On Saturday night, in the open air theatre on his estate, Longwood, Pierre S. du Pont will give his annual benefit for the Delaware chapter of the Sigma Phi Epsilon fraternity. The production will be the Gilbert and Sullivan opera, "The Gondoliers," and will be given by the Savoy Opera Company of Philadelphia. Following the opera there will be a display of the famous Longwood lighted fountains.

The performance will start at 8:15, daylight time, and in the event of rain, it will be given on the stage in the huge conservatory.

The production of "The Gondoliers" will hold a particular interest in that John A. Thoms, a native of Wilmington, and musical director at the Westminster Presbyterian Church, Wilmington, will direct the orchestra. "The Gondoliers" was given at the Academy of Music, Philadelphia, last Friday, with Mr. Thoms directing.

The electric lighted fountains, in themselves will be worth the trip to Longwood. With the colored lights playing on the water, many weird and fascinating effects are achieved. It is said that a group of engineers from the General Electric Company will attend the performance, Saturday, just to see the fountain display.

DR. E. B. CROOKS LEAGUE HEAD

Reelected To Serve 5th Term As President Of Consumer's League; Plan Cannery Welfare Center

At a meeting of the Consumer's League of Delaware, held last week, in Wilmington, Dr. E. B. Crooks was reelected president to serve a fifth term as head of the body.

Other officers elected were: Rabbi L. A. Mischkind, first vice-president; Miss Margaret E. McKay, second vice-president; Mrs. Ethel Ball Staniar, third vice-president; Mrs. J. A. Bernstein, recording secretary; and Mrs. Alexander R. Abrahams, treasurer.

Mrs. J. Edgar Rhoads, Mrs. A. P. Tanberg and Mrs. John J. Morris, Jr., were elected members of the council. Special reference was made to the work done by the Federal Employment Bureau, under the direction of Leroy Kramer; committee work; the fight for the passage of a weights and measures bill in the last Legislature and the immigrant work which it is hoped to establish this Summer.

Mrs. Petricha E. Manchester, executive secretary, in her report showed the work accomplished by the organization during the year.

One of the programs which the League will attempt to institute, this year, is the founding of experimental welfare centers at canneries for the children of the canners. It was explained by Dr. Crooks that social conditions among the cannery workers were particularly bad, particularly as affecting the children. A state forbids children under twelve years of age from working in the canneries, but does not regulate any hours or condition under which children of working age may be worked.

The request for such welfare centers has come from the operators of canneries, who will furnish the building and equipment for such centers, if the League will furnish social workers to conduct the centers. It is planned to have two college girls with experience in social welfare work at each center.

STONE CARNIVAL OFFERS BIG AND VARIED THRILLS

Huge Show, Sponsored By War Veterans, Gives Entertainment For Any Age Or Taste Here All Week, Matinee Saturday; 25 Different Attractions

GIRL BURIED ALIVE

The W. T. Stone Shows, here for this entire week, under the auspices of the Lt. J. Allison O'Daniel Post, Veterans of Foreign Wars, had their postponed opening, Tuesday night, due to the inclement weather conditions Monday. This is one of the largest and most elaborate carnival companies on the road and among its entertainment features are several that are not to be excelled at any of the largest amusement parks.

The shows are on the large Maxwell lot, on South Academy street, just below the new school building. They are laid out in an oval, and cover the entire lot. Four big rides occupy the center of the oval, with the booths, side-shows and theatres forming the walls of the oval. The performances start at 7 o'clock, daylight time, every evening, and there will be a matinee on Saturday. Members of the Veterans of Foreign Wars act as ticket takers for all the amusements.

Two of the biggest and most spectacular entertainments are the House of Mystery and the Athletic Carnival, which are followed by attractions scarcely less in size, such as the Colored Night Club Revue, The Hawaiian Revue and the Congress of Freaks and Oddities. Other smaller, but highly entertaining features are studded around the oval. In all there are 25 shows and rides, more than a full evening's entertainment for anyone.

Professor and Mme. Audrey conduct the House of Mysteries, which gives but one show an evening, and provides more than an hour of unusual feats of magic, mysticism, mind-reading, mesmerism and hypnotism. Last evening Professor Audrey started an attempt to break a world's record for continuous hypnotic sleep. A young girl, Miss Marie Condon, was induced into hypnotic sleep by Professor Audrey, and was put into a ventilated casket and buried six feet under ground. Professor Audrey will attempt to keep her buried asleep in the casket until 11 o'clock, Saturday night, 74 hours. If he succeeds he will break the existing record by 20 hours. A hole in the ground has been left at the head of the casket, which has a glass panel, and the girl's head and shoulders may be viewed any time of the day or night. At each performance the Professor answers questions from the audience, foretells future events, and performs miracles of mental telepathy.

