Seniors Party After Finals

See Below

Vol. 76

The University of Delaware, Newark, Del., May 20, 1955

In a sudden reversal of form, officials of the Delaware General Assembly in Dover have indicated that the university's budget for the 1955-57 biennium will be restored to the \$2,330,000 originally requested by the school administration.

ongitally requised by the school administration.

Former Governor Elbert N. Carvel, chairman of the state Democratic Party which now controls the legislature, made the announcement last Monday night that an amendment to the appropriation bill introduced last is being drawn up and will be introduced in the House by representatives of his party.

The revamped bill would increase by \$784,330 the amount originally proposed last week. It would also be an increase of \$213.870 over the present budget of the university.

The recent announcement

get of the university.

The recent announcement came on the heels of a statement issued last week by President John A. Perkins to the effect that a drastic cut in the budget, such as the one introduced last week, would seriously hamper the university's program.

In making the announcement of the proposed amendment Mr. Carvel called on both political parties to support the bill. He added:

parties to support the bill. He added:

"The university is a positive force in the state, and the future leadership of the state depends on the kind of education given at the university.

"I do not thing the university is asking for a cent more than it needs. It is constantly losing its personnel to business or other colleges because it has not been able to meet the competition of higher salaries elsewhere.

"If the university is to continue its excellent progress of the past 10 years, it should receive the request originally made to the Permanent Budget Commission."

Elise Wise To Be President Of KDP For Coming Year

Elise M. Wise was recently elected president of Kappa Delta Pi, honorary education society. Other officers are: Betty Timmons, vice president; Mickie Mayo; secretary; Shirley Hanby, treasurer; and Louise Ferdon, historian.

Military Forces Hold Open House On UD Campus

Armed Forces Day will be ob-served by the Military Delart-ment of the University of Del-aware today.

aware today.

The open house will be held between 1:30 p. m. and 6 p. m. in the new Reserve Officers' Training Corps Building at the university in Newark. Residents of the State of Delaware and surrounding areas will have the opportunity to observe the various types of equipment and training aids utilized in the presentation of the four year ROTC General Military Science Course.

Upon the completion of view-

Upon the completion of viewing the various types of displayed equipment, the visitors will be shown the latest ROTC color film, "Army ROTC, Learn Today, Lead Tomorrow."

Relatives and friends of stu-dents at the university are es-pecially invited to attend the open house.

Editor Announces Blue Hen Available To Students Today

The 1955 Blue Hen can be obtained by students in the Blue Hen office today.

The yearbooks arrived yes, terday and distribution to the students began at 3:30 p.m.

Editor Jake Smith has an-nounced that this year's edition of the Blue Hen is featuring a sports section of over forty pages, of the blue had specified and fine arts, sports, dormitories, activities and publications, Each section will be introduced by a representative photograph.

Color photography has been utilized on the cover and in the opening sections of the book. An impressive aerial photo of the campus greets the reader as he

Legislature To Receive Amendment To Reinstate Chicital Budget Request Seniors End 4-Year Term In Annual Weekend Spree

The last big fling of the college year will begin on Thursday, June 2, and last through Sunday night, June 5, as the seniors plan to "rock the joint and have themselves a ball," at their annual weekend.

This year's event, having been arranged by class president, Dick Saunders, will open with the Senior Ball in the Gold Ballroom of the Hotel DuPont in Wilmington and conclude with commencement evenies.

open with the Senior Ball in the Gold Balloon of the and conclude with commencement exercises.

Other activities during the long weekend include a senior class party at the Italian-American Club in Kennett Square, a picnic at Crystal Beach Manor on Saturday and a luncheon on Sunday.

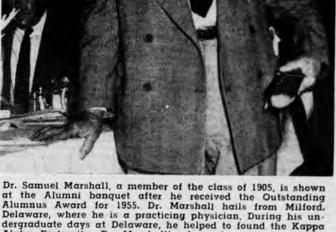

The Ball which is formal with The Ball which is formal with corsage optional, will last from 9 to 1 Thursday night at the Hotel DuPont, with music for dancing provided by Freddy Difurio, and his Melody Kings. It is open for all seniors graduating in February, June or September 1955 and their dates.

Dance music by Harry Berkow-itz and his band will highlight the Senior Class Party on Friday at the Italian-American Club. The affair will get underway at 9 p. m. and the seniors will lit-erally "take over the place."

