

The Newark Post

VOLUME XIII

NEWARK POST, NEWARK, DEL., FEBRUARY 15, 1922.

NUMBER 3

Parent-Teacher Body a Newark Reality

Like Other Towns of State We Now Have Work- ing School Body

A splendid start in a co-operative movement for the good of the schools of Newark was made last Friday evening with the organization at the High School of a Parent-Teacher Association for the Newark School district. The meeting was called to order by Miss Etta Wilson, President of the Newark High School Alumni Association, and the object of the Parent-Teacher Association as defined in the State Constitution, stated: "to serve as a channel for the distribution of correct information regarding better homes, better schools, better opportunities for the children of Delaware, and to co-operate with all organizations working to secure these things; to assist Boards of School Trustees in securing the widest possible use of public school buildings to the end that good citizenship may be developed and the youth of our State and Nation safeguarded."

Officers were elected as follows: President, Mrs. C. O. Houghton; vice-president, Mr. William E. Hayes; secretary, Miss Anna Gallaher and treasurer, Mr. C. C. Hubert.

The co-operative spirit of the meeting was demonstrated by the appointment of the Executive Officers of the Newark High School Alumni Association as the Program Committee, and by the adoption of the first fixed time for P. T. A. meetings. Formerly "first Thursdays" were meeting nights for the Alpha Chapter of the State Teachers' Association and the adoption of this evening as the P. T. A. night signifies a joint program with the consequent added enthusiasm.

Genuine interest in all things relating to the local school marked the evening. The new President immediately after her election, took the chair and presented the subject of committees. Among those appointed were one on membership with 100% enrollment as its object, which means one member from every family residing in the school district; a second on publicity, to keep facts relating to the local school before the community; and a third, to visit the school and bring to the support of the teacher the backing of the mothers of the community in the solution of problems relating to moral conditions that, during the last few years, seem to be assuming alarming proportions in the American public schools.

Dr. W. H. Steel appealed to the parents of the community to back up the work of the teaching staff and the Board of Education in bringing the scholarships of the school up to the required standard. Dr. Steel stated that his remarks would relate particularly to conditions in the High School. "The recent announcement of grades made in the mid-year examinations, has brought consternation to everyone," he said. "The Board has taken it up with the Superintendent, and the Superintendent has taken it up with the faculty, and every effort has been made to discover the source of the trouble. The extent of the trouble can best be illustrated by the following figures:

(Continued on Page Four.)

BUILDING STARTS

Looks Like Boom From Work of Contractor Greer

Spring when Charles W. Greer, the local contractor started on several new buildings the Newark thought that there was a big building boom, but when Greer starts work this year it will look still brighter.

At the present time there is a scarcity of houses around the town and persons who would move here, they find suitable quarters, are forced to live elsewhere, as there are no vacant houses to be had.

William Wollaston is to build six houses and an apartment house on an avenue and Mr. Greer is contractor on this work. Besides the buildings the local contractor is to build a Dutch Colonial on Park Place for Prof. Ransom of the University of Delaware, and this place will start at once.

Failing Students Present Problem

Board of Education Orders More Work--Basketball Team Disbanded

The Newark High School basketball team has played its last game of the season. This is a result of the Board of Education ordering that the team be disbanded. This order resulted from the fact that nearly every member on the squad failed in the mid-year examinations.

It seemed to be a popular pastime with the students of the High School "flunking" in the midyears this term, and as a result drastic action is being taken by the school authorities to better conditions. An idea of the manner in which the examinations stumped the pupils can be obtained from the report of Dr. Steel as published in the article on the organization of the Parent-Teacher Association.

The students at the school seem to realize that they must improve their work and already better studied lessons are resulting. The members of the Board of Education are now in hopes that the parents of the pupils will also become interested and see that the work assigned to be done at home is carried out.

The State Board of Education has a ruling that students may take part in athletics providing they are maintaining a passing mark in three-quarters of their studies.

The Newark Board has a ruling wherein any student that wishes to partake in more than one branch of sport must have a passing mark on all subjects or be disqualified.

Students who failed in the mid-year examinations have been demoted and must start their work all over again. Since the mid-year examinations there has been a regrouping of the students and the Board of Education has ordered that any student who does not maintain a standard mark be placed back in his former class at any time during the current term.

It is thought that with this ruling that the students will work much harder to keep their marks above reproach.

DR. HULLIHEN AT CAPITAL

Secretary Hoover Discusses Important Subject With Local Educator

Dr. Walter Hullihen, President of the University of Delaware, spent yesterday afternoon in Washington, D. C., where he was in conference with Secretary of Commerce, Herbert Hoover.

The purpose of this conference was to discuss plans for foreign study of American College students in the interest of International Trade and Commerce. The plan is one formulated by the Department of Modern Languages at the University and has secured the interest of Mr. Hoover.

TEN TRIP TICKETS

Pennsylvania Railroad An- nounces Sale of Same

Commencing next Monday the Pennsylvania and Baltimore and Ohio Railroads will sell ten-trip tickets between Wilmington and Newark, good for any holder within a period of three months, including date of issue, at the rate of \$3.

At present the single fare between the points named is 46 cents. The ten-trip rate will be 30 cents, or a cut of 16 cents a ride.

Announcement of this reduction was made today by S. P. Winslow, passenger representative of the Pennsylvania Railroad in Wilmington and by H. A. Miller, who occupies the same position with the Baltimore and Ohio.

Some weeks ago the Baltimore and Ohio announced that it would offer ten-trip tickets between Wilmington and Newark at \$2.50, or 25 cents a ride. Protest was made by the Pennsylvania Railroad and the offer was withdrawn. Today it was announced both lines have reached an agreement on the \$3 rate.

Man Carried Off from Main Street

Two Men Took Local Work- man to Baltimore Against His Will

Newark was the scene of a kidnapping last week when two men in an automobile took Harry Hackendorn to Baltimore against his will.

Hackendorn is employed at the American Vulcanized Fibre works and on last Wednesday morning complained of being ill and asked to be allowed to go to his home in Dobson Lane near Wilmington. He was given off and went to Main street to await a bus and while standing on the corner two men passed in an automobile and asked him if he wanted a ride and Hackendorn replied in the affirmative. The man claims that his head began whirling and he was in a dazed condition when he accepted the offer of the men.

The local workman says that he seemed in a daze until he reached a point about ten miles south of Elkton. Here he told the driver that he was going in the wrong direction in answer to which the men in the machine told him to be quiet; they would turn back soon. Hackendorn claims that he was again attacked with vertigo and that when a jolt of the machine aroused him he found that he was in Baltimore.

When the man got out of the machine he found himself in a strange city without funds to purchase a railroad ticket back to Wilmington and no way to notify his family of his whereabouts. In the meantime the man's wife had notified the local authorities as well as those of Wilmington and a search was started for him. Hackendorn claims that he started to walk to Wilmington and was picked up by a truck on the outskirts of Baltimore. He spent the night with the truckmen in a wayside hotel; these men paid for his lodging and meals. After he left these men he again started to walk and was given rides by several passing motorists and he managed to reach Elkton in this manner. He spent Thursday night in this place.

While in Elkton the man was again stricken and he was unable to make his way home until Saturday.

Besides his wife, Hackendorn has two small children and they had a happy reunion on his return home.

No trace has been found of the men who picked up the sick man and carried him to Baltimore. The news of Hackendorn's disappearance spread like wildfire here in Newark and it was a mystery where the man had gone until his return to his home.

Y. W. C. A. CAMPAIGN

Reports of All Workers Not Yet Turned In

The campaign conducted by the Y. W. C. A. came to a close last Saturday night. The result of the campaign cannot be announced inasmuch as many of the workers have not yet made their reports. Those in charge of the campaign feel positive that the goal was reached and full returns will be made in a short time.

The workers were surprised with the results of the campaign due to the fact that many persons that were expected to "come across big" fell down while the people who it was thought might be a "little hard to approach" responded nobly. There was hardly a person in Newark and the outlying districts who was not approached by one of the workers and it is thought that everyone has been given a chance to do his bit to help the young women of the community to get their real share of living.

When the returns of all the workers have been received it will be known whether or not the Y. W. C. A. will receive the balance of the treasury from the now disbanded Y. M. C. A. The latter body at a recent meeting voted to turn over to the young ladies a balance of well over \$100 if the goal of the "Y" workers was reached.

The following is a partial list of contributors:

Mr. and Mrs. E. B. Wright, Mr. and Mrs. J. Pearce Cann, Mrs. Frank Tweed, Mrs. Benj. Brest, Mrs. Daniel Clancey, Mrs. Chester Moore, Miss Audrey Miller, Mr. and Mrs. John Pilling, Hilda Sweetson, Daniel Thompson, Clara C. Morris, Lillian (Continued on Page Ten.)

Newark and Scarlet Fever vs Wilmington

Action of Local Board of Health Proved Valuable —City Schools Closed

Newark should be thankful for the manner in which the scarlet fever situation was handled in this town when the outbreak threatened here. When the scarlet fever seemed to be spreading with great rapidity the local Board of Health ordered that the local schools be closed and this was done for the period of two weeks, and as a result when the schools reopened there was no further spread of the fever.

Wilmington at the present time finds itself in the grip of a scarlet fever siege that seems to be growing worse instead of better. When the fever first broke out there, which was before Christmas, no action in closing the schools was taken but the cases were reported in such large numbers that in the past two weeks the schools have been closed and there is no definite date given for reopening. At the present time there is well over 100 cases in the city and mostly among the school children.

Here in Newark there was one case reported last week and another one this week, this being a lad on Delaware avenue. This case is very mild, the boy has had no fever since the first day he was taken sick and has shown no signs of peeling.

Some criticism was heard on the action of the local Board in closing the Newark schools at first, and even up to last week, but now that the local people have learned of the situation in Wilmington many are glad that such action was taken and that the spread of the fever was checked. All the cases reported here, with the exception of about one, were mild and no deaths resulted.

HIGH SCHOOL MOVES UP

Health Teacher Starts Duties and School Progresses

In the report of the State Board of Education, it is stated that Newark would be placed in the first group of state high schools when a health teacher was obtained to carry on health education at the local high school.

This teacher has been obtained and started work this week. The new instructor is Miss Gladys M. Chadsey of New York City, a graduate of Cornell and has had previous experience in New York state in both mathematics and health education, which she will teach at the Newark High School.

The health program in the High Schools is demanded by the State Board of Education before the school can be placed in the first group.

MISS MEDILL VICTIM

Latest Scarlet Fever Case; Worked for Y. W. C. A.

Newark was shocked today to learn that Miss Agnes Medill was suffering with scarlet fever. The victim is well known for her public spirited work and was one of the most active workers in the drive for funds for the Y. W. C. A. Last night Miss Medill suffered with a sore throat and today the doctor pronounced it scarlet fever. Her condition is as good as can be expected.

Miss Frances Medill, a sister, is a teacher in the grammar school.

Christiana Ladies

A special meeting of the Christiana Fire Company has been called for tomorrow night for the purpose of organizing a Ladies' Auxiliary. The ladies of this community have been anxious to aid in the work of organizing a fire company and now that the company has been formed, want to do all they can to make a success of it.

"Blues" Pay

Members of the "Red" team in the membership drive of St. Thomas' Episcopal Church, were the guests of the "Blue" team at a Valentine Party last night. The "Reds" won the drive for members and therefore had a treat on their opponents.

Government Test of Local Cattle

Tuberculosis Among Cows of Nearby Herds Being Looked After by Government

J. F. Creedon and Dr. J. R. Portens, from the United States Department of Agriculture, Bureau of Animal Industry, are now in the vicinity of Newark making tubercular test of cattle and many cattle affected with the disease are being found and destroyed.

This matter is of vital interest to everyone in Newark and vicinity for many of the cattle that are being inspected supply milk to this part of the country. This work has been going on for sometime and already over fifty head of cattle have been ordered destroyed by these Government inspectors.

Last Saturday Mr. Creedon was actively engaged in this immediate vicinity and on this day alone found several head of cattle that he ordered killed because of their tuberculous condition. In one case recently discovered the owner of a herd of cows was ordered to have the entire herd slaughtered because of its condition.

