MERRY CHRISTMAS TO YOU

Gaily bedecked in its colorful Christmas street lights, Main Street presents the true Yuletide setting this week when, with only four shopping days left until Christmas, the streets and stores are filled with people hustling here and you in an effort to complete their last minute shopping before Old Kris comes down the chimney.

And, again, as the heighth of the season approaches, we are filled with gratitude and happiness and the spirit of "Peace on Earth, Good Will Towards Men."

So, we take this opportunity to express our sincere thanks to our many friends and patrons who have made the past year one of prosperity and happiness. We thank you, one and all, for your interest in this newspaper and for your cooperation in making it's progress possible.

We wish you a very Merry Christmas and may the New Year bring you all the peace, happiness and prosperity you so richly

THOMAS A. POTTS

Newark lost its oldest and one of its most honored merchants Wednesday afternoon when Thomas A. Potts passed away.

A familiar figure on Main Street, where he had operated his own hardware store for nearly thirty years, Mr. Potts was widely known throughout the county and highly regarded for his upright principles and business dealings.

Born near Lewisville, Pa., in 1868, Mr. Potts moved to Newark in 1880 where he prospered with the communities growth until, at the time of his death, he owned one of the oldest and soundest establishments in Newark.

The entire community mourns the passing of this honored citizen, pioneer resident and respected merchant.

UNITY, OUR DEFENSE

The strength and security of our nation depends on national unity

There is no room in this country now for narrow partisanship, for class hatred, for exploiting old grudges and differences. But unity must be more than a slogan, more than a vague and appeal-

ing word. It can be achieved only by action.

Unity calls for fair dealing between industry and labor, for a policy that neither favors nor penalizes either side. It calls for an attitude on the part of both labor leaders and industrial managers that will make possible frank and honest arbitration, with each understanding the problems of the other. The nation cannot afford exploiters now—the industrialist who would grind down labor, or the labor leader who would disrupt industry to gain his ends.

Unity calls for a government policy of honest cooperation with all industry. The need of the hour is production-and still more production, in the interest of our ordinary needs no less than in the interest of our extraordinary defense program.

Unity calls for a tax and spending policy which will get maximum results in the least possible length of time with minimum waste. Taxation must be distributed equitably over all income groups, and all industries and businesses. We are willing to spend every dollar that is needed for real defense.

We can have unity. We must have it, if we are to survive as a free people. Now is the time to put into effect a program that will really achieve it.

CONSUMERS GET COOPERATION

The consumer movement, according to recent reports, continues to grow. More and more people, especially women, are showing an intelligent interest in packaging, grading, truth-in-advertising, etc. These people are wisely determined to know what they're buying, and to get maximum value for minimum expenditures.

Fortunately for the success of the movement, it is being given willing cooperation in two important quarters. First, the manufacturers of the country are showing praise-worthy interest in improving their products, in frankly and truthfully labeling them, and in using advertising copy that tells the story without going in for poetical exaggerations.

Second, American retailing is also doing its part to see that second, American retailing is also doing its part to see that the consumer movement achieves the success it deserves. The retailers are seeing to it that packaged foods contain the proper quantity and are of the described quality—are helping to simplify and collecting pictures of ships for his screen, enlisting his father's help to procure pictures of secarat large and their advertising and promotional activities.

The kind of manufacturer or store which worked on the principle that anything they could get away with was all right, is going out of the picture. Business today is fully aware that its own welfare depends upon the consumers' welfare. It knows that a "gypped" customer doesn't come back. And the consumer is getting the

IN THE CHILDREN'S ROOM

The most interesting kind of a children's room is one that is never wholly completed, that holds an element of anticipation because some new feature is always being planned or worked upon. The play table must be made most unusual and fascinating, if it is transformed into a poetry table. First be sure there is no oil or wax the surface. "Wax-off" will quickly remove it. If this is not available, consult a painter. Let the children collect from papers and magazines, or have typed, enough poems that they really like to cover the top. Help them to glue the poems to the table, arranging them with spaces between so they may be easily read and an artistic effect be produced. Shellac, or if one of the children is old enough let him shellac, the whole top, giving it several coats so that a hard smooth finish is obtained. Be sure to use white shellac, and test its drying The play table must be made most smooth mish is obtained. Be sure to use white shellac, and test its drying qualities on and around a small piece of paper, later to be covered by a poem, pasted on this same table, before the shellacking is undertaken.

A table like this will be of unending interest to the children, and it may be used for ordinary activities without detriment to the poems.

