

The Newark Post

VOLUME XIII

NEWARK POST, NEWARK, DELAWARE, SEPTEMBER 13, 1922.

NUMBER 32

Plans for Newark's New School Building Are Outlined by Architect

If Board Has Sufficient Money to Carry on Work School Will Be One of the Finest in State

Auditorium and Gym One of Big Features Planned

Tentative plans are now in the hands of the local Board of Education for the new school that will eventually grace Newark. If all the plans as submitted by the architect can be carried out this town will have a school that will be second to none on the Peninsula and the local Board of Education is going to do everything in its power to see if the plans as submitted cannot be carried out and Newark given a school of the best kind.

The architect left the plans for the local school in the hands of the local Board on Monday of this week and the members of the Board will probably call a special meeting in a short time to go over the plans as a body. All the members have taken a "sprint" at the drawings already and are more than pleased with the outline.

In a couple of days bids will probably be opened for the building of part of the local school. These bids were to have been opened today but this plan had to be changed and the date for the opening of the bids will be announced before the week is over. Of course the plans as submitted call for the local school as it will probably appear when the Delaware School Auxiliary makes its donation to the local Board amounting to over \$500,000. When this will be is not known.

The part of the school that is to be built at the present time will cost about \$160,000. It is for bonds to this amount that the local Board will open bids in a short time.

The tentative plans for the local school call for a brick building 2 stories over-all and three stories in the center. This third floor will be composed of about three rooms and will house the classes in special subjects such as home economics and agriculture.

The entire building will measure 200 feet and have a depth of approximately 140 feet. One of the features of the new building will be an auditorium and gym combined, this room will measure 42 by 64 feet and when in use as a gym will seat 327 in two tiers of seats and when in use as an auditorium will seat 700 people.

When the new school is completed, if the present plans are carried out, there will be 17 grade rooms for use of elementary students. These rooms

will have a capacity of 670 children. It can be seen from these figures that the plans leave plenty of room for any increase that the town might have in population, for last term there were only 546 children registered in the elementary grades of the local schools.

In the High School section of the building there will be a study hall and library and nine classrooms, having a capacity of 375 students. There has also been plenty of room left here for any increase in the enrollment of the High School as the figures of last term show that only 176 students were enrolled in the High School. These rooms are besides the three mentioned for special classes.

The auditorium and gym will be a big feature to the school if there is sufficient money for the building of the same. There will be stationary seats on the main floor and gallery of this room to seat 327 people and seats that can be removed, with great ease, to seat 473 people. There will be locker rooms and showers for the students who use the gym.

The present plans do not call for any apparatus for the gym but it is thought that in time this material will be purchased and the local gym brought up-to-date. Physical education was introduced in the local schools last year and the gym floor will afford the proper place for this branch of the work to be carried on.

The people of Newark must not labor under the impression that the above described school is the one which the local Board of Education is contemplating building with the money realized from the sale of bonds which the voters passed on at the referendum last June.

Only part of the school is under consideration for immediate building. If the plans of the Board can be carried out with the money realized from the sale of the present bonds, enough rooms will be built for High School use to take care of 375 students and 200 students of the grammar school. This would give the school a capacity of 575 while when the entire building is completed the capacity will be 1045. All offices of the executives of the Board and many storerooms will also be included in the new building if plans under consideration are accepted.

Tuberculosis Eradication Workers Very Active

Report for Past Month Shows Delaware Herds are Improving—Great Interest Shown

There is a great interest among the cattle raisers of this section of the work being done by the United States Government in tuberculosis eradication.

The local office for this work is located at Delaware City. Many herds of this section are inspected monthly by the Government men and it has not been so long ago that many cattle were ordered destroyed because of their physical condition.

At that time this section was hit unusually hard and a great interest in this work was at once taken by the cattle breeders. This interest resulted from the fact that an inspection by the Government men excluded the possibility of tuberculosis spreading in a herd.

The report of the work done in this section last month has been submitted and the following figures will show the great amount of work carried on in the fight against tuberculosis among cattle.

During the month the number of lots inspected were 163. In this number there were 1309 cattle passed and 221 cattle reacted. Suspicious cattle numbered only 6. The total cattle tested were 1534; reactor cattle slaughtered were 164. There are in the State 230 accredited herds. The work of this inspection is carried on by two veterinary inspectors from the State and two supplied by the United States Department of Agriculture, Bureau of Animal Husbandry. (Continued on Page Four.)

Pierre S. DuPont Will Be Honored Sept. 22

Degree at University to be Conferred—Registration Days—Alumni Meeting

Friday, September 22nd, will be a big day in the annals of the University of Delaware. It will be known as Convocation Day, when a new collegiate year will be inaugurated. The feature of the day will be the conferring of the honorary degree of L.L.D. on Pierre S. duPont by the Board of Trustees.

Thursday, September 21st, will be registration day for Freshmen and Sophomores, and it was announced at the institution this week that although it could not be figured just what the number would be in the incoming class it would outnumber that of last year. Dean Smith and Prof. Dutton have been working during the vacation period on the registration and are sure that the incoming class will be unusually large.

Prof. Dutton said today that one of the features this year would be the large representation from the lower end of the State. He said that more students would be enrolled from lower Delaware than in any previous term. On Friday the registration of Juniors and Seniors will take place.

Altogether, September 22nd, will be a big day for the special business meeting of the General Alumni Association will also be held at the institution on that day.

It is expected that a large number of the alumni will be on hand to witness the conferring of the degree on Mr. duPont, who has helped the university in many ways.

Speed Not Safety Policy of Motorists

Elkton Road Accidents in Main Part Laid to Speeding and Reckless Drivers

The item in this paper last week in regards to the many accidents in which automobiles figure along the Elkton road has pointed out the dangers of this thoroughfare when it is unpatrolled.

The unpatrolled district is on the Delaware side of the road and in a check up of the many accidents that have occurred along this road during the motor season it shows that the majority of the smash-ups have been on this side of the line.

From facts that can be obtained it is also shown that of the many accidents reported most of them could have been avoided had it not been for the high speed indulged in by drivers who have converted this stretch of straight smooth road into a speedway.

Not all the speeding is done on the Delaware end of the road nor is the Maryland side free from accidents, but its slate is a whole lot cleaner than Delaware's.

This brings up the question why? The best answer to this is the State Highway Department. The Maryland department has seen that this stretch of road was a paradise for the "pin headed motorists" who think of speed and then safety. As a result they have this section of the highway patrolled. Not at all times but just now and then. When this now and then time is due is never known by the motorists and as a result they are always careful and keep their cars in check.

In this section the Delaware Highway Department has no officers located and as a result the motorists are not afraid to open them wide.

With the good road nearly completed from Wilmington to Newark the people of this community are in hopes that the Highway Department will see to it that the roads in this section are patrolled and in this manner help break up the many accidents which are growing larger every week.

REPRESENT LOCAL BANKS AT STATE CONVENTION

Warren A. Singles, Dr. Kollock and George Rhodes represented the Newark Trust and Safe Deposit Co., at the meeting of the State bankers, held in Rehoboth last week.

The Farmers' Trust Company was represented by Mayor Frazer, William B. Wollaston and J. E. Dougherty.

Bayard Reception Well Attended

Democratic Senator Candidate Greeted Women Voters of White Clay Creek Hundred—Mayor Host

With about two hundred and fifty of the women voters of White Clay Creek Hundred in attendance, Mayor Frazer, at his home on Quality Hill, on Saturday, held a public reception for Mr. and Mrs. Thomas F. Bayard. Mr. Bayard is candidate for United States Senator on the Democratic ticket and the mayor took this means to allow the women voters of this section to meet him.

Everyone who attended the affair was greeted by Mr. and Mrs. Thomas F. Bayard, Mayor Frazer and Mrs. Robert Constable, of Elkton, Md. Refreshments were served with Hanna, of Wilmington, acting as caterer. The following young ladies assisted in serving, Violet Rowan, Charlotte and Josephine Hossinger, Sue Smith, Ruth Vinsinger and Jane Constable, the latter of Elkton.

Never before has Belmont, the mayor's home, housed such an enthusiastic gathering. The new voters turned out strong to meet the Democratic candidate.

List Showing Local Teachers

Majority of Last Year's Instructors Return to Posts—Some Changes

There have been several changes in the teaching corps of the local public schools, but in the general run about the same teachers are back at their posts of last year.

Superintendent Owens, to make sure that the public knows just who is in charge of the children in the various grades, has arranged the following list which shows the teachers teaching here this year:

Primary School
Grade 1B—Miss M. Pauline Rutledge.
Grade 1A—Miss Thelma Himes.
Grades 2A and 3B—Miss Edith Conrad.
Grade 2B—Miss Marguerite Linthicum.