According to officials of the Government the people of Newark have a question before them much more important than pasteurization of milk, and that is the one of cows suffering from tuberculosis. One inspector said that he was of the opinion that raw milk if properly handled was much better for the consumer than pasteurized milk and that some of the milk producers of this section were producing a high grade of milk that no one need fear using.

The farms that are being inspected are owned by farmers who have entered in agreement with the Delaware State Board of Agriculture and the United States Department of Agriculture for the tuberculin testing of herds of cattle. Every farmer in the State has had and still has an opportunity to join in this work and many of them have taken advantage of the opportunity to have this work carried on. It is a profitable undertaking, for often times the Government inspectors find a cow that is suffering from tuberculosis and order it killed and in this manner many more of the animals in the herd are saved from destruction.

The question of pasteurization of milk has caused a great deal of comment here in Newark but now the people can feel safer in regards to their milk supply when they are assured of the work being carried on by the Government.

On another page of this paper are items that every farmer will be interested in pertaining to safeguarding and prevention of tuberculosis among cattle. These items are prepared by the Government.

FIRE AT CHRISTIANA

William Mitchell Loses Barn, Cow, Grain and Implements

The need of a fire company at Christiana was emphasized this morning when the barn of William Mitchell near there was burned down with a heavy loss, due to the lack of fire fighting apparatus.

Christiana has organized a fire company, but as yet they have not obtained their engine. The members were called to the fire this morning and responded in automobiles and formed a bucket brigade which was responsible for the saving of several surrounding buildings.

The cause of the fire could not be ascertained. Beside the loss of the barn, Mr. Mitchell also had burned, one horse, all his farming implements and stock of hay and grain.

Several head of cattle were saved by Mr. Mitchell after he discovered the blaze. The fire occurred about 8 o'clock. There was a small insurance carried on the barn, but not nearly enough to cover the loss which will run into several thousand dollars.

Round Table

The Round Table met in the Lounge Room at the University of Delaware. Rev. Aquila Webb, of Wilmington, was the speaker.

Local School Matters Before State Board

No Immediate Prospects for New High School—Schools Overcrowded

Vocational Training Gets Slap

At the meeting of the State Board of Education, in the Faculty Club rooms of the University of Delaware, last Friday morning, Dr. Walt Steel representing the Newark Board of Education presented problems of the local High School.

The people of Newark who have interested themselves in the local school situation are aware of the fact that the High School is overcrowded and the prospect is that this condition will become worse instead of better. It has been a thorn in the side of the local Board of Education how this trouble is to be overcome.

Dr. Steel in speaking to the State Board pointed out what the local Board was up against at the present time and it looked as though the starting of next term would see conditions even worse than they are at the present time. The local Board member said that more room was needed in the High School to take the proper care of the students. He pointed out that a number of High School students had failed and should go back to the Eighth Grade and that some action must be taken to take care of these students.

That next year would see even worse conditions due to the fact that many more students would be coming in than would be graduated, was the opinion of Dr. Steel.

President Brown of the State Board asked Dr. Steel what the local outlook was for building a new school.

Dr. Steel in answer stated that he had been informed by Dr. Joseph H. Odell, Director of the Service Citizens and President of the Delaware School Auxiliary, that from the looks of the money market the Delaware School Auxiliary will not be able to help the local Board for sometime to come.

The president then asked Dr. Steel if the town had sold bonds, referring to the school bonds.

Dr. Steel replied that the referendum had been passed but that the bonds had not been sold. The doctor in continuing said, it was doubtful if the referendum could again be passed unless the people of Newark are assured that the Delaware School Auxiliary assures the town about \$250,000 if the local people raise \$150,000. If such a proposition as this can be put before the people, Dr. Steel said, the referendum will be a whole lot easier to pass.

No further discussion of this phase of the local situation was given but Dr. Steel told the State Board that the local educators were having a great deal of trouble due to the fact that a number of boys graduating from the High School enter the University of Delaware on their diplomas when they are not of college caliber. He said that the boys enter the High School and start to take the classical course and then find themselves unable to master Latin or some other subject in the course, and then they switch to the Agriculture Course which does not include the troubling subject. Then these boys gain the (Continued on Page Four.)

New School Hours

The people of Newark are going to miss the school children from the High School for a half hour every afternoon. This is due to the fact that school will not be dismissed until 3.30 when it was formerly dismissed at 3.00. School opens in the morning at 8.30. Two days a week there will be assembly similar to Chapel exercises in other schools. This will be the program two days a week, due to the fact that there are too many students to have them all assemble at one time. On the days that the first body is at Assembly, the other half of the school will be having spelling lessons and on Friday, all classes will have current events.

Weather Forecast

The weather bureau at Washington reports the following weather outlook for the period ending February 18: Much colder, followed by higher temperature; much cloudiness and occasional rain or snow.

DO YOU KNOW THAT

Newark will be the center of interest in the Auto Dairy Tour on February 23.

Someone is going to be killed or injured on Depot Road if the automobilists do not soon start to realize that pedestrians have a right along this road.

A coal dealer in Elk Mills sells 2,240 pounds of coal per ton and delivers here, while local dealers only sell 2,000 pounds.

Wilmington had to follow the lead of Newark and close its schools and ban children from public meetings because of scarlet fever.

In the past ten weeks Wilmington has lost some of its best known citizens through death. Most of these persons were known in public life from one end of the State to the other.

The death rate in Newark as compared with other towns and cities has been comparatively low.

Some of the largest public sales ever held in this vicinity are being held at the present time.

Every man interested in the town will be asked to help finance a ball club now being organized.

Every storm brings forth the fact that many pavements along Main street are in a terrible condition.

Choate street is in such a bad condition that it is almost impossible for traffic to pass.

The ballroom of the Hotel duPont is considered one of the finest in the country.

Wealth per capita in Delaware is said to be greater than any other State.

SIGMA PHI EPSILON FRATERNITY HOUSE

First of Series of Such Buildings to be Erected at U. of D.

Bids are now being received for the construction of the new Sigma Phi Epsilon Fraternity House at the University of Delaware, which is to be completed by August 1 of this year. The Chapter House comprises the eastern wing of the U-shaped group of buildings proposed to be devoted to fraternities and located north of Main Street, opposite the end of The Green, as the new campus has been designated. The design preserves the traditions of the Colonial architecture which is peculiar to Delaware.

The first floor close to the ground, the low cornices terminating the brick walls, the small entrance porch the high gables with their twin chimneys and the dominating roofs pierced by dormers, are all characteristic of the old prototypes to be seen at New Castle, Odessa, Dover and elsewhere.

The building faces west. A piazza at the north end has a view toward the athletic field. Lodgement for 24 men is provided as well as eight study rooms, a lounge, a meeting room, a small library and a serving room. The high portion of the Chapter House harmonizes with other structures of the fraternity group, which, when completed, will terminate the view northward along The Green.

The completion of the Sigma Phi Epsilon fraternity house will mark the construction of the first fraternity houses at the University of Delaware now being located on sites owned or leased by the respective fraternities.

STUDENT SURPRISES

Raymond Russell Gives Interesting Illustrated Lecture

Raymond Russell of Newark, a Junior in the High School, surprised the teachers of the English Department, as well as the students on the day following the mid-year examinations. On this day there were no regular lessons and Raymond asked permission to give an illustrated lecture on Australia. At first it was thought that the lad was jesting, but when he convinced the teachers that he was in earnest, permission was granted him to go ahead with the lecture. Other students of the class, to make the affair a success, covered the windows with black muslin to keep out any light that might interfere with the light of the lantern used to illustrate Young Russell's lecture.

It developed that the lad had borrowed the lantern and slides from Dr. Thomas Manns, but he had worked out his own lecture, which lasted for over an hour. The teachers at the High School were really surprised at the ability shown by the scholar and the students themselves showed much interest in the lecture.

Indian Dies at 137; Oldest in World

Pneumonia Kills Minnesota Chippewa Who Took Eight Wives and Liked Jazz

Ga-be-nah-gewn-wonce ("Wrinkled Meat") also known as John Smith, a Chippewa Indian reputed to be 137 years old died at Cass Lake, Minn., last week, after a week's illness with pneumonia.

The United States Bureau of Indian Affairs, the American Scenic and Historic Preservation Society and other historical societies interested in this famous aborigine, accepted the claim of Ga-be-nah-gewn-wonce and fellow Indians on the Minnesota reservation he was "the oldest living person in the world."

Ga-be-nah-gewn-wonce was also known as Wah-ha-gunta, and would even answer to plain John Smith. According to the Bureau of Indian Affairs he was fire raker of the once powerful Blackfeet tribe. His declining years were spent on the north bank of Mud Lake, twelve miles from the village of Ball Club, Minn., where he lived in a hut of birch bark. He outlived eight wives, and when long past the century mark he was still young enough to woo another.

His only survivor is Tom Smith, a stepson, at whose home he died.

His once powerful frame slowly wasted, his hair turned white, and his face became seamed like a walrus hide, but his step was still sprightly and he never stepped from his hut without humming some tune. His unusual fondness for music was one of his peculiarities. Often he walked the twelve miles to Ball Club to hear a piano or violin, his favorite musical instruments. When a rag time air was struck up the old Indian would smile broadly, his black, beady eyes would sparkle and he would lift his shoulders and snap his fingers in real cabaret style.

Historians made use of the Indian's remarkable memory to corroborate stories of the Indian fights, some of them back as far as 1800. Smith was often able to give the year, month and sometimes the day of Indian happenings that had been lost track of.

One event in his early life which the aged Indian related in detail was a massacre by the Sioux Indians in Minnesota near the present site of the Twin Cities. The massacre resulted from an effort by a missionary, known to the Indians as Pah-de-gree, to effect a conciliation between the Sioux and Chippewas. Many hundreds of the latter were slain. Smith says he was ten years old at that time.

Indian customs, closely followed, he considered the big factor in extending life so long. His oldest acquaintance never recall having seen him sit in a chair or lie in a bed. He was just as much opposed to many other customs of the whites, for he contended that they were contrary to the laws of nature.

Several years ago when struck by a switch engine, he was taken to a hospital, but refused a bed, seeking instead a "comfortable" place on the floor. He rolled into a blanket and remained on the floor three weeks until he recovered.

Services under the ritual of the Catholic Church and devoid of ancient tribal rites were held for "Wrinkled Meat." He joined the church recently.

Property Transfers

The biggest real estate deal registered with the County Board of Assessment last week was the sale by J. Harvey Whitman, trustee of Benjamin A. Hazel, of 277 acres of land in Blackbird Hundred, to Timothy C. Deamer, for \$16,000.

Marie J. Clark has sold 143 acres of land in Pencader Hundred to William B. Dean, for \$8,500.

Awnings, Window Shades and Automobile Curtains

Clothes do not make the man but they present him

No longer is it necessary for well dressed men in Newark to go to a Chestnut Street Store or a Walnut Street Tailor—for I can present the same style and make of clothes or the same cloths for suiting and overcoats.

My prices are attractive, too. Rent and overhead expenses are not so high here.

Charity is not the only thing that begins at home—business and town fellowship begin there, too. I am in Newark, and as a citizen want to play my part. I ask your business because I know I can give you the same service as City Houses—and at less money.

At least, I am so convinced—a call and an investigation will convince you.

Whether a ready made suit or a tailored cut I can furnish exactly the same as you can buy at the style setting houses of the big cities. We both buy from the same big national organizations.

A TRIAL WILL CONVINCE YOU.

NEWS OF THE NEIGHBORHOOD

As told by Correspondents and Exchanges

Elkton Bank Crash
Topic of DiscussionReport That Depositors Will
Demand Action on Status
—Receiver Looked For

Things have reached such a point in the affairs of the defunct Second National Bank of Elkton, that the people there who had money in the institution are rumored to have demanded that some definite step be taken so that they may know how things stand.

According to a rumor that had its round in the town last night the depositors are making plans for calling a meeting and demanding that the responsibility for the crash be fixed. It is a known fact in Elkton that many notes were found in the bank discounted by townspeople who positively denied ever having discounted them. The discovery of this condition has caused those who had deposits in the bank to make further investigation of conditions.

