NEWARK POST, NEWARK, DEL., MAY 27, 1914

NUMBER 18

MEMORIAL DAY EXERCISES

J. B. Lutton, in charge of the Memorial Day exercises under the auspices of Reynold's Post, No. 9, G. A. R., has completed arrangements for brief exercises to be held in the M. E. Cemetery next Saturday at 9:30. About a hundred children will march from the public school and strew the graves of soldiers with flowers. Rev. L. E. Poole will make a few remarks. The singing of patriotic songs will complete the program.

Freshies Trim Sophs

In the annual class baseball game between the Delaware College Sophomores and Freshmen Monday afternoon the former won out by the score of 12 to 9. The victory of the first year boys was a great surprise as the Sophs looked the strongest on paper. "Buck" Hoch, the varsity twirler was hit hard by the Freshies but the fact that there was no one on the Sophomore team who had experience back of the bat handicapped the work of Hoch. In the second inning the Freshmen made two home runs and a three base hit off Hoch's delivery. Ewing, who was in the box for the Freshies the last six innings, was a puzzle to the Sophs except in the seventh when three singles and Hoch's home run drove four runs across the plate. O'Daniel caught for the Freshmen and Bonwill and Taylor for the Sophs. The fielding of both teams was ragged at times. The Freshmen and Sophs will play during Commencement week for the College championship.

Wedding Invitations Out

Invitations have been received by friends in Newark to the wedding of Miss Marian Lee Harrington and Mr. Ernest Brinton Wright, at the home of the bride's parents, Mr. and Mrs. George Dallas Harrington on Wednesday, June third at twelve-thirty.

Teachers For Women's College Of Delaware

Miss Myrtle Viola Candell, who is to have charge of the work in home economics at the Women's College of Delaware, was graduated from the City Teachers' Training School, Buffalo, New York, 1896. She received the diploma of Drexel Institute, Philadelphia, Pennsylvania, 1910, and has completed her work for the degree Bachelor of Science, at Teachers' College, Columbia University, New York. This degree will be conferred upon her in June. She taught in the Buffalo public schools from the time of her graduation from the City Teachers' Training School until she entered Drexel in 1908. She taught Domestic Science in Detroit, Michigan from 1910 to 1913. She has also taught Domestic Science both to adults and children in connection with settlement work in Philadelphia, and at Bryn Mawr.

Miss Mary E. Rich, who has charge of the work in Education at the Women's College, was graduated from the State Normal School Oshkosh, Wisconsin, in 1900, and is to receive the degree Bachelor of Science in Education at the Teachers' College, Columbia University in June. She taught in the primary grade at Grand Rapids, Wisconsin, in 1901 and 1902; at Hampton Normal, Hampton, Virginia, in the Manual Training Department, 1904 and 1905; at the Winona Normal, Winona, Minnesota, 1905 and 1906; at the Oshkosh Normal, as Supervisor, 1906 to 1909; and in the School of Education, University of Chicago, 1910 to 1913. She worked as a volunteer for a short time in the Extension Division of the University of Texas with marked success.

Steel Property Sold

Sale was made on Monday by the real estate department of the Farmers' Trust Co. of the George T. Steel farm, near Head of Christiansburg, to Thomas L. Brown. The farm which contains 90 acres, is one of the most productive in this section. It has been in the Steel family for the last fifty years.

PLACING TELEPHONE WIRES UNDERGROUND

Underground wires for the Diamond State Telephone Company was started this morning in Newark, but for only a short distance. To avoid any possibility of tearing up Main street after the improvement, Council has ordered the Telephone Company to place the wires underground from the east side of the Deer Park Hotel to the opposite side of the B. & O. R. R. Work was begun this morning. It is only a beginning but eventually so many of these unsightly poles will be removed from Main street.

Scholarships For Women's College

Announcement has been made this week of the third scholarship to be awarded to the Women's College of Delaware. The gifts have come from the Delaware State Federation of Women's Clubs, the Delaware Association of College Women and the Wilmington High School Alumni Association. They are for \$100 each.

An Up-To-Date Bakery

Extensive improvements are being made to the baking establishment of G. Fader, Newark, by the enlargement of the bakehouse proper and the installation of a modern and sanitary oven. The new steam oven, which weighs about ninety tons, has a capacity of 20,000 loaves daily. The fire is at the back and under the oven, which is heated by large steam pipes. Owing to this arrangement every part of the immaculate white tiled compartment is an even temperature and may be kept so for any length of time. There is no dying down of the heat and waiting for the temperature to rise as in the old-fashioned oven. The new patent is a continuous baker. Four hundred loaves may be placed in the oven at one time and baked in thirty minutes. The bakery as now equipped is modern in every particular and has few equals in the State outside of Wilmington. The work is expected to be complete within a short time. An interesting item mentioned by Mr. Henning this morning is the fact that the oven will be fired for two weeks previous to readiness for baking. After that time fire will be kept going continuously, making the temperature unvarying, ready for use day or night.

Digging Machine Reaches Choate Street

Work on the water main has been progressing rapidly for the past week, and unless unforeseen trouble arises it is believed the job will be complete by June first. The digging machine has advanced to Chapel street corner, and Main street above Choate is being filled in today.

At the suggestion of Reynold's Post, No. 9, Grand Army of the Republic, the observance of

Five Minutes for Memory

on Saturday, May 30th, is urged upon the people of Newark. Bells of the town will be tolled from 12 to 12.05 o'clock, and all places of business are requested closed for this brief period, in honor of the nation's dead.

Joseph H. Hossinger, Mayor.

Was the day set aside that men might brawl,
That heedless boys might wrangle o'er a ball;
That touts and fools might meet in crooked play;
That girls might make a modish holiday?
These things have place, but not beside the grave
Of him who died, America to save.
We are the dollar nation, but there comes
A day when beats the song of ghostly drums.
We are the dollar nation, but our dead

Are inspirations for the year ahead.
When we forget the Death that stilled their hand,
The Death, in turn, will palsy this proud land.

The best of life is loving, and these men
Gave life and love in heaping measure when
They charged pell mell into the Wilderness
Or supped with death in Libby's starving mess.
Hats off! they come; a phantom, gloried throng,
These feeble, halting, living ranks among.

Increased Canal Appropriation

The Senate Finance Committee on Thursday unanimously approved Senator Saulsbury's amendment to the River and Harbor bill, raising the appropriation for the purchase of the Chesapeake and Delaware Canal to \$2,500,000 with a provision for acquiring title by condemnation if found necessary.

Seek Way To Increase Salaries

As it would require at least \$10,000 to meet the proposed increase in pay of teachers in Wilmington and as Council can by law increase the annual school appropriation not more than 5 per cent, \$3,000 would still be lacking, if the limit of increase were reached. Council and City Solicitor Hastings are searching for a way out of the trouble.

Asks For New Trial

J. Frank Ball, counsel for Mrs. Elizabeth McKinney, convicted on May 14, of manslaughter by shooting Delaware Reed at Glasgow last January, filed his reasons for a new trial on Friday, among which is newly discovered evidence, contradicting certain statements of witnesses for the prosecution. Owing to the absence of Chief Justice Pennell, argument on the motion was deferred.

To Stop Auto Speeding

New Castle Levy Court proposes to check auto speeding in the county which has become annoying as well as dangerous on the public roads, notably on Sundays. Special constables are to be named privately who will seek to make examples of all auto-drivers violating the speed law.

Favorable Comparison

Wearied by the steady "knocking" of the City Government by one of the Wilmington papers, Councilman W. E. Stover by comparison of census reports for 1914, from 50 cities in this country, ranging from 60,000 to 150,000 in population, shows that Wilmington is at the bottom of the list in cost per capita for maintenance with the smallest per capita assessment for all purposes.

Newark M. E. Church

The Newark Methodist Church will observe Sunday as Children's Day. An elaborate program will be rendered both morning and evening. The exercises in the morning will begin at 10:30 o'clock and in the evening at 7:30 o'clock. The Pastor's Bible Class will give a bake on June 6.

Who can be instrumental in having running water in the Public Fountain in front of the College.

FIREMEN'S CARNIVAL PLANS PROGRESSING

Carnival plans are being perfected. Committees are at work on the details and there is every promise of the really Greatest Carnival in the history of Newark. The previous years of experience only add to the success of this year.

It was announced this morning that the Improved Order of Red Men will open the Carnival with a parade. Tribes for a 20-mile circuit have been invited. Aside from the number and personnel of the parade, there promises to be some novel features in the way of display floats and illustrations of Red Men history.

A meeting of the ladies interested in work for the coming carnival to be held from July 2 to 9, will be held tomorrow evening at eight o'clock, at the home of Mrs. E. C. Wilson. The lists for the various committees will be completed at this meeting.

Doctor Vaughn To Address Graduating Class

Dr. E. V. Vaughn, professor of history at Delaware College, will make the commencement address to the graduating class of the Milton High School on Thursday evening, June 4.

