 for woodwork, and 27 for garment making. Choral singing, physical education and child study were next in order, but lack the necessary number of 15 who must sign up for the request. The local committee has requested that courses in art, home decoration and woodwork be given this term. The classes will probably begin Wednesday or Thursday of next week.

Due to 18 enrollments for a first aid course, this subject may be studied under the direction of the Red Cross.

Special Course Offered
With the view in mind that communities as well as individuals must plan for the future instead of leaving development to chance, the state Adult Education department is offering the people of Newark an opportunity to study the needs of the town under unbiased and expert guidance. The study will deal with the problems which are likely to arise and setting up a tentative plan for meeting them.

Three such courses are being offered in the state, one in each section. Whether or not the course will be given here, depends upon the number who will enroll. Those interested are requested to contact a member of the Adult Education Committee, Mrs. Carl Rankin, Mrs. W. K. Gillespie, Mrs. D. W. Hollingworth or Gerald Gilligan.

D.A.R. IN INITIAL MEETING

Cooch's Bridge
Chapter Opens
New Season

Cooch's Bridge Chapter, Daughters of the American Revolution, held the first meeting of the fall last Saturday at the home of Mrs. W. F. Wilson, 58 W. Park Place, Mrs. Wilson and Mrs. Louise Hendry were hostesses.

Mrs. J. R. Kasley, Dubois, Pa., was a visitor, while greetings were extended to Mrs. Emma L. Bogart, Long Beach, California, and Mrs. Sarah E. Beals, Dorchester, Mass., both of whom recently moved to Wilmington.

Contributions were voted to the state treasury to assist in buying a Naval Academy flag for the United States Naval Academy, Annapolis, which will be presented on Navy Day this year.

Other Fund Aided
Another contribution was voted for draperies for the Delaware room which has been set aside in Memorial Constitution Hall, Washington, while funds were also given for the Magna Tablet and to the furnishing of Surrender room, Yorktown, Virginia.

Favorable reports were received on the Girl Scouts' drive for funds at a meeting of the troop committee, called by Mrs. Frank K. Simons, local chairman, yesterday.

A keen interest is being shown in the campaign and the committee is pleased with the enthusiasm of the workers, all members of the local troops.

H. E. STAHL GIVES TALK ON CRISIS

Sino-Japanese
Situation
Topic At Club

"If the United States and Great Britain would boycott Japan, that country could be starved into submission within a month," H. E. Stahl, superintendent of Claymont schools, declared in an address before members of the Newark New Century Club, Monday afternoon.

Attended Conference
Mr. Stahl, refused admittance into China, spent several weeks in Japan this summer while attending the World Education Conference at Tokyo and made his own observations of the troublesome situation. Convinced that Japan was making the aggressive moves in the conflict, the speaker pointed out that the majority of the people did not want war, but because of their lack of power, they were unable to take steps toward peace.

Mr. Stahl stated that while most of Japan's energy was directed toward the production of war machinery, agriculture was being sadly neglected. With the bulk of industry concentrated within a small group, the greater part of the population tills the soil and grows crops by the primitive method used at the time of Christ.

Population Increasing
In emphasizing the need for more modern agricultural developments, Mr. Stahl pointed out that the Japanese population is increasing at the rate of more than one million persons a year and is now hovering around a total of 70 millions. "Japan," he said, "is slowly starving to death and internal conflict is inevitable unless conditions are bettered."

Lacks Natural Resources
Further emphasizing Japan's lack of balanced power, the speaker pointed out that the aggressive nation, while possessing the most modern weapons of war, still lacked the natural resources, coal and iron, with which to build these machines. With her people starving and with a large proportion of them suffering from diseases caused by malnutrition and unhealthy living conditions, she will be forced into bankruptcy if China can hold out for another year, Mr. Stahl declared.

"Sixty per cent of the Japanese population is poorer than the lower five per cent of our country," the speaker said. About fifty members of the club attended the session, which opened the regular series of fall meetings.

Newark Music Society to
Meet on October 19
The first meeting of the Newark Music Society will be held Tuesday evening, October 19, at the home of Miss Mary E. Wright, on Orchard road.

A program of music by American composers will be presented and plans for the coming year outlined. Anyone who cares to join the society is asked to communicate with Mrs. F. A. Wheelless, 232 Orchard road.

The Wilmington Society of the Fine Arts will have an exhibition of the Howard Fyle collection of paintings in the Wilmington Public Library, until October 23. The work will be on view weekday afternoons from 1:30 to 5 o'clock and Monday evenings, from 7:30 until 9:30.

These pictures by Delaware's famous artist, were purchased from his studio by popular subscription in 1912. The general enthusiasm shown at this time resulted in founding the society.

Wins Prize
Mrs. Fred J. Strickland, of Newark, was awarded a \$100 prize in the Burns-Shave jingle contest. Her prize winning verse will be released some time in January.

MITCHELL
HALL OPENS

Drama Group In
Guest Role On
Play Program

The University Drama Group, Newark's Community "Little Theatre," will present Schmitzler's "The Farewell Supper" as guest artists in the Playbill Program scheduled for Mitchell Hall tomorrow night. Mrs. Harry Gabriel is directing the play and Lawrence Wilson, Major R. W. Argo and Mrs. Karl Rees are among the cast. The group, of which Dr. J. C. Gould is president, will be remembered for the successful presentation of "The Dead Sister's Secret," which was given last season on the Mitchell Hall stage.