It was reported on good authority this morning that a receiver was to be appointed to take over the bank. The matter of certain people of the town running the bank has lost its hold and it is understood that these persons who were reported to have had an idea to take over the bank have "backed water."

William T. Warburton, president of the bank, is critically ill at his home and last night's report was that he was not expected to live.

William Trimble, of Wilmington, is visiting Elkton relatives.

Mrs. Archibald Caddell has removed from Chesapeake City to Philadelphia.

Mrs. Martha Porter, of Wilmington, was a guest this week of her sisters, Misses Mary and Harriet Terrell.

Mr. and Mrs. George Gence, of North East, entertained at cards on Wednesday evening.

Miss Bessie Hartnett has returned from a short visit to Philadelphia.

Mrs. Vernon H. McKnight, of North East, has been spending a few days with her mother, Mrs. William W. Burkley.

Mrs. Robert Creswell Thackery entertained the "500" Club on Wednesday evening.

Mrs. Arthur Knight, of Baltimore, spent Sunday with Mr. and Mrs. Joseph B. Conner, near Elkton.

Miss Marie Wetherall Taggart, of Washington, is visiting her parents, Mr. and Mrs. Edward F. Taggart.

Mrs. Florence P. Miller has returned from a visit to her daughter, Mrs. Bixler Weaver, of Philadelphia.

Mrs. Clarence C. Strickland has been entertaining her brother, Charles Scott Hilton, of Baltimore.

Miss Bessie Conroy, of Chesapeake City, is the guest of her sister, Mrs. William T. Maister, of Baltimore.

BIG MOTOR TRAIN

Army Transports Bring Back
Memories of War

Memories of the War Days were brought back to the people of Newark when a train of army transports and tank wagons stopped here en route to Brooklyn, New York. There were about thirty of these machines and the drivers and their partners put up at the local armory. These tank wagons are to be shipped to Panama from Brooklyn and the transports carried equipment for them and the men with them.

Beside bringing the army paraphernalia and men into town, several members of the "Hoboes Union" also accompanied these trucks.

To Be Operated On

Mrs. Levi K. Bowen will be operated on in the St. Agnes Hospital, Baltimore. Dr. Bloodgood, one of the leading surgeons of the Johns Hopkins Hospital, will be in charge.

Three Playlets

The three playlets to be presented by the Dramatic Clubs of the University will, after many postponements, be held on February 23.

MRS. LEE ROSE, Chairman

MIDDLETOWN BUDGET

Mr. and Mrs. Morris Fell Eliason gave a reception at their home near Mt. Pleasant this week in honor of their tenth wedding anniversary.

The members of the Parent-Teacher Association will hold a parcel-post sale next Friday evening at the Academy.

A valentine social will be held at the Blackbird school on Friday evening.

James T. Shallcross has sold for John P. Van Horn his house on High Street, Odessa, to William Smith of Odessa.

The teachers of the M. E. Sunday School held a successful bake sale in J. H. Emerson's store on Saturday.

Walter Staats has presented a Victrola to the Odessa public schools.

The funeral services of John B. Bender, who died on Friday evening, were held this Wednesday, afternoon at 1:30. Interment was made in Hickory Grove cemetery, near Port Penn.

GLASGOW

The Knights of Golden Eagles, of Glasgow, will give a supper in the Hall Tuesday evening.

Mr. Frank Brown is not improving but seems to be getting weaker. The cause of his illness is unknown.

Mr. and Mrs. C. C. Brooks have moved into their new home in Glasgow.

Mr. and Mrs. Leslie Ford, of Cooch, spent Sunday at Mr. and Mrs. H. L. Dayett's.

Miss Alice Brooks spent the week-end here.

It is rumored that a concrete road is being planned to be built from Glasgow to the State Road. We have all prospects of it, as the surveyors were here surveying last week.

Mr. and Mrs. John Gence and son, Robert, of Elkton, were visitors of his mother, Sunday.

Mr. and Mrs. Chas. Leasure and daughter, Lela, made a business trip to Wilmington, Saturday in spite of the rain.

Miss Lillian Devine took a short visit with relatives down the state Sunday.

The Knights of Golden Eagles have initiated eight new members, as follows: Lee McCormick, Allen Brown, Thomas Lloyd, Herman Leasure, Wm. Mahan, Lamotte McElwee, Arthur Jenkins and Charles Lynch.

The foxes seem to be very numerous on the farm of Charles Leasure. One is seen nearly every day.

STRICKERSVILLE

A birthday party was given Saturday evening, to Miss Emily Thompson, by her Aunt Mrs. Charles Jilek. The evening was pleasantly spent playing games and dancing.

Mrs. Alice Herbener of Newark, was a week-end guest of Mrs. Elizabeth Herbener.

Miss Dorothea Dayett spent Sunday with her parents.

Homer Pierson, of Philadelphia, visited relatives in this vicinity recently.

Mrs. B. F. Singles, was in Harrisburg, last Thursday and Friday as a delegate to the School Directors State Association.

Mrs. Elizabeth Garrett, who served on the jury at West Chester last week, reports a very interesting time.

Frank Owens had the misfortune to have his leg broken, Monday.

Andrew Lee spent last Saturday and Sunday with his wife at the Delaware Hospital, in Wilmington.

Mrs. Lee was getting off a trolley car at Stanton on January 9th and the car started before she alighted; the result was a fractured hip.

Century Club News

Program for the New Century Club for the remaining Tuesdays of the club year

February 28th—Reciprocity Day, at which time the Elsmere Club will be entertained.

March 14th—Home Economics Day in charge of Miss Laura B. Clark.

March 28th—Ex-President's Day with Mrs. Neale in charge.

April 10th—Election of officers, reports of committees for the year.

April 24th—Installation of officers and reception for new officers; also musical program.

Lots of Snow

According to farmers coming to town this morning several of the roads leading into Newark are still blocked with snowdrifts, the result of the recent blizzard. In some points according to these men the snow is still over six feet deep and the fields have to be used for traffic.

The people of Newark can realize the conditions of the country by this report.

CHURCHES

Methodist Episcopal Church

Rev. Frank Herson, Minister
Monday evening the girls of Mrs. Leonard A. Rhodes were entertained at a class social given them by Mrs. Rhodes in the lecture room. Games were enjoyed and refreshments were served and the young folks report a good time.

Wednesday afternoon at 3:30 the Junior Epworth League will meet.

Wednesday evening at 7:45, the mid-week service, subject, "The Ten Lepers," A study in the miracles of Jesus.

Wednesday evening at 8:45, the teacher training class will meet.

Thursday evening at 7:45, the fourth quarterly conference will be held with the District Superintendent, Dr. Watt, in the chair. Reports will be submitted from all the departments and societies in connection with the church.

Sunday Services

10 a. m., Sunday school; all departments.

11 a. m., preaching service, subject, "Peace Within."

7:30 p. m., preaching service; subject, "Driven From Home."

The minister will preach at both services.

The church is always open for the spiritual and social needs of the community.

Religious Services

Religious services will be held at the Red Men's Home on February 19th at 2:30 in the afternoon. The speakers will be the Rev. Seth Whiteley and wife. We will also be favored by having a couple of singing evangelists. The Marshallton M. E. Church choir will render a few selections. These will all be very helpful to those who attend.

First Presbyterian Church

Rev. Everett Hallman

Sunday School, 9:40 a. m.
Preaching, 11 a. m. Subject, "The King's Claims."

Preaching, 7:30 p. m. Subject to be announced later.

Mid-week services, Wednesday, Feb. 15th, 7:45 p. m. Rev. Earnest A. Smith, a Missionary from the Ozark Mountains, will deliver a stereopticon lecture.

The Christian Endeavor Society will meet at 6:45 Sunday evening. Topic: "The Source of Happiness." The Junior C. E. will meet on Friday afternoon at 4 o'clock.

The regular monthly meeting of the Young Women's Mission Circle was held at the home of Mrs. Harry H. Reed on Monday night at 7:30.

St. Thomas' Episcopal Church

Rev. Edgar Jones

Sexagesima Sunday: Holy Communion, 8 a. m.; Corporate communion for women of the church.

Morning prayer and sermon, 11 a. m. Subject: "The Way On the Highway."

Afternoon service, 4 p. m. Subject: "Things That Men Live By: Worship."

Young People's Service (in Parish Hall) 7:30 p. m. At this service Dr. Sypherd will talk on the subject: "Young People's Books."

Dean Speaks

Dean Robinson, of the Women's College, talked to the Young People's Society of St. Thomas' Episcopal Church, on Sunday evening.

SONG RECITAL BY
HUSS BIG SUCCESSAffair One of the Big Social
Events of Newark; Danc-
ing a Feature

That Newark houses many music lovers was brought to the front last Saturday night when a large crowd turned out to the New Century Club to hear the recital by Frank Huss, the well-known Wilmington baritone. Mr. Huss was accompanied on the piano by Nicholas Douty, of Philadelphia.

Following the recital dancing was on the program and as a whole the affair proved one of the biggest social events of the local season. The event was held under the auspices of the New Century Club, the receipts going in the new building fund.

Mrs. Walter A. Layfield, Mrs. James O. G. Duffy, Mrs. J. Irvin Dayett, Mrs. Charles H. Blake, Mrs. James A. McKelvey, Mrs. Carl Rankin, Mrs. George W. Rhodes and Miss Elizabeth Bower comprised the committee that had charge of the affair.

The patronesses were: Mrs. Walter Hulihan, Mrs. Walter H. Steel, Mrs. Ernest Wright, Mrs. Samuel J. Wright, Mrs. J. Penrose Wilson, Mrs. H. L. Bonham, Mrs. Herman R. Tyson, Mrs. George Carter, Mrs. Norris H. Wright, Miss Winifred J. Robinson, Mrs. Edgar Jones, Mrs. Charles A. McCue, Mrs. William E. Holton, Mrs. Harold E. Tiffany, Mrs. J. Pearce Cann, Mrs. W. A. Wilkin, Mrs. E. Laurence Smith, Mrs. William H. Evans, Mrs. Armond Durand, Miss Nellie Wilson, Mrs. R. O. Bausman, Mrs. John S. Shaw, and Miss Dora Wilcox.

The program of the recital follows: "It is Enough," (Elijah) Mendelssohn; "My Ain Folk," Lemon; "Home Song," Manning; "Dawn," Curran; "Life," Curran; "Morning," Speaks; "Dio Possente," (Faust) Gounod; "Deep River," "Nobody Knows the Trouble," "Go Down Moses," "Oh, Didn't It Rain," Negro Spirituals; "The Gypsy Trail," Galloway; "Sylvia," Speaks; "Tommy Lad," Megretson; "Value," Russell; "Minor and Major," Spross; "No! possibill non e" (Le Villa) Puccini.

"The Turtle Dove"

The members of the New Century Club were the guests at a play given by the students of the Women's College yesterday afternoon. The title of the play was "The Turtle Dove," and proved very entertaining.

FEBRUARY 15, 1922

Conference Impaired No National Sovereignty Made No Entanglements

(Extract from President Harding's Address Closing Armament Conference.)

This conference has wrought a truly great achievement. It is hazardous sometimes to speak in superlatives, and I will be restrained. But I will say, with every confidence, that the faith pledged here today, kept in national honor, will mark the beginning of a new and better epoch in human progress.

Stripped to the simplest fact, what is the spectacle which has inspired a new hope for the world? Gathered about this table nine great nations of the earth—not all, to be sure, but those most directly concerned with the problems at hand—have met and have conferred on questions of great importance.

One concern, one problem menacing their peaceful relationship, one burden threatening a common peril. In the revealing light of the public opinion of the world, without surrender of sovereignty, without impaired nationality or affronted national pride, a solution has been found in unanimity, and today's adjournment is marked by rejoicing in the things accomplished. If the world has hungered for new assurances it

may feast at the banquet which the difference has spread.