Grammar School
Grade 4A—Miss Viola Cooper.
Grades 4B and 5A—Miss Susie Dean.
Grade 5B—Miss Mary Hoffecker.
Grade 6A—Miss Fannie Medill.
Grade 6B—Miss Andasia Reynolds.
Grades 7 and 8—Departmental Work:
Miss Ruth Brown—English, Reading and Spelling.
Mrs. Ethel Hill—History and Arithmetic.
Miss Gladys Wilcox—Science, Geography and Penmanship.

High School
English—Miss Mary Houston.
Latin—Miss Esther Maxwell.
History—Miss Anna Gallaher.
French—Miss Olive Heiser.
Physical Training and History—Miss Helen Burkhalter.
Home Economics—Miss Marian Hatfield.
Mathematics—Mrs. Vilena Bourdon.
Science—Charles Sutfin.
Agriculture—Joseph Wilson. (Will also have charge of athletic teams and act as coach).

Colored School
Grades 1 and 2—Miss Pauline Stricklin.
Grades 3 and 4—Miss Olivia B. Young.
Grades 5 and 6—Mrs. Beatrice Smith.
Grades 7 and 8—Miss Alma Davis.

POSTPONE OPENING OF BOND BIDS

Yesterday was to have been the day bids were to be opened for the sale of \$160,000 worth of bonds issued by the local Board of Education. The attorney of the Board was unable to have the advertisement drawn up in time and the date for the opening of these bids was postponed.

The date for the receiving of the bids will be announced this week.

LAWN FETE

A Lawn Fete will be held at Pleasant Valley School Saturday, September 16, 1922, for the benefit of Pleasant Valley Community Club. There will be ice cream, cake, candy, hot dogs, soft drinks, watermelon, and fancy articles for sale. Dancing will be the main feature of the evening.

Keen Fights Featured Republican Primaries on Saturday--Heavy Vote

Newark Did Not Show Much Excitement but Wilmington Very Much Alive—Stetser Wins Over Gilles

Robert S. Gallaher Unopposed in This Hundred

In one of the most spirited primaries that the Republican Party has held in years in New Castle county, the above ticket was nominated to oppose the Democratic ticket in the State election.

The total vote polled was 16,000, unusually large for a primary election. Here in Newark the election did not create a great deal of excitement but in Wilmington the fight was keenly fought.

The fight for Recorder of Deeds between Harry I. Gillis and Albert Stetser was the one that caused the greatest amount of interest. In Wilmington, hundreds of men and women workers sought votes for these two candidates. Stetser won the nomination by a majority of 2,084. At the present time the candidate is President of the New Castle County Levy Court.

It was a close fight for the coroner nomination. Charles A. Taylor, of Wilmington, won over the present incumbent, Isaac S. Bullock, by a plurality of 368.

In the contest for Register of Wills, Isaac R. Brown, the present incumbent, defeated Julian C. Walker, of Richardson Park, by a majority of 5,362.

Former Sheriff Samuel A. McDaniel, who was defeated at the primaries two years ago for the nomination for Sheriff, was nominated on Saturday, his plurality being 545 over Thomas K. Parker, his nearest opponent.

The feature of the fight for Legislative honors was that between State Senator James W. Robertson and Captain William A. Simonton for the nomination for Senator from the

First district of Wilmington. Captain Simonton won the nomination with a majority of 362.

J. Gilpin Highfield, State Senator who was elected at a special election to succeed Senator Webster, who died during his term of office, defeated Willard S. Gregg, a former Representative, by a majority of 532, in the Third Senatorial District (Brandywine and part of Christiana hundreds). John F. Z. Clayton, of New Castle, whose wife is chairman of the Republican Women's County Committee, won the nomination for Senator from the fifth district with a plurality of 476. This district includes New Castle, Red Lion and White Clay Creek hundreds.

Harry H. Marr, representative from the First Representative District, was renominated by a plurality of 388. In the Third Representative District Charles S. Lednum defeated James Keenan for Representative by a majority of 294. William Virden, Representative from the fourth district, was nominated over Sumner Jones by a majority of 378 for Representative.

Representative William Lord, of Marshallton, defeated Henry Clayton White for the nomination for Representative from the Seventh district (Christiana hundred) by a majority of 306. In the Eighth district (Mill Creek) Charles P. Dickey defeated Mathew Roser, Jr., for Representative by a majority of 257.

In the Ninth district (White Clay) Robert S. Gallaher was unopposed for Representative.

Edward S. Megginson defeated Jesse A. McKay for Representative in (Continued on Page Four.)

THREE CASES Health Authorities Combatting Diphtheria Among Local Children

At the present time there are three cases of diphtheria in Newark and last week there was one death from the disease.

All the cases are among young children and the Board of Health is of opinion that all the children contracted it from one another as they were known to have played together.

Where the cases have been discovered the houses have been quarantined and there is no fear among the health authorities of any spread of the disease. None of the cases are among school children.

COLLEGE BOYS WANT WORK

Everyone in Newark has a chance to help some young man through the University of Delaware. This is the result of the fact that many young men will attend the college this year if they can obtain work during their stay here.

THIEF AT WORK

Auto Owners Must Keep Watch on Machines

Petty thieves are giving automobile owners of Newark a great deal of trouble at the present time according to the reports. Several persons have been known to have lost parts of their machines recently and several more machines have been tampered with.

One of the leading citizens of the town at the present time is offering a reward for the apprehension of a man who on last Sunday afternoon stole the radiator cap and meter from the machine which was standing in front of his home.

Another business man of the town had his machine parked in front of a residence rather late one night last week and on looking out of the window saw a man tampering with the spare tire on the rear of the car. The owner started toward his car but the culprit saw him and beat a hasty retreat.

It seems that whoever is doing this work makes no attempt to steal the car but takes small parts from the machine.

Heavy Fine On McKelvey

Pleads Guilty in United States Court and Is Assessed \$2000—Not Conscious of Guilt

Prominent among the "plead guilty day" cases before Judge Morris, in U. S. District Court, Monday, was that of James A. McKelvey, proprietor of the Deer Park Hotel, of this place. McKelvey pleaded guilty to two charges of selling beer containing alcohol above the legal limit.

In explaining the case, District Attorney Hughes said that, after complaints against the hotel, a search was made revealing twenty-six cases of beer and a plant for its manufacture.

E. E. Berl, counsel for McKelvey, said his client had been prevailed on to use a preparation for making near beer, and made beer from the ingredients. The beer was sold for nearly a year without showing any intoxicating effects.

About three or four months ago, McKelvey bought a large quantity of the same "ready brew" mixture from a Philadelphia house. This beer was not palatable, and he was negotiating to return it to the makers when it was seized by the Federal agents. While "technically guilty," McKelvey was not intently so, Mr. Berl contended.

Federal Agent Green, colored, testified to buying beer at the hotel. He said the bartender asked if he "wanted 15, or 25 cent" beer. Green replied "the best." Later in June, Green, Paul and Stafford, all government (Continued from Page Four.)

OPENS THIS SUNDAY Presbyterian Church Will Have Services This Week

Although it was expected that the Presbyterian Church would be reopened on last Sunday and it was reported that the church would be opened at that time it was found necessary at the eleventh hour to postpone the opening to this Sunday.

Rev. H. Everett Hallman returned the latter part of last week and did all in his power to have things arranged so that the church could be opened, but he assures the congregation that regular services will take place this week.

New School Ready Next September

Bonds Amounting to \$160,000 to be Sold to Assure Building of New Structure

Although many persons were of the opinion and lived in hope that by the start of this school term, Newark would have a new school building, they were disappointed. But the sting was taken out of the disappointment for the members of the Board of Education have assured the people whom they represent that by next term, at least a new High School building will be ready to take care of the students.

This assurance of a new building to replace the old Academy is very encouraging to those who have been working for a new school building here for many years.

The local High School is a "wreck." Repairs have been made during the summer months and the Board of Education has done everything in its power to make the facilities in the old Academy come up to High School standards. But brass never passed as gold and never will. The old building at Main and Academy streets is past that point where it can be improved without tearing down and rebuilding. The building is as fit for a High School as a celluloid surrounding for a wedding shop.

The new school building to be built on the present High School athletic field on South Academy street will be an up-to-date building similar to those which have been erected in all parts of Delaware in the past couple of years.

It is a surety that the new school will be built and the local Board is now advertising for bids for the bonds, amounting to \$160,000. This is the amount that will be used in the work that is to be carried on at the present time. It was at first thought that \$165,000 worth of bonds would be issued. This is the amount that the voters of this district approved at the referendum vote taken in June. But the local Board of Education upon investigation learned that if this amount of bonds was issued the tax rate would have to be increased more than 45 cents. The Board had promised the people that the rate would not be increased more than this and decided that to stay within their promise they would pare off the \$5000. Further planning showed that the building of the new school would not suffer by this decrease.