The Puppets will do a one-act play, "Conflict," and the cast, consisting of Betty Jane Brown, Mina Press, Blanche Lee and Joseph Holzman, will be directed by Elizabeth MacFarland.

Football Players
Thomas Warren's "You Can't Win," an original play submitted in the Dean Smith playwriting contest last year, has been chosen by the Football Players as their contribution to the Playbill Program.

Carroll Cox will act as director and the cast, which has not as yet been entirely chosen will include Carleton E. Douglass, graduate last year of Newark High School.

"You Can't Win" will be the second original presentation to be given at Mitchell Hall this year. Warren, a senior at the University of Delaware, is himself a member of the Football Players.

The Playbill staff includes: Jack Kearns, business manager; Virginia Ruppert, publicity chairman; Betty Grimm, make-up; Janet Grubb, set design; Betty J. Brown, properties; Ken Steelman, lighting; and Harold Tiffany, stage crew.

REGIONAL GATHERING

Farmers To
Assemble Here
Next Week

A regional meeting for members and friends of the Eastern States Farmers' Exchange will be held, beginning at noon, next Wednesday in the Newark Methodist Episcopal Church, H. Wallace Cook, field man for the association, announced this week.

The purpose of the meeting is to explain in detail the setup of this cooperative association of farmers which will purchase for its members in 1937 about \$20,000,000 worth of commodities.

An interesting program has been arranged to be presided over by former State Senator Wallace Williams of Elkton, director of the exchange for Cecil County.

Many Speakers Listed
Short talks will be given by the following speakers: "Duties of the Field Representative," H. Wallace Cook; "Responsibilities of a Director," H. C. Milliken, Newark; "Duties of the Local Representative," Noah Hershey, Parkersburg, Pa.; "Cooperation Between the University and the Exchange," Professor George L. Schuster, agronomist, University of Delaware; "A Member's Viewpoint of the Farmers' Exchange," Fred B. Martens, Elkton; "Warehouse Service of the Exchange," H. Wilson Price, Newark; "Organization of the Farmers' Exchange," R. W. Harvey, Springfield, Mass.

To Present Pictures
Movies showing the operations in the feed mill fertilizer plants, seed production and other units of the organization will also be shown.

The local committee arranging the meeting, which is one of a series of 78 being held this fall in the nine states served by the association, includes: John D. Reynolds, Middletown; Lee C. Hoffecker, Bear; J. W. Lewis, North East, Md.; Robert C. Wilson, Oxford, Pa., and John J. Hurley, Newark.

Lunch will be served at noon by the Ladies' Aid Society of the Newark M. E. Church under the chairmanship of Mrs. F. A. Jamison. Tickets for the meeting are being issued through the committee on arrangements.

TOTALS ON UPTURN AS WORKERS TRY HARD

150,000 Extra
Votes This
Week On All
\$15 Amounts

There are two points in The Newark Post's subscription campaign that should interest the hard working candidates this week—extended or second subscriptions and the 150,000 extra votes given on each \$15 worth of subscriptions.

One yearly payment, new, gives 5,000 votes. One more year from the same subscriber and to the same candidate would not give 5,000 votes, but 10,000 votes.

One yearly payment, aid, gives 2,500 votes but the second payment, or an extended subscription, would give not 2,500 more votes but 5,000 votes.

If a candidate already had secured a two year, new, payment and then was given another payment for three years, making five years in all, the vote credit would be for 155,000 votes.

This same rule applies to any second, or extended subscription. These payments have to be made to the same candidate in each case. If a subscriber gave one year today, then later gave another subscription and still later gave another, these would all be extended subscriptions and would give additional votes.

Mostly every candidate has had some one say that if they were getting along well in the campaign the subscriber would give another payment later. Well, right now is the time to get these second and third, extended subscriptions.

Look over the scale of votes on inside of front cover of all subscription books. See what big gains in votes you may have by getting these extended payments. And do not overlook the fact that a payment NEW when first secured by a candidate remains NEW throughout the campaign for that candidate.

Any candidate securing these extended payments should be sure to mark it a second payment on the "Office Record" slip in subscription book and also call attention to the fact when reporting at this office. Do not lose votes on any of these second, or extended payments.

Also, this week only and lasting until 8 o'clock Saturday night, October 9th, each amount of \$15 worth of subscriptions will give 150,000 extra votes. If you secured a goodly number of the 200,000 extra ballots last week make it a point to gather in just as many as possible of the 150,000 ballots as well.

There never will be more votes given than this week. Starting next week only 125,000 extra votes are to be given. Then the closing week only 100,000 extra votes are to be gained on the \$15 amounts.

No candidate right now should feel secure in winning. Hundreds of thousands of votes will be issued between now and the closing hour, October 23rd, and the thing to do is to keep right on going after payments and gather in as many of these big 150,000 extra vote ballots as possible. Right now is the time to dig out the hard subscriptions. What will you do about it? You can win \$500 or a new car in just a little more than two weeks time.