Another exciting project for the children's bedroom or playroom is a scrap-book screen. An inexpensive screen with pasteboard panels is the founda-tion, and having this, the fun of choosing its decorations will begin. FACTS ARMERS

H. L. Richardson, poultry specialist for the Delaware Agricultural Extension Service, reports that "Prospects for smaller supplies of poultry and eggs and stronger consumer demand indicates that prices of chickens, eggs and turkeys will average higher in the and turkeys will average higher in the first half of 1941 than in 1940. The hatch of chicks during the spring of 1939 was one of the largest on record which undoubtedly accounts for the large supplies of lower prices of both poultry and eggs during the present year. These low prices in turn had the efect of causing a marked decrease in the number of chicks hatched during the first six months of 1940 which is largely responsible for the present optimistic outlook."

Under the Food Stamp Plan of the U. S. Department of Agriculture for the distribution of farm commodity surpluses, close to two million persons spent more than \$4,500,000 in blue stamps for fruits and vegetables, eggs butter, pork, lard and flour during August. CHRISTMAS SHOPPING, EVEN CHRISTMAS SHOPPING, EVEN for the experienced woman, is a cross between ice hockey and being thrown in an arena at the mercy of hungry llons, so you can imagine what happened to us when we embarked on a holiday purchasing tour that reached its climax beneath a bevy of bargain-buying biddies.

three counters away. We took another snort.

WE CONTEMPLATED SEVERAL methods of approach. The stand-up system, which in the face of that mob would have resulted in stark tragedy, was discarded without a second thought. The over-all method, that of vaulting from shoulder to shoulder to our destination, was also tossed aside as equally as hazardous.

We dismissed the crouch and punch approach as too brutal trealizing our mistake later) and finally elected to try the submarine attack which is self-explanatory and which proved to be almost a clear-cut case of shopicide. Our trip almost came to an abrupt end as we submerged, when an elbow, descending with all the force of a depth bomb, exploded just above our right ear, sending us to the bottom a lot faster than we anticipated. Stooping there under the kindly protection of the handkerchief counter, we studied the situation in an effort to plan a strategic campaign, and following a survey of currents, cross currents, and an expected argument with the salesgirl, we estimated that just about three hours and a half should see us in possession of the gift.

GEOGRAPHICALLY, OUR POSI-

of the gift.

GEOGRAPHICALLY, OUR POSItion still lay about four elbow nudges to the left of the toy department and three straight-arm slugs from the hardware section. One of our limbs, after a brief shake-up, lay unceremoniously draped over the handkerchief section while the other managed to gain firm footing on a size ten which happened to be placed under our hoof. One arm was informally surrounding the neck of a fellow shopper (you know, just one big happy family) while the other lay in readiness for the advance.

After being layed out for exactly 25 minutes by the force of a lady's (ha, no woman's a lady when Christmas shopping, we decided to cast aside our maners and really get down to serious business.

AT THE SIGNAL TO CHARGE, W delivered the first of the knuckle toss and a hack for good measure and foun ourseif confronted by a huge wall avoirdupoise which our strategic min analized as necessitating extreme mesures. Georgetown Conquerors Too Much For Blue Hens Who Trail, 28-12, At Half-Time; Freddy Mitchell Leads **Locals' Scoring With 11 Points**

A high-powered Loyola College quintet, with the scalps of four opponents dangling from its belt, handed the University of Delaware basketball team a 48-34 setback Tuesday night in the Blue and Gold's opening clash of the 1940-41 season.

Officials: O'Conne Half-time score; ntal Fibre, 13.

Blue and Gold's opening clash of the 1940-41 season.

Presenting a sharpshooting and co-sordinated attack, the Baltimore invaders were slow to start, but once the ball stated rolling, they lost little time in asserting their superiority.

Unable to solve the visitors' zone defense, the Hens were kept in check along most of the route as Freddie Mitchell proved to be the only Blue and Gold representative who could swish the chords with any degree of regularity. The little but speedy guard compiled a total of 11 points to lead his team's scoring.

Continental Falls Before Invaders' Second Contingent

Led by Morris Adams, the American Legion bowling team, eked out a 2,875-2,826 victory over the Ogontz Alley pin-men, of Philadelphia, on the local al-leys, Saturday night.

Adams racked up a total of 597 pins to pace the winners, while Paul Min-nick, with 609, was high man for the winners and for the evening.

winners and for the evening.

In the preliminary match, the Ogontz second contingent handed the Continental Diamond Fibre Company a 2615-2,557 setback as Art Smith led the way with 557 pins. Clarence Hopkins paced the Fibremen with a 553-point total.

Competition To Offer Cash Prizes To Local Boys

More than 25 local cue wielders are expected to enter Jimmy Martin's championship billiard tournament and treasure hunt which will get underway just as soon as arrangements can be completed.

completed.

Differing from the round robin affairs staged in former years, the impending competion, to be held at the State Billiard Parlor, will be a handicap elimination tournament with the route sprinkled with cash awards.

Once a man has passed the first round, he immediately becomes eligible for a prize and he has only to move into the quarter finals to receive his cash. Increasing prizes will be presented to the semi-finalists, the finalists, and the champion.