The Athletic Carnival has a large local interest inasmuch as a number of local athletes are to be seen in wrestling and boxing contests. The show carries several wrestlers and boxers, who challenge anyone in their weight. Last night, Jack Keeley, of Newark, and Young Frisco, well-known Greek wrestler of Wilmington, put on creditable performances against Jack Wilson, heavyweight, and Teddy Betts, middleweight, who are with the show. On Saturday night "Bill" Crow, one of the greatest wrestlers ever produced in this section, will meet Jack Wilson in a one fall finish match. Both "Bill" Crow and Jack Keeley will probably work (Continued on Page 8.)

PLAN HOUSE FOR K. A.

At a meeting held in the Wilmington Country Club, Tuesday night, plans were laid for a drive to raise \$60,000 to build a new chapter house for the Delaware chapter of the Kappa Alpha fraternity. A group of alumni will raise the money by selling common stock and 6 per cent bonds.

The new structure will be of Colonial type to conform with other buildings of the University and will be on the college campus. Within the next three weeks a campaign will be inaugurated under the direction of a committee appointed at the meeting last night. H. R. Cole is general chairman in charge of the construction. Norris A. Wright will be in charge of building operations and Irvin Walls will be in charge of finances.

Plans for the new building are being rushed and will be submitted at the annual meeting of the Alumni on June 8. Work is expected to be started in the early Fall.

Last Friday the local school was closed to permit the pupils to attend the County Field Meet, held at Frazer Field, Newark. Dr. Julius Dodd, of New Castle, was called and administered first aid to the injured pair, after which Mrs. Appleby was sent to the Homeopathic Hospital, Wilmington, where it was found she had sustained a fracture of the collar-bone and severe lacerations of the scalp. Mr. Appleby was taken to New Castle, where Dr. Dodd treated him for cuts about the face and mouth, after which he was returned to his home. Mr. du Pont reported the accident at State Police Station No. 2, stating that he failed to see the red signal light in time to prevent the collision. No charge was made against him.

Elkton

The Ladies' Auxiliary of the Chesapeake City Volunteer Fire Company will hold its annual Tag Day on May 30.

The Cecil County Commissioners have appropriated \$1500 toward the dredging of the channel of Elk River between Cedar Point and the Elkton wharves.

An explosion of a motion picture film in the New Theatre, Elkton, on Saturday night resulted in a small fire

that caused a stampede among several hundred men, women and children, attempting to gain egress from the building. Chief of Police Potts and Officer Humes, who were standing in front of the theatre at the time, directed those in the theatre to the exits without any disorder and prevented any one being hurt. The Singery Fire Company was soon on the scene and with their chemicals extinguished the fire with a small loss.

After a persistent fight by the Board of Trade of Port Deposit, the Postoffice Department at Washington, has finally been convinced of the feasibility of establishing a free mail delivery in their town. Some weeks ago, the Postoffice Department notified the civic organization of the town, that their request had been turned down. The officers of the Board of Trade with influential men of Tome Institute, assisted by Senator Tydings, put up a strong argument in behalf of the desired improvement, with the result that the Government reversed the original decision, and within the next few months, will establish a free mail delivery in the town.

On complaint of Mrs. Chris Newton, of Cecilton, William James, colored, age 45, of the same town is a prisoner in the Elkton jail awaiting a hearing on a charge of attempted assault and disorderly conduct. FOR those who like to be out and going—top down—nothing but blue skies above—Nash designers built three smart "400" Cabriolets.

With the top up and windows raised, they are luxurious closed cars—with the top down and windows either down or up, they are smart open cars. All have a big, comfortable, roomy rumble seat.

The Standard Six Cabriolet is one of the most popular cars in its price field, because it combines the smart open-top motoring with Standard Six performance superiority.

It has a big, high compression, 7-bearing motor for power and speed—"400" steering for the world's easiest driving—Lovejoy hydraulic shock absorbers, for cushioned smoothness over all kinds of roads.

Delivered, Fully Equipped, Price Range on 25 Nash "400" Models, \$970 to \$2326

The Special and Advanced Six Cabriolets are distinguished by such "400" features as the new Twin-Ignition motor, Bijur Centralized Chassis Lubrication—press a pedal, your car is oiled—Lovejoy and Houdaille hydraulic shock absorbers.

And, every "400" model comes from the factory equipped with bumpers, hydraulic shock absorbers, spare tire lock and tire cover, at no extra cost. Some dealers, charge as much as \$50 or \$60 extra for bumpers alone.

Compare these Cabriolets to others, then compare their fully equipped, delivered prices. You'll see the advantage in buying a Nash!

Says Uncle Charlie

TENDER, new grass will soon be coming up; high-percent proteins won't be needed.

But for reasons of economy, top-notch milk production and the cow's good health you can't rely on pasture alone. Keep your cows on a balanced ration throughout the summer.