Lesson for October 10
THE CHRISTIAN IN
GOD'S KEEPING

LESSON TEXT—John 14: 1-17.
GOLDEN TEXT—"I have said to the world, 'Behold, I am sending you into the world'—John 14: 22.
PRIMARY TOPIC—Why David's Son?
JUNIOR TOPIC—The Good Reason.
INTERMEDIATE AND SENIOR TOPIC—Keeping Ourselves Clean.
YOUNG PEOPLE AND ADULT TOPIC—Life in God's Keeping.

The life of a Christian is only to begin life. The years which stretch out before him with their growth, their struggles, their joys, call for continuous living.

So it is with the Christian. He is a "born man," he has been born again. But when he is born again he is just ready to begin the Christian life.

The friends of a new man must help him to understand the meaning of the Christian's pathway and to realize that the Christian life is a continuous service. It begins with a description of the Christian and ends with a description of the Christian as one who is

The saddest sign on road or street—
"Concrete Ends—400 ft."

For Safety's sake
PAVE THE GAPS WITH
Concrete

Why do state highway departments warn the public: "Concrete pavement ends"? Because it is universally accepted that speeds which are reasonable and safe on concrete become dangerous on other surfaces.

To save lives, to prevent accidents . . . demand concrete all the way.

True and even, it has no high crown—is usable to its full width. Brakes are at their best on its gritty non-skid surface. Its light gray color and sharply defined edges give high visibility at night. Any car is a better car on concrete.

And concrete saves money for motorists and for taxpayers. Insist on concrete for your roads.

Newark, Delaware, October 7, 1937

FIRE PREVENTION WEEK

Fire Prevention Week is here. What are you going to do about it?

If you are short-sighted, you will do nothing. If you have any interest in protecting your property and your family's lives, you will use Fire Prevention Week as an occasion for taking the simple, essential measures that usually suffice to make homes and places of business safe from the most common and dangerous fire hazards.

Fire Prevention Week is not designed to sell anything. It is designed to serve—to conserve—to protect. During the week insurance companies, civic bodies, fire experts and public officials will use the radio, newspapers, displays and printed literature in an effort to make you think and to make you act.

In the average home hazards exist of which the owner knows nothing. Ignorance, as well as carelessness, is a prolific source of destructive fire.

The simplest and most easily corrected causes are responsible for the great bulk of fires in dwellings. A slight fault in heating plant may devastate a home. Accumulations of papers, clothes, furniture and other odds and ends require only a spark to burst into flame. Improperly stored fluids such as gasoline, benzene and kerosene are a constant menace. Amateur repairs of electric appliances and light cords cause millions of dollars' loss annually. Paint or oil-soaked rags are often the cause of spontaneous combustion. An improperly protected hot electric iron, or cigarette ashes invite fires.

It costs you nothing to eliminate these hazards, and takes little time. That small effort may save you thousands of dollars—and infinitely more important, save a life. Fire Prevention Week was inaugurated to serve you. Make the most of it.

Rah, Rah for Tree Planters

Fall is the real rah, rah season. With footballs sailing through the air, school and college fans give voice to their feelings in the fall more so than in any other season.

But fall is the ideal time for planting trees, according to experts, and we are wont to offer a few rah, rahs for Newark people who will this year be planting tiny treelets, which one day will grow to beauteous masses of inviting shade.

Henry Van Dyke, famous preacher and nature lover, wrote as follows:

"He that planteth a tree is a servant of God,
He provideth a kindness for many generations.
And faces that he has not seen shall bless him."

These unborn faces will one day say that the one who planted that rich foliage provided rest for the eyes from the blinding glare of the sun. He helped turn what would otherwise be a harsh and naked corner of earth into a bit of paradise. If a home has trees, the owner does not have to travel a thousand miles to find beauty. He has it every day at his doorstep.

Newark is noted for its trees. Care and attention, with an eye to new trees, are vital if our local beauty is to be continued.

APPLES IN THE PUBLIC EYE

From now on the apple—one of America's principal fruit crops—will be much in the public eye. The biggest and best crop in years is flooding into the American market to be sold to you at bargain prices.

Reason for the sudden prominence of the apple is a grower-consumer benefit campaign carried on by the organized chain stores throughout the country. This is the most ambitious campaign of the many the chains have undertaken in the last two years on behalf of producers and consumers. Vivid and spectacular displays will greet you in your local stores. A tremendous lineage of local newspaper advertising is being used to make sure the exceptionally heavy apple crop will be moved with utmost celerity and economy.

It is the object of the chain stores to sell more apples than were ever sold before, at prices that will return the producer a reasonable profit, and at the same time give the consumer big value for his money. How can this be done? The answer lies in mass distribution. The chains are buying by the carload, selling fast, eliminating every possible distribution and overhead cost, and passing the savings on to the buyer.

It will be an exceptional housewife who can refrain from buying apples during the next few months, and especially during the holiday season when the campaign will be intensified. This means a better, more healthful and more varied diet for millions of American families. It also means that apple growers in every section of the country will dispose of an enormous crop to the greatest advantage.

You can't improve your home town by sitting around and telling what someone else ought to do for it. Money drained out of a town by purchases in other towns and cities, is like blood drained out of the veins of human beings. In either case, the person or the community is weakened by the loss.

One of the most important duties of the best man at a wedding is to prevent the bridegroom from escaping.