To Begin Work Soon

Mr. Dolfinger of the Dolfinger Creamery Co., met a representative of the B. & O. railroad, on Monday, and went over in detail plans for the creamery to be built on land purchased a year ago from the railroad company. Mr. Dolfinger proposes to build a thoroughly modern shipping or none, and hence has gone into the proposition thoroughly before beginning the work. A well, two hundred feet in depth was bored, for the greater distance through solid rock, about a year ago, and the water has been tested and found excellent. After the conference of yesterday, Mr. Dolfinger announced he had practically decided to begin building operations within the next two months.

Memorial On Court House Site

Wilmington talks of erecting a memorial to the Constitution, which Delaware was the first of the States to ratify, to be located on the site of the present Court House, at Tenth and Market streets in that city, once part of the farm of John Dickinson, one of the framers of the Constitution.

Among rare flowers blooming in the garden of Mrs. Jonathan Johnson, last week, were three black tulips, the only specimens of this rare plant in this section of the country. Mrs. Johnson secured the black tulip bulbs last fall, planting them in early November.

MACADAMIZING MAIN STREET

Thomas Claringbold, who was awarded the contract for macadamizing Main street, will begin work in a few days. Materials are expected to arrive in a day or so. Some extra equipment and machinery have also been ordered that will greatly facilitate work.

It is understood that the section of street from College Avenue to the B. & O. station is to be complete before the Commencement season. This will be done in order to care for the Commencement crowds. Details of the work have not yet been given out. This office expects to have a full and complete account of the work in a near future issue.

Festival At White Clay

The ladies of White Clay Creek Presbyterian church will hold a strawberry festival on Monday evening, June 8, in the basement of the church.

Load Of Hay Burned

Alfred Buckingham of Newark, riding on a load of hay, along Adams street, Wilmington, last Thursday, was greatly surprised to find passersby shouting and gestulating to him. When there came a lull in the noise of traffic, he discovered they were warning him to jump. He looked around and found himself only a few feet away from a cloud of flame and smoke which shot up from the rear of the wagon. He jumped to the street, cut loose the horses and hastily drew away the burning hay. The trouble had been caused by a box of lighted matches, which was thrown by a mischievous boy, into the load of hay. The Weeacoe Fire Company was summoned to extinguish the fire and protect the houses on either side of the street. The hay was consumed.

Ogletown School Closes

Ogletown school, taught by Miss Elsie Davis, closed last Friday with a picnic on the school grounds, to which the parents and friends of the pupils were invited. A record for regular attendance was made during the school year by Corbit Crompton, who was present every day from the opening to the closing of the school. On the Tuesday previous to the close of school, a cobweb social was given, the evening proving a great success.

Crowds Attend Conference

The A. U. M. P. Conference for the past week in session Newark closed on Monday evening. Popular sessions held on Sunday were attended by between 3000 and 4000 colored people from the surrounding neighborhood. The appointments were announced on Monday Rev. C. H. Walker being assigned to the Newark circuit. The conference next year will meet at Camden, N. J.

OBITUARY

GEORGE W. DEVINNEY

George W. Devinney, aged 72 years, died at his home near Newark, on Monday, May 25th. Funeral services will be held from the late residence on Thursday, May 28, at 2 o'clock. Interment at Head of Christiansburg Cemetery. Carriages will meet train arriving at Newark, B. & O. railroad at 8.42 a. m.

SARA ETHEL PIERCE

Miss Sara Ethel Pierce, aged 22 years, daughter of Ezra Pierce of Harmony, died on Friday at the Homeopathic Hospital, Wilmington, after several weeks illness from typhoid fever. Her funeral was held on Monday from her parents home, with interment in Ebenezer Cemetery.

EMMA ALRIKH

Mrs. Emma Alrikh, widow of Samuel Alrikh of Glasgow, died in Wilmington last Tuesday, aged 78 years. Her funeral was held on Friday from the home of her nephew, William Toodd, 818 Jefferson street, Wilmington, with interment in the cemetery at St. Georges.

VIEW WOMEN'S COLLEGE BUILDINGS

The above gives the view of the buildings of The Women's College of Delaware as they will appear when completed. The picture was made from a water color now in possession of the Building Commission.

Saturday's Scores

Delaware, 5; Drexel, 3.
Delaware, 11; Rutgers, 6.
Chester High, 14; Newark High, 1.
Continental, 20; St. Benedict, 6.
Newark Scouts, 18; Elkton Scouts, 8.

SCHEDULE FOR THIS WEEK

St. Johns vs. Delaware Today.
Western Maryland vs. Delaware, Saturday. Both games on Joe Frazer Field.
Newark High vs. duPont High, Delaware Avenue grounds today.
Newark High vs. Smyrna at Smyrna, Friday.
Newark High vs. Dover High, two games at Dover on Saturday.

With Jake Hogan in the box and going his best Newark humbled the Elk Mills team Saturday afternoon 5 to 0. The southpaw not only held the visitors to five hits scattered through as many innings but also had perfect control and did not walk a man. His support with men on the bases was good and Elk Mills never had a chance after the second inning. Billy Jackson had a busy day in the field accepting nine chances without an error.

In the second inning A. Beatty reached first on an error, moved up on a sacrifice and scored on Hogan's single. An error and hits by Jackson and Gregg scored one in the fifth. In the sixth Morris doubled and came home on A. Beatty's single. An error and Marsey's double scored another in the seventh and the fifth run was scored in the eighth on singles by Morris and C. Beatty and an error. The locals hit Sweitzer timely. The score follows:

NEWARK

	AB.	R.	H.	O.	A.	E.
Jackson, ss	4	2	1	7	2	0
Marsey, c	3	0	2	9	1	0
Gregg, 1b	4	0	1	6	0	1
Morris, cf	3	1	2	1	1	0
Beatty, 3b	3	1	1	0	3	1
A. Beatty, 2b	3	1	1	0	1	0
McGovern, rf	3	0	0	1	0	0
Herdman, lf	3	0	0	2	0	0
Hogan, p	3	0	1	1	2	1

Totals.....25 5 9 27 10 3

ELK MILLS

	AB.	R.	H.	O.	A.	E.
Miller, 3b	4	0	1	2	4	0
Wilson, cf	4	0	1	0	0	1
Moore, c	4	0	0	9	2	0
Coslett, 2b	4	0	0	0	2	0
Reynolds, lf	3	0	2	1	0	1
Steele, 1b	3	0	0	10	0	0
Grant, rf	3	0	0	0	1	0
Jackson, ss	3	0	1	2	2	0
Sweitzer, p	2	0	0	0	4	0

Totals.....30 0 5 24 14 3

Two base hits: Marsey, 2; Morris and Reynolds; sacrifice hits, Sweitzer, C. Beatty and McGovern; stolen bases, Miller, W. Jackson, Morris, 2; C. Beatty; wild pitch, Sweitzer; passed balls, Marsey, Moore, 3; double plays, Jackson to Gregg; M. Jackson to Miller; Sweitzer to Moore to Steele; struck out by Hogan, 9; by Sweitzer, 6; base on balls, off Sweitzer, 3; left on base, Newark, 5; Elk Mills, 4; umpire, Copely.

OXFORD WINS ONE

Oxford broke the losing streak on Saturday and took a hard hitting game from Rising Sun, 9 to 5. Taylor, the veteran southpaw, who had been doing such firework on the mound until he struck Newark Saturday, May 16th, was given his bumps good and plenty by Joe Davis' boys. Taylor and Ewing who came to his relief, were touched up for 20 safeties. Gregg of Oxford, was hit hard enough by Rising sun to win most games but it happened to be a day when the Pennsylvania boys hit harder. The score by innings follows:

R. H. E.

Oxford...10101600x-9 20 3
Rising Sun...30020000-5 9 2
Batteries, Oxford, Gregg and

Thomas; Rising Sun, Taylor, Ewing and Snyder.

ABERDEEN COMING STRONG

Aberdeen is still coming strong and won easily from Elkton on Saturday by the score of 7 to 4. The game was never really in doubt as Aberdeen had a lead all the time. While Bonnett was hit as often as Clay he kept them more scattered. The score by innings follows:

Aberdeen	10012021x-7	10 3
Elkton	000010300-4	10 1

Batteries, Aberdeen, Bonnett Bruff; Elkton, Clay and Potts.

KNOCKS AND BOOSTS

Sweitzer was no terror to the Newark batters on Saturday. Two straight shut-outs against Rising Sun and Elk Mills is going some.

Billy Jackson had a busy day accepting 9 chances without an error. Joe Davis probably feels better since his club won a game.

Morris and Marsey are hitting much better than they did last season and when these two left-hand swingers get started they are a bad looking pair for opposing pitchers. Elkton can do a good service for Newark on Saturday by taking the Aberdeen game.

Less hits have been made off Hogan to date than any pitcher in the league.

The Beatty Brothers continue to please the fans by their work around second and third.

IRON HILL MAY RETURN

Professor C. A. Short has been working hard for some days to straighten out affairs in the Penn-Mar League and get the schedule running smooth again. Saturday, May 16th, Iron Hill was scheduled to play at Providence but failed to appear and it was later announced that the club would withdraw from the league and disband. Efforts were made to get an Elkton club to enter the league but this failed and consequently the game that Newark Field Club was scheduled with Iron Hill last Saturday was not played. Since that time, however, Professor Short has talked with some of the officials of the Iron Hill and it is reported that matters have been adjusted and the club will probably be back to play out its schedule starting with the coming Saturday.

