

Feb. 13.

Dear Jimmy -

In the Illustrated of Feb. 8 I saw on the front page the article
 by a correspondent on the Santa Barbara plant and in
 the issue of Feb. 9 the article on the front page giving
 comment by General & the letter of Paz. I felt sure this
 would get into the press sooner or later, and I am only
 surprised that it has not been any sooner. The letter of
 Paz is not convincing and could have been very much
 better. Please send me any pertinent clippings or
 comment. You can always write me freely in the way
 you know. I feel very far away - and in deeply in-
 terested in these matters. Thanks for your letter of
 Feb. 7. Today we lunch and talk with the
 President on the electricity & Code matters. Hope
 all is well with you all. Love to you & Jane. It
 seems we have a houseful both in the Mexico City
 Casanova house. That is fine. Helen Hall tells me
 the Casanova house is practically completed.

 Lovefully,
 Jimmy