Just as soon as the bonds are sold the work will start and by the start of the term next September the local

EFFING WINS

Great Golf Contest at Country Club on Saturday

In one of the greatest golf matches that has been staged at the Newark Country Club, Joe Effing on Saturday defeated Benjamin Vinton, 1 up in nineteen holes. The match was hard fought throughout and the large gallery that followed the players saw a wonderful exhibition of golf. Both players were at their best and at the eighteenth hole they were all even.

It was necessary to play an extra hole and Effing carried off the honors here by his putting ability.

Effing is from Newark and Vinton belongs in Delaware City.

L. J. Finnan and C. A. Short met in the final of the third eight and the former had things his own way, winning 10 and 8.

The final for the second eight will be played off next Saturday between W. R. Baldwin and C. R. Crow.

95,199 FREIGHT CARS

ORDERED IN 7 MONTHS

During the first seven months of the present year railroads, according to a statement issued recently by the Association of Railway Executive, ordered 95,199 freight cars.

Of the total number ordered, 41,405 were coal cars, of which 12,230 have been delivered and placed in service. The number of refrigerator cars ordered was 6428.

Board feels confident that pupils will be housed in the new school building.

The new building will be primarily for high school use but there is a probability that some of the grammar school grades may also have classrooms in the building.

The offer of the Delaware School Auxiliary of \$200,000 for use in the building of local schools still holds good and it will be forthcoming in a short time. When this money is donated the local school will be added to to such an extent that all the schools can be housed under the same roof and Newark then will have schools she can boast of.

State Legion Convention Saturday

Ex-Service Men Will Elect New Leader—Local Post Representatives to be Present

Many of the members of the local Post of the American Legion are making preparations to attend the annual State Convention to be held at the Hotel duPont, next Saturday.

Although the local Post has not been very active during the past few months, many interesting programs are to be arranged now that the cooler weather has set in.

At the convention the election of a new State Commander to succeed Capt. Harry J. Pettyjohn, of Milford, will form one of the interesting features of the convention. It is said there will be two candidates—Col. Thomas W. Miller and Dr. W. C. Speakman, both of Wilmington.

A large convention is expected, and many out-of-town Legion men will be in attendance. A dinner will be in attendance. A dinner will be served to out-of-town delegates at the Hotel duPont.

MONTHLY MEETING

Ladies' Aid Society Hears of Interesting Trip

The regular monthly meeting of the Ladies' Aid Society of the Newark M. E. Church met at the home of Mrs. Robert Gallaher, September 7th. The meeting was opened with singing "He Hideth My Soul." The scripture reading, followed by prayer, was led by the president. After the business meeting, Mrs. Frances Couch told of a very interesting historical trip she had just taken to many places of interest. The talk was unusually interesting. After the meeting adjourned, refreshments were served and a social time enjoyed.

"I knew him when he was a boy"

What one is there of us that has not felt the glow of satisfaction over the outstanding success of a life-long friend! Often a surprise—seemingly "all of a sudden." Yet neither surprising nor sudden, when you stop to think back over each step of his progress.

THE United States Rubber Company—makers of U. S. Royal Cords—were first to conceive, make and announce the balanced tire. A tire in which there is such complete unity of action in tread and carcass that neither will give way before the other.

First to conceive, make and announce a complete line of tires—a tire for every need of price and use under one standard of quality.

First to tell the public about the good and bad in tire-retailing. (You remember the phrase "Go to a legitimate dealer and get a legitimate tire.")

First also to arouse industrial and trade minds to the need of a new kind of tire competition. (Competition for better and better values. Greater and greater public confidence.)

THESE high spots along the U. S. Road to leadership indicate the intent—the will to win by the quality route in a price market.

Now that so many car-owners have given their verdict for quality tires in general, and U. S. Tires in particular—a number of dealers and car-owners whose vision has been clouded by "discounts," "sales" and what not, are beginning to remember that they "knew him when he was a boy."

Two Teachers At Stanton School

St. James' P. E. Sunday School Representatives—Want New School—Grange to Hold Meetings

Miss Edna A. Chamber, of Christiana, Miss Della Dutton and R. Earle Dickey, of this place, spent Labor Day at Hatterton.

Miss Della Dutton, of Stanton, spent the week-end with Miss Edna Chamber, of Christiana.

Ralph Botscher, of Philadelphia, spent the week-end with Clifford Macell.

Diamond State Grange No. 2 will resume its meetings next Monday night, September 18th, after a vacation during the summer.

Mrs. Jesse J. Howett, Past Commander of Friendship Lodge, No. 5, S. O. B., will be the delegate to the Supreme Lodge which meets in Washington, September 25th.

Mrs. Lavinia Messick, of Redden, has returned to her home after a visit with her niece, Miss Della Dutton.

Charles J. Dickey is receiving congratulations on his nomination for representative from the Eighth Representative District.

St. James' P. E. Church has been closed since August 1st, while necessary repairs are being made.

The Sunday School of St. James' P. E. Church will be represented at the Sunday School convention on Thursday at White Clay Creek Church by the following delegates:

Who are teachers in the Sunday School: Mrs. Annie Murray, Mrs. Edna Dutton, Miss Sarah Jeffers, Miss Mary Taylor, Mrs. Mary E. Dickey and Mrs. William Mitchell. R. Earle Dickey is superintendent of the school.

Stanton School has opened with an enrollment of 80 pupils. Through the kindness of the Friends they have been able to have two teachers. The sixth, sixth, seventh and eighth grades are being taught in the meeting house by Miss Lora Little and the lower grades in the school by Miss Bess Edwards.

Movement towards the obtaining of a new school is to be made during the year to supplant the present out-of-date building.

The Parish Aid of St. James' P. E. Church will meet at the home of Mrs. William Mitchell when final arrangements will be made for the cafeteria supper to be held on her lawn, on the evening of September 25th. The proceeds are to be used for repairs to the church.

GLASGOW

Rev. J. McCoy, of St. Georges, filled the pulpit of the M. E. Church, Glasgow, Sunday afternoon.

The Pender Presbyterian Church has installed a piano in the lecture room for the use of the Sunday school.

The Ladies Aid held their monthly meeting in the lecture room of the Pender Church, Wednesday evening, September 6th.

Miss Esther Hall, of Frederica, returned home Sunday after spending a week with her sister here, Mrs. C. C. Brooks.

Charles Leasure and sons, Ralph and Wilbur, returned home Monday night after spending a few days visiting his daughter and son-in-law in Berlin, Md.

Mrs. Harry Dayett, Jr., spent Sunday evening with Mrs. J. C. Barr.

Miss Esther Hall and nephew, Melvin Brooks, visited Lela and Beulah Leasure Saturday afternoon.

Mrs. N. C. Holloway and children returned to their home in Berlin, Md., after spending some time here with her parents, Mr. and Mrs. Charles Leasure.

Mrs. Lamonte McElwee visited Mrs. Charles Leasure, Tuesday.

Those who visited Mrs. H. L. Dayett, Jr., Saturday evening, were: Mr. and Mrs. J. Laws and family, Mr. and Mrs. Delaware Wright and family, Mr. and Mrs. Delaware Laws and family, of Summit, Mr. and Mrs. James Roberts and family, of St. Georges, Misses Ida Richards, of St. Georges, and Lela Leasure, of this place.

Clarence Brown spent Sunday afternoon with his cousin, Thompson Brown.

Mrs. H. L. Dayett, Jr., entertained at supper Saturday afternoon the following: Mrs. Anna Laws, of Richardson Park, Mrs. Emma Mahan, of this place, and Miss Jennie Gilmore, of Baltimore.

Morris Elliott, nephew of Mrs. J. W. Willis, of Indiana, has returned to his home after spending some time here with Mr. and Mrs. J. W. Willis.

Striving to Please

"I have here some flowers for a murderer."

"We have no murderers in Plunkitt jail, madam," said the town sergeant. "We have a wife beater; will he do?"—Louisville Courier-Journal.

It's toasted. This one extra process gives a delightful quality that can not be duplicated

Rock Church

Calls Pastor

Congregation Wants Rev. Alfred Stockbridge—No Preacher Service Last December

Mrs. William Stewart has returned home after spending a few days with her daughter, Mrs. George Peterson, near Kemblesville, Pa.

Mr. and Mrs. James Mackenzie spent the week-end with their daughter, Mrs. Wilton Elliott, at Germantown, Pa.

Mr. and Mrs. Percy Hardcastle and son, of Glen Mills, have been visiting friends here.

Miss Elizabeth Pennock has returned home after spending some time with relatives in Philadelphia.

Dr. and Mrs. David Mackey and son, David, of Philadelphia, spent Sunday with Miss Helen Mackey.

Mr. and Mrs. George Filligame and family, of Chesapeake City, Mrs. William Hartman and sons and Ralph S. Dunsmore, of Wilmington, spent Sunday with their parents, Mr. and Mrs. Charles Dunsmore.