The one game in the Penn-Mar League last Saturday proved an exceptionally good one. It was between Providence and Appleton at Providence and the champions won 3 to 2. Crow and Wilson pitched fine ball but the latter got the best support.

Batteries, Providence, Wilson and Scarborough; Appleton, Crow, Willis and Blackson.

HIGH SCHOOL HAS OFF DAY

The Newark High School had an off day at Chester last Wednesday and met defeat by the score of 14 to 1. While the Chester High deserved the victory yet it was largely the errors back of Chillas that gave them so many runs. "Dusty" Miller had a bad day at short and some of his errors gave Chester a number of their runs.

CONTINENTAL HAD IT EASY

The strong Continental team increased batting averages on Satur-

day at the expense of St. Benedict's of Wilmington. The Fibre boys touched up Golt of St. Benedict's for a total of 24 hits. Crow lead with the stick, getting four safe hits. Fulton, Cleaver, Goodnow and Moore each made three. The visitors could do nothing with Whitman's pitching, the runs they did get being mostly the result of errors.

NEWARK SCOUTS WIN

The Newark Boy Scouts got the habit on Saturday also and defeated the Elkton Scouts by the score of 18 to 8.

Tomato Growers Hold Conference

At a conference held at the Hotel DuPont Saturday between members of the National Canners' Association, Tri-State Packers' Association, officials of the Agricultural Department at Washington and the State agricultural experimental stations of Delaware, New Jersey and Maryland, it developed that tomato growers by taking advantage of experiments toward eliminating crop diseases could easily increase their yield anywhere from 25 to 100 per cent.

The meeting was one of the most important ever held by the packers and was one of the largest attended meetings of its kind ever held in this State.

In order to show the practical results of what is being done, it was arranged to conduct a series of experiments under the direction of the Agricultural Department and the several state experiment stations on several farms throughout the peninsula.

The conference was called by Frank E. Gorrell of Washington, secretary of the National Canners' Association. It was presided over by Dr. W. D. Bigelow of Washington, director of the bureau of research of the National Canners' Association and former first assistant to Dr. Wiley in the bureau of chemistry of the Agricultural Department.

In addition to Dr. Bigelow, addresses were made by Professor W. A. Orton of the Bureau of Plant Industry of the Agricultural Department; Professor H. M. Loomis, bureau of chemistry of the same department; Dr. Thomas F. Manns, plant pathologist, Delaware Experiment station; Professors J. B. S. Norton and J. F. Monroe, Maryland Experiment station; Professor Melvin T. Cook, plant pathologist, New Jersey Experiment Station, and Professor W. C. Pelton, of the same station.

The purpose of the meeting was to acquaint the canners with experiments made to control leaf blight in tomatoes and also the disease commonly called "sleeping sickness," and known scientifically as wilt. The agricultural authorities are desirous of having the growers co-operate with them to the end that these diseases can be controlled.

In addition to these topics the question of controlling the liquid waste of cannery plants was also discussed. The outcome must necessarily be beneficial.

Sixty persons were in attendance including members of the Baltimore Canned Goods Exchange, Congressman Walter O. Hoffecker

of Smyrna, president of the Tri-State Association, called the assembly to order and explained the object of the gathering.

With the diseases under control the yield of tomatoes will not only be increased, but the crop will be better in every way.

Football Schedule For Season Of 1914

Last Tuesday Coach William J. McAvoy started work with the Delaware College football candidates on Joe Frazer Field. The men reported in gymnasium suits, and put in the afternoon passing the ball around. From now on Coach McAvoy will keep the gridiron men busy with spring practice.

In the fall, two or three weeks before the college opens, the followers of the pigskin will begin active training for the heavy schedule of next season. The coach will have to hunt up some new material for the 1914 squad, as he loses four men by graduation: Jim Huston, 'varsity quarterback for over three years; Archie Dean, 'varsity tackle for two years; Emory Loomis, 'varsity guard and center, and Tohe Rudolph, 'varsity center. Beside these men, A. C. Connelley, who has done so much to develop football men at Delaware, will graduate. Wilson O'Daniel, who is Huston's understudy on the gridiron and baseball diamond, will probably take the quarterback position, but it will not be so easy to fill the other shoes.

Victor H. Handy, the giant fullback, will pilot the Blue and Gold eleven through the following schedule:

September 26, 1914—Lafayette College, at Easton, Pa.
October 3—Baltimore Polytechnic Institute, at Newark.
October 10—Baltimore City College, at Newark.
October 17—Temple University, at Newark.
October 24—Pennsylvania Military College, at Chester, Pa.
October 31—Stevens Institute, at Hoboken.
November 7—Catholic University at Newark.
November 14—Western Maryland, at Newark.
November 26, Thanksgiving Day—Carlisle Indian Reserves, at Newark.
Nine of the twelve games scheduled will be played on Joe Frazer Field, Newark.

Happiness Makers

Sing a song of seasons,
Something bright in all—
Flowers in the summer,
Fires in the fall.

—R. L. Stevenson.

There are nettles everywhere,
But smooth green grasses are more common still;

The blue of heaven is larger than the cloud.
—Elizabeth Barrett Browning.

As my life today has been determined by the way I lived my yesterday, so my tomorrow is being determined by the way I live my today.

—Ralph Waldo Trine.

The world would be better and brighter if people were taught the duty of being happy as well as the happiness of doing their duty. To be happy ourselves is a most effectual contribution to the happiness of others.

—Sir John Lubbock.

Newark Train Schedules

HERE AND THERE

Wilmingtonians wishing to vote at the general election in the fall must be registered from their present residences, whether registered previously or not.

Harry Cannon on his farm near Bridgeville, is operating a 66 horse power gasoline tractor which draws 16-inch plows and a double 12-foot disc harrow.

Harford county, Md., received \$3,152.52 from the profits of the recent race meeting at Havre de Grace.

Pugh and Habbark of Philadelphia have been given the contract by the Maryland State Roads Commission for the construction of a 1.67 mile section built of concrete between Conowingo and Oakwood, Cecil county.

The strawberry shipping season opened generally at lower Delaware points on Monday with prospects of profits to growers.

Many property valuations in New Castle have been doubled by the special assessors.

The recent primary election cost Chester county about \$4500. The expenses in one township where six votes were cast were \$32.

A Spanish oak in the yard of Christ Church, Dover, is said by experts to be 350 years old.

Wilmington City Council has authorized the purchase at not more than \$23,000, a site for a public playground, at Third and Madison streets.

The Delaware Automobile Association offers a reward of \$50 for the arrest and conviction of anyone stealing a car from any of its members.

The Wells, Fargo and Company Express will on June 30, take over the business of the United States Express Company which operates over the B. & O. R. R. lines. Manager Manning and other employees of the latter company at Wilmington will be retained.

The automobile of James H. Shepherd, of 512 West Sixth street Wilmington, on Friday night collided with the team of John Boyd, of Boothwyn on the Philadelphia pike, near Montrose, breaking two legs of the horse which was shot later.

An entertainment and festival will be held on the school grounds on Friday evening by the Elk Mills, Maryland, Institute.

Patrick Magill, the new Chief of Wilmington Fire Department, will be furnished an automobile by the city.

Charged with stealing a horse from William Jenkins at Newport, William Mills, colored, was held in \$500 bail for Court by Justice Lewis of Wilmington on Tuesday.

The Rev. W. D. Anll and George V. Massey of Philadelphia delivered addresses at the dedication of the Lewes Presbyterian Sunday School room on Thursday evening.

A large public dancing pavilion is in course of erection along the boardwalk at Rehoboth Beach at the foot of Wilmington avenue.

The State Board of Agriculture has chosen Oliver A. Newton, president; Newton L. Grubb, vice-president; and Col. A. R. Benson, secretary.

John D. Gray has been appointed as constable for Richardson Park by the Levy Court.

Coroner Spring urges the need of a permanent morgue for New Castle county.

Several camps of the P. O. S. of A. joined in flag presentation exercises at Hope Farm on Saturday afternoon.

The State Live Stock Sanitary Board has chosen Oliver A. Newton president; Newton L. Grubb, vice-president; and Dr. H. P. Eves, secretary and executive officer.

Delaware Hospital managers will have an addition erected costing \$70,000.

Wilmington Street and Sewer Department is about to declare defective sidewalks public nuisances and will prescribe fines of from \$1 to \$10 upon neglectful owners.

While handling a kettle of boiling water one day last week Miss

Ollie McKee of Middletown, was severely scalded.

Fire started by careless tramps to cook food, it is thought, destroyed a box car and damaged another standing on a siding at Porter's Station one day last week.

Suits brought in Wilmington by wives and mothers under the non-support law total 99 and the money collected for their support totals \$15,000.

Clarence Messig and Clayton Dunham landed the largest sturgeon of the season at Delaware City last Tuesday. It contained 86 1-2 lbs. of roe worth \$1.50 per lb. Charles Hall and Grover Caron caught one with 59 1-2 lbs. of roe.

