CLIV. NO. 1
\$3,000 Newark Appropriation
To Be Requested for CD Plan

By FRANK N. MEGARGEE
The Council will be asked to appropriate \$3,000 to finance a civil defense program during the next fiscal year, G. Johnson, local CD director, disclosed yesterday.

request has been turned over to Councilman Samuel Johnson, local CD director, disclosed yesterday. The request has been turned over to Councilman Samuel Johnson, local CD director, disclosed yesterday.

the CD request is granted, Newark also will be eligible for considerable matching funds from the federal government, Mr. Johnson said.

Mr. Johnson said that he is working on a draft for a civil defense program which would include the purchase of gas masks and other equipment, and the training of citizens in the use of such equipment.

Mr. Johnson said that he is working on a draft for a civil defense program which would include the purchase of gas masks and other equipment, and the training of citizens in the use of such equipment.

THE NEWARK POST

The Newark Post, Newark, Delaware, Thursday, June 10, 1954

Congratulations
With Best Wishes
For You June Graduates

PRICE FIVE CENTS

200 Attend Alumni Banquet With Ten Of 1914 Graduates

Three Teachers Of 1914 Class Present At 40th Reunion; Frear, Speaker

Two hundred persons, including ten members of the Class of 1914 with three of their instructors, and the annual banquet of the Newark High School Alumni Association at the high school cafeteria on Saturday, with U.S. Senator J. Allen Frear Jr. as the guest speaker.

Dr. John J. Bunting Jr., pastor of the Newark Methodist Church, gave the invocation, dinner was served by the Pythian Sisters of Newark, and special guests, including Senator and Mrs. Frear, Dr. Bunting, Mr. and Mrs. Frederick B. Kutz, Mr. and Mrs. Henry Brader, Mr. and Mrs. J. M. McVey, Mr. and Mrs. J. P. Cann, Mr. and Mrs. Samuel Diehl, Mrs. Ethel Hill, Class of 1917; the Class of 1914, and the Class of 1954 were introduced.

In celebration of their 40th graduation anniversary, Henry F. Mote, spokesman for the Class of 1914, introduced three teachers of that class—Lillian West Medill, Mabel Jaquette Lovett, and Mabel Pennek Rossell.

Graduates of 1914 attending the class reunion were Naomi S. Knauss, R. Elizabeth MacLary, Catharine P. Slack, Irma R. Jaquette, Helen McNeal Fischer, Lella Herberner Little, Paul D. Lovett, Knowles R. Bowen, Frank E. and Henry F. Mote.

A letter from classmate Dr. F. S. O'Rourke in Ecuador, expressing regret at his inability to be present, was read, along with letters from absent class members Cecil E. Watts and Mrs. M. A. Brown.

Mr. Mote complimented the school board and faculty for the progress made in school facilities since 1914. Newly elected officers for the Newark High School Alumni Association are William Murray, president; Doris Dean, vice-president; Ann Beyerling, recording secretary; Betsy Gregg, corresponding secretary; and Samuel Gray, treasurer.

James Lewis is the retiring president, and advisors are Angelo Cataldi, Ann Weldon and Ethel Crowe. Albert Clark, Doris Dean, and Jane Clark Correll made up the nominating committee.

\$200,000 Building To Be Constructed For Porter Motors

A new home for the William B. Porter Motor Company, costing about \$200,000, is now under construction on East Cleveland Avenue near the junction with Capitol Trail.

Located on a 300-foot front lot, the new quarters will be considerably larger than the present establishment at 164 East Main Street, officials said.

The building, which will be up to date in every respect, is expected to be completed by October. It will house a show room for Buicks and Chevroleets, and a fully equipped garage. We will be able to handle the times our present volume of business," a spokesman for the firm said this week.

There also will be enough space on the property for a used car lot adjacent to the building.

The Rev. Joseph L. McCoy To Deliver Baccalaureate

The Rev. Joseph L. McCoy, pastor of St. Anthony's Church in Wilmington, will deliver the baccalaureate sermon at the University of Delaware on Sunday morning.

Miss Bessie B. Collins, dean of women at the university, will deliver the commencement address in the afternoon.

The baccalaureate exercises will begin at 11 a.m. and the commencement is scheduled for three in the afternoon. The traditional academic procession will precede the commencement and both exercises will be held on the campus in front of Hullahen Hall, weather permitting.

Mitchell Hall will be used in case of rain. The public is invited.

Christiana Eighth Graders Plan Promotion Exercises

Promotion exercises will be held for the 27 eighth graders of the Christiana School at 7:30 p.m. Friday in the school, with all members of the class presenting a play in costume, "We Pledge All."

"Operation Alert" Scheduled Monday In National CD Test

Air raid warning sirens will wall the "red" alert—immediate attack—in Delaware at 10 a.m. Monday at the start of "Operation Alert," a 24-hour, nationwide Civil Defense exercise, Col. D. Preston Lee, state Civil Defense director, announced today.

The 10 a.m. "red" alert, a three-minute warning siren note, will be followed at 10:10 a.m. by the "all clear" attack over-signal, three one-minute siren blasts at two-minute intervals.

Delaware's part in the nationwide exercise will be limited to the communication and command post levels, Col. Lee said.

The public will not be required to take shelter during the "red" alert nor participate in the 24-hour maneuver.

But up to 2,000 Delaware Civil Defense workers, including some 500 volunteers, plus rural fire companies, state police and other state specialists, will man equipment and relay messages of simulated damage and casualties at various intervals until 10 a.m. Tuesday.

Chrysler Cut-Back Reduces CIO Roll 434 In 9 Months

Earl Henderson, Local 1183 Head, Reports Plant Union Decline In Hourly Workers

Due to curtailment of operations at the Chrysler Tank Plant in Newark, membership of Local 1183, United Auto Workers, CIO, which serves the plant, has shrunk by 434 workers since last September, Earl Henderson, the local's president, disclosed yesterday.

About 300 of these were laid off and the remainder left because prospects at the plant did not look too bright, Mr. Henderson said.

The local's membership now totals 1,700, he added, explaining that this covers hourly workers only and not the office force which belongs to a different union local.

Actually, he said, the plants employment decline is not so startling as rumors and other unverified reports have indicated.

Mr. Henderson also said he has been informed by plant management that Chrysler is now bidding on a contract which, if it goes through, will raise employment of hourly workers possibly to last summer's peak of about 2100.

He said the plant now has ceased tank production altogether and is working on a tank modification program.

This work, he said, should carry through until the spring of 1955.

City Makes LIFE For Night-Firing Tank Maneuvers

Newark is building a national reputation for its noisy, wide-open night life.

A few years ago, LIFE magazine ran a two-page spread on the fire-cracker episode at the University of Delaware, when officials evicted a number of student pranksters from Hullahen Hall for setting off cannon crackers at night in violation of university regulations.

Last week, Newark made LIFE again. This time the magazine ran two pictures of Chrysler's new T-43 tank in "night firing exercises at Newark, Del." The tank's 120mm cannon was shown lighting up Newark's nocturnal skies.

If it keeps up, the nation is going to get the impression that Newark never sleeps, that Newark is the boomiest boom town in the U.S.

If it's not firecrackers or 120mm cannon, then it's planes plunging into darkened lumber yards.

REPORTS FOR PARENTS
In addition to the end-of-the-year report card, each family in the Newark school district will get a special report, "Know How Your Schools are Growing." The youngest child in each family in school will be given one to bring home at the end of school.

If you fail to get one ask why. Come to the Board of Education office and ask for one. Anyone in the community may secure a copy. This is a sequel to the report of two years ago—"Know Your Schools"—and has, like the previous edition, been edited by Miss Jeannette Thoroughgood, of the high school faculty.

Search Conducted For City Manager Mayor Announces

Candidates Interviewed, International Ass'n Aid Sought As Quest Continues

There are no immediate prospects of Newark hiring a city manager, but the search for a qualified man is going on steadily, Mayor Wallace Johnson disclosed this week.

He said he has interviewed a number of candidates but none has quite measured up to the qualifications for the job. The minimum requirements are fixed by the city manager ordinance passed some time ago by city council.

One difficulty in attracting a suitable man, Mayor Johnson said, may be the starting salary. This ranges, the mayor pointed out, between \$7,000 to \$8,000 annually. The mayor feels this may be too low.

In his search for the right man, the mayor said he has contacted a number of cities in Ohio, West Virginia and Michigan, which have city managers. Officials in such places, the mayor said, usually know of competent men who are looking for an opening or a change in jobs.

