B. Resolutions:

1. Recommendation from the Committee on Undergraduate Studies (Jeff Jordan, Chair) and the concurrence of the Coordinating Committee on Education (Avron Abraham, Chair) and the Executive Committee (Charles Boncelet, Chair) for a new major in Sport Management ([attachment](#)) ([attachment](#))

Whereas, each year a significant number of entering students have an interest in careers in sport management and wish to be academically prepared for such employment, and

Whereas, the Department of Health, Nutrition, and Exercise Sciences has existing faculty and courses to support the offering of a major to package the courses and practicum experiences necessary to provide this preparation, and

Whereas, the Sport Management program has been successful since 2001 as a concentration within the Health Behavior Management major, be it therefore

Resolved, that a new major be established in Sport Management within the Department of Health, Nutrition, and Exercise Sciences **on a provisional basis subject to review after five (5) years (red print is a friendly amendment made at Faculty Senate meeting 3-7-05).**

2. Recommendation from the Committee on Undergraduate Studies (Jeff Jordan, Chair) with the concurrence of the Coordinating Committee on Education (Avron Abraham, Chair) and the Executive Committee (Charles Boncelet, Chair) to add a New Coastal and Marine Geoscience Minor – Geology Department ([attachment](#) revised 2-1-05) ([attachment](#) revised 2-1-05)

Whereas, the establishment of a minor in coastal and Marine Geoscience would allow students interested in this area to focus their studies and to identify their expertise more clearly for the purpose of employment and post-graduate study, and

Whereas, the establishment of this minor does not require the additional of any new courses or library resources, and

Whereas, existing courses and resources will support parallel proposals to establish a new track within the Environmental Science (ENSC) major and a concentration in Coastal and Marine Science within the Department of Geology, be it therefore

Resolved, that a minor in Coastal and Marine Geoscience be established within the Department of Geology to accommodate students who are interested in this subject.

3. Recommendation from the Committee on Graduate Studies (Charles Mason, Chair) with the concurrence of the Coordinating Committee on Education (Avron Abraham, Chair) and the Executive Committee (Charles Boncelet, Chair) for an extension of permanent approval of the Ph.D. in Entomology and Applied Ecology([attachment2-14-05](#)) ([attachment 2-14-05](#)) ([attachment](#)) ([attachment](#))

Whereas, the Ph.D. program in Entomology and Applied Ecology was initiated September 1, 2000, after provisional approval by the Faculty Senate in 1999, and

Whereas, the expected time for completing a doctoral degree in this field of study for fulltime students is three to four years after earning the master's degree and five to six years following the bachelor's degree, and

Whereas, the Department of Entomology and Wildlife Ecology, which administers this program, up to this point has recruited a respectable number of well qualified students for this program, has four students holding a master's degree who are making satisfactory progress in the program, and has 10 out of 30 students in the department's two master's programs who have excellent potential for continuing in the Ph.D. program, and

Whereas, based on the need for a program of this nature to have seven years at a minimum to recruit applicants and reach a point of successfully graduating students, and the belief that this program is making satisfactory progress, the Committee on Graduate Studies recommends that the Ph.D. program in Entomology and Applied Ecology be granted a three-year extension before review for permanent status, be it therefore

Resolved, that an extension of three years is granted for the provisional status of the Ph.D. Program in Entomology and Applied Ecology, which will then be reviewed for permanent status during the 2007-2008 (red print is a friendly amendment made at Faculty Senate meeting 3-7-05) academic year.