William L. Gross, a well-known storekeeper of Pilot, near Conowingo, Cecil county, was found dead on Saturday morning under his overturned automobile at the foot of a hill on the public road, near Pleasant Grove, Lancaster county. It is thought that he was attacked with vertigo and lost control of the car, the brakes of which were found in order.

While fishing in the canal at Delaware City on Friday, Frank, the eight-year-old son of William Morris, fell overboard. The tug Starle was passing with a tow of barges, and the boy was caught in the suction. W. U. Reybold luckily was nearby and went to the child's rescue, diving twice when he sank and finally reaching the bank with him. The boy soon revived and was able to walk to his home.

Several horses and cows have died from spinal meningitis in upper Cecil sections lately, and other cases of the diseases among stock are reported.

Fire last Monday broke out in H. W. Lowe's livery stable, 323 East Third street, Wilmington, and caused a loss of \$10,000 before it was checked. The blaze started in the hay loft, and the proprietor had time to liberate his 13 horses but could save only a few vehicles.

An unknown burglar entered the Majestic Theatre, at Seventh and Market streets, Wilmington, on Wednesday night and tackled the safe containing the day's receipts. He cut off the combination door and removed a steel strip from the bottom and then quit work, probably having been frightened.

Sergeant Joseph A. Davis of the Seventh U. S. Infantry, instructor for the O. M. D., has been secured by the Wilmington Police Commission to train patrolmen in military drill, physical exercises and target practice.

John H. Stine, 67 years old, who lived alone at Middletown, was seized with epilepsy, last Tuesday in his room, and upsetting a lighted lamp was burned to death before neighbors could come to his rescue.

Starting with the hatching of a number of wild duck eggs which he found several years ago Frisbie Kirby of the Georgetown section has 50 breeding fowls and 500 young ducks. He has sold 2200 eggs to State Game Commission and recently shipped 35 old ducks to the State breeding farm in Gam-boro Hundred.

F. W. Cressney and George Paxton, both of Philadelphia, charged with catching bullfrogs out of season, which opens on July 1, were arrested by Constable Wright of New Castle one day last week. Cressney had six big frogs and was fined \$10 for each with costs, and Paxton \$25 and costs, in default of which they were given sixty days each at Greenbank. William Wright and Ernest Cherson, youths of South Wilmington, hired to fish for the frogs, were paroled.

Three strangers, who got off a freight train at Townsend on Thursday evening and loitered about the town, it is surmised, entered the office of D. B. Maloney, hardware and lumber dealer, and carried off a lot of legal and other papers from his safe which he had left unlocked, taking the papers with which they may hold for a reward. The safe contained no money, Mr. Maloney having put the day's receipts in bank.

Burglars, one night last week, entered and ransacked Paul Bruna's grocery store, at 600 West Front street, Wilmington, while the family were asleep upstairs. They forced open the cash drawer, secured by a padlock, and got \$28 with a revolver and cartridges.

Misses Alice E. O'Brien, Mabel Pyne, Lillian Carroll and Florence Townsend were graduated from the Delaware Hospital Training School for Nurses on Wednesday, received their diplomas from President Thomas F. Bagard. The Dr. Albert Robin prize for the highest average work was awarded to Miss O'Brien.

The livery stable in the rear of Newman's Hotel, in the centre of Harrington, was destroyed by fire, about 3 a. m. on Saturday. The blaze spread to two nearby stores, and for a time the hotel and the entire block seemed doomed. Three horses were consumed in the stable and guests fled from the hotel. The Franklin store and that of Solomon Sopp were more or less damaged. Residents formed a bucket brigade and after a hard fight prevented the further spread of the flames. Losses are put at \$10,000 with some insurance.

Fire, thought to have been caused by spontaneous combustion of hay, stored in the livery stable owned by Mrs. Frank Rickards and conducted by William Dickerson, threatened a section of Milford with destruction on Friday evening. Citizens rallied and strove to check the flames, which spread to and destroyed the dwelling of Henry Sharp and the nearby gar-

MAY 27, 1914

ANNUAL REPORT OF COUNTY ENGINEER

Supervisors Submit Statement Of Work

Engineer Wilson recommends that the county tax rate for road purposes be continued at the same figure—forty cents on each hundred dollars of assessed valuation.

Included in his report Mr. Wilson submitted a recapitulation of liabilities from 1907 to date. It shows that with the exception of one bond of \$300 of Pencader hundred, all of the hundreds in the county are entirely free of debt. Several other hundreds got out of debt in the fiscal year 1911-12. In that year Brandywine hundred paid off its last \$1,000. St. Georges paid off its last \$1,000 and White Clay Creek hundred paid off its last \$400. Appoquinimink paid its last debt, \$337, in 1908; Blackbird paid \$187 in 1907 and became free of debt; Christiansa paid its last \$2,000 in 1909; New Castle paid its last \$1,000 in 1910; New Castle its last \$1,000 in 1909 and Red Lion its last \$300 in 1908.

Mr. Wilson shows that each hundred has assembled a good building outfit, Brandywine hundred having a stone crusher. Mr. Wilson recommends the general use of the drag on dirt roads, proper drainage, care of machinery, the use of wide tires for heavy traffic. He gives general directions for dragging roads. Mr. Wilson's report is as follows on local hundreds:

MILL CREEK HUNDRED

Road Cooper's Corner, Claring-	
bold	1,377.80

Cash on hand April 1, 1914 \$1,475.95

We have spent a good deal of money in this hundred and made some very good permanent improvements in the way of cutting down hills and filling hollows, and still have \$1,475.95 as a balance for the new year. We rebuilt two bridges and four large culverts and repaired several more. Twenty-five or more metal pipe culverts were put in, and a mile of new ditch dug. About three hundred yards of road was surfaced with gravel along Pike's Creek. Many other minor repairs were made and about forty miles of road scraped. The road from Marshallton to Cooper's Corner was graded and widened, the breaks and hills cut down, and the hollows filled, new drainage pipe was put in and the whole road cinched. The road from Cooper's Corner toward Milltown was graded, a heavy cut being made on the first hill west of Cooper's and the hollow in front of McClary filled some three feet. Across the run a fine masonry bridge ten (10) feet long, four (4) feet high and twenty feet wide, with reinforced concrete floor and pointed approach walls, was built and as above stated the road raised some three feet. On Lynam's road leading from Pennock's Mill bridge near Milltown, the short sharp hill was cut off and the dirt and stone brought back to fill the approaches to the County bridge crossing the creek at this point. Trimble's hill on the Mt. Pleasant road was also cut down from a 15 per cent. grade to a 6 per cent., and the road widened at the top to twenty feet. Each of these jobs cost several hundred dollars, making in all quite a large sum, but are in the nature of permanent improvements, and well worth the money. We hope to apply each year some of our money to cutting off similar steep hill tops.

Machinery and Tools—Two scraping machines, three road drags, one small 4-horse stone crusher, two scoops, one wheel scoop, one road rooster, four dozen shovels, picks, crow bars, mattocks, stone forks, one house on wheels and 86 feet of metal culvert pipe.

\$4,007.59

Cash on hand April 1, 1914 \$4,548.17

We have a balance of \$4,548.17 to start with and hope this year to do some more permanent road work in the way of reducing grades and resurfacing the roads with cinder and slag. We have scraped an abandoned about twenty (20) miles of road and dragged and redragged about thirty (30) miles, rebuilt one bridge and repaired four and put right extra wing walls on culverts; cleaned 1,150 yards of old ditches and cut 2,000 yards of new. We rounded and surfaced, with slag from the New Castle Mills, about half mile of the road leading from New Castle to the Reservoir Cross roads; this is a good job and has held well over the winter. We hope to do more of this kind of work this year. We cut down three (3) hills, Hog Swamp hill, Jourdon hill and Lisbon Hill, in all some eight hundred (800) yards in length. Several metal culverts were placed where needed. We hauled over 700 loads of slag and 1,255 bushels of oyster shells, besides some gravel.

Machinery and Tools

One scraper, four new steel drags, one road plow, two scoops, one dozen shovels, six spades and other road implements.

PENCADER HUNDRED

Overpaid Taxes	20.21

\$2,358.68

Cash on hand April 1, 1914 \$1,804.72

This is the best balance on hand for new work we have had for some time, but every bit of it is needed. Pencader seems to be always up against it. With only about enough money to do one part of the hundred at a time, the other part goes to the bad. By the time you get the hilly roads rounded up to drain the water, the ditches along the flat roads are filled up and next year it is the reverse, so that a supervisor in this hundred stands a poor chance of getting much credit. The following work, however, was done, four (4) miles of road were scraped and twenty (20) miles dragged, nearly a mile of ditches dug and sixty-five old bridges and culverts repaired. Two (2) new plank bridges were built and 250 feet of metal culverts of various lengths and diameters put in. We used some 10,000 feet of lumber in these bridge jobs, but at slowly replacing what we can of them with concrete and metal structures.

Machinery and Tools—One (1) scraper five (5) road drags, two (2) scoops, and picks, shovels, brier scythes, etc.

