CURRENT PLAY TO BE GIVEN BY PLAYERS

"Flight To The
West" Now On
Broadway Stage;
Kronacher Directs

For the second time this year, the E-52 Players of the University of Delaware are engaged in producing a modern play of unusual and timely interest. For their final dramatic presentation of the season, the Players will stage the current Broadway hit, "Flight To The West" by Elmer Rice. The dramatization of an airliner flight of refugees from the European conflagration will have its first production by an amateur group when the E-52 Players stage the latest Rice play in Mitchell Hall on May 16.

The Delaware thespians went out on the theatrical limb last fall when they successfully produced the Saroyan three-act comedy, "Love's Old Sweet Song." By obtaining a special release for "Flight To The West", the college players acquired the performance rights to a particularly up-to-the-minute drama of our day.

Added interest is attached to this production, since it is under the direction of Dr. Alvin Kronacher, prominent theatre director and drama authority of Europe, who is now resident lecturer on dramatics at Delaware University. Dr. Kronacher will be directing his first play in this country, the particular theme of "Flight to the West" being especially familiar to him due to similar experiences in journeying to the United States.

The casting has been completed and rehearsals are in progress. Miss Phyllis Wood and Miss Mina Press, who starred in the E-52 production recently of "Candida" have been given roles in this play. It has been announced that the box office will be open for advance sales next Monday.

The financial campaign will get under way on Monday, May 5, and last for ten days, ending Thursday, May 15. The thermometer used to indicate the progress of the campaign will be erected on Main street to keep the populace informed of the degree of success being attained.

With about \$200 on hand from the recent Lions Club card party as a nucleus, it is estimated that at least \$1,000 will be necessary to assure the financial success of the eight-week project this summer. This amount is sought from public subscriptions of individuals, civic, service and fraternal organizations.

ZONING DISCUSSED AT LIONS MEETING

Interesting
Talk Given
By Counahan

"Municipal Zoning" was the topic of J. D. Counahan, program chairman for the evening, at the Tuesday evening dinner meeting of the Newark Lions Club held in the country club.

When his speaker, Albert H. Hammond, Wilmington attorney, failed to appear, Mr. Counahan gave an interesting discussion on the subject. Defining the question, "What is Zoning?" Mr. Counahan said "Municipal zoning has been defined as the application of common sense and fairness to the public regulations governing the use of private real estate."

"It is a painstaking, honest effort to provide each district or neighborhood, as nearly as practicable, with just such protection and just such liberty as are sensible in that particular district. It avoids the error of trying to apply exactly the same building regulations to every part of a city or town regardless of whether it is a suburban residence section, or a factory district, or a business and financial center."

"Zoning regulations differ in different districts according to the determined uses of the land, but these differing regulations are the same for all districts of the same type."

So interesting was Mr. Counahan's topic that it was necessary to call time before the discussion was completed.

Dr. P. K. Musselman reported on the recently conducted benefit card party and George M. Haney was appointed chairman of a committee to provide waiters for the May Mart dinner.

Lester Bucher, Director of the State Department of Music, was the guest of Dr. Musselman at the meeting. Birthday congratulations were extended to Herman Handloff, John K. Speicher and R. T. Jones whose anniversaries all fell on April 19.

The dinner will be in the form of a father and son affair, each of the club member's fathers being invited. In addition to these, many other guests will attend, including professors on the campus, agricultural teachers in Delaware high schools, college officials, and alumni of the school of agriculture.

"AIR RAID" TRYOUTS

The Radio Guild of the University of Delaware is conducting tryouts this week for Archibald MacLeish's "Air Raid," to be presented over station WILM, on May 6. Phyllis Wood, who adapted the radio drama last year for a Mitchell Hall playbill, has been asked by the Guild to direct the play in its original form. The thrilling dramatization of an air raid on a small village in central Europe is one of a series of varied programs entitled "University On The Air," produced by a student group of the University every Tuesday evening at 8 o'clock.

Broadcasting weekly since February, the Radio Guild meets all aspects of public taste by varying their programs with student panel discussions, faculty round tables, music appreciation programs, and radio plays. More than fifty students and faculty members associated with the university have aided in producing the "University On The Air" series which will continue until the latter part of May when the school year is terminated.

AID AT HAND

America is a land of travelers. The wanderlust is firmly imbedded in our national character. The typical American wants to go places and see things, and he does on every possible occasion.

We Americans, as a result, have the finest transportation plant in the world. The number of motor cars we possess, for instance, is the envy and wonder of other peoples. A car is a rich man's luxury in most countries—here it is an ordinary man's necessity. The great bulk of Americans do all their traveling at home.

One unfortunate consequence of this vast amount of motor travel is our high accident rate. We skid into ditches. We hit other cars. We run over pedestrians. We collide with trains. The result is hundreds of thousands of injuries each year.