SCREEN SNAPS

By "SNAPPER"

NOW IT'S "YOU'RE A SWEETHEART"

Last week the Universal officials in New York heard for the first time the Jimmie McHugh-Harold Adamson theme song of "A Young Man's Fancy." It was entitled "You're a Sweetheart." They liked the song and its title so much that they decided to call the main title of the picture "You're a Sweetheart," after the song. It is sung in the picture by Alice Faye, the star, and it is certain to be one of the most played and sung songs of the winter.

"You're a Sweetheart" is now in its second week of production at Universal City under the direction of David Butler. The supporting cast includes George Murphy, Ken Murray and Oswald, Larry Blake, Andy Devine, Charles Winninger, William Gargan, Frances Hunt, Donald Meek, the Three Diamond Brothers of London, Casper Reardon and Marian and Irma. This team of equilibristas is booked for the French Riviera as soon as completed. Later they have an engagement at Dorchester House in London and then will return to the International Casino in New York for the winter.

STATE THEATRE BRIEFS

Friday and Saturday

Sparkling with an originality and freshness of treatment that makes it one of the most entertaining musical films of recent years, RKO Radio's "New Faces of 1937" plays this theatre these two days.

Radio celebrities and vaudeville and stage favorites through the distinguished cast and offer an amazing variety of talent to the jaded palates of film-goers. Three of the four stars, Joe Penner, Harriet Hilliard and Parkyakarkus, have already made their bows to motion picture audiences; the fourth, Milton Berle, makes his speaking screen debut in the film, along with scores of the supporting players.

Five glittering production numbers and eight catchy songs are deftly blended into the picture, together with a wealth of comedy and an unusually interesting plot. Penner and Parkyakarkus have a running feud throughout the story which supplies the highlights of the comedy, but they have a wealth of assistance from the scores of runners in the cast. Dozens of intriguing dance routines, the engaging specialty and choral numbers and the tuneful songs all combine with the hilarity of the film in making it a brilliant achievement and one that can be heartily recommended to theatre-goers.

Monday and Tuesday

"Varsity Show," Warner Bros. film musical extravaganza, has its local premiere these two days at this theatre. Starring the ever-popular Dick Powell and introducing in grand manner to motion picture audiences, Fred Waring and his nationally famous orchestra, the Pennsylvanians. "Varsity Show" marks a new high in musical and comedy entertainment.

Included in the stellar cast besides Dick Powell and Fred Waring are such leading figures as Ted Healy, Lee Dixon, Priscilla Lane, Rosemary Lane, Buck and Bubbles, Walter Catlett, Johnny Davis and Roy Atwell. Busby Berkeley, known for his imaginative and lavish production numbers in past Warner Bros. musicals, outdoes himself in "Varsity Show" with a smashing finale that climaxes more than an hour of supreme fun and amusement.

Wednesday

A murderer whom the law could not execute is accidentally electrocuted on the screen in Metro-Goldwyn-Mayer's "Bad Guy."

This he-man drama features Bruce Cabot, Virginia Grey, Edward Norris, Jean Chaburn and Cliff Edwards in a thrilling story of the risks taken by high-tension power line men.

Cabot portrays an unscrupulous but likable murderer who double-crosses his half-brother, Norris, who engineered commutation of a death sentence for the love of a girl, Miss Grey.

The state that failed to execute him sees justice-by-chance meted out to Cabot as he attempts to escape a pursuing posse and is electrocuted while climbing along high tension power lines.

The demonstration affords comic relief when Edwards is required to hold a light bulb in his hand and a cigarette in his mouth to be ignited from the arc of a quarter-million volts of harmless, high-frequency electricity.

WOMEN'S COLLEGE

By SYLVIA PHELPS

Mark Anniversary

Of prime importance this week at Women's College is the celebration of the twenty-third anniversary of the opening of the school. Since the anniversary actually falls on Sunday, October 10, Founders' Day will be commemorated this year on Saturday, the ninth. Dean Winifred J. Robinson will preside over the exercises, to be held in Mitchell Hall at 7:30 p. m. Following the procession, Louise W. Stayton, president of the Junior class, will present the class colors, which will be accepted by Jean M. Pratt, the Freshman captain. Pauline Plunzi, Sophomore president, will then present the traditional spade, which Edith M. Counahan, sub-captain of the Freshman class, will receive. After college singing, led by Amelie Kozinski, Jessilyn Gordy will give a talk on the Student Self Government Association, of which she is president. An important ceremony, the investment of Senior cap and gown by President Huihien, is to follow this.

WCD

Dr. Cannon Speaker

Dr. Annie J. Cannon will give the principal address of the evening. Born in Dover, Delaware, Dr. Cannon has brilliantly distinguished herself in the field of astronomy. She has obtained academic degrees from Wellesley, Oxford and the University of Groningen, Holland, and received the degree of Doctor of Science from the University of Delaware in 1918. A member of the several astronomical societies, Dr. Cannon has done extensive work in astronomy and is the author of numerous books on certain phases of that subject. She is now connected with the Harvard Observatory. Her talk will be on the "Adventures of an Astronomer."

The singing of the Alma Mater and the recessional will complete the program at Mitchell Hall. An informal reception for Dr. Cannon is to be held in Residence Hall following the exercises. From 9:30 until 12 there will be dancing for Women's College students and alumnae in Kent Hall.