RED LION HUNDRED

Town of St. George's	309.00

\$2,728.96

Cash on hand, April 1, 1914 \$1,006.23

The roads in this Hundred are in very good condition considering the very bad winter for roads we have had. Six (6) miles of road were scraped into shape and twenty-eight (28) miles dragged over a number of times, the only way to

keep them good. Over two miles of ditches were cleaned, seven bridges and culverts repaired, one new concrete bridge built and four (4) new metal culverts put in, about two miles of road was repaired, three (3) hills on the road from St. Georges to Red Lion were cut down and one on the road from McCoy's to Wrangle Hill. We used 104 tons of stone and 102 cart loads of gravel.

Machinery and Tools—One scraper, three steel drags, three wooden drags, two scoops, two picks, one mattock, three long handled shovels, two spades, two short handled shovels, 40 feet metal pipe and 6 feet cast iron pipe.

ST. GEORGES HUNDRED

J. C. Alston, Supervisor

Town of Middletown	401.74
Town of Odessa	430.12

\$7,110.66

Cash on hand April 1, 1914 \$3,426.58

Our balance is as shown above, \$3,426.58, and insures us a good working capital for this season. We had no new bridges to build and only three (3) to repair. We have shaped up with the scraper five (5) more miles of road and have dragged and redragged some sixty-five (65) miles. The roads in this hundred after once being put into shape by the road scraper are easily and economically kept so, by means of the road drags. This work has been attended to with care and system, with the result that St. Georges is our banner hundred for good dirt roads. Two car loads of stone have been put on the road from Port Penn to Delaware City, but no roads graded. Three hundred and sixty (360) feet of metal culverts of various lengths and diameters, have been put in, some to replace old wooden ones, and others in new places that needed them. Bunker Hill was cut down somewhat and rounded into shape. We aim this year to cut down and out several small hills and to gravel several miles of road. We have paid over to the Towns of Middletown and Odessa all the road taxes collected within their limits, amounting to \$401.74 for Middletown and \$430.12 for Odessa.

Machinery and Tools

Two large scrapers, one small scraper, nine iron drags, one Wrangle harrow, one rooster road plow three Oliver plows, three scoops, two dozen shovels, hoes and picks, and a few old planks.

WHITE CLAY CREEK HUNDRED

Water trough	5.00
Overpaid Taxes	7.14

\$3,275.53

Cash on hand April 1, 1914 \$2,891.71

Our balance this year of \$2,891.71 is unusually large for this hundred. For the last several years we have had to rebuild each year several old bridges, and as it seemed best we built them, when able, of reinforced concrete with concrete floors, often leaving us with a poor balance at the end of the year. We have scraped ten (10) miles of road, dragged about twenty (20) miles, repaired ten (10) bridges and three (3) culverts and rebuilt two (2) wooden bridges and put in six (6) metal pipes of various sizes and one terra cotta. Thompson's, Tweed's and Hossinger's Hills have been worked down and rounded, and over a mile of ditches re-dug.

Machinery and Tools

One Champion scraper, three steel drags, shovels, picks, ditching spades, etc.

An ice-cream and strawberry festival under the auspices of Wesley church, will be held on Leon Garrett's lawn on Wednesday evening, June third. If stormy the following evening. Proceeds for the benefit of the church.

Estate of Alexander Perry Deceased.

PERSONALS

Mr. and Mrs. Richard Cann and Mrs. Chamberlain of Middletown, were the Sunday guests of J. P. Cann and family.

Mr. and Mrs. Edward W. Cooch entertained at dinner on Friday in honor of Mrs. Leonard E. Wales.

Mrs. J. Wilkins Cooch is spending some time in Washington.

Miss Agnes Medill of Fifth Grade, Newark Public School, spent Tuesday observing work in the DuPont School near Wilmington.

Miss Danzenbaker and children of the third grade, Newark Public School, took their lunch to Donnell's woods on Tuesday, and spent a happy afternoon in the open.

Miss Essie Ferguson spent Tuesday observing primary work in the schools of Wilmington.

The baby daughter of Mrs. Ira Mote is ill with typhoid fever.

Professor A. E. Grantham and family expect to move from Delaware avenue, to their new home on the farm recently purchased from C. R. E. Lewis.

Miss Annie L. Wilson is spending some time with her cousin, Miss Jane Maxwell.

Mrs. Rebecca Gilpin spent Tuesday in Philadelphia.

E. L. Richards and family, D. J. Grime and Mr. and Mrs. H. A. Heinel motored to Washington, D. C. last Friday, where they remained until Monday, sightseeing in the capital city.

Miss Marie Osmond of Columbia, Pa., was the recent guest of her grandparents, Mr. and Mrs. Amos Osmond.

Miss Elsie Wright is spending the week at the Baldwin School, Bryn Mawr, Pa., attending the Commencement exercises of the school. Miss Elizabeth K. Wright is among the graduates.

Miss Lena Evans has returned after an extended stay in Florida and Washington.

G. L. Medill and daughter Louise, of Brandywine Hundred, were Sunday guests at the home of George Medill.

Joshua Howard of Tacony, Pa., was the recent guest of I. R. Johnson near Newark.

Mr. Chas. H. Lafferty has opened his summer home, Maplehurst.

Miss Margaret Luther of Pittsburgh, is visiting Miss Mary Vannean at Maplehurst.

Mrs. John J. Gartland, Jr., is visiting her home Maplehurst before leaving for her new home in Buffalo, N. Y.

SCHOOL NOTES

The following is the uncorrected work of a third grade pupil, Charles Hopkins, aged ten, in the Newark Public School:

OUR COUNTRY'S FLAG

The usual shape of our flag is oblong.

There are red, white and blue stripes.

The blue part is called the field.

Our flag contains white stars.

There are forty-eight stars in the flag, because there are forty-eight states in our country.

There are only thirteen stripes in our flag, because there were only thirteen states when the flag was made.

We use a flag in war, in fire drill, on the Fourth of July, and we use a flag at school, when we sing the flag song. The soldiers use a flag to march with.

Annual Reunion

Second notices were mailed today to those eligible to membership in the Newark High School Alumni Association, urging them to attend the annual meeting and banquet to be held at the Deer Park Hotel on Friday evening, June fifth.

School Picnic

The closing of Welsh Tract School last Friday, was followed by a picnic in the afternoon, attended by one hundred and fifty people. As has been the custom for years the outing was held on the picnic grounds adjoining the Welsh Tract Meeting House. Games of various kinds made the hours pass merrily. Bounteous refreshments were served.

Dust Dust

Dust, Dust, Dust,—everybody complaining of dust. Requests from Main street,—below the Center, Delaware Avenue, Cleveland Avenue,—all calling up The Post asking us to call attention to the Dust nuisance and begging for relief. "Get after Council. Our section of the town is not getting any water." In reply to all these requests we can make only the following statement:

Council will operate the sprinkler this season. Speaking of the dust nuisance this morning, a mem-

ber of Council said, "Just now with the streets torn up, the water supply cut off in different sections, the inconvenience of traffic, it is impossible to serve the town as it should be done." Another member said that the service would be satisfactory in a few days.

Council seems heartily in support of the sprinkler and intends to relieve this discomfort as soon as possible.

Improved Street In Sight

As long as 30 years ago, the condition of Main street was a matter of serious consideration and discussion. Every year since that time, I suppose, some plan for improvement has been presented but with only the result of temporary repairs. Council after Council have tried to effect what is about to be accomplished,—a permanent road bed on Main street in keeping with the rest of the town. Visitors for years have commented enthusiastically over the beauties of our town, with the always-striking exception—that awful Main street. During the last few years of auto travel, Newark is known to all Eastern tourists. As one recently expressed it, "Newark, the town with the mountain road running the full length of the town." The Delaware Ledger laughed at Council 29 years ago when that body discussed improvement. Newark has progressed in every way except her streets. In this she has certainly not kept pace with the demands. But at last, the contract has been awarded, the work will begin this week for macadam street from the B. & O. to the Center Depot. This with cement gutters will bring Newark to an unchallenged position.

The reputation and honor of Newark is about to be saved. DIG DIRT.

STRICKERSVILLE

The Willing Workers of Flint Hill church met last Wednesday with Mrs. Pierce Whitcraft.

Miss Grace Ward of Philadelphia spent Sunday with Miss Martha Smith.

Miss Lillian Stevens is spending some time with Miss Addie Lee.

Leaving Intoxicants Alone

Reports just compiled show that on twenty-two divisions of the Pennsylvania Railroad, not a single employee was found deficient in all of the 125,226 observations made in February, 1914, to determine to what extent employees were obeying the Railroad's rules against the use of intoxicants by employees while on duty, the habitual use of intoxicants or the frequenting of places where they are sold.

One thousand and ninety-three observations were made to see if switches were left in proper position, and the result showed perfect obedience to the rules.

Two hundred and sixty tests were made of the rule requiring a brakeman to take the place of the flagman when the latter goes back to protect his train, without a failure on the part of an employee.

The aisles of 7,401 passenger cars were inspected to see that they were free from baggage and handbags, and not in a single case were the rules of the Company disregarded.