Also, the mayor is working through the International City Managers Association, which has headquarters in Chicago. This organization, the mayor said, offers a free listing of professional city managers available for Newark and also advises on the standards a city should meet to qualify as a city manager.

Cubs' Pushmobile Derby Won by Den 18 "Ball Of Fire"

Saturday Cub Scout Event Attended By Crowd of 800; Cubs of Den 10 Take 2nd

In the Cub Pushmobile Derby held Saturday on the Louvers parking lot the "Ball of Fire," piloted by Den 18, was the winning racer. Den Mothers, Mrs. D. C. Eastburn, Jr., and Mrs. Paul Hawthorne were presented with a miniature trophy by chairman, Charles Otto.

Members of the victorious team are Paul Biddle, Richard Hawthorne, Guy Loftman, Robert Mayne, Jason Otto, Robert Pigford, Robert Squier and Warren Eastburn.

Approximately 800 people watched the 35 scheduled heats. Den 10, piloted by Dan Dolan, son of mother, won second place and Den 2, piloted by J. W. Berger, as den mother, came in third.

Mr. Otto was assisted in planning the affair by a general committee consisting of John Cary, David Rodwick, Frank Scott and William Spencer.

Cabbage Elected Newark Optimist Club President

L. Hammond Cabbage, Chestnut Hill Road, became president of the Newark Optimist Club Monday night during an installation party held at the Glass Kitchen, Norton S. Fowler of Wilmington, Second District, lieutenant governor, officiated at the ceremony.

Presiding at the ladies night banquet was John I. Gallagher, the retiring president.

Angelo L. Cataldi was honored as outstanding Optimist of the year for his public service in boys work in the Newark area.

Other officers installed include Frank H. Balling, vice president; Robert B. McKenry, treasurer; and Dr. W. A. Pemberton, secretary.

Board of Governors members are Harry R. McKenry, Jr., Glenn A. Packer, James Thompson, and John L. Gallagher.

Grant To Open Newark Store On Main St., Next Thursday

"It's a mighty fine new store and I'm glad my company decided to build it in Newark," is the way Manager D. W. Atwood describes his feelings about the new W. T. Grant store at 109 East Main Street. Merchandising crews are working feverishly, putting the finishing touches on the store due to open Thursday, June 17 with a gala storewide Opening Sale.

"Decision to build this new Grant store was based on careful studies of the community and its future," Mr. Atwood said. "Decision once made, the next step was the planning of a perfect building to bring you the easiest shopping possible. A new building, designed to our specifications filled this bill, especially when we added air conditioning and day-bright fluorescent lighting and the most modern display counters and fixtures known," Mr. Atwood explained.

"As you step through the stainless steel doors, your eyes will be greeted by an amazing expanse of over 13,000 square feet of colorful merchandise... all on one giant selling floor... without a single step to climb. The same giant assortments you would expect to find in four distinct stores will be awaiting your inspection... in a fashion store, a dry goods store, a variety store and a home-hardware store.

"Here indeed is shopping convenience, but that's only the second best part of the story... wait 'til you see the values! Because Grants buys for 505 stores, you enjoy savings because you get the benefit of

Newark High School to Honor Seniors at 61st Commencement

Class Of 1954 To Receive Diplomas At Commencement Exercises Friday Night In High School Auditorium; Dr. Raymon Kistler of Beaver College, Guest Speaker

Newark High School's 61st commencement will be held tomorrow night at 8:30 in the school auditorium, and 98 boys and girls of the Class of 1954 will participate in promotional exercises and receive their high school diplomas.

Dr. Raymon Kistler, president of Beaver College, Jenkintown, Pa., will deliver the commencement address. Well-known churchman, lecturer, author, and educator,

Dr. Kistler heads one of the oldest women's colleges in the country. The college, connected with the Presbyterian Church in the United States, was founded as a seminary in 1853 and chartered as a college in 1872.

The program will begin with the procession, while the high school band under the direction of Ernest Wilder will play "Pomp and Circumstance" by Elgar, and the Rev. John J. Bunting, Jr., pastor of the Newark Methodist Church will pronounce the invocation.

The high school A Cappella choir, under the direction of Mrs. Mary Streepy will sing Borowski's "Winter and Spring" and Waring's "While We're Young," and the music will be followed by Dr. Kistler's address.

Frederick B. Kutz, high school principal, will announce the winners of special prizes and awards, and after a solo by Joan Jackson, who will sing Victor Herbert's "Moonbeams," Wilber E. Shue, Newark superintendent of schools will formally present the Class of 1954.

Awarding of Diplomas
Joseph M. McVey, president of the Newark Board of Education will award the diplomas.

Class President Ferris Lee will deliver the student address, followed by the singing of the Newark High School Alma Mater by the Class of 1954 and the Alumni.

Dr. Bunting will give the benediction and the band will play Mendelssohn's "March of the Priests" as the recessional, with the "Pomp and Chivalry" as the exit march.

Senior class officers are Ferris Lee, president; Marie Woerner, vice-president; Louise Gray, secretary; and John McDowell, treasurer.

Members of the Class of 1954 who will be awarded diplomas are: Leroy Stockley, Atterbridge, Jr., Janet Irene Barnett, Lester Franklyn, Leers, Barbara Ann Condit, Edmund, Richard Michael Beidyk, Marcel Claude A. Bernier, Howard A. Burris, Jr., Vladimir Bohdanov, Janet Rose Campbell, Grace Ann, Carlisle, Diane Marie Chalmers, Jacqueline Cecile Chickley, Joan Marie Christian, John Baruch, Ann Elizabeth Coleman, John Curran, Nancy Marie Custer, John DePrisco, David Frank Dianich, Ann DeRadt, Dugan, William Martin Doyle, Jr., James Thomas Edman, Lee Evans*, William Evans, Joan Elizabeth Fell, Norma Lee Forker.

45-Yr. Old Farmer Joins Graduating Class At Delaware

Birjam Holmberg, Berry Farmer From New Jersey, Earns University Degree

A 45-year-old Vineland, N.J., blueberry farmer, who has completed his high school and college training in four and one-half years will graduate from the University of Delaware on June 13.

It took Birjam Holmberg a long time to get around to finishing his education, but when he did he made a good job of it. His wife ran the blueberry farm while he was attending classes, and he received financial assistance from the Veterans Administration during his time at the university.

Mr. Holmberg, born at Ridgefield, Park, N.Y., in 1909, finished his elementary education at Delmar Grammar School, but was unable to go any further. However, he became the desire to finish his education remained strong within him.

At the age of 41, after serving in the Air Force for two years and having been discharged from the Mitchell Field Hospital, he became more determined than ever to obtain his lifelong desire, a formal education.

Newark Soroptimist Club Installs New Officers

Officers of the Newark Soroptimist Club were installed at a dinner meeting held at the College Inn in Newark on Tuesday night, and Eleanor A. Reed is the new president.

Other officers are Beatrice Hartshorn, vice-president; Sarah Wylie, recording secretary; Eleanor Neumeier, corresponding secretary; Helena Barber, treasurer; and Jean Muench, assistant treasurer. Ann H. Lungenbach, is a director of the club.

Margaret Wilson, Soroptimist regional governor of the North Atlantic area, was in charge of installation ceremonies, and Dr. Evelyn Clift, of the University of Delaware faculty, was the guest speaker. Dr. Clift's topic was "Women of the Past."

M. Katherine Jones is the retiring president of the local group.

Pvt. Donald K. Sharpe

A paratrooper in the famed "All American" 82nd Airborne Division at Ft. Bragg, N.C., Pvt. Donald K. Sharpe received his basic training at Camp Pickett, Va., and Ft. Knox, Ky. He was awarded the Parachutist Badge upon completion of an airborne course at Ft. Benning, Ga.

Pvt. Sharpe is the son of Mrs. Eva Mullen, of 134 East Cleveland Avenue, Newark.

Worrlow Receives Maryland Honorary Degree Of Doctor

Agricultural Experiment, Extension Director Gets U. of Maryland Doctorate

Prof. George M. Worrlow, director of the agricultural experiment and extension service at the University of Delaware, has been awarded the honorary degree of doctor of agriculture from his alma mater, the University of Maryland.

The degree was conferred by T. B. Symons, acting president at College Park, Md., Saturday morning.

Professor Worrlow received his bachelor of science degree from the University of Maryland in 1927, and has served on the staff of the University of Delaware since.

A native of Cecil County, Md., Professor Worrlow began his career in agriculture in this state as an assistant county agent for the University of Delaware in 1927.