Feed Now—Bigger Profits Later

Later on, you'll see the results of feeding Marmico, the 18% B-B Dairy Feed, when instead of drying up, your cattle keep on producing milk—throughout the high price milk period.

Marmico Economical

Frank Lepatral, E. Maul & Company, at West Grove, Pa., writes: "I have fed Marmico (18%) this summer (1928) to 75 head of Guernsey Cows, testing against a feed costing \$16 more per ton. Marmico is by far the better feed, producing just as much and in some cases more milk."

MAY 23, 1929

The Memorial Day Plans

A committee appointed by Mayor Collins has formulated a Memorial Day program and parade schedule which promises to be the most elaborate and ambitious ever attempted in Newark. One of the main features of the memorial exercises will be the presence of Governor Buck, who will make the address of the day, and award the reserve commissions to graduates of the University of Delaware R. O. T. C. unit. In this feature alone, Newark will be particularly distinguished for the demands on the Governor's presence are many and pressing on this occasion, and the community can take pride in the fact that he has elected to come here.

The present tentative program will probably be increased in dimensions, particularly regarding the parade, at a meeting to-morrow night at the American Legion Post rooms in the Old Academy Building. This is a general Memorial Day meeting, and all organizations in the community are urged to send delegates. The tentative program will be discussed and changes and additions made to it. One matter of particular importance, which will be presented is the question of a permanent memorial for the Town of Newark. Both service organizations now have funds accumulated for such a purpose, and other organizations will be asked to place their usual Memorial Day donations into a fund to be used for the erection of a permanent memorial. A permanent memorial committee will probably be selected to take charge and administer the fund and to submit ideas and plans for the memorial. Every organization in the community should send an instructed delegation to this meeting with definite ideas as to the part the organization will be ready to take in the Memorial Day program, and its sentiment on the permanent memorial idea.

The Mayor's committee, composed of Herbert Henning, of the Council of Newark; William Rupp, of the Veterans of Foreign Wars, and Wayne C. Brewer, of the American Legion, are to be highly congratulated on the plans and arrangements which they have completed for the Town of Newark observance of Memorial Day.

Display the Flag

Due to the efforts of the American Legion and the Chamber of Commerce, Newark is well supplied with the Flag of the United States, and it is hoped that not one of these flags will remain furled in a closet on Memorial Day. Newark wants particularly to make a fine showing this Memorial Day, as the Governor of the State will honor us by appearing on our program. The Day itself is reason enough for every flag to be displayed, and the Governor's visit is an added urge for the Town to make a proud showing.

In speaking of the flying of the Flag it might be noted that there are only two ways in which it properly may be displayed. One is to fly the Flag from a staff, freely unfurled, with the starry field, or Union, as it is called, toward the peak. The other is to hang the Flag, either lengthwise or breadthwise, with the Union always uppermost and to the observer's left as he faces the Flag.

DEL-MAR-VA SPEAKERS OF NATIONAL FAME

Word was received at the office of the Del-Mar-Va Eastern Shore Association yesterday that J. S. Crutchfield, President of the American Fruit Growers, Inc., of Pittsburgh, will deliver one of the principal addresses at the fourth annual meeting to be held Wednesday, May 29, at the Wicomico Hotel, Salisbury, Md.

This completes the speakers' program for the meeting, as a second address will be delivered by Col. Charles I. Stengle, Editor of the National Farm News, of Washington.

Association officials feel that in securing the two nationally known speakers their meeting will be exceptionally well featured. Both are recognized as authorities on co-operative movements and are familiar with the several phases of work which the Association has undertaken.

Mr. Crutchfield needs little introduction to those in any way connected

with agricultural interests. He is one of the outstanding figures today in American business dealing with the products of the farm. The producing properties of his company extend all the way from New England to the Pacific Coast.

Mr. Crutchfield organized the American Fruit Growers in 1919 and became its president. He is also president of the Union Fruit Auction Company, of the William Penn Produce Company, Pittsburgh; Director of the Wabash Railway Co., Treasurer, Deerfield Groves Co., and Chairman of the Board of the Northwestern Fruit Exchange besides being President of the Pittsburg Fruit and Produce Exchange.

During the World War, Mr. Crutchfield served as vice-administrator and member of the executive council of the Federal Food Administration; vice-director, Food Supply Commission of Public Safety of Pennsylvania and is also a member of the advisory committee of the Agricultural Service Department of the Chamber of Commerce of the United States. He is rated as one of the foremost authorities on the question of standardization in its relation to modern marketing of agricultural products.

Colonel Stengle, of Washington, is also rated as an agricultural authority and is considered extremely suitable to address the membership of the Del-Mar-Va Association because of his being familiar with the Peninsula and the son of one of the leading pastors who served in various communities on the Eastern Shore a generation ago.

mory at Academy street and Delaware avenue, and will step off at 9 o'clock, standard time. It will probably march down Delaware avenue to Chapel street, and then to Main street by way of Choate street, and up Main to the Episcopal Cemetery. From there it will march to the Library by way of Delaware avenue and South College avenue.