But in spite of the carelessness of the American citizen, he gets a break in the form of the finest and most comprehensive medical service the world knows. No matter how remote the area, the chances are that a doctor can be on the scene of an accident within a few minutes. And he will be a capable doctor, who will go quietly and swiftly and efficiently about the job of treating wounds and doing whatever else is necessary. Outstanding medical technique is the rule, not the exception, in this land of ours.

There is a qualified physician in this country for each 767 people, on the average. That is a higher proportion than in any other nation. Whether you're in a big city or a tiny village or driving through the open country, you can be sure a doctor isn't far away. He's ready to serve if the need arises. And it may be that he will save your life.

PRINTING THE NEWS

When to print a disagreeable story and when to leave one out of the paper is one of the most troublesome problems of a small-town editor. In the case of a person who is unfaithful to a public trust, or one who is guilty of a serious crime, it is not difficult to decide, because the public interest as well as the public's right to have the news, demands that it be printed.

There are some cases, however, in which the offense is entirely of a personal nature, and in which publishing the story would bring sorrow and embarrassment to innocent persons without serving any beneficial purpose. In these the making of a proper decision is often not easy. If the story is printed, relatives and friends of the person concerned will feel that it is unnecessary; if it is suppressed, the scandal-mongers will be disappointed, and many will insinuate that the editor was "bought off."

So, it's hard to please everybody and no editor of sense tries to please everybody. He must let his own judgment and his own conscience be his guide.

If he errs on the side of kindness and sympathy for the unfortunate, his error will be forgiven by the more enlightened readers of his newspaper.

SOUNDS LOGICAL

"The war cannot be won in the Balkans. But the beginning of the end could very well be effected there. If the Battle of the Balkans actually takes place, as now seems close to inevitable, the war will really enter its decisive phase.

This battle represents immense dangers to both sides—and both for some time have been hesitant to run the risk. Now it looks as if the strategists may have decided that the possible gains are so great that it is worth the gigantic gamble.

As Time puts it, "For Germany, a setback in the Balkans would be more than Germany's first outright military defeat in World War II. It would be the turning point of the war.

"For Britain, a decisive defeat at Salonika (or anywhere else in the Balkans) would be more than another Narvik or another Dunkirk. It would mean the destruction of Britain's only existing victorious army; the closing of Europe's back door; the focussing of the entire war upon the British Isles—where, in the last analysis, World War II must be decided."

The old felt hat which President Roosevelt wore during three presidential campaigns was sold at auction to Edward G. Robinson and Melvyn Douglass, actors, for \$3,200, the money going to the motion picture relief fund. The President had given the hat to Jean Hersholt for the fund, saying, "I won't need it again."

In the last six months about one-half of Chicago's rat population, originally estimated at 1,750,000, has been destroyed, in a campaign sponsored by the public works department. Poison and rat-proof garbage receptacles to deprive the rodents of food have been the principal means employed in the work of extermination.

Seven blind men of New Orleans recently finished making 22,500 mops for the Army quartermaster department at the rate of about 900 a day. The final shipment to the Atlanta quartermaster depot was made 11 days ahead of schedule.

Walter Wolfe of Logan, Ia., has won an automobile for writing the best letter telling why he prefers a certain brand of cigars. The odd part of the story is that he neither smokes nor drives a car.

For the first time in 22 years the annual celebration of the Fascist party's founding did not include a speech by Mussolini. In view of the last year's happenings, the Black Shirts had little to celebrate, and the dictator probably had a severe headache.

Letters To the Editor

On Sunday last, Dr. Wallace M. Johnson answered the call of his country and left Newark for one year's service at Fort Benning, Georgia.

His departure should make us all realize more fully the seriousness of our country's position in this terrible World Conflict. Dr. Johnson, personally, has felt for sometime the seriousness of the situation. His fervent patriotism has led him on realizing fully the great sacrifice he, as well as his family, will be called upon to make. He has "Picked up the Torch" and with "Thumbs Up" and that ever present smile, has answered the call of duty.

There are some who may say that he could have waited and gone later if necessary. Today our military program of mobilization is in full swing. Our hastily built camps are rapidly filling with the cream of our American Youth. These boys need such experienced medical officers and men as Dr. Johnson. We cannot take the best of our youth without giving them the best in medical care. We pray that other high caliber physicians will "see eye to eye" with Dr. Johnson and give unstintingly their service, as he is doing.

From our selfish point of view we hate to see him go. We will miss him probably more than he, in his new and busy environment, will miss us, but we will not forget him. We will be looking eagerly, yes, anxiously, for his return to our midst.

In our quiet moments we try to analyze our feelings and we ask ourselves why we feel this way about his leaving us. It is not the fact itself that calls for these special remarks, but the reason for it.