Honorary Degrees To Be Conferred At Commencement

Robt. S. Hillyer, Newark Pulitzer Prize Winner, Named Doctor Of Letters

Four honorary degrees will be conferred at the University of Delaware's commencement exercises in Newark on Sunday afternoon, Dr. John A. Perkins, president, announced this week.

Master of arts degrees will be presented to Mrs. Clarence Fralin, Wilmington civic leader, and Charles F. Montgomery, executive secretary and associate curator of the Henry Francis duPont Winterthur Museum.

Mr. duPont, founder of the Winterthur Museum, will receive the degree of doctor of laws.

The fourth honorary degree will be awarded to Robert S. Hillyer, Pulitzer Prize-winning poet and visiting professor of English at the University for the past two years. He will receive the degree of doctor of letters.

Recreation Association Lists Program of Summer Activities

A full schedule for the Newark Recreation Association's summer activities was announced this week by Ray Ciesinski, program director.

Local Girl Scouts Tug O' War

SEAVE HO! Girl Scouts and Brownies pose preparatory to some strenuous tugging in a tug o' war test during recent Play Day festivities at Camp Minquill near Newark. Competition in various events was between the Green and Gold teams made up of Girl Scouts from the Newark area. The Gold squad won the trophy.

Life guards at the park will be deputized by Police Chief William H. Cunningham in order to protect those who wish to enjoy the park's facilities, from undesirable elements.

Life guards at the park will be deputized by Police Chief William H. Cunningham in order to protect those who wish to enjoy the park's facilities, from undesirable elements.

Life guards at the park will be deputized by Police Chief William H. Cunningham in order to protect those who wish to enjoy the park's facilities, from undesirable elements.

Education Masters Program Initiated As Teaching Aid

University of Delaware To Offer Summer School, Regular Sessions Course

A special program, leading to the degree of master of education, has been designed by the University of Delaware in cooperation with the State Department of Public Instruction.

The new program will be offered in the 1954 summer session and in regular semesters thereafter. Courses will be available through university extension and on Saturdays during the coming school year. Letters describing the program already have been sent to all superintendents and principals of elementary schools throughout the state.

The program has been devised to help relieve the shortage of elementary school teachers, and enables a person with a college degree to qualify for a provisional or emergency certificate for teaching in the elementary schools while working at the same time for the master's degree.

The program will be known as the "Conversion Program" because it has been designed to allow the increasing number of people who desire to enter elementary teaching from other fields, or from secondary school teaching, to do so with a minimum loss of time.

University and school officials feel these people can bring a wide variety of experiences from other professions to teaching and the course is set up to give them the required professional education training.

It consists of a number of required courses in six different areas of education, and six hours of study in the areas of history and geography. It differs from other graduate education programs in that there are two specifically required courses instead of the usual one.

Interested persons should contact Dr. Elizabeth C. Lloyd, associate professor in the school of education at the university.

Louis R. Detjen (Continued from Page 1)

"Most Prominent"

In 1932 when the Badger, yearbook of the University of Wisconsin, was dedicated to the famous sons and daughters of the university, Professor Detjen was selected as one of its 62 most prominent alumni.

In 1920 Professor Detjen became associate professor of horticulture and associate horticulturist at the University of Delaware and was made professor in 1927.

Professor Detjen is a Fellow of the American Association for the Advancement of Science, a Fellow of the American Society for Horticultural Science, and a Fellow of the American Genetic Association.

Scientific Leader

He is listed in Leaders in American Science, Who's Who in Delaware, Who's Who among North American Authors, Who's Who in the East, and American Men of Science. He has contributed to the Journal of Heredity, the Annual Report of the Torrey Botanical Society, and the American Society for Horticultural Science.

The honor societies of which he is a member are Phi Kappa Phi and Alpha Zeta. He has also served as a consultant for the duPont Company and Sun Oil Company.

Landscape gardening is but another phase of his numerous activities. Many homes in the state demonstrate his ability in this field, including the beautiful grounds at the College Farm surrounding the home of the Director of the Agricultural Experiment Station, and those of the Sub-Station at Georgetown.

Professor and Mrs. Detjen reside at 125 Old Oak Road in Newark. They have two children, Lois Marie, who graduated from the University of Delaware as an art major, and Edson R., who graduated from the University of Wisconsin with a degree in electrical engineering.

Geo. Worrlow

(Continued from Page 1)

He was appointed professor of dairy husbandry and extension specialist in 1941. He became associate director of the university's agricultural extension service in 1943, and has been director of the experiment station and the extension service since 1948.

Professor Worrlow's long service to Delaware's rural population and continuing interest in 4-H Club work have extended his personal acquaintance to every corner of the state. His contributions to the advancement of agricultural practice and science have included a number of technical publications and popular bulletins on cattle breeding and feeding, and an authoritative study of farm leasing systems in New Castle County.

Professor Worrlow's career as an agriculturalist had included interests outside the state of Delaware. He holds a number of committee posts in the Association of Land-Grant Colleges, is a member of the Council of State Governments, and holds the post of associate director of the Atlantic Dairy Association.

His state posts have included membership on the Governor's Committee on the Reorganization of the State Government, and the office of secretary of the Delaware State Poultry Commission.

Professor and Mrs. Worrlow have one daughter. They reside on College Farm at Newark.

Wesleyan Award Of Honor Conferred Local Senior

Benjamin D. Day, son of Dr. and Mrs. C. L. Day of 216 Dillam Rd., Newark, has been granted a Wesleyan University Award of Honor. Day is one of 12 high school seniors so honored by Wesleyan.

A senior at Tower Hill School, Day has been active in the school paper, yearbook, and the Dramatic Club. He has played varsity baseball and was basketball co-captain. The Wesleyan Award of Honor is an honorary scholarship given to outstanding high school seniors.

First Presbyterian Church To Conduct Bible School

The Rev. H. Everett Hallman, pastor of the First Presbyterian Church of Newark has announced a schedule of events for next week, beginning with a Children's Day service—a joint session of the church and Sunday School—at 10:30 a.m., Sunday.

Daily Vacation Bible school will begin Monday at 9 o'clock, and sessions will be conducted each day from 9 to 11:30 a.m. for a period of two weeks. Children from six years of age and up are invited.

On Thursday, from 4 to 6 p.m., the Sunday School picnic will be held at the home of Charles Southwell, on Capitol Trail.

Faculty Committee Meetings Schedule School Programs

Organizational Meetings Held By Faculty Groups To Plan School Activity

Organizational meetings were held last week by all faculty committees that will function next year in the Newark school district. During the summer the chairman of each committee will arrange a work program for the first day when teachers report before school begins in September.

New on the list of committees is a fund drive committee that will conduct a unified campaign—probably in October when the Red Feather drive is in progress—to raise the school's contribution to a wide variety of fund-raising efforts. This committee will decide which fund drives to include and what percentage of the receipts to give to each.

At a meeting last week, the faculty adopted a constitution and by-laws for a new Newark Teachers Association, a branch of the Delaware State Education Association and the National Education Association. It was agreed that officers of the faculty steering committee, headed by H. Lewis Miller, chairman, would serve as association officers until an election is held next fall.

Dr. Carl J. Rees, dean of the University of Delaware summer school, told of opportunities for study here this summer either to meet state requirements or for self-improvement.

Plant Pathologist Discovers Blight Of State's Trees

Dr. J. W. Heuberger, Head Of Pathology Department, Tells Of Sweetgum Disease

Many sweetgum trees in Delaware are showing signs of the same blight which has been killing sweetgums by the thousands in Maryland and Virginia, Dr. John W. Heuberger, head of the department of plant pathology at the University of Delaware, has disclosed.

The cause of the blight, which first appeared six years ago, is unknown, as is the means of spread, but it is thought to be of virus origin.

Dr. Heuberger said a few infected trees were found in Delaware last year, and this spring they are dying. Within the past week, he said, many other sweetgums have shown typical symptoms of the blight.

This disease was first found in 1948 in University Park, Prince Georges County, Maryland, when 11 trees were affected. By 1951 some 2,500 trees were affected and 400 trees had died. In 1952, the disease was found at Aberdeen and Solomon's Island, and at Richmond, Va., a spread of 100 miles.

During the first year, the disease is characterized by a form of die-back, starting at the ends of the small branches and working inward toward the main trunk. The leaves on these branches are usually smaller than normal, they become red-colored by midsummer, and are shed prematurely.

The second year the leaves tend to appear in bunches along the trunk and limbs, are small in size, and soon wilt and die. Usually, the trees die in two or three years. Many trees in New Castle County are now showing second year symptoms.