At each cemetery a firing squad from the Veterans of Foreign Wars will fall out, and fire a salute. "Taps" will be blown. The graves will be decorated earlier in the day by the two service organizations.

The tentative line-up of the parade is as follows:

Grand Marshall: Major R. G. Buckingham, G. A. R.; Spanish American War Veterans; Colors and Band of the Veterans of Foreign Wars; Newark Post, Veterans of Foreign Wars; American Legion colors and Continental Band; Newark American Legion Post; Newark Boy Scouts; Newark Schools; Company "E", Delaware National Guard; University of Delaware R. O. T. C. colors and band; Delaware Unit, R. O. T. C.

It is expected that a number of other organizations of the Town will parade and positions will be assigned them. A new parade line-up will probably be decided on at the meeting, tomorrow night.

The suggestion, that instead of floral contributions, money be donated to be placed in a permanent Memorial Fund for the Town of Newark, has been accepted by the committee, and organizations and business houses will be asked to give cash for this fund. A single spray will be used as a floral tribute to be laid on the tablet by a child. This spray will be from the town as a whole.

The University of Delaware will provide a speakers' stand and chairs for the audience.

The parade as already drawn up will include about 800 persons, and it is expected that there will be several hundred more in line. There will be three and possibly four bands.

CITIZEN SURPRISED

A prominent Newark, Del., citizen had been ill for some time. A neighbor recommended Hera, the tonic. It acted fine. No gas after meals, no sourness, heartburn, no constipation. He says, "I eat heartily and enjoy meals. Hera has certainly helped me and made me feel years younger." Try Hera yourself for 5 days. If you are not satisfied the Home Drug Co. will cheerfully refund.—Adv.

U. OF D. DOWNS STRONG TEMPLE 9

Plays One of Fastest Games Ever Seen On Frazer Field To Beat Philadelphia Team, 3 to 2

Yesterday, in one of the fastest ball games ever seen on Frazer Field, the University of Delaware turned back the powerful Temple University nine with a score of 3 to 2. In doing so Delaware checked the long winning streak of Temple, which included victories over Georgetown and the Quantico Marines. Hall on the mound, Roman in the field, and Taylor on the bases, held the stellar honors in a game that was crowded with spectacular play.

Hall, who turned in best performance of the year, held the Temple sluggers to 5 hits, 2 of which came in the ninth. He struck out three.

Roman's work at shortstop saved the day for Delaware on a number of occasions when he grabbed drives that looked like sure hits.

"Ace" Taylor's flying feet provided the final thrill and won the game for Delaware in the ninth, when he came to bat with the score dead-locked at 2-2. With instructions to bunt, "Ace" laid one down in front of the plate and beat it out. He then stole second and third and came sliding home in a cloud of dust in a squeeze play, precipitated by Hall's bunt.

NEWARK NINE PLAYS FOR STATE TITLE, TUES.

Newark Junior High, undefeated champions of division A, of the D. I. A. A. Elementary Baseball League, won the title for the Northern half of the state last Thursday on Frazer Field by virtue of a win over Middletown Junior High, representing division B; score 2 to 1.

Newark put over its two runs in the first, then Middletown came back with one run in the second. After this, it settled down to a pitchers' duel between Jackson, of Newark, and Poore; Jackson having the decided edge and holding his own against all of Middletown's threats of scoring.

Newark is scheduled to travel to Dover, May 28, to play the winner of the Southern half of the state for the state crown. Rainy weather has held up the Southern schedule, so as yet no winner is qualified to meet Newark.

DELAWARE WINS TWO GAMES IN SOUTH

The University of Delaware baseball team hit a winning stride the latter part of last week and turned in

victories over Mount St. Mary's and Catholic University. The Blue and Gold played Mount St. Mary's at Emmitsburg, Md., on Thursday, and beat "Brick" Malloy's nine, 10 to 5. On Friday, Delaware played Catholic University in Washington, and set them the Capitol City team down, 6 to 1.

Hall pitched the full game for Delaware against Mt. St. Mary's and held down any dangerous rallies. The Delaware boys had a great day with the hickory and sent three of Malloy's pretzel artists to the showers. Steel, the Blue and Gold left fielder, particularly distinguished himself by getting a circuit clout and two hits out of three trips to the plate.

Delaware hit the ball hard in the Catholic University game, while Crossgrove held the Washington team to three scattered hits. Glasser and Mudd each contributed doubles that scored runs, while Hill whaled out a triple and a homer for his share of the victory.