Crystal Beach Manor on the shores of the Chesapeake will be the scene of the class picnic which is scheduled to get under way at 12:30 p. m. on Saturday. Swimming will be the order of the day for the seniors and their dates. This will be the last splurge for the class of '55.

Sunday's commencement pro-gram will include a luncheon in Kent Hall beginning at noon for the graduates, their parents and friends. friends.

Free lates until 2 a.m. will be allowed women students who are staying in the dorms on Thursday and Friday nights and planning to attend the Ball and party.

Dr. Samuel Marshall, a member of the class of 1905, is shown at the Alumni banquet after he received the Outstanding Alumnus Award for 1955. Dr. Marshall hails from Milford, Delaware, where he is a practicing physician, During his undergraduate days at Delaware, he helped to found the Kappa Alpha Fraternity. Dr. Marshall's class also won honors for having the best percentage of their membership present.

Librarian Retires Following 34 Years Service To School

Miss Ethel D. Campbell

Miss Ethel D. Campbell
Soon one of the more familiar sights of the library will be no more. Miss Ethel D. Campbell, who has been in the service of the university since 1921, is retiring. When Miss Campbell first began to work here she had a part time summer job in the men's library, which was then located on the corner of Main Street and South College Avenue. The library was housed in a building which had formerly been an old tavern and print shop.

shop.

During the summer she worked in the men's library. Miss Campbell became so interested in it that she kept her job permanently. Four years later when the men's library was merged with the women's library, then located in Warner Hall, she moved with it. Her comment on this merger is: "The boys had to sit on one side of the room and the girls on the other, something which would seem unusual today."

Miss Campbell is originally from Newark. She took an extension course here at Delaware after which she taught school for five years. The next five years she worked for the Continental Fiber Company. A year later she began working for the university.

Upon retirement, Miss Campbell hopes to be able to travel.
Meanwhile, she'll rest and enjoy her favorite pastimes of reading, gardening and playing the

The time is coming when the seniors will graduate, going on to either more advanced work in their particular field or into a job, As not all the seniors have accepted jobs or been awarded fellowships as yet it is impossible to give a complete account of their plans for after graduation, but the following will give you an idea of the varied fields they are going into.

dramatic art majors have definite plans for next year. Turner Edge has been awarded an assistantship and tuition scholarship at Cornell University in the School of Speech, where he will pursue studies toward a Master's Degree in Dramatic Arts. The assistantship will involve technical supervision of the University Theatre production work. tion work.

Judith B. Kase has been awarded a full-time scholarship at Western Reserve University, Cleveland, Ohio, where she will study for her Master's Degree in Dramatic Arts.

study for her master's Degree in Dramatic Arts.

In the field of art, Joan Stokes has been awarded Miss Smyth's Prize. This gives her a chance to continue in the creative field of art and painting. Stephen M. Amos is to do graduate work in the Cranbrook Academy, in Detroit, Michigan, He will study design and sculpture for a Master's Degree in Fine Arts.

Engineering students have received fellowships and job offers from various industries in their field. They will mainly be going into electronics, aircraft, chemical equipment, civil service research laboratories and the employment of large manufacturing companies such as Dupon's Westinghouse.

the employment of large manufacturing companies such as DuPont's Westinghouse, General Electric, Sun Oil, Ingersoil-Rand, R. C. A. Lockheed Aircraft and Convoir.

Students from the department of Business Administration will enter into insurance and sales training programs and employment of the Armstrong Cork Company and Scott Paper Company. Accounting students have opportunities with some of the aforementioned companies and the U. S. Government General Accounting Office,

counting Office.

UD Sophomore, David Collins Constructs Mechanical Brain

curiosity of an eleven year old boy slowly closed the gap between the two extremes. Ever since the age of eleven, when David Collins, now a sophomore at the University of Delaware, was given his first crystal set, he has developed a keen interest in electricity. The building of the crystal set led to the construction of a one tube radio, a two tube set, a "ham" set and finally to a computer.

During his senior year at Overbrook High School. Far from the simplicity of the crystal set lies the complexity of an electric computer, but the curiosity of an eleven year old curiosity closed the gap be-

two tube set, a "ham" set and finally to a computer.

