

NEWARK POST

VOLUME VII

NEWARK POST, NEWARK, DEL., AUGUST 9, 1916

NUMBER 29

EVERY RESIDENT MUST MAKE SEWER CONNECTION

Council Decides at Joint Meeting With Board of Health--Public Meeting to be Held in Opera House

As part of a plan to improve the general sanitary conditions of the town every property in Newark will be compelled to connect with the sewer within six months. Some members of the Board of Health met with Town Council Tuesday night when the health conditions were discussed. It was decided for Council, the Board of Health and the Sewer Commission to hold an open meeting on Monday night, August 21, which the citizens are invited to attend and offer any suggestions relative to improving sanitary conditions. The town authorities are determined to wipe out the source of typhoid fever and the sanitary campaign will be conducted with that as the principal object in view. There are only a few cases of typhoid fever in Newark at the present time but it is felt the percentage of cases for several years has been entirely too high.

The following resolution adopted by the Board of Health was approved by Council last night and that body will enforce the resolution: Whereas, the sanitary condition of the town of Newark is such that it demands some action by the Board of Health.

Therefore, be it resolved that all properties abutting on the sewer lines be ordered to connect with the sewer within six months as the present conditions are a menace to the public health.

The Board of Health also adopted a resolution to do away with pig pens within the town limits after January 1, 1917, and Council will pass an ordinance making it unlawful.

The removal of all outside closets was discussed by the two bod-

ies Monday night and some action may be taken later ordering such closets closed.

Council received a communication from Louis L. Curtis, secretary of the Board of Health, resigning as a member of that body. It was the opinion of Council that Mr. Curtis has given invaluable service to the town as secretary of the board and Messrs. Frazer, Lutton, and Wilson, were appointed a special committee to request him to withdraw his resignation.

A communication was received from David C. Rose, in which he spoke of the extension of the sewer to a point on South Chapel street where he has six old houses and four others in course of erection. Mr. Rose pointed out that he has no water service there and that the sewer is no use to him without the water. He asked that the water system be extended to these properties a distance of 380 feet. Council decided to extend the system and the Water and Light Committee was empowered to have the work done.

It was also decided to enforce the law against automobiles running within the town limits with exhausts open.

Another matter discussed was the increasing of the Town Officer's salary \$10 a month and the town to get all fees from the arrests of violators of the Automobile laws. The suggestion was made by the officer himself to silence criticism that he makes the arrests to collect fees for himself. The matter was left in the hands of Mayor Hossinger and he will probably grant the officer's request.

College Work Well Under Way

Buildings Being Razed--Grading Soon to Begin

College work is beginning in earnest. The wrecking crew is making good progress on the "Old Dorm" and the contractor will begin the construction operations in a short time. Work on science hall, set back by the recent rains, is now making an interesting showing. The plans for the new dormitory have been completed and are in the hands of college authorities. Another wrecking crew is at work tearing down buildings on Main street getting ready for the grading engineers. The heating men have pipe extension laid out with all material on the ground. They will make ready to connect with the science building, new dormitory and infirmary. The grading engineers have arrived and are busy erecting shacks for the workmen. Most of the machinery is on the ground and this work will be started in a few days. No doubt the grading will attract attention from the very beginning. With this 50 acre plot parked, Newark can look with keen appreciation to the future.

Along with this, Contractor Griffin is remodeling the Stoll property into an infirmary. This will be ready for service in the fall at the college opening.

To date practically everything done has merely been in preparation. With all these operations in full swing citizens of Newark will have plenty to test their powers of observation.

Chester Countians Plan Visit To State Farm

On next Wednesday, one hundred farmers, accompanied by Mr. Preston county agent of Chester county, Pennsylvania, will be entertained at the College Farm. No formal program has been announced, the visitors merely wishing to observe the experiments under way on the farm.

New Building Begun

Work is under way on the New Century Club building, on Delaware avenue, under the direction of the supervising architect, Mr. Hough. The building, it is believed, will be complete by November.

Statement From Board of Health Laboratory

The local Board of Health, working in co-operation with the State Board of Health laboratory, has expended special care during the last week in an effort to get rid of the slight infection found in the water supply in one section of the town last Wednesday. Owing to the fact, that all the tests are not yet completed, the following word of warning was issued at three p. m. today from the laboratory:

From tests of Newark town water, taken from different places throughout the town, not being advanced sufficiently to be satisfactory, I would suggest boiling the water until further notice.

(Signed) HERBERT J. WATSON
State Board of Health Laboratory

Harvest Home At Jackson Hall

The annual Sunday School picnic and Harvest Home will be held in the grove at Jackson Hall all day and evening, Friday, August 11th. If stormy the next clear day and evening. Ice cream, cakes, peanuts and home-made candies for sale. All members and friends of the school are asked to bring baskets and spend a pleasant day. Special music and good speakers are looked for.

Committee.

CHAIRMAN EXPRESSES THANKS

On behalf of the Aetna Hose Hook and Ladder Company I want to thank the ladies of the several committees who worked so hard for the success of this, our greatest Carnival. To the Boy Scouts, whom we look upon now as almost indispensable, to the Camp Fire Girls for their interest, and to the public in general who contributed so liberally. I extend thanks.

E. C. WILSON,
Chairman Carnival Committee

Receipts Approximate Seven Thousand

Automobile Goes to Gibbstown, New Jersey

Sixty-eight hundred dollars and all receipts not yet in, is the record of the fifth Firemen's Carnival which closed last Wednesday. Members of the company believe they will clear at least four thousand dollars. When questioned today as to whether or not plans for the building would be taken up at once, Fire Chief Wilson declared no definite conclusion had been reached by the company.

A crowd equal to that of the previous Saturday, reckoned between five and six thousand, crowded the grounds on last Wednesday, the closing evening. Cars came from miles around, bringing people from every neighboring locality to witness the chancing of the Oakland Six automobile, the center of interest during the evening. Twice during the last week members of the local company had gone over the little bags of fibre disks, corresponding to the numbers on the printed slips, to make certain that not one was missing. On Wednesday evening, three strangers from Maryland, and three from Pennsylvania were requested to go over the disks and compare with the printed series. After the examination was complete, three of this committee guarded the chance books, while three carried the disks to the band stand, where two men from the crowd, who had not taken chances were called on to stir and shake them all in a closed can. One of these selected a disk, looking at the number and handing it to the second man who read it to the crowd. The holder of the winning number, eleven, series 1, proved to be Charles E. Cook of Gibbstown, N. J. The Firemen cleared \$1,380 on the machine.

W. R. Powell, with twenty-eight consecutive hits on gallery number 1, and Ralph Barrow, with ten on number 2, won the solid gold watch fobs offered at the shooting galleries by the duPont and Hercules powder companies. One of the two Winchester rifles used at the Carnival in the shooting gallery went to William Rowe, for one cent, and the other to Samuel Little for five cents.

The formal program will open at ten o'clock with a concert by the Red Men's band of Newark. At 10:45 there will be an address by Rev. Asbury Burke, of Newport. A second band concert is promised at 2:00 p. m. The afternoon address will be delivered by Mr. Mills, lawyer of Wilmington. The evening meeting will open at 7:15 with a band concert, and be addressed by Mr. Harvey Mayer, ex-mayor of Dover.