Delaware 4-H Club Members To Attend June Short Course

150 Boys, Girls of State 4-H Clubs Expected Here For Annual U.D. Session

More than 150 Delaware 4-H Club boys and girls are expected to attend the annual short course at the University of Delaware June 27-29.

Among the speakers will be Carol Huston, who visited New Zealand and as Maryland's international farm youth exchange; Mrs. Ruth Tybesskey of the Philadelphia Dairy Council, who will give monologues; and Francis X. Gallagher, director of public relations at the university who will speak on "Your University."

The 4-Hers will attend classes relating to their projects in home economics and agriculture, with extension agents and specialists as instructors. Among these are food preservation, cooking, clothing, gardening, poultry, dairy and entomology. Classes are also scheduled in junior 4-H leadership, safe driving, and teen-agers' problems.

On the fun side, time has been allowed for a game party, square dancing, a roller skating party, and various sports. Song sessions and vesper services form an inspirational part of the program.

This year's short course will include such state 4-H events as the dress revue, public speaking contest, finals, a talent show, and an induction ceremony for the 4-H leadership 4-H organization.

Any 4-H member who will be 14 years of age by July 1 is urged to attend the short course. Local club leaders are also invited, according to Samuel M. Gwynn, state 4-H leader. County club agents in Newark, Dover and Georgetown will furnish registration details.

Suppose the Government should confiscate all the income of everybody in the country who is taking in more than \$20,000 a year in salary, profits, or from whatever source.

Such a drastic step would yield the U.S. Treasury less money than it would lose should Congress vote even a \$100 increase in personal income tax exemptions.

And yet there are those in the bustling legislative halls of Congress who are plugging to have the personal income tax exemptions boosted as much as \$400.

A Large Assumption! If the Government were to confiscate all income over \$20,000 a year, the Treasury would gain only \$2.2 billion, according to figures presented by Delaware's Senator Williams.

"And that's assuming that the taxpayer is going to keep on working just as hard as he does now to earn money which he would have to turn over to the Government 100 per cent," the Senator remarked.

Increasing personal income tax exemptions from the present \$600 to even \$700, would cost the Treasury about \$2.4 billion a year in lost revenue. And an increase in tax exemptions up to \$1,000 would deprive the Government of a much needed \$8 billion a year.

Graduate Farmer

Continued from Page 1

And so he entered the Temple University High School in Philadelphia on Feb. 17, 1950, and completed a four-year course in one year, graduating Feb. 3, 1951 after being admitted to the national honorary society of secondary schools. Two days later Mr. Holmberg began classes at the University of Delaware. During his freshman year, he was elected to Alpha Zeta, an honorary fraternity for freshmen. He had maintained a 4.0 average during his first year.

Because he was needed in Vine-land he was not able to attend summer classes but confined his studies to the regularly scheduled semesters. In spite of his heavy schedule, Mr. Holmberg has managed to find time to work on a research project in horticulture. He has also been elected to Phi Kappa Phi and will graduate with distinction in horticulture. Although he has been offered several farm managerial jobs, his plans for the future are indefinite. Perhaps, he says, he might go on to graduate work.

11th Teachers' Conference Scheduled For July 4-16

A complete program has been announced for the eleventh annual Classroom Teachers National Conference scheduled for July 4-16 on the campus of the University of Delaware.

The state university is the official host for the conference in cooperation with the members of the Delaware Department of Classroom Teachers and the Delaware State Education Association.

The first general session of the conference will convene at dinner on Sunday evening, July 4, and the final session will end at noon on Friday, July 16.

Summer Session Offered To Teach Conservation

Dr. James C. Kakavas, chairman of the department of biological sciences at the University of Delaware, has announced a special summer session course, "Conservation of Natural Resources." The duration of the course will be from June 21, the day of registration, through July 30, the closing date of the summer session. The schedule for attending this course is so organized that students will meet daily for lectures and discussion which will be conducted and directed by Dr. Alan P. Mewha and by invited guest lecturers. An integral part of the course will be field trips devoted to the observation and study of our resources in their natural setting.

47% of the families who own their own homes have mortgages on them. The average mortgage is about \$4,500.—Changing Times.

"It isn't the housing shortage, officer. I just want to be the first customer in Grants new store Thursday, June 17th!"

Chrysler Workers

Continued from Page 1

The general unemployment picture is not so bright, Mr. Henderson declared. The government figures on employment, he continued, do not tell the whole story, since many workers, laid off at the regular jobs, either are working part-time or reduced hours. They are not included in the unemployment totals. Mr. Henderson said, although such families may be undergoing economic hardships.

He added that the Delaware CIO appealed to the governor to raise the present unemployment compensation benefits above the \$25 limit. The CIO suggested this be done at a special session of the legislature, but Mr. Henderson said no word on the subject had come from the governor.

June—the month of roses, brides and sweet girl graduates—when summer with all its beauty is with us, and the lure of the out doors seizes us and we dream of mountain streams and quiet lakes.

Snapping out of that bit of day-dreaming, we note that the younger set have been in a last-of-school whirl of activities along with final exams.

Among the high school graduates this year are Joan Jackson, Polly Drummond, Joan, and Virginia Wimmer, Roseville Park.

A beautiful wedding took place Saturday, June 5 at St. John the Baptist Catholic Church, Newark, when Patricia Ann Mencher, daughter of Dr. and Mrs. Arthur A. Mencher of Newark became the bride of Francis E. B. McCann Jr., son of Mr. and Mrs. E. B. McCann, Kirkwood Highway.

Nuptial mass was celebrated at 9 a.m. by the Rt. Rev. Msgr. John J. Lynch of Wilmington. Following a reception at the Newark Country Club the couple left for a wedding trip. They will reside in Newark.

There was much excitement in this area—and much traffic—Saturday, when the first Pushover Derby was held on the new track at Milford Crossroads. The generosity and public spirit of S. Hallock duPont in making this site available is appreciated by all.

Roseville Park Branch Library The Roseville Park Branch Library is located at the home of Mr. and Mrs. Charles Raymond on Laurel Avenue and is open to the public on Saturdays from 10 a.m. to noon.

White Clay Creek Church Last Sunday was observed as Missionary Sunday in the church school. The worship service was conducted by Mrs. Howard Bradley who explained the work being done among Spanish speaking Americans in the southwest.

Mrs. Grover Hale taught the young adult class last Sunday in the absence of Mrs. Bishop.

Mrs. James Bishop and Mrs. Miller Darrell returned Tuesday from Purdue University at Lafayette, Ind. after a week of attending sessions of the national meeting of Presbyterian Women which convenes every four years.

Sunday, June 13 will be observed by presenting the annual Children's Day program at the church school. The program will begin at 10:30 a.m. in the church and will take the place of the regular morning church service.

Interested persons are cordially invited to attend.

The junior and senior choirs will rehearse Monday evening in the church.

The elders will hold a session meeting on Wednesday evening at eight o'clock in the church.

Evening Circle

The evening circle of the Women's Association will meet Tuesday evening at eight o'clock at the home of Mrs. David Anderson, Jr. Mrs. James Bishop will give a report on the national meeting of Presbyterian Women.

A vacation church school is being planned for the children of the church and community. It will open at 9:00 a.m. on Monday, June 21, and close Friday, July 2. All boys and girls of kindergarten, primary, junior, and junior high ages are invited to attend. An excellent staff is preparing a helpful and interesting program for this period.

Mrs. Agnes McQueen of Guelph, Ontario, was an unexpected but welcome guest at the church service last Sunday.

As a result of generous contributions by the Improvement Society and the White Clay Creek Fellowship, considerable papering and painting has been completed at the manse. The manse has also been connected with the new water main that extends out to the Medill school.

Medill School News This has been a busy week at the Medill School with the staff carrying through plans for the ending of the school year and the boys and girls dreaming of vacation days. On Monday of this week, Miss Nottingham's first grade class held a picnic at Masseller's place and Miss Hazel Johnston's fourth grade class held a picnic on Wednesday at Little's farm.

Friday, June 11 brings the school sessions to a close for the summer. The pupils will be dismissed at 9:45 a.m. The pupils were dismissed at noon on Monday, Tuesday, Wednesday, and Thursday.

The third and last polo shots were given to the pupils in the cafeteria at 9:45 a.m. on Friday, June 4. This particular shot is considered to be the most important one of the series. It is our hope that with this protection there will be no polo problem in this community.