During his senior year at Overbrook High School in Philadelphia, Collins read of an electric computer built by Dr. Barkeley of the University of California. He became fascinated with the operation of this machine, which was named Simple Simon, and decided to attempt to build a modified version of it. Old pin ball machine parts, a kitchen cabinet, and one and a half years of designing and building finally produced the finished product; an electronic computer that could add, find roots, subtract, multiply and divide.

This machine was only the beginning, for in the same year Collins dismantled his computer and reconstructed the parts into an analog type computer which was capable of performing the mechanics of simple arithmetic plus being able to plot trigonometric functions on a graphing machine or a television picture tube.

His efforts were rewarded

His efforts were rewarded when the Philadelphia Science Fair, sponsored by the Franklin Institute, presented him with a prize. In that same year, 1953, the design and machine awards were presented him by the Philadelphia Industrial Arts Council. Under the auspices of the Ford Company, in Dearborn, the designs for the computer won an honorable mention in a national high school student contest.

During the summer following

high school student contest.

During the summer following graduation Collins worked in the RCA computer research department, where he gained valuable experience from working with scientists and mathematicians on the Mirabit Memory, a magnetic storage system.

Upon entering the U of D, he decided to major in electrical engineering, and during his freshman year he became connected with the Spitz Laboratories, Here he began the project of developing a simplified automatic remote control system for planetariums.

The summer of 1954 found Dave in another computing lab. This time it was at the ballistic

Professor Hanson To Address Meeting Of UNESCO Group

Dr. Perkins Tells Conference **Grants Become Investments**

This conference, sponsored by the American Academy of Politi-cal and Social Science, Is being held for the purpose of discuss-ing problems of financing higher education in the United States.

Stressing the fact that capital granted to a university is an investment for the young people of tomorrow." Dr. John A. Perkins President of the university is learding a discussion on "Government support of Public Universities and Colleges" at the James Conference which is being held today and tomorrow at the University of Pennsylvania. This conference, sponsored by the American Academy of Political and Social Science, is being held for the results of the colleges that the public institutions emphasized the sciences. Hence the public universities are trying to meet the needs of the country.

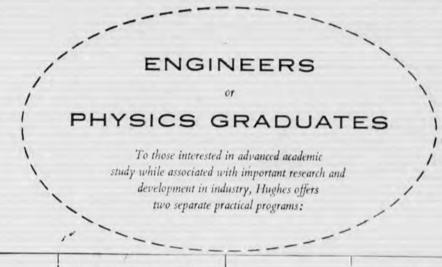

Developing the idea of state in the colleges are the public institutions emphasized the sciences.

the American Academy of Political and Social Science, is being held for the purpose of discussing problems of financing higher education in the United States.

A paper on this topic was submitted some time ago so that the other participants could become familiar with it.

"There can be no short distinctions between public and private institutions as all seem to receive subsidies of some type," states Dr. Perkins. But "In view of the rising enrollment crisis, the public schools will bear the needs of the occurry.

Developing the idea of state aid, Dr. Perkins continued that there are many problems concerning the funds. As the people already pay federal tax, it is difficult to give much non-state revenues. If, however, they realized the importance of the land grant colleges purposes the problem would be solved. When they deem something important they deem something important they did not provide that there are many problems concerning the funds. As the people already pay federal tax, it is difficult to give much non-state problem sould be solved. How Much

Is Delaware Worth?

How much does a university contriblute to making its students successful, and conversely, how much do successful students mean to a good university? The answer in both cases is simple - plenty.

The name or prestige of a university depends upon more than the yearly football rating, fraternity parties and social functions, or even the scholastic attainments of its students. It depends on the post-graduate achievements of its students. On the other hand, the name of the school helps to obtain a better job school helps to obtain a better job.

Going on the assumption that a good university has been established, that university must maintain and increase its who will in turn preserve its prestige. The university must maintain its research, library and the quality of its teaching facilities in order to keep putting out "tomorrow's

In this country, Harvard University is symbolical of higher learning. In a similar sense, other colleges including the University of Delaware have achieved this symbol. But in order to maintain it, each university needs a source of funds to furnish needed facilities. At Harvard the source is high tuition and a large endowment. In Delaware the sources are tuition for out-of-state students, endowments and funds from the state legislature.

If the income of a growing school drops, everything will eventually suffer. Scholarships, teacher standards, campus maintenance and library facilities will all decline. Sooner or later, student quality will suffer.