The various organizations of the Presbyterian Church are, in turn, taking charge of the Wednesday evening prayer meetings, during the pastor's vacation. Last Wednesday the Rev. Mr. Gordon, of Brooklyn, the guest of Mr. and Mrs. G. N. Brown, spoke at the service, which was in charge of the Baraca class. This Wednesday, the program has been arranged by the teachers of the Sunday School. An interesting service is assured by the committee.

CROWDS FROM KENT AND SUSSEX VISIT FARM

Day a Pronounced Success

Between fifteen and eighteen hundred people, it is estimated, visited the State Farm last Thursday, the occasion of the annual "Farmers' Day." Mr. S. H. Derby, one of the trustees of the college, presided at the meeting. Dr. Mitchell, president of Delaware College, Dean Hayward of the agricultural department, and Professors McCue, Grantham, and Cory were the speakers.

A number of prominent visitors were compelled to decline at the last moment, among the number Governor Miller, Gen. A. R. Benson, H. R. Sharp, P. S. duPont and Judge Landis. The following telegram was received from the Governor:

"With much regret I advise you that circumstances have intervened which prevent my presence with you today.

"Farmers' Day is now firmly established as one of our annual events to the coming of which we all look forward with pleasure. The nation and state governments working together, are striving in every possible way to assist the farmers and improve agricultural conditions throughout our country. The state of Delaware is cordially co-operating with the national government. The results obtained upon the farm at Newark have received high commendation from national authorities.

"The increased attendance of students in the agricultural department of the Delaware College encourages the belief that its influence has been firmly established as a really potent force in the improvement and development of agricultural conditions throughout the state.

"A generous donor has recently made liberal financial gifts for improvements and additions to Delaware College. When the plans contemplated are carried to completion Delaware College will be one of the most efficient of the smaller colleges of our country.

"Of this liberal gift the agricultural department will receive

its full share and every farmer in the state will derive a benefit from the increased ability of the institution to carry on experimental work. Let every citizen do his or her full share to assist those charged with the administration of the college affairs to accomplish these results. By such action it is possible for every citizen to contribute something toward making Delaware College an institution upon which we can all look with pride and pleasure.

Signed Charles R. Miller."

The crowd visiting the farm last Thursday was somewhat smaller than that of last year, a fact due, it is believed, to the late season and a rush of farm work. Kent and Sussex sent large delegations, but few were present from New Castle. To overcome this condition it is believed the event will be held at the time of the dedication of Wolf Hall next year.

Dr. Mitchell spoke of the development of Delaware College, expressing appreciation for the support given by the farmers of Delaware; Professor McCue, a resume of the history of the farm peach orchards, stating what it had cost to grow the orchard, the selling price of the peaches, and the cost of growing peaches in New Castle county. Professor Grantham discussed Farm Management, and the conditions essential to money-making on the farm. Professor Grantham is becoming a recognized authority on Farm Management and his talk was appreciated by everyone present. Mr. Cory, head of the new department of Poultry Husbandry, outlined briefly the relative importance of the poultry industry, especially in Delaware. He outlined the policy of the new department along the lines of instruction, extension, and research. Miss Jefferson, of the Experiment Station Staff, spoke to the women, telling of her work among the farm women of Delaware during the last year.

BIG WOODS MEET- ING TOMORROW

Ebenezer Folk Hold Harvest Home

Plans are complete for the annual harvest home to be held under the auspices of the Ebenezer M. E. church in Whiteman's Grove tomorrow, August tenth. Should the day be clear a record breaking crowd is anticipated. Hundreds find half the pleasure in the day in the picnic dinners which they take with them from their homes. Those, however, who do not wish the extra work of preparation, will find excellent service in the grove; the ladies of the church, furnishing both dinner and supper for the convenience of everyone.

The formal program will open at ten o'clock with a concert by the Red Men's band of Newark. At 10:45 there will be an address by Rev. Asbury Burke, of Newport. A second band concert is promised at 2:00 p. m. The afternoon address will be delivered by Mr. Mills, lawyer of Wilmington. The evening meeting will open at 7:15 with a band concert, and be addressed by Mr. Harvey Mayer, ex-mayor of Dover.

Organizations Plan Weekly Meetings

The various organizations of the Presbyterian Church are, in turn, taking charge of the Wednesday evening prayer meetings, during the pastor's vacation. Last Wednesday the Rev. Mr. Gordon, of Brooklyn, the guest of Mr. and Mrs. G. N. Brown, spoke at the service, which was in charge of the Baraca class. This Wednesday, the program has been arranged by the teachers of the Sunday School. An interesting service is assured by the committee.

ADDITION TO RITTER FACTORY NEARING COMPLETION

Season Opens August Twenty-third

The new building 50 x 200 feet, in course of erection at the P. J. Ritter Conserve Co., south of town, is about complete. Samuel Little, in charge of the concrete work, expects to finish this week, and the enlarged plant will be in running order in time to take care of this season's tomato crop. Mr. Reynolds, manager of the plant, is in daily attendance, and is making every effort to have the machinery installed by August 23rd, when the first tomatoes are expected. The enlarged plant has a capacity of 140 bottles of catsup per minute. The company expects to turn out from the Newark plant, one hundred thousand cases this season. All local labor available will be used.

WEDDING Hall-Steele

Miss Mary J. Hall and Mr. John W. Steele, both of Newark, were quietly married at the Newark M. E. parsonage by the Rev. E. P. Roberts on Saturday, July 29th. Mr. Steele is employed at the Curtis and Bro. paper mill. The bride and groom moved immediately to their furnished home on Cleveland avenue.

OBITUARY Cornelius Tyson

Cornelius Tyson, aged 12 years, son of Mrs. Buelah Boone Straub, of Pottsville, Pa., died on Tuesday from acute diabetes. The child had been at a boys' summer camp, for several weeks, and his condition at first was believed to be the result of the water. Many friends in Newark extend sympathy.

CHURCH SERVICES DISCONTINUED

M. E. Vestibule Being Redecorated

During the month of August services will be held in the morning only at the Newark M. E. church. Owing to the fact that the vestibule of the church, dedicated in memory of Mrs. Samuel Wright, by her son S. J. Wright, is being redecorated by the donor, the morning services will be held in the basement.

At the Presbyterian church during August there are no regular church services. Sunday School convenes at 9:45 a. m. and Christian Endeavor at 6:45 p. m.

Remember The Soldier Boys

Mr. G. W. Rhodes has started a fund by which the boys with Company E, in New Mexico, may receive occasional reminders from "the folks at home."

Several packages of tobacco, etc., have already been sent by Mr. Rhodes as an individual. In order to make it convenient for anyone wishing to forward an occasional luxury to the company, Mr. Rhodes has placed contribution boxes at conspicuous places in his store. Let's send along our "good wishes."

Robbed Of Pocket Book

A German workman employed by the A. Jedell Company, was waylaid and robbed by five men, on the road between the Pennsylvania Depot and Cooches', on Monday about two a. m. The men seized the man's pocket book containing fifteen dollars, and made their escape.

W. C. T. U. Meeting

The W. C. T. U. of Newark will meet at Mrs. S. M. Donnell's this Friday afternoon August eleventh.

