

908 DU PONT ROAD
WILMINGTON 6, DELAWARE

June 26. 58

Dear Jimmy - many thanks for your letter.

We enjoyed seeing you & Jane &

the children so much.

Your father has probably told you that when we got here, we found the local doctor had advised Helen to have an operation for various things & we were appalled & fearful, as with her heart condition she could not have borne such an operation. Helen & Cath have returned home from Philadelphia where they saw first class people & they say the local diagnosis

was almost completely coming & no
operation necessary. You can imagine
the relief all of us.

Warrin & I go to Worthington Sunday
& will be at the Carleton Hotel
Thursday am when we go to E. in.
Pan - am to Mexico. It is possible
I may stop at Houston on the way
to Mexico for a day or two to see
Dr. Hall. I feel pretty good - &
slightly more weight - and perhaps
a little thinner but I have no
discomfort after eating which is
comfortable. They warned me I would
have that - but it is now 3 months
since the operation. Perhaps the

waiting to send. In any event, it may
be prudent to see the doctor in Houston
before I return to Mexico.

I was glad we could have a long
talk. I think I understand your
attitudes all very well except in one
respect. I don't see why you shy
away from banking and certain
business. Neither do I think you should
be so concerned because your father
may be helped in getting a job.
When we were first married, I was
glad to have the help of Marion's
father. I would like to see you

Make you way in the publishing
business, printing, and I think of it a
great deal, but I just don't see
how you are going to do it.

I think frankly you are working
hard on a line that offers
prospects. I would like to be more
optimistic, but I just can't be
optimistic & remain practical and
face realities.

I have always regretted you did
not take the working job - but
think it offered real opportunities
& while I suppose working was
friendly first on acct of your
father - but the type you

is completely cut blocked in
business and wanted you and target
there was a perfect place for you &
him.

Maria has continued worries. She
gets me off her hands - there we
had these bad days about ~~last~~
past Helene, and now this
morning we get word that that the
American Car & Drummond at Peppercorn
has let out Sea Moss's loss, plus
& several hundred more. Lee has
two bad backs. He's a good engineer
and a good sailing manager,

and in the electric field, but
he seems to lose my job he has
lost since he left J.T & T. on
his own volition some years ago. I
can't keep him my mind as my
friends in the big Companies at
home are dead or retired for
the most part, and it's hard
for any Company to take a man
of these age no matter how
much they may want him - for
hiring him to be regarded
these days. I think these is almost

figs. or petioles 5 in 52. As
to the Vile.

Since yesterday it has turned
my best here and home, &
we shall be glad to get back
to the is.

Warmest love in love & good
wishes to you & Jane & the
children. Please tell you mother
that Maria appreciated her letter,
& Edna's post script.

Always, sincerely
yours
Henry