I am sure the people of the United States are supremely gratified, and yet there is scant appreciation how marvelously you have wrought. When the days were dragging and agreements were delayed, when there were obstacles within and hindrances without, few stopped to realize that here was a conference of sovereign powers where only unanimous agreement could be made the rule. Majorities could not decide without impinging national rights. There were no victors to command, no vanquished to yield. All had voluntarily to agree in translating the conscience of our civilization and give concrete expression to world opinion.

And you have agreed, in spite of all difficulties, and the agreements are proclaimed to the world. No new standards of national honor have been sought, but the indictments of national dishonor have been drawn, and the world is ready to proclaim the odiousness of perfidy or infamy. ***

When you met here twelve weeks ago there was not a commitment, not an obligation except that which each delegation owes to the government commissioning it. But human service was calling, world conscience was impelling, and, world opinion directing.

No intrigue, no offensive or defensive alliances, no involvements have wrought your agreements, but reasoning with each other to common understanding has made new relationships among governments and peoples, new securities for peace, and opportunities for achievement and attending happiness.

Here have been established the contacts of reason, here has come the inevitable undertakings of face-to-face exchanges when passion does not inflame. The very atmosphere shamed national selfishness into retreat. Viewpoints were exchanged, differences composed, and you came to understand how common, after all, are human aspirations; how alike, indeed, and how easily reconcilable, are our national aspirations; how sane and simple and satisfying to seek the relationships of peace and security.

When you first met, I told you of our America's thought to seek less of armament, and none of war; that we sought nothing which is another's, and we were unafraid, but that we wished to join you in doing that finer and nobler thing which no nation can do alone. We rejoice in the accomplishment.

People's Column

To the Editor of The Newark Post:

Those figures from F. Rees Phillips (what a Welsh ancestry he must have!) as to the comparative purchasing power of an ounce of gold in labor hours in the United States, and elsewhere is interesting, and significant. It is utterly misleading, however, unless taken along with the relative efficiency of American labor as compared with labor elsewhere. Ours has always been the most efficient labor in the world, and even the inpouring millions of foreigners have had to catch the American pace. Many who could not compete with the native or Americanized alien have gone back to Europe, died of overwork, or been made relatively efficient by being chained, so to speak, to automatic machinery.

An English contractor of nearly sixty years ago said that railway laborers were as cheap in America at \$1.80 a day as in India at nine cents a day. An American contractor with a contract to build a large structure in a Scotch city took over for the work his own trained gang of American workmen. The late John Galt Smith, an Irish landlord who passed half his life in New York as an importer of white goods, told me a good many years ago, that finding a man on his estate who was far better paid than the others, he asked him why, and the answer was: "I've been to America and learned how to work!"

It is not only that our pace here is swifter for the individual worker, skilled and unskilled, but that we are geared in all respects so as to make the labor-hour productive. We are organized in a fashion for efficient production unknown elsewhere in the world, and in spite of our wasteful industrial war, we are still

the most productive people in the world man for man, woman for woman. Only a few nights ago I heard Whiting Williams tell of his experience as a laborer in various countries of Europe, and he gave figures showing the vastly greater purchasing power of an hour's labor in this country as compared with an hour's labor in France, England, Belgium. As to Belgium, I myself saw in 1913 men and women creeping over the soil to weed the crop, reaping hooks not much bigger than a large grass sickle used for harvesting rye, and the flail used instead of the steam thrasher. I also saw a canal boatman comfortably puffing his pipe as he held the tiller, while his wife trod the toepath, with a strap across her breast, dragging the boat unaided even by a dog. Acre for acre Europe gets more from the soil than we do, but man for man, our farmers and their laborers are more effective producers than the Europeans, or any other human beings.

An American manufacturing concern, impressed by the low money wages of Japan, set up a huge factory in that country, expecting to produce at low cost, but had to shut the place up as a losing venture, because labor was not really cheap at local wages, for the country was not keyed to the American standard. Were I more intimately acquainted with the details of business I could illustrate my thesis with a dozen other instances proving the real cheapness of American labor at high wages. We need fear the competition of no nation on earth, and we can vastly help ourselves and the rest of the world by boldly facing our so-called competitors, exchanging what we can most cheaply produce for what they can most cheaply produce and regarding all mankind not as potential enemies, but as friends engaged in the common cause of rehabilitating a war-wasted world. We need never underpay American labor, but some American workers must get rid of the silly notion that they and the country can prosper under shop rules intended to restrict production. Full steam ahead, with good wages and a short day, but honest,

thorough, and ungrudging work will bring prosperity.

—E. N. Vallandigham.

A Correction

I notice in your last issue where the opening of the road from Cooch to Newark was accredited to the efforts of J. I. Dayett, which was accomplished wholly at the expense of the county under our efficient supervisor, W. K. Brooks who employed an army of thirty-two men, starting at Glasgow and ending at Newark, via Cooch's Bridge.

—A Citizen.

LOCAL SCHOOL MATTERS BEFORE STATE BOARD

(Continued from Page One.)

proper number of points for entrance into the university but instead of following the "Aggie" course in college take to some course of arts. He wanted to know if some action could not be taken by the State Board making students of this calibre continue with the Agriculture Course when entering college.

Following the statements by Dr. Steel, Dr. Brown said that the State Board was about as bad off in building conditions as the local Board.

Superintendent Holloway stated the boys who take the "Aggie" course in the High School should be compelled to take this course at college and that he, the student, should be made to suffer the consequences of not deciding on his course earlier.

Dr. Walter Hulihan said that the college wanted to work in conjunction with the schools of the State and would like to see a system worked out that would be to the best advantage of the students. Dr. Hulihan in continuing told of how vocational work in France and England had proven a failure and that the people of these countries were demanding that their children be given more technical education and less practical work. The president of the University predicted that such actions would also be taken by the people of this country in the near future.

Parent-Teacher Body a Newark Reality

"The children have not measured up to the work expected of them. The Board, after a thorough investigation, does not feel it is the fault of the teachers. The Board believes the Newark School has as efficient and hard-working a corps of teachers as are to be found anywhere. We intend to back them up, but we cannot be satisfied with the result of the first term's work. The children are not fit to undertake the more advanced work of the second term; there is only one thing that can be done; they must become repeaters and take the work upon which they have failed, over again. This means demotions throughout the High School and demotions from the High School to the Eighth Grade. We are determined that a diploma from the Newark High School shall represent work accomplished; we cannot permit it to mean any less and preserve our self respect. In this situation the teachers and the Board come to you to ask for the co-operation of the parents. Keep your children at home at night, we beg of you; keep them at their books. If they tell you they have no studying to do, consult their teachers. High School boys and girls do have home study." That the sympathy of the meeting was with the Board was demonstrated by the hearty applause that followed Dr. Steel's presentation of the facts.

In response to a question from the floor in regard to school athletics, Dr. Steel stated that according to the ruling of the State Board of Education, a student must win a passing average in three-fourths of his school work before he is permitted to participate in any athletic events. According to a ruling of the local Board, no student is permitted to take part in any sports after the football season, unless he can show a passing average in all subjects.

Mrs. Calvin Anderson, of Wilmington, gave a demonstration of the value of the grafonola in the schoolroom, which was both illuminating and interesting. The new association voted to affiliate with the State Parent-Teacher Association, and adopted a membership fee of twenty-five cents for the year, five cents of which will be paid into the State, and five cents into the National P. T. A. treasury. A motion that the Newark High School Alumni membership join the new association as a body, and that their dues be paid from the Alumni treasury, was adopted.

Before the meeting adjourned, Mrs. Houghton announced the following committees: Publicity: Miss Etta J. Wilson, Miss Gertrude Hill and Miss Olive Frazer; Visiting: Mrs. Manly Mrs. J. P. Cann and Miss Mary Houston.

Electrical communications in the Pacific.

Netherlands, by which there will be a division among these powers of the cable and wireless facilities in the Pacific, by which division the Netherlands and Italy will be guaranteed equity in the use of such facilities.

APPLYING ACID TEST TO CONFERENCE

The best test as to whether the Conference for Limitation of Armaments was successful is to set down in parallel columns the program which it was supposed to carry out at the time it met and what accomplishments it achieved in fulfillment of this program. The following is such a comparison:

Limitation of Armaments

AGENDA

Limitation of naval armament, under which shall be discussed (a) basis of limitation; (b) extent; (c) fulfillment.

ACCOMPLISHMENTS

Five-Power Naval treaty providing scrapping of 68 capital ships by the United States, Japan and Great Britain, including most of those now under construction or contracted for; limiting of future navies of these three powers to the ratio of 5-5-3; ten-year naval holiday; limitation of size and armament of future capital ships, aircraft carriers, other war vessels and merchantmen; prohibition of any signatory powers building war vessels for other powers larger than limitations set upon themselves by treaty; treaty to run minimum 15 years, with provisions for its continuance; provisions for naval conference in eight years to discuss further limitations in view of possible technical and scientific naval improvements.

Under this heading may also be placed the Four-Power Pacific Peace treaty which was a necessary precedent to any naval treaty prescribing reduction of naval armament.

Rules for control of new agencies of warfare.

Five-Power treaty outlawing use of poison gasses, chemicals and like devices upon the part of signatory powers and calling upon all other powers to adhere to this treaty, their formal notification to the United States of their adherence being taken as equivalent of their signature. Reaffirmation of rules already embodied in international law governing use of submarines as commerce destroyers, pledging the signatory powers by treaty to observe these rules strictly, and calling upon all other powers to join with them in pledging observance of rules; treaty declares violation of these rules an act of piracy upon the part of any individual violating them, subjecting him to punishment as a pirate, rather than treatment as prisoner of war; commission to study and report upon rules governing and limiting other new agencies of war.

Not considered in view of its being primarily a European problem.

Pacific and Far Eastern Questions AGENDA

Questions relating to China: First, principles to be applied; second, application. Subjects: (a) territorial integrity; (b) administrative integrity; (c) open door, equality of commercial and industrial opportunity; (d) concessions, monopolies or preferential economic privileges; (e) development of railways, including plans relating to Chinese Eastern railway; (f) preferential railroad rates; (g) status of existing commitments.

Nine-Power treaty which pledges signers to upholding the open door policy in China; pledging the territorial, commercial and administrative integrity and sovereignty of China; guaranteeing China's neutrality in event of any war in which she is not participant; withdrawal of foreign troops from Chinese soil; guaranteeing China tariff autonomy; withdrawal of foreign control over radio communications in China; commissions named to sit at Peking in conjunction with Chinese authorities to consider foreign problems affecting China; pledge of nine powers to make public all of their secret treaties and agreements with China or Chinese citizens. Treaty entered into by China and Japan whereby Shantung is restored to China and all rights of China in Shantung restored; Japan's withdrawal must be complete in from six to nine months; abandonment by Japan of part of her 21 demands; independence of Chinese railway systems and abandonment on her part of any discrimination in rates or facilities against any nation; abandonment upon the part of all of the nine powers of any special concessions, monopolies or preferential economic privileges.

Japan pledged herself not to interfere in Siberian or Russian domestic affairs; pledged herself to withdraw all troops from Siberia and northern Sakhalin as soon as restoration of normal conditions permits; this followed by declaration of policy of United States; read into record by Secretary Hughes, making clear the United States would not countenance any ambiguity upon the part of Japan's compliance.

United States and Japan drafted a treaty which yet is to be signed amicably settling differences over mandated islands in Pacific, particularly Island of Yap; also United States and Great Britain began diplomatic negotiations regarding islands in Southern Pacific mandated to Great Britain.

Complete control of radio service in China placed in hands of Chinese government, with cancellation of any monopolistic rights held by foreign powers; electrical communications in Pacific ocean to be settled by treaty of six powers of United States, Japan, British Empire France, Italy and the

Siberia. (Similar headings.)

Mandated Islands. (Unless questions earlier settled.)

Electrical communications in the Pacific.

CO. E GIVEN STATE MILITARY INSPECTION

Local National Guards Were Put Through Hard Test Last Week

If you should have happened to take a peep in the local Armory on last Thursday night you might have thought that the war was still on and that some troop of khaki clad lads was on inspection before General Pershing.

Co. E, the local National Guard organization, was on inspection and it was a thorough one, but the local company was ready for the event and although no report was given out on the result of the inspection it is thought that Co. E stood well up.