M. E. Sunday School On Picnic

The M. E. Sunday School held their annual picnic today in the grove at Welsh Tract. Swimming, games, and "eats" were features of the day's program.

Letter From Deming

(continued from page 1)

day before we did and Sunday we had a few showers. It seems that we are expert rain makers because it rains wherever we go. The worst fault we have to find with our situation is the wind and cold weather. The blowing sand is a little troublesome but we are protected from it by goggles which were given to us by the Delaware Red Cross Society. The days are a little warm but not too much so, and the nights are cool and sleep-producing in every way. Sweaters and coats have not been issued yet but we expect them soon.

The people of Deming were greatly pleased at our coming. They have feared raids by the Mexicans for some time and they sure "met us with open arms." The ladies of the town gave us a luncheon Sunday while a girls' band furnished us with music. Throughout the entire town are signs bearing the words "Welcome Soldiers." Everyone is as sociable as can be, and the first night the store keepers treated us to all kinds of "eats." The Mayor of Deming gave a reception to all of the officers and doors were thrown open to us, all over the town. There are about five thousand inhabitants here. There are also three moving picture theatres and several up-to-date stores. Most of the town is built low like the greater number of southern and western towns.

Everyone seemed to enjoy the journey. We were made comfortable in every way but we didn't see any state like "Old Delaware." We were all glad when we got out of Missouri and Arkansas as they were about the most uninteresting places we ever saw. We stopped near Chester, Ill. for a bath in the Mississippi. Stops were also made at Columbus, Ohio; Big Springs, and Toyah, Texas, for exercise and at Ft. Worth, Texas, for a bath at the Y. M. C. A. there. Several places in Texas the houses were 25 miles apart and we could see more land at a glance than there is in the whole state of Delaware. Jack rabbits "as big as mules," prairie dogs and coyotes ran in every direction as our train passed. For miles we could see nothing but low mesquite bushes and cactus, and as we neared New Mexico, low hills began to change to mountains.

We slowed up as we passed through each town and we were usually greeted with cheering mobs and pretty girls. It became a favorite habit of dropping addresses to the girls, and Corporal J. A. O'Daniel and Private Kuhn have already received letters containing promises of pictures and candy.

Captain Jacobs has been appointed camp engineer and will supervise the laying of the sewer and the building of permanent kitchens for each company, and all engineering work about the camp.

One of the biggest treats that we have received was the arrival of the Newark Post this morning. First we received magazines from the Post, to read while on the train, then at Texarkana, Ark., we received a telegram containing good wishes from the Post and now we are overjoyed at finding that we are to be kept in touch with Newark through you, and every man in the company has expressed his gratitude toward your paper. Some one of us will try to keep you posted each week concerning our experiences. At present every man in the two battalions is well and pleased with our new location. Thanking you on behalf of the company for your kindness to us, I am

Respectfully yours,
Sergt. G. H. Ferguson,
Co. E, 1st Del. Inf.
Deming, N. M.

Infant Smothered in Crib

Milton James and wife of Seaford, on Thursday left their eight-months-old infant Joseph lying in his crib at their home with his grandmother and returning, after an hour's absence, found it hanging from the end of the crib dead from suffocation, due to entanglement in the clothing.

Hurt in Auto Runaway

James D. Oakes, a milk dealer of 516 North Franklin street, Wilmington, was seriously injured on Saturday when his automobile suddenly started and dashed down Franklin street hill to Fifth street. He was cranking the engine in front of his home intending to give his grandchildren, Lillian and Francis Warren a ride. They were in the front of the car when it suddenly started. Seeing the peril of the children, Oakes tried to climb over the hood of the car to reach the brake but the

car struck a tree and was wrecked. Oakes' jaw was broken and he was cut and bruised about the head and body. The children escaped with a few slight bruises and scratches.

Postmaster Lynch's Slayer Dead

Dr. William A. Parker, the Lewes dentist, who on the night of July 18, shot and killed Ebe T. Lynch, postmaster of that town, in front of the latter's restaurant, on Friday night died of peritonitis

following an operation for appendicitis, performed in the Court-house to which he was removed from the jail, where he had been confined since the night of the shooting. On Tuesday night he was seized with cholera morbus after eating lima beans and corn heartily at dinner. On Wednesday he seemed to have recovered but on Thursday he was taken with violent pains, and it was thought appendicitis was developing. Dr. Dick, of the Salisbury Hospital, was called and with Dr.

Chipman operated upon him in the Grand Jury room. Peritonitis developed and terminated fatally. His wife was present when he died. His body was removed on Saturday afternoon to Philadelphia for interment.

Lost Man Thought Drowned

Russel Brooks, colored, of 8 East Front street, and Alfred Moore and wife of 225 Tatnall street, Wilmington, strolled to the Fourth street wharf on Friday night. While there the men fell overboard during a friendly scuffle. Moore swam ashore but Brooks failed to show up or cry for help. Several men grappled for his body along the river on Saturday but it was not located.

Road Supervisor Missing

Thomas Casey, 65 years old, road supervisor for Brandywine Hundred, has been missing from his home since last Tuesday when he went to the Court House in Wilmington to present some bills to the Levy Court. He was seen about the building but failed to return home. At the request of relatives and friends the police are seeking trace of his movements.

A Few Words About Men's Clothing

There are a good many men who open places which they call "TAILOR SHOPS," even though they do not know how to build up a suit.

All they do is to get a line of samples from a company and a description of how to take your measurement.

All they do is fill out an order blank of waist, chest measures, etc. These orders are sent to the company and made in the factory just like L. HANDLOFF'S ready-made suits, which you pay for the so-called "Tailor-Made Suit" \$20, \$25 and \$30; when you buy at L. HANDLOFF'S you get them for \$10, \$12.50 and \$15. With GUARANTEE for quality, good workmanship and perfect fit.

When going into business start a TAILOR SHOP

When buying a Suit of Clothes, go to

THE WOMAN'S PARTY

Editorial from The Wisconsin State Journal, June 8, 1916.

"When half a dozen states have granted women the right to vote then we will have both precedent and a balance of power to get an amendment to the federal constitution. It is the only way."—Susan B. Anthony.

Three great national political conventions are being held in Chicago this week. And the greatest and most significant of these is the least noticed. It is the convention of a new national party dedicated to an issue that will be considered by the experienced politician in the Republican and Progressive conventions.

A new party is born; it is the WOMAN'S PARTY. It is composed of American women who now have the right of suffrage and who propose to use their vote to enfranchise their sister citizens.

There are over four million women voters in America today. Over half a million women voters at the outset affiliate with this new party with a campaign fund of not less than half a million dollars already pledged. This party means business. It's right that the women should mean business. If the right of citizenship is earnestly coveted, if their patriotism be deep rooted, if they be honestly earnest in their eagerness to serve their country with their ballot, then they should demonstrate that patriotism thru political organization, for that is the way the men of America have demonstrated their political convictions since the dawn of this republic.

At the open mass meeting of the WOMAN'S PARTY in the Blackstone theatre Tuesday night the representatives of the various parties were invited to tell the women of the Congressional Union who are following in the footsteps of the sainted Susan B. Anthony, and who effected the organization of the WOMAN'S PARTY, what the established position of their respective parties is or will be toward this fundamental issue of citizenship.

