William C. Boozer, Owner, Loses Plea To Be Allowed
To Lease Portions of His Property For
These Purposes

A contingent of about 40 residents of the Lumbrook area were on hand at Tuesday night's session of the Newark city council to register a protest against the possible issuance of an occupancy permit to William C. Boozer, who had requested permission to operate a used car lot and package liquor store on his property on Capitol Trail. The permit was not granted.

It was pointed out that the property had previously been used as a restaurant, but permission was now being requested by the owner to lease portions of the building to individuals desiring to establish a used car lot and a package liquor store.

Debate between the owner, William C. Boozer, and the objecting residents waxed hot and heavy with both sides pointing out the advantages and disadvantages of such an establishment in the new residential area.

It was the contention of the residents that neither of these businesses was desirable in the residential section, and some even stated that if the permit were granted they would consider immediate sale of the property.

Mr. Boozer, on the other hand, pointed out that permit had been previously granted for the establishment of the restaurant at that location, and that he could see no reason why either of the proposed businesses would be any more objectionable.

After listening for some time to the arguments of both sides, city council voted to deny permits for either of the proposed establishments.

Governor Proclaims Friday Arbor Day

Friday, April 4, has been designated Arbor and Bird Day in the state of Delaware through a proclamation issued by Governor Elbert N. Carvel.

In setting aside this day Governor Carvel urged its observance in all public and private schools, colleges and other institutions, by organizations and individuals. He urged that the occasion be marked by the planting of trees and shrubs on public and private grounds.

In the special gatherings the governor suggested that exercises be conducted for the purpose of "advancing the knowledge and appreciation of trees and shrubs, and the protection and encouragement of birds that we, as a people, may learn to administer wisely and beneficially all natural resources."

Du Pont Co. Scrap Drive Brings Over 59,000 Tons

The Du Pont Company "mined" through iron and steel scrap last year to make the steel for a 43,000-ton battleship, a naval aircraft carrier, 100 Sherman tanks, and 440,000 five-shells.

The scrap was rounded up by the company's salvage and reclamation program begun in 1907 and pressed with redoubled intensity last year in response to the National Production Authority's plea for scrap metals critically needed for defense and essential civilian production. DuPont's collection was channeled to outside companies and into re-use in its own operations.

Cancer Kills 497 In Delaware During 1951 Says Society

A total of 497 persons died in Delaware of cancer in 1951, it was reported yesterday by the Delaware Division, American Cancer Society, as the 1952 Delaware Cancer Crusade got under way throughout the state.

The statistics on cancer mortality, provided by the State Board of Health, show the 1951 deaths are 11 less than the 1950 total of 508 cancer deaths. The difference is regarded as insignificant. Cancer deaths in 1950 and 51 show an increase of about 10 per cent over the 451 deaths in 1949 and 466 in 1948. It is not clear whether this is partly due to better reporting or to an increase in deaths from this cause.

Of the 497 deaths for last year, 248 were male and 249 female. Nine of the cancer victims were under 10 years of age. At total of 185 out of the 497 died of cancer of the digestive system or peritoneum, while 56—including 46 males had the disease in the respiratory system. Thirty-five women died of cancer of the breast and 67 of cancer of the genital organs.

Final Arrangements Made For Clean Up Drive April 5-12

Special Trash Collection To
Be Made; Boy Scouts
Collect Scrap

Newark's Clean Up-Paint Up-Fix Up Campaign will officially open Saturday, Mrs. T. L. Cairns, chairman, announced this week that all plans have been completed and indications are that both the residents and city officials are united in this effort to make the city a healthier and better community in which to live.

"All civic clubs, organizations, and institutions have been given definite jobs to do," said the director, "and it appears that the campaign can't help but be a success."

Residents are reminded that a special trash collection will be made by the city on Wednesday, April 8, and it is requested that all trash be placed on the curb in the usual manner.

On Saturday, Newark Boy Scouts will conduct a scrap metal drive in connection with the campaign and residents are requested to place this material on the curb. No tin cans are to be included in this scrap metal.

City officials have announced that the city dump, located at the Newark Disposal Plant, will be open from 9 a.m. till 4 p.m. daily during next week for the convenience of those who desire to take combustible material there for burning.