WCD

New Instructor

Miss Irene M. Burkley, a graduate of Temple University, has been appointed part-time instructor in physical education here. She replaces Miss Harriet C. Seely, who resigned to accept a position as a physical education teacher at Laurel, Delaware.

Because an unusually large number of students have elected to take psychology, Mr. John A. Blake has been appointed an assistant instructor in that subject, to relieve Dr. Kermit W. Oberlin. Several members of the Women's College faculty attended the adult education meeting at Sandy Cove, Md., last Friday and Saturday. Among these were Professor Harriet Baily and Miss Jane L. Gardner, of the Art department; Prof. Amy E. Rextrew, Home Economics; Prof. J. F. Fould, Economics; and Mr. A. J. Loudis, Music. Prof. C. R. Kase, of the English department, led a discussion group in dramatics. Dean Robinson also attended the meeting.

Freshmen Entertained

More than 150 students and fac-

latest RKO Radio comedy "On Again—Off Again."

When they drive their entire office force to the verge of insanity by continual fighting between themselves, the nerve-wracked company attorney persuades them to hold a wrestling match, the winner to operate the business, the loser to work as the other's valet for a year, a situation which gives rise to most of the hysterical action.

Directed by Edward Cline, the new comedy features in support of Bert and Bob, Marjorie Lord, Patricia Wilder, Esther Muir, Paul Harvey and Russell Hicks.

Baltimore and Ohio Introduces New Steam Engine

This 16-cylinder constant torque locomotive just designed by the Baltimore and Ohio is a radical departure from the conventional type, but embodies mechanical principles the efficiency of which has been proved. Rated at 5,000 horsepower, it is believed capable of handling 14 Pullman cars at a sustained speed of 100 miles an hour on straight, level track. Its 32 power impulses for each revolution of the steam motors gives it the smooth-running qualities of a multi-cylinder automobile. Absence of all reciprocating parts eliminates vibration and track poundage.

The University of Pennsylvania's Own History of Two Centuries Parallels that of Independence Hall

View of the University about 1770, showing the Academy Building of 1740 (with the bell) and the Dormitory Building of 1762. They were located at Fourth and Arch Streets, Philadelphia.

THAT the University of Pennsylvania ranks with Philadelphia's Independence Hall as a "Cradle of American Liberty" is shown by records recently studied by the Bicentennial Committee now planning the University's 200th anniversary celebration in 1940.

Pennsylvania was but a struggling school of Colonial students and teachers when the great events of the Revolution swept past its very doors, but the committee has pointed out, hitherto half-forgotten facts have assigned to it an important place in the founding of the Nation.

It was the Rev. William Smith, first provost of the institution, for instance, who helped stir popular feeling against political oppression as a long series of crises developed between the Colonies and the Mother Country. In one noted address in historic Christ Church in Philadelphia, the clergyman sounded a call to arms that inspired Pennsylvania's joining the sister Commonwealths in the fight for free men.

More than 250 early Pennsylvania graduates who served as officers under Washington at Valley Forge typified the spirit of Pennsylvania during the Revolution. Further illustrating how closely the University was bound from its outset to American tradition and thought, ten founders, teachers and other individuals associated with the institution were signers of the Declaration of Independence. These included Benjamin Franklin, president of the University's first board of trustees.

Other information prepared by the committee in anticipation of Bicentennial events include the facts that Pennsylvania was the fourth college to be established in America and the first actual American university. The Bicentennial program will open October 18 with a \$12,500,000 fund-raising effort designed to provide a "birthday gift" for the University in 1940.

Rev. William Smith

While Pennsylvania played a leading part in early political events, it also began immediate contribution to American cultural, educational and scientific life. Committee members have discovered. It established a curriculum of academic subjects, many of which now are standard studies in American colleges and universities, and was awarded the first university charter granted in America in 1791 because professional schools as well as an undergraduate college had been created on the campus. Pennsylvania claims the first American medical school and the first university school of business.

A glorious past, alumni declared, is interspersed with the names of great teachers and scholars who helped build the University. Among them were Rittenhouse, foremost astronomer of his day; Kinnersley, who conducted electrical experiments with Franklin and was the first teacher of modern physics in an American college or university; Brewster, noted biologist and adviser of the Lewis and Clark Expedition; and Hare, pioneer in rock blasting methods.

Deputy District Head Speaks to Lions Here

Deputy District Governor George M. Phipps of Wilmington asked for cooperation of clubs in the Capitol District of Lions International in a short speech before the local service organization at the Newark Country Club Tuesday night.

Mr. Phipps, a former Newark resident, has been secretary of the Wilmington Lions Club for a number of years. He was elected to his present position at a district convention held at Salisbury, Md., in July.

Among business matters settled by the local Lions Tuesday was the increasing of the membership from 40 to 45. R. T. Jones and George R. Sinclair were transferred from the ranks of active members to members-at-large.

Delaware Meets Rutgers Saturday

Twenty-Five Riders Expected To Shoot At Hillclimb Honors

HENS SEEK FIRST WIN AT NEW BRUNSWICK

Coach Lyal Clark's Charges Expected To Make Good Showing Against Strange Team

By BILL FLETCHER

Sporting its best opportunity in years to take the "Men in Scarlet" into camp, an eager team of Blue Hens is expected to make a serious bid for victory at New Brunswick on Saturday.

