

Freshmen to Elect Officers on Oct. 22

Charles Melvin, Steve Potter, Richard Price, Neal Warrington, Robert Weaver and Jay Wilde have been nominated for the office of president of the Freshman Class. Balloting will be held in the basement of the library Monday from 9 a. m. to 5 p. m.

Melvin participated in varsity football, basketball, baseball and track while at prep school. He was also in the cast of the Junior and Senior Class plays, and received the chemistry award.

Potter attended Cherry Lawn Prep School where he was president of the Senior Class, dormitory president, production director of the newspaper. His athletic activities included varsity football, basketball, baseball and fencing.

Price is a graduate of Smyrna High School, where he was president of the Student Council, president of his Junior class, editor on the school newspaper and president of the Methodist Youth Fellowship.

Warrington was president of his class during his junior and senior years, president of the 4-H Club for three years, and vice-president of the Future Farmers of America at Georgetown High School.

Weaver was active in sports such as track and cross country, a member of the library staff for the school yearbook.

Wilde, a graduate of P. S. duPont High School, was a member of Honor Society, active on the school newspaper, in intramural sports and the choir, and participated in dramatics.

Thomas Maddux, Phyllis Mikkell, J. Ronald Nowland and Martha Skeen are competing for the office of Freshman SGA representative.

Nominees for the office of Vice President are: Barbara Bilancioni and Patrick Renaud.

Running for the office of secretary is: (Continued on Page 7)

Football Spirit At Sendoff Today To Be Judged

A send-off for the football team will be held this afternoon at 3:00 p. m. in front of Taylor Gym.

The team is flying to New Hampshire after the send-off but will not be accompanied by the band or cheer-leaders.

Pat Lyon, captain of the cheer-leaders, reminds all dormitories and fraternities that they will be judged on spirit just as at a regular pep-fest.

String Quartet To Appear in Kent

The Claremont String Quartet of New York City will appear thirteen times at the university during 1956-57. The initial program will be held on October 12 at 8:15 p. m. in Kent Dormitory.

Similar informal evenings will be held on subsequent Sundays in other campus living units. The concerts will be open to all students and faculty members.

The Quartet is composed of Marc Gottlieb and Vladimir Weisman, violinists, William Schoen, violist and Irving Klein, cellist.

Last year the group participated in the music department's Mozart Festival. During their two-day stay on campus, they made an informal appearance at one of the dormitories. It was then that the idea of inviting the ensemble for extensive visits this year was conceived.

Any dormitory or fraternity desiring to schedule the Claremont String Quartet should contact Assistant Professor Henry N. Lee, Jr. of the Music Department.

Baldt Announces IFC's Index Hike In '56-'57 Rushing

The fraternity pledging index was raised from 1.75 to 2.00 at a meeting of the Inter-fraternity Council on October 15.

According to Bill Baldt, IFC president, the decision grew out of a conference which fraternity presidents and IFC members had with President John A. Perkins last spring concerning the importance of scholarship and in what way the fraternities could aid in promoting scholarship.

"This decision," says Baldt, "shows that we are interested, along with the administration, to further the ideals and aims of not only the fraternity system but the university as a whole."

Most of the major campuses have adopted the 2.00 minimum index and the National Inter-Fraternity Council has encouraged its adoption wherever possible. A number of fraternities on campus already require that a student achieve a 2.00 index before pledging.

Previous to the resolution by the IFC, the proposal was discussed in every house and all but two agreed to it in fact and principle. The two other fraternities agreed to it in principle with reservations.

OPENING NIGHT — Scene from E-52's "The Glass Menagerie" which opened last night in Mitchell Hall.

'The Glass Menagerie' Opens E-52 Anniversary Season

A feeling of excitement encircled the Mitchell Hall Theatre last night as the Twenty-fifth Anniversary Season of the E-52 University Theatre opened with Tennessee Williams' powerful "memory play," "The Glass Menagerie." The play will continue its run tonight and tomorrow at 8:15 p. m. All seats are reserved and students can secure free tickets by presenting their ID cards at the Box Office.

"The Glass Menagerie" is a play which can be presented with unusual freedom of convention. Williams states that with unconventional techniques the play is "attempting to find a closer approach, a more penetrating and vivid expression of things as they are." One of the techniques which the E-52 University Theatre has included is that the scenery extends past the proscenium arch and that the curtain will remain open during the entire show.

Thomas J. Waters plays the

part of Tom Wingfield, the narrator of the play and a young man trying to escape the burdens of this family. In the role of Amanda Wingfield, the southern lady who wants to find a husband for her daughter, is Connie Goodman. Laura Wingfield, played by Suzanne Kozak, is a shy crippled girl who lives a life of illusions because of her physical shortcomings. The most realistic character in the play is Jim O'Connor, the gentleman caller, played by Jack Scott.

Franklin Moody, professor of dramatic arts and speech, is directing the new show with Joanne Spittler, as the assistant to the director. Prompting for the show are Debbie Kleffer and Leslie Rely.

Backstage committees include Carl Seltzer, stage manager, with James McGinnes and Merle Jones on his committee. Gretchen Berguido is chairman of properties with Jane Alava and Phyllis Jones. Other committees are make-up: Mona Lawson, chairman and Jack Creswell; sound lights: Jim McKenney, chairman, John Taylor and Marie Hanson; lights: Bart Rinehart, chairman, Jim Ronayne, Sherry Stolper, Lawrence Cordrey and costumes: Elaine Stueber, chairman, Joan Hoyer, Elin Coffee, Pat Seney and Jan Cox.

Box Office is open from 3:30 p. m. to 5 p. m. and 7 p. m. to 8:15 p. m.

Drivers Get Notice To Register Cars

All students who are authorized under the university's motor vehicle regulations to store, maintain or operate a motor vehicle in Newark are required to register their cars with the university, according to John E. Hocutt, Dean of Students.

Failure to register an automobile makes a student subject to a \$25 fine and/or disciplinary action. Disciplinary action can be either probation, suspension or expulsion.

This includes commuters, dormitory residents and students who reside in fraternity houses or in private homes in Newark.

The Concert Choir, the Varsity Chorale and the Women's Chorus will unite for the presentation of a festival of choral music on October 24 at 8:15 p. m. in Mitchell Hall.

Two composers have dedicated musical compositions to the University's Concert Choir. Both of these selections, "Go Lovely Rose" by Harry Robert Wilson and "Peter, Go Ring-a-Dem Bells" arranged by Walter Ehret, are included in the program. Mr. Wilson's number is being given its premiere performance.

The first and last parts of the program will be performed by the Concert Choir. Part I will be devoted to the presentation of Palestrina's "Missa brevis in F." Soloists will be Frances Hamilton, soprano; Ann Carvel, mezzo soprano; Jerry Goosenberg, tenor and Kenneth Wilson, bass.

Following a brief intermission, the Women's Chorus will present a varied program ranging from Brahms' "Love Song" to George Gershwin's "Porgy and Bess." A quartet composed of Gail Lambret, Ruth Ann Ewing, Fay Thomas and Anne Tatnall will be heard in a selection from Bordin's "Prince Igor."

Part III will feature the Varsity Chorale, an all male ensemble. Five numbers, including the Jerome Kern favorite, "Smoke Gets in Your Eyes," will be presented.

In the final section of the evening, the Concert Choir will offer five recent compositions. Jane Errett will be soloist in "He's Got the Whole World in His Hands."

The entire performance will be under the direction of Dr. Ivan Trusler, director of choral music at the university. Misses Carolyn Brown, Joyce Mitchell and Jane Hammell are the accompanists for the three choral groups.

Aggies, Home Ecs To Join Forces For Dance Oct. 27

An informal dance will be held in Agriculture Hall on October 27 from 8 to 11:30 p. m. The affair will be sponsored by the Ag Club, Alpha Zeta and the faculties of the Schools of Home Economics and Agriculture.

The Del-Melodians will provide the music. There will be no charge for admission, but the dance will be restricted to those enrolled in Agriculture and Home Economics.

The evening will open with introductory speeches by Barbara Cubberley, senior student in Home Economics; Yorke Rhodas, Chancellor of Alpha Zeta and Richard Howell, president of the Agriculture Club. Refreshments will be served.

Students to Watch Films of N.H. Game

A movie of the New Hampshire game will be shown on October 25, at 7:30 p. m. in Wolf Hall Auditorium.

The showing of the film is under the sponsorship of the Athletic Department and will be shown as a service to students who were unable to attend the game. The Athletic Department will provide a commentator for the color film.

CLAREMONT QUARTET — This professional group has planned thirteen appearances on campus during the coming year.

Homecoming Float Contest First Prize Goes to Kent

Displaying of floats and decorations, cheering at the pep fest and football game and the crowning of the Homecoming Queen all played a part in Homecoming Week end.

During half time at the football game Saturday, the Homecoming Court was presented, and Queen Nancy Cathcart received the SGA trophy from President Al Walters. The winners of the various events were then announced.

Kent Hall captured first prize in the float contest with its "Last of the Bison" theme. Representing Kent Hall, Jo Hires accepted the Review trophy presented by Dave Tompkins, Review editor-in-chief, and the twenty-five dollar cash prize from the merchants of the Newark Shopping Center, presented by John E. Hocutt, Dean of Students.