John McCleary, son of Mr. and Mrs. Frank McCleary, is quite ill at his home.

Stanley Kite, of Wilmington, visited his parents, Mr. and Mrs. Wm. Kite, on Sunday.

Mrs. Geo. Lindsey and son, of Wilmington, has been the guest of Mr. and Mrs. David Lindsey.

At the congregational meeting on Sunday at Rock Church, a vote was taken to call the Rev. Alfred Stockbridge as pastor. The call was unanimous. It is hoped that Mr. Stockbridge will accept the call, as the church has been without a pastor since last December.

Services at Rock Church September 17th—Sunday School, 10 a. m.; preaching, 11 a. m.; Christian Endeavor, 7.30.

APPLETON

J. C. Molitor and family were Philadelphia visitors on Sunday.

Mrs. Hosea R. Smith entertained the Head of Christiana Sewing Circle on Saturday evening, September 9th.

G. W. Creswell, of Washington, D. C., called on friends here on Sunday.

Mr. and Mrs. Charles Zebley, of Wilmington, visited his brother, J. E. Zebley this week.

The Grange has selected October 19th as the date for its Community Show.

Time to Apply Lime

For Ordinary Purposes

The time of application will depend largely upon the nature of the farming. The potato grower should apply lime directly after digging the potatoes and before seeding hay in a rotation of corn, potatoes and hay. The general farmer practicing a five-year rotation of corn, oats and peas, and hay or alfalfa should apply lime directly before planting the hay or alfalfa, and the same is true with the farmer practicing a rotation of corn, oats, wheat or rye and hay. In this case, however, the lime would precede the wheat or rye crop because it is the general practice, although always a good one to seed hay in the grain. With the market gardener and orchardist, the problem is slightly different. Often the labor supply will determine the time of application. The market gardener may, however, apply any form of lime during the winter provided there is some growing crop upon the land, although the best practice is to apply the lime to the raw soil previous to planting some crops. In such cases when lime is applied to the raw soil it should always be worked into the surface and thoroughly mixed with it.

A Misunderstanding

"Now," said the Colonel, looking along the line of recruits, "I want a good, smart-looking bugler."

At that, out stepped a dilapidated fellow with a thick stubble of black beard.

"What!" said the Colonel, eyeing him up and down, "are you a bugler?" "Oh," he answered, "I thought you said a burglar."—Los Angeles Times.

Elkton Has

Newsy Budget

Many Interesting Items From Nearby Maryland Town

Mrs. Veryl Brown, who jumped from an automobile near Conowingo and fractured her skull, is in a serious condition. Roy McComsey, her brother, has been arrested on a charge of driving the car while intoxicated.

A touring car belonging to the late William T. Warburton has been sold to William Malin for \$365.

Joseph Benjamin, who was fined \$300 for transporting liquor in Cecil County, has been arrested in Hartford County on a charge of driving an automobile while intoxicated.

George Worrlow and Warren Rice, who won high honors as judges of livestock, will enter the University of Maryland for a four-year course in agriculture.

While attending the funeral of his brother, Dr. George Cameron, in Connecticut a few days ago, Harry Cameron, of Port Deposit, had the end of a finger severed by the door of an automobile.

Miss Hester C. Lewis has returned from California.

State Senator Millard F. Tydings, of Havre de Grace, has entered three suits for libel and damages for \$2500 in the Belair Circuit Court, against Rev. Daniel A. Foard, of Forest Hill.

The minister is alleged to have sent to voters in his section a printed statement accusing Senator Tydings of being intoxicated on a certain night in a hotel at Annapolis.

Senator Tydings branded the charges as a deliberate falsehood.

Charged with stabbing Edward Harvey, of North East, Warren Meekins was given a hearing before Justice Scotten, who held him for the action of the grand jury.

The West Nottingham Academy begins on Tuesday its one hundred and eighty-second year. The "Maggaw House" and the "Gailey" building have been thoroughly renovated and made ready for the opening. An unusually large enrollment is expected.

Christian Euler, a widely known farmer in the Sixth District, died at his home at Red Pump after several weeks' illness. He was 81 years of age and leaves two children.

The Lee Oil and Gas Company, of Cecil County, has been incorporated with William H. Karn, Alexander Sentman and William J. Bevan, as officers of the concern. The capital stock is fixed at \$200,000 and its headquarters will be located at Havre de Grace.

Dr. Walter P. Steinhauer, of the Tome Institute Faculty, Port Deposit, has been appointed national secretary of the Star Spangled Banner Association of the United States.

Harry W. Caldwell, shipping clerk at the Prest-O-Lite Company's plant in Elkton, has been promoted to assistant superintendent, succeeding Robert MacKenzie, transferred to the Baltimore plant of the company.

Rev. G. T. Alderson and family have returned from Rehoboth Beach.

J. Harry Maxwell has applied for a divorce from Jean Maxwell.

"THE MERRY WIDOW"

On next Friday and Saturday Henry W. Savage's new production of Franz Lehár's undying operatic success, "The Merry Widow," will come to the Playhouse, Wilmington.

This promises to be one of the most important theatrical events of the season as already there have been several hundred reservations made for seats for this operetta. Mr. Savage, whose theatrical offerings are always of the highest standard, has promised that this one will even excel his former presentations. It has been equipped at tremendous expense with a complete scenic investiture from the studio of the famous Joseph Urban who designs all the scenery for the "Ziegfeld Follies," while the costumes are from the fashionable shop of Peggy Hoyt, modiste and milliner to New York's most exclusive society. As to cast, Mr. Savage promises that "The Merry Widow" will possess one of the finest singing and acting organizations the theatregoers of this city have enjoyed in many years. Then to complete the list of delights there will be a special orchestra carried by the company.

try, both birds and eggs, swine, corn, etc. These were in the University of Delaware Building and among the general exhibits. His main exhibit was placarded "Our boys and girls are the future strength of the farms and homes whose products move the world." He had an interesting and ingenious arrangement of toy house and barn, belts from which turn a globe. The various types of clubs were represented by dolls with banners. This year there are 1,152 boys and girls enrolled in club work in Delaware. The boys won many prizes in the open classes, especially Stanley Short, of Cheswold, who won grand championship of all classes of hogs. His sister Helen won first prize in Boys' and Girls' Pig Club class, as well as grand championship in the same class.

The girls' clubs were represented by a fine display of sewing, canning and millinery, as well as a model bedroom from the "Own Your Own Room Club." Tuesday and Friday canning, sewing and baking demonstrations were given by the girls, the winning teams of three girls to be sent to the Eastern States Exposition at Springfield week after next where they will compete with winning teams of ten Eastern States for the championship. In the canning demonstrations, Sunnyside Club of Bridgeville won, with a score of 93. Black Swamp Club of Felton scored 85; Newport Canning Club, 87; Cedar Grove, 88; and Viola canning team, 90. The girls also judged the work.

The Millinery teams made hats. Welsh Tract won, scoring 94. Oak Grove scored 85 and Sharpley 88. The baking team for Milford won, score 91, and Viola had a score of 89.

Miss Agnes P. Medill is New Castle County Agent; Miss Helen L. Comstock is Kent County Agent; and Miss Dorothy Emerson is Sussex County Agent.

TUBERCULOSIS ERADICATION WORKERS ACTIVE

(Continued from Page One.)
bandry, under whose direction this work is carried on.

In the State at the present time there is once-tested free herd, 1060; with a total of 4430 cattle.

As stated above, the total accredited herds is 230, which is comprised of 1671 cattle. Total herds under supervision are reported as 2009, consisting of 10,687 cattle.

A glimpse at these figures will show that the inspectors must be on the hop every minute to prevent any spread of the dreaded disease.

PROPERTY TRANSFERS

Through the Newark Trust and Safe Deposit Company, Charles B. Wollaston, this week sold one of his new houses on Kells avenue to Oscar L. Hewitt, of Wilmington.

The bank also reports the sale of the Curtis property on Quality Hill. This place was bought by Charles Owens, of the Owens, Rumford and Anderson firm, stock brokers of Wilmington.

(Continued from Page One.)
the Tenth district (New Castle) by a majority of 152.

James B. McManus, chairman of the finance committee of City Council, was unopposed for the nomination for Representative from the Second district and John P. Griffith, Jr., was nominated from the Fifth district without opposition. Henry G. Little was nominated from the Sixth district (Brandywine hundred) he not being opposed.

There were no contests for representatives in the Eleventh, Twelfth, Thirteenth, Fourteenth and Fifteenth districts, the nominees being:

Eleventh district—John L. Deputy.

Twelfth district—W. U. Reybold.

Thirteenth district—Henry D. Howell.

Fourteenth district—Harry O. Weatherly.

Fifteenth district—Peter B. Fretz.