The local organization was the first troop to be inspected in a State-wide tour of inspection of the 198th Artillery (Anti-Aircraft) Delaware National Guard. The inspection is being carried on under orders of Governor Denney and every outfit in the State will be inspected by the first of next month. The inspection was one of the most thorough that has been carried out in the State since the world war and everything in the Armory here was in tip-top shape when the inspecting officers made their trip. But as one of the local officers said, "No special preparations had to be made for the local outfit is always ready for such inspections."

During the morning and afternoon inspection of the Armory Building and the guns, machine guns and general equipment took place but in the evening the entire local Company turned out in full field uniform and all packs and other personal equipment was gone over and the men were asked many questions relative to the use of various parts of their equipment and in regards to handling of this equipment.

C. E. Entertainment

The Christian Endeavor Society of the Presbyterian Church gave a Valentine Social in the Lecture Room on Friday evening February 10th. Hearts, cupid and arrows were the decorations.

The early evening was taken up in playing games. Later between thirty-five and forty young people were seated at an attractive table where sandwiches, cocoa, salted peanuts and candies were served. During the next hour, with Rev. H. Everett Hallman presiding, enthusiastic songs were sung, an interesting talk was given by the President of the Society and the Chairmen of the different Committees gave reports as to what they have planned for the year.

This was the first of a series of good times which have been planned for the Endeavors.

Wanted—A Home

The Children's Bureau, of Wilmington, has in its care, Franke, a Catholic boy, between eleven and twelve years of age. He has no home and is in urgent need of one immediately. If you can give him a home or help in any way, please call at the Children's Bureau, 1112 King Street, Wilmington. Phone 2624.

DAIRY TOUR

Event Postponed Because of Blizzard To Be Held February 23

The automobile dairy tour which was to have been held February 2 under the auspices of the New Castle County Farm Bureau will be held Thursday, February 23. The following committee is in charge: W. W. Buckingham, of Newark; H. C. Milliken, of Porter and R. O. Bausman, of Newark. The committee announces that with a slight change the itinerary will be the same as previously stated.

The New Castle County farmers will meet the down State farmers at Middletown depot at 9:28 a. m. The farms which will be visited are as follows: J. D. Reynolds, of Middletown, breeder of high grade Holsteins; Dr. Walter Cann, of Glasgow, breeder of Holstein-Friesian cattle; J. Dayett, of Cooch, breeder of Holstein-Friesian cattle; University Farm, of Newark, breeder of Holstein-Friesian cattle; Blue Hen Farms, of Newark, breeder of Guernsey cattle; Hampshire hogs; Breidablik Farm, breeder of Guernsey cattle; Lancaster Pike; Winterthur Farms, of Winterthur, breeder of Holstein-Friesian cattle. Lunch will be served at Newark by the Clover Leaf Girls' Club.

P. E. Bazaar

A meeting of the chairmen of the various committees arranging for the bazaar to be held in the Armory next week under the auspices of the Guild of St. Thomas' P. E. Church, will be tomorrow evening at the home of Mrs. George Carter.

National and State Governments Work for Cleaner Cattle

Many Cows of This Vicinity Found Suffering from Tuberculosis—Preventatives and Remedies

The following items prepared by the United States Department of Agriculture on Tuberculosis in Livestock are of interest and importance to every reader of this section as a result of the finding of a number of tubercular affected cows in this vicinity.

HOW THE DISEASE SPREADS IN A HERD

The tuberculous cow is the greatest source of danger to healthy cattle. Any reacting cattle not promptly removed from the herd constitute a source of constant infection.

Tuberculous cattle, sooner or later, begin to give off the germs of the disease. These germs escape by the mouth, nose, and bowels, in the milk, and other discharges. The discharged germs are carried in the air for a time until they fall to the ground.

Animals in adjoining stalls may take in the germs in the feed they eat and thus contract the disease. Continuous water troughs in barns containing diseased cattle are a source of danger. Drinking holes containing material from infected animals are likewise dangerous.

Failure to clean and disinfect the premises occupied by the diseased cattle constitutes another source of danger. Infected milking tubes and the practice of feeding calves with raw milk from tuberculous cows are other means by which tuberculosis spreads in a herd.

HOW TO PROCEED TO MAKE CERTAIN THAT CATTLE AND SWINE ARE FREE FROM TUBERCULOSIS

Have a competent veterinarian apply the tuberculin test. Remove all reactors promptly, and disinfect the premises immediately after the removal of the reacting cattle.

Do not feed any infected dairy products to swine or young cattle.

Retest the herd with tuberculin once a year.

RELIABILITY OF THE PRINCIPAL TUBERCULIN TESTS

The subcutaneous test is the principal test used by the U. S. Bureau of Animal Industry. It consists in injecting, under the skin, a small quantity of tuberculin. Carefully and conscientiously applied, with good judgment exercised in both its administration and interpretation, it is wholly effective.

The intradermal test is recognized by the bureau on strictly range cattle or animals whose movements are difficult to control, and in area work. In this test the tuberculin is injected between the layers of the skin.

The ophthalmic test, or so-called "eye test," is not at present accepted for testing cattle for interstate shipment, though it has value as a check test and is recognized for that purpose. It is applied by placing the ophthalmic tuberculin in one eye, using the other as a check. The ophthalmic test has given best results under farm conditions or in other cases where the eyes are normal. For testing cattle in transit or in the stockyard the test is less dependable, owing to the fact that the eyes may be abnormal as the result of irritation or injury from dust, cinders, or other results of transit. In all cases the tests, used either alone or in combination, should be applied by capable persons familiar with tuberculin testing.

PRINCIPAL BENEFITS OF COMPLETE ERADICATION OF TUBERCULOSIS

Increased value of individual animal and increased herd value.

Ability to ship interstate from accredited herds without further testing for a period of one year.

The owner's name being listed in pamphlets published by the respective States and the Bureau of Animal Industry.

Confidence by those who desire to purchase cattle to add to their herds.

Satisfaction of knowing that the dairy products offered for sale are free from diseased germs.

Elimination of economic losses caused by the disease.

THE ACCREDITED-HERD PLAN—EVERY CATTLE OWNER ELIGIBLE

A tuberculosis-free accredited herd is one which has been tuberculin tested by the subcutaneous method or any other approved method under the supervision of the Bureau of Animal Industry, or of a regularly employed veterinary inspector of the State in which co-operative tuberculosis eradication is being conducted.

It is a herd in which no animal affected with tuberculosis has been found upon two annual or three semi-annual tests, made as described, and by physical examination.

Owners of tuberculosis-free herds receive a certificate issued by the bureau and the State livestock sanitary authorities. The certificate is good for one year from the date of the test, unless revoked at an earlier date.

WHY THE TUBERCULIN TEST IS HARMLESS

Tuberculin contains only the sterilized products of the tubercle bacilli. It does not contain any living germ; therefore it is harmless to any animal whether healthy or diseased.

Only diseased animals give typical reactions to the test. The test does not injure animals in a condition of advanced pregnancy, and will not cause them to react if they are free from disease.

Likewise, it does not produce reactions in disease-free animals which have recently calved.

HOW THE WORK OF ERADICATION IS DIVIDED BETWEEN STATE AND GOVERNMENT OFFICIALS AND OTHERS

Tuberculosis eradication is a co-operative work of the Bureau of Animal Industry of the U. S. Department of Agriculture, the live-stock sanitary officials of the various States, and individual cattle owners. The bureau and the State officials send veterinary inspectors to apply tuberculin tests to the herds of those owners who sign a co-operative agreement, which places their herds jointly under supervision for the control and eradication of the disease.

Milk Record

All records for cattle have been broken on the Winterthur farm of Col. Henry A. duPont and Henry F. duPont. Last week one cow on that farm was listed with a creditable record in the latest official bulletin from

the office of Malcolm H. Gardner, Delavan, Wisconsin, superintendent of Advanced Registry of the Holstein-Friesian Association of America.

This cow, Winterthur Inka Prilly Segis Dais, is reported as having made at the age of three years and ten months, a record of 499.8 pounds

of milk and 17,611 pounds of butter fat in seven days, equivalent to 22 pounds of butter.

The State championship in the Senior three-year-old class, is credited to Uneda Korndyke Beryl, whose seven-day record is 503.0 pounds of milk and 22,885 pounds of butter fat equivalent to 28.6 pounds of butter. This record was also made at Winterthur Farm.

Milk

A subscriber interested in the local milk question sends in the following from "Judge":

"Ah want a quote of sanctified milk."
"What you all mean is pacified milk."
"Look heath, small one, when Ah needs inflammation Ah'll specify!"

Pa. Fair Dates

Everyone in Newark and vicinity is interested in the Delaware State Fair held in Wilmington and many go to the fairs in various parts of Pennsylvania. Last week the following dates for fairs in Pennsylvania were announced:

Kutztown, August 22 to 25.
Lebanon, August 29 to September 1.
Philadelphia, September 4 to 9.
Reading, September 11 to 16.
Nazareth, September 12 to 16.
Allentown, September 18 to 23.
Lancaster, September 26 to 30.
York, October 2 to 7.

Newark High to Have Higher Rating

Health-Teaching System to be Installed—Teachers Must Give Notice of Leaving

Newark High School is to be included in the first group of High Schools of the State if the plans of the local Board of Education work out. This was reported at the meeting of the State Board of Education held here last Friday. At that time Superintendent H. V. Holloway reported that the Health Program was not being carried on in either the Newark or Dover High Schools and that therefore these schools were not in the first group of State High Schools. This report was dated December 30, 1921.

Mr. Holloway reported that since the time of this report the local High School authorities had about closed negotiations with a teacher to teach the health lessons necessary and that as soon as this teacher was obtained the local school would be placed in the first group.

The superintendent further reported that since the time of his report the Dover school had obtained the services of a health instructor and that this school was now among the first group.

At the meeting there was much business transacted. A demonstration was given the members of visional education. This form of education incorporates the use of a machine which throws upon the walls of a school pictures which the children study instead of a book. The members seemed very much interested in the demonstration and it was reported that already several of the schools down state had purchased these equipments.

The State Board received a request from Millville that the old school of that place be sold and the money realized from this sale be used for the lighting of the new school building. No definite action was taken on this matter.

At noon the Board took a recess and had luncheon at "The Knoll" as the guests of Dr. and Mrs. Walter Hüllihen.

After this the members were taken on a tour of inspection of the local schools.

The resignation of Miss Ruth Jones as visiting teacher for New Castle county was received and accepted.

President Brown of the Board was appointed as a member of the Americanization Committee of Wilmington. A request was received from this committee asking that some member of the Board be appointed to this Wilmington organization.

The Smyrna Board of Education made a request of the State Board to approve of the purchase of ground around the Smyrna school. No action will be taken on this matter until further investigation is made.

From the present outlook it seems as though the State Board would do away with the High School at Rehoboth unless more pupils can be enrolled. It was reported at the meeting last week that at the present time there are only 28 pupils enrolled and that from the outlook there would be it was not a self-supporting proposition to increase in this number, and that to carry on this High School. The members of the Board decided to give the people of the vicinity a short time to remedy conditions.

In the future teachers of the State who leave their posts without giving the State Board at least thirty days notice will lose their certificates. This was decided on the unanimous vote of the Board. New contracts for teachers will be worded to this effect.

This action was taken following the reading of a report of Superintendent Holloway. The latter stated that he thought some action should be taken against teachers who knowingly violate their contracts and suggested the cancelling of credentials of teachers who left in violation of their contracts.

John Schilling, Assistant Superintendent, said that he was of the opinion that a teacher should not be forced to pass up a better position if 30 days' notice of leaving was given.

Dean McCue said that there were good arguments on both sides but that he was of the same mind as Mr. Schilling, that in cases where teachers could better themselves they should be allowed to do so if the proper notice of leaving was given.

Elwood Souder said that he thought when thirty days' notice was given it was O. K., but that he would not tolerate the action of those who leave without giving sufficient notice. Members of the Board pointed out the fact that some schools had been forced to close due to teachers leaving without giving notice of their intention of doing so. Then the action

of the Board in cancelling certificates was taken.