Our community is very proud of its Medill school and the splendid staff which has engineered its opening days. The future of both the school and the community is very promising and we look forward to further excellent results from the close cooperation of parents, teachers, pupils, school, and community in making this an area of which its residents can be justly proud.

Trees Need Feed For Good Growth Authority States

Balanced Diet, Methods For Feeding, Outlined By Arboreal Authority

In a dinner nothing is more important than the food and how it is served. The thought goes for trees as well as for humans. Simply seeing that a tree gets nourishment often is not enough.

When the arboreal mealtime rolls around, the home owner should pay attention to the menu he prepares. Most trees, for example, need a food formula high in nitrogen, according to L. I. Cobb, field representative of the Davey Tree Expert Co.

A properly balanced diet should contain approximately three parts of nitrogen to one each of phosphorus and potassium plus minute quantities of those vital trace elements that are so important in some soils.

Tree meals are served to the roots through holes in the surrounding soil. All too often, the home owner tries to get by with a few holes in the sod as possible. But this means that comparatively few of the feeding roots get fed, even if a double dose of the vitamins is placed in each hole.

Most trees have a root system at least as wide as their branch spread, with the majority of the feeding roots being within the perimeter of the circle. Perforation holes are made over this entire area. These should be 12 to 15 inches deep and not more than 12 to 15 inches apart.

The prescribed tree food dosage is then distributed among the holes. The unfilled portion should be filled with top soil, peat moss, shredded manure or other humus material.

Cancer has risen from eighth place as a cause of death in 1929 to second place in 1954. Help combat this disease by supporting the American Cancer Society's 1954 Crusade.

She Almost Needs A Yardstick

The Lake Trout of the Lake St. John District of Quebec Province come big and fighting, too, as this New York girl can testify. In addition to Lake Trout, the Lake St. John region offers speckled trout, Ouaniche, walleye and pike fishing.

Hospital Service Pays \$1,673,971 In First Quarter

Payments totalling \$1,673,971 were made in the first four months of 1954 by Group Hospital Service, Inc., to hospitals and doctors for services to members of the plan, according to H. V. Maybee, managing director of the Delaware Blue Cross-Blue Shield plan.

The payments to hospitals during January, February, March and April of this year totalled \$1,003,673. Of this amount, \$883,500 went to nine member hospitals of the Delaware Blue Cross-Blue Shield plan—the four general hospitals in Wilmington and those in Lewes, Dover, Milford, Seaford, and Salem, N.J.

The additional amount of \$120,113 was paid for services of members hospitalized outside the state or in non-member hospitals in and out of Delaware. Through an agreement with 81 Blue Cross plans, members of the Delaware plan receive the benefits of those local plans when they are hospitalized in member hospitals in those areas.

HOSPITAL STUDENTS Nine University of Delaware seniors have completed the course in medical technology at three Wilmington hospitals. All the students will participate in the graduation ceremonies of the university on June 13.

Troop 56 Scouts and Leaders Join Annual Spring Camporee

Fifteen scouts and leaders from Troop 56 participated in the annual Spring Camporee held by the Newark Bridge District at the old Newark recreation center. The scouts hiked from Newark to the site, leaving at 8 a.m. Saturday, and after making camp, entered into the planned scoutcraft activities.

In the fire-building contest the Flying Eagle patrol placed second and the Flying Star patrol, 14th in a field of 30.

Camporee officials did not say how they placed in the map-drawing and message relay contests.

Saturday evening featured a gala campfire ala Boy Scout style at which each patrol presented a short skit.

Sunday morning, camp was broken by 9 a.m., so all scouts could attend services at their local church.

The Camporee was planned to foster an exchange of ideas and fellowship among scouts. The Flying Eagles received a blue or superior rating for their showing over the week end while the Flying Stars received a green or satisfactory rating.

Participating scouts were Flying Eagles Charles Fisher, John Cox, Paul Brasher, Stan Smith, Jay Plotts, Ralph Somers, Jerry Armstrong, and Frank Devonshire.

Flying Stars were James McCully, Chris Donoho, Merle Taylor, Lindsey Thomas, Parvin Russell, and Richard Valiant.

Scoutmaster Kenneth Crouse accompanied the Troop.

Benjamin B. Sillitoe, 78, Dies; Saturday Rites Held

Funeral services for Benjamin B. Sillitoe, 78, husband of Mrs. Sarah L. Sillitoe, were held Saturday in the funeral parlors of R. T. Jones, Newark, with interment at St. James' Cemetery, Newport.

Mr. Sillitoe died Monday a week ago at his home near Milford Crossroads. He retired 12 years ago after long service with the National Vulcanized Fibre Company.

U.D. History Department To Offer Summer Courses

Dr. John A. Munroe, chairman of the history department at the University of Delaware, has announced a program of courses for the 1954 summer school session.

A total of seven courses will be offered, three of which will be presented by visiting scholars in their special fields. Two members of the regular history department faculty will complete the summer teaching staff.

Newark, Delaware, Thursday, June 10, 1954

I PLEDGE
ALLENCE
TO THE FLAG OF
THE UNITED STATES
OF AMERICA
AND TO THE REPUBLIC
FOR WHICH IT
STANDS, ONE NATION
INDIVISIBLE,
WITH LIBERTY AND
JUSTICE FOR ALL.

HAPPY BIRTHDAY!

Meeting in Philadelphia on June 14, 1777, the Continental Congress adopted a resolution declaring that "the Flag of the United States shall be of thirteen stripes of alternate red and white, with a union of thirteen stars of white in a blue field, representing the new constellation."

Tradition says that the first Stars and Stripes was made by Betsy Ross, of Philadelphia, at the request of George Washington. A contemporary description said that the stars of the flag "represent a new constellation rising in the west."

Not a legal holiday in any of the states, June 14 is, however, marked generally throughout our land by the schools and by patriotic organizations as the birthday of our national emblem, in exercises which feature the Pledge of Allegiance to the Flag.

NEWARK IN REVIEW

Twenty-five Years Ago

Tax Assessment Rate

At a special meeting of the Council of Newark last Friday night, the tax assessment rate was placed at \$1.10 per hundred, the same rate as last year. Assessment books were posted in Rhodes Drug Store and all residents are urged to check their names on the books to assure their vote in the 1953 town election. Unless a resident is listed for a property or capitation tax and the tax has been paid, he is ineligible to vote.

"Save-A-Life" Campaign

In an effort to reduce automobile accidents in Delaware, a statewide "Save-A-Life" campaign will be conducted from June 15 to July 15, as proclaimed by Governor C. Douglas Buck.

Service stations and garages in every community in Delaware will be appointed to serve as official inspection stations, and during the campaign period every motor vehicle in the state must be examined and approved for its mechanical condition. The inspections are to be made without charge.

Delaware Graduates

Commencement exercises at the University of Delaware will be held next Monday morning at 10:30 on the campus in front of Old College, with Dean Dexter S. Kimball, chancellor of the university, as the principal speaker.

As has been the custom, exercises will be held jointly by Delaware College and the Women's College of Delaware. The combined classes will be one of the largest groups ever graduated from the university with some 50 graduates expected in the Women's College and 75 men from Delaware College.

High School Graduation

Graduation ceremonies at Newark High School will begin Sunday at 7 p.m. when Dr. R. B. Matthews will preach the baccalaureate sermon in St. Thomas' Church. The program will end on Friday, June 14, with commencement at Wolf Hall. There are 36 seniors in this year's graduating class.

Dr. Park W. Huntington, of Wilmington will deliver the commencement address and Dorothea Chalmers will deliver the valedictory. Warren Bunting will be salutatorian and Margaret Wilkinson will give the class oration.

Chief speaker will be Curtis Potts, who will offer the class prophecy; Mary Dordian, who will read the class will; and Lillian Brown, who will deliver the class history.

Men On Safety Council

Ira S. Brinser, superintendent of Newark schools, and Dean R. L. Spencer, University of Delaware School of Engineering, were among the directors selected for terms of

two years on the Delaware Safety Council.

Walter Dent Smith, executive secretary, read the annual report and reviewed the work of the council for the past year.

Fish Stories

A party from Newark, including L. Newton Sheaffer, Samuel Little, Middleton Hanson, Arthur Whitehead and Harry Sentman, spent last week fishing at Machapongie. They had brought back some rare fish stories, but some of them were too big to tell.

Sheaffer caught two 10½ lb. trout on the first day out, and Little hooked two fish that were just too big to land.

Residential Improvements

The residents of Lovett Avenue are to be commended for their newly painted houses and well-kept lawns, gardens, flowers and trees.