In the contests for the nomination for Levy Court Commissioner, Hamilton Stewart was unopposed in the Second district, Wilmington. In the Fourth district Benjamin L. Dickey, who was defeated at the election two years ago, received 654 votes while Delaware S. Wright, who was defeated for nomination at the last Republican primary, received 1187 votes, Wright's majority being 533.

In the Sixth district the four-cornered fight resulted in the nomination of Philip E. Pleasanton by a plurality of 170.

In the Seventh district, John D. Reybold was unopposed.

The Republican County Committee is meeting this afternoon to canvass the vote cast Saturday.

HEAVY FINE ON McKELVEY

(Continued from Page One.)
agents bought more of the "best beer." Green testified it was good beer in taste.

Green's testimony was corroborated by Agent Parker. The court questioned a statement by Parker that "McKelvey had looked them over."

McKelvey testified in his own defense that he was solicited to buy the ingredients for the near beer from a wholesale grocery in Wilmington and that he did not know its alcoholic content. Then he bought a quantity from a Philadelphia firm. None of the beer made from it was satisfactory, and he made no practice of selling it, he said. He was endeavoring

to get the Philadelphia firm to take it back when the raid in his place was made on June 29.

Judge Morris questioned why the beer supposed to be "bad" sold for 25 cents while other supposed to be "good" brought only 10 to 15 cents a glass. Testimony was that the "bad" beer before turning sour, had sold regularly for 25 cents, and after it had turned sour there was still a demand for it.

Harry H. Boynton, local manager for Reeves, Parvin and Company, wholesale grocers, testified to McKelvey calling attention to the sourness of the beer. Council for the defendant introduced correspondence between McKelvey and the firm, showing he had complained of the beer and wanted the firm to take it back.

Judge Morris by questions brought out in much detail the method of making beer from the "ready to brew" materials.

Mayor Eben B. Frazer, mayor of Newark, testified he had known McKelvey 11 to 12 years and McKelvey had always borne an "excellent reputation." Mayor Frazer said he had never received any complaints against McKelvey's hotel.

George L. Medill, State Bank Commissioner, a resident of Newark, who testified McKelvey's character was good and that he conducted a "good hotel." Dr. Charles H. Blake testified he had known McKelvey over 15 years and his reputation always had been good. He added McKelvey had "brought order out of chaos" at the Deer Park Hotel. Other character witnesses present were D. C. Rose and John Armstrong.

In imposing penalty, Judge Morris said that all that kept him from naming a prison sentence was the fact that he had some slight doubt that there was a consciousness of guilt on the part of the defendant. Through a defect in the search warrant, other charges of possession were dropped. The fines were placed at \$1000 each on two counts of selling beer.

University of Delaware Exhibit Was of Special Interest To Farmers of State

Exhibit of Various Plant Diseases and Methods for Combatting Same Exhibited—Boys' and Girls' Clubs Show Wonderful Results in Work

Many Persons from Newark Win State Fair Prizes

It is doubtful if there was an exhibit at the Delaware State Fair last week that attracted more attention than that of the University of Delaware. Probably the most interesting part of this exhibit was the part arranged by the plant pathology department which showed the typical diseases of various fruits.

This department is interested in the various manners which can be brought into force in combatting various diseases among fruits grown in this State. The department has under investigation the following which have infested Delaware: Sweet potato diseases, cantaloupe and watermelon diseases, filled pea diseases, root rot of apples, breeding resistant tomatoes, apple and peach diseases, root, stalk and ear rots of corn, and other diseases. These investigations are being made on the Experimental Farm here in Newark. There was also a grain grading demonstration put on by the Department of Agronomy, showing the effect of fertilizers on wheat. Samples of wheat were shown to illustrate the value of fertilizer use. There was also a wheel illustrating the limiting factors of crop production.

The county agents also had interesting demonstrations. M. E. Vaughn, of Georgetown, County Agent for Sussex, had demonstrations dealing with treatment of sweet potato diseases, with the use of Japan Clover for permanent pasture, and with the use of "P. C. Benzene" for the control of peach tree borers. He also featured the proper methods of packing and facing apples for market.

Russell E. Wilson, Kent County Agent, had demonstrations of various potatoes grown in the same soil to show similarity, of wilt resistant cabbage, of mixed hay, of soy beans, and of sweet potatoes grown by the slip method. He had figures to prove that Delaware is the best fruit growing State and leads the Union in the number of apple producing trees per square mile, 548 per acre, and is third

in increase of apple bearing trees in the last 10 years. He also had experiments in disease free seed corn, and control of codling moths.

Youthful Prize Winners

R. O. Bausman, New Castle County Agent, featured cattle in his exhibit. In the competition of Holstein heifers from boys and girls cattle clubs the following were prize winners for heifer 24 to 36 months: First prize, Robert Connell, Newark; second, Herman Conner, Jr., Newark; third, Crawford Sheldon, Glasgow; fourth, Gordon Armstrong, Mt. Pleasant; heifer 18 to 21 months: First prize, Jack Dayett, Cooch; second, Raymond Connell, Newark. Robert Jaquette, of Newark, won first prize for Guernsey heifer, and Lester Burge, of Middletown, won second. In the "Get of Club Class" for a heifer 12 to 24 months, Clarence Davis, of Fairview, won first prize, and Raymond Connell, of Newark, won second. Jack Dayett, of Cooch, won first prize for heifer under year, and Robert Connell, of Newark, won second. Robert Connell, of Newark, won grand championship for his heifer and in the open class of eight entries for heifers two or three years won first prize. Herman Conner won third prize in that class and Jack Dayett won third prize in the senior calf class.

Mr. Bausman also had a demonstration showing the value of a pure bred sire, the cattle themselves illustrating his point. He also had a certified seed potato exhibit demonstrated on the farms of J. H. Mitchell and Son, Hockessin; F. H. Buckingham, Newark; J. F. Bracken, Marshallton; J. C. Mitchell, Hockessin, for the purpose of showing the increased size of crop with certified seed potatoes.

Girls and Boys of the State

A. D. Cobb is State club leader for boys' and girls' work. He had an interesting exhibit of their work with calves, pigs, soy beans, white potatoes, sweet potatoes, tomatoes, poul-

Government Expert On Crop Conditions

August Not So Good As Past Months—Conditions in Delaware Counties

Crops were not as promising in Delaware and Maryland at the close of August as they were a month preceding, according to John S. Dennee, agricultural statistician for the Department of Agriculture, in a statement made public today. The consensus of opinion, he says, of farmers who have been looking the crops over with an appraising eye and not overlooking much, seems to be that while there was some decline during August, crop conditions on the whole continue to be good—as good or better than their ten-year average of condition at this time.

Practically most of the crop-growth had been made and the crops were advancing slowly to maturity when fitful weather, ranging from high winds and hail and torrential rains in southern Maryland and over on the Peninsula, to freezing temperatures in Garrett county, Maryland, broke loose on the farmers. Otherwise the fall, he believes, that was taken by the unusual weather might have been heavier than it was.

The pressing necessity for moisture in dry areas, particularly in the northern-border counties and in west-

ern Maryland, where drought had been the outstanding crop feature most all of the summer, was relieved at the close of the month by general rains beneficial to the thirsty crops.

According to the Statistician, the supply of hogs in Maryland on September 1 this year for fattening is estimated at 375,000 against 357,000 last year, and 376,000 two years ago. In Delaware the number of hogs remains practically the same as one year ago, that is 72,000, comparable with 75,000 on hand September 1, 1920.

The total production of wool in Maryland this year was 102 per cent of the quantity produced in 1921. And in Delaware this year 97 per cent of last year's production.

Surplus honey per colony yielded to September 1 on the average was: In Delaware 20 pounds and in Maryland 30. Condition of colonies compared with normal strength and healthfulness at this date: Delaware 100 per cent, Maryland 93 per cent. Fall plants condition compared with normal at this date: Delaware 100 per cent, Maryland 79 per cent. According to bee men unseasonable weather late in April occasioned the low condition of the plants in some portions of Maryland.

The following are excerpts taken from correspondents' reports from the Delaware counties:

New Castle

Summer very dry. Late corn badly damaged by drought. A moderate

rain in some portions of New Castle on the night of August 31 helped late corn and pastures some, as well as other growing crops. On some farms the hay yield is reported as 2 tons; on others not more than 1/4 of a ton—and not of good quality either. Tame hay reported weedy in some sections due to "trashy" seed. Peach trees bore a substantial crop of good peaches. Late frosts last April did away with most of the pears.

Kent

Many fields of corn and tomatoes drowned out and not over 50 per cent of a crop expected. The tomato crop is short also because of blight and continued wet weather followed by very hot sun killed the vines and scalded some of the fruit. A better than average cantaloupe crop was produced this year, but not all of the fruit was harvested because of the poor markets. Plenty of rain has made a big alfalfa crop.