It is true that he is a good physician. He has done much while in his new and above his duties as a doctor—given much beyond what he was paid for. He has contributed much to our town as a civic leader. In fraternal circles he has always been ready to lend a helping hand.

It is not alone for the things enumerated above that he is endeared to us. When all the sources of public esteem are exhausted and fail to yield the secret of our admiration for him, we are confronted with a phenomenon of American Life, we admire him for the power of his character alone. We admire him for the man that he is.

We in turn say to him—"Thumbs up and God Speed."

Demonstration farms set up by the Soil Conservation Service in cooperation with farmers and the Delaware Agricultural Extension Service clearly show the differences in land problems that are facing Delaware farmers. In the northern part of the State where the soil conservation demonstration area has been set up for the past three years, most of the losses of valuable topsoil can be charged up to the movement of water.

There is some loss of crop-producing soils caused by water in Kent and Sussex Counties, but the big need in southern Delaware is for better soil drainage. Surface drainage demonstrations are now being planned on the farms of Arthur Taylor in Kent County, and F. M. Gumm in Sussex County. Schley Biddle of Kent County, has established a complete demonstration of wind erosion control. The farms of Kent Counsellans Laurence E. Cain and R. Harry Wilson are planned for erosion control. Soil surveys are being completed on the farms of Eberle Kent, W. L. Simpson and Mr. Chambers.

THE BLUE HENS' VICTORY OVER West Chester on Monday afternoon has solved a problem that must have been bothering Coach "Doc" Doherty since the beginning of the season—a problem that presented itself when his son, Gerald, Jr., reported for the Delaware diamond drills.

Instead of forcing the Blue and Gold mentor to make a difficult decision by being just another ball chaser, Jerry took matters into his own hands and made his father's choice for him.

Playing a reckless brand of ball, supported mainly by speed and a fearless personality despite his lack of size, the diminutive outfielder has turned in outstanding performances in the Hens' last two tilts.

AGAINST DREXEL ON SATURDAY, he collected two hits in four trips to the plate and stole three bases, coming home with a run as he outsmarted a Dragon hurler.

His most timely play, however, and one which appears to have clinched him a berth on the Blue and Gold line, was the three-base blow on Monday which sent the tying runs scurrying across the plate in the ninth frame against West Chester. He scored a moment later when Perry Burkett singled, turning what looked like a positive defeat into Delaware's fifth conquest of the season.

WHILE HANDING OUT CREDIT for the West Chester conquest, you can't entirely overlook the performance turned in by Johnny Daly, southpaw hurler, who throttled the Teachers' bats for the last six innings. Only three hits rang from the big portlander's offerings, all in different frames, and only 20 men faced him during his tenure on the mound.

The left-handers appear to be having all the success this season, for another sophomore portlander, Hugh Bogovich has been credited with the other four Hen triumphs.

On the other hand, Bill Tibbitt, who was the big gun of the Delaware curve staff last year, has met with little success this season. Against West Chester, the first man to face him singled, and he lost control to walk two men and lead the bases. Then Hens pulled out of this spot with only two runs against them, but Tibbitt, after yielding five hits, the same number of runs, and a pair of free tickets to first, was yanked with none out in the fourth.

Should Tibbitt ever reach the form displayed during the 1940 season, Coach Doherty will probably be blessed with the finest hurling trio in small college baseball.

But even if the experienced right-hander doesn't regain his form, he's still a valuable asset to the team because of his hitting ability and there are still a couple of pretty good southpaws to fall back on.

FREDDY MITCHELL, THE HEN'S shortstop, has slumped as far as his hitting is concerned, but he's still one of the best, if not the best, fielding player on the squad. Against Drexel he went hitless but waited out the hurler to get three walks, and handled six chances, just half of the assists turned in by the Delaware team, without a miscue.

He was credited with four of the ten assists against West Chester but was charged with one error for a wild toss to second in an attempt to make a force out.

Washington College, scheduled to put in an appearance here on Saturday, is reported to have a capable hurler in Selby, brother to Delaware's Luke. He'll have to be good to fill the shoes vacated by Addis Copple, the Hen's nemesis for a number of years, and Glenn Killinger, the West Chester mentor, is inclined to poo-poo Selby's ability.

The Teachers' outfit the Shoremen by a 9-6 count last Saturday, but dropped a 7-4 decision when their infield went on a hard-luck streak.

Practice Games For Continental Team Announced

The Continental-Diamond Fibre Co. baseball team will see action in two practice tilts slated for next week, it was announced today by Ellis Cullen, manager of the local outfit.

Allied Kid is slated to invade Newark on Tuesday night, while Hercules is scheduled to provide the opposition on Thursday. Both games will be played on the Continental field and will get underway at 6:30 o'clock.