Second prize of fifteen dollars was awarded to Alpha Tau Omega for its float on which "the bison was cooked," and third prize of ten dollars went to Delta Tau Delta's hand pulled float with the theme "Bison—You Ain't Worth a Plug Nickel." Kappa Alpha and Smyth received honorable mention in the contest. Bessie B. Collins, Dean of Women and Dean Hocutt judged the floats which were in the Homecoming Parade.

Sigma Nu's "bison carving" and Kent Hall's "T" was the Night Before the Bucknell Game" capped first places in the house decorations. Smyth and Sussex placed second and third respectively in the women's division. In the men's division, second place went to Kappa Alpha and third to Delta Tau Delta.

The results of spirit competition at the pep fest and bonfire Friday night showed Cannon first in the women's division, followed by Smyth, second and Kent, third. The men's division was won by Phi Kappa Tau with second and third places going to Pi Kappa Alpha and Sigma, Nu, respectively.

George Madden's orchestra provided the music for the Harvest Hop, Saturday night, which was the setting for the crowning of Queen Nancy Cathcart. Surrounded by her court, the Queen received her crown and robe from last year's Homecoming Queen, Miss Barbara Cubberley. Al Walters acted as master of ceremonies during the proceedings.

THE QUEEN AND COURT — Flanked by attendants Doretta Mueller and Mary Ann Crawford, Homecoming Queen Nancy Cathcart appears at halftime of the Bucknell game.

CONGRATULATIONS — Dave Tompkins presents the Review trophy to Jo Hires representing Kent Hall, winner of the float contest.

Eleanor Roosevelt To Be Main Speaker In Annual DSEA Meeting Oct. 25, 26

Eleanor Roosevelt will be the main speaker at the Delaware State Education Association's annual convention which will be held on October 25 and 26. She will speak at the Thursday morning general session which will begin at 9:15 at the Warner Theater in Wilmington. This session will be televised over WFFF, Channel 12.

Tassel to Sponsor 'Listening Party' Tomorrow at 1:30

Tassel's second Listening Party will be held in the Scrounge tomorrow, beginning at 1:30 p. m.

Designed by this honorary women's scholastic and leadership group to give students a chance to listen to the away football games while relaxing in an informal atmosphere, these get-togethers are held free of charge in the Student union.

Radios will be located in several places to enable those attending to hear the game. Tassel members will operate the soda fountain.

Anyone who wishes to play cards may do so providing they bring their own decks.

Thursday afternoon there will be two sectional meetings each starting at 2 p. m. At the Harlan School the DASA will have a panel of students, grades 7 to 12, who will discuss the topic, "What Can I Expect to get Out of School." The other will be held in the P. S. DuPont School with Dr. Raymond Kistler, President of Beaver College, discussing the topic, "Department of Classroom Instruction."

Later in the afternoon, in the P. S. DuPont School Cafeteria, the student teachers and the School of Education will have a coffee hour for their supervising teachers, superintendents, and principals. Friday morning there will be 21 sectional meetings on different subject matter areas. William O. Penrose, Dean of the School of Education, will preside at the section on "Personnel and Guidance." Paul M. Hodgson, associate professor of agricultural education, will lead a panel on the topic, "Preparing Students for School in College." Other faculty members on the panel are George M. Worrlow, Dean of the School of Agriculture, Russell Remage, associate professor of mathematics, and Edward Roenberry, assistant professor of English. Dr. John A. (Continued on Page 12)

'Action, the Mirror of Thought' Theme of Religious Emphasis

"Action, the Mirror of Thought," has been selected as the general theme for Religious Emphasis Week, which will be held on campus from November 11 through November 14 this year.

Attempting to link this new

Frosh Victorious Over Slow Sophs

No more dinks or signs or books, no more sophomore dirty looks! Freshmen tallied 26 points to 22 for the Class of '59 as Freshmen and Sophomore battled it out last Sunday at 4 p. m. on Frazer Field at the annual Frosh-Soph. Field Day.

Under the direction of Bob Kupelian, Sophomore Class president, participants ran mixed relays and separate legged and wheelbarrow races for men and women. The events were judged by the cheerleaders.

overall topic with the ones from the past few years in order to form a concise series, the planning committee of REW decided upon this title since actions follow thoughts.

Three main speakers, one from each of the three major religions, Catholic, Jew and Protestant, will be here during this week. Each will speak at the general convocation sessions which will be held at 10 a. m. on November 12, 13 and 14. All the names of the visiting clergy have not as yet been disclosed. Heading the committee for the week is Bill McLain as general chairman with a staff of about twenty working directly with him.

The committee and members include: Dick Swarthout, Jane Walton and Frank Calhoun on arrangements; Janet Whitney, Bob White and Elaine Steuber on assembly; Bob Strickland, Jim Leathrum and Phil Hoffman on seminar and discussions; Rincey Levy and Tom Lord on Publicity; Harriet Herrman, Bob White and George Gloddu on Off Campus and Commuters; Tom Spoekman and Jake Haber on Hospitality and Personal Conference, and George Harlan, Al Lindh and Margy Zasofsky on organized house.

Dr. Arthur De Long From Ohio U. Joins School of Education

Dr. Arthur DeLong is a new member of the School of Education. He is in charge of the Education Orientation Program for freshmen, teaches courses for upperclassmen in education and supervises student teaching.

After receiving his bachelor's and master's degrees from Ohio State University, Dr. DeLong obtained his doctorate at the University of Michigan. For his doctorate, Dr. DeLong wrote a thesis concerning two different methods of teaching in the classroom, the logical method versus the psychological method.

Dr. DeLong's first positions were held at Ohio State University and Wayne University, Detroit. Between 1948 and 1951, he was head of the Psychology Department in North Central College, Illinois. Prior to his joining the University of Delaware staff, Dr. DeLong taught for five years at Michigan State University.

SGA Delegate Gebert Serves Del. Engineers

Chuck Gebert is the representative to the SGA from the School of Engineering. He is a senior majoring in electronics. Chuck serves as a member of the finance committee of the SGA.

Besides his membership in SGA, he is a member of the Engineering Council and is scholarship chairman of the Phi Kappa Alpha fraternity.

Chuck expressed the wish "that more students would talk to their SGA representatives when they have complaints about things on campus."

As one of the married students on campus, Gebert is working for PHT degrees for the wives of married students. A "Put Hubby Through" degree, it is felt "would be a tribute to the wives for their hard work and sacrifice in helping their husbands through college. An honorary degree such as this has been awarded at other colleges throughout the nation and the married students of Delaware would like to see it awarded here."

Peggy Jones Works On SGA Groups As Education Rep.

Peggy Jones, a junior elementary education major, is the Education Representative to the Student Government Association. Miss Jones is the assistant chairman of the SGA social committee.

Other activities to which Miss Jones belongs and the offices that she holds include WAA vice president, neatness chairman of Smyth Hall Unit A, House Council, Women's Coordinate Board, Delaware Student Teachers' Association, Junior Counselor, and Wesley Foundation. She also serves as a guard at the women's gymnasium swimming pool, and has maintained an over-all scholastic index of 2.87.

Miss Jones plans to teach second or third grade after graduation. As she likes to work with children, her summers are spent as a counselor at a Girl Scout Camp teaching swimming, sailing and boating, which are also her hobbies.

Miss Jones feels "that the good student interest and cooperation in SGA has helped to improve the work of SGA as an intermediary between the administration and student body."

Ag Majors Select SGA Membership

Elections will be conducted on Monday for the office of SGA representative to the School of Agriculture. Balloting will take place in the basement of the Library from 9 a. m. to 5 p. m.

The election will be held in conjunction with freshman elections under the supervision of the SGA election committee.

George Lincoln asks:

What do metallurgists do in a chemical company?

CHARLES I. SMITH, JR., received his B.S. Ch.E. from V.P.I. in 1943, served in the Navy as an engineer officer, and joined Du Pont's Engineering Department in 1946. Since then, he has advanced steadily through a number of interesting assignments at various Du Pont plants. He was recently promoted to manager of the Technical Section of Du Pont's Pigments Department.

Metallurgists and Metallurgical Engineers can find some of Charlie Smith's challenging new problems described in "Engineers at Du Pont." For a free copy of this booklet write to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Building, Wilmington 98, Delaware.

UD Holds Open House For State High Schools

The university played host to state high school students and last Wednesday in conjunction with its Annual Open House.

The visitors registered at Wolf Hall Auditorium, where they were given programs and received suggestions as to various points of interest they could visit. Here they were also given maps and guides to help them find their way about the campus.

Most of the classrooms, dormitories and gymnasiums were open for inspection, and special buses were run at regular intervals to the agricultural exhibits at Agricultural Hall and the School of Agriculture's farm and greenhouse.

The Drama Department of the School of Arts and Sciences had all of its art studios open for inspection with exhibitions of student work on display.

The English Department showed two movies, "William Shakespeare" and "Shakespeare's Theatre: The Globe Playhouse."

The Psychology Department presented a display of tests, apparatus and equipment in the experimental and clinical laboratories, allowing many of the visitors to participate in the tests.

Faculty and students were available for consultation and discussions, and the Reading Study Center in the School of Education was open for inspection.

Visitors were permitted to inspect the distillation tower and were shown exhibits illustrating the different phases of engineering.

The School of Home Economics presented the theme "The Key to Your Future" by means of continuous guided tours which started in Alison Hall Lobby.

GEORGE M. LINCOLN, JR., expects to receive his B.S. in metallurgical engineering from Lehigh University in 1957. George was vice president of his junior class, is active in sports, and a participant in many other campus activities. He's starting his employment investigations early, for he feels that the selection of an employer is one of the most important decisions in a man's career.