Sussex

The summer was very wet. Too much rain for most all crops. And some hail damage. Watermelons and cantaloupes reported almost a failure in some sections because of the excessive rains. Sunny skies toward the close of the month changed conditions for the better, and the crops are now showing some slight improvement. Late potatoes—those that survived the wet weather—are doing well. Crops in general are said to be new too far advanced for any further damage by rain.

DELAWARE OFFICIALS PROTECT MUSKRATS

Hunting for These Animals on State Lands Closed For at Least Two Years

Delaware public officials have decided that they will ban muskrat hunting for at least two years in an effort to bring back many of these valuable fur-bearing animals that threaten soon to become extinct if their promiscuous slaughter continues.

The high prices being paid for muskrat fur which is the real name of what is usually called Hudson Bay seal, has led to a very close catching of these little animals, and many marshes which were once full of them have but few left. The ban of the hunting, applies only to the state public lands, but takes in a considerable amount of the coast marshes along the eastern side of Delaware.

The state owns large tracts around Assawoman bay and a considerable strip up the coast along Indian river and back of Rehoboth Beach, Lewes, Milton and up the bay shore to Bowers Beach. With closed seasons on the land the state will probably find itself in possession of a very valuable property in these fur-bearing animals in a few years.

DEMOCRATIC HEAD

Dr. W. F. Hoey, of Frederica, was today unanimously elected head of the Democratic State Committee.

MEN OF NEWARK

Aetna Co. Appreciated By Town's People

Support of Carnival Signifies This
—Local Equipment Most Up-to-Date

The people of Newark and vicinity showed by their support of the carnival of the Aetna Hose, Hook and Ladder Company that they appreciate the efforts of the local firemen to present first class fire protection.

The receipts for the week of the carnival were over \$11,000. It took a lot of patronage to bring the amount to this sum. There is hardly a person in Newark or immediate vicinity who did not take part in the carnival by at least attending.

Newark has one of the finest volunteer fire departments in the State, if not the best since the installation of the paid department in Wilmington.

The apparatus owned by the Aetna Company is as good as money can purchase and there are few towns the size of Newark which can boast of having two up-to-date fire engines. Newark can do this. Either one of the local engines is capable of combating with the average blaze but the local firemen will never be found lacking for should one engine go bad or should the blaze warrant it there are the two engines to throw into service. This is one of the points where the local company outdoes the average town or rural district.

It costs money to maintain a fire company of this nature and in a great part it is up to the people whom the firemen protect to maintain the high standard of the company. And the people seem to realize this by the support which they give the yearly carnival of the firemen.

The Aetna Company is at the present time building one of the most up-to-date firehouses on the peninsula and it will be finished in a short time and then the firemen will have a house in comparison with its equipment.

The present firehouse is owned by the town and is really not a desirable housing place for such apparatus as owned by the fire company.

The new structure will incorporate all the latest ideas in up-to-date firehouses and will be a credit to the town and firemen.

Many Prizes Offered To Fruit Growers

The Peninsula Horticultural Society has announced that the following prizes will be awarded at the meeting of the society to be held in Dover, on November 28, 29 and 30.

The leading fruit growers of the State will compete in this meeting and many of the fruit growers from this vicinity will have their fruit on exhibition.

The Prizes

For general display of fruit, \$150, \$100 and \$75.

Apples

Best single box, \$25, \$15 and \$10.
Three boxes, \$15, \$10 and \$5.
Five boxes, \$25, \$15 and \$10.
Ten boxes, \$50, \$30 and \$20.

Best box of each of the following varieties, \$5, \$3 and \$2, namely—Delicious, Grimes, Jonathan, McIntosh, Nero, Paragon, Rome, Stayman, Winesap, York.

Best round bushel or bushel hamper, \$3, \$2.

Ten round bushel or bushel hamper, \$10, \$5.

Best three barrel collection, one or more varieties, \$20, \$15 and \$5.

Best barrel of each of the following varieties, \$5, \$3, Ben Davis, Grimes, Jonathan, Nero, Paragon, Rome, Stayman, Winesap, and York.

Best five plates of each of the following varieties, \$10, \$5, \$3: Delicious, Paragon, Stayman and Winesap.

Best single plate of each of the following varieties, \$1.50, 75c: Ben Davis, Gano, Grimes, Gravenstein, Jonathan, King David, Lily of Kent, McIntosh, Nero, Oldenburg, Rome, Wealthy, Williams, Winter Banana, York.

Best single plate of any variety, \$5, \$3, \$2.

Best ten plates, one of each variety, \$10, \$5, \$4.

Pears

Barrel Kieffer pears, \$5, \$3.

Best plate of the following varieties, \$1.50, 75c: Duchess, Garber, Kieffer, LeConte, Lawrence, Seckle.

Quinces

Best plate of each, \$1.50, 75c: Champion, Orange.

Scotch Thrift

In a talk on thrift, a banker told a story about a Scotch farmer who, on frequent shopping trips in town, would hitch his horse on Main street, and having securely attached the feed bag would lift a hen from the wagon and tie her with a stout cord to one of the shafts, in such a manner that she would be able to pick up every bit of the oats the horse might drop while wrestling with the feed bag—Judge.

Parent-Teacher Associations Get Down to Work

Meetings to be Held in October—
Miss Agnes Snyder in Charge
of Demonstration Work

The work of the State Parent-Teachers' Association is about ready to get into actual motion now that the schools of the State have started their terms.

Recently the program committee of the above association with officials of the State Board of Education and the supervisors of the rural schools held a joint meeting for the purpose of formulating plans for the year's program.

One of the features of this year's work will be the holding of meetings at various centers throughout the State so suggestions of worth-while programs can be given to everyone interested in the welfare of the community schools. These suggestions will also be published in leaflet form by the State Association for distribution among the many town and community organizations. The meetings in the various centers will be held October 17, 18, 19 and 20.

The subject to be considered particularly at these meetings will be, "What part should the school contribute to the child's education?" There will be demonstrations of the old and new methods of teaching. Dr. H. V. Holloway, State President of Public Instruction, will speak at these meetings.

Miss Agnes Snyder, of the Woman's College, will be in charge of the demonstration work, and Dr. Florence Hamberger, of Johns Hopkins University, will also make an address. Mrs. John D. Cleaver, State President of the Parent-Teachers' Association, will address a group of school folk in Laurel. Plans for organized community work will be discussed.

A number of requests are coming into the Service Citizens from people throughout the State asking for direction in organized community work on this subject.

Miss Amery New State Supervisor

The State Board for Vocational Education at its meeting in Dover last week confirmed Director Heim's appointment of Miss Elisabeth Amery as State Supervisor of Home Economics, succeeding Miss Jennie Bear who resigned a short time ago to accept a position in Rhode Island.

Miss Amery comes to Delaware with an exceptional background of experience extending over a period of fifteen years. During the past four years she was on the faculty at the University of Washington at Seattle, Washington, supervising and teaching in the Teacher Training Department of the School of Education. Previous to her employment at the University she was for four years the State Extension Club Leader for the State of Wisconsin.

Her training was received at Simmons College, Boston, Mass., and at the University of Wisconsin from which institution she was graduated with the degree of Bachelor of Science in 1913.

Miss Amery reported for work last week and is fast getting acquainted with the vocational plan under which she will conduct the Home Economics program in this state. Miss Amery will make Dover her headquarters.

Country's Best
Shooters

After overcoming untold hardships from shortage of food, clothing and shelter, the 16th National Rifle and Pistol Camp Perry, Ohio, Sept. 12th. Totally lacking in modern conveniences for National Guard, attendance of the well as Service teams by thorough co-operation of State officials and the present. The present conditions for the 1922 matches, while sir, will keep pace with the accuracy of the year in that a new target is being used in the program of the National Rifle and Pistol Camp Perry, Ohio, Sept. 12th. The conditions for the 1922 matches, while sir, will keep pace with the accuracy of the year in that a new target is being used in the program of the National Rifle and Pistol Camp Perry, Ohio, Sept. 12th.

The conditions for the 1922 matches, while sir, will keep pace with the accuracy of the year in that a new target is being used in the program of the National Rifle and Pistol Camp Perry, Ohio, Sept. 12th.

Lieutenant Colonel Mo. Cavalry, United States Army, Commander of the Camp Perry Firing School, Executive Officer of the 1921 matches, who is a skilled marksman, will again serve as the official of the match. The match, which is a military training exercise, is a high National Guard trophy for the Infantry.

This latter one is for the Infantry. It is a high National Guard trophy for the Infantry. It is a high National Guard trophy for the Infantry.

Perhaps the most important addition to the match is the Infantry. It is a high National Guard trophy for the Infantry. It is a high National Guard trophy for the Infantry.

Visitors are welcome and, since the match is a national aspect, there is of interest to all.