In every one of the 11,979 tests made of the proper use of visible signals, the rules were obeyed fully.

On the entire Pennsylvania Railroad East of Pittsburgh and Erie, 689,000 safety observations were made to ascertain the observance of train safety rules, and 99.9 per cent showed a perfect performance on the part of employee.

The Geibel Chorus Of Wilmington

The Geibel chorus of Wilmington will be in Newark Opera House on the evening of June 4th. Without doubt this will be the greatest entertainment ever given in Newark if we may judge by the reputation it has made for itself in Wilmington. Already it has been repeated by urgent requests seven times this season in the largest auditoriums of the city and each time it has had literally a packed house.

Prof. King, the Director of this popular chorus, is a master at the business, having done this kind of work for years; but this year he has eclipsed all previous records.

Philadelphia admirers who have heard the chorus are urging him to bring the chorus to that large city.

The chorus will come to Newark on the evening of the entertainment in twenty automobiles, bringing 108 children.

You positively cannot afford to miss this rare treat, so remember and make your plans to be present. You may never have an opportunity like this again. —Adv.

Kennard & Co.

For Your Outing

As Memorial Day comes this year on Saturday, no doubt many week-end trips will be arranged for either by motor, train or boat.

For trips of this kind as well as for all outdoor sports we are particularly well equipped to supply your needs. Your attention is called to the excellent assortments of the following lines:

Balmacaan Top Coats.

White, check and novelty effects in Sport Coats.

New ideas in Cape effects.

Dresses of wool, linen and cotton.

Separate Skirts in a wide range of cotton and linen fabrics together with plain wool and check effects.

Linen Dusters and Rain Coats.

Waists of every description.

Parasols and Umbrellas.

Neckwear, Gloves and Hosiery.

Muslin and Knit Underwear.

We prepay delivery charges within a reasonable distance and solicit charge accounts from those of established credit.

Recipes for the Course Dinner

MEATS

Chop 1-2 lb. fat pork fine, and put 1-2 of it in bottom of bread pot. Sprinkle with 1 tablespoonful of chopped carrot, 1 onion, a half a bay leaf, and a sprig of thyme. Lay a breast of veal on this bed, and cover with similar layers. Pour in carefully a quart of stock and cover and set on back of stove. Let simmer for 2 hours. Remove meat, rub with butter, and dredge thickly with browned flour. Pour over the meat one cup of the stock. Place in hot oven and bake one-half hour, basting with remaining stock every few minutes.

BAKED HAM

Cover ham with water. Add one pint cider and one cup brown sugar. Boil three hours. Remove the skin. Spread another cup of brown sugar over the ham as a paste. Score fatty part, and stick in about one dozen whole cloves. Bake three hours, frequently basting with one pint cider. Ham should have been previously soaked in cold water at least twelve hours, water being changed several times.

POT ROAST

Have a piece of tender round of beef and place in kettle over good fire. Brown first one side then the other, add 1-2 pints boiling water and let cook slowly, fifteen minutes to every pound. Season with salt and paprika. After the water evaporates, do not add more. This can be served with either brown sauce or tomato sauce.

CANNELON OF BEEF

1 lb. lean beef from the round
1 egg
1 teaspoonful salt
2 drops celery extract
1 tablespoon butter

1-4 teaspoon pepper
1 scant teaspoon mixed spice.
Chop beef fine. Melt butter and add to meat, with egg beaten light; add the flavorings, mix well, and make into roll. Grease a piece of brown paper and roll the meat in it. Put in a shallow baking pan and bake thirty minutes in a moderate oven. Baste occasionally with melted butter. When done remove from paper and serve with brown sauce.

FILLET OF BEEF WITH MUSHROOM SAUCE

It is best to have your butcher prepare the fillet for you, or trim the tenderloin nicely, removing the muscular that you will find on one side of fillet. Take very fat part, cut in fine strips and lay on the ice to harden. Make incisions in fillet, insert pork the whole length of fillet, letting each lardon be one inch apart. Take baking pan, slice in it one onion, one carrot, a stalk of celery, two or three cloves, two thin slices lemon. Sprinkle with salt and paprika. Lay your fillet on this. Pour in 1 cup hot water. Bake about one-half hour, according to the size. When done thicken what is left in baking pan, adding one pint of stock or water. Let boil up and add 1 pint of small mushrooms. Cook till mushrooms are tender. Season and serve on same dish with fillet. Oven must be hot.

BEEF A LA MODE

Get a steak a little thicker than for boiling, lard it with bacon. Put in pan with salt, pepper, carrots, onions, thyme, all cut in fine pieces with water enough to keep from burning. Cook in slow oven. When done thicken the gravy with the vegetable and serve with meat.

CLUB WOMEN IN CONVENTION

Next Session To Be Held In Newark

The seventh annual conference of the Delaware State Federation of Women's Clubs held at Milford last Thursday and Friday proved the largest ever held in the State by the organization. More than four hundred clubwomen attended the sessions, the delegates alone numbering over one hundred.

Among the speakers were women of nationwide reputation: Mrs. Percy B. Pennybacker, of Texas, Federation president; Mrs. Edward Beecher Finck of Philadelphia, and Mrs. William Andrews, a director of the General Federation. Mrs. Pennybacker delivered the concluding address of the session, after which the delegates adjourned by singing the club song, composed by Mrs. Lamar Andrews of Milford.

During the closing sessions the committee of resolutions, Mrs. C. C. Fulton of Dover, presented six resolutions, all of which were adopted.

REFORM IN DRESS

One resolution advocated a reform in women's dress and was as follows:

Whereas, The General Federation of Women's Clubs, in convention assembled, view with disapproval the present extreme tendency among American women to follow designs in dress, regardless of beauty, comfort or modesty, and

Whereas, These objectionable designs in women's clothes emanate largely, if not entirely, from foreign houses; and

Whereas, This constant patronage of foreign designs and foreign materials hinders a normal development of American art and manufacture; be it therefore,

Resolved, That this convention in full recognition of the rights and privileges of the individuals, places itself on record as heartily in favor of the movement for simpler, more becoming and more modest designs in women's clothes, and urges the co-operation of all clubs and clubwomen of the Federation in a concrete effort to adopt styles in dress adapted to American needs, and to encourage American designers and manufacturers.

Other resolutions adopted covered the following subjects: They advocated that "The Star Spangled Banner" be taught more generally throughout the State, and that the children be told that it is the national emblem and not some of the other songs as now sung. This resolution was caused because of the apparent lack of knowledge on the subject.

The second resolution favored enforcing of local option and the abolition of gambling places.

Another resolution asked that the State make some provision for the education and maintenance of

the feeble-minded of the State and promises to support any definite plan to that end.

Another resolution extended the thanks of the club women to the commission for the college for women and heartily endorsed the project.

The morning session of the Federation on Friday was devoted to the reports of the chairmen of the various committees. During the session the formation of two scholarships at the Affiliated College for Women was announced. The scholarship founded by the Federation of Women's Clubs will be in the hands of the educational committee, of which Mrs. Harry Hayward of Newark is chairman. Fifty dollars will be paid in September; the remainder in February.

Another scholarship from the Delaware Association of College Women was later announced by Mrs. Hayward.

Later in the morning Mrs. A. D. Warner of the Affiliated College Commission and Dean Robinson talked on the college and its progress. Mrs. Warner presented a resume of the college, which was originated in the Federation. Through its efforts appropriations were secured from the legislature. Folders containing cuts of the college building plans and the residence hall, as they will appear when completed, were distributed.

AFFILIATED COLLEGE PLANS

The folders outline the courses in liberal arts, teaching and home economics. The college opens in September. For Delaware students tuition is free; for others, \$60 a year. Board with a room in the dormitory, costs \$200.

The report of the committee on education, presented by Mrs. Harry Hayward, stated that their efforts for the year have been devoted to the new college for women. They are working now to get students for the college. Every club woman was asked to consider herself responsible for spreading the advantages of the college among the girls of the State, that none may miss this fine opportunity.

The resignation of Mrs. Beniah Watson of Dover, as chairman of legislation, was accepted. The appointment of her successor was deferred until fall.

ADDRESS ON PEACE

An address on peace by Mrs. William Andrews of Washington, a director in the General Federation, was given during the morning, which was taken up principally with reports of committee chairmen. Mrs. Philip Burnet of Dover reported domestic science

day held by all the clubs. She asked them to change the name of this department to home economics, because it is all embracing. Mrs. O. V. Wootton reported on the splendid arts and crafts exhibit in the club house, and stated that all the clubs are interested in the art in their local school.

TO VISIT RURAL SCHOOLS

Miss Emily P. Bissell asked how many club women had visited a rural school and not a hand went up, in consequence of which every club will be asked to make visits next fall.

Miss Bissell announced defects as a mission for her social service committee next year and this inspired an interesting interpolation by Mrs. Pennybacker. "Miss Bissell has hit upon the heart of my biennial report," Mrs. Pennybacker said. "We are going to have much work in this line at Chicago and this is not to be a convention for dress and frills and gaiety, let me say. The only luncheon the president will attend will be one the day before the convention opens and that will be a settlement near the Chicago stock yards. We will have a sociological pilgrimage one day, all starting off in sections to visit work of this kind."