Displaying a surprisingly strong offense, led by Captain Dick Roberts, against the favored Ursinus team last week, the Delaware boys succeeded in keeping the ball in the Bear's territory during the greater part of the tilt, and played a defensive game that kept their opponents running attack bottled up through most of the route.

Line Strengthened

With his green line strengthened this week by the addition of Charlie Schwartz, veteran guard, the power of the Hens' forward wall should be considerably increased, both on the attack and defensively.

Emerging from the Grizzlies' contest with only one injured player, Fenton Carey, who suffered a sprained back, the Blue and Gold representatives are in fine shape after a week of light workouts. Practice this week consisted mainly of straightening out defects disclosed in the opening performance.

Rebounding from its most impressive football victory in three years when the Rutgers combine chalked up three touchdowns over Hampden-Sydney in the last period to win 20-0, the Scarlet team, though not as impressive as in former years, still boasts of a powerful array composed mainly of sophomores.

Outstanding back on the Rutgers team to date has been Bill Transvitch, husky sophomore, who started off his varsity career with a 17-yard run the first time he carried the ball against Susquehanna. He is rated as the best defensive player in some time and is a brilliant passer.

Gottlieb Also Threat

Art Gottlieb, another soph who has cracked the starting lineup, is also a dangerous passer, throwing with zip and accuracy. Art Perry, a senior triple threat halfback, teams perfectly with Transvitch, while Morris Plevinsky, light but shifty performer, is at the signal calling position.

On the wings for the Scarlet will be Bob Aubrey, a sophomore and Hillyard Simpkins, a senior. The former scales 195 pounds and stands 6 feet, 2 inches, while the latter tips the beams at 188 pounds and is 6 feet, 1 inch tall.

A couple of 200 pounders, Charlie Craig, 212, and Len Cooke, 209, are expected to take care of the tackle posts in capable style, while Walter Bruyere, standing 6 feet and weighing 188 pounds, and Don Saxton, 5 feet, 11 inches and 181 pounds, will occupy the starting guard berths.

Doug Hotchkiss, 6 feet tall and weighing 177 pounds, will be in there at the center position.

With the great improvement shown by the Rutgers team last week, Coach J. Wilder Tasker and the Scarlet gridmen are working with redoubled efforts to crystallize before the Delaware game, the elements of football success they formerly found late in the game with Hampden-Sydney.

Drill On Fundamentals

The fundamental drills of last week that produced such convincing results are occupying the Rutgers players again this week as Coach Tasker and his assistants attempt to drive home the technique that will help the Scarlet spill Delaware this week-end.

JACKETS RAPIDLY IMPROVING

Coach Gillespie Pleased; Meet New Castle Here

Coach William K. Gillespie, very much pleased with his Yellow Jackets' 14-6 triumph over the University of Delaware Junior Varsity, is looking forward to another victory when the local team opposes grid representatives of New Castle High School here on Friday.

Learning Fast

"I have never seen such an improvement in a team in a week's time," the Jackets' mentor stated, comparing the showing of his charges in the J. V. tilt to their work in the Millville deadlock. "They're quick to rectify their mistakes and if we don't reach a peak too soon, there isn't a club on our schedule that won't know it's been in a ball game."

"Our line showed a great improvement and the team's work under punts left little to be desired," he said.

In all probability, Drex Harrington will start the New Castle clash at quarterback; Bill Bellman and Melv Brooks, halfbacks, and Steve Stevens at full.

On the line will be Bob Stewart and Bob Aiken, ends; Norv Robinson and John Grundy, tackles; Newt Shaffer and Pete Morgan, guards; and Bill Hancock, center.

George Norris and Gus Smith, a couple of promising backs, are also slated to go into action.

"Ahead Of Last Year"

"On the whole, the team is surprising," Coach Gillespie said. "The men are a lot smaller, but have more spirit and I consider them way ahead of last year, both offensively and defensively."

The Jackets' braintrust is expecting a much harder battle from the Mudflats this year than in 1936 when they were submerged by a score of 45-0, but is nevertheless looking forward to registering the second straight win.

With a total of 55 boys now practicing for the varsity and junior varsity teams, prospects for years to come are exceptionally promising.

The number of candidates now practicing strikes a new high in grid interest at the local school.

A junior varsity schedule, which additions will be made, now includes two games. On October 15, the younger boys who average about 130 pounds, will meet the New Castle junior varsity on the home field, while on October 18, the locals will oppose the Wilmington High School lightweights.

JULIAN TO BATTLE MORRIS

Enter Finals Of Memorial Tournament

By Tee Spoon
R. H. Morris and J. A. Julian, local hill-chasers, entered the final round of the E. B. Wright Memorial Tourney at the Newark Country Club last weekend.

Julian Shellacks Richards

Julian, with the aid of a three-stroke handicap, experienced little difficulty in shellacking H. F. Richards to the tune of seven up and six to play, a surprise drubbing to local followers of the links.

Morris, in the upper bracket, made his way to the windup match by knocking off B. F. Richards who made a gallant effort to overcome an eight-stroke handicap.

The Wilmington ace, a former champion of the club, whittled down the great disadvantage, but dropped the match by a three up and two to play count.