DELAWARE LOSES CLOSE MEET TO MT. ST. MARY'S

The University of Delaware track team paid a visit to Mt. St. Mary's on Saturday, but did not fare as well as the baseball team, which had been there the day before. The Blue and Gold track and field athletes lost a dual meet, 67 1-3 to 58 2-3. Delaware lost the meet on the track, for the Blue and Gold placed first in all the field events but one, although Sloan, of Delaware, and Orlovsk tied for first place in the pole vault to set a new stadium record of 11 feet. Wells set another stadium record in the 120 hurdles, which he won in 16.4. The third record of the day was set by Devoe, of C. U., when he took the mile run in 4:51.2.

Garrett, of Delaware, won the high jump and the javelin, while Wells took both hurdle events. Benson won the discus for the Blue and Gold, while Deputy, Phillips and McCarthy, finishing in the order named, won all the points in the half mile for Delaware.

Delaware will be well represented at the Middle Atlantic track and field meet at Haverford College tomorrow and Saturday. Paxson and Wells will compete in the hurdles; Sortman in the sprints; McVaugh and Wright in the half mile; and Sloan, Riggieri, Garrett and Collins in the field events. A Freshman medley relay team will also represent the Blue and Gold. The successive events will be the 220-yard dash, 440-yard dash, half-mile run by Goldberg, Sortman, McVaugh and McCarthy, respectively.

and methods offered by Mrs. Daugherty.

Cleaning Paste for Wool Rugs
1 medium cake ivory soap shaved in pieces
2 oz. borax
1 oz. soap bar
3 cups of water
Boil until dissolved, add 4 tablespoons ammonia. Put in bucket and add 2½ quarts cold water. Let cool for a day. Apply with a scrub brush on a space of 1 yard at a time. Rub hard to form a foam, scrape off and wipe dry with a damp cloth.

Cleaning Brass and Copper
Paste of ammonia and whiting, or rotten stone and sweet oil. For copper, lemon skin and salt or sapolin. To clean irons—wash if rusty with kerosene. Heat and rub with wax or fat and scour off with salt. For cleaning nickel—Use paste made of ammonia and whiting.

To Clean Window Panes
1. Warm soapy water put on with a window mop and wiped clean with a rubber window wiper.
2. Household ammonia in warm water, wash with a chamois and dry with a chamois.
3. Alcohol and tissue paper.
For cleaning painted and varnished woodwork, use a commercial paint cleaner or warm water and soap, or kerosene in warm water.

Cleaning of Silver
If silver is kept in a well ventilated house, it will not tarnish so easily. To clean plated silver be careful not to use a strong polish; a cream polish is best, avoid ammonia. For sterling or plated silver any good commercial cream polish is good, or one can make a satisfactory home-made polish with:

1½ pounds of whiting
½ small package pearline
½ oz. castor oil
Dissolve pearline in 1 cup boiling water. Stir in whiting and add oil. Rub on silver, let stand till dry. Wash in hot suds, rinse well and dry.

Cleaning Silver "Without the Rub"
The following is an easy and satisfactory way of cleaning silver. This way is called the electrolytic method. It has been tried out by chemists and proven not to be harmful to the silver in any way.

Boil the silver until tarnish is removed, in an enamelware kettle containing a piece of aluminum and a solution made of 1 teaspoon of salt, 1 teaspoon of either washing or baking soda, and 1 quart of water. Aluminum kettles of any value for cooking should not be used, since the process corrodes them quickly. A piece of zinc is sometimes used in place of aluminum, but it becomes corroded and inactive in a much shorter time.

This method gives a satin finish rather than the burnished appearance obtained by an abrasive silver polish. This electrolytic method, however, causes no loss of metal and requires less time. It may be desirable, therefore, to use the solution with aluminum as frequently as it is necessary to remove tarnish, and the abrasive polish with aluminum as frequently as it is necessary to remove tarnish, and the abrasive polish occasionally to restore the burnished appearance.

Cleaning Equipment and Supplies
Long handle soft wall brush (for cleaning walls), radiator brush (for cleaning radiators), toilet brush (for cleaning commodes), window cleaning soft cotton mop (for cleaning window glass), window cleaning rubber scraper (for drying window glass), long handle wool dust mop for floors, small paint brush is good for dusting out windows, long handle dust pan, step ladder high stool, chamois skins are nice for washing and rinsing windows. Have one for each purpose. Commercial paint cleaners are good for washing painted or varnished furniture or wood work. It is said to preserve the paint as well as to clean it. Both O'cedar and Lemon Oil furniture polishes are good for furniture. Porsella is good for cleaning your sink, lavatory and bath tub. Chlorox

Stanton

The Ladies Aid of the Stanton M. Church are planning to hold a Strawberry Festival early in June, in the Social Hall of the Church.

The play, "The Path Across the Hill," was given by the Young People's Fellowship of St. James P. Church on Thursday evening, to a full house. The parts were well taken and well rendered. The play will be repeated in the Social Hall at Marlborough on Friday evening, May 24, under the auspices of the Young People's Fellowship of St. Barnabas Church.