Members of the Newark Girl Scouts have distributed pamphlets to each home containing information regarding the campaign.

A heated verbal exchange between Councilmen Samuel Diehl and William Coverdale marked the discussion of the proposed rezoning of East Main Street by city council on Tuesday night.

An ordinance calling for the rezoning of the area between the Pomeroy tracks and Tyre Avenue was defeated since the measure obtained only three favorable votes while two members opposed.

Due to the fact that there were only three favorable votes, the ordinance did not receive the approval of a majority of the seven member group and therefore was defeated for the time being.

Only five members of city council were on hand for the meeting. Councilman Carl S. Rankin, western district, and Mayor Wallace M. Johnson were absent.

Voting in favor of the ordinance were Frank Durnall, acting president of the council, Samuel Diehl, and Dr. J. R. Downes. Opposing were William Coverdale and Donald Hill of the eastern district.

This present defeat of the ordinance calling for the rezoning of this area of East Main Street does not mean that the matter is concluded, it was pointed out, since the ordinance can be recalled for consideration at any future meeting.

Several weeks ago, city council read for the first time an ordinance calling for the rezoning to business of this area, but the matter was never considered for final passage due to a change in the recommendation by the Newark Planning Commission regarding the depth of the rezoning on the northern side of the street. The previous act called for the rezoning only to the depth of properties facing on Main Street, while the new ordinance specifies that the area from Main Street back to the railroad in the rear of the properties be included in the rezoning.

Railroad Anxious To Place Watchmen At City Crossings

Automatic Gates Requested For
N. College Ave., W. Main
Street Crossings

D. A. Steel, grade crossing engineer for the Baltimore and Ohio Railroad Company, appeared before city council on Tuesday night to request permission from the city for the installation of automatic crossing gates at track crossings here in Newark.

He stated that it was the plan of the company to replace the watchmen at the West Main Street and North College Avenue crossings. Council stated that the matter would be considered and a decision reached in the near future.

In requesting permission for the change, Mr. Steel pointed out that the trend is toward doing away with watchmen at crossings where possible since the automatic gates have proven definitely superior to humans as far as safety is concerned. He urged council to give the matter immediate consideration so that in the event the installation was approved, the company could complete plans for the change.

With regard to the West Main Street crossing, Mr. Steel stated that in addition to the gates, it would be necessary for the company to be given permission to construct directional curbing in the street to guide the flow of traffic in the proper paths. This curbing and the automatic gates, he said, would be installed at no cost to the city of Newark.

Eugene D. Sheats

Have you seen a "sharpie" around school this year? His name is Eugene Sheats, better known as "Pete." If Pete doesn't speak to you girls, it's not because he's conceited. He says, "It's because I am bashful." Pete came to us this year from Christiansburg where he attended school for two years, and before that he was enrolled at Eden School, Bear, Delaware. Since this is his first year at Newark High School, Pete is a member of the Freshman Class and is taking the commercial course. Listed under his favorites are the following: favorite subject—general math; favorite sport—baseball; favorite teacher—William Morrison; favorite food—ice cream; favorite T. V. program—"I Love Lucy."

Pete works in his spare time and his hobby is hunting. Pete settles for dungarees as school clothing. His pet peeves are "Ornerly" girls, and cigarettes.

Going steady doesn't go for Pete. He has so many special friends that it's impossible to name them all. Pete was born December 29, 1936, in Wilmington, Delaware. He has brown hair, blue eyes, stands 5 feet 8 inches tall, and weighs 147 pounds.

His plans after graduation have not been definitely decided upon, but he's sure to be a success in whatever he does.

Helen Starkey

Do you know who will lead our cheerleaders next year? She is a popular and well-liked junior. Yes, I am speaking of Helen Starkey.

Helen is a dirty-blond, rather short and active in many activities and sports. She is one of the pitchers on the softball team, a forward on the basketball team and a right half-back on the hockey team. "Hel," as she is called by her friends, will be head cheerleader next year.

Helen has no favorite athlete. She takes the commercial course, and book-keeping is her favorite subject.

She has spent all her life in Newark. She was born March 11, 1935. Her ambition is to be a bookkeeper, and you can usually find her with Carol or Nancy.

FOOL!