In his quarter final tussle, Morris delivered H. B. Fisher a six and four setback with the aid of four strokes, while B. F. Richards moved up by virtue of a two and one conquest over H. B. Williamson who sported a four-stroke handicap at the outset of the match.

Julian vs Morris

H. F. Richards downed young Bob Stewart in the quarter finals two and one, overcoming a stroke disadvantage, only to meet defeat at the hands of Julian, who had moved up to the semis by virtue of a victory over Wayne C. Brewer.

The Julian-Brewer match in the quarter finals, the longest in the tourney, was forced to 36 holes, before the former was handed a two and one conquest. Brewer played with a two stroke handicap.

Julian will meet Morris in the finals this weekend. The latter will be sporting a 4-stroke advantage when the firing starts.

A special cross-country tournament is planned for Saturday. The ladies match will commence at ten o'clock while the men will get underway about one-thirty.

UP HE GOES

"Wild Willie" Wooleyhan, local racing star who is entered in the annual motorcycle hill climb scheduled for competition at Blood Root Mountain, near Milford Cross Roads, Sunday, Wooleyhan is pictured in a practice "climb" over the difficult course.

Sanctioned by the American Motorcycle Association, the race will attract riders from five counties and the District of Columbia. Officials of the local organization have been readying the course, and expect one of the most difficult in the country, for the big test.

Considered even more dangerous than it was last year, the annual hill will no doubt cause many spills for the enterprisers of the throng expected.

New Timing Device
The latest type of electrical timing device has been sent by the American Motorcycle Association. Used for automobile races at Indianapolis, Langhorne, Roosevelt, Speed and other famous tracks, the "clock" times to within 1/100 of a second.

Albert Bird, Wilmington, will mount a late type, making English make to an attempt to snare the Blood Root crown held by Ernie Grider, Newark.

Jordan, incidentally, will be able to defend his title due to the fact that a new machine used several weeks ago to replace the "bike" he rode last year, was recently wrecked, will be delivered in time for the race.

To Crash Board Wall
As an added attraction, the hill will ride a speeding board through a one-inch board wall which will be covered with glass and ignited.

"Wild Willie" Wooleyhan, the outstanding rider in the plan, will be Newark's favorite to win the hillclimb.

Three prizes are being offered. An award will go to the winner of the 45-cubic inch class, another to the winner of the 50-cubic inch class and a third prize to the winner of the consolation event.

HEEBNER FUNERAL HELD

Aged Couple Killed Thursday By Automobile

By Mrs. E. R. Broadbent
Marshallton, Oct. 6.—Funerals on Monday for Mr. and Mrs. Charles E. Heebner of the Cedars, and Mrs. Charles Diamond of Cranston Heights, were largely attended.

The Heebner funeral was held at the Nichols Funeral Home in Wilmington, in charge of the Rev. H. H. Adams of the Brick-Ed M. E. Church. The couple were killed last Thursday night when struck by an automobile near their home.

Clyde V. Prestowitz of Brookland Terrace, driver of the car, and Miss Lillian D. Lang were returning from visiting a friend at the Brandywine Sanatorium when the accident occurred. According to witnesses the couple apparently became confused and walked directly in front of the car. They were buried side by side in Silverbrook Cemetery.

Prestowitz is a student at the University of Delaware.

Services for Mrs. Diamond were held from her home in Cranston Heights and were attended by members of the Ladies' Auxiliary of the Cranston Heights Fire Company and Camp No. 7, P. O. of A., as well as relatives and friends. Interment was in St. Barnabas' Cemetery.

Reception Given

A reception was given H. A. Menser, new principal of the Marshallton Consolidated School, at the meeting Monday night of the Parent-Teacher Association in the school auditorium. Mrs. Earl Clugston presided at a business session preceding the program. Also welcomed at the meeting was Herman C. Giersch, new musical instructor, who came from King of Prussia, Pa. He was graduated last May from the West Chester State Teachers' College.

Full Activities Were Discussed by Members of the Ladies' Aid Society of the Cedars M. E. Church at their meeting Tuesday night at the home of Mrs. Charles Milbourn.

The Rev. and Mrs. E. H. Collins and their son and daughter-in-law, Mr. and Mrs. Edward Collins of Harrington, were Sunday guests of Mr. and Mrs. W. R. Warren at their home in Silver.

Frederick Bringham has been in Cincinnati, O., attending the convention of the Brotherhood of St. Andrew, an organization of men and boys in the Protestant Episcopal Church.

Mr. and Mrs. John Taylor announce the marriage of their granddaughter, Miss Mary L. Smith, to Mr. Paul E. Vansant, son of Mr. and Mrs. N. Vansant of Stanton. The wedding took place last Wednesday in Chestertown, Md. Mr. and Mrs. Vansant will reside in Stanton.

Slight improvement is reported in the condition of Daniel O'Byrne at the Delaware Hospital. Mr. O'Byrne suffered a stroke of apoplexy several weeks ago.

The board of trustees of the Marshallton Consolidated School held its regular meeting Monday night with C. Warden Gass presiding.

The monthly business meeting of the Cranston Heights Fire Company was held Monday night in the fire house with George McConnell presiding.

Residents of this section have received notices from the Diamond State Telephone Company stating that the branch office of the Wilmington central office will be placed in service next January on the Newport and Gap Turnpike, Marshallton. The branch office will provide telephone service in the Newport-Marshallton area.