We are sure that no student or alumnus of Delaware wants to see our university fall into decline, especially after the advances made in all fields during the past few years.

It then remains our job to make sure the people of Delaware, and more particularly the legislature know how we feel about losing dollars and thus losing the chance to improve our "sense."

Polio Injections Loom In Future For UD Students

No matter where you go to No matter where you go today, or what newspaper you
pickup, the Salk Vaccine question claims your attention.
When it first appeared, it was
said that there were no significent effects. Recent headlines
have led people to believe otherwise. It is not known how many
cases of polio have been caused
by the injections, and it cannot
be answered at present.
This controversy has led the day, or pickup,

This controversy has led the Review to ask Dr. Keppel here at the university his opinion of the vaccine. Dr. Keppel said, "Despite the recent headlines, it will be a tremendous asset. It is true for this summer, however, that it will be advisable for people not to have operations because of the hazard of polio."

Commercial vaccine is ex-

because of the hazard of polio."

Commercial vaccine is extremely limited, and there will probaby no supply for private practioners in Delaware before the middle of July or August. It will be eight or nine months before the student population will be in a position to be protected because of the relative shortage of the vaccine. When it is finally made available to college students, the injections will be made here on campus.

Impressions

By Nancy Stewart

As stated in an editorial in last week's REVIEW, a proposed cut in the 1955-57 budget of the university was included in a general appropriation bill introduced into the Delaware Legislature. Here are some student opinions concerning the proposed reduction.

Joe Evan: If there was a cut, there would be a direct correlation between wins and losses in the football team. A lot of ball players would be unable to return.

Vince Landi: It might not affect the school now, but eventually they would not be able to get many athletes here. Usually, athletes make the name of the chool prominent

goes through, the standards of the school as a whole would go

oom Duff: If the cut goes through, there will be less money available for research. Since research is the life-blood of the university, the entire school would suffer.

school would suffer.

Bob Wood: If the cut goes through, there will be an increase in the tuition for out of state students. They contribute to the life of the university, and with the increase in tuition, many will be unable to attend, and the school will suffer a definite loss.

Carol Carlson: I think the cut is a poor idea. The university would certainly suffer in many ways. The number of out-of-state students would decrease and many improvements would be curtailed.

For Seniors Only

Don't Quit Your School

This is for seniors only! About this time of year everyone begins telling graduates farewell and plays "Hearts and Flowers." We would like to try a different approach and remind you seniors that school doesn't stop with graduation. You'll find work will never cease, and part of the work should be in the direction of being good alumni. alumni.

Besides obtaining an education here, you have met people and learned how to get along with others. This is just the stepping-stone to business life. There you will

continue making new friends.

Some reasons prompted you to choose Delaware over other schools. As alumni why not try to prompt others to enjoy what you enjoyed?

When leaving home to come to college you didn't forget your family completely; they were still there in the hole.

your family completely; they were still there in the back-ground. In the same way college should not be forgotten once the diploma is obtained. Encourage people to come

to the university, support needy causes at Delaware, retain an active interest in the university after graduation.

As we said before, we are trying to avoid the teary fare wells, so our parting word is, "See you around campus, even after June."

Taken For Granted

JACK GRANT

Today and for the foreseeable future the United States is in the position of world leadership. This is truly an amazing situation when you dwell upon the thought that of all history you are a part of that leadership. It is even more amazing when you think that of all the millions of people living in the world today you are a part of the highest living standard known to mankind and an integral part of the most developed form of government yet devised by free men.

It is only natural then, that this phenomenon should coincide with rising public interest in international relations and with heavy demand for expert personnel in this field. Institutes in many of our universities have been created to meet this need and undergraduate concentrations leading towards advance specialization in foreign affairs have also been established in a large number of institutions.

The above will hardly satisfy the need for our leadership however. In order to utilize our democratic form of government properly, all college educated people, at least, must be familiar with and interested in the problems which this leadership creates If such is not the case, our complacency might eventually result in the destruction of our institutions, if history can be expected to repeat itself.

tuition, many will be unable to attend, and the school will suffer a definite loss.

Carol Carlson: I think the cut is a poor idea. The university would certainly suffer in many ways. The number of many ways. The number of out-of-state students would decrease and many improvements would be curtailed.