GIFTS FOR WOMEN'S COLLEGE

The complete list of gifts for the women's college was announced by Mrs. A. D. Warner, as follows: scholarships, State Federation of Women's Clubs and Delaware Association of College Women, the latter to be awarded to the girl making the highest entrance examination average; rooms to be furnished by Newark New Century Club, Georgetown New Century Club, New Castle County W. C. T. U. and Mrs. E. Tatnall Warner, a Vassar College Room, in honor of her Alma Mater.

"Our College for Women is already famous," Dean Robinson said, in speaking of it. "Virginia, Maryland, and California, all want women's colleges and want to know how ours was made possible. There will be 178 girls graduating from the high schools of Delaware this year and the dean wants all who possibly can to come to the college. The per cent of high school girls who go to college ranges from 3 to 5 and her ambition is to have the highest of any state in the country. The college will help the rural schools in every way. Its three aims are to give the girls the same intellectual advantages as the boys; to provide special courses needed for women, and to make the college meet the needs of the locality."

"The college has proved an open sesame," the dean said, and she expressed her appreciation of the cordiality experienced everywhere in the State where she says she finds southern warmth and a Quaker habit of conversation.

Mrs. Pennybacker in her address on the "General Federation as a Sociological Force," reviewed the origin of the present club life, which originated from the development of the economic life of America. The first clubs were study clubs, she said, and the members considered or studied almost every subject. These organizations as individuals, assembled in Chicago twenty some years ago, and that was the beginning of the present Federation. Mrs. Pennybacker, while talking of the struggle made by the early clubs, said that credit should be given where due, and the pioneers of the movement were the Women's Christian Temperance Union and the Suffragists.

"What right has a woman in Delaware to sleep tonight, even if her own children are well when a maiden is in danger from the white slave or white plague evils?" she asked.

Mrs. Edward Beecher Finck of Philadelphia, president of the Women's Press Association, speaking

of her recollections of the convention held at Lewes six years ago, said, "It has been said that the club life began with Sorosis in New York about 50 years ago, but if we read the Parliament of Women, written some 600 years before Christ, we see that the club movement was in vogue at that time. History only repeats itself and women are women the world over. When we realize that every throne in the world has been made and broken by a woman, then and only then can we know our limitations. God created the world and placed man in the Garden of Eden to rule over all creation, but he did not know what to do with this power. Woman was created and she has ruled ever since, but permits man to think his word is supreme."

During the interval between the two addresses at the closing session Miss Mary Roberts of Smyrna, sang a solo. Mrs. C. B. Evans of the Newark Club, extended an invitation to the Federation to meet there next year, which was accepted.

CARE OF FEEBLE MINDED

Mrs. Frank M. Jones of Wilmington, in making the report of the committee on health, declared that the State's feeble-minded pop-

ulation is increasing at a greater rate than its normal population and that absolutely no provision has been made for the segregation of this class of dangerous defectives.

"There are 100 feeble-minded children of school age in Wilmington," declared Mrs. Jones, "and 100 in different parts of the State. We have estimated that there are the same number of feeble-minded women of child-bearing age and approximately the same number of men."

"The terrific rate at which these people increase and reproduce their defects is shown in the example of seven feeble-minded inmates of one of the State's institutions who were released four years ago. In the four years years the seven women have had seventeen children, who will be charges upon the State, and who, if they are not segregated immediately will multiply at the same rate, increasing the problem so that it will soon be beyond the power of the authorities to check."

NEWARK POST

A word from your telephone operator

To my Subscribers:

First, I believe that you have confidence in my ability and my desire to please. My subscribers must realize that it is really easier for me to do my work right than to do it wrong.

Now how can we reduce our telephone troubles to an absolute minimum? For YOU can help. If you will always call by number and speak slowly and distinctly,—that will help. If you will answer your telephone promptly you will save me lots of unnecessary ringing and lost time, too. If, when your conversation is finished, you want to call me back onto the line, work your receiver hook SLOWLY up and down; quick, nervous jerks very often fail to operate the signal which tells me I am wanted; and never leave the receiver off the hook.

Remember, always, that I am trying to do my best. If you will do YOUR part, we are going to come mighty close to the standard of Bell Service—the most efficient service in the world.

When you telephone, smile!

The Diamond State Telephone Company,
E. P. Bardo, District Manager,
601 Shipley Street, Wilmington, Del.

IMPORTANT PARTS

In Sanitary Plumbing, as in life, are often played by the Little Things. The lack of a mite of a Washer, a Single Broken or Wornout Thread on a Screw or Cap in an Escape Pipe, may bring you annoyance, possibly sickness. We have a care for "the little things"—the big ones look out for themselves.

Best modern methods and appliances are used by us; materials and workmanship thoroughly reliable.

 Fire Chief WILSON.

this care pay? Most assuredly,
 yes!

There are vast bodies of soils on
 the Peninsula that lies between
 the Delaware and Chesapeake
 Bays that are pre-eminently adapt-
 ed to peach culture. A soil that is
 warm, easily handled and of fair
 fertility, a soil that responds quick-
 ly to kindly handling and repays a
 hundred fold. The markets are un-
 excelled in the history of fruit cul-
 ture. Bays, rivers and creeks in-
 denting the coast line from both
 sides make possible cheap water
 transportation to Baltimore and
 Philadelphia markets. The pur-
 chase of the Chesapeake and Dela-
 ware canal by the U. S. Govern-
 ment will open up new markets and
 new methods of transportation.

One should not leave the impres-
 sion that the peach is the only fruit
 that can be grown upon this won-
 derful peninsula, for there are
 many others.

The Delaware counties have
 probably pushed ahead a little fas-
 ter in apple production than have
 their sister counties in Maryland.
 The leading Delaware apple grow-
 ers of today were the pioneers of
 apple production in Delaware.
 Laughed at by their neighbors, and
 scorned by the banks, they, filled
 with the faith that was within
 them, hung on like grim death un-
 til their orchards came into bear-
 ing. The laughter turned to envy
 and the scorn of the bank to eager
 desire to offer capital. The Dela-
 ware apple growers of tomorrow
 will owe a great debt to such men
 as L. H. Derby, the Banerfroths, the
 Sopers and J. G. Brown. They
 have paved the way that will ren-
 der the going much easier for the
 coming generation of apple grow-
 ers in Delaware.

What are the things that go to
 make this desirable country for ap-
 ple production? A climate that is
 especially favorable to the produc-
 tion of apples of high quality. Dela-
 ware apple growers do not rest
 their reputations upon Ben Davis
 or Baldwin. Baldwin they cannot
 grow, Ben Davis they seem to
 grow. Rather do they pin their
 faith to such apples as the Stayman
 Winesap, Grimes' Golden, Paragon
 Jonathan and Winesap. Others
 might be enumerated did space
 permit.

A soil that is easily worked, a
 soil that does not wear out horse
 and man during cultivation; a soil
 that is warm and responds quickly
 and easily to all treatments; a soil
 whose ease of working cuts down
 the cost of production. Not all
 Delaware soils are suitable for ap-
 ple production. The ideal type of
 soil for apples on this peninsula is
 a warm, sandy loam underlain two
 or three feet below by a subsoil of
 clay or clay loam. The type of
 soil designated as Norfolk sandy
 loam is a soil of this character.

The best apple markets of the

world lie at the door of the Dela-
 ware apple grower. He has no long
 freight haul or expensive freight
 or express charges to meet. He
 feels that he can still go on produc-
 ing apples at a profit even if the
 price of apples should fall so low
 as to ruin his western or middle
 western competitor. Less than 100
 miles from Philadelphia and less
 than 300 miles from New York,
 what more could be asked? Ap-
 ples of quality, low cost of produc-
 tion, a kindly soil and climate, a
 short haul and fancy prices.

As an illustration of prices, let
 us go down to Dock street in Phila-
 delphia on a winter's morning. Let
 us price the apples standing in bar-
 rels along the curb. Baldwin, 2 to
 3 per barrel; Greenings, \$2.50;
 King, \$3; Delaware Stayman, \$6;
 Delaware Paragon, \$5; or perhaps
 the price may be \$8 a barrel for
 Stayman. The top of the Phila-
 delphia market, and Philadelphia
 takes care of all Delaware pro-
 duces; no need as yet to try the
 New York markets. New York is
 beginning to ask for Delaware
 Stayman, but Philadelphia replies:
 "We haven't enough to supply our
 own people." Father Knicker-
 bocker must needs chew on a Bal-
 dwin or Greening for some time
 yet.