The new school grounds and athletic field just opposite Lovett Avenue present a beautiful appearance, and the area is an ideal residential section.

Wm. J. Lovett has purchased more ground and intends extending the street along the new school grounds.

Residential improvements at the new school grounds are to be commended for their newly painted houses and well-kept lawns, gardens, flowers and trees.

Triumphs With Thrifty Tid-Bits

Seasoning is the secret of the best cooks, and frequently they turn out dishes to delight gourmets with the most economical of ingredients, flavored with distinction and a knowing hand.

You don't need a long list of seasonings, either, to achieve good results. Matter of fact, three familiar friends, Tabasco, salt and onion, will do the trick with almost any meat dish you can name. You've probably used Tabasco most often with sea food, but it has a way with meat, just as have salt and onion. Chop the onion, add it, a good pinch of salt, and about ¼ teaspoon of Tabasco to chopped steak when making hamburger patties. Include these three seasonings in stews, vegetable soups, and shepherd's pie when you're making the most of left-over bits of meat, and you'll find they add an elegant flourish to such economy dishes.

Shepherd's Pie

4 tablespoons fat
4 tablespoons flour
1 lb. can peas
Water
1 teaspoon salt
1½ cups cooked carrots
1½ cups cooked white onions
2 cups diced cooked meat
2 cups hot mashed potatoes
Melt fat in skillet; stir in flour gradually; continue cooking until browned, stirring constantly. Drain peas and add water to liquid to make 2 cups. Add liquid, salt and cook, stirring constantly, until mixture thickens and boils. Mix in carrots, onions and meat and heat slowly, stirring occasionally. Stir in Tabasco. Turn into 2 quart casserole. Place mashed potatoes around edge of casserole and bake in a moderate oven (400°F.) about 15 minutes until potatoes are light brown.

YIELD: 6 servings.

Miss Coffee Break

Mary Thimmesch, recently crowned "Miss Mechanized Coffee Break," enjoys her morning coffee at work push-button style, latest trend in streamlining coffee breaks.

Automatic vendors, such as her firm's Coffee Bar, will dispense two billion cups this year in factories and offices.

R. L. Spencer I up and E. C. Post won over P. B. Myers, 4 and 2.

Admiral Ansonnet is termed a "barber" while one who rides the opposition is called a "jockey." Leo Durocher, the young shortstop for the Yankees, has won considerable fame in both roles, as has Dick Bartell, young Pirate infielder.

Week-end guests at the home of Mrs. Helen Wilson were Mrs. Annie Coulter, Mrs. Edna Baker, and Mrs. Golt of Wilmington; Mrs. John Macoe and her mother, Mrs. Clegg of Milford; Mr. and Mrs. Reuben Gersen of Ridley Park and Elder Horace Lettets of Leesburg, Va.

Mrs. Anna Mary Ridgeway and Miss Louise Fisher—both students at Swarthmore—were week-end guests of Mr. and Mrs. Daniel Thompson.

Mr. and Mrs. Orville Little had as their guests last week-end, Mr. and Mrs. Horace Gambrell and children, of Cambridge, Md.

Among the Newark women attending the two day meeting of the Delaware State Federation of Women's Clubs in Hanover Presbyterian Church, Wilmington, were: Mrs. Ernest Frazer, Mrs. Francis A. Cooch, Mrs. Wm. H. Evans, Mrs. C. O. Houghton, Mrs. A. T. Neal, Mrs. J. J. Dayett, and Mrs. R. W. Heim.

Miss Marjorie Rankin, who has been studying at Columbia University, visited her brother, Carl Rankin, and Mrs. Rankin this week.

Miss Rankin, who was a missionary in China, returned to this country about two years ago.

Mrs. Robert C. Lewis Jr. and sons Bobby and Jackie, are visiting relatives in Canada, Buffalo, and New York City.

Miss Charlotte Hossinger attended the annual picnic of the Misses Hebbels School on Thursday in the Grove of Paul du Pont.

Miss Catherine Townsend is entertaining at a coffee party in honor of Miss Agatha Magan, of Lancaster, Pa.

At the movies it was "Showdown Angel" with Nancy Carroll and Gary Cooper; Douglas MacLean in "The Carnation Kid" and Mary Astor and Charles Morton in "New Year's Eve."

A labor charge chart for Model T Ford repairs listed grinding valves and cleaning carbon, \$6; install new pistons or connecting rods, \$20; overhaul motor and transmission, \$20; and replace rear fender, \$1.75.

Ninth Grade Promotional Exercises Held Tomorrow

Promotional exercises for the ninth graders at Newark High School will be held tomorrow morning, beginning at 9 o'clock, in the high school auditorium.

Three honor students—Gregg Stover, Frank Gley and Marjorie Hein—will give addresses on the "Home Training is a Necessity."

Special awards will be presented the September sophomores by Frederick B. Kutz, high school principal.

Along the lakefront of Chicago there is a lovely penthouse. Seventeen stories up, overlooking the lake, it is exquisitely furnished with art treasures and tasteful furniture in common with other entitled residents.

The rooms are magnificent—large and spacious, well-lighted and beautifully decorated. As you walk about them you feel that here is wealth and taste—an artistic temperament.

With the necessary wherewithal to choose from the world's best. Surely the owner of his penthouse and all these treasures had everything she could need for happiness in this world.

That penthouse belonged to Miss Florence Dibell Bartlett, who at 72 last May 2 plunged to her death from the patio outside her luxurious living quarters. Despondent and feeling that life was not worth living any longer, Miss Bartlett, a wealthy spinster who had devoted much of her time to finding art treasures from many different countries, and who had poured thousands of dollars into the purchase of art treasures throughout the country, climbed onto the three-foot wall of the patio and threw herself into space. The coroner's verdict listed her death as suicide.

Someone has well said the money buys everything—except happiness; and is a passport to every place—except heaven. The poorest man in all the world is the one who has no money in eternity. The richest of all is the person who has made his peace with God and who has thus been assured of a heavenly home forevermore.

The American Cancer Society is sponsoring 235 grants-in-aid for cancer research this year.

Delaware Athletes Establish 19 Records During Past Year

Reybold Chalks Up Four Marks In Running; Frosh Frank Davidson Sets Three As Trackman; Fred Freibott Sets Two New Swimming Standards For Blue Hen Performers

Nineteen new records were established during the 1953-54 sports season by University of Delaware athletes and teams.

Most prolific record-wrecker was Bill Reybold, the year's outstanding athlete, who chalked up two marks in cross country and two in track. Freshman Frank Davidson of Wilmington put his name in the book on three occasions and swimmer Freddy Freibott posted two new marks.

The varsity tennis team and the freshman football and wrestling teams also set new standards.

The Records

Varsity football — longest run from scrimmage in the history of the University of Delaware: Jimmy Zaiser vs. Muhlenberg, 10-31-53, 94 yds.

Frosh football — Most points scored in one season (5 games) 136 pts.

Varsity cross country — Course record (4.3 miles) Bill Reybold, 22:22.8, 11-4-53.

Varsity cross country — Scoring record (One season) Bill Reybold, 87 points.

Frosh cross country — Course record (3.2 miles) Frank Davidson, 10-30-53, 17:18.5.

Varsity basketball — Most points scored by one player in three seasons, Frank Williams, 150 yard freestyle) Fred Freibott in E.C.S.A. at Lehigh, 3-13-54, 0:24.0.

Varsity swimming — (100 yard freestyle) Fred Freibott vs. Swarthmore, 2-27-54, 0:53.7.

Varsity swimming — (200 yard breaststroke) Bob Wagner vs. Gettysburg, 2-13-54, 2:32.8.

Freshman swimming — (Diving, seven dives) Jack Ryder vs. Pennsylvania, 3-5-54, 73.05 points.

Freshman wrestling — First undefeated wrestling team in the history of the sport at the University of Delaware, 4-0-0 record.

Varsity track — (Shotput) Steve Butcher vs. Lehigh, 5-12-54, 46 feet, 7 inches.

Varsity track — (880 yard run) Bill Reybold vs. F. & M., 5-8-54, 1:54.5.

Varsity track — (One mile run) Bill Reybold vs. John Hopkins, 4-27-54, 4:18.6.

Freshman track — (One mile run) Clyde Louth vs. Lehigh frosh, 5-19-54, 4:52.7.

Freshman track — (880 yard run) Frank Davidson vs. Lehigh frosh, 3-19-54, 2:01.8.