Charlie Smith answers:

They have an almost endless variety of interesting problems to face, George. As a student of metallurgy, you know that about two-thirds of all known chemical elements are metals. Many of them are revealing valuable new applications, when highly purified on a commercial scale. Du Pont is greatly interested in several metallic and semi-metallic elements.

My own experience at Du Pont ranges from work on titanium pigments, to metallic titanium production, and to the ultra-pure silicon used in transistors. You can appreciate some of our metallurgical problems when I point out that impurities in transistor silicon have to be below one part in 100 million. That's equivalent to one pound of impurities distributed through a train of ore cars twenty miles long!

Some of our metallurgists carry out fundamental research on new metals, and, in the development stage, they frequently operate pilot plants for producing them. Other metallurgists study problems relating to engineering materials used in construction, carry out research on intergranular corrosion, or investigate fatigue relationships encountered in dynamic, high-pressure operations.

You'll find many challenging opportunities in every phase of metallurgy at Du Pont, George.

Homecoming

A Backward Glance

It was a beautiful day last Saturday for Homecoming; and a highly successful Homecoming it was — for the grads as well as for all the university folk who watched and took part. The Blue Hen team once again displayed that "fightin'" spirit for which they are so noted; the dazzling array of floats parading down South College Avenue was about the best in the university's history; and, the successful Harvest Hop, highlighted by the impressive crowning-of-the-queen ceremony, was made more enjoyable by the presence of so many alumni.

Unfortunately, however, there were a couple of bad features to this year's Homecoming which do not speak well of the student body. The outburst of "booing" which rang forth at the mention of the university president's name, and the hissing which accompanied the Dean of Student's entrance onto the field at halftime was completely out of order. First of all, and probably least important, it detracted a great deal from the pageant going on at the time — the presentation of the queen and her court. Second, it was another act to point up the immature character of Delaware college students. Next, it shows the complete lack of respect that the students have for the officials of the university.

If they wanted to shout their feelings to the whole world, the students could not have succeeded better; for, we understand, the unprecedented display was completely audible over the radio.

Another serious bad point at the game was the lack of fan spirit. The cheerleaders cannot be blamed for it this time. They were certainly on the ball, leading cheer after cheer, particularly in the second half. They spread themselves the whole length of the field so that everyone could participate in the cheering. But the only ones that could be heard were the cheerleaders themselves and a few other female voices.

This is not an editorial designed to suggest a solution to this problem of student attitudes. There can be no solution for a deed after it has been done. The important thing is to make sure that it doesn't happen again. Meanwhile, we think that an apology is due Dean Hocutt, President Perkins, the cheerleaders, the football team and to the queen and her court for the action last Saturday by the "fans" of the University of Delaware. DOT

Many Thanks

To All Concerned

Many complimentary comments have been made to the **Review** about the smoothness of the Homecoming activities. Naturally, we're proud of the part we played in the overall picture — but much credit is due to individuals who aided the **Review** and the Homecoming committee and whose names perhaps did not make the front page.

First are the seventeen escorts who donated their time: Bill Starkey, Bill Krebs, Bill Baldt, Lou Morris, Dave Messick, Frank Garosi, Dick McKelvey, Bob Hickman, Bob Magaerle, Ken Campbell, Stew Holveck, Dick Brady, Jim Strizinger, Charles Thompson, Bill Ford, Paul Dougherty and Sid Kugler.

Several students kindly donated their convertibles for use in the parade. Thanks to Nat Rand, Gary Gill, Helen Wilgus, Joe Obold and Jerry Bacher. Special thanks go to Fader Ford for helping us to line up cars.

Notes of appreciation also go out to Mr. Stuart Allmond and to Mr. John L. Sullivan of the maintenance department for their cooperation in the technical end of the proceedings at the game. Mention should also be made of Elbert Chance of public address system fame, and Dotty Duncan who arranged for the seating of the candidates and escorts at the game.

Congratulations should be sent to Corky Walters who so ably managed the crowning festivities at the dance. We hope that this ceremony is the beginning of a tradition that will last at Delaware. DOT

'Neath the Arches

by Janet Bonin & Rincy Levy

Homecoming '56 is all over but the memories. The "spark" of the festivities was "kindled" by the bonfire Friday evening. Most living units on campus were well represented. With a cheer each group began to tune up for Saturday. Not only the fraternities, but Smyth helped to illuminate the area with flares. Coach Nelson did the honors for the team which was "stashed" away for the night. In nearby Agriculture Hall, Tassel members were busy tying ribbons and mums for Saturday.

Added attractions this week were the decorations gaily displayed by the Knoll and Evans House. Keep it up, boys!

Many "artists" displayed their talents into the wee hours of the morning as they industriously worked on their floats.

Saturday was the big day with the football game, open houses and the Harvest Hop. Heralding the game, the parade with its colorful floats highlighted by the queen and her court, proceeded through Newark to the Stadium. Half-time featured the presentation of trophies and awards and the introduction of the court. Following the game open houses or coffee hours were held in the women's dorms and most of the fraternities. A number of the "old grads" showed their faces at these affairs. A Goal Post party was held in the evening for the Alumni.

The "Harvest Moon" shone on the dancers Saturday evening. Adding to the fall atmosphere, "Autumn Leaves" were attached to the bandstand.

Urnst and Ienst

With the approaching hour exams bearing down upon them, Urnst and Ienst decide that they'd best saunter over to the library; soak up a bit of that elusive ingredient, knowledge. Armed with pens, pencils, books, cigarettes and stack permit, our heroes wend their way along the ivy covered walls.

Ienst, wishing to delay the whole thing as long as possible, suggest that that take in a little Seroung before settling down to work. Urnst acquiesces after a five second persuasion—after Cokes, little Lance sandwiches and a cigarette pack, they decide that the inevitable calls. They enter the hallway, dust out their mailboxes, lose a nickel in the candy machine and enter the small brown door, leading to the library. Going right to the source of their info, they stand at the reserve desk. After a short wait of only 30 minutes, they fill out their application in triplicate and watch the librarian throw away two as she wends her way to procure said book. After 20 minutes she returns, stating that the book is out.

Stumped for a moment, Urnst remembers his stack permit. So, grabbing Ienst, he bars. Letting themselves down on top of a "return to self" cart, they find themselves rolling rapidly towards an open window. With a mighty swish they fly out an open window, landing on ivy, naturally. Picking a bouquet to bring back to the room, they decide that for future hour exams, it would be best to get their reference books out a month in advance and read them in the privacy of the dorm.

cide to squeeze behind the (Continued on Page 11)

OFFSTAGE NOTEBOOK

By George Spelvin

As we are pounding this off on the typewriter the stars are still rehearsing for the big night—opening night.

Although Connie Goodman and Tom Waters would rightfully be called the "stars" of "The Glass Menagerie," we predict that Suzanne Kozak will run away with the top honors. In fact, we'll bet that the review in the Wilmington Evening Journal tonight will offer "raves" for this young actress.

Suzanne hit the top in the University Theatre last season with her portrayal of Sabina in "The Skin of Our Teeth." The following shows of the season won more praises for Suzanne. In fact, for the first time in our four years at Delaware, we heard shouts of "bravo" from the audience when Suzanne Kozak took her curtain call in the last production, "The Corn Is Green."

Her entire first year at Delaware was spent working backstage, acting small parts in major productions, and participating in all the laboratory theatres. Then during the next year she got some "juicy" parts and many people remarked that she was one of Delaware's best actresses.

Last year Suzanne won the Tony Mitchell Acting Award and the George Spelvin student poll award for the best actress of the year. Another recipient of the George Spelvin Award was Tom Waters.

Many E-52 friends have been used to seeing Tom Waters in comical roles, for which he has a definite flare. But the role of Tom Wingfield in "Glass" is not Water's first dramatic part; he played Stanley in the University Drama Group's production of "Death of a Salesman" two years ago. His role of the pompous squire won him the George Spelvin award for the best supporting actor. Tom is presently president of the E 52 University Theatre and assistant to Professor Watson, technical director for the theatre.

During the past summer Tom didn't escape theatre. His new adventure was that of business and publicity promotion at The Brandywine Music Box, the newest tent theatre in this area.

Connie Goodman is a girl who should get a medal for her theatre activities. When you hear her daily schedule, she sounds like the last person to afford the time for the theatre. Connie carries a double major, commutes from Wilmington daily, is vice-president of the E 52 University Theatre, and continually comes through with a good index.

Every show produced by the E 52 University Theatre has had Connie working hard in some capacity, whether on stage or back stage. When not on stage, she has generally been the chairman of props.

A newcomer to the Mitchell Hall stage, but not to the campus, is Jack Scott. Jack attended the University of Delaware his first year, but transferred to the University of South Carolina last year. (Continued on Page 5)

Letters To The Editor

There has been quite a lot of discussion over the judges' decision on the floats last Saturday. I have not talked to one person who thinks that Kent Hall had a winning float. It was very obvious that many of the fraternity men and women's floats were far superior to Kent's float.

However, the decision has been made, and the mature action to take is simply—forget about it. I believe in order to eliminate the chance of such a mishap again, the float committee should issue to the dorms and fraternities a list of points that the floats will be marked on.

I also wish that the cheerleaders would inform the campus just how the judging was done last Saturday. Building a float is a lot of fun, and winning the prize is not the entire idea of the float parade; however, it is rather disheartening when the decision is so obvious.