All players will enter the tournament as nearly as possible on an even basis for Mr. Martin, who has watched the boys perform for several years, will handicap each entrant. In view of this set-up, every match should prove to be a hotly-contested affair.

Among those expected to participate are: Woodrow Beck, Curtis (Huck) Morrison, Ackie Stiltz, Ed (Moose) Morgan, Walter Martin, Al Maelary, Chris Laskaris, "Porky" Maelary, Ebuck" Gregg, Bill Smith, John Sanders, Leslie Ecklund, Charles (Spike) Daly, "Bud" Robinson, "Pinky" Gravener, New Sheaffer, Joe Moore, Dick Tweed, Charles Tweed, Ernie Spence, Jake Hogan, Ken Barnes, Gus Smith, and Herman T. IDEALS and PRINCIPLES ARE THE ONLY THINGS THAT ENDURE

Clothes and bodies wear out, goods wanted today are totally out of fashion tomorrow, buildings deteriorate, all material things must face repairs or scrapping, and well "The Old Mullin Building" knows this after what the public and myself have gone through the past six months, Now that I am almost completed, I wish to thank all for their patience during this inconvenience . . . I feel like a new person, rejuvenated and hope my mission as a building will not only serve the public as well as here-tofore, but achieve greater worth to my surroundings, neighbors, and community at large.

The Mullin organization started in Wilmington in 1880 and in West Chester, Pennsylvania in 1862, and it's founder Jas. T. Mullin had only one idea when making and selling clothing, never down making and selling clothing, never down to a price, but up to a standard, and you can be assured this ideal will never be changed in order to keep on doing the same thing. The principle of Christmas in America and in other parts of this torn world "Peace on Earth to Men of Good Will" is still with us, and I invite you. one and all to share it with me in my new surroundings

Weekly Sermon

About Confession of Sir

By Rev. Kenneth S. Suest, Member of Faculty. The Moody Bible Institute of Chicago.

Text: If we confess our sins, he is faithful and just to forgive us our sins, and to cleanse us from all unrighteous-

-I John 1:9

This verse refers to Christians, not to the unsaved. No Christian wants to sin. But sin does enter his experience. When it is allowed to remain, his fellowship with God ceases. He does not lose his salvation, but he does lose his fellowship with the Lord.

A beautiful illustration of this is found in John 13:10. The first use of the word "wash" is from a Greek word which refers to a bath. The secword which refers to a bath. The sec-ond word "wash" is from a word mean-ing to wash part of the body. Our Lord said, "He that hath been bathed com-pletely is bathed, and needeth not save to wash his feet."

In the time of Christ, a Roman citi-zen would go to the public baths, where he would bathe completely, and then walk home through the dusty streets. Sandals were always worn, which al-lowed the dust to cover his feet. When arrived home, he would have his ve wash his feet. He did not need

he arrived home, he would have his slave wash his feet. He did not need a bath, for he stayed bathed until he reached home.

So it is with a Christian. He was washed completely from his sins in the precious blood of Jesus at the time he accepted Christ as Savior, and, like the Roman bather, he stays bathed until he reaches his heavenly home. But as he walks through this world, sin sometimes enters his life. He does not need to go back to Calvary and be saved all over again, any more than the Roman needed to go back to the public baths. But he does need cleansing. He must confess his sin to the Lord. That reached home.

FOOD for THOUGHT

Tradition says that an Arab horse Tradition says that an Arab horse-man set forth across the desert with a bag of dates and a pouch of milk for his lunch. The milk soured and at lunch time the Arab was surprised to find a yellow curd separated from the watery fluid. He tasted this curd, liked it, and so the making of cheese was started. started.

started.

American consumption of cheese has increased six fold since 1850. The use of cottage cheese alone tripled from 1919 to 1930. Nevertheless, our average consumption of five pounds of cheese per person per year is a low figure compared with European countries and with our own consumption of meat and better. and better

Wisconsin supplies about two thirds
of our American made cheese, with
New York coming second.
Cheddar of American cheese and
cottage cheese are the two kinds most
commonly used in this country.

One pound of American cheese con-tains the protein, minerals, and butter fat of one gallon of milk. Consequent-ly, this cheese is often an inexpensive substitute for milk. Its richness in pro-tein makes it an economical meat sub-stitute.

tein makes it an economical meat substitute.

When cheese was only used as an accompaniment to pie at the end of a heavy meal indigestion was usually blamed on the cheese, and not on an already overburdened stomach. Cheese is now generally recognized to be quite as digestible as any other concentrated protein food such as meat or eggs.

Macaroni and cheese, cheese sauce for vegetables, cheese sandwiches, Welsh rarebit, cheese souffle, and crackers and cheese are all good ways to use American cheese.

Cottage cheese is usually made from skim milk. It is rich in protein, calcium, and phosphorus. It is commonly used in salads and as a meat substitute.

High nutritive value, economy, di-gestibility, and flavor combine to make cheese worthy of a place as a common ly served food.
