

# CLIMATOLOGICAL DATA

15 MARYLAND AND DELAWARE SECTION

J. R. WEEKS

PRICE: 5 CENTS A COPY; 25 CENTS A YEAR

VOL. XLII. BALTIMORE, MD., APRIL 1938 No. 4

## GENERAL SUMMARY

This was the mildest April since 1929 and the driest April since 1926. The 2d-11th was cold and windy. Periods of cloudiness were 6-9th and 16-18th. Periods of abundant sunshine were 3d-5th, 10-15th, 19-20th, and 23d-29th. Monthly sunshine was normal.

Light to heavy hail fell over an area 20 to 25 miles wide and 110 to 115 miles long, from southern Montgomery County and the District of Columbia east-southeastward to the coast of Sussex County, in the afternoon of the 29th.

Light snow fell on the 2d, 3d, 9th, and 10th and snow flurries occurred on the 4th in the Allegheny Mountain region; snow flurries occurred on the 3d, 6th, and 7th over the northern portion of the section eastward thereof.

Grains, grasses, and pastures were mostly good to excellent. Early pea plants, early oats, and tobacco plants in beds were good stands. During the third decade wheat was jointed; rye and barley were heading or were headed; strawberry plants were blooming and fruiting; early potatoes planted in March were up; planting corn began; tree fruits were setting or were set, except apple trees were in full bloom in the Allegheny Mountain region.

Freezing temperatures and frosts of the 11th damaged peach and pear blossoms and strawberry buds in the eastern and central divisions and of the 23d and 24th damaged peach and pear blossoms and apple and strawberry buds and blossoms in the western half of the section. — J. B., jr.

## TEMPERATURE

The monthly mean for the section, 54.8°, is 3.0° above normal. The highest monthly mean was 58.5° at Crisfield; the lowest, 47.2°, at Sines. The highest temperature, 94°, occurred at Cumberland on the 27th; the lowest, 19°, at Mt. Savage Summit on the 10th. The greatest local monthly range was 69° at Hancock (Tonoloway); the least, 44°, at Delaware Breakwater. The greatest daily range was 49° at Oakland on the 28th.

## PRECIPITATION

The monthly average for the section, 1.77 inches, is 1.68 inches below normal. The greatest monthly amount was 3.45 inches at Sines; the least, 1.13 inches, at Hancock (City). The greatest 24-hour amount was 1.23 inches at Maryland Line on the 18th. The monthly average snowfall for the section, 0.2 inch, is 0.9 inch below normal. The greatest monthly snowfall was 4.5 inches at Friendsville. The average number of days with 0.01 inch or more of precipitation, 8, is 2 below normal.

## MISCELLANEOUS PHENOMENA (WITH DATES)

Glaze, heavy: Allegheny Mountain region, 8-9.

Heavy hail of 29th, damage by: Size of marbles to golf balls, hen eggs, and lemons. At Washington, greenhouse glass, \$100,000. At Shadyside, considerable to crops. At Wittman, Claiborne, and St. Michaels, many roofs and auto tops pierced, many window panes broken, some poultry killed. Between Easton and Cordova, many window panes broken, loss of crops

\$10,000. Near Federalsburg, hail 2 inches deep over 5-mile area, 72 large glass panes of one greenhouse and \$150 of glass in another greenhouse shattered, loss of strawberries and plants was heavy. In the Seaford-Bridgeville-Georgetown area, loss of tree fruits, strawberries, and asparagus was heavy.

Lightning killed 3 of 4 cows in barn near Denton on 20, and destroyed barn at Denton and an outbuilding at Oxon Hill on 29.

Thunderstorms and high thundersgusts: 18, 20, 29, 30.

Tornado of 18th: From Newark (3 p.m.) northeastward (Continued on page 14)

The departures from normal temperatures are computed from the averages of the entire period for stations having 10 or more years of record. Departures of precipitation with 15 years or more of record are computed from a normal or "standard mean", adjusted to a uniform 35-year period; for stations of 10 to 14 years the means for the period of record are used. Data in italics determined from surrounding stations. Precipitation is less than 0.01 inch rain or melted snow.

I Post addresses of these stations are as follows: Of Bell, Glendale; of Coleman, Worton; of Fallston, Bagley; of Frostburg, Owings; of Great Falls, Bethesda; of Mt. Savage Summit, Frostburg; of Odessa, Middletown; of Picardy, Paw Paw, W. Va.; of Pleasant Hill, Owings Mills; of Sines, Oakland. \*\*Custom House, Gay and Water Sts.

\*\*Weather Bureau Building, 24th and M Sts. †Also on other dates. ‡Northwest of Frostburg. §§§Municipal Building. ¶¶¶Prettyboy Dam. §§§§Porter Reservoir.

(Continued from front page)

through Wilmington (3:30 p.m.) to Edgemoor (3:35 p.m.). At Edgemoor: Large sections forced outward from adjoining brick walls of railroad shops, loss \$20,000; 14 garages in one unit wrecked and 2 autos damaged, loss \$6,000; power-house unroofed, loss \$5,000. At Wilmington: Number of homes and a garage unroofed, loss \$2,000; 4 large plate glass windows shattered, loss \$350; tents and equipment torn, loss \$1,000.

At Edgemoor: Large sections forced outward from adjoining brick

Daily Precipitation for April 1938

Table with columns: Stations, Drainage basin, Day of month (1-31), Total. Rows include Maryland (Aberdeen to Laurel) and Delaware (Bridgeville to Wilmington). Data includes precipitation amounts and trace indicators (T).

Except as otherwise indicated, observations are generally made late in afternoon, near sunset, and precipitation recorded is for the 24 hours ending at time of observation.
\*\*\*Regular Weather Bureau station; precipitation is for the 24-hour period, midnight to midnight.
\*\*Precipitation is for 24-hour period, midnight to midnight.
|||Precipitation measured in the morning; amount then recorded is for the preceding 24 hours.
T, Trace, or less than 0.01 inch.
§Northwest of Frostburg.
§§Prettyboy Dam.
§§§Municipal Building.
§§§§Porter Reservoir.
\*Precipitation included in following measurement.

Daily Temperatures for April 1938

Table with columns: Stations, Day of month (1-31), Mean. Rows include Delaware (Bridgeville, Delaware Breakwater, Delaware City, Dover, Milford, Millsboro, Odessa, Wilmington). Data includes maximum and minimum temperatures.

Daily Temperatures for April 1938 - Continued

Table with columns for Stations, 31 days (1-31), and Mean. Rows list various Maryland and Delaware locations such as Aberdeen, Annapolis, Baltimore, etc., with their respective daily temperature readings.

§§Instruments are read in morning; maximum temperature then read is charged to preceding day, on which it almost always occurs. Temperatures at Aberdeen, Annapolis, Baltimore, Conowingo Dam, Dundalk, Sines, and Washington are from midnight to midnight; other stations, except Cheltenham and Cumberland, are for 24-hour period ending late in afternoon, near sunset.