This letter has been written so that the situation may improve for next year.

ARNOLD

It's All Greek...

Congratulations to Nancy Cathcart, the Homecoming Queen and Sigma Phi Epsilon's very pretty candidate. Escorted by President Starky she made a very lovely picture as she walked onto the field to receive her honors. We the brothers of Sig Ep are both proud and privileged to have had some part in helping her gain those honors.

Many brothers were seen at the "Harvest Hop" last Saturday night but the majority were so fatigued from building the float the night before that they enjoyed the dance but little. Nevertheless, there was enough life in Brothers Coccione and Brady so that they could just eek out a dazzling "cha-cha."

Tomorrow night the "Big Red Door" will be flung open to welcome the guests arriving for our first big house party. The party will feature those fabulous "Four Snaps" who created such a sensation at last year's Shipwreck Party.

Under the leadership and guidance of brother Rick Ricker, the members of Pi Kappa Alpha spent a long and arduous week designing and creating their float for the homecoming game. Following the game Saturday a coffee hour was held for the Alumni at the fraternity house. Afterwards many of the brothers and pledges went to Westover Hills for dinner at the home of one of our most distinguished alumni and then to the Dupont Country Club for a splendid evening of dancing and socializing.

Congratulations to Taylor Simpson who was recently pledged to the fraternity and also to Pete Steele who was chosen the outstanding member of his pledge class.

Things have finally settled down at Alpha Epsilon Pi after a hectic weekend. A de-

by Chef Rubinstein and number-one boy Weinstein on Saturday for the alumni and brothers. After the Harvest Hop, a frostbitten, but refreshing party was held at Brother Podell's cottage. Brother Finch led a songfest of the top 10 tunes. The return of Brother Krantz and his comedy act brought down the house. And the evening wouldn't have been complete without the patented song of Brother Schwab.

Congratulations to Brother Joe Glick, who was elected president of the alumni.

The brothers of Theta Chi extend their very sincere congratulations to our new Homecoming Queen, Nancy Cathcart. Festivities of the week-end were begun by the football team who scored a rollicking 26-7 victory over the Bisons from Bucknell. Following the game, many of the former grads visited the house and were guests at our annual Alumni Coffee Hour. Next came the very enjoyable Harvest Hop, which featured the crowning of our very deserving Queen. May our best wishes be extended to all who helped to make this Homecoming Weekend one to be remembered.

Congratulations to Joe Di-Annelli, Jim Brown, Herb Casalema, Doug Sager, Cecil Shirey, Dick Turochy, Jim Hughes, Bob Schillo, Al Ciarlo and Fred Walters.

Brother Limmina became engaged to Genevieve Rich. Brothers Garson and Miller were pinned to Sue Kirland and Helen Briggs respectively. Best wishes are extended to these three couples.

Many of the Oxen and their dates journeyed to the Officer's Club following the Harvest Hop.

The Theta Estate is undergoing a "new look." Brother Jim Lewis and the alumni are completely painting the house on the outside as well as filling in the "holes."

Tonight at 8 p. m. Sigma Nu opens its house to all freshman and transfer girl students for its annual welcome party. Highlights of the evening will be the crowning of Sigma Nu's Freshman Sweetheart and intermission entertainment under the direction of John DeStefano.

The brothers were glad to welcome back Homecoming alumni and friends at the coffee hour held following last Saturday's football game. Dick Harris did a great job on the house decorations and captured first place with his monstrous meat cleaver.

Also seen around town last weekend were several brothers riding in a new hard-top convertible designed by Jim Burton.

Congratulations this week go to Kay Hammond and Richard Lewis on their recent pinning.

Congratulations are in order this week for Chuck Heckert and Miss Phyllis Anderson who became pinned over the weekend.

The brothers of Kappa Alpha extend congratulations to Thomas Simpson and Roland Corson who were pinned last week. Brother Simpson was pinned to Carol Ferguson and Brother Corson to Jennie Bach. Also Brothers Ed Ruos and Shirley Hudson announced their engagement Saturday night. Best of luck to all of you.

Congratulations also to Mary Ann Crawford who was attendant to the Homecoming Queen. We are all proud of her.

A hearty welcome to Russell Tatman upon becoming a social member of our fraternity. Russell is a transfer from Georgia Tech. He was a member of Theta Zl fraternity there.

Good luck to Brother Ken Corrin who was accepted to Jefferson Medical School. Good going Ken!

(Continued on Page 12)

Pogo Popularity Gains, As Co-eds Join Campaign

In his all-out campaign for presidency Pogo is featuring a "get pinned to Pogo" slate in which all girls seen wearing his yellow and black button are promised a serenade by 50 marsupials. Each of these girls will receive, in addition, a scroll designating her as a natural-born gal friend of the Possum with the mostes.

In case that you have not received your Pogo button the Review is ordering a whole new batch of 'em, so pick them up soon along with your Review.

Here is the latest news release concerning your candidate's program.

Brisbane, Australia. Special) — Dingoes, Koalas and Emus of this vicinity will gather tomorrow night in the shade of a boola bong tree to draft plans to welcome Pogo Possum, American candidate for president, to this sunny land of "down-under."

One prominent Emu manufacturer of false ostrich feathers, claimed that the

denizens of Australia and the Anzac regions are 100 per cent for the marsupial candidate. "I am not a marsupial myself," said the Emu, "although I have been invited to join and my mother's father had a little pouch, but I can guarantee that many of our prominent denizens are simply delighted that Pogo has decided to stomp this country for the 'down under' vote. Denizens from all over will be gathering in New South Wales and you can bet they will vote to a man for the candidate from Up-over. One very important denizen, a platypus by trade, has guaranteed to deliver the monotreme vote."

Pressed on whether the other marsupials will welcome the opossum candidate as one of their own, the Emu declared that so far as he was concerned, the election is in the bag. "We are divided on just one point," he pointed out. "There is some feeling on the part of a small Kangaroo group that Pogo will not be the first to stomp the country."

At this, an old man Kangaroo spoke up and claimed that there is no such thing as a small Kangaroo group. "A small Kangaroo group would have to be a large Kangaroo group. And as for stumping the country, NOBODY has ever stumped the Aussies." A delegate from New Zealand, thereupon, threw dirt into the pouch of a placid old lady Kangaroo and fighting broke out among the Echidnas, who claimed that they single-handedly had stumped the contest in 1932.

Order is expected to be restored in time for the happy welcoming party.

Offstage

(Continued from Page 4)

On the Delaware campus he was active on the Review and Venture. He became active in dramatics at Carolina; in fact, he played the lead in "The Glass Menagerie" there. It's great to have him back at Delaware and to see him on the Mitchell Hall stage.

Best of luck to the cast and crews on the show!!! Sidelines... Elvis Presley fan, disk jockey at San Francisco's KFA, got bounced from the station for playing Presley's "Love Me Tender" at various speeds—14 times in a row...

"How?"

The Election Scene

Foreign Policy and the H-Bomb

By Frank Garosi

The lack of any concrete, nationwide issues over which a presidential campaign can be fought has resulted in an attempt by the candidates to make issues. Adlai Stevenson, the Democrat Party's candidate, apparently created an issue recently by proposing that the United States discontinue hydrogen bomb tests and ask the other H-bomb equipped countries (Soviet Russia and Great Britain) to do the same.

Necessarily, the problem of American National Security and the policy undertaken to insure it is of great interest to the other nations of the world and of importance in our foreign affairs. The United States' dominance of the field of nuclear weapons makes our policy on their use and testing of special interest.

Adlai's Ideas

Stevenson's proposal is seemingly based on two assumptions: one, that the testing of H-bombs and the resultant radioactive fall-out is considered dangerous; and two, that world disarmament is the first measure of world business.

He went on to say that failures of disarmament programs in the past is no reason to give up and not try new approaches or ideas. The life of all humanity depends on the finding of a positive answer to world disarmament. If Russia does not co-operate, Stevenson concludes, at least we have tried to further world peace.

President Eisenhower, the incumbent candidate for the presidency, took the official position that the "testing of atomic weapons is an indispensable part of our defense system" and that the American government is ready to restrict and control the use and testing of nuclear weapons under a specific, supervised international agreement.

Because nuclear tests involve months of preparation and re-

search, elaborate tests could be prepared without our knowledge and, according to Eisenhower, by the time we knew "our present commanding lead could be reduced or overtaken." Admiral Lewis Strauss, chairman of the Atomic Energy Commission, has implied that our testing of hydrogen and nuclear weapons is completed except for armed inter-continental ballistic missiles.

Another point of view sees the ban on testing as preventing countries other than the USA, USSR, and Great Britain from exploiting nuclear weapons and forcing them to hesitate to invest huge sums of money in an atomic program. A ban on nuclear tests would leave these countries uncertain about the success of their experimentation and make them more unwilling to unleash such energies irresponsibly.

Russia's expressed unwillingness to agree to effective international control in the past must also be taken into account. A disarmament agreement, which is honored or enforced only by one side necessarily acts to the benefit of the other.

Study of Contrasts

The official platforms of the Democrat and Republican parties provide a fine study of contrasts in the evaluation of American Foreign Policy over the past four years and an equally fine study of similarities in the professed aims and position of these parties for the conduct of foreign affairs in the future.