Sigma Nu

This week, two more hearts of the brothers of Sigma Nu turned to love. Congratulations go to Ron Haines who pinned Mary Terrell, and Jim Thompson, who pinned Diane Carr.

Also congratulations go to Ed Malinowski, who was elected president of the Newman Club for the coming year.

With the advent of exams, many of the brothers are doing their studying on the veranda in the back yard contemplating a pre-season tan.

With this the last article until September, Sigma Nu would like to take this opportunity to wish everyone a happy vacation, and if the bedget cut passes, the legislature, we wish everyone a prosperous summer also.

"Pete" Warren Green

Kappa Alpha

With the day of final reckoning just about here, the KA social activities have been so few that it's hard to say just what's been happening, Studying? Well, study hours are being enforced 24 hours a day. However, Saturday there were the May Day activities, the Junior dance, a small pienic and sport car races in Wilmington.

Quite a few charter members of KA stopped in Saturday while visiting the university. Their opinion seemed to be that baseball just ain't what it used to be. We expect to see many more alumni tonight at our alumni smoker.

Last week our regional advisor, Brother Bill Graham, paid us a visit and offered his advice on some fraternal matters.

The brothers were all sorry to hear that Andy Lewis is visiting Memorial Hospital for a few days. He should be out in time for finals though.

Congratulations to Brother Sam Marshall on receiving the "Outstanding Alumnus Award" from the university.

Ed Braniecki

Phi Kappa Tau

The last day of school is almost here; man oh man, am I glad! After I take my eight finals, I'm going to sit in an easy chair and rest till I go to work in the summer salt mines. It seems as if every one at the house is stricken with an overdose of spring fever; nobody is doing anything! Spring is taking its effects in other ways than laziness. For example, Scobe went to Frenchtown and ordered a glass of water! What a shock.

Alpha Tau Omega

Congratulations to Brother Bill McNeill for being elected the most outstanding recently initiated brother. Congratulations are extended to Brother Al Woodruff, who will captain the tennis team next year and also to Brothers Gary Gill and Gary Hoffman for the fine job that they did co-editing the Slipstick. Congratulations also to Brother Tom Hopkins, who was initiated into Omicron Delta Kappa, honorary fraternity.

Now for a couple of news flashes, First, the numbers have been revised. The most fitting one at the present time is "Twenty-seven." Also, I hear that three brothers have signed an agreement to run "Cue Ball" Martin out of business by staying out of his establishment during final exams.

John Baker

Alpha Epsilon Pi

Finals are better than ever this year, according to what it says on the back of the final schedule. All the men at the cage are going Ape studying for them, Working diligently together are "Stan-the-Man" Sirkin and "Sid-the-Kid Kugler.

Wednesday the Apes had their last supper with Dr. Rosen, our advisor, as special guest.

Last week the house had a distinguished visitor, Miss Huntley Fairfax. We hope Miss Fairfax enjoyed her week here and will come back soon.

As the school year comes slowly to a close, we would like to thank "H. P." Maisel, "Pygmy" Klahr, "S. J." Handloff, "Finger Bowl" Gross, "Goose" Spivack, "Casey Jones" Goodman, "Rinso" Levy, "Third Platoon" Silver, man, "Nose Job" Sloin, "Mamie" Baker, "Andy Panda" Collins, "Pizza" Pizor, Spiros (The Golden Greek) Evnouchides, "Little lodine" Fisher, "Straight Arrow" Wilson and all others who made the year enjoyable for us. Congratulations to Jerry Rothstein on his acceptance at the University of Virginia.

Question of the Week: Where did the snowman go?

Alvin M. Rubinstein

Pi Kappa Alpha

seems as if every one at the house is stricken with an overdose of spring fever; nobody is doing anything! Spring is taking its effects in other ways than laziness. For example, Scobe went to Frenchtown and ordered a glass of water! What a shock.

Congratulations to Brother Garrett who pushed, his saves total in lacrosse over the century mark, and Brother Woodward who pitched himself a win last weekend.

Have a ball this summer and study up for next semester.

Bruce Stewart

This is "que pasa" back again after a week's enforced holiday to give all vou lucky students the inside word of the events on "Pike's Peak" for this week. The best thing that could happen is that the school year is almost over. With its termination there is to be a blast on the Jersey shore at the habitat of Piedge Jim Givens and his spouse! During the following weeks there will be others at the various beaches and homes of the brothers.