A tentative lineup was announced by Manager Cullen as follows: Steve Hubis catcher; Earl Richardson, first base; Bob Barrow, second base; Gerald Edwards, shortstop; Bill Barrow, third base; and Jack Edmondson, Norman Brooks, and Art Fox, outfielders. Leon Mullin, Reggie Conway, and Bob Ewing are expected to divide the mound duties.

The locals are slated to officially open their 1941 season in the New Castle County League on May 6.

BLUE AND GOLD TOSSERS TO ENTERTAIN SHO'MEN ON SATURDAY AFTERNOON

Southpaw Hugh Bogovich Expected To Get Mound Call Against Hen Rivals; Hen Racqueteers Open Season This Afternoon Against Villanova

Back in the victory column with five conquests against four defeats after reversing Drexel Tech and West Chester State Teachers' College, the University of Delaware diamondmen will tangle with their outstanding rival, Washington College, Saturday afternoon.

While the Blue Hens appear to have found their stride with the ninth-inning uprising against West Chester, the Shoremen also sport a victory over the Teachers and are expected to provide plenty of opposition, despite the fact that Addis Copple, a jinx to Delaware, is no longer with them.

The Hens are expected to face the slants of John Selby, brother of Delaware's Lou, and the Eastern Shore hurler is reported to be coming along fast.

Coach Gerald P. (Doc) Doherty, the Blue and Gold braintrust, will, in all probability, call upon Hugh Bogovich, his sensational sophomore southpaw, who has been credited with four of the five triumphs thus far this season. Blessed with a change of pace, the husky hurler has succeeded in standing opponents on their ears and he shows no signs of the illness that kept him.

The Blue and Gold tossers, after handing Drexel an 11-7 setback on Saturday bounced back with a ninth-inning rally against West Chester on Monday to down the invaders, 6-5.

Gerry Doherty, son of the Hens' coach, put the finishing touches to a story-book finish when he tripled two runs across the plate to knot the county, while Perry Burkett provided the anti-climax with a single that brought Doherty home with the winning tally.

At no time until the final frame, could Hen followers entertain much thought of victory as the Teachers went right to work in the first inning, taking advantage of faulty Delaware fielding and Bill Tibbitt's wildness to score two runs. They tallied twice again in the second, and turned in their final counter in the third.

Coach Ralph W. Jones' tennis team will begin operations this afternoon when Villanova invades the local courts. Capt. Al Mock will handle the number one spot with the others ranked as follows: Tommy Jordan, Bob Walls, Truxton Boyce, and Dick Reed or Ray Habicht.

Coach Ed Bardo's track team will also launch its season today at Collegeville, Pa., where the Hens will meet Ursinus College. Representatives will also be sent to the Penn Relays at Philadelphia, Pa., on Friday and Saturday.

NEW TAX PREDICTED BY DANIEL

May Hinge
On Fate of
Johnston Bill

Unless the Johnston Bill, known as House Bill 45 is passed and the Motor Fund eliminated from the provisions of the "One-Fund Act," a veritable host of Delaware citizens may be forced to pay a new and heavy tax levy, H. V. Daniel, secretary, Associated Petroleum Industries of Delaware, predicted today.

"Delaware citizens are now aware of the fact that unless the Johnston Bill is passed and signed by Governor Bacon it appears highly probable that there will be no legal means of providing for a refund of gasoline taxes to consumers who use gasoline for other than highway purposes," Mr. Daniel declared.

"If the legal authorities who have made this interpretation of the 'One-Fund Act' are correct," Mr. Daniel pointed out, "thousands of our progressive farmers, everyone who operates a power boat or a stationary engine—even the housewife who now uses this type of fuel because of its economy—will see the prices of the commodity increased the exact amount of the present refund—a matter of four cents per gallon. From a percentage standpoint this threatened increase is tremendous—and, judged from the standpoint of those who will suffer, the circumstance is tragic."

"If the 'One-Fund Act' goes into effect without the Johnston Amendment, it will be too late to provide relief for the little fellow, the farmer and others of moderate circumstances. In addition, there will be further diversion of motor tax revenues to purposes other than highway use, thus adding another penalty due to operation of the 'One-Fund Act,' making it, in the final analysis, class legislation of the most drastic type."

"Delaware citizens in the lower income brackets are alive to the situation and are urging their legislative representatives to pass House Bill 45 and thus give them some measure of relief from what promises to be an intolerable and unfair condition. Increasing pressure makes it evident that the matter must come up for a vote in the immediate future."

NOW— 308,000 CALLS A DAY!

• In the past few months, the number of telephone calls we handle in Delaware has mounted to some 308,000 daily!

To handle them is a big job—but it's only part of the job we're now doing. Add to this the building of telephone plant at the rate of \$236,000 a month! To say nothing of the everyday job of maintaining more than 50,000 telephones and 240,000 miles of wire!

We are making an all-out drive of manpower, materials and money to supply the kind of telephone service Delaware needs in these critical times.