An end to the Korean War, the freedom of Vietnam, Cambodia and Laos, the South East Asia Treaty Organization, the Baghdad Pact, an American-Chinese Nationalist Security treaty, and the inclusion of Germany in the North Atlantic Treaty Organization are claimed by the Republican Party, as indicative of the success of the

Administration's foreign policy. They point also that the American solution of the long-standing Trieste problem between Italy and Yugoslavia, the leading role assumed by President Eisenhower at Geneva, and the political development of NATO as further evidences of their effective conduct of foreign affairs.

The Democrat platform attacks the Republican record; condemning the decline of the NATO, the tragedy of Cyprus, and the growing anti-Americanism in Burma, Ceylon, Indonesia and India. It also charges the present administration with neglect and abuse of the "Good Neighbor" policy.

Unity of Ideas

In what they seek to accomplish in foreign affairs, the two parties show a distinct unity of ideas.

Specifically the Republicans pledge to support the United Nations, aid underdeveloped areas, preserve Israel's independence, seek the reunification of Germany and the liberation of the satellites, oppose the seating of Communist China, foster world trade and lower tariff barriers wherever possible. They also re-affirm the principle of freedom for all nations.

The Democrats pledge themselves to support the UN, aid underdeveloped countries, support national self-determination and the end of colonialism, aid in expansion of world trade, seek the unification of Germany and the peaceful settlement of the Arab-Israeli dispute, send arms to Israel, and restore the policy of the "Good Neighbor."

Complex Problems

Dealing with the affairs of a nation is extremely complex, dealing with the affairs of all nations is almost proportionately more complex. The work of the State Department and of those who must create policy is complicated by the prejudices, jealousies, aspirations and the economic, military and political factors of life of a myriad of countries.

For the most part events in other nations cannot be controlled by any administration in Washington, they can only be anticipated or met as they occur. With the shifting emphasis of Russian tactics, policies that worked at one time may become dangerously obsolete within a

Thoughts

On Campus

by Sidney Ezrailson

"And why don't you write on something local?" one of my friends asked me last week. "All right," I answered. "What?" He didn't seem to know. I realized at that point that students expect a school newspaper to stick to things about their school, the activities of fraternities and opinions on local issues. Therefore in this column, I shall reflect a few of the things I have seen so far this semester on campus.

An attractive yellow booklet was distributed to the new students concerning their future at the University of Delaware. The first page of this booklet told the student that one out of three will not graduate. Such a statement, I am sure, scared the freshmen

to read on, and maybe learn some of the ways to stay in school. This percentage of persons who do not graduate is above the national average of 50 per cent; yet far below the graduates of such a school as Harvard, where practically 90 per cent graduate. I am sure this booklet benefited all who read it, and it think it could do a few upperclassmen some good.

At convocation top members of the sophomore, junior and senior classes received fifty dollar scholarship prizes in recognition of their superior academic records. Most of the winners did not know of the awards until convocation, so the honor and the money were welcome surprises, and I wonder, now that more students know of the prizes, whether marks will go up in general.

I have heard, very unofficially, that it has been suggested that the required index for fraternity pledgeship be changed from 1.75 to 2.00. There are a great many good arguments for both sides of this question. I think, however, that such a move would help everyone connected with the fraternities. The pledges would be better students, and the fraternities themselves would have better members. In this manner the fraternity index would be higher.

The previously mentioned happenings, a booklet encouraging and helping new students, prizes for the top members of each class and the pledge index increase, seem to reflect a trend of the administration to increase scholarship. The booklet warns and helps new students get on the right track to graduation. The prizes encourage upperclassmen as well as freshmen to work harder. Students who desire fraternity life will have to show more progress for the privilege of pledging. I hope that these actions will achieve their end, and that academic records will increase as a result of them.

Kent Sponsors Tea, Claremont Quartet

Kent Dormitory will hold another in its series of weekly informal teas for the faculty, on October 23 from 4 to 5:30 p.m. The residents of the fourth floor will be the hostesses.

The Claremont String Quartet will present program of chamber music in Kent lounge on October 21 at 8:15 p.m. The members of the faculty are invited to attend this event also and the residents of the dormitory will invite other students as guests.

Fulbright Petition Deadline Coming

Applications are still available for Fulbright scholarships and may be obtained from the office of the Dean of Arts and Sciences. October 31 is the final date for the filing of applications.

Any student who will have a college degree before the beginning of the date of the grant and is a United States citizen is eligible. Candidates should generally have a sufficient knowledge of the language of the country they want to study in. Preference is usually given to those students who have not had a previous opportunity for foreign study.

few months. The foreign policy record, therefore, has to be evaluated in the light of the circumstances surrounding any one instance, not according to the present situation.

Art Dept. Sponsors

Coffee On Monday

The staff of the Art Department will be hosts at a coffee hour in the Art Gallery above the Memorial Library at 4:15 p.m. on Monday.

While intended primarily as an informal social affair, there will also be brief gallery talks on the current exhibition of Sue Fuller's works, by two new members of the Art Department, Dr. Alan Gowans and Mr. Julio Acuna. Any interested students are invited to the talk. Coffee and cookies will be served.

Dr. Gowans spoke last Monday on church architecture in Quebec and drew comparisons to the architecture of Jefferson found in Virginia during the same era.

Freshmen to Choose Officers on Monday

PRESIDENTIAL HOPEFULS — These candidates are seeking the office of president of the freshman class. Left to right:

Robert Bruce Weaver, G. Richard Price, Neal F. Warrington, Jaye M. Wilde. Below: Steve Potter.

SAMPLE BALLOT

Freshmen Class Officers

(Check ONE for each office)

PRESIDENT

- ☐ Charles Olin Melvin, Jr.
☐ Stephen Potter
☐ G. Richard Price
☐ Neal F. Warrington
☐ Bruce Weaver
☐ Jay M. Wilde

SECRETARY

- ☐ Lois Carl
☐ Susie Ries
☐ Ginger Sheffer
☐ Christine Van Dine

VICE-PRESIDENT

- ☐ Barbara Bilancioni
☐ Patrick Nugent Renaud

SGA REPRESENTATIVE

- ☐ Phyllis Mikell
☐ Thomas C. Maddux
☐ John Roland Nowland
☐ Martha Skeen

TREASURER

- ☐ Kate Bailey
☐ Gilbert Smith

(Continued from Page 1) retary are Lois Carl, Susie Ries, Ginger Sheffer and Christine Van Dine.

Kate Bailey and Gilbert Smith are opposing candidates for the office of treasurer.

At a meeting of the freshman class last Tuesday afternoon on the south library step many of the candidates gave brief speeches.

Young Democrats Elect New Prexy; Reorganize Group

Lou Morris was elected president of the Young Democrats' Club of the university at a meeting held on October 10. Margaret Zafosky and Jack Brodsky are the new vice-president and secretary-treasurer, respectively.

"The group was reorganized this year to further the ideals of the Democratic Party and attempt to persuade everyone to be sure to register and vote. Specifically the group is trying to (1) further political information for the students, (2) actively work with the Young Democrats in demonstrating voting machines, explain registration laws and campaign from door to door to ask people to register and vote," said Morris.

The Young Democrats Club consists of about 25 members and has Dr. Charles Lanier, Department Head of Economics, as its faculty advisor.

Tryouts for E-52's Second Production Set for October 22

Tryouts for the second major E 52-University Theatre Production will be held in Wolf Hall Auditorium on October 22, at 4 p.m. and 7 p.m.

Transactions are still being made by Dr. C. Robert Kase and Dr. Cyrus Day to secure production rights for Eugene O'Neill's "The Homecoming" from his widow. If the rights are secured, the program will consist of a shortened version of the "Agamemnon" followed by the "Homecoming," the first play in O'Neill's famous trilogy, "Mourning Becomes Electra," which was a modern adaptation of the Grecian tragedy set in New England.

Dr. Day has already completed a modern translation of "Agamemnon" using modern colloquial speech in place of the sometimes stilted language of most of the translations.

If rights can not be obtained, Shakespeare's famous tragedy, "Macbeth" will be presented as the second major production. If this show is the selection, it will be the first time that "Macbeth" has been presented by the University Theatre. Most of the Shakespeare plays given in the past have been comedies.

Hens Meet Cats; Top Bisons, 26-7

The University of Delaware football team will start a series of two trips up north tomorrow, when it travels to Cowell Stadium to meet the University of New Hampshire in Durham.

Tomorrow's game will be the fourth between the two clubs. The series started in 1953 with the Hens victorious in all three encounters.

Last year the Blue Wildcats won two out of eight games, defeating Bridgeport in the season's opener and Massachusetts in the finale. Score of the Delaware game was 20-18.

The Hens presented the old timers with a 26-7 victory over Bucknell last Saturday to highlight activities of the annual Homecoming Day.

Delaware took control of the game the first time it gained possession, moving 87 yards in 12 plays for a touchdown. George Jarome, Delaware halfback, terminated the drive with a plunge from the 3. Ben Klingler converted for the extra point.

Carmen Cella then made a great defensive play preventing an enemy touchdown when he hauled down Don Koppes from behind, after a 74-yard runback of the ensuing kickoff.

Bootleg Pass

The quarter ended and following an exchange of punts, the Hens unleashed a 64-yard scoring drive in five plays which was culminated with a 42-yard bootleg pass from Catuzzi to Klingler all alone. Klingler kicked the extra point and Delaware led 14-0.