Mr. Polling, representing the Prohibition party, made a consistent plea for the alliance of the WOMAN'S PARTY with his party because it had never failed to endorse the woman suffrage cause in more than forty years.

Mr. Benson, representing the Socialist party, made a silly, weak and inconsistent argument, declaring that the principles of Socialism were of infinitely more importance than the primary principle of who should and who should not be given the ballot. His talk was sheer nonsense.

Ex-Governor Osborne of Michigan, speaking for the Republican party, admitted that he was often ashamed of his party's lack of foresight and insight, and declared that if the Republican party had a grain of political sense left it would most emphatically endorse the federal amendment for equal suffrage.

He was followed by John Hays Hammond, who also spoke for the Republican party, and in trying to evade the issue made himself so ridiculous that the audience, which filled the theatre to standing room, only laughed in his face.

He was followed by Mr. Dudley Field Malone, who was announced to speak for the Democratic party. He found it impossible to speak for the Democratic party, so he spoke for himself. He was, of course, embarrassed because when the Democratic party comes up to the real question of democracy it is governed by prejudice rather than intelligence. Even President Wilson, who is a man of intellectual force, has been a conspicuous coward every time he has been forced to face this issue that affects the very foundation of democracy.

Mr. Pinchot and Mr. Victor Murdock spoke in behalf of the Progressive party. Mr. Pinchot was unconvincing and Mr. Murdock made the sad mistake of attempting to be funny before a meeting that was assembled to consider most seriously a grave and vital problem. Mr. Murdock's performance before that meeting was as out of place as would have been any performance of a signer of the Declaration of Independence who had attempted to be clownish at the moment that sacred parchment received the autographs of immortal names.

The WOMAN'S PARTY is the most significant development of this historical political week in Chicago. These women are earnest patriots.

Speaking as a Democrat by conviction and heritage, Mrs. Harriet Stanton Blatch, now one of the prominent leaders of the new-born WOMAN'S PARTY, summed up the significance of that inspiring conference by making the men who attempted to defend their parties look weak and ridiculous. They were all attempting to justify platforms of expediency and the consideration of issues that were purely economic or commercial and in no way affecting the most fundamental principle that lies at the foundation of democracy itself,—the issue that is absolutely essential to the cause of liberty and justice.

The WOMAN'S PARTY is born. In its hands rests the balance of power which the so-called great political parties can no longer ignore. The spokesman of the Democratic party plead with these patriotic women to be patient and polite. That is the suggestion which the crown of England had to make to the gentlemen of Boston who pitched the tea into the harbor. They were weary of being polite and patient and so they went to it, to give themselves representation in their own government.

The women who are following in their footsteps are marching to the music of inspired patriotism.

There was another woman's suffrage conference in Chicago Tuesday. It was pleasant, polite, anaemic and wholly without political significance. It was the meeting of what is left of the once noble National American Woman's Suffrage Association. Its president, Mrs. Catt, has denounced the WOMAN'S PARTY and the Congressional Union as being suicidal to the cause. We make no apology for the pun,—the remark was cattish. She charges the Congressional Union and the WOMAN'S PARTY with being more interested in plan than principle, assuming that her organization is more interested in principle than plan.

The principle that forced the builders of this nation to fire the shot heard round the world and to sign the Declaration of Independence was made real only because it was put thru upon a definite and a constructive plan.

The pleasant endorsement of principle means nothing. More-over her contention that this cause should not be dragged into partisan politics evidences the great want of political reasoning and the absolute absurdity of her kind of ineffective leadership. So long as our government remains a government by party, so long as issues and principles are written into party platforms, so long as we look to parties to advance principles, we must work with and thru parties to effect principles.

It was a division of principle affixed to an organized plan to further that principle that brought the Progressive party into being four years ago.

It was a principle and a definite plan to advance that principle which gave birth to the sanctified Republican party more than half a century ago.

So the National American Woman's Suffrage Association has become the anaemic tory in the great cause for equal suffrage. The WOMAN'S PARTY is the great and hallowed organized expression of determination to build this government upon a surer foundation of liberty and justice.

The WOMAN'S PARTY and the Congressional Union are following in the footsteps of that great pioneer of a purer democracy, Susan B. Anthony. Mrs. Catt and her followers have abandoned that high inspirational leadership.

Where will the women of Wisconsin go? They must choose between allegiance to the Congressional Union that is battling for the direct method of federal amendment, or they must remain in the reactionary camp of Mrs. Catt. How will they choose?

The Republicans of Wisconsin today do not enjoy being reminded of the fact that in the Republican National convention of 1860 the Wisconsin delegation voted to a man against the nomination of Abraham Lincoln. Ever since Wisconsin Republicans have been trying to forget that initial mistake. Will the suffragists of Wisconsin now re-enact the mistake of Wisconsin men of more than half a

century ago? Will they align themselves with the Congressional Union with its direct method of getting women emancipated? Will they support the work that is going straight at the job of getting them the vote? Or will they go on with Mrs. Catt's organization in state by state campaigns, pleasantly pleading with Tom, Dick and Harry for the right to vote and forever batting their dear heads against booze barrels when they bump up against the referendum vote?

HERE AND THERE

A lodge of the order of Owls was instituted in Laurel on Thursday night with 50 charter members.

Falling down stairs at her home in New Castle on Wednesday night, Mrs. George Wilhelms was seriously injured.

Members of the Middletown New Century Club gave an informal reception to their friends on Wednesday evening in their new club house recently built at a cost of \$6500.

Clarence M. Campbell, a Delaware Railroad fireman, fell from his engine at Townsend on Wednesday. He was cut about the head and face and several of his teeth were knocked out.

Miss Bertha Sapovitz, of Philadelphia, has been placed in charge of the Suffrage campaign in Delaware by the Women's Congressional Union and has begun the work of organizing Sussex county.

Adjutant General Wickersham is strongly urging recruiting for the Organized Militia of Delaware now at Deming, New Mexico, the two battalions of which need 604 men to reach their full quota for the Federal service.

Farmers around New Castle are reported as finding less damage to wheat from rains and humidity than they had feared might result.

The late Rowland Sharp, a successful farmer of Cedar Creek, left a personal estate totalling nearly \$50,000 in values.

Clerk of the Peace H. A. Brown of Wilmington, has sent to State Treasurer Swain a check for \$63,515.21, the total paid for State licenses during the past two months.

Henry R. Isaacs, chairman of the New Castle County Democratic Committee has set the primaries for choice of county ticket and State convention delegates for Saturday, September 2.

The steamer Massapequa with nobody on board sank on Wednesday at its moorings in the Christiana, near the Government pier. The dredge Minquas tried to float her but was unsuccessful.

The Wilmington and Philadelphia Traction Company has announced its purpose to pay all its employees who are members of the State Militia.

James Wilson, aged 16 years, escaped with slight bruises when he fell 40 feet from a building at Henry Clay, near Wilmington, last Tuesday.

Seaford canners find the tomato acreage largely increased in that section but the crop will ripen later this year than usual.

Georgetown's proposed concrete streets will await the result of a bond issue, an enabling act for which will be sought at the next session of the Legislature.

Extensive improvements to the Pusey & Jones shipyard in Wilmington have begun and their completion will greatly enlarge the plant's capacity.