The Board decided that it would rebind old books of various schools. Before the open meeting of the Board the members convened in the office of Director Heim in Wolf Hall. The open meeting was held in the Faculty Club rooms.

Artist Series

Crawford Adams will be the next attraction in the Artist Series being conducted here. Mr. Adams has traveled extensively through the United States, Canada, Australia and Europe in Chautauqua and Lyceum work. This recital will be held Saturday evening, February 18th at 8 o'clock.

Improving

It will be sometime before Mrs. Wm. J. Rowan is able to leave the Delaware Hospital. The local lady has been at the Wilmington institution for some time suffering from a broken leg she sustained in a fall down the steps of her home.

School Program

In his address at the dedication of the new public school building at Laurel on February 6th, Superintendent H. V. Holloway outlined the following program for public education in Delaware:

1. In every classroom in the State a well qualified professionally trained teacher, who is a loyal American citizen, and who receives an adequate compensation.
2. The elimination of illiteracy among the native born of our State as well as among the foreign born.
3. The Americanization of all non-American elements in our population.
4. Universal training for life and citizenship to an age approximating maturity—eighteen; a training that shall be physical and mental as well as manual and moral.
5. The equalization of educational opportunity for every boy and girl in the State regardless of where he or she may live; to which end the smallest number of one-teacher schools possible, and no such school with more than six grades.
6. A comfortable place in a comfortable, well lighted, well ventilated, well equipped, and sanitary school building for every child in the State when he works, and an adequate playground, adequately supervised when he plays.
7. Every boy and girl of school age attending such a school a minimum of 900 hours, a little less than 1/5 of his waking time, each and every year of his school life, and school sessions in summer, if necessary, to make this possible.
8. Greater permanency in the personnel of the teaching profession guaranteed by adequate bases providing for tenure of office, and for retirement with part pay after a certain term of service in the State when incapacitated for effective service on account of age or physical disability.
9. No retreat from the ground that education has already gained.

ALUMNAE HOLDS ITS ANNUAL BANQUET

Women's College Scene of Big Event Last Saturday; Prominent Speakers

About two hundred guests and 63 graduates were present at the annual banquet of the Alumnae of the Women's College on Saturday night. The event was held in the College Hall and there was a general reunion of former students among them some of the first to attend the college.

Miss Marion Hatfield president of the student council of the Women's College, acted as toastmistress and Miss Alice Scott, '19, and Miss Selma Bacharach, president of the Alumnae, responded to toasts.

The speakers of the evening were Dr. Joseph Odell, of the Service Citizens and Delaware School Auxiliary, Henry P. Scott, former Chancellor Charles M. Curtis, Dr. Walter Hüllihen, president of the University, Mrs. A. D. Warner and Dean Robinson. Besides these guest speakers, representatives of the Alumnae and of the present classes also spoke. Chorus singing was also enjoyed. Following the banquet informal dancing was indulged in.

Greetings were received from members of the Alumnae in various parts of the country. A greeting was likewise received from Miss Mary E. Rich, a former student at the college who is now attending Columbia University.

The alumnae members who attended the banquet were: Rebecca Churchman, Doylestown, Pa.; Madeline Dixon, Alice Roop, Helen Brown, Ruth Bennett, Anna Vansant, Mary Shaw, Hilda Stevens, Anna Thompson, McDaniel, Madge Nickerson, Catherine Schunder Johnson, Lillian Groves, Helen Baylis and Alice Sneddy of Wilmington; Anna Ritz, Alice Evans Durant, Ruth Clendaniel, Bausman, Catherine Jackson Lewis, Mildred Ferguson, Edith Spencer, Ada William, Olive Heiser, Brita Buckingham, Anna Gallaher and Margaret L. Lovett of Newark.

Anna Beebe, of Lewes; Mary Moss, of Frederica; Edna Pratt, of Clayton; Elizabeth Dawson and Anna

Beckett, of Smyrna; Elizabeth Jones Crothers, Mary Dennison, Nellie Campbell, Elizabeth Taylor and Anna Scott, of Dover; Mary Lendenham, of Bridgeville; Bernice Hastings, Marion LeCates and Mary Mason Wills, of Laurel; Marion Graftin, Margaret Christian, Lillian Butz, Selma Bacharach and Gladys Walton, of Philadelphia; Elizabeth Houston and Elizabeth Jones, of Middletown; Irma Jaquette, of New Castle; Lillie Ferguson, of Cecilton, Md.; Emily Frazier Williams, of Rising Sun, Md.; Alphonso Alderson, of Elkton, Md.; Marion Underwood and Anna Falls, of North East, Md.; Margaret Groves Bowen and Emile Mundy of Kennett Square, Pa.; Helen Mackey, of West Grove, Pa.; Edith McDougle, of Washington, D. C.; Margaret Cook of Allentown, Pa.; and Agnes Fowler of Hempstead, L. I.

WASHINGTON ALUMNI

Former U. of D. Students at Capital Have Dinner

The University of Delaware alumni in Washington held a dinner at the City Club on Monday night, after which the election of officers followed.

Those present at the dinner and the organization of the Delawareans were: Senator L. Heister Ball, Thos. D. Smith, Edward R. Martin, Howard M. Armstrong, George W. Francis, Edward Hoffecker, Charles H. Ruth, Jos. H. Jones, Joseph H. Brewster, Lt. H. E. Spruance, Lt. Rob Harper, James D. Craig, Maj. J. D. Smith, S. T. Kimele, Harry Garrison, Alfred B. Carry, secretary to Representative Layton, Egmont Horn, Percy Campbell, George O. Smith and Howard Alexander.

Egmont Horn was elected permanent chairman and Alfred B. Carey permanent secretary.

Unclaimed Letters

There are unclaimed letters at the Post Office for the following persons: Burton Hamilton, B. F. Miller, Edward Russell, E. Brown, Geo. W. Pierce, Harry Bottom, Hazel Brown, Harold Ambein, John Burns, John L. Black, Russell L. Hummel and Verna Sheldon.

\$=One Hundred Cents

I've made strenuous efforts to impress on the people of this vicinity that standard prices on staple products are much cheaper in the long run than cut prices on "just" products. **AND I'VE SUCCEEDED!** Many customers have already satisfied themselves on this point and have become my best advertisers.

I'd ask you to stop around and compare values, dollar for dollar, but there isn't anything to compare them with. That's putting it strong, but I mean every word of it.

R. GILPIN BUCKINGHAM

Newark, Delaware

PHONE 29W

MAIN STREET

Baby Chickens

The history of the growth of the baby chick industry during the last decade affords conclusive evidence that ready-made chicks have given, and are giving, general satisfaction. Were this not true, had the chicks been costly, inferior in quality, delivered in poor condition, or failed to make good at maturity when their true value can be accurately judged, the industry would have passed away instead of growing with truly amazing rapidity as it has done.

It is impossible to estimate the number of baby chicks hatched each year, but the members of the International Baby Chick Association, numbering upward of one hundred hatcheries, safely shipped between fifty and seventy-five millions of chicks last season. This year they

will, from all indications, greatly exceed these figures. So it must be plain that commercial baby chicks have made good and have afforded general satisfaction.

FIRST THUNDER STORM

Freak Storm Hit Newark Last Sunday Morning

If you didn't sleep too sound early Sunday morning you probably heard the first thunder of the year. Accompanying this thunder was a storm of hailstones.

The storm broke about 2.30 o'clock and hailstones of a good size fell and following this was rain accompanied by lightning and thunder. The storm broke, but Sunday was a cold, disagreeable day followed by Spring-like weather on Monday.

Genuine Common Sense

Many Ford owners can afford to own and operate any car they may choose, but they prefer a Ford "because it is a Ford."

For "because it is a Ford" means dependability, ease of operation, efficiency—and it means sure, quick transportation.

And "because it is a Ford" means good taste, pride of ownership and genuine Common Sense.

The Ford Sedan, a closed car of distinction, beauty and convenience, is the ideal all year 'round car, for pleasure or business—for the farm, town or city. It gives you all that any car can give at a much lower cost for operation and maintenance.

Ford Cars of all types are in great demand, so place your order at once if you wish to avoid delay in delivery.

Personals

The Post records with sympathy the death of Mrs. John Dayett and Mrs. Jehu Davis within the past week. Friends and neighbors for years, inspiration and active forces in the Salem Church near Cooch's, their places in the community will be difficult to fill. Gracious and useful in their every effort, their lives of service were such that gave character to the neighborhood. Modest, inconspicuous, in the whirl of later day events, they made homes that were the ideals of American life. Their influence and presence will shed a glow for many a day; they were CHARACTERS—and character lives.

Mr. and Mrs. Conrad H. D. Lewis, of Wilmington, were the week-end guests of his parents, Mr. and Mrs. Albert L. Lewis.

Mrs. N. M. Bennett spent last Wednesday in Wilmington.

Mrs. Albert L. Lewis and daughter, Edith, spent the first of this week with relatives in Philadelphia.

Miss Irma Jaquett, of New Castle, spent the week-end with her mother, Mrs. Elizabeth Jaquett.

Master Orville Richardson has returned after spending several weeks with his uncle Harry Herbener at his home in Rock Hall, Maryland.

Mr. Howard McCall, of Wilmington, was the guest of Mr. and Mrs. Pierce Crompton on Friday.

Mr. Ernest M. Sheppard, of Wilmington, spent Sunday at the home of Albert L. Lewis.

Mr. and Mrs. J. Earl Dougherty spent the holidays with Mr. and Mrs. J. Paul Cheyney, of Philadelphia.

Mr. Joseph Effing spent the week-end at his home in Philadelphia.

Miss Marjorie Johnson spent Sunday with Miss Annabelle Jarmon.

Miss Ada Barr spent Monday with Mary Clancey.

Miss Ida McConaughy who has been ill at her home is able to resume her duties at the Farmers Trust company.

Mr. Bert Crow spent the week-end at his home here.

Mr. and Mrs. Robert Davis spent holidays with relatives in Washington, D. C.

Mr. and Mrs. J. P. Wright left Saturday night for a trip to Florida.

William Hanf, of Wilmington, was in Newark last night.

Friday night was a big time in the K. A., as there was a rehearsal held at which many old ships were renewed and a jolly time was had in the Frat House who attended.

Elizabeth Fooks was a week-end guest of Miss Lillian Sudler.

Clara Mosser and Mr. and Mrs. Mosser and daughter, Theresa, spent the week-end with Mr. and Mrs. Balling.

Eleanor Duffy will entertain a number of friends at a Valentine night at her home at Cooch's.

Mr. and Mrs. John C. Shelly, of Philadelphia, recently motored to Philadelphia.

Raymond W. Heim entertained on Thursday afternoon in his guests, Mrs. Fetterolf and family.

Mr. A. Watson of Dover spent the week-end at the home of Dr. and Mrs. Pearson.

On Wednesday afternoon, February 15, Mrs. John Shaw entertained in honor of Mrs. Edward T. The nine tables were set at Newark and Wilmington.

On Friday afternoon, February 17, Mrs. Robert Lewis entertained on the Tuesday Afternoon Club.

On Saturday afternoon, February 18, Mrs. Robert Lewis entertained on the Tuesday Afternoon Club.

On Sunday afternoon, February 19, Mrs. Robert Lewis entertained on the Tuesday Afternoon Club.

On Monday afternoon, February 20, Mrs. Robert Lewis entertained on the Tuesday Afternoon Club.

On Tuesday afternoon, February 21, Mrs. Robert Lewis entertained on the Tuesday Afternoon Club.

On Wednesday afternoon, February 22, Mrs. Robert Lewis entertained on the Tuesday Afternoon Club.

The Wednesday Afternoon Card Club met last week at Miss Eleanor Harter's home.

Wilkins Cooch, who has been critically ill with typhoid fever, is reported a little better.

Mr. and Mrs. Chester E. Ewing have moved from their home on West Main Street to Mr. Nelson's farm.

Master Thomas Pyle, of West Main Street, is making a slow, but steady recovery from his attack of typhoid pneumonia.