The Saint Of Oley Valley

Do you know the romance of
 Mary Young, "the saint of Oley
 Valley"? Have you heard this
 strange story of the good woman
 who lived alone in the wilderness of
 this valley near Reading? When
 you buy the Sunday North Ameri-
 can on May 31, turn to the Ro-
 mances of Pennsylvania History in
 the Magazine Section and read this
 beautiful story. It is not a ro-
 mance of love and strife, and all the
 more extraordinary on that ac-
 count. Mary Young never met a
 lover in the gloaming or bound up
 a hero's battle wounds. She never
 performed to the applause of
 crowds. Far from it. Yet the
 world and the wise climbed the
 mountains and clambered over the
 defiles merely to worship at her
 feet and to learn from her nature-
 taught words of wisdom. In the
 day of hurry and bustle, this saint
 of the backwoods should have been,
 by all the rules of greed, passed by
 unnoticed. But she was of such
 commanding devoutness and san-
 ity that all those who saw her in
 the clearing which her ax had
 made spread her fame. It is a story
 the like of which even as compre-
 hensive a collection of romances as
 The North American is gleaming
 from all corners of the State
 seldom unfolds.

Once you have read it, you will
 want to save it, because in the
 first place it is about local things
 and people, and in the second
 place it is a story which is novel
 and interesting. —Adv.

OPTOMETRY—The
 science of prescribing
 and fitting glasses to
 correct defective vision
 without the use of
 drugs.

OPTOMETRIST—
 One skilled in optom-
 etry, an expert in
 measuring eye defects.
 A physical Eye Spec-
 alist.

Concerning Your Eyes

Good eyesight is essential to health and comfort. Eye
 strain uncorrected leads to nervous disorders and is a factor
 in causing many reflex disturbances.

Tired, aching eyes, frequent pain over the eyes or heads
 aches are some of the indications of eye strain. At other
 times the eyes give no indication themselves of strain, but
 endeavor to keep up the demand upon them, by using the
 reserve accommodative power until they give out.

GLASSES RELIEVE EYE STRAIN

Success in relieving eye strain depends entirely upon
 the skill of the practitioner who prescribes the glasses. Our
 Optometrists are experienced and capable.

Peach And Apple Industry In Delaware

The following brief sketches of
 the apple and peach industries in
 Delaware, are clipped from an ar-
 ticle by Prof. C. A. McCue of Dela-
 ware College, which recently ap-
 peared in the Practical Farmer. The
 paragraphs are vibrant with faith
 in the Delaware Peninsula and
 should be appreciated by every
 Delawarean:

Here at the very threshold of
 Philadelphia and New York lies a
 land that God has endowed with the
 best He can give, a land that is
 capable of feeding the teeming mil-
 lions of our cities, but a land that
 has been overlooked in the west-
 ward scramble for farming land.
 It is a land of opportunity whose
 virtues are many and whose de-
 fects are few.

Delaware has long been famous
 for her peaches. Forty years ago
 the geographies listed peaches as
 the principal crop grown in Dela-
 ware. At that time practically all
 of the southern half of New Castle
 county and portions of the north-
 ern half of Kent county were one
 vast peach orchard. Time passed
 on, the "yellows" appeared and
 then peaches began to disappear in
 New Castle county, but new or-
 chards were planted farther south
 on the Peninsula. Next the San
 Jose scale appeared and the cup
 of woe of the peach grower was
 filled to overflowing.

Before the scale was conquered
 thousands of peach trees had suc-
 cumbed and many more were pull-
 ed out by discouraged owners. Dela-
 ware had fallen from her proud
 estate; but still the Italian vender
 hawked his Connecticut, New York
 or California grown peaches in the
 cities of the land as Delaware
 peaches. The term Delaware
 peaches had become synonymous
 for all that was delicious and luscious
 for peaches, but alas, Dela-
 ware had fallen from her high
 station and was really sending an
 inferior product to the great mar-
 kets of the country. The cry went
 up all over Delaware and the ad-
 jacent counties of the Eastern
 shore of Maryland (for the Eastern
 Shore of Maryland and Dela-
 ware are one and the same as far
 as soil, climate and people are con-
 cerned) that the day of the peach
 was over and that it was no longer
 a paying investment to plant
 peaches.

However, a few progressive
 stout-hearted growers clung to the
 industry; new methods of cultiva-
 tion, fertilization and spraying
 crept in and the peach began to
 come back to its own. But it is a

College Orchestra Concert Appreciated

The concert given by the Delaware College Orchestra in the Oratory on last Friday evening, measured fully up to expectations of the audience. The program was a well-balanced one of orchestral numbers, cello, violin, cornet and vocal solos. The selections were favorites from the best known operas. Mrs. Leonard E. Wales, who sang with her usual grace and finished charm, responded to the persistent applause in a song to her own accompaniment, which was pleasing indeed.

W. E. Martin, the popular leader of the orchestra gave beautiful interpretations on the violin of "Cavatina" and the "Meditation from Thais." By the storm of appreciation that followed, the audience won from the musician Dvorak's "Humoresque." Mr. Martin plays without any notes, and displays the feeling of the artist, as well as the technique of the musician. The concert marks the close of a most successful season for the new organization.

Delaware Looks Like Champions

The Delaware College team continued its good work last week, taking two games, one from Drexel on Wednesday, by the score of 5 to 3, and on Saturday defeated Rutgers 11 to 6. Delaware got an early lead by knocking Jennings, cracked up by many as the best college pitcher of the year, out of the box in the third inning. Hard and timely hitting scored three runs for Delaware in the first, one in the second and one in the third. This ended Jennings on the diamond and while Hubry, who succeeded him pitched good ball, his support was weak at times.

Having a good lead Buck Hoch took matters easy and did not seem to exert himself much except with men on the bases. The fielding of "Doc" Doherty was one of the bright features of the game, notwithstanding the fact that he booted one that helped the visitors to their first three runs.

As Rutgers has defeated Princeton this season and Swarthmore won from both U. of P. and Michigan, the blue and gold team looks about as strong as any other college club considering the fact that both Rutgers and Swarthmore were easy picking for Delaware. There seems to be no reason, excepting that miserable Washington game,

BUY A HOME WITHOUT MONEY

Take five shares of Building and Loan which will cost you five dollars per month. This will entitle you to borrow one thousand dollars, which will cost you ten dollars per month. You can build a five-room bungalow with bath for seven hundred and fifty to one thousand dollars. I will take second mortgage back of the loan for the ground. After the Building and Loan is paid the mortgage can remain permanent or you can pay it off in installments. Town water, beautiful location, concrete walk to within a very short distance of these lots on North street. If you want something higher priced we can arrange to suit you. Why pay rent all your life? By this plan you can have your home clear in eleven and a half years. Provide a home for your family. Consult any of our carpenters, or S. M. Donnell, or Newark Trust and Safe Deposit Company for particulars, or the owner,

T. F. ARMSTRONG.

Building lots for sale on the installment plan at five dollars per front foot.

Newark, Del.

why Delaware should not be classed with the fastest college teams of the east this year. The blue and gold won from Swarthmore without much trouble, the Quakers defeated both Washington and Johns Hopkins and both of the latter teams won from Delaware. What's the answer?

Field And Track Sports Saturday

Delaware will hold its last dual meet of the season next Saturday morning and their old rivals, Stevens of Hoboken, will be their opponents. Stevens has been doing good work in field and track events this season and Delaware men are working hard to try and capture the meet. The candidates for the field events have especially been doing a lot of work as it was Delaware's weakness in these events that lost the meet to Drexel.

May Have Matinee

There is talk of a matinee next month on the Huber track when some of the many fast horses in the vicinity will have an opportunity to show their speed. The matinee will probably be held some Saturday before H. R. Tyson leaves with his string of horses for the half mile tracks early in July. Mr. Tyson may have some of his horses in the matinee. Gertrude B., owned by Victor Willis, and recognized as queen of the snowpath last winter is being worked out by Daniel Thompson, who is making a reputation as a driver and she will probably be seen in the matinee.

SQUIBS

Since The Post established a Baseball Department, every team in town is outdoing themselves.

Closed season for Clubs. Porch parties all the go.

Carnival plans booming. If you are a Newarker, get in the game.

A Clean-up Tip

The clean-up season of the year is with us once again. And on your list include your teeth. And escape a lot of pain.

So important is the work of the teeth in regard to the general health that they should have the best care, cleanliness being especially essential.

MAIN STREET NEWARK, DEL.

Everybody Loves a Fat Man

when he's a Sol Wilson Tailored Man. The skinny person who wrote the line "Nobody loves a Fat Man" was airing his jealousy,—and he knew he was perjuring himself when he did it. It is, of course, perfectly true that a slouchy fat man is not very attractive. But for that matter nobody cares especially to hug a slouchy light-weight.

"Fat" is just like anything else. If you do it up in a nifty package, and display it with tasty, harmonious trimmings, it presents a mighty alluring front. Moreover, it combines both quantity and quality—a full-weight package of good merchandise.

On the other hand, if you wrap it up in butcher paper and tie it with coarse-grained string—then nobody values it particularly.

I especially invite the visits of the Robust. One of the main things I am proving is that my tailoring can adapt the latest and nattiest English styles to the heaviest figures—even to John Bunny figures—and retain that trim-and-slim English style.

The English "soft-lapeled," "figure-following" styles can be attuned to any avoidupois—and look as though they belonged there—if the tailoring is right.

PRICES: As amazing as Quality itself—

\$16, \$17, \$20, \$22.50, \$25, \$30 and \$35

Also do Cleaning, Pressing, Repairing and Dyeing. Goods called for and delivered.