The bell removed from the old City Hall in Wilmington has been recast in Troy, N. Y., and will be given to the Phoenix Fire Company in exchange for the Tannal bell hung in the tower when the building was erected and loaned to the company in 1878.

The horse of Max Rolls, of Dohrsville, near New Castle, was found one day with a five inch knife gash in its shoulder. Frank Subosz, aged 15 years, was charged with cutting the animal but Justice Nickerson dismissed him after a hearing.

Tax Collectors Rice and Dolan of Wilmington report receipts totalling \$461,000 during July.

337 marriage licenses were issued at Elkton during July. The highest previous record was 335. The festival held at the grounds

of Union Hospital, Elkton, for its benefit, on the nights of July 29 and 31, netted \$96.50.

Thomas Reynolds, a farmer of the Rising Sun section of Cecil county, was thrown from his wagon when his horse ran away, one day last week. He was found unconscious with two ribs broken.

Friends of members of Company E, First Regiment, M. N. G. of Elkton, have sent to the boys at Eagle Pass, Texas, by parcel post about 200 lbs. of smokers' supplies.

About 35 Boy Scouts from Wilmington camped along Elk River during the week.

A small black powder grinding mill at the Brandywine yard of the duPont Company, exploded on Friday night. Nobody was injured and the loss was slight.

Arrested twice within a week Oliver Collins when searched in the Georgetown jail on Wednesday was found supplied with three steel saws, a pipe wrench and other tools.

A stone thrown by a playmate struck Paul, the 9-year old son of Joseph A. Glynn, of 220 North Connell street, Wilmington, in the head, one day last week, causing brain concussion and spinal meningitis and there is but faint hope of his recovery.

County Comptroller Clark has reported to the Levy Court that during the past six months county constables had turned over but \$67 in fines although Justices of the Peace had imposed a total of \$464.25. The matter was referred to the Financial Committee and Attorney Speakman.

The Paulist Fathers who owned properties below Rehoboth Beach have sold them to the Y. M. C. A. of Baltimore and have secured other holdings along Lake George, New York.

A Wonderful Feed
NO MIXING NO BOTHER
Will positively produce more milk than any other ration either home mixed or purchased, and do it without giving your cows constipation or udder trouble. Ready to use right out of the sack without any mixing or bother.
Larro-feed
Absolutely free from adulterants and fillers. Just like the feed you would mix for yourself, is a special combination of choice cottonseed meal, dried best suet, gluten feed, corn distillers grains, wheat bran, wheat middlings and a little salt, that's all; each ingredient weighed by automatic scales and all thoroughly mixed in huge power-driven mixers, so that it is always absolutely uniform, and always good. An extra quart or two of milk daily from each cow may turn a loss into a profit. Try LARRO-FEED for more profits. Sold in a bag of "money back if you are not satisfied."

HARVEST

is nearly over and a hard year it has been.

Scarcely a days rest, before the fall plowing will begin. The best farmers like to start early so that the ground can get settled as much as possible before seeding time.

The Wiard and Syracuse are the big words when the farmer thinks of plowing. If you have to have a new plow this fall, inquire of the best farmers you know. Invariably, then you will come to us for one of these makes.

Repeated tests, wear and tear, light working---all decide on the Wiard or Syracuse.

We keep a full line of parts ready. You don't have to wait the delay of ordering.

TURNIP SEED

Now is the time and before the ground gets too dry, plant that patch of turnips. We have a fresh lot of seed all ready for you.

AUGUST 9, 1916

REGISTRATION DAY

Next Saturday, August 12th is the last registration day before the state primaries. Delegates are to be elected to go to the State conventions, where the party will make nominations for United States Senator, and the state officers. As we have repeatedly said, here is where the power of the rank and file voter can be shown. This year, this can be made especially effective. Without doubt, there will be contests in several of the districts. Every voter should very carefully see to it that he gets registered next Saturday in order that he may take part in the selection of those delegates. Then, it is imperative that he see to it that those delegates represent and vote accordingly. This is no time for hedging. As a voter, we want to know for whom this delegate is going to vote at the convention. The excuse, "it will depend on conditions at the convention," will not suffice. When we meet at the primaries and elect these men to represent us, we want the assurance that it will be done.

At the last convention it was not done. The delegates at that convention did not represent their constituents. The trick was planned secretly and sprung on the Convention. Had it been known what those delegates planned to do, they would never have been sent there. So secret are the workings now, we can expect some attempt at repetition. The duty is imperative on every voter to see just what the delegates propose to do. No Republican ambitious to go as a delegate, who has the interests of his state and party at heart will hesitate to say openly just where he stands. Only by demanding such statement can the voter be assured that he is voting for a man who will represent him. If the voter realized his importance and power at this time, there would be no need for further registration. Just now, more than ever before, every citizen has a duty that equals his duty on election day.

Get registered, vote for men who will represent you at the Convention. Have a voice in the candidates of your party.

MAKE CO-OPERATION THE SLOGAN

It is doubtful if Council has had a more important meeting than the one on Monday evening, as reported in another column of this issue. The action taken to make Newark realize its possibilities is of more than ordinary moment. Carried out with persistent determination, Newark will stand unequalled on the peninsula. The campaign, which will open at the public meeting, is fraught with untold possibilities. Proud as we all are of Newark, we can scarcely realize what we can become. To be a complete success will involve a hardship on some of us. A certain expense will probably be necessary. But realizing the possibilities, we believe we express the opinion of the majority that co-operation will be the slogan. We hope those in power will make such an appeal, after which they will continue by strong action.

OUR VIEW OF IT

A newspaper man who has control and personal supervision of his thought and judgment, and at the same time has the pleasure of working for a living, has scant time to waste in answering critics who condemn the publication of a truth which affects the very life of every citizen of the town. To run down these criticisms, with their attending false statements, is something for which we have neither time nor inclination. We recognize that our attitude at times, causes a temporary loss of business. We feel, at times, a sting, a resentment at the questioning of our honest opinion. But the issue as presented last week, leaves us cowards if we had done otherwise. We learned from the Board of Health that "a slight contamination" had been found

road in Pencader Hundred from January the first, of this year? In this we should like to have a statement of these expenditures and to whom they have been made. This is very pertinent information in which all tax-payers are interested.

Conditions existing now will make this especially timely. Signed _____ Tax-payer.

Lively Suggestions About Our Shade Trees

To the Editor of the Post, Newark, Delaware.

Dear Sir:

In a number of recent issues of the Post I have noticed articles on beautifying the town. Is it not true that aside from Wilmington, Newark has more visitors during a year's time than any other town in the state? If this is true, would it not make every man, woman and child's heart give an extra thump to have all and each of these visitors comment favorably on our trees and shady streets, as well as on our beautiful college buildings, fine residences, good streets and our other points of interest?

In one town the writer has in mind, the streets are lined on both sides with tall stately linden and elm trees which grow to considerable height and meet in the center of the street, forming an arch. No matter how hot or sunny the day, a walk on these streets is always a real pleasure.

During the past twenty years, a number of trees in Newark have been destroyed and no effort made to replace them. Would it not be feasible for Council to take this matter up and have trees planted on the curb line or at such place as might be decided upon, sixty or seventy-five feet apart on every street within the town limits? A Tree Commission, such as is appointed in a number of other towns, could be appointed including such experts in this line as are in Newark and who would volunteer their services. I believe Council would be willing to cut the street or curb if necessary and prepare the ground preparatory to the planting of the trees.