A surprise party was tendered Miss Hanna Lindell in honor of her nineteenth birthday, at her home on Choate Street. The following guests were present: Misses Olive Porter, Emma Lovett, Helen Leak, Gladys Clark and Catherine Hubert; Herbert Kirk, Mr. Aikin, Howard Crawford, Earl Ramsey, Haywood Johnson, Walter Holton.

Misses Edna and Frances Cleaves spent the week-end with Mr. and Mrs. Harry Cleaves.

Mr. and Mrs. C. A. Short will leave tomorrow for Williamsburg, Va.; while there Mr. Short will attend to some business for the Sigma Nu. From Williamsburg they will leave for Langley Field, Va., where they will spend the week-end with Capt. and Mrs. Jacobs.

Miss May J. Boone, of Reading, Pa., is visiting Mrs. John Pilling.

Mrs. William Holton has issued cards for a bridge party next Wednesday.

Mrs. John Pilling entertained the Monday Afternoon Bridge Club.

Miss Freda Ritz spent the week-end with friends in Baltimore.

Mr. and Mrs. C. R. Lynch of Philadelphia and little son, Warren, visited Mrs. J. Frank Willis, Mrs. Lynch's mother, over the week-end.

Mr. and Mrs. A. G. Walker entertained Mr. and Mrs. Lee Rose at dinner last Thursday.

Mrs. J. Pearce Cann will entertain at bridge tomorrow night.

"Aggie" Students Set for Practical Work

Local High School Boys Will Work Out Projects Studied in Class-rooms

With the weather clearing up and the spring tang in the air, the students of the Agricultural Department at the High School are getting ready for their practical work.

This Agricultural Course is one of the most popular with the boys at the school and in the present class, there are twenty-five, six of whom make Newark their home, the remaining nineteen are from surrounding rural territory.

The first thing on the program for this year will be the work in the hot bed. This hot bed is of concrete and was made by the pupils last fall. It is an excellent piece of work and good results are expected from the crops planted. The hot bed will be used for the purpose of early planting of vegetables of various kinds. Cabbage, tomatoes and other plants of this nature will be set out by the boys who have taken up gardening projects. This has been the subject of study in the class room of the High School during the fall and winter months and now the students will work these out in a practical manner.

For the first time the local school will have an orchard in which to study. This orchard was placed at the disposal of the school by Dr. Thomas Manns and is located in "The Orchard." Here the "Aggie" students will have practical demonstrations in the art of pruning and spraying. These practices have likewise been the topic of study in the class room in the off season.

Some persons are of the opinion that the lads who take the Agricultural Course in the High School are doing so in hopes of getting out of work, but it must be taken into consideration that after spending the fall and winter months in the school room, these students do not have the regular vacation afforded those of other departments. It is in these months that the "Aggie" students do their real work and learn the practical side of agriculture.

As the majority of these boys in this course are from rural districts, they will have chance to work the project they have studied in the class room out, in many instances, on the farms of their own families. The hot

bed referred to above is to be placed on the school grounds.

H. M. McDonald, a graduate of the University of Delaware, is in charge of this Agricultural Course and has carried on this work in a very proficient manner and expects the boys in this class to be among the best "turned out" in any High School in the State.

OBITUARY

Mrs. John W. Dayett

Mrs. John W. Dayett, who died suddenly at the home of her son, J. Levon Dayett, of Cooch's Bridge, on last Wednesday night, was buried on Saturday afternoon.

Mrs. Dayett's death came very suddenly as earlier in the evening she had attended a church affair near her home. Her son was in Newark at a bank meeting and on returning home found his mother seated on a bench near the garage, very ill. Dr. Blake was called but Mrs. Dayett was dead before he arrived.

The deceased was the widow of former Levy Court Commissioner John W. Dayett and a sister of Benjamin H. Groves, of Marshallton. Besides her son she is survived by Mrs. Morris Garrett, of Baltimore, a daughter.

Mrs. Harry Thompson

The funeral of Mrs. Harry Thompson, who died at her home on Delaware Avenue last Wednesday, after a long illness, was held Monday afternoon and interment made in the Methodist cemetery.

Edward H. Lamney

Edward H. Lamney died Sunday morning above Kembleville, Pa. He will be buried from the residence of his brother-in-law, John Joyce, South Chapel Street, at 2:00 o'clock today. Funeral services in charge of Rev.

PUBLIC SALE

—OF—
PERSONAL PROPERTY

The undersigned will sell on the place formerly known as the Boulden Farm, on the Track Road, between Glasgow and Chesapeake City, about 3 1/2 miles from Glasgow, on

Wednesday, February 22, AT 11 O'CLOCK, SHARP

The following described property: 6 HORSES AND MULES
Howard, 11 years old, 1300 lbs., will work anywhere. Tom, Bay Horse, 5 years old, good worker and driver. Elsie, Bay Mare, 10 years old, good driver and worker. Billie, Colt, 3 years old, partly broken. Pair of Mules, Jennie and Dove, 6 years old, work anywhere, good down pullers.

5 GOOD COWS
Quiet and now milking, and with calf.

One Brood Sow; 8 Fine Pigs; about 200 Chickens; 8 Geese; 100 Bushels Corn.

FARMING IMPLEMENTS, &c.
Two Farm Wagons; Hay Rigging; Manure Spreader; Binder; Corn Planter; Sulky Cultivator; Hand Cultivator; Farmers' Favorite Grain Drill, 11 disc; Spring-tooth Harrow; Spike Harrow; Wield Plow No. 26 1/2; Oliver Plow; Mower; Roller; Horse Rake; Carriage; 240-Egg Incubator; Milk Cans; Buckets; Barrels; Hoes; Rakes; Forks; Shovels; 1-2- and 3-horse Trees; Log and other Chains. McMurray, interment at North East.

Mr. Lamney dropped dead and his death came as a shock to his many friends in this vicinity.

Mrs. Josephine B. Davis

Mrs. Josephine Brooks Davis, of near Cooch's, died at her home on Tuesday morning. The deceased was well known in this vicinity and was "motherly" in her many kind acts. Funeral services will be held from her late home on Friday afternoon at 1:30 o'clock, with interment in the Salem Cemetery.

She is survived by her husband, J. Webb Davis, and two sons, Harry W., first Vice-President and Manager of the Delaware Trust Co., and William T., a conductor on the B. & O. Railroad.

Edward Cranston

Edward Cranston died February 12th, at Marshallton, aged 86 years. Services will be held at the home of his son-in-law, Irvin Ball, at Marshallton, this afternoon at 2:30, interment made in Red Clay Creek cemetery.

Walter W. Cleaves

Walter W. Cleaves, son of Walter and Amy Cleaves, aged ten months, died at the home of his parents, Christiana, February 11th. Funeral services were held at his parents' home. Interment at Christiana Presbyterian Cemetery, in charge of Rev. Pardee. The lad had been sick two weeks with pneumonia.

PUBLIC SALE

The Undersigned Will Sell at Public Sale at His Farm, on the Road from Wilson's Shop to Oglethorpe, About 3 Miles Southeast of Newark.

Tuesday, February 21, 1922 AT 11 O'CLOCK A. M. SHARP

BASEBALL MEETING FRIDAY NIGHT

Everyone Requested To Turn Out to Center Hall; May Get League Berth

Everyone who has ever had a baseball glove on, who has ever seen a ball game or who has ever heard of a ball game is urgently requested to attend a big mass meeting, Friday night of this week at 8 o'clock in Center Hall. This invitation is extended everyone in Newark for from its outcome it will be decided whether or not the old town is to be represented by a formidable ball club during the coming season. We have been promising such a meeting for sometime past and now the time has come. At a meeting of the Suburban League in Wilmington last week, Newark was represented and has a good chance of landing a berth in this organization. It is realized by all interested in baseball that Newark is bigger than a great number of nearby towns which are supporting ball clubs every season, but here there has not been a first class nine for a long time. This ball club that is to be organized is not to be composed of any certain clique or club, but is to be a town team in every sense of the word. At the meeting on Friday night, plans will be discussed for the financing of the team and every business man of the town will be solicited to lend financial aid to the club. Beside this a moving picture benefit is planned, a tag day and bake.

SWARTHMORE WINS

Quaker Passers Prove Too Strong for Delaware

The University of Delaware basketball team showed the result of the lay-off caused by the mid-year exams in the game with Swarthmore last Friday night. The Quakers had things pretty much their own way and won by a score of 22 to 14.

The game was fast all the way but neither team showed the class that they were supposed to have possessed. Lovell was off in his foul shooting and dropped in only four out of nine chances.

Capt. Yarnall of the visitors played a bang-up game.

The score:

Delaware			
Goals—	Field.	Foul.	Pts.
Keith, forward-guard	0	0	0
Cole, forward	1	0	2
Williams, center	0	0	0

Yarnall, guard	2	0	4
Farnshaw, guard	1	8	10
Greenhurst, guard	0	0	0
Totals	7	8	22

Referee—Raby of Gettysburg. Time of halves—20 minutes.

Co. E Wins

Co. E, represented by a line-up of substitutes, had no trouble on Friday night in walloping the Co. F team of Milford. The local boys had things their own way and were on the long end of a 44 to 9 score. The down-State team never had a chance and Bland and Hopkins of the local team dropped in two-pointers at will. The score:

Newark			
Goals—	Field.	Foul.	Pts.
Crompton, forward	5	1	11
Bland, forward	7	0	14

Totals	3	3	9

Referee—Fulton. Time of halves—21 minutes.

Newark Beaten by New Castle High

Fishtown Team Wallops Locals for Second Time This Season

New Castle High School earned the right to play Dover for the State High School basketball championship last Thursday night when the Fishtown lads came here and defeated Newark High School by a score of 31 to 28. The game was one of the best played here this season and the winner was in doubt until the final whistle blew ending the fray.

This was the second win for the New Castle quintet over the local boys, the first game being played in New Castle and ended with the home team much ahead of Newark.

In the game last week play was fast and the teams showed the best form of the season. The foul shooting of McKniff for the winners was responsible for the New Castle victory.

Each team got 11 field goals. The score was always close and several times tied. The first half ended with the score 20 to 16 in favor of New Castle. Newark had tied the score at 16 just before the half ended, but the river boys forged ahead again. In the last half the score was tied at 26, shortly before the end of the game. Newark scored one more point than their opponents in the last half.

New Castle played a better passing game than the locals and was also more fortunate in caging long shots.

The score:

New Castle			
Goals—	Field.	Foul.	Pts.
L. King, forward	3	0	6
C. King, forward	2	0	4
McKniff, center	5	9	19

Hubert, forward	1	0	2
Hopkins, center	5	0	10
Henning, guard	0	0	0
Wilson, guard	0	0	0
Lindell, guard	0	0	0
Chalmers, guard	0	0	0
Totals	11	6	28

Referee—Derby. Time of halves—20 minutes.

E Co. Hot Shots

When it comes to a man playing pool with his shadow, leave it to Mike Sullivan. What say you Mike?

Abie Reynolds has got a job two days a week. Abie said that is all right, he works overtime on those two days.

The ring men are not the only ones who are getting in shape for the next smoker. The Red Men's Band is working out, too.

The band is doing its bit in many ways. Battersby is training a couple of guys, and Jonsie said if he didn't have to lead the band he would go in the ring. Denney said he would do most anything to keep Jonsie out.

Jim Keeley and Bill Crow like the wrestling mat so well that they made a bed out of one.

Dick Gregg is still begging, not for a living—a fight.

Inky Reed wants to show his ability as a leather pusher, come on somebody.

We are wondering why Abe Reynolds gets sore at Jim Keeley. We think it is because somebody wished Jim some luck.

One "Rastler" in the outfit is going to quit the game all on account of a certain person.

One fellow wanted to bet that K. O. King's arms are 8 feet long, while another argued that they were longer than that.

There were some good fighters at the smoker the other night but none of them could be induced to fight.

Elk Mills Baseball Club paid all expenses for fighters, wrestlers and musicians, that is all we expected. Except some few who think they ought to get paid for sitting around.

No, Bill Crow has no bank account.