Throughout the semester there have been many romantic be-

among ginnings and endings the brothers and pledges. Who can say whether these romances will withstand the hot summer

will withstand the hot summer months at the lakes and shores? September will tell the story. Brother Reese Savage just spent the weekend in the infirmary with internal trouble. Was it the nervousness over your carthat made you sick Reese, or was it the late hours the carwas keeping? At any rate we're glad to see you with us again. This is the last column to be printed this year, so this writer will say so long until September to all the friends of Pi KA, and may they all have a terrific summer!

M. W. Riker, Jr.

Sigma Phi Epsilon

Coming into the homestretch, the Sig Eps found it hard to buckle down this weekend for the all important stretch drive. On Friday evening, the seniors and officers felt privileged to be able to attend the Alumni Reunion held at the Newark Country Club. The meeting was a true sign of the interest which the alumni has in the active chapter.

Saturday night saw many of the brothers dancing to the fine music of George Sommers. The brothers seemed to think that George's music was a little better than that which they heard at the last dance, Noted for keen eyes, a couple of the brothers escorted members of the Queen's court to the dance.

SPORTS PARADE

The Year In Review

FOOTBALL

The 1954 version of the Delaware Blue Hen football team began the season in a manner which was a portent of things to come. The Hens of '53 had only one blemish on an otherwise perfect record, an opening game 27-13 loss to West Chester; the Hens of '54 were out to avenge that loss. In the course of the afternoon no less than six Blue and Gold players had crossed West Chester's goal line while Delaware pounded out a 40-6 victory.

The good right arm of quarterback Don Miller accounted for 2 touchdown passes as the Blue and Gold blanked Lehigh's Engineers 21-0 on October 2 at Bethlehem.

Temple University and their star back, Tex Robinson were ground into the turf as the Hens stampeded to a 51-13 victory. Don Miller connected on six passes good for 167 yards as Delaware rolled up its highest score of the season.

Up to New Hampshire went the Hens, on the heels of Hurricane Hazel, Except for a fine two touchdown performance by halfback Jimmy Flynn the bruisers from Durham might have sunk "Admiral" Nelson's crew, but back from the Northern Wilds came the Hens with a 19-13 victory.

The UConns made the long trip from Connecticut only to become Delaware's 13th straight victim, 28-7. Sophomore fullback Johnny Oberg picked this game to make his bid for a starting berth and scored a pair of TD's.

The Blue and Cold met strip at Electron was associate.

The Blue and Cold met strip at Electron was associate.

By November 13 the Blue and Gold was mad as a "wet Hen" and loaded for bear. The Hens caught no bear, but Don Miller completed 11 of 18 passes for 183 yards and Jim Flynn scored 17 points as Delaware headed Lafayette a 41-7 pasting.

Delaware ended its regular season by stampeding Bucknell's "Bisons" 20-0. Don Miller's passes were good for 183 yards and one touchdown as the Hens buffaloed the "Bisons."

Among the other distinguished guests at the banguer will be

By far the biggest event of the football season, and probably of the whole sport year, was the post season Refrigerator Bowl Game played against Kent State at Evansville, Indiana.

With Little All-American Don Miller at the helm, the Hens downed this formidable ball club 19-7 on a cold, blustery day. Jim Zaiser scored two touchdowns, and Bob Moneymaker scored one. Jim Flynn made one extra point in three tries to account for the other point.

Summary:

the other point.

Summary:

The Hens picked up where they left off in '53 and narrowly missed having an undefeated season. Injured Captain Dan Ford's fullback slot was capably filled by Andy Wagner. Don Miller's aerial game and his quarterbacking along provided a well-balanced attack. All-around defense was good but a few holes appeared in the aerial umbrella.

Preview for '55: Capable replacements are needed for Steve Butcher, Marty Apostolico, Tom Redfield, Jim Flynn, Bob Trivits, and especially Don Miller, Return of Zaiser, Wagner, and half of the forward wall brighten the picture.

SOCCER

The Hens ended the season with an unimpressive record of 2 wins and 6 defeats in league play. They ended in third place behind a four-way 1st place tie, Washington College, Western Maryland, Drexel and Bucknell. However, the team boasted an All-American and two other linemen with all-league honors.

John McLaughlin took the honors as Delaware's only All-American. The speedy outside spends his spare time carrying 26 hours of academic credits and commuting from Chester, Pa.