You don't mind being fooled sometimes—and about some things.

But it's no fun at all when somebody tries to fool you with a bad idea—especially when it's disguised as something good!

For example, you hear some people say that everybody would benefit if the federal government took over important businesses and services

—the railroads, the doctors, the electric light and power companies.

That's the dangerous kind of fooling. For what they suggest, under its disguise, is socialism.

When you hear somebody falling for that "let the government take over" talk, remind him that he's recommending socialism. Very few Americans want to live in a socialistic U. S. A.

Spring Is Season To Fertilize Trees

Trees can grow better with fertilizer, just like other plants. Keeping a tree vigorous and healthy will help combat diseases as well as giving you a more beautiful tree, says Robert F. Stevens, horticulturist with the Delaware Agricultural Extension Service. The best time to apply fertilizer to most trees is in March, as soon as the frost is out of the ground. If you fertilize your lawn, less fertilizer will be needed for the trees.

Fertilizer for trees should be "planted" deep, says Stevens, to keep the lawn grass from using it. Insert it in holes about 12 to 18 inches deep. Start about 6-8 feet from the trunk, for large trees, and make holes with a crow bar about every two feet, out to beyond the branches. Circles of holes about two feet apart completely around the tree are necessary.

A general rule for amount is to use 2 pounds of a complete fertilizer for each inch in diameter of the tree trunk, measured at breast height. A complete fertilizer such as 5-10-5 or 5-10-10 is satisfactory.

Evergreens usually need less fertilizer than other trees. Too much nitrogen burns evergreen foliage. If you maintain a quick around your evergreens about 1 cupful of 5-10-5 for each 40 square feet is effective.

work exemplified by Little Elk Tribe from Cherry Hill, Md. Great chiefs to witness the degree work were Ralph Buckingham, sachem; Bayard Smith, chief of records; Alfred Davidson, keeper of wampum; Alfred Davidson, sennap; Raymond Davis, mishienew; Lewis Felt, guard of wigwam; Edwin Green plate, guard of forest. The guests came from Wilmington, Bear, and Newark. There were 100 in attendance for this ceremony which is held usually once a year.

The tribe and Leola council will hold their raising up ceremonies next week. Union 4-H Club members were told of poultry raising at their monthly meeting Saturday night. Mr. and Mrs. Daniel Harris, local leaders, demonstrated the weighing and candling of eggs. The club will hold a roller skating party Saturday evening at Merryland Rink near Glasgow. Harvey Smith became a member.

Mr. and Mrs. Albert Humphreys and son, John of Greenwood, were weekend guests of Mr. and Mrs. R. P. Major in Eastburn Heights. Red Clay Creek Presbyterian Church Miss Margaret Barnes, eastern area secretary of the Department of Women's Work, Board of Christian Education will speak this afternoon to the executive board of the Women's Missionary Society, the secretaries of departments, and committee members.

Sallie Evans and her grandfather, L. H. Pennington, have been ill for the past week with the virus germ.

Laurel Handicap To Be Run On Saturday At Maryland Track

Algair, Hi Billee Will Meet In 37th Running Worth \$15,000

The pace steps up as the combined Laurel-Bowie spring meet of 33 days swings into its second full week of competition to be climaxed by the thirty-seventh running of the famed Laurel Handicap on Saturday.

Run at a mile for three-year-olds and upward and carrying an added purse of \$15,000, the Laurel long has been one of the top handicaps in this area for middle distance horses.

When nominations closed on March 15, a total of 28 thoroughbreds were named for Laurel. From this group, Racing Secretary Charlie McLennan regards the following eight horses as certain starters.

Bedford Stable's Call Over, Carolyn K. Stable's Hi Billee, Alan Clarke's King Mowlee, Mrs. Walter M. Jeffords' Post Card, Henry A. Kimball's Algair, E. A. Nicodemus' Laran, Mrs. Alfred Roberts' Eatontown and Alan J. Wilson's Arbutus Ellate.