Mrs. J. Harold Mitchell attended the field meet at Newark on Friday. Mrs. Annie Murray was the guest of Mr. and Mrs. Robert Banks, at Atlantic City, last week.

Mrs. Marjorie Pinder was the weekend guest of Miss Alma Lucas.

Mr. Alvin Boulden, of Wilmington, spent the weekend with his brother, Harry B. Boulden.

Mr. Kriel W. Chambers and Mr. Wm. Victor were the guests of Mr. Chambers, Mrs. Maris, at Kirklyn, Pa., on Thursday.

Mrs. Rachel Taylor and son, Edwin, Mr. and Mrs. Walter May and children, Walter and John, and Mr. Fritz Sauerbaum, of Philadelphia, were the weekend guests of Miss Esther Miller.

Mr. and Mrs. Charles Snyder and daughter, Doris, Mr. and Mrs. Harry Kehoe, of Newark, N. J., and Mrs. Jack Downes, of Jersey City, were the weekend guests of Mr. and Mrs. Harry A. Boulden.

Miss Anna Belle Singles, of Chester, spent Friday with her parents, Mr. and Mrs. Charles Singles.

Mrs. Blanche Sindall spent Thursday with Mrs. Jack Maloney, of Wilmington.

Mrs. Nellie Roth, of New York, was the weekend guest of Mrs. Sue Roth.

Mr. and Mrs. Harry Wright were the weekend guests of their mother, Mrs. Anna J. Wright.

Charles P. Dickey, who has been ill at his home, is slightly improved and able to be out.

Mrs. Alma Boulden and daughter, Lella, spent Saturday with her mother, Mrs. Appleby, of Christiana.

Mrs. Gilbert Chambers and daughters, Edna and May, of Newark, were the guests of Mr. and Mrs. Chas. P. Dickey on Wednesday.

Mr. and Mrs. R. Earl Dickey, of Christiana, were the dinner guests of Mr. and Mrs. Chas. P. Dickey on Sunday.

Now that the annual field meet of New Castle County is over, the pupils

of the Stanton School are practicing for the closing day exercises, which will be held on Monday evening, June 3rd.

The teachers of the new Stanton Consolidated School District No. 38 have been secured and contracts signed as follows: Mrs. Mary B. Seasholtz, seventh and eighth grades; Mrs. Margaret Weir, third and fourth grades; Mrs. Helen Wright, fifth and sixth grades; and Mrs. Ada Hilmbreck, first and second grades. The Building Commission will meet to open the bids, on Thursday, May 23, and it hoped the contract will be awarded and the school will be ready for the fall term.

Strickersville

Mrs. Sara J. Pierson is visiting her daughter, Mrs. Nathan Lamborn, in Toughkenamon, Pa.

Mr. and Mrs. Ross Pierson had as their guests Sunday Mr. Edwin Pierson, of Hockessin, and Mr. Taylor Pierson, of Wilmington.

The Flint Hill Literary met with Mrs. Harry Swain Saturday night.

Mrs. Clement McMullen entertained the Flint Hill Willing Workers on Thursday afternoon. The ladies decided to hold a cold meat supper at Mechanics Hall, June 20.

MILFORD CROSS ROADS SCHOOL

Friday was certainly a gala day for the pupils of Milford Cross Roads School. Early in the morning the children began to gather at the home of their teacher, Mrs. Herman W. Stradley. Thence they went in a body to Frazer Field, where they took part in the various field, team and track events. The Milford Cross Roads pupils had their first experience as participants in public athletic events. Everyone thoroughly enjoyed the day.

There was the dodge ball game. No, they didn't win the game, for they played against children from Edge Moor, twice their own size. But—"It isn't whether you win or lose, but how you play your game." Their captain, George Reed, had the honor of knocking out the large captain from Edge Moor. Ruth Reed succeeded until the very end in dodging balls thrown by each and every one of the Edge Moor players.

Esther Greer, Helen Kwiatkowski and George Reed won their bronze badges.

Edward Kennedy, Delaware Reed and George Reed made a good showing in the 50-yard dash.

May Day

Next Wednesday evening, May 29, at 8 o'clock, standard time, the May meeting of the Milford Cross Roads

School Parent-Teacher Association will be held in the school room. The newly installed electric lights will be used at a public meeting for the first time.

The May Queen who was elected by popular vote will be present and will take part in the cantata, "Crowning the Queen." Mildred Reed, daughter of Mr. and Mrs. Samuel Reed, is the one who has been chosen for this particular honor. Mildred, with her rose covered train adorned a pure white dress, will be ever so sweet and gentle as May Queen.

Esther Greer will be Maud, the close friend of Stella, Mildred Reed, who later becomes queen. Esther will use her vocal talent in a solo, "The Queen Will Pass This Way."