Nick Paxson also landed honors as a lineman on the all league team. Following closely behind him is Bill Regester with honor-able mention on the all league team. Bill was ranked as the 4th leading scorer in the league, scoring 4 goals.

The Hen team managed 10 team scores to place 4th among the teams in the league. This is the first time in many seasons that Delaware has been able to match the opponents' total tallies. Another first recorded this season was the first shutout in 18 games, the feat accomplished by a smooth Drexel eleven. Delaware's 1954-55 basketball team was not quite as successful as their football counterparts were. In 22 games they compiled a mediocre 6-16 won-lost record.

The season began with losses to Hofstra 64-59, Lehigh 69-57 and Lafayette 86-62, Jim Smith's 23 points in the Lafayette game were no match for the Leopards 82 point barrage.

A 69-62 victory over Rutgers, with Jack Wodd.

A 69-62 victory over Rutgers, with Jack Waddington and Smith compiling 18 and 17 points respectively, provided the Hen's first win of the campaign. Kelleher bucketed 19 points in the next game but Johns Hopkins won 84-73.

The Hens returned from the Hofstra Invitational tourney with a 2-6 record. They defeated Cortland State Teachers 79-75 for their second victory; were walloped 115-68 by host Hofstra; and were set down 75-65 by Marietta in spite of Jim Smith's 24 point performance.

After the tourney they split a pair of ball games, losing to Drexel 88-70 and beating Ursinus 86-81; then the Hens went into a four-game tailspin. They dropped consecutive contests to Haverford 75-71, Pennsylvania Military College 68-56, West Chester 82-76 and Swarthmore 84-70.

Delaware's Nine To Meet Villanova Tomorrow For Last Game Of Season

Lt. General Smith To Greet Athletes At Annual Banquet

University of Delaware athletes will have an opportunity to hear one of the most cele-brated Marine generals of

berth and scored a pair of TD's.

The Blue and Gold met grief at Allentown on the 30th of October when an 11-Mule team led by tackle Tony "Dead-Eye" Saddler left them stranded on a victory-less desert, "Dead-Eye" Saddler's unerring aim was responsible for Muhlenberg's 14-13 win, as his two extra point attempts split the uprights perfectly.

They say lightning doesn't strike twice in the same place but you can't prove that by Delaware. Gettysburg didn't have Tony Saddler but they had Lou Soltesz who turned out to be his point-kicking partner-in-crime. Again extra points caused the Hens downfall as the Bullets came up with a 14-13 victory.

By November 13 the Blue and Gold was mad as a "wet Hen" and loaded for bear. The Hens caught no hear but Dow Mills.

General Smith was associate deditor of "The 1907 Derelict." class vice president in 1903, class president in 1904, a member of his class football team, active in YMCA work, and at various times, librarian, secretary and treasurer of the Athenean Literary Society. He also was a member of the debating team and the Sigma Nu Fraternity.

SPORTS REVIEW

(Continued from Page

Haverford broke the long losing skein by bowing 89-62 in a return performance, but Drexel spoiled the event by pinning 88-80 defeat on the Hens a few days later.

It seemed that the Hens had finally found themselves when they blasted Ursinus 96-66 and set a new Carpenter Field House record. The Blue and Gold's joy knew no bounds when Delaware rose up and slapped down mighty St. Joseph's of Philadelphia, long an eastern court power, by a score of 78-75.

This two game winning streak was too much for the Hens. They "lost" themselves just as quickly as they had found themselves and went into another four-game tailspin. The Hens lost to PMC 62-54, Swarthmore 80-78, Temple 87-62 and Muhlenberg 77-71.

WRESTLING

The Blue Hen wresting team chalked up a 4.4.1 record on the mats this year. They finished their season by finishing sixth in the Middle Atlantics which were held in Carpenter Field house. The Hens were led by Dale Boyd and Harold Ladd. Boyd fashioned α record of 5 wins and 1 loss in the 123-lb. class and placed second in the Middle Atlantic meet. Ladd, wrestling in the 147-lb. class, finished with a 3-2 record and also a second place in the Middle Atlantics.

Other grapplers who turned in good performances were Tom Baker, Tom Oves, Ed White, Jack Wenner and Herb Nickel. The prospect for the coming year is promising since Boyd, Wenner, White, Baker, Bill Bauer and Steve Voornees will all return.