W. Davis At Camp Perry Matches

Marksmen Will Vie With Country's Best Rifle Shooters

After overcoming untold difficulties from shortage of funds, the National Rifle and Pistol Matches at Camp Perry, Ohio, September 12th and 13th, were held. Totally lacking funds for the teams and with only curtailed expenses for National Guard representatives, attendance of these teams will be assured by thorough co-operation between State officials and the War Department. The present indications are that there will be about 1100 competitors, divided into more than 50 teams and about 500 individual shooters.

The conditions for the 1922 National Rifle and Pistol Matches, while similar to those of 1921, will keep pace with the remarkable accuracy performances of the year in that a new type of target was used for the 600 and 1000-yard shooting in all individual matches. The program of the National Rifle Association for the service rifle, small arms, revolver, pistol and shotgun will embrace all the recognized forms of competition with these weapons—team and individual, single and double.

Lieutenant Colonel Morton C. Mumford, United States Army, commander of the Camp Perry Small Arms Firing School during the war, Executive Officer of the 1918, 1920 and 1921 Matches, who has a national reputation as a skilled shot with rifle and pistol, will again serve as Executive Officer of the Matches. There are several new trophies for prizes this year, included in which are the President's Match, The Farnsworth Trophy, the Infantryman making high score, the Military Training Camps Association Trophy to the civilian making high score, the Guardsman Trophy to the high National Guardsman and a trophy for the Infantry Match.

This latter one is for a signal and important addition to this year's program—the Infantry Match—which will be fired this season for the first time. It presents a combat problem involving the principles of infantry warfare where the advance is dependent not only upon accuracy and distribution of fire, but also upon all the essential phases of the attack. In other words, fire and movement are emphasized in this problem as in no other war except actual combat, and the necessity of fire superiority is presented so graphically that the veteran cannot fail to grasp it.

Perhaps the most successful and successful feature of the last two National Matches was the Small Arms Firing School, which will again be in operation under the direction of Lieutenant Colonel Smith W. Brookhart, former Reserve Corps. He will be assisted by a corps of competent instructors selected from America's foremost riflemen. Colonel Brookhart, who is the Republican nominee for the United States Senate from New York, was director of this school in 1918, 1920 and 1921 and is leaving his campaign to give his time to this school. All contestants are cordially invited to avail themselves of this instruction, though it is not compulsory. Where else can such instruction be obtained, it being given here as part of the Government's system of preparation for national defense, and it is open to any citizen of the United States, no matter how limited may have been his previous shooting experience. The School opens September 24 and continues to include September 11th, or, in other words, to the day before the opening of the National Matches, for which it is the preparation for even the experienced shooter.

Visitors are welcomed at Camp Perry, since the Matches have a truly national aspect, there will be shooting of interest to all.

NEW CITIZEN, WEIGHING 45 LBS., WANTS A WIFE

Poppino Magro, twenty-two inches tall and weighing only forty-five pounds, appeared at the federal naturalization bureau, Brooklyn, to apply for his first naturalization papers. They were granted, and in thirty days he will become an American citizen.

The midget is 23 years old and was born in Messina, Italy. He has been in this country since 1913, and gave his occupation as "exhibiting myself." It is the vacationist back to the grind of work.

This browned and burned effect is the result of trips to the seashore, mountains, back to the farms and camps.

SPORTTUTORIAL

TENNIS AND GOLF

Boys Put Away the Hammer

There has never before in the history of sports in this country been two games that have come to the fore with the rapid strides that tennis and golf have in the past few years.

It does not take a man or woman of many years to remember when these two sports were sneered upon by a great majority of the young male athletes of the country as feminine and not just the right games for the real red-blooded men to play.

But how times have changed since then. Some of these very same young men who a few years ago were sneering at the players of these two games are now hearty supporters of them and partake in them themselves.

There is no doubt to any follower of the sporting world that these two branches of sport have brought about greater international relationship than any other two sports known to the world.

Every year the Americans go to England to partake in the big golf and tennis tournaments there and much to the joy of the American sport followers, the representatives of Uncle Sam have in recent years brought home many of the trophies that were held by the athletes of John Bull.

In golf this year Americans went to England and copped the biggest event and had three out of the first four places at the final tally. This shows that real red-blooded men do play golf or they could not stand this kind of competition. The best golfers in the world took part.

In tennis this country stands head and shoulders above the world. This was proven in the Davis Cup matches just finished. The Americans lost the double match but carried off high honors in the singles. William Tilden, 2nd, of Philadelphia, who last year was crowned world's champion by his victory in the English tournaments did not go to that country this year to defend his title but in the Davis Cup matches he proved that he was still the real king pin among the tennis players of the world for he defeated Patterson, of Australia, who was crowned the champion in the English tournaments this year.

It takes a real man to win when the competition is the best that the world can afford and this is just what the American devotees of tennis and golf are doing and as a result never before have the courts and the links of this country been so crowded as they are now. Public tennis courts and golf links are finding their way into every community and the idea that only the "sis" plays golf and tennis is the idea of only the "sis" in these times.

The baseball club of Newark, was it a success or failure? Neither and both would be the best answer to this question.

The season is over. The team failed to win a pennant in either half. A disappointment and a prediction. The prediction was made by the "knockers" before the season started, that Newark would not win a pennant. The disappointment came to those who backed the team and encouraged its entrance into the league.

Newark has a reputation among its own home folk that sports are passed here. The writer believes the wires are crossed when this kind of "dope" filters out. Give the people a team that is fighting and trying its hardest and there will be enough supporters to assure its success. This was proven in the second half of the league season just closed. In this half the local club put up a great fight and tried its hardest to win. The result was that the club was right up among the leaders and the crowds were turning out to a man and rooting their hardest for local victory.

There were several men of the town who did every thing in their power that the local club might succeed. To these men should go the highest credit and honor of real sportsmen and then there were several who seemed to delight in heaving monkey wrenches in the gears, to them the writer says "wise up" and start a new page with the title "Things I Have Done to Boost Newark" and then Newark will boast winning teams in all lines of endeavor for the material is here.

BACK TO OLD GRIND

Browned feminine forearms and burned masculine noses, have you noticed them among the people of Newark. They are here again as they are about this time every year. It is the vacationist back to the grind of work.

This browned and burned effect is the result of trips to the seashore, mountains, back to the farms and camps.

CEDARS BEAT NEWARK

Local Church League Team Has Bad Day in Field

Newark's team in the Church League had one bad inning in its game with Cedars on Saturday and lost 7 to 2. Both teams annexed eleven hits. The contest was nip and tuck for the first seven innings when the score stood 2 and 2. Newark's errors allowed the Cedars nine the five runs in the eighth. The score.

PROVIDENCE WINS

New London Team Falls Before Evans' Twirling

Providence made it three out of four from New London Saturday, by handing them a 3-1 defeat on their home grounds.

Evans' fine pitching, backed up by faultless fielding, was too much for the home team, eleven of them going out by the strike-out route. The score:

ATTEND PAGEANT

Many people from Newark went to Atlantic City last Thursday and Friday to witness the beauty contests.

NO MAIL FOR AMUNDSEN

UNLESS HE INSTALLS BOX

The postoffice department is considering the advisability of trying to reach Explorer Amundsen by radio to inform him that if he doesn't put a mail box outside his igloo the Arctic postman will pass him by.

"Rules is rules," say the promulgators of the new order, and Ned Nunsunginer, who serves the rural frozen delivery route of 650 miles between Kotzebue, Alaska, and Point Barrow, has been given the same instructions as all other postmen. Nunsunginer makes a trip every two months, costing \$1125.

CAREFUL—BUT

Joe Schmidt had ideas about bar service. One was to give a fellow just what he paid for. He didn't even trouble the drinker to hold the glass. When he poured a drink he held the glass to the customer's lips and held it firmly. Besides this, Joe carried the bottle tied around his waist. Nobody got a chance to say, "Here's a drink I got at Joe's place; smell it."

But the Pittsburgh police got Joe recently in a raid that didn't give him time to unbelt.

1922 State Fair Not a Moneymaker

Finest Fair Yet Staged Attended by Only 40,000 People

Despite the fact that the Delaware State Fair, which closed Friday night after a five-days exhibition, was the finest yet held, both in respect to exhibits and attractions, the Fair Association lost a considerable amount of money, according to directors of the organization. The total attendance was 40,000, which was far less than that of last year. The admission this year was fifty cents as compared to seventy-five cents last year. Thus, both in attendance and in admission charges, there was a deficit.

S. D. Townsend, a director of the association, in speaking of the 1922 Fair, said the exhibits were larger and better than ever before, and that the Midway held more amusements, all of a clean character, than had been the case in other years. He said the Fair was second to none in the country, and as it was close to Wilmington, the Fair managers felt that the people had failed to appreciate their efforts.

Mr. Townsend said that he had prevailed on a number of prominent citizens of the State to visit the Fair this year, not for any amusement they might derive from it but as a duty they owed to their community. Ninety-five per cent of those so appealed to, who attended, expressed surprise at the exhibit, and were loud in commendation of the efforts of the directors in giving their time and money and in arranging the Fair.

