the Course Challenge list. If there are no new courses enter "None")

None.

Explain, when appropriate, how this new/revised curriculum supports the 10 goals of undergraduate education: <http://www.ugs.udel.edu/gened/>

The addition of the IFST 427: Parenting Thru the Lifespan to the Human Relationships elective supports Goal 5: Understand the diverse ways of thinking that underlie the search for knowledge in the arts, humanities, sciences and social sciences. This course adds to the potential opportunities for students to look at an important social issue from interdisciplinary perspectives.

Identify other units affected by the proposed changes:

(Attach permission from the affected units. If no other unit is affected, enter "None")

None

Describe the rationale for the proposed program change(s):

(Explain your reasons for creating, revising, or deleting the curriculum or program.)

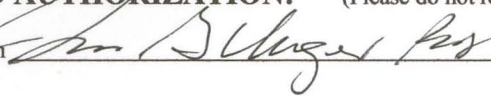

Currently the two concentrations within the Human Services major do not have the same grade requirements for HS major courses and restricted electives. The proposed change in grade requirements will align the graduation requirements for the Administration and Family Policy concentration with the graduation requirements in the Clinical Services concentration. Additionally, the IFST 267 course listed as an option for the Human Relationships elective should be removed, since IFST 267 is the number for an experimental course. These changes will correct oversights from when the concentration was created.

An additional option for the Human Relationships elective will now include IFST 427: Parenting Through the Lifespan. (Currently, Parenting Through the Lifespan is numbered IFST 310. A separate course change form is pending to change the course to a 400-level course: IFST 427.) This will allow students to take IFST 427 as either a Human Relationships elective or as a Developmental elective, as the course material emphasizes both relationships and human development. This provides students with greater options in course selections and satisfying requirements.

Program Requirements:

(Show the new or revised curriculum as it should appear in the Course Catalog. If this is a revision, be sure to indicate the changes being made to the current curriculum and **include a side-by-side comparison** of the credit distribution before and after the proposed change.)