If a house to house canvass were made by a person who was a good mixer or a good talker and of pleasing personality, I believe every property holder or resident

would be willing to pay for the trees in front of his property, and if he would not, let others who are public spirited enough to do so pay his share.

Or, probably it would be well to hold a carnival similar to that held by the firemen, and raise money for the purchase of the necessary trees.

However, such details could be worked out if properly handled, so as to get every person up on his toes and working. This would require only a small amount of work, if all were properly enthused and if all pulled together. It would also show who's who and the amount of civic pride possessed by various moss-backs and others.

After five or six years, or when the trees had grown into the telephone lines, these wires could be replaced by a lead sheathed cable, which would be about 1 1/4 inch in diameter. The power and light wires would not be injured by the trees, nor would they interfere with the operation of the lighting system. On the other hand, if the wires were bare, they would occasionally burn twigs off the trees. In case this burning injured the trees to an appreciable extent, the bare wires could be replaced by insulated wire at a very small cost, as copper does not deteriorate appreciably and can always be scrapped at a figure slightly below the cost of new insulated wire.

A number of our streets are now without shade trees, and on Main street there are stretches of several hundred feet without trees. If a tree-planting campaign could be successfully carried out, I am sure that we would all feel proud of our town, and that we would all feel honored to have had a hand in this work. I would suggest that The Post call for two or three men who are big enough to Daddy this job; to start things, and then to keep them moving.

Signed, _____ Interested.

SQUIBS

Along with the Elephant, the Jackass, and the Bull Moose, we now have another issue. Shall the Women's Party be a little deer or a chicken. The way things are moving the Antis will probably adopt the stool pigeon.

A friend in Company E out in New Mexico writes us a postcard—"Send the Board of Trade out to Deming. They will show them how to do things."

The Board of Trade as an organization does not want to know how. They are playing the game as individuals.

"The last issue of the Post was a disgrace to the Community," is the comment of a conspicuous citizen. We admit it. Yet, why blame the Post? It told the truth.

A politician is a man who works himself to death trying to get a job with nothing to do. A local example, for instance, is—there the pencil broke.

An Upside-down Country

One correspondent from Deming announces, "One of the difficulties of the cooks is to get wood. It is shipped in from hundreds of miles away in box cars. Vast quantities have been piled up at Columbus. Dried roots of the mesquite bush is the only wood in this region. Mountain springs furnish the only running water in may sections. This led a cook of the second regiment to voice his opinion of the country. 'It is an upside-down country,' he said. 'You have to dig for wood and climb for water'."

PERSONALS

Physical Director and Mrs. W. J. McAvoy left Monday for a trip to the home of Mr. McAvoy's parents in Wilkes Barre, Pa., by automobile. They will stop at South Bethlehem and Delaware Water Gap. After their return to Delaware they will spend a week at Rehoboth.

Mr. and Mrs. Ernest B. Wright and son, spent the week-end with friends in Harrington.

Mr. and Mrs. F. T. Grier of West Chester, Pa., visited the former's sister, Mrs. Rebecca Wilson, on Sunday.

Mrs. Elizabeth H. McClurg, Dr. and Mrs. Hall and daughter Adrienne, of Oxford, Pa., visited Newark relatives on Sunday.

Mr. Ralph Osmond of Concordville, Pa., visited his parents, Mr. and Mrs. Amos Osmond, last week.

Mr. Gilbert Chambers and family left this week for a motor trip which will include Old Point Comfort, Va.

Miss Virginia Lett of Philadelphia has been spending a week's vacation with Mr. and Mrs. E. Ernest Kemble of Cleveland Ave.

Miss Jean Longfellow leaves this week for a visit with friends in Chicago.

Mr. and Mrs. S. J. Wright, the Misses Wright, Misses Cornelia Pilling and Edith Spencer are at Galen Hall, Wernersville, Pa.

Mr. and Mrs. J. P. Wright leave this week for a trip through the west terminating at San Francisco.

Mr. and Mrs. Herbert Renshaw and son of Wilmington are the guests of Mr. John Chambers and family.

Professor G. E. Dutton and family are the guests of relatives in Seaford, Del.

Dr. W. O. Sypherd of the English department, Delaware College, is spending the month at Cambridge, where he is engaged in research work in the Andover Theological Seminary and Harvard libraries.

Miss Marian Butterworth is spending a vacation at her home, Revere, Mass.

Mr. L. W. Tarr is spending some time at his home in Rockport, Mass., where he is entertaining for the week, Mr. W. A. Lintner, recently of the D. C. Experiment Station staff.

Mr. M. L. Nicholls, of Linden Center, Vt., who succeeds Mr. W. A. Lintner as assistant agronomist at the D. C. Experiment Station, has assumed the duties of his office.

Mr. Frank A. Carroll, dairy husbandman at the College Farm, is in the White Mountains.

Miss Robinson, Dean of the Women's College, left last week for Vermont, where she will spend the month of August.

Mrs. Edward Herbenor, Mr. and Mrs. Orville Richardson and Miss Edna Chalmers are spending the week at Betterton, Md.

Miss Elsie Grier is visiting relatives in Philadelphia.

Mr. C. C. Hubert, manager of the Newark Opera House Co., has returned after a vacation at Milton, Pa. The moving picture performances, discontinued for two weeks during the Firemen's Carnival, were resumed last Saturday.

Mrs. C. C. Hubert and children have returned after a three week's stay in Washington, D. C.

Mrs. J. H. Hossinger and children are spending some time at McDaniel, along the Miles river, about county, Maryland.

Mrs. Rebecca Gilpin is convalescent after a two weeks' illness.

Miss Anne Cahall has returned to her home in Bridgeville after a visit with Mrs. J. P. Wright.

Mr. William Barrow is spending a week's vacation along the Susquehanna River at McCall's Ferry, Pa., and Conowingo, Md.

Miss Ruby Robinson has returned after spending several days with her cousin, Miss Marie Robinson in Wilmington.

Mrs. Ralph Barrow and children are spending two weeks with friends at Jersey Shore, Pa.

Mrs. John Whirlow and son have returned to their home in Chester after spending several weeks with the former's mother, Mrs. Robert Montgomery.

Miss Alice Major and Miss Grace Frances of Philadelphia are spending a two weeks' vacation with the former's mother, Mrs. David Major.

Mrs. J. Pearce Cann and son Jack, have returned after a visit with friends in West Chester.

Mrs. Harry Chambers and daughter Elizabeth, of Balboa Heights, C. Z., Panama, are spending some time with the former's parents, Mr. and Mrs. W. H. Barton.

Miss Edna Lilley has joined a party of friends in the Adiron-

dacks, where they will camp for several weeks.

Miss Rebecca Cann is visiting relatives at Kirkwood, Del.

Professor Mary E. Rich, of the Women's College, left Saturday for a vacation at her home, Hometown, Wisconsin.

Miss Edwina Long leaves Friday with a party of friends from New Jersey and Wilmington to camp near Lenape, Pa.

Miss Eleanor E. Todd left today for a vacation at Asbury Park, N. J.