Delaware halted the following Bucknell drive on its 24-yard line and then began its own 11-play, 76-yard drive which came only 19 seconds before the half ended. It was Catuzzi's 30-yard pass to Cella that accounted for the TD. Cella caught the ball as it bounded off a defender at the 15 and then twisted away from two other Bisons to go across standing up. Klingler missed the extra point and Delaware led 20-0, at the half.

Bucknell Score

Bucknell scored late in the third quarter on a 73-yard overland march. Koppes made the key play in the drive when, on a fourth and eight situation, he crashed through for 12 yards and a first down on the 18.

In the second half Delaware failed to pierce Bucknell's 30-yardline until late in the last quarter after Malinowski, tackle, broke through, knocked down Jim Stewart's attempted pitchout and recovered on Bucknell's 36. Three plays later Jarome, behind excellent blocking raced 27 yards around right end untouched for the final score.

Several of the outstanding individual performances merit special attention. Tony Toto, starting for the first time in place of the injured Bobby Monevemaker, demonstrated with his superb running that he intends to keep his new position.

Jarome, Toto Shine

Both Jarome and Toto thrilled the crowd with their long runs on Catuzzi's pitchout plays. Catuzzi had a perfect day passing, going 4 for 4 for 92 yards and two touchdowns.

Also, as is seldom mentioned, the Delaware defensive line put on the best display that the Delaware home crowd has seen to date.

On the other side, all three of Bucknell's backs, Jack Brothers, Bill Ross and Don Koppes, were very hard driving runners. It was Brothers who made the best run of the day when he ran a punt from his 20 back to

the Delaware 49, where again Cella saved the day by bringing him down.

Delaware's record now stands at 2-2. In addition to Bucknell, the Hens have beaten Lehigh. They lost earlier in the season to West Chester and Lafayette.

Frosh Grid Managers Sought

Frank McMullan, head varsity football manager, has issued a call for freshman football managers.

This year's frosh team has but one manager, Jim Nardozi. Nardozi actually is a football player, McMullan said, and he hopes to go out for the varsity next spring.

"At least three more are needed to do the job," McMullan emphasized, "and it takes a heck of a lot of work for one man to do it." He added that it was a good way to earn a numeral sweatshirt and get on the varsity managing squad.

Chick Gridders Top Lehigh As Elia Sparks First Victory

Delaware's freshman football team is off to a flying start this year.

Last Friday the Chicks thumped the Lehigh frosh 27-14. One week before, they battled to a 19-19 tie with Rutgers, who hasn't been beaten in three years.

Lee Ella of Olney, Pa., scored

three of the four touchdowns against Lehigh, the last on a 79 yard runback of a punt. His other two came on a 50-yard pass and a one yard buck came in the first quarter. Gampy Pellegrini quarterback scored Delaware's last touchdown in the final period on a sneak from one yard out.

In the season's opener, Rutgers freshmen came from behind with 1:10 left in the game to salvage a tie with the Chicks. The scarlet eleven turned a Delaware fumble into a touchdown late in the last quarter for the game's first score.

In the second period, Lee Ella grabbed a pass from Pellegrini and raced 60 yards, for the score. Later in the same quarter, another Pellegrini pass clicked, this time to halfback John Bowman.

Another Delaware miscue accounted for Rutgers' second touchdown. The chicks fumbled on their own 30, and in five plays the scarlet scored.

Another Pellegrini to Ella aerial, good for 65 yards put the Hens out in front, at the beginning of the second half. The point was good and Delaware led 19-13.

In the final quarter, Rutgers marched 53 yards to the Delaware 2. The Hens held for three downs, but a line buck was good on the final effort, to knot the score. Jack Turner blocked the extra-point attempt, and the game ended in a tie.

The Chicks travel to Easton Pa., this afternoon to take on Lafayette's yearlings.

Score by quarters:

Lehigh	0	7	7	0-14
Delaware	0	12	7	0-19

Rutgers	6	7	0	6-19
Delaware	0	12	7	0-19

BISON YARDAGE — Don Koppes, Bucknell fullback, carries the ball against Delaware. Almost within reach is the Hens' tackle Ed Malinowski who has his hands outstretched. In background (center) is Delaware center Jerry Weis. Bob Karowski, Bucknell tackle, is at extreme left of picture.

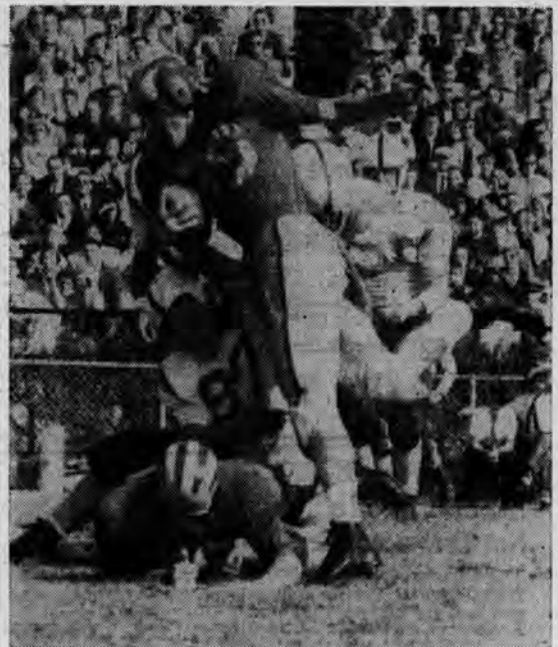

Blue Hen Of The Week

Scoring two touchdowns in last Saturday's game against Bucknell, George Jarome has been picked this week's Blue Hen.

The Delaware halfback scored his first TD on a three-yard plunge. His second came off a 27-yard romp off tackle after being set up by Ed Malinowski's recovery of a Bison fumble.

Two weeks ago Jarome scored a touchdown on a 17-yard pass from Quarterback Larry Catuzzi. Gaining only 54 yards last season, George, however, scored four touchdowns for the Hens. He hails from Little Ferry, N. J. While at Lodi High School, Jarome was picked for the All-County team and was also named second string All-Stater in New Jersey. George has been described as being an elusive runner with good speed.

Weighing 166 pounds, Jarome stands 5 feet 11 inches tall and is 20 years old. Enrolled in the School of Arts and Sciences, he is taking part in the university's advanced ROTC program. George sports number 25 for the Hen gridders.

BIG JOHN — John Walsh, Delaware halfback, bulls his way through for another five yards in last Saturday's game with Bucknell. Bruce Nealy (87), Bison end, sits on Delaware fullback John Oberg in an attempt to get at Walsh. Delaware won the contest 26-7.

Sports SLANTS

by SCOTTY WILSON

Sports Editor

It was an all-around great day for the ol' grads last week-end.

In addition to a good square meal at Old College and a colorful parade featuring the floats from dorms and fraternities, the alumni saw the Blue Hen football team come through with a splendid performance.

We were not surprised to see Tony Toto was going to start the game in place of Bob Money. The news had been around that "Money" had suffered a slight injury. What was a bit unexpected, however, was the fine performance Toto turned in.

The Delaware sub had one of the finest days of his career. He was second in Hen rushing, rolling up a total of 86 yards. His counterpart in the backfield, George Jarome, led the club with 120 yards gained and a couple of TD's.

And when it comes to Catuzzi, there isn't much more a guy can do if he has a perfect day in the pitching department. Catuzzi had four for four for 92 yards.

Credit should also go to the Hen linemen who turned in a fine job. Ed Malinowski, stood out with his recovery of a Bison fumble.

Last year we had heard of the Hens being a second-half ball club. They gave evidence of this against Connecticut when they came through with the victory after the bands had displayed their halftime exhibitions. Last Saturday seemed a bit different — the Hens scored three quick ones before the termination of the second period.

But what the heck! It's winning them, not so much how the victory comes.

A letter from Joe Varilla, assistant sports editor of the **Brown and White**, student publication of Lehigh University, has revived some old ideas concerning the one-time mythical Middle Six Conference for football.

Varilla, who wrote a column on the subject, has brought up some pretty good ideas about the organization of such a conference. He cited Al Cartwright, sports editor of the **Wilmington Journal-Every Evening**, as campaign organizer for the idea.

"The teams which would have been included in the conference," Varilla wrote, "were Delaware, Gettysburg, Bucknell, Muhlenberg, Lafayette and Lehigh." He mentioned however, that a conference would have to be changed a bit.

"In the revised form," the Lehigh scribe continued, "Rutgers would replace Muhlenberg . . ." The end!

Lehigh Harriers Top Hens, 25-34; Streak at End

Fred Krehbiel, Lehigh runner, came in first for his team as the Engineers' harriers turned back Delaware, 25-34, in the season's opener, October 10, in Newark.

In a thrilling finish, Krehbiel beat Delaware's Ken Callaway by inches in 23 minutes, 26.8 seconds. Captain Clyde Louth and Jerry Quigg finished fourth and fifth, respectively, for the Hens, but Lehigh runners took the next six places to win the meet.

Coach Ken Steers' crew had compiled 13 victories in a row over the past two seasons prior to the season's opener. Despite this defeat, he expressed high hopes that the team will improve as the season progresses and that it will have another successful campaign.

"We were disappointed to lose," Steers remarked, "but Lehigh had a very strong team. I think we did as good or better than we did in our opening meet last year with the University of Virginia, which we won, 28-29."

Besides the nine members of the varsity squad, five freshman harriers also started the 4.3 mile grind in order to gain experience. They did not figure in the scoring, however.

