

Leonard Humphreys has a Tract of 128^{ac} of Land in St. Georges Hundred.
Newcastle County on the Great Road leading from New Castle to Beecy Island, which
he holds under a Patent granted to William Merrit; and as I cannot understand the
nature of his Request, but only in general that he applies for Land, some of which may
be within the Boundaries of the Patent, but the greatest part is manifestly out of it.
I therefore desire you, at his Expence, to view the place & report to me what Land
he wants that I may be able to make him out a proper Warrant, & to enable me
to settle the Terms, pray mention the Quality of the Land, & its Distance from the
Town of Newcastle, & he shall have the preference of all others —

Richard Peters