Others named for the Laurel who must be considered as possible starters are Mrs. E. H. Augustus' Euclid, Cary Boshamer's King Clover, Carolyn K. Stable's Whiffenpoof, Clarke's Senator Joe, William Ewing's Auditing, W. Y. Goldsborough's Binky B. Henry Hecht's The Pincher, Mrs. E. L. Hopkins' Three Rings, Mrs. A. C. Irvine's Friendly Frank, Jerry Lynch's Early's In A Spin, Mrs. Louis Lazare's Inc's Heath, Maine Chance Farm's Colony Date, Palatine Stable's Chiclé 2nd and Woodchuck, Gustave Ring's Platoon, Alfred Rothausen's Daylight, Time, Jovett Shouse's Cinda, Mrs. S. G. Stickler's Brandy Punch, Cockfield Stable's Arcave and Trio Stable's Apsley.

Algair and Hi Billee have been winners at the meeting, the former accounting for the six furlongs Capitol Handicap on opening day, Post Card, winner of the Maryland Handicap here last year, was second to Hi Billee in his lone outing of the current year.

Call Over won last year's Trenton Handicap at Garden State in addition to other fixtures.

City Baseball Nine Will Hold Practice Session On Sunday

Newark Will Compete In Fast Susquehanna League This Season

Officials of the Newark baseball team announced this week that the local club will be a regular member of the strong Susquehanna League for the first time since 1948. Last season the local team played the second half in the league and was the surprise club of the circuit, finishing in a tie for second place.

On Sunday the team will hold the first practice session of the season and all candidates are urged to report.

Six teams will comprise the Susquehanna League this year. In addition to Newark, there will be representatives of Havre de Grace, last year's pennant winner, Elkhon, Aberdeen, Chesapeake City, and Hickory.

This is reported to be one of the stronger amateur leagues in the East, and several players in the league during the past several seasons have gone on to do well in professional ranks.

Two of the most notable graduates of the league now playing pro ball are Brandon Davis, a Newark boy, who is rated high by officials of the Pittsburgh Pirates, and Dick Hall, Swarthmore graduate, who is expected to start at first base for the Pirates.

Due to the fact that local high school players are not allowed to compete until the scholastic season is completed, several Newark High players will not be able to start the season with the team. These players include Bunny Blaney, Ronnie Bramble, Albie Sparks, Joe Thorpe, and Jim Seydell.

Holdovers from last season's club include: George Jenkins, the team's leading hitter, Gene Schae, Jimmy Ford, Spike Barouth, Buddy Catali, Jimmy Knotts, Gil Boettel, Billy Woodward, Moxie Brown, Hi Miller, Ken Wood, Frank Porter, and Ronnie Woodward.

Delaware Prepares

Mill Roberts, coach of the University of Delaware lacrosse team, is shown here giving his charges a few last-minute instructions as the Blue Hens get ready for the season opener this week against Kenyon College.

Although a comparatively new sport at the university, lacrosse has picked up a lot of student interest, and last year the Delaware club ended up with the respectable record of eight wins, and five losses.

For the first time in the history of the school a Delaware team will take on Big Ten opposition this week when the Blue Hen club shown above meets Ohio State.

Brandon Davis May Remain On Pirate Roster This Season

Pittsburgh Writers Say Former Newarker Fastest Man In Big Leagues

According to the baseball writers traveling with the Pittsburgh club, the Pirates boast of the fastest runner in either of the major leagues. He is Brandon Davis, former Newark High School and Duke University athlete.

Although only a fair hitter, and average fielder, Brandon is rated a good chance on remaining with the Pirates for the coming season due to his blinding speed on the basepaths. During one recent game against major league opposition, he stole second, third, and was nipped at the plate in a close decision in an attempt to make it all the way around on speed.

General Manager Branch Rickey and his staff are reported impressed with the fleetfooted Newarker who has been clocked at 9.4 in the hundred while wearing his baseball uniform.

Another rookie who seems destined to start the season at first base for the Pittsburgh club is Dick Hall, 6-foot, 6-inch rookie from Swarthmore College. Despite the fact that he was picked off the campus of Swarthmore and has never played organized ball, the Garnet athlete is rated a strong contender to open the season in the Pirate lineup.

Algoise also had a foal last year by Phalanx which brought \$25,500 at the Charles E. Nelson dispersal sale last fall. This is a world's record price for a weanling filly. James Cox Brady, the New Jersey sportsman, bought the foal, now a yearling.