"TRAVELERS DE LUCKS"

C. Norman Wade, College Boy, Not Affected by H. C. L.

C. Norman Wade, editor of The U. of D. Review for this year, and Leslie Gluckman, both of Wilmington, are what might be termed "travelers de lucks." Wade is well known here from his many activities at the University.

These two boys left Wilmington on August 15 and reached New York City that evening. From New York they went up the Hudson to Albany and through the Adirondack Mountains to Plattsburg. After spending three days in Plattsburg they left for Montreal and Quebec. The return trip was made down through the Maine woods to Portland, Me., and then along the New England coast to Boston, then to Providence, New Haven and New York. Twelve days were spent in actual traveling at a total cost of twenty-eight cents for transportation. The distance covered was 1550 miles.

State Board Takes Care of Transportation

The State Board of Education at its last meeting passed a resolution authorizing the State Department of Public Instruction to handle the transportation problem this year on the same basis as last year, namely, to take care of contract transportation for the year and to pay for private transportation as long as the funds available permit, on the following basis:

Five cents per mile will be allowed for each child in the 6th grade or below, who lives more than 2 miles from his school, or, in the 7th grade or above who lives more than 3 miles from the nearest school of proper grade. (Nearest school means school nearest to his home providing his proper grade); provided, that for two children in the same family, one and one-half times the allowance will be made; and provided, that for three or more children in a family, twice the allowance for a single child will be made; and further provided, that not more than 40c per day shall be allowed for any one pupil. (Transportation allowed only for the distance in excess of two or three miles, as the case may be. For example: A child above the 6th grade living five miles from school should receive 20c a day.)

Pupils desiring private transportation must make application therefore on forms provided by the State Department. These forms can be secured either from the teacher or by direct application to J. O. Adams, Business Manager, Dover, Del.

The bill for transportation must be rendered monthly, not later than the 15th day of the month following, giving the number of days each child is carried, which bill must be certified to, as to the number of days attended, by the principal or teacher of the school the child has attended. Bill forms may be likewise secured from the teacher or the State Department.

AT THE PLAYHOUSE

One of the most important bookings at the Playhouse for the coming season is "The Cat and the Canary," the famous mystery play now in its fifth crowded month at the National Theatre, New York City. "The Cat and the Canary" is by John Willard, actor, artist, cow-boy, miner, and Army aviator, who thought out the thrilling story while bombing the Germans and who is now reaping the reward of having written the most sensational dramatic success of many years. One New York critic described this play as "one that Poe might have written," while another warned his readers that "The Cat and the Canary" will make every hair on your head stand on end. Incidentally, the play is replete with fun and romance in addition to the innumerable startling and ingenious situations. The play comes next Monday, Tuesday and Wednesday.

An Opportunity and Investment

8% Serial Gold Bonds

4% FEDERAL INCOME TAX PAID
SECURED BY THE
MAREVISTA APARTMENTS
MIAMI BEACH, FLORIDA

TOTAL ISSUE: \$60,000.

SECURITY: First mortgage on land, building and equipment valued at \$150,000.00 and a first lien on net annual earnings estimated at \$24,000.00.

DATED: August 1st, 1922.

TERM: 2 to 10 years.

LOCATION: On the Ocean Beach three blocks North of Miami's famous bathing casino in the high-class apartment house section of Miami Beach, Florida. Main building was erected in 1920.

PRICE: Par and accrued interest to yield 8% from date of delivery.

INTEREST COUPONS PAYABLE: February 1st and August 1st.

DENOMINATIONS: \$1,000.00, \$500.00 and \$100.00.

TRUSTEE: The American National Bank of West Palm Beach.

BONDS AND COUPONS PAYABLE: At the American National Bank of West Palm Beach, Florida, where monthly payments are made into sinking fund.

MORTGAGOR: Louis Shopiro, owner.

REGISTRATION: Bonds may be registered as to principal.

FEDERAL INCOME TAX: 4% paid by borrower.

FIRE INSURANCE: More than full amount of loan is carried, with loss payable clause in favor of Trustee.

present building is \$65,000.00. Cost of furnishings for the entire building \$20,000.00. Conservative value of land \$35,000.00, making a total conservative valuation of \$150,000.00. Ample security has been deposited with the Palm Beach Guaranty Company by the contractor for the prompt and faithful performance of the contract, and we unconditionally guarantee to the bond holders its completion free and clear of all liens and incumbrances.

II. EARNINGS AND RENTALS: The annual net earnings of the building are conservatively estimated at \$24,000.00. The mortgagor is sole owner and manager of the property and is giving it his entire time and attention. Since the erection of the present building all apartments were rented during the season and more than three-fourths of the apartments during the summer. The increased demand for apartments warrants the erection of the additional wing. With a thirty-eight apartment building, well located, with moderate rentals during both the winter and summer season, the bond holders have an excellent investment based on a conservative 40% valuation.

Security Under Mortgage

Under the covenants of the trust mortgage, the bonds constitute:

1. A DIRECT, CLOSED FIRST MORTGAGE ON THE LAND, BUILDING, FURNISHINGS AND EQUIPMENT.

2. A FIRST LIEN ON THE INCOME FROM THE PROPERTY, A SUFFICIENT PORTION OF WHICH MUST BE DEPOSITED MONTHLY WITH THE TRUSTEE TO MEET THE INTEREST AND PRINCIPAL PAYMENTS IN CASH ON THE DAYS DUE.

I. LAND AND BUILDING: The land fronts 100 feet on the Ocean Drive, has a depth of 140 feet on 2nd Avenue, and is located on the Northeast corner of the block. This gives the Apartment a southeastern exposure with an open view of the Ocean. Between the Apartment and the Ocean there is approximately 300 feet of open park which adds greatly to the natural beauty of the surroundings and to the security underlying these bonds. Miami's famous bathing casino lies just three blocks south of this property. There are a number of other buildings in this immediate section, making it the business and Apartment House section of Miami Beach.

The main section of the building was erected in 1920. It is a three-story, fireproof building containing 24 housekeeping apartments divided into suites of from two to three rooms, kitchenette and bath. The best material and workmanship was used in the erection of this building, and each apartment is furnished with well-selected furnishings. The building is provided with a large basement, a fire tower and all modern conveniences.

There is at present being added an additional wing, corresponding to the present building, which will contain fourteen housekeeping apartments. This wing is now being erected and will be ready for occupancy by November 1st. The estimated cost of the new addition is \$30,000.00. The actual cost of the

Monthly Deposits of Principal and Interest

In order to insure the prompt payment of bonds and interest in cash on the days when due, monthly deposits on account of principal and interest are made into a sinking fund as shown on the table:

| Maturity Date | Amount Maturing | Interest Payment | Total Annual Payment | Monthly Payment |
|-----------------------|-----------------|------------------|----------------------|-----------------|
| February 1, 1924..... | \$ 3,000.00 | \$4,800.00 | \$ 7,800.00 | \$650.00 |
| February 1, 1925..... | 3,000.00 | 4,560.00 | 7,560.00 | 630.00 |
| February 1, 1926..... | 4,000.00 | 4,320.00 | 8,320.00 | 693.00 |
| February 1, 1927..... | 4,000.00 | 4,000.00 | 8,000.00 | 666.66 |
| February 1, 1928..... | 5,000.00 | 3,680.00 | 8,680.00 | 723.37 |
| February 1, 1929..... | 5,000.00 | 3,280.00 | 8,280.00 | 690.00 |
| February 1, 1930..... | 5,000.00 | 2,880.00 | 7,880.00 | 656.66 |
| February 1, 1931..... | 5,000.00 | 2,480.00 | 7,480.00 | 623.37 |
| February 1, 1932..... | 5,000.00 | 2,080.00 | 7,080.00 | 590.00 |
| February 1, 1933..... | 21,000.00 | 1,680.00 | 22,680.00 | |

Guaranty

These bonds are unconditionally guaranteed by the PALM BEACH GUARANTY COMPANY, a bond and mortgage company of West Palm Beach, Florida, with a paid-in capital of \$275,000.00.

Miami Beach

Miami Beach is connected with Miami by two giant causeways. On Miami Beach are to be found some of the most magnificent hotels and apartment houses, for which Miami Beach is noted. Miami and Miami Beach, although divided by Biscayne Bay, are linked together with the same interest, similar to West Palm Beach and Palm Beach.

We recommend these bonds as an exceptional investment:

FIRST: ON ACCOUNT OF THE CONSERVATIVE AMOUNT OF THE ISSUE NEEDED TO FINANCE THE PROPOSITION.

SECOND: THE HIGH RATE OF INTEREST (WHICH IS BUT THE LEGAL RATE IN THIS STATE).

THIRD: THE PROVISION FOR 4% INCOME TAX PAID BY THE BORROWER.