Delaware Reed is a typical stuttering Jerry Bounce. You will enjoy Delaware's interpretation of the part. No better one could be selected for Stella's grandmother than Mary Kwiatkowski. Then, oh, yes, Professor Skillembrooks, in the person of George Reed, makes his appearance. George will do the part to perfection. Edwin Guthrie, as Peter, the schoolboy who imitates the professor, is an amusing character. Edward Kennedy is good as Sammy Smith. Then, there are the outstanding characters of Charles Greer as Willie Wise, Ruth Reed as Bessie, Mary Kwiatkowski as Pauline, and Anna Mills as Pearl.

The rose-bud fairies: Anna Mills; Carolyn Guthrie, Betty Hollingsworth, Agnes Kwiatkowski, Helen Kwiatkowski, Ethel Gray and Ruth Reed, will do a beautiful flower dance.

Ruth Reed, the daughter of Mr. and Mrs. Allen Reed, will also give a solo dance before the Queen. Everyone who has seen Ruth dance before, will want to see her again, and those who have not seen her will not want to miss this chance.

School children: Paul Ayars, Grayson Greer, William Kwiatkowski, Paul Nelson, Charles Nelson, James Kennedy, William Cullen, Paul Davis, Phoebe Gray, Violet Gray, Agnes Kwiatkowski, Helen Kwiatkowski, Betty Hollingsworth and Kathleen Starkey will sing in the choruses.

In the final scene, which is the coronation scene, little Charles Nelson and Grayson Green will be as cute as

can be as they, in little white suits, act as train bearers. Pretty little first grade Kathleen Starkey will be crown bearer.

Attendance

Attendance throughout the state has been very poor this year because of disease. We have one pupil, Carolyn Guthrie, who has withstood all germs and has been neither absent nor tardy. Carolyn will go with her teacher, Mrs. Stradley, and her mother, Mrs. Guthrie, to parade in Dover on Saturday. Edwin Guthrie, who has missed 3 days, Esther Greer who has missed 3 1/2 days, and Betty Hollingsworth, who has missed 4 days, will go along to Dover with Mrs. Stradley, but they will not receive the treat given by the State.

Christian Science Churches

"Mortals and Immortals" was the subject of the lesson-sermon in all Churches of Christ, Scientist, on May 19.

Golden Text: "Study to shew thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth" (II Timothy 2:15).

Among the citations which comprised the lesson-sermon was the following from the Bible: "Man that is born of a woman is of few days, and full of trouble. He cometh forth like a flower, and is cut down; he fleeth also as a shadow, and continueth not" (Job 14: 1, 2).

The lesson-sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Mortals are the counterfeit of immortals. They are the children of the wicked one, or the one evil, which declares that man begins in dust or as a material embryo. Mortals will disappear, and immortals or the children of God will appear as the only and eternal verities of man. Mortals are not fallen children of God" (p. 476).

LOGGING COOK HAS HARD JOB

There may be some vocations where a man can bluff his way, but not as cook of a logging camp. When it comes to preparing meals for ravenous woodsmen, results, not alibis, are expected. The satisfy perhaps 100 hearties with "three squares" daily is serious business. And once a cook fails to produce the nourishment fit for King Spruce, he is forever branded a "hiller" (holler), the most opprobrious culinary condemnation possible to bestow upon the unfortunate chef.

For this reason there is great rivalry among the cooks in the big woods camps. They are always furnished with plenty of plain, raw material with which to work.

out tonight. It is also thought that Chief of Police "Jim" Keeley may take a fall or two out of one of the boys on the mat. Jim won a number of tournaments in the A. E. F., both wrestling and boxing, and the smell of rosin at the ringside got him heated up last night.

The Colored Night Club, with a cast of 25, gives a fast and tuneful show of peppy jazz. It carries a large band, and its chorus and principals give a performance full of vim and snappy dancing.

The Hawaiian Revue is a classical feature, featuring Hawaiian vocal and instrumental music. There are four dancing girls, two of whom give native Hawaiian dances, and two, classic Egyptian dances. The feature of the show is Princess Hacebah, a French-Algerian, who has abnormal control of her muscles and joints. She gives an Egyptian dance of mystic symbolism.

Two of the most interesting smaller features are Zenobia, the Mystery Girl, and KoKoMo, the Hopi Indian snake trainer. Zenobia is a mystifying optical illusion, wherein a magic cloth is waved over a chair with a sword laid across it and a living girl's head appears on the sword. The head talks and answers questions. The lecturer pinches its cheek, pulls it back and forth across the sword and passes his hand under it to show that it must be bodiless. Finally he throws the cloth over the head, grabs it up and exposes a head of cabbage. An interesting legend is told with the performance.