Freshman track — (Broad jump) Frank Davidson vs. Bainbridge Navy Prep, 4-17-54, 29 feet, 2 1/2 inches.

Freshman track — (220 foot hurdles) Bill Munro vs. Lehigh frosh, 5-19-54, 0:26.4.

Varsity tennis — Most matches won in one season, 7.

Unbeaten Browns Tied In Darkness Called Phil Test

Lackman Hits Third Homer In 3-for-3 Batting Spree; Pitchers Toss 6-Hitters

American League

Browns 2 0 1
Cubs 2 0 1
Phil 0 1 1
Dodgers 0 2 0

In the only two American League games scheduled last week, the top-leading Browns were featured in a pair of appearances, as they tangled with the Phils in a 5-3, seven inning contest halted because of darkness, and won a near thing over the Cubs in a 3-2 count in the fifth.

Brooklyn's third sacker Lackman batted three for three, and two of these hits were home run smashes to give him a total of three homers for the new season. Young Lackman belted a Brooks pitch for a four base canter in the first inning and connected for the second home run in the fifth.

Moving from third to the mound, Lackman pitched the Browns to a 3-2 win over the Cubs, allowing but two hits.

Hummel pitched a two hitter for the Cubs as they lost their first of the campaign.

Golfers Play Third Round For President's Trophy

In the third round play for the President's Trophy at the Newark Country Club last week end, Frank Wright defeated Tom Lovett 5 and 4; Whitney Wester eliminated Tom Purvis by an 8 and 6; Sank Richards turned back Joe Brunansky 3 and 2.

Ray Ott won over Len Fossett in 19 holes.

Six of a field of 18 contestants turned in par or sub-par nets in the "Beat Ben Hogan" test.

E. L. Jones carded a net 64; Wester, a 67; Bob Manning, 68; Bob Stewart, 69; Joe Aneda and Jim Tyler, 71's.

A large field of some dozen three-year old thoroughbreds will be shooting at approximately \$43,000 at Delaware Park this Saturday when the famed Leonard Richard Stakes has its 17th and richest running over the exacting mile and a furlong distance.

As was the case with the \$25,000 Kent Stakes the past week end, the Leonard Richards will be carried by the American Broadcasting Company from 4:30 p.m. (EST) to 4:45.

The ABC airing will be tied in with Delaware Park's regular half-hour Saturday "In the Public Interest" program (4:30 to 5) which goes on five Delaware radio stations as a community service project.

The running of the Leonard Richards will be described by Bryan Kent, vice-president and general manager of Delaware Park, while Bob Kelley and Jack Lee, well known Wilmington radio figures, will handle the color and winners' circle interviews. All donate their services, the five state radio stations, their air time, and Delaware Park, the race.

Rounding out the second half of the "In the Public Interest" presentation will be interesting talks by representatives of the American Red Cross, Delaware Chapter: John N. Russo, chairman of disaster services, and Frank J. Horty, a well known member of the chapter's board. They will speak on the many activities of the Red Cross, of its arrangements with Delaware Park to serve as an emergency evacuation center in the event of enemy attack, and how that organization functions when catastrophes occur during war or peace.

Pending official entries due to be made the day before the race, possibilities for the Leonard Richards Stakes include: Palm Tree, Red Cross, Delaware Chapter: John N. Russo, chairman of disaster services, and Frank J. Horty, a well known member of the chapter's board. They will speak on the many activities of the Red Cross, of its arrangements with Delaware Park to serve as an emergency evacuation center in the event of enemy attack, and how that organization functions when catastrophes occur during war or peace.

Sprockets Defeat Blue Jays By 8-7 On Wegert's Hit

Chrysler Softball Team Overcomes 7-4 Advantage With Tie-Breaker In 8th

The Chrysler Sprockets defeated the Blue Jays, 8-7 in a critical Newark Recreation Association Adult Softball League contest, to take over undisputed possession of first place in the race, with an undefeated record of six victories.

Irv Wegert yielded eight hits to the Blue Jay clubbers while Stan Steele, hurling for the Jays, allowed 12 safeties.

Things looked dark for the Sprockets when the Blue Jays crossed the plate five times on two hits in the second inning, but if Wegert was ruffled, he didn't show it. He shut the Jays out over the next six innings.

Trailing by a 7-4 count at the end of the second inning, the Sprockets scored another run in the fifth on two hits, and tied the score in the seventh with a pair of runs on one hit.

And Wegert checked in with the winning run in the eighth as he led off with a single.

Giordano sacrificed as the second man up, Nelson flied out to center and Gene Schaan drove Wegert home with a searing single. That did it.

With first round play nearing the end of the line, Buck's, the VFW, Stine Lab and Continental are battling for a first division berth. All first four finishers are eligible to play in the State Softball Tournament.

Standings

Sprockets 6 0 1
Blue Jays 5 1 0
Buck's 4 2 2
VFW 2 2 2
Stine Lab 2 2 2
Continental 1 4 4

BLACK CRAPPIE

In the Spring a young man's fancy strongly turns to thoughts of fishing and it is quite probable that in many cases his interest in fishing extends over a greater portion of his lifetime than do light thoughts of love so ably publicized by Locksley Hall half a century ago.

Fishermen may not only be divided on the basis of their veracity but on the goals they seek. Some wish to get freedom from confining influences while others really want to fish. Of those who want to fish there are those who seek unusually large, aggressive or coy animals, and those who just want the fun of fighting something on the end of a line.

It is this last group who only want something that tastes, smells and acts like a fish that our crappies seem to have been created to please. They are common. They are vigorous fighters. They are good eating. They can be found where superior fishes could not survive. They reproduce abundantly, permitting a generous surplus harvest and they are not too choosy as to bait, tackle or skill. They seem to be willing to match their wits with anything that comes along even remotely resembling a fisherman. All this adds to their popularity with those who seek food, fun and freedom through fishing.

The Black Crappie *Pomoxis nigromaculatus* is darker than the White Crappie *P. annularis*. Either may reach a length of about 1 foot. The Black Crappie normally has 7 or 8 spines in the front fin or the back while the White Crappie has 5 or 6 such spines. The Black Crappie also usually has a deeper body than its lighter colored relative. The Black Crappie is often spoken of as the Calico Bass or Speckled Crappie. It is silvery olive with many dark green to blackish vertical bars on the sides. The belly may be bright silver to white but the forepart of the belly is dusky or slate gray. The mouth of the Black Crappie is set at a more oblique angle than is that of the White Crappie.

Crappies feed almost exclusively on insects, crustaceans, fishes and other animals found in the water. The nests are saucer-shaped and shallow. They are built by the males, usually over a cleared spot on the bottom in water from 3 to 8 feet deep. A female weighing one-half pound may lay to 60,000 eggs. Care of nest, eggs and young is probably mostly by the male. In suitable waters incubation lasts for a few days to 2 weeks or even more. The young may reach a length of 2 to 3 inches the first year and in northern waters may mature at a length of 7 or 8 inches in the third year. Crappies have been caught that weighed as much as 4 pounds. Crappie eggs are likely to be injured if the water reaches as low a temperature as 58° F. and may be destroyed if it goes down to 55° F.

Black Crappies are found in shallow ponds and slow streams through most of Southern Canada from Manitoba to Quebec and south to Texas and northern Florida. The White Crappie is more likely to be abundant in silty waters than is the Black Crappie.

Handling of Milk
Object Of Study
By Research Group

U. of D. Specialists
Compare Tank Trucks,
Milk Can Advantages

Dairy farmers, watching the increase in bulk tank handling of milk on the farm, are wondering whether this might be the answer to milk marketing problems.

This bulk handling — the use of a large tank truck instead of 10-gallon cans for transporting milk — has some advantages and disadvantages, researchers at the University of Delaware conclude.

Three staff members ran an experiment at the University farm in Newark to find out three things: (1) the amount of milk and butterfat loss between the farm and distributor plant under the conventional system of handling milk in cans; (2) to see how much difference in time was required in handling of milk on the farm in 10-gallon cans as compared with a bulk tank; and (3) to compare the amount of electricity needed for cooling milk under the two systems.

Working on this research were Dr. T. A. Baker, professor of animal industry; Dr. William E. McDaniel, farm economist; and Byron Bonard, extension agricultural engineer.

Butterfat Loss

In this experiment, the loss between the farm and plant for milk in 10-gallon cans amounted to about 1/2 pound of butterfat per 100 pounds of milk. The use of bulk tanks would eliminate this loss, declares Dr. Baker.