SWIMMING

The 1954 Delaware swimming team ended its season with a disappointing 8-1 record and a third place in the Middle Atlantics. It was a complete reversal of the 1953 mermen who chalked up an 8-1-1 record and then topped it off with a Middle Atlantic championship.

championship.

The team was paced by Captain Bob Wagner who set new records for Delaware and the Middle Atlantics in the 200-yard breaststroke. Wagner also copped a first place in the Eastern Collegiate swimming championships at Rutgers.

Other top performers for the Hens included Tom Duff, Bruce Stewart, Bob Brubaker, Jack McDaniel and Marty Apostolico. Prospects for next season appear to be good with Duff, Stewart and Brubaker returning as well as a good freshmen team coming up.

sponsorship has now been taken which has been traditional for years.

May Day, as we know it now, has changed character somewhat since the early days of the Women's College. It was the custom then to set aside one saturday during the month for visitors to come to see the varbus exhibits planned by each department of the college, after which all would gather, for the highlight of the day's program. This event was presented by all the girls in physical education classes, and consisted of the customary dances in honor of the Queen. Since then, the custom of having all the girls participate has been discounted due to the increased enrollment.

Miss Beatrice Hartshorn, head

over by the women's Executive Council. Miss Hartshorn herself wrote the words to the song which the girls sing at the time the queen is crowned, and she tells us that the tune is that of an old German folk song. In recalling May Days of the past, she stressed that the themes have always been original, or developed in an unusual manner, although until fairly recentian pattern. Usually during one generation of college students, the theme would be Grecian one generation of college students, the theme would be Grecian one generation of college students, the theme would be Grecian one generation of college students, and still another would be the development of a children's and still another would be the development of a children's and still another would be the development of a children's and still another would be the development of a children's and still another would be the development of a children's and still another would be the development of a children's and still another would be the development of a children's and still another would be the development of a children's and still another would be the development of a children's and still another would be the development of a children's and still another would be the development of a children's and still another would be the development of a children's and still another would be the development of a children's over by the Women's Executive Council, Miss Hartshorn herself

Mathematics Hour Tonight In Warner

A mathmatics coffee hour will be held this evening, from 6:30 to 8 p.m. in the Women's Faculty Club Room in Warner Hall.

Students in mathematics class es, graduate and undergraduate, and others interested in mathematics, including members of the faculty, are cordially invited to attend.

personages in foreign affairs as speakers, out of a usual 75-100 in attendance, only five or six have been students.

There is great potentiality for a well organized IRC with student interest. Some six hundred and fifty International Relation Clubs on college campuses are now organized as an Association of International Relations Clubs, which sponsors an annual conference, organizes a summer study-tour, and provides program notes, materials and suggestions for individual clubs.

Individual IRC's not only hold periodic meetings for their members, but also arrange for special campus lectures, radio programs and forums. Often they conduct columns on world affairs in campus newspapers and, in other ways, seek to alert the entire campus community to world affairs.

At the present time very few undergraduates have shown any interest in the club for next year. If there is no organization next year, each and every person associated with this university will be expressing a complacency hardly in keeping with the rising interest in foreign affairs found on most college campuses.

Punch-line to the year's hottest power story-

Chevrolet "Turbo-Fire V8"!

whole new chapter in the book of automobile performance records. This is the engine that has stock car timers doing a "double take" at their stopwatches wherever experts gather to compare the abilities of the 1955 cars.

For example, in the recent NASCAR* stock car competition at Daytona Beach, Florida, Chevrolet literally ran away from every other car in its class—and a raft of others besides. In the one-mile straightaway run for lowpriced cars, the first two places-and six of the first ten-went to Chev-

rolets. And in acceleration runs from a standing start against all comers, the Motoramic Chevrolet beat all other low-priced cars-and every high-priced car except one!

What's behind this blazing performance? A compact honey of a V8 that only the world's leading producer of valve-in-head engines can build. Chevrolet's new "Turbo-Fire V8".

It puts a new kind of fun in your driving life. You're in charge of 162 high-spirited horsepower—or if you're looking for even more excitement, the new "Super Turbo-Fire V8" (optional at extra cost) puts 180 h.p. under your toe!

Pick the one you'd rather have fun with, then come in and get behind the wheel. You'll see why the Motoramic Chevrolet is showing its heels to everyone else on the road!