QUOIT LEAGUE TO START SECOND HALF

Eagles Who Won First Half Out For Laurels Again

A glimpse of the following schedule which has been arranged for the second half of the Fraternal Quoit League, gives an idea that something will be doing every night there is a game. The teams are all well matched as was proven in the first half of the season when the K. G. E. team carried off the honors. All the other teams are confident that the first half winners are not going to repeat and to attempt to pick a winner would be a very hard proposition.

All the teams have been practicing for the past two weeks to be ready for the opening of the second half and some of the players have shown a vast improvement over their former playing.

The schedule:
Mechanics vs. Eagles, Feb. 13.
Heptasophs vs. Red Men, Feb. 14.
Heptasophs vs. Mechanics, Feb. 22.
Eagles vs. Red Men, Feb. 25.
Mechanics vs. Red Men, Feb. 27.
Heptasophs vs. Eagles, March 1.
Mechanics vs. Eagles, March 6.
Heptasophs vs. Red Men, March 8.
Heptasophs vs. Mechanics, Mar. 15.
Eagles vs. Red Men, March 18.
Mechanics vs. Red Men, March 21.
Heptasophs vs. Eagles, March 25.
Mechanics vs. Eagles, March 27.
Heptasophs vs. Red Men, March 28.
Heptasophs vs. Mechanics, April 5.
Eagles vs. Red Men, April 8.
Mechanics vs. Red Men, April 10.
Heptasophs vs. Eagles, April 12.

EAGLES START AGAIN

Beat Quoit Team of Jr. O. U. A. M. in First Games

The second half of the Fraternal Quoit League got under way Monday night when the K. G. E. team started out for another pennant by beating the Jr. O. U. A. M. two games out of three. One of the largest crowds that has attended any of these quoit games was on hand and anyone passing down Main street surely heard the loud rooting of the fans.

The score:
K. G. E. 21 21 16
Jr. O. U. A. M. 7 20 21

The players for K. G. E.—Fulton, Craig, Lovett and Boulden. Jr. O. U. A. M.—Keith, Whiteman, McMullen and Colmery.

In the second set of games played Tuesday night, the Heps took three games from the Red Men. The games were all well played and there was much excitement. The score:

Red Men 16 13 9
Heptasophs 21 21 21

Red Men—Smith, Walraven, Morris, Krapf. Heps—Ellison, Lindell, McMullen and Davis.

Babe A Holdout

Among the long list of holdouts on the Yankee roster Babe Ruth is the greatest. And there is no longer any doubt that the Bambino is a full-fledged member of the holdout colony.

With the start for the preliminary training camp at Hot Springs only one day away there is a difference of \$35,000 separating Babe and his club owners, Colonels Ruppert and Huston.

Babe has not taken one step backward from his demand of \$75,000 flat and \$500 extra for each home run, with no deduction for the thirty-eight playing days he will miss because of his suspension. The Yankee colonels knowing they will have to raise their bid, stand pat at \$40,000 and \$500 per home run.

Reds Pay

The Cincinnati National League baseball club declared a dividend of 20 per cent last year, the same as in 1920, according to the report of President August Herrmann, presented at the annual meeting of the stockholders.

Prospects for the coming season are bright, not only from a financial standpoint, but also for a fine team, which, with several new players, is expected to make a better showing than last year.

Some Pitching

Bill Doak, who led the National League pitchers last season, suffered from an injured ligament in his right elbow, pitching arm, the entire season, it was learned last week for the first time when officials of the Cardinals received the signed 1922 contract. Doak wrote from his home in Pittsburgh, Pa., that the trouble had been corrected and his arm was in splendid condition. He explained he did not mention his ailment last season as he knew "ball players receive no sympathy."

BIG SALE

Lomax's Establishment Sold Last Thursday at High Prices

It has been a long time since a public sale has created the interest that the one held at the farm of Samuel C. Lomax last Thursday created. A County Fair could not have attracted many more persons. There were automobiles here, there and everywhere and it reminded one of some big pleasure event.

Not only was the crowd a large one, but those that were present came with the purpose of buying and realizing the grade of material that was offered them, sent the prices higher than at any public sale held in this section this season. Horses brought from \$150 to \$180; cows, all of which were of a high grade, brought \$160 to \$192. Live pigs brought 14¢ cents per pound and chickens 35 cents per pound. Beside the live stock, farming implements were also sold and brought good prices.

William S. Armstrong, who was the auctioneer, has been in this game for many years and stated yesterday that he had never conducted a more successful nor well attended sale.

Public Sales

February 16th—Eddie Clark, near Ogletown. Horses, cattle and farming implements, 12 o'clock.

February 18—Household goods, Robert Morrison, West Main Street, Newark; 1 o'clock.

February 22nd—Elizabeth Englemann, three miles south of Glasgow. Horses, cattle and farming implements, 11 o'clock.

February 23rd, C. W. McElwee, one mile east of Newark. Horses, Cattle, sharp.

February 25—Household goods, Ollie Miller, Wilbur Street, Newark; 1 o'clock.

March 2nd, Charles Krapf, Creek Road, real estate and personal property. Sale at 1 o'clock.

March 3rd, Thomas Swayne, near Flint Hill Church. Horses, Cattle and Farming Implements. Sale at 1 o'clock.

Auto Smash

When a rear wheel on the sedan of Dr. Steel "dished" on Thursday night several occupants of the car had narrow escapes from injuries. The accident happened on Depot Road opposite the Women's College. Paul Steel was driving the car at the time. It skidded on the slippery road and the wheel came in contact with the remains of a snow drift.

Mix 'Em Up

One is offered real variety at Calhoun's store in Harbeson, Del., if the following classified adv. in the Milford Chronicle is any indication.

For Sale—At Calhoun's Store, groceries, soft drinks, &c. One pair

of mules, 5 and 6 years old; also one horse, five years old. All good stock. We also have moving pictures at

7.30 every Saturday evening. Give me a call if you want a shave or hair cut. Joseph Calhoun, Harbeson, Del.

ATTENTION TO EVER SWEET DAIRY

Small Dairies often have as good milk as large dealers.

For cleanliness and sanitation, why not select the Dairy attended to by the man who owns it. Hired-help is the same in Dairy work as in House work—they have not the same interest.

I own a herd of Guernsey and Jersey cows. I am proud of them. I care for them myself. I do the milking, the bottling, and make the deliveries.

The result is

Pure Clean Milk

Ivy Castle Installs Officers for Year

Over 100 Persons Present at Big Event on Last Saturday Night

The Ivy Castle, No. 23, K. G. E., installation last Saturday night was largely attended. Members from all sections of the State were present. An orchestra, composed entirely of Eagles, rendered excellent music, which included some lively selections suitable for the occasion and several excellent solos. Many silver-tongued orators were present and made addresses that will long be remembered. Great praise was given Grand Noble Chief Robert J. Crow and the members of Ivy Castle in general for their great success. At the conclusion of installation which was performed by a well-drilled team that created much admiration and applause, refreshments were served.

The following officers were installed for the ensuing term:

P. C., H. T. Capel; N. C., W. Taylor; V. C., A. S. Orr; H. P., W. Astle; V. H., F. Davis; M. of R., R. D. Edmanson; K. of E., J. Johnston; C. of E., H. C. Fulton; S. H., J. J. Boland; Rep., H. W. Gregg; Trustee, R. J. Crow; F. G., H. G. Roberts; S. G., W. Keith; W. B., R. Foraker; Esq., A. Anderson; Ens., J. Greenpalte, and W. C., A. Barnett.

Among those present were: Lewis W. Colmery, Hockessin; H. Vernon Lynam, Richard L. Lynam and Oliver C. Lynam, Jr., of Stanton; F. J. Merriek, Delaware City; George Waters, Christiana; Gregg Lynam, Stanton; J. Lynam McAllister, Stanton; L. B. Colmery, Hockessin; Wm. H. Huggins, Pencader; H. T. Staats, F. A. Ginn, T. S. Enos, Levi Lattomus, Jr., H. W. Naylor, of Appoquinimink, No. 19, Townsend; Jas. B. Frazer, New Castle; R. P. Frazer, Elkton.

A large delegation from Wilmington was present. The following from Newark and vicinity were present: Grand Noble Chief, Robert J. Crow, R. D. Edmanson, T. A. Anderson, H. C. Fulton, Irving Crow, Warren A. Singles, Benj. Eubanks, W. V. Heavellow, Francis G. Maclary, J. K. Chambers, A. Whiteman, J. E. Jaquette, Jos. F. Brown, D. W. Sheppard, W. S. Ring, J. W. Anderson, John A. Johnson, Chas. W. Keith, H. T. Capel, R. Foraker, J. Jones, Geo. H. Roberts, W. W. Roberts, Wm. Lloyd, A. S. Barnett, J. T. Anderson, A. S. Orr, W. H. Astle, J. F. Davis, G. C. Whiteman, Wilmer Sheppard, W. O. Durdell, Wm. H. Harrington, J. T. Wilson, N. J. Brown, Jas. P. Greenplate, Wm. J. Lovett.

K. of P. Class

On Friday night Oscela Lodge No. 5, K. of P., will take in a class of about 5 candidates. All members are urgently requested to be on hand for this affair.

MECHANICS ACTIVE

Go To Newport Tomorrow Night; Membership Campaign On

Tomorrow night will be a big one for the American Flag Council, Jr. O. U. A. M., when the local lodgemen will journey to Newport to install officers in the lodge there.

Deputy Henry F. Mote will lead the local lodgemen in this trip and a big time is assured for all those who attend.

The American Flag Council is conducting a drive for members at the present time and a very interesting proposition is being put up to the young men of the town, who might wish to become members of this lodge. This drive has already resulted in many new members being obtained and as it will continue until March 31st, everyone will have a chance to get in on the ground floor in one of the strongest organizations in the town.

RED MEN'S DOINGS

Grand Chiefs Will Make an Official Visit

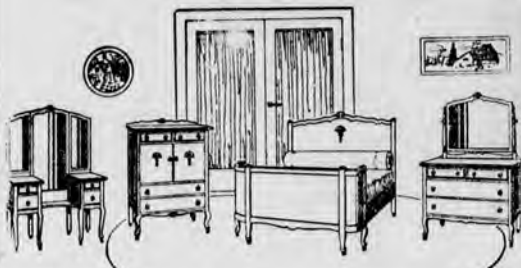

The first visit of the Grand Chiefs of the Red Men will be made to the local lodge, Minnehaha, No. 23, I. O. R. M., on Tuesday evening, February 21. This will be a big event and every member of the lodge is requested to be on hand.

The following visitors are expected: Great Sachem, Charles J. Coleman; Great Senior Sagamore, Harry V. Tubbs; Great Junior Sagamore, James Faulkner; Great Prophet, Emory B. Riggins; Great Chief of Records, Edward McIntire; Great Keeper of Wampum, J. Carl Barber; Great Sannap, James B. McManus; Great Mishinewa, Stephen J. Barcus; Great Guard of Wigwag, James H. Bedford, and Great Guard of Forest, Ralph K. Hill.

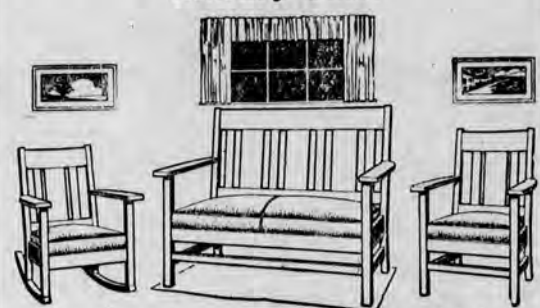

Several of these officers will deliver addresses and "after the Council fire

Missionary Meeting

Last Thursday, February 9th, the regular monthly meeting of the W. H. M. S. of the Newark M. E. Church was held at the home of Mrs. Pilling. The meeting was called to order by the President, Mrs. McNeal, and opened with singing "Out of the

Depths." The devotions were in charge of Mrs. Butler. Reading of the 23d chapter of St. Luke was followed by a reading by Miss Florence Butler, and closed with prayer. Reading of the minutes of the last meeting by the secretary, Mrs. William, followed by roll call. Mrs. H. Wright had charge of the Enigmas.