The same research showed practically no difference in the farmer's time involved under the two systems of handling milk in the barn. This was a station type barn with no pipeline installation from the milkers to the bulk tank. This same result would not hold true on all dairy farms, because of variations in operating arrangements. McDaniel points out that some farmers will be disappointed if they believe a bulk tank will save them a substantial amount of time in their dairy operations. A factor to consider here is the time required to move milk cans to the road side as compared with time required to maintain a driveway so it will support the heavy bulk truck.

As for electricity, Bonard found that the amount used for cooling purposes depends on many things such as kinds, size and conditions of electric motors and cooling tanks. This will vary greatly from farm to farm.

It appears then, that each farmer will have to take stock of his dairy equipment and methods of operation, then weigh the pros and cons to see which milk handling method is for him.

Mr. Montgomery, who lives at Winterthur, is a Harvard University graduate and a former member of the staff of the New York Herald Tribune. Widely known as an expert on American antiques, he is the author of numerous articles on American decorative art.

Mr. duPont, who built up the Winterthur collection over many years and opened the museum to the public in 1926, has an international reputation as an authority on American decorative arts. A director of the DuPont Company since 1915, he is also actively associated with several banking and industrial organizations. He is a life trustee of the University of Delaware.

Mr. Hillyer is a Harvard graduate and was Boylston professor of rhetoric and oratory there from 1937 through 1943. A member of Phi Beta Kappa and a fellow in the American Academy of Arts and Sciences, he received the Pulitzer Prize in 1934 for the best book of verse published in the United States during the preceding year. His home is 283 Dalloway Road, Newark.

Dr. W. O. Sypherd Begins Series Of Radio Readings

Dr. W. Owen Sypherd, professor emeritus of the University of Delaware, began a 12-week series of readings of English and American literature at 1 p.m. Sunday on radio station WDOV.

Entitled "My Favorite Poems," the weekly programs will be produced by the division of university extension. They represent some of Dr. Sypherd's favorite poems, including the works of Rudyard Kipling, Robert Browning, William Shakespeare, William Henry Drummond, and others.

But rather seek ye the kingdom of God, and all these things shall be added unto you.—(St. Luke, 12, 31.)

A man may have the newest car, the best house, the biggest bank account in the neighborhood and yet he will be unsatisfied, unhappy, unless he has sought and found the kingdom of God—for without God within him, a man is indeed but a poor, empty shell.

With a rumbling chuckle, George put aside the magazine he had been reading.

"So what's amusing?" Mrs. Rimer asked.

"Well, it seems that this man on the train had finished reading his copy of the 'Chicago Tribune,' and so he leaned across the aisle and asked this little old lady, who was just sitting there doing nothing, if she'd like to read it."

"Just being friendly, I'd say," Molly interrupted. "What's funny about it?"

"The little old lady asked the man what paper it was, and he said it was a Chicago paper—maybe she'd like to look it over. 'No, thank you,' she said. 'I don't know anybody in Chicago.'"

"The Mrs. forced a faint smile. 'Well, maybe it isn't an uproarious joke,' George admitted. 'But it struck me as amusing. The lady was from one of our small towns. I suppose, and used to reading about her friends and neighbors in the home-town weekly.'"

"So the Chicago paper had all the national and international news about wars and crises—but the little old lady just wanted to read about the doings of plain, unimportant people, the sort of news the home-town weeklies specialize in. . . . Lord bless 'em, I say, and may their tribe increase!"

Last year's traffic toll of deaths and injuries was the heaviest in history.

Cull Costly Cows
For Dairy Profit
Specialist Urges

Falling milk prices may mean the axe for dairy cows that aren't paying their way.

"Now is the time to cull out unprofitable cows," advises W. T. McAllister, extension farm economist at the University of Delaware.

"Some cows—even those that made a profit in 1953—will be headed for the market in 1954."

On the other hand, some farmers will find it to their advantage to increase their herds even though milk prices decline—adding good cows to utilize land, labor, investment in machinery and feed produced on the farm. Many farmers can make better use of their production facilities. They can improve the quality of their herds and pasture programs to reduce the cost of producing milk.

The dairyman who has not been able to show much profit in the past year or so probably won't find the situation any better in the year ahead, McAllister warns. Right now there appears to be room in his business only for the good farmer who can keep his costs low and his volume high.

OES BAKE SALE

Newark Chapter 10, OES, will sponsor a bake and food sale on Saturday, June 12, in front of the Theodore S. Jones appliance store, 129 East Main street, beginning at 10 a.m. Mrs. Elizabeth M. Murphy is chairman of the food and bake sale.

Speeding on U.S. streets and highways injured nearly 700,000 men, women and children.

Continental Diamond Veep
Receives Clarkson Honors

Harry K. Collins, vice president of the Continental Diamond Fibre Company of Newark, was elected first vice president of the Alumni Association of Clarkson College of Technology, Potsdam, N.Y., Saturday night.

A member of the class of 1939 at Clarkson, Mr. Collins has served during the past year as second vice president of the association. He is also vice president of the Loughborough Mica Company, a Canadian subsidiary of General Electric.

Last year was the fourth consecutive year of increase in the traffic death toll.

Third Reybold--Bill The 2d Joins List Of Blue Hen Great

Delaware's Bill Reybold has clinched a position among the great Blue Hen athletes in the history of the university. And Bill has accomplished this despite the fact that he is not a football, basketball, or baseball player.

William Reybold, II, a native son from Delaware City, is the third member of his family to wear the Blue and Gold with distinction on the athletic field.

His grandfather, Will Reybold, Sr., captained the Delaware football team of 1894 and following his graduation, coached the squad for one year.

Father, A Star
William "Reds" Reybold, Jr., captained Delaware football and swimming teams during the 1920's and was one of two Delaware students responsible for the organization of the Blue Hen swimming team in 1925. He was also a member of the Sigma Phi Epsilon fraternity team which won the school championship for several years.

The current edition of the Reybold family may be the most outstanding of all before his career as a runner has ended. He started, like his father and grandfather, as a defensive halfback with the freshman football team of 1950. But in the same year, he also captained the freshman track team and it became evident that running was his forte.

Record Breaking Soph
In his sophomore track season, Reybold set a new 880 record for Delaware athletes in 2:01.3, and scored the only points for the Blue Hens when he placed fifth in this event in the Mid-Atlantic championships.

As a junior he broke his mark again with a time of 1:56.3 and placed second in this event in the Middle Atlantic Collegiate track and field championships. He was also a member of Delaware's relay team which placed second in the MACTFA championship mile relay at the Penn Relays and established a new team record.

As a senior, he has already broken the Delaware mile record which had stood since 1921. His time was a sensational 4:18.6 over a heavy track. Needless to say, no one has defeated him in dual meet competition this season in either the 880 or mile events.

During the fall season, Bill is a cross country man and served as captain of the team in his junior year and was co-captain as a senior. He holds the Delaware records for the 3 1/2 mile course (20:17) and for the 4.2 mile course (21:15).

In addition, he has been a member of the freshman and three varsity teams.

A grateful thought toward heaven is of itself a prayer--Gothold E. Lessing.

STRENGTH FOR THESE DAYS

God is our refuge and strength, a very present help in trouble. —(Psalm 46:1)

There are times when even the most aggressive, forceful, self-assured among us must know, in their secret hearts, that their human strength is not enough—that God alone can help them in their trouble. Those who humbly, truly, live within Him "will not fear, though the earth be removed."

Shelf Round-Up Salad Is Tops

Hailed as a success by the whole family is the meal of hot soup with a crisp, cool main dish salad. The combination is a special attraction for these warm days. With the wide choice of canned soups and the many possible variations for the salad, it has taste, purse and time appeal.

Shelf round-ups to keep on hand for the salad may include such vegetables as canned green or wax beans, mixed vegetables and limas. You will find sardines, processed cheese, canned tongue and Vienna sausage are good for the hearty ingredients. As a beginning, try this salad combination along with Creole gumbo, or beef noodle soup.

Round-Up Salad
Salad greens 1 16-oz. can (or jar) peas
1 medium size onion 1 5-oz. can boned chicken, or turkey
1 1/2 cups can (or jar) 2 hard cooked eggs
pickled beets French dressing, or mayonnaise

Break crisp salad greens into pieces and add chopped onion. Arrange drained beets and peas, chicken cut into bite size pieces, and sliced eggs on the greens. Mix gently with enough salad dressing to moisten. Six servings.

BUILDING IN AND AROUND NEWARK IS STILL GOING STRONG...

Many new folks are coming to our beautiful city. Newark is the city of happy people, and a safe place to invest your money.