Changes will be made in telephone equipment during the next three months and new telephone numbers will be given, becoming effective at the time of the transfer.

Sheriff John M. Ulmer Asked To Locate Englishman's Mother

Sheriff John M. Ulmer is endeavoring to locate an English mother, missing since 1917, following a request from a 22-year-old Briton this week.

According to the man, who signed the letter as G. Sanderson, Kent, England, his mother, Grace Cohn, was married in Wilmington on April 3, 1912, to Captain H. H. Glandfield, an Englishman.

The couple later separated and were divorced, the letter states, in England on August 8, 1917. A Gerald Thomas Peters was named as correspondent in the proceedings.

Sanderson is of the opinion that his mother might have returned to Delaware to marry Peters and is making every possible effort to locate her.

When all agencies in England failed to disclose any information concerning the lady's location, Sanderson contacted Sheriff Ulmer's office for aid.

Appreciating the anguish that the man must feel over the continued absence of his mother, Sheriff Ulmer is leaving no stone unturned in his efforts to locate the missing lady. All agencies have been enlisted in the sheriff's desire to comply with the humane request.

Delawareans in general and people in the Wilmington sector in particular are requested to contact Sheriff Ulmer or any of his associates if any information can be given concerning Sanderson's mother.

MINNESOTA WAGING DRASTIC WAR ON HIGHWAY DEATHS

MINNEAPOLIS—One of the most far-reaching and intensive highway safety campaigns in the history of the automobile is now being launched by the state of Minnesota. Highway officials, armed with wide powers granted by the state legislature, are moving boldly to put into effect one of the most ambitious state-wide traffic control schemes ever attempted on such a large scale.

The biggest job to be done is the zoning of Minnesota's 15,000 miles of highway—a task of enormous proportions because every mile of road has to be checked to determine its speed classification—20, 40, 60 or 80 miles an hour. The maximum speed for cities and towns will be 30 miles an hour; 45 for good secondary roads; 60 for modern super-highways during daylight hours.

As the first step in putting the new system in effect throughout Minnesota, N. W. Ellsberg, state highway commissioner, is setting up a "laboratory" on the one-hundred-and-fifty-mile stretch of road from Elk River to Grand Rapids. In this "test-tube" zone are being posted according to road and traffic conditions. The arrangement and design of signs indicating the zone—a factor vital to efficient functioning of the plan—are also being studied.

Minnesota's first test of the zoning system is being watched with intense interest by highway and safety authorities in other states, particularly by those officials who believe that zoning in conjunction with a new mechanical speed control for automobiles offers the most effective means for checking down-riding speeds.

The zone-o-control, as the device is called, has a dashboard switch with points corresponding to the Minnesota speed zones. In other words, Mr. X, driving in a 45 mile-an-hour zone, turns the switch to forty-five and his car won't go any faster. There's no interference with the motor or pick-up and he can take a hill as usual—up to 45. At the same time, blue lights on front and rear of his car indicate to police, insurance inspectors and other motorists that Mr. X is complying with the law. Green lights indicate that the car is limited to sixty miles an hour and red lights show that the control is set at 30. Though the device has no official standing in Minnesota's zoning law, officials say privately that zone-o-control would render an inestimable service in making zoning work.

Other features of Minnesota's new Highway Traffic Regulation Act which have attracted wide attention provide heavy penalties for high-biking and for failure to dim headlights within 500 feet of an approaching vehicle. The law also goes after the "road hog" by requiring the driver of an overtaken vehicle to give way immediately upon sound of the passing car's horn, and he may not increase his speed until the overtaking car has completely passed.

Wax Armor Preserves Natural Flavor Of Fruit

Sun ripened fruit and vegetables are now being kept fresh by a thin armor of wax so effective in many instances that shippers can dispense with refrigerators. Wax prevents scald, chief cause of rot in apples. Oranges and grapefruit are kept fresh six months instead of six weeks; lemons last eight months to a year. Tomatoes can be picked ripe now instead of green and remain fresh twice as long. One California company is picking cantaloupes deep ripe and coating them. This is done, they claim, so that city people may at last know what a real melon tastes like.

Egyptian girls get little education.

The telephone service by the branch office will continue to have Wilmington numbers.

Language Of Ships Becoming Prosaic

"Port" and "Starboard" are lost now in nautical language. Recently, by order of congress, officers and crews of all ships flying the American flag will use the terms "right" and "left" in place of the more romantic terms used in the past.

Those who know the "Tom Sawyer" will remember the use of these two terms when Tom, who called himself "black avenger of the Spanish main", used them in his trip to St. Petersburg on a raft. Some of the "Sawyer" enthusiasts will regret the loss of "port" and "starboard". But much is gained for logic and safety so romanticists will have to be satisfied.

Life at sea is becoming an extension of life on land.

FIRE PREVENTION AND FIRE CIRCUMVENTION

There are two things to do about fire:

1. Prevent fire, by using every sensible precaution against it;

2. Circumvent fire, by keeping important papers, letters, securities, and other valuables in a safe deposit box out of its reach.

We urge the observance of Fire Prevention Week in this community. We also urge you to circumvent fire and save yourself from loss by renting a safe deposit box.