PLEASANT HILL NEWS

Mr. and Mrs. H. A. Mousley recently entertained Mr. and Mrs. T. E. Dempsey and Mr. and Mrs. Harry Wirt and son Harry of Hockessin.

Mr. Alban Buckingham, Sr., and family entertained on Sunday Mr. and Mrs. Lewis Lee and son Elmer of Strickersville, Pa., and Mr. Wm. Harkness.

Miss Elva Dempsey has been visiting Miss Bessie Jones of Wilmington.

Mrs. F. L. Vansant and daughter Elva were Sunday guests at the home of A. T. Buckingham and family.

Mr. H. J. Davis and family entertained Mr. and Mrs. Eli Davis and daughter Mabel, and Miss Nelle Garrett on Sunday.

Mr. and Mrs. Warren Buckingham had as their Sunday guests Mr. and Mrs. Lee Lewis of Newark.

Mrs. George MacNamee and children of Chester have been visiting Mr. J. T. Dempsey and family.

Miss Alma Little spent a few days the first of the week in Wilmington.

Mr. and Mrs. A. J. Whiteman has been visiting Mr. and Mrs. Wm. Trayer of New Garden, Pa.

Rev. and Mrs. J. W. Gray and Mr. and Mrs. Harry Bishop and son Oliver, spent Sunday evening at the home of Mr. Alban Buckingham, Sr., and family.

Mrs. Jos. Eastburn has been visiting her daughter, Mrs. Harvey Wollaston, of New Garden, Pa.

Pastor Preaches In Philadelphia

There will be no services at the Head of Christiana and Christians churches this coming Sunday, owing to the absence of the pastor, Mr. Van Oeveren will preach on August 13, at the Beacon Presbyterian church, Philadelphia.

The annual picnic of the Sunday School, to be held on the church lawn, has been postponed until August 24th.

Campfire Girls Enjoy Launch Trip

The Welsh Campfire Girls, with a number of friends, motored in a launch from Elkton to Otts' Shore on Tuesday. The party spent the day there bathing and boating, and returned in the evening. On the return trip excitement followed excitement. First the engine stopped, and the boat was rowed to shore. Everyone walked to Elkton and came home on the cars.

By means of a box social money was raised for a tennis court, which has been put in order and the girls are practicing at their weekly meetings. Plans are being made for a series of socials and entertainments in the near future.

BOY SCOUTS GO TO CAMP CAESAR RODNEY

Report Pleasant Two Weeks On Carnival Duty

Troop 2 of Newark will enter Camp Caesar Rodney next Saturday, August 12, in command of Senior Patrol Leader Clarence W. Evans. The following Scouts will represent the Troop at the Camp: Clarence Evans, in command; hospital steward, Joseph Willis; Quartermaster, Earl Lindell; Scout Scribe, Cleaver Price; Corporal, Harry Rossland; Corporal James Longfellow, Bayard Lindell, Earl Evans, Frank McBride, Herman Wollaston, George Chambers, Robert Hayes, Earl Ramsey.

Our Troop under command of Scoutmaster Tarr was on guard and police duty at the Firemen's Carnival grounds from July 20 and remained on the ground both day and night until the end of the Carnival.

On Thursday we had hardly our shelter tents pitched when it started to rain, keeping it up all night. After that night it rained every day and night for exactly 14 days. The camp and carnival grounds were a perfect sea of mud. On Friday night it also rained.

On Saturday afternoon the troop, in command of Scoutmaster Tarr, led the Firemen's parade. Saturday night they slept in the Armory as the beds were afloat in three inches of water. Details of guards left the armory at different hours of the night for guard duty. During one of the watches a couple of plain drunks got into the motion picture tent and began playing the piano and the guards told them to leave. The whistle was blown for help and six Scouts responded. When the drunks saw them, one said, "Hey, wake up, Bill, the whole damned army is back from Mexico."

The hospital corps had a few cases of cut hands, etc. The policemen were called several times by the Scouts at the Jitney parking place.

We wish to thank the Carnival people for the numerous midnight treats of ice cream, sodas, rolls and water melons we received. They sure were appreciated.

Altogether we had a pleasant two weeks. Chief Wilson presented us with a neat sum for our troop treasury.

Cleaver Price, Scribe.

Engagement Announced

Mr. and Mrs. John D. Lett of West Philadelphia announce the engagement of their daughter, E. Virginia Lett, to Mr. Louis W. Scanlon, of Philadelphia. Mr.

Scanlon was formerly a resident of Newark, and is a nephew of Mrs. Edna Willis, Delaware Avenue.

College Men At

Grange Picnic

Dr. S. C. Mitchell, and Dean Hayward on Tuesday attended the Grange picnic held at the farm of State Master F. C. Bancroft, near Camden. There were three hundred present at the all-day meeting. Dr. Mitchell was one of the principal speakers. Worthy Master Bancroft has one of the show farms of the state. It is not only a show place but one of the most profitable farms in Delaware. A recent issue of the Country Gentleman gave a detailed statement of the labor income of Mr. Bancroft's farm for the last two years. This income during 1915 was \$8,000.

Groves Among The Hills Benjamin A. Groves, just now in the lime light, was a visitor out here among the hills on Sunday. In fact Mr. Groves is a frequent visitor just at present.

Sunday School Festival At Christiana

The Sunday School of the Christiana Presbyterian Church will hold a peach festival in Webber's store, on Saturday evening, August twelfth.

RED CROSS ASKS FOR CONTRIBUTIONS

All Delawareans Included in the Call

The Military Relief Committee of the Delaware Chapter of the Red Cross Society has opened headquarters in a tent on the Court House lawn, Wilmington. The tent was erected by the State Military authorities as a recruiting office but since the work of the Military Committee is for the comfort of the soldiers, Adjutant General I. P. Wickersham felt that any assistance he might give the committee would help show the appreciation of the men on the border.

Two large boxes were placed outside of the tent on Monday, in which the public may place contributed articles intended for the soldiers. One box is for magazines and books, while the other

will be for the various luxuries which are not afforded the militiamen in camp.

Such articles as chocolate and hard candies, instantaneous coffee, canned fruit, comfort bags, soap, tobacco, cigars and cigarettes, pipes, stockings, towels, etc., will be appreciated by the committee. These articles may be dropped in the two containers or they may be sent to Mrs. H. Fletcher Brown, at No. 808 Franklin street.

Word has been received from Washington that the Secretary of War has approved of the work of the Military Relief Committees in the various states and that all shipments to the soldiers from this source will be at public expense.

In nearly all cases a personal visit was made by representatives of the company to the home of each family or dependent. The payments decided upon, in every instance, have been based on actual needs thus ascertained.

The inquiry showed that about 300 of the Pennsylvania Railroad men under arms have families or other dependents who will require relief during the absence of the employees from their regular work. The needs of all of these are being met.

In addition, the Railroad is paying the dues of every member of the Voluntary Relief Fund who is at the front, thus fully protecting his disablement and death benefits in his absence.

Several men, whose families will receive relief, had been on the payroll of the Pennsylvania Railroad less than a week when their regiments were ordered to Mt. Gretna. One man had worked only three days for the railroad. In a number of other cases the length of service was less than a month. In many instances, also, the employees were not members of the National Guard, but voluntarily enlisted after the call of the president.