Maryland racing in general and the 33-day joint Laurel-Bowie meet in particular got off to a roaring start Saturday with a crowd of 21,888 wagering \$1,325,111, a record Laurel opening. This was far better than the first Saturday of last spring's session when 16,748, bet \$949,172. The track's record is \$1,523,204, which 25,000 patrons bet on October 29, 1945. There is

Delaware Club Loses Contest 4-2 While Outhitting Winners 6-4; Errors Aid Terps To Nab Third Straight Win

The University of Maryland made the most of four base hits, four walks and several Delaware errors to score four runs on Monday and hand the Blue Hens a 4-2 defeat in their opening game of the season. It was the first straight victory of the season for the Terps.

Connie Hemphill went the distance for the Maryland club, scoring the second win of the season while striking out nine of the Hens and keeping them well in hand until the eighth inning when they pushed across only two runs.

In the eighth, Frank Serpico bled and completed the circuit on a fly to the outfield by Carmichael and an error.

Maryland opened the scoring in the fifth when Joe Lank bobbed to the Weber on first. An infield out followed by a single by Don Baranick, Maryland catcher, accounted for the score.

In the sixth, Hanulak struck Bernie Faloney was safe on an error throw by Chuck Abrams, Delaware third baseman, Heinbaugh walked and both men scored on a single by Baranick.

High School Seniors Plan Annual Census In Area Next Week

Survey Will Include Study of Occupational Prospects in District

This year, in addition to the annual census, the seniors' social studies class of Newark High School plan to obtain additional information about occupational opportunities of the immediate area. April 1st to 4th, students will canvass Newark School District and will condense the obtained information into a mimeographed booklet. The population census is designed to aid the school in determining the school enrollment for the coming year. Each family will be asked how many children are of pre-school age, and those attending elementary and secondary school. This information will determine whether a new school should be constructed in sections where the population is rapidly increasing.

The occupational census will consist of such questions as:

1. What type of work the head of the family is engaged in?
2. What type of work the mother does?
3. What type of work other members of the family who have graduated and are still at home do?

The teachers sponsoring the project are as follows: advisors, Miss Anne Gallagher and Frederick B. Kutz; proof-reading, Raymond Justin and Miss Jeanette Thoroughgood; graphs and statistical information will be computed by Miss Dorothy Markert and Miss Anne Stantler. Robert Prickett will construct a 4" by 6" map of the present school district.

The student committees consist of: publicity, Beverly Haman, Mary Hodgson, Nancy Lewis, Janet Crowe, James Seydell, Norris Smith, and Vernon Baker. The maps and charts will be made by William Spencer, Richard Dayton, William Knotts, James Draper, Floyd Croll, and Robert Boutin. Editorials will be written by Annette Ely, Vernon Baker, Agnes Tierney, Faye Meredith, Diane Carr, and Edith Priestley. Proofreaders will be Phyllis Baker, Florence Davis, Ellen Cooper, Helen Leasure, Nancy Lewis, and Mary Ann Miller. Reports will be made by James Draper, Gertrude Delp, Glenn Skinner, Ann Crunden, and David George. The steering committee will be Dorothy Martin, Leora Waller, Irene Klahr, William McLean, Stephanie Worrlow. Mimeograph and typing will be done by Wayne Sparks, Dolores David, Nancy Dean, Kenneth Rash, Priscilla Richards, and Marion Lemon.

All - State Chorus To Present Concert

The Delaware All-State Chorus in cooperation with the Department of Music of the University of Delaware will hold a two day music festival on the university campus with a public concert at 8:15 p.m., Friday, April 4.

Twenty-six high schools from New Castle, Kent, and Sussex Counties will be represented in the chorus, which will be conducted by Walter C. T. Ehret, Director of Music, Malverne, New York, and Hofstra College, Hempstead, New York. Last year, he directed the Sussex County Chorus in a special performance and is, therefore, no stranger to Delaware students.

Special arrangements for the affair are in the hands of a committee composed of H. Franklin Carroll, chairman; J. Richard Bolger, Edna Marie Hipwell, George G. Messick, Clarke Maynard, and Marvin Pennema. Over one hundred students are expected to sing in the chorus, for which an elaborate program has been arranged.