There is still room on the freshman squad in case any freshmen are interested and have the time to come out, Coach Steers added.

Merman to Commence Practice November 1

Coach Harry Rawstrom announces that swimming practice for varsity and freshmen will start on November 1.

He is anticipating a top-notch season, but he explained that he will need more candidates than the number he expects to return. Tom Duff and Bruce Stewart, both graduates of last year, will be missed, the Delaware coach remarked. He stressed his hopes for a good turnout at tryouts.

Returnees are: Captain Phil Reiss, Ed Kimmel, Taylor Simpson, Jack Ryder, Tom Moore, Bob Dempsey, Don Miller, Charles Crompton and Bob Sanworth.

Delaware will gain three sophomores from last year's freshman team. They are Bart Rinehart, Dick Cheadle and Jack Fisher.

Returning to Delaware from the U. S. Army is Freddie Freibott, holder of two Delaware varsity swimming records: 50-yard

freestyle and the 100-yard freestyle.

Rawstrom stated that he needs plenty of skillful competitive swimmers, but he stressed the need for freestylers to add depth.

The season's schedule:

Dec. 8—Lafayette — Home — 2 p.m.
Dec. 12—Penn (Freshman) — Away
Jan. 5—Lehigh (Freshmen) — Home — 2 p.m.
Jan. 9—LaSalle — Away
Feb. 2—Drexel — Home — 2 p.m.
Feb. 6—Bucknell — Away
Feb. 8—Fand M (Freshman) — Away
Feb. 13—Gettysburg — Away
Feb. 19—Temple — Home — 4 p.m.
Feb. 23—Swarthmore — Away
Mar. 1 and 2—Middle Atlantic Championships at Fand M.

South Campusites Selects Officers

South Campus recently held its elections to select the governing bodies of the dorms for the coming year.

The Heads of House for each dorm were selected last spring by the upperclassmen who were planning to live in the dorm. Beside their duty as head of the dorm, these girls will serve as members of the Women's Executive Council. The Heads of House are: Cannon, Connie Ellis; New Castle, Gayle Derr;

Johnston, Josephine Baldwin; Tiffany, Beverly Hall; Sussex, Ellen Hoffman; Smyth A, Gail Veasey; Smyth B, Janet Culver; Smyth C, Jane Persons; Warner, Nancy Long and Kent, Anna Mae West.

In the larger dorms the heads of house are assisted by Kay Fariss, Cannon; Elinor Welch, New Castle; Yvonne Nylund, Sussex; Eunice Harry, Smyth B; Sue Kimmel, Smyth C; Jane Wollenweber, Kent and Pat

Metzler, Warner.

Treasurers for the dorms are: Sussex, Pat Pennington, Smyth A, Mary Louise Drews; B, Angela DiSabitino; C, Marilee Busler; Kent, Doris Reed; Cannon, Mary Minkiewicz; New Castle, Joanne Spittler; Tiffany and Johnston, Nancy Jo Bringham and Warner, Jane Nuckols.

The records of house meetings and house council meetings in the dorms are to be kept by: Nancy Whitten, Cannon; Gretchen Berguido, New Castle; Sue Bernhard, Tiffany and Johnston; Elaine Stueber, Sussex; Anita Kaplan, Smyth A; Mary Stephenson, Smyth B; Mary Beth Carney, Smyth C; Mallory Hughes, Kent and Dee Dee Delano, Warner.

Social life for the women will be directed by: Joyce Mitchell, Cannon; Marilyn Cook, New Castle; Gail Partridge, Johnston; Ann Sutherland, Sussex; Sally Schmidt, Smyth A; Roberta Hannold, Smyth B; Janet Lee Keller, Smyth C; Mary Lou Mauro, Kent and Betty Jane Weber, Warner.

Three Receive Positions In Engineering School

Dr. Lyle Clark, Dr. Milan Cobble and Mr. Carroll Edgar are the newly appointed professors in the Engineering Department. They were formerly employed by industries.

Dr. Clark, a graduate of the university of Michigan, was associated with an aero-equipment manufacturing company before coming to Delaware. Professor Clark, whose home town is Ann Arbor, Michigan, was "influenced in coming to the University of Delaware because of its great possibilities of becoming a great university on the Eastern Coast."

Mr. Carroll Edgar, who originally hails from Easton, Maryland, was formerly employed as a consultant, mechanical engineer for Rathen Manufacturing Corporation in Bedford, Massachusetts. Mr. Edgar thinks that "Delaware is a top-notch small university with wonderful potentials." He feels that it is "a pleasure to be teaching after 37 years in industry." Mr. Edgar says, that he enjoys teaching

and is very pleased that the student here are co-operative and sincere.

Dr. Milan Cobble, also a graduate of the University of Michigan, taught at Bowling Green in Ohio and was associated with Kaiser-Frazer Company in Michigan. Dr. Cobble is at present finishing his doctorate at the University of Michigan. Dr. Cobble said, "We, in our department are hoping to start research in solar energy. We have already purchased a search light which converts a mirror into a solar furnace, a gas turbine, and a free piston engine." Mr. Badir B. Chalabi is in charge of these projects along with Dr. Cobble.

Education Majors To View Movies

Movies will be shown every Wednesday night at 7:15 p.m. in Room 313, Allison Hall for the benefit of the education majors. The subject of the films will be various phases of child growth, development and education and are shown in conjunction with the several education courses at the university.

These films are intended primarily for education majors. They are non-obligatory.

Sticklers!

HERE'S A STICKLER!
WHAT IS A JAIL AT
LIGHT-UP TIME?
(SEE PARAGRAPH BELOW)

IF YOU HAVE recently become a smoker (duffer puffer), ask any old-hand Lucky smoker (prudent student) why he settled on Luckies. Bet anything he says they taste better. You see, Luckies' fine, light, naturally good-tasting tobacco is TOASTED to taste even better... cleaner, fresher, smoother. So, when it's light-up time, light up a Lucky. You'll say it's the best-tasting cigarette you ever smoked. Okay—what is a jail at light-up time? Answer: Smoky Pokey. Isn't that criminal?

WHAT IS A SHOE THIEF?

WHAT IS A MIDDLE-CLASS HARE?

WHAT DO YOU NEED TO HUNT BIG GAME?

WHAT IS A CRAZY FORTUNE TELLER?

DON'T JUST STAND THERE...
STICKLE! MAKE \$25

Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out \$25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

"IT'S
TOASTED"
to taste
better!

LUCKIES TASTE BETTER
CLEANER, FRESHER, SMOOTHER!

(Continued from Page 4)
beats a hasty retreat into the inner halls of illucidation. Utilizing the billows (provided free of charge) to blow away the accumulated dust, Urnst tears back as a particularly heavy blast uncovers the DEAN, chuckling softly, seated cross-legged on the floor, boiling up on Tortures of the Inquisition as Applied to Modern Living. lenst runs rapidly into the opposite direction, grabbing Urnst by his ivy pants' belt in the back, only to smash headling into a book shelf. Staggering to his feet, lenst discovers Urnst lying between a History of the Ubangi Tribe and Esperanto Made Easy. Lifting these books reverently off his companion, lenst smilingly suggests they walk through the stacks and see what books they need. Covering the entire repertoire, from Miscellaneous Poets of the 17th Century to Causes of the Hessian-Eskimo War and Other Events Not Worth Remembering, our heroes begin to get a bit discouraged as not one relevant book appears. All is not lost though, as lenst spies what he takes to be a peep how. Rushing eagerly over he finds himself looking at the April 10, 1935 issue of Life on micro-film.

Urnst, now getting impatient, suggests that they take the elevator to get to the rare, rare books room. As they begin their journey upwards they hear a low whirling noise and feel a jolt as the elevator goes off—between floors. Beating against the sides of the elevator, and receiving no answer, they de-

Kappa Delta Pi To Hold Initial Meeting Tuesday

Kappa Delta Pi, an honor society in Education, is holding its first meeting this year on October 23, at 7 p. m. in the Materials Center in Alison Hall. The main purpose of the meeting will be to acquaint freshmen and junior education majors with this organization. All freshmen and juniors in education are invited to attend.

Undeafated KA, Sig Ep Clash

On the intramural scene this week Kappa Alpha is still dominating the picture.

The Rebels unscored record is second to none — 7 wins and 0 losses. Sigma Phi Epsilon is very close behind with all wins and only one tie. So a loss to KA could prove very detrimental. KA has but two more games to play while Sig Ep has four games to get under its belt.

Some of our readers have asked the final results of last year's individual intramural winner. Listed below with the number of points are the top five for last year's sports:

Dean Steele ATO 106 points
Art Kreitz SPE 91 points
Howard McCurdy OK 88 points
Palmer Prettyman ATO 87 points
Ronald Mattels SPE 84 points

Football standings as of October 11			
are:	W	L	T
KA	7	0	0
SPE	4	0	1
SN	4	2	0
PKT	2	1	0
ATO	2	3	0
OK	2	2	1
DTD	1	3	0
PIKA	1	4	0
AEPi	1	4	0
Campus Cats	1	5	0

What's Doing ... at Pratt & Whitney Aircraft

Artist's conception of Palm Beach Facility shows two-story administration and engineering headquarters structure, center, and single-story manufacturing building, rear. Test and laboratory facilities will be located in area beyond that in upper right of drawing.