KoKoMo is a crippled Indian, who has a trained rattlesnake. He is the only man who has ever been able to train a snake to answer questions, which this snake does by buzzing his rattles. The snake counts, adds, subtracts, multiplies and divides. KoKoMo gives an interesting lecture on snakes, telling of the care and handling of snakes, and explaining many theories on the danger of handling snakes.

In addition there are a number of other interesting exhibits, including the Mermaid, who apparently lives, breathes and chews gum at the bottom of a tank of water; the wax-works, showing wax reproductions of the execution of famous murderers and murderers; the fat sisters, marvels of obesity; and the carnival of freaks with glass and fire eater, tattooed man, mummies and other curiosities.

The rides equal in size those in Luna Park or the "Bowery" at Coney Island. There is a merry-go-round

with its various animals to ride on, the big ferris wheel, the "Whip" to loosen sluggish spines, and the Chair-plane, a real thriller.

Besides these are "hot dog" candy, soft drink and souvenir booths, and at the entrance to the grounds is a "Buddy Poppy" booth, where the Veterans and Veteran's Auxiliary are selling "Buddy Poppies," the proceeds of which go to disabled veterans and the orphans of veterans.

Lodge Notes

K. OF P.

Oseola Lodge, No. 5, Knights of Pythias on Monday evening conferred the rank of Page on several candidates, and on next Monday evening will put on both the rank of Page and rank of Esquire.

There were visitors from New York, Pennsylvania, Maryland, New Jersey and Wilmington. Refreshments were served.

The faithful members of the American Flag Council, No. 28, Jr. O. U. A.

M. braved the rain Monday night and were well repaid for their efforts. Councilor Norton was at his best as presiding officer. Interesting business was transacted. Tuesday evening a large number enjoyed a reunion at the Eureka Council. Next Sunday, May 26, at 11 a. m., daylight saving time, we will hold our memorial service in the M. E. Church. We will assemble at 10:30 a. m., daylight time, in our council room. Let us have a great rally at this time and show Dr. Gunby that we will appreciate the message he has for us.

Program for open house, June 3, will be announced next week. Bro. Henry Mote will arrange for a good speaker. Prof. Ettleson will have a good line of musical numbers. It is a treat to watch Bro. Ettleson tickle the ivory. Bro. Scarborough will care for the inner man.

Remember the Boys' Orchestra and Girls' Glee Club of Our Home on June 13 at the Playhouse.—A Neal Smythe, Jr. Past Councilor.

IT CANNOT WARP ..because it is ALL-STEEL

Mechanism on top...hermetically sealed...never needs oiling...quiet, all-steel, cannot warp...electrically operated. \$215 at the factory.
All steel with electrically welded joints. Heavy hardware bolted into the steel. Black-faced door edges, self-closing latch, gliders to protect linoleum, and many other unique features.

THE General Electric Refrigerator requires no soldering or plumbing because it has no drain-pipe. It is merely put into place and plugged into any electric outlet. It uses a minimum of current because the all-steel cabinet cannot warp and therefore never allows heat to creep in or cold to seep out.

No longer does "any refrigerator" satisfy the discriminating apartment-hunter. It must be a General Electric...because this remarkable all-steel refrigerator has many unique features which make it ideal for apartment use.

It is individually controlled—its operation does not depend at all on the janitor or on any installation in the building. It is exceptionally and remarkably quiet. It freezes ice faster (one tray in two hours, two trays in four).

Another vital factor which causes so many progressive builders to choose this refrigerator is the prestige of the General Electric name. It instantly identifies the apartment with all that is dependable and desirable.

Listen in on the General Electric Hour, broadcast every Saturday evening, 9 to 10 Eastern Standard Time, over the N. B. C. network of forty-two stations.

FADERS' QUALITY BREAD

NEWARK
DELAWARE

ENTRY BLANK

Buy a loaf of FADERS' QUALITY BREAD—Slice it! Make sandwiches of it! Toast it! Taste it! See how even the thinnest slice curls over the knife without breaking. Note the white smoothness of it, and the tender crispness when toasted. Enjoy its real wheatiness of flavor. You'll find it easy to think of clever slogans for such a loaf as this.

HINTS FOR SLOGAN WRITERS

Get selling appeal into it. Something that will induce people to buy FADERS' QUALITY BREAD. Make it short, easy to say and remember. Suggest the delicious qualities and wholesome nourishment that you discovered when you tried it. Avoid commonplace slogans, and slogans that are already used for other products.

You are just as likely to win as anyone else. Your slogans have three chances to bring you in extra money for just a few moments' interesting effort.

There Is No Red Tape. The Rules Are Simple. Here They Are:-

1. Anyone can compete except the employees of Faders' Bakery.
2. The slogan must not contain more than six words.
3. Each person may send in as many slogans as he or she likes.
4. All entries must be in our hands before 6:00 P. M., Wednesday, June 19.

The Judges are George W. Griffen, Ira S. Brinser and Warren A. Single