The railroad is making no distinction, in such cases, between any of its employees, but is giving relief wherever needed, no matter how short the period of employ-

ment has been or what the circumstances were in connection with enlistment.

CHANCE FOR THE FARMER'S BOY

DuPont Company Offers Prizes

The DuPont Company has just announced something entirely new in the agricultural line, that is a land reclamation contest. Many farmers are too busy with their present fertile land to bother with the waste acres, hence this contest is surely the boy of the farm's opportunity.

The idea of the contest is for the farmer to look over his farm and pick out the bad spots, then turn one acre of it over to his son, or another interested boy, and let him improve it.

The main points of the contest are, to clear the land, improve the soil and then raise a crop. No special crop is specified, the only restrictions in the contest being that the work on the one acre must be planned and done or supervised by the boy himself.

The country has been divided into five sections: the North Atlantic States, the South Atlantic States, the North Central States, the South Central States, and the Western States. The first division includes Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Ohio, Virginia, and West Virginia. The prizes offered in this division are, first, \$50; second, \$30; third, \$20.

Besides these prizes the company will present each contestant receiving honorable mention, with a one year's paid subscription to any farm paper published in the United States—the contestant to choose the paper.

The following conditions govern the contest:

The du Pont Land Reclamation Contest for Boys will start officially at once. All entries must be received not later than January 1, 1917.

The contest will close December 1, 1917, and all reports must be in the hands of the du Pont Agricultural Division, Wilmington, Delaware, before December 1, 1917.

Each entry blank provides for the official entry of only one (1) acre (43,560 square feet) of ground. If a great number of acres are entered by any one contestant a separate entry slip for each acre so entered must be sent in.

Reports and records of each acre entered by a contestant will be required. Special blanks are provided for this purpose and will be sent upon receipt of entry blank.

In returning report blank for final award each report must be verified by the county agricultural agent or two neighboring farmers, not relatives.

"Pennsy" Takes Care Of Soldiers' Families

Distribution of the funds needed for the relief of the families and dependents of Pennsylvania Railroad employees who have been called into military service on the Mexican border will commence on July 31st. Vouchers covering the initial payments have been issued from the office of the Treasurer and will be in the hands of each General Superintendent in time to reach the beneficiaries on Monday, or early in the week.

The first installment of the relief will cover the month of July. Thereafter, payments will be made semi-monthly, as in the case of wages, and in all instances will be placed directly in the hands of the wife, mother or other beneficiary. This duty will be performed by employees designated by the various superintendents. The payments will be made out of the fund of \$100,000, set

aside by the Board of Directors for this purpose.

To insure the proper distribution of the relief money, an individual inquiry was made in the case of every one of the more than 800 employees of the Pennsylvania Railroad who are now at the front. This inquiry was conducted under the direction of the various Division Superintendents.

FIRST HAND EXPERIENCES IN MEXICAN CAMPAIGN

Told In Letter To Mayor Hossinger

Mayor J. H. Hossinger has received a letter from Captain George B. Rodney, of the 10th U. S. Cavalry, which gives interesting sidelights on the lot of the soldier on duty in the Mexican campaign. Captain Rodney was adjutant in the First Delaware in 1898. He is also a graduate of the Army School of Leavenworth, Kansas.

In speaking of the chase after Villa, he says: "We rode one hundred thirty miles in two days. Villa being ahead of us we cut loose from the wagons and, with absolutely nothing but the clothes we stood in and ten days' bacon and hard bread in our saddle bags, we trailed after him. We never saw even bacon, coffee, or bread, from the eighteenth of March to the twenty-ninth of April. We looted corn for our horses. Some days they would get nothing at all and rarely more than four quarts any day. For ourselves we took corn and ground it into a rough meal in hand mills found on the ranches. Beef killed on the hoof and beans were our daily fare. I never want to see a bean again.

"For bedding we had only a saddle blanket and our shelter tents. It was damnably cold when it snowed or rained as it did several times. Strange to say we did not have a single case of sickness, and came back trained to a finish. We had only two little fights, if we except that miserable Carizal affair in which two troops of my regiment were badly cut up."

Mayor Hossinger has also had a letter this week from Roger Owen Mason, captain in the Fourth Artillery, now in Mexico.

Continental In Line For Championship

The Continental boys demonstrated last Saturday that they still were in the running for championship honors when they easily defeated the strong Yorklyn A. C. by the score of 3-0. The visitors never had a chance with Crowe pitching in great form, allowing only one scratch hit in the 7th inning. Continental pushed three runs across the plate in the first inning and won the game. Roberts was safe at first on McMahon's fumble and later scored when Topper misjudged Moore's liner which went for two bases. Gray was safe when McMahon threw wild to first and Gray scored on Tasker's double to left. Continental missed another good chance to score with the bases filled and two out in the 7th but R. Bidden scooped a hard grounder and retired Herdman at first. Tasker was in the limelight with the stick with three hits including a double in the first inning scoring one of the runs. The fielding of Gray and Herdman was fast and worthy of note.

Saturday, Aug. 12, Continental will play the strong Hockessin A. C., now under the management of Scott Gregg. Gregg is well known among Newark fans and he has together a very fast team to bring down Saturday. A great game is in store, so turn out and help the boys.

Continental got sweet revenge for the double defeat handed them by Yorklyn, July 4th. Yorklyn will probably be here Labor Day for a double header.

The Continental boys deserve better support from the public than heretofore considering the

class of ball they have been playing during the last several games.

VOTES FOR WOMEN

Pertinent Points

"Friday the Thirteenth" may have been an unlucky day in the book of that name. I never read it, so don't know, but Friday the fourth, was certainly quite the opposite. Although uncomfortably warm, the members of "The Congressional Union for Woman Suffrage," appeared on schedule time at the horse house.

The small size of the gathering did not check our enthusiasm in the least. Three new members were added to our number. Points brought out (1) Although in 1911, in a speech, Mr. Wilson (he had not then become president) declared that though the Federal government had a right to regulate interstate commerce, it had not one whit of authority to interest itself in the passage of the "Child Labor" bill. This opinion he has steadfastly clung to, maintaining that any action on the part of the Federal government would be an interference with the rights of the states. He has now turned such a complete somersault that he went into the Senate caucus to insist that the "Child Labor Bill" be passed before Congress adjourns. Politics, politics and then some more politics!

(2) "A majority of us (all women) now present, are tax-payers."

(3) "A lady and her little girl were walking on the street. The child's right hand rested securely in her mother's but the left, dangling loosely, came in contact with a broken electric wire, by means of which both child and mother lost their lives. Is this not an excellent illustration of the dangers surrounding the children when they go from the care of us mothers into the world? The parents are both the law makers in the home—outside, only the one. On "Farmers' Day," about 1000 circulars were distributed to visitors. Boys are now covering the town.

"The Chamber of Commerce" of Colorado Springs (where the first conference of the "National Woman's Party" will be held) has invited the national executive committee of the "Woman's Party" to be their guests on an auto drive to "Pike's Peak." The cars used for the climb will be decorated in the purple, white and gold of the "Congressional Union" and when the summit is reached, the purple, white and gold standard of the "Congressional Union" and the "Woman's Party" will be run up a flag-staff with all the proper attendant ceremonies. Mrs. Hilles will be one of the guests.

Laura C. Pollard,
Chairman for Newark.