Sunshine and science ...
star performers in
new Florida "Show"

Believing that the future of aviation lay with larger aircraft, higher speeds and greater ranges, the founders of Pratt & Whitney Aircraft established an iron-clad policy demanding constant striving to develop aircraft engines that would continually surpass previous accomplishments. The intervening restless years at P & W A have been filled with continuing progress which proved the wisdom of that early decision. Brand new areas of technology were explored; recognition as undisputed leader in its field was attained; expansion to accommodate the growth of the company resulted in a nationwide network of auxiliary facilities.

Florida — long America's year 'round playground — is now providing ground for the continued expansion of America's foremost aircraft engine builder.

Ideally located in Palm Beach County, P & W A's newest facility will be an important engineering auxiliary to the main laboratories and plants in Connecticut. Major factors in selecting the site were the mild climate and sufficient isolation to permit development and test of highly advanced and extremely powerful jet engines with minimum acoustical disturbance to the surrounding resort communities.

The engineering graduate who begins his career at this Florida facility will have the rare opportunity of keeping pace with its anticipated growth. In an organization renowned for development engineering superiority, he will be able to gain invaluable experience working on vital, long-range projects that are a challenge to the imagination.

World's foremost designer and builder of aircraft engines

Check Twicfold Or Box Will Mold Says Mr. Springer

A large number of students have failed to check their mail boxes regularly this semester.

Not only does personal mail reach the student via the post office boxes, but the administration sends official mail and intracampus organizations send letters and notices.

"Mail should be picked up daily, if possible, or at least three times a week," stated Mr. Franklin Springer, mail clerk. "Commuters are the worst violators; they don't seem to realize that these boxes are issued for the convenience of the students and should be utilized."

It is important for one to pick up his mail regularly as the material included may be pertinent and the student will lose out on some event or another instead of just saving time.

Also because the boxes are small they become crowded and look cluttered easily, therefore hindering Mr. Springer from putting "fresh" correspondence in them.

People also often disregard notices to collect packages which have been sent to them. So the parcels lie around and take up space in the already limited quarters of the mail room. Many times a second notice is sent to the tardy person who has not gotten his package. Then the student will bring both notices and expect two packages not realizing the second is a duplication of the first.

Mrs. Roosevelt

(Continued from Page 2)

Munroe, professor of history, will speak at the Social Studies Session.

The concluding program on Friday afternoon will feature Governor Boggs on the Republican view of Education and Mr. McConnell speaking on the Democratic view of Education. The afternoon speaker will be Dr. Richard Barnes Kennan, Executive Secretary, National Commission for Defense of Democracy through Education. His topic will be "Some Marks of Progress in the Teaching Profession."

\$41,000 CONTEST

It's fun to do—and you may find you know more about human nature than you think! Just list, in order, the six articles in October Reader's Digest you think readers will like best. Couldn't be simpler—and you may win \$5,000 cash for yourself plus \$5,000 in scholarships for your college.

Have you sent in your entry yet? Entries must be postmarked by midnight, Thursday, October 25. Entry blanks available at your college bookstore.

The Greeks

(Continued from Page 5)

On Wednesday night the men of Delta Tau Delta travelled down to Cannon Hall to serenade Pat Curtis and Leonard Glesel. The ceremony went well except for one minor omission.

On Friday evening a fun-filled float festival was held at the Shelter featuring the combined efforts of brothers, dates, alumni, and visitors; the results was gratifying—third place in the float competition.

It was good to see some of

the chapter alumni again this week end; L. P. Lore, Jack Richter, Walt Jebens, John Pollock, Johnny Long, and Dick Chilcutt were among those who made it back for Homecoming.

After spending many sleepless nights, the brothers of Alpha Tau Omega were well rewarded for their untiring efforts to produce a winner in the float contest again this year. The float, based on the theme, "Spicin' the Bison," won first place among the fraternities and second place in the overall contest.

On Saturday afternoon, following the game with Bucknell, many alumni were to be found at the house catching

up on local ATO gossip along with parents and friends. All the classes since 1949, when the chapter was installed, were represented at the coffee hour. The active and alumni brothers were all in fine voice to serenade Gail Kaufman and Bog Gore, and Peggy Dougherty and Dave Dunlap.

Congratulations to Pledge Brother Theodore Jastek, who recently joined the long line of ATO's.

The Homecoming game attracted many Phi Kappa Tau alumni back to the campus on Saturday. They spent an enjoyable part of the day here at the house talking

over times with active brothers. Afterwards a large representation of the latter were at the dance.

Last week everyone worked on the preparation of a float depicting the extinction of the Bucknell bison. The elaborate and colorful result was thought of by many as the best in the parade, but this group did not include the judges. The efforts of Brothers Sloman and Draper in designing the float deserve commendation. The intramural football team, currently in a mild slump, figures to regain its winning ways. New and secret defensive strategy has been devised and will soon be used against luckless opponents.

Melpar to Interview Engineers, Physicists and Mathematicians

One Of Nation's Leading Electronic Firms Offers Unique Opportunities

Mechanical and electronic engineers, as well as those majoring in physics and math will want to investigate the unusual opportunities for rapid professional growth and advancement offered by Melpar, Inc., one of the Nation's leading electronic research and development organizations.

A subsidiary of Westinghouse Air Brake Company, Melpar is now engaged in a program of expansion involving both increases in staff and facilities. The organization's headquarters laboratory is located in Fairfax County, Virginia, only 10 miles from Washington, D.C.

No Formal Training Period At Melpar

The college or university graduate who joins Melpar is not required to undergo a formal training program. Instead he immediately becomes a member of a project group and is assigned to work with an experienced engineer whose guidance and assistance enable him to advance rapidly. Members of Melpar project groups gain experience in all phases of engineering problems by free and frequent interchange of ideas during group meetings. Such experience is valuable in leading to eventual managerial responsibility.

Financial Assistance Offered by Melpar for Graduate Work

The list of universities located near Melpar laboratories that offer graduate and undergraduate courses in engineering subjects includes: Georgetown University, George Washington University, American University, Catholic University, University of Maryland, University of Virginia, Harvard, Massachusetts Institute of Technology, Northeastern University, and Boston University. Melpar offers financial assistance for study at these distinguished schools.

Melpar Locales Offer Fine Living Conditions

Melpar's R & D operations are centered near and in Washington, D.C. and Boston, Mass. Both are rich in cultural and educational facilities. The Washington, D.C. area in which Melpar's headquarters laboratory is located is within easy driving range of beaches, lakes, mountains, as well as other recreational and scenic points. The climate allows outdoor recreation 215 days of the year. Fine homes and apartments in all price ranges are readily available.

Melpar's Boston area plants allow engineers to enjoy the pleasant tempo of New England living coupled with Boston's splendid cultural and educational advantages. Melpar pays re-location expenses.

Booklets Available

An attractive, fully-illustrated booklet describing living conditions prevailing in the Washington, D.C. area can be obtained from your campus Placement Officer.

Performance Determines Advancement At Melpar

At Melpar there is no waiting period for "automatic" advancement. Instead, an engineer, regardless of his age or tenure, may move ahead as rapidly as his skill and performance dictate. Each engi-

neer's achievement is reviewed at least twice a year. In this manner engineers deserving advancement can be quickly "spotted" and promoted. As soon as an engineer is ready for more complex responsibilities they are given him.

Qualified Graduates Offered Paid Inspection Trips

After a personal interview on their campus, qualified candidates may be invited to visit Melpar's headquarters laboratory near Washington, D.C. at Company expense.

Information on opportunities available for graduates together with details on living conditions in the Washington, D.C. area is available by simply writing: Mr. William Schaub, Melpar, Inc., 3090 Arlington Blvd., Falls Church, Virginia.

Many University Courses Offered At Melpar's Main Lab

Melpar staff members, both holders and non-holders of degrees, may take advantage of the many fully-accredited courses in engineering subjects which are offered at Melpar's headquarters laboratory.

Melpar Expanding Steadily Every Year

Founded in 1945, Melpar has doubled in size every 18 months for the past 11 years. Recently it completed erection of a complete new headquarters laboratory near the Nation's Capital, and is presently making substantial additions to its Watertown, Mass. laboratory (6 miles west of Boston), and to its research department in Boston.

Located on a 44-acre landscaped tract, Melpar's main laboratories encompass over 285,000 square feet under a single roof. Fully air-conditioned, they are equipped with every facility. In addition to the new, ultra-modern headquarters plant, Melpar maintains additional facilities in Arlington, Virginia, Boston and Watertown, Massachusetts, encompassing a total of 460,000 square feet.

Challenging Openings Available At Melpar In Many Fields

Engineers who join Melpar may choose their assignments from one or more of these challenging fields:

Flight Simulators • Radar and Countermeasures • Network Theory • Systems Evaluation • Microwave Techniques • Analog & Digital Computers • Magnetic Tape Handling • UHF, VHF, or SHF Receivers • Packaging Electronic Equipment • Pulse Circuitry • Microwave Filters • Servo mechanisms • Subminiaturization • Electro-Mechanical Design • Small Mechanisms • Quality Control & Test Engineering.

Members of Melpar's research and engineering staff are ably supported by many designers, draftsmen and technicians. Coordinated supporting services include a chemistry laboratory, a quality control group, an environmental test laboratory, a number of shops, and other specialized facilities.

October 31

To secure an appointment with the Melpar representative when he visits your campus, contact your Placement Officer today. At the same time ask him for booklets on Melpar and the Washington, D.C. area. We believe you will find them of unusual interest.
