Dear Dannie:

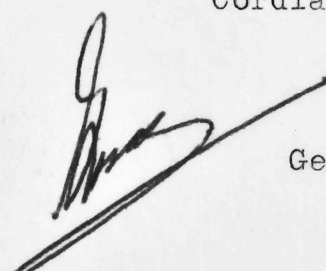

We are making some changes in the distribution of the departments in the main building of the Company at Gante, and in connection with this we are doing some painting and intend to refinish the Board Room.

We have in the Board Room now the photographs of a number of people who have been connected with the Company in the past. Among these pictures there should be one of you and should have been there long since. I know that you have a very good photograph and I hope that you will give us one of this as we wish to have it put up in the Board Room. It may be more convenient to hold it in New York until I see you very soon and I can bring it back with me when I return to Mexico City.

Marion and I are leaving here by train on the morning of December 21 and will arrive in New York in the early morning of December 24, and we will immediately take the train to Wilmington to spend Christmas day with Marion's sister Helen, and I will return to New York on Monday morning, the Twentysixth, around noon.

Looking forward to seeing you, and with affectionate wishes to you all,

Cordially and faithfully yours,

  
George S. Messersmith
